Form 10-Q
September 05, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For Quarterly Period Ended July 31, 2014

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission File Number 1-8597

The Cooper Companies, Inc.
(Exact name of registrant as specified in its charter)

Delaware 94-2657368
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)
6140 Stoneridge Mall Road, Suite 590, Pleasanton, CA 94588
(Address of principal executive offices) (Zip Code)
Registrant's telephone number, including area code (925) 460-3600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one).

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.): Yes No

Indicate the number of shares outstanding of each of issuer's classes of common stock, as of the latest practicable date.
Common Stock, \$.10 par value 48,282,203 Shares
Class Outstanding at July 31, 2014

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

Note 1. General

The Cooper Companies, Inc. (Cooper, we or the Company) is a global medical device company publicly traded on the NYSE Euronext (NYSE: COO). Cooper is dedicated to being A Quality of Life Company™ with a focus on delivering shareholder value. Cooper operates through our business units, CooperVision and CooperSurgical. CooperVision develops, manufactures and markets a broad range of soft contact lenses for the worldwide vision correction market.

CooperSurgical develops, manufactures and markets medical devices and procedure solutions to improve healthcare delivery to women.

The unaudited consolidated condensed financial statements presented in this report contain all adjustments necessary to present fairly Cooper's consolidated condensed financial position at July 31, 2014 and October 31, 2013, the consolidated results of its operations for the three and nine months ended July 31, 2014 and 2013 and its consolidated condensed cash flows for the nine months ended July 31, 2014 and 2013. Most of these adjustments are normal and recurring. However, certain adjustments associated with acquisitions and insurance proceeds are of a nonrecurring nature. Readers should not assume that the results reported here either indicate or guarantee future performance.

During interim periods, we follow the accounting policies described in our Annual Report on Form 10-K for the fiscal year ended October 31, 2013. Please refer to this when reviewing this Quarterly Report on Form 10-Q.

On October 28, 2011, a manufacturing building in the United Kingdom (UK) experienced an incident in which a pipe broke in our fire suppression system, causing water and fire retardant foam damage to the facility. While this incident did not substantially impact our existing customers, the repairs to the facility and resultant decrease in manufacturing capacity impacted the timing of marketing initiatives to generate additional sales. In January 2013, we resolved our business interruption claim with our insurer for a total of \$19.1 million. We received payments of \$5.0 million in our fiscal fourth quarter of 2012. In our fiscal first quarter of 2013, we recorded the remaining \$14.1 million in our Consolidated Statement of Income of which we received payment of \$2.9 million during the fiscal first quarter 2013 and the remaining \$11.2 million in the fiscal second quarter 2013.

Management estimates and judgments are an integral part of financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). We believe that the critical accounting policies listed below address the more significant estimates required of Management when preparing our consolidated financial statements in accordance with GAAP. We consider an accounting estimate critical if changes in the estimate may have a material impact on our financial condition or results of operations. We believe that the accounting estimates employed are appropriate and resulting balances are reasonable; however, actual results could differ from the original estimates, requiring adjustment to these balances in future periods. The accounting policies that reflect our more significant estimates, judgments and assumptions and which we believe are the most critical to aid in fully understanding and evaluating our reported financial results are:

- Revenue recognition
- Net realizable value of inventory
- Valuation of goodwill
- Business combinations
- Income taxes
- Share-based compensation

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

During the fiscal first nine months of 2014, there were no significant changes in our estimates and critical accounting policies. Please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended October 31, 2013, for a more complete discussion of our estimates and critical accounting policies.

Accounting Pronouncements Issued Not Yet Adopted

In July 2013, the FASB issued ASU 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit when a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. ASU 2013-11 requires an unrecognized tax benefit to be presented in the financial statements as a reduction to a deferred tax asset when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. When a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available, or the entity does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The Company does not anticipate the adoption of these amendments, which are effective for the Company for the fiscal year beginning on November 1, 2014, will have a material impact on our consolidated results of operations, financial condition or cash flows.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 requires revenue recognition to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 sets forth a new revenue recognition model that requires identifying the contract, identifying the performance obligations, determining the transaction price, allocating the transaction price to performance obligations and recognizing the revenue upon satisfaction of performance obligations. The amendments in the ASU can be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the update recognized at the date of the initial application along with additional disclosures. The Company is currently evaluating the impact of ASU 2014-09, which is effective for the Company in our fiscal year beginning on November 1, 2017.

Note 2. Inventories

(In thousands)

	July 31, 2014	October 31, 2013
Raw materials	\$80,111	\$79,331
Work-in-process	13,908	10,515
Finished goods	259,365	249,071
	\$353,384	\$338,917

Inventories are stated at the lower of cost or market. Cost is computed using standard cost that approximates actual cost, on a first-in, first-out basis.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

Note 3. Intangible Assets

Goodwill

(In thousands)

	CooperVision	CooperSurgical	Total
Balance as of October 31, 2012	\$1,044,054	\$326,193	\$1,370,247
Net additions during the year ended October 31, 2013	3,363	11,017	14,380
Translation	1,061	1,923	2,984
Balance as of October 31, 2013	1,048,478	339,133	1,387,611
Net reductions during the nine-month period ended July 31, 2014	—	(590) (590
Translation	5,070	(1,180) 3,890
Balance as of July 31, 2014	\$1,053,548	\$337,363	\$1,390,911

We performed our annual impairment assessment in our fiscal third quarter of 2014, and our analysis indicated that we had no impairment of goodwill. We performed our annual impairment assessment in our fiscal third quarter of 2013, and our analysis indicated that we had no impairment of goodwill. We evaluate goodwill for impairment annually during the fiscal third quarter and when an event occurs or circumstances change such that it is reasonably possible that impairment may exist. We account for goodwill and evaluate our goodwill balances and test them for impairment in accordance with related accounting standards.

In fiscal 2014 and 2013, we performed a qualitative assessment to test each reporting unit's goodwill for impairment. Qualitative factors considered in this assessment include industry and market considerations, overall financial performance and other relevant events and factors affecting each reporting unit. Based on our qualitative assessment, if we determine that the fair value of a reporting unit is more likely than not to be less than its carrying amount, the two step impairment test will be performed. Initially, we compare the book value of net assets to the fair value of each reporting unit that has goodwill assigned to it. If the fair value is determined to be less than the book value, a second step is performed to compute the amount of the impairment. A reporting unit is the level of reporting at which goodwill is tested for impairment. Our reporting units are the same as our business segments - CooperVision and CooperSurgical - reflecting the way that we manage our business.

Goodwill impairment analysis and measurement is a process that requires significant judgment. If our common stock price trades below book value per share, there are changes in market conditions or a future downturn in our business, or a future annual goodwill impairment test indicates an impairment of our goodwill, the Company may have to recognize a non-cash impairment of its goodwill that could be material and could adversely affect our results of operations in the period recognized and also adversely affect our total assets, stockholders' equity and financial condition.

Credit Agreement

On May 31, 2012, Cooper entered into an amendment to our Credit Agreement, dated as of January 12, 2011, by and among the Company, CooperVision International Holding Company, LP, the lenders party thereto and KeyBank National Association, as administrative agent. The Credit Agreement, as amended, provides for a multicurrency revolving credit facility in an aggregate commitment amount of \$1.0 billion and the aggregate commitment amount under the revolving facility may be increased, upon written request by Cooper, by \$500.0 million. The amended Credit Agreement has a termination date of May 31, 2017.

The commitment fee rate ranges between 0.100% and 0.275% of the unused portion of the revolving facility based on a pricing grid tied to our Total Leverage Ratio (as defined below and in the Credit Agreement). The applicable margin rates on loans outstanding under the Credit Agreement will bear interest based, at our option, on either the base rate or the adjusted Eurodollar rate (currently referred to as LIBOR) or adjusted foreign currency rate (each as defined in the amended Credit Agreement), plus an applicable margin of between 0.00% and 0.75% in respect of base rate loans and between 1.00% and 1.75% in respect of adjusted Eurodollar rate or adjusted foreign currency rate loans, in each case in accordance with a pricing grid tied to our Total Leverage Ratio, as defined in the Credit Agreement. In addition to the annual commitment fee, we are also required to pay certain letter of credit and related fronting fees and other administrative fees pursuant to the terms of the Credit Agreement.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

The Credit Agreement is not secured by any of the Company's, or any of its subsidiaries', assets. All obligations under the Credit Agreement will be guaranteed by each of our existing and future direct and indirect material domestic subsidiaries.

Pursuant to the terms of the Credit Agreement and the term loans discussed below, we are also required to maintain specified financial ratios:

The ratio of Consolidated Proforma EBITDA to Consolidated Interest Expense (as defined, Interest Coverage Ratio) be at least 3.00 to 1.00 at all times.

The ratio of Consolidated Funded Indebtedness to Consolidated Proforma EBITDA (as defined, Total Leverage Ratio) be no higher than 3.75 to 1.00.

At July 31, 2014, we were in compliance with the Interest Coverage Ratio at 78.88 to 1.00 and the Total Leverage Ratio at 0.67 to 1.00.

At July 31, 2014, we had \$999.8 million available under the Credit Agreement.

Term Loan

On September 12, 2013, the Company entered into a five-year, \$300.0 million, senior unsecured term loan agreement by and among the Company; the lenders party thereto and KeyBank National Association, as administrative agent. This syndicated credit facility will mature on September 12, 2018, and will be subject to amortization of principal of 5% per annum payable quarterly beginning October 31, 2016, with the balance payable at maturity.

Amounts outstanding under this term loan agreement will bear interest, at the Company's option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds effective rate and (c) 1% in excess of the adjusted Eurodollar rate (currently referred to as LIBOR) for a one-month interest period on such day, or the adjusted Eurodollar rate, plus, in each case, an applicable margin of, initially, 0%, in respect of base rate loans and 0.75%, in respect of adjusted Eurodollar rate loans. The applicable margins will be determined quarterly by reference to a grid based upon the Company's ratio of funded debt to consolidated proforma EBITDA, or Total Leverage Ratio as defined in the term loan agreement, and consistent with the revolving Credit Agreement discussed above.

This term loan agreement contains customary restrictive covenants, as well as financial covenants that require the Company to maintain a certain Total Leverage Ratio and Interest Coverage Ratio, as defined in the agreement, consistent with the revolving Credit Agreement discussed above. The agreement also contains customary events of default, the occurrence of which would permit the Administrative Agent to declare the principal, accrued interest and other obligations of the Company under the agreement to be immediately due and payable.

At July 31, 2014, we had \$300.0 million outstanding under the Term Loan.

\$700.0 million Term Loan on August 4, 2014

On August 4, 2014, after the end of our fiscal third quarter of 2014, we entered into a three-year, \$700.0 million, senior unsecured term loan agreement by and among the Company, the lenders party thereto and KeyBank National Association as administrative agent. This syndicated credit facility will mature and the balance is payable on August 4, 2017. There is no amortization of principal and we may prepay loan balances from time to time, in whole or in part, without premium or penalty.

Amounts outstanding under this term loan agreement will bear interest, at the Company's option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds

effective rate and (c) 1% in excess of the adjusted Eurodollar rate (currently referred to as LIBOR) for a one-month interest period on such day, or the adjusted Eurodollar rate, plus, in each case, an applicable margin. The applicable

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

margins will be determined quarterly by reference to a grid based upon the Company's ratio of funded debt to consolidated pro forma EBITDA, as defined in the term loan agreement and consistent with the revolving Credit Agreement.

This term loan agreement contains customary restrictive covenants, as well as financial covenants that require the Company to maintain a certain Total Leverage Ratio and Interest Coverage Ratio, each as defined in the agreement, and consistent with the revolving Credit Agreement. This term loan agreement also contains customary events of default, the occurrence of which would permit the Administrative Agent to declare the principal, accrued interest and other obligations of the Company under the agreement to be immediately due and payable.

This term loan was not outstanding at July 31, 2014. In August 2014, we utilized this facility to fund the acquisition of Sauflon Pharmaceuticals Limited, as well as to provide working capital and for general corporate purposes.

Note 5. Income Taxes

Our effective tax rate (ETR) (provision for income taxes divided by pretax income) for the fiscal first nine months of 2014 was 8.1%. Our year-to-date results reflect the projected fiscal year ETR, plus any discrete items. The ETR used to record the provision for income taxes for the fiscal first nine months of 2013 was 4.6%. The ETR is below the United States statutory rate as a majority of our taxable income is earned in foreign jurisdictions with lower tax rates. We recognize the benefit from a tax position only if it is more likely than not that the position would be sustained upon audit based solely on the technical merits of the tax position. At November 1, 2013, Cooper had unrecognized tax benefits, that if recognized, \$28.8 million would impact our ETR. For the nine-month period ended July 31, 2014, there were no material changes to the total amount of unrecognized tax benefits.

Interest and penalties of \$2.6 million have been reflected as a component of the total liability at November 1, 2013. It is the Company's policy to recognize the items of interest and penalties directly related to income taxes as additional income tax expense.

Included in the balance of unrecognized tax benefits at November 1, 2013, is \$3.6 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This amount represents a decrease in unrecognized tax benefits related to expiring statutes in various jurisdictions worldwide and relates primarily to transfer pricing matters.

At July 31, 2014, the tax years for which Cooper remains subject to United States Federal income tax assessment upon examination are 2010 through 2013. Cooper remains subject to income tax examinations in other significant tax jurisdictions including the United Kingdom, Japan, France and Australia for the tax years 2010 through 2013.

Note 6. Earnings Per Share

Periods Ended July 31, (In thousands, except per share amounts)	Three Months		Nine Months	
	2014	2013	2014	2013
Net income attributable to Cooper stockholders	\$88,067	\$88,951	\$239,070	\$238,754
Basic:				
Weighted average common shares	48,042	48,791	47,990	48,588
Basic earnings per common share attributable to Cooper stockholders	\$1.83	\$1.82	\$4.98	\$4.91
Diluted:				
Weighted average common shares	48,042	48,791	47,990	48,588
Effect of potential dilutive common shares	880	963	911	1,035
Diluted weighted average common shares	48,922	49,754	48,901	49,623
Diluted earnings per common share attributable to Cooper stockholders	\$1.80	\$1.79	\$4.89	\$4.81

The following table sets forth stock options to purchase Cooper's common stock and restricted stock units that were not included in the diluted earnings per share calculation because their effect would have been antidilutive for the periods presented:

Periods Ended July 31, (In thousands, except exercise prices)	Three Months		Nine Months	
	2014	2013	2014	2013
Numbers of stock option shares excluded	138	—	138	—
Range of exercise prices	\$119.89	\$—	\$119.89	\$—
Numbers of restricted stock units excluded	—	—	1	—

Note 7. Share-Based Compensation Plans

Cooper has several share-based compensation plans that are described in the Company's Annual Report on Form 10 K for the fiscal year ended October 31, 2013. The compensation expense and related income tax benefit recognized in our consolidated financial statements for share-based awards were as follows:

Periods Ended July 31, (In millions)	Three Months		Nine Months	
	2014	2013	2014	2013
Selling, general and administrative expense	\$6.4	\$5.5	\$26.2	\$19.6
Cost of sales	0.5	0.5	1.8	1.5
Research and development expense	0.5	0.3	1.5	0.9
Capitalized in inventory	0.5	0.5	1.8	1.5
Total share-based compensation expense	\$7.9	\$6.8	\$31.3	\$23.5
Related income tax benefit	\$2.3	\$1.9	\$9.6	\$6.9

Share Repurchases

In December 2011, our Board of Directors authorized the 2012 Share Repurchase Program and subsequently amended the total repurchase authorization to \$500.0 million of the Company's common stock. This program has no expiration date and may be discontinued at any time. Purchases under the 2012 Share Repurchase Program are subject to a review of the circumstances in place at the time and may be made from time to time as permitted by securities laws and other legal requirements. The Company did not repurchase shares during the three-month periods ended July 31, 2014, July 31, 2013, April 30, 2014 and April 30, 2013. For the three months ended January 31, 2014, the Company repurchased 396 thousand shares of the Company's common stock for \$50.0 million at an average purchase price of \$126.21 per share. During the three months ended January 31, 2013, the Company repurchased 460 thousand shares for \$44.4 million, at an average purchase price of \$96.34 per share. At July 31, 2014, approximately \$211.5 million remains authorized for repurchase under the program.

Dividends

We paid a semiannual dividend of approximately \$1.4 million or 3 cents per share on February 7, 2014, to stockholders of record on January 24, 2014. We paid another semiannual dividend of approximately \$1.5 million or 3 cents per share on August 6, 2014, to stockholders of record on July 24, 2014.

Note 9. Fair Value Measurements

At July 31, 2014 and October 31, 2013, the carrying value of cash and cash equivalents, accounts receivable, prepaid expenses and other current assets, lines of credit, accounts payable and other current liabilities approximate fair value due to the short-term nature of such instruments and the ability to obtain financing on similar terms.

Assets and liabilities are measured and reported at fair value per related accounting standards that define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. An asset's or liability's level is based on the lowest level of input that is significant to the fair value

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Notes to Consolidated Condensed Financial Statements

(Unaudited)

measurement. Assets and liabilities carried at fair value are valued and disclosed in one of the following three levels of the valuation hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions.

The Company has derivative assets and liabilities that include interest rate swaps, cross currency swaps and foreign currency forward contracts. The impact of the counterparty's creditworthiness when in an asset position and Cooper's creditworthiness when in a liability position has also been factored into the fair value measurement of the derivative instruments. Both the counterparty and Cooper are expected to continue to perform under the contractual terms of the instruments.

We may use interest rate swaps to maintain our desired mix of fixed-rate and variable-rate debt. The swaps exchange fixed and variable rate payments without exchanging the notional principal amount of the debt. We have elected to use the income approach to value the derivatives using observable Level 2 market expectations at the measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated but not compelled to transact. Level 2 inputs are limited to quoted prices for similar assets or liabilities in active markets, specifically Eurodollar futures contracts up to three years, and inputs other than quoted prices that are observable for the asset or liability - specifically LIBOR cash and swap rates and credit risk at commonly quoted intervals. Mid-market pricing is used as a practical expedient for fair value measurements.

We may use foreign exchange forward contracts to minimize, to the extent reasonable and practical, our exposure to the impact of foreign currency fluctuations. We have elected to use the income approach to value the derivatives using observable Level 2 market expectations at the measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated but not compelled to transact. Level 2 inputs for the valuations are limited to quoted prices for similar assets or liabilities in active markets and inputs other than quoted prices that are observable for the asset or liability - specifically LIBOR cash rates, credit risk at commonly quoted intervals, foreign exchange spot rates and forward points. Mid-market pricing is used as a practical expedient for fair value measurements.

The following table sets forth our financial assets and liabilities that were measured at fair value on a recurring basis using Level 2 inputs during the fiscal first nine months of 2014, within the fair value hierarchy at July 31, 2014, and fiscal year 2013, within the fair value hierarchy at October 31, 2013:

(In millions)	July 31, 2014	October 31, 2013
Assets:		
Foreign exchange contracts	\$0.4	\$0.3
Liabilities:		
Interest rate swaps	\$0.3	\$1.7
Foreign exchange contracts	—	0.6
	\$0.3	\$2.3

We recorded contingent consideration representing the estimated fair value of the additional variable cash consideration payable related to an acquisition in our fiscal first quarter of 2013. We recorded the fair value of the acquisition-related contingent consideration as liabilities on the acquisition date using the discounted cash flow approach. Cooper uses unobservable Level 3 inputs including a forecast of new customer accounts and discount rates to fair value the liabilities. Significant changes in these unobservable inputs in isolation may result in a significantly lower or higher fair value measurement. At July 31, 2014, the fair value of the contingent consideration payable totaled \$2.1 million.

Note 10. Employee Benefits

Cooper's Retirement Income Plan (Plan), a defined benefit plan, covers substantially all full-time United States employees. Cooper's contributions are designed to fund normal cost on a current basis and to fund the estimated prior service cost of benefit improvements. The unit credit actuarial cost method is used to determine the annual cost. Cooper pays the entire cost of the Plan and funds such costs as they accrue. Virtually all of the assets of the Plan are comprised of equities and participation in equity and fixed income funds.

Cooper's results of operations for the three and nine months ended July 31, 2014 and 2013 reflect the following components of net periodic pension costs:

Periods Ended July 31, (In thousands)	Three Months		Nine Months	
	2014	2013	2014	2013
Service cost	\$1,768	\$1,845	\$5,305	\$5,537
Interest cost	988	822	2,963	2,465
Expected returns on assets	(1,237) (1,028) (3,712) (2,950
Amortization of prior service cost	6	6	18	18
Recognized net actuarial loss	154	547	462	1,640
Net periodic pension cost	\$1,679	\$2,192	\$5,036	\$6,710

Cooper contributed \$1.4 million and \$5.8 million to the pension plan for the three and nine months ended July 31, 2014, respectively, and expects to contribute an additional \$3.0 million in fiscal 2014. We contributed \$1.1 million and \$4.5 million to the pension plan for the three and nine months ended July 31, 2013. The expected rate of return on plan assets for determining net periodic pension cost is 8%.

Note 11. Business Segment Information

Cooper uses operating income, as presented in our financial reports, as the primary measure of segment profitability. We do not allocate costs from corporate functions to segment operating income. Items below operating income are not considered when measuring the profitability of a segment. We use the same accounting policies to generate segment results as we do for our consolidated results.

Identifiable assets are those used in continuing operations except cash and cash equivalents, which we include as corporate assets. Long-lived assets are property, plant and equipment.

Note 12. Subsequent Events

On August 6, 2014, we completed the acquisition of Sauflon Pharmaceuticals Limited (Sauflon), a privately-held European manufacturer and distributor of soft contact lenses and aftercare solutions. The acquisition of Sauflon expands our contact lens product portfolio particularly with their clariti® 1day brand of single-use sphere, toric and multifocal silicone hydrogel lenses. Clariti lenses received United States FDA clearance in August 2013. Sauflon is headquartered in the UK and has a global presence, with manufacturing facilities in the UK and Hungary. We paid approximately \$1.2 billion consisting of approximately \$1,075.0 million in cash, including a net debt adjustment amount; approximately \$58.0 million in the form of loan notes; and we also assumed third-party debt of Sauflon of approximately \$79.0 million that we repaid concurrent with the acquisition. We financed the acquisition with available offshore cash and credit facilities along with funds from the new \$700.0 million term loan facility described in Note 4 and below. We are in the process of determining the purchase price allocation for this acquisition. This acquisition is consistent with our strategy to expand CooperVision's presence in underpenetrated areas particularly the single-use silicone hydrogel lens market. We expect the acquisition to accelerate the growth of our single-use franchise by enabling a multi-tier, single-use strategy with a full suite of hydrogel and silicone hydrogel product offerings in the major product categories of sphere, toric and multifocal lenses. We also expect this acquisition to provide for an enhanced relationship with key European retailers and opportunities for operational synergies.

On August 4, 2014, we entered into a three-year, \$700.0 million senior unsecured term loan agreement by and among the Company, the lenders party thereto and KeyBank National Association as administrative agent. This syndicated credit facility will mature and the balance is payable on August 4, 2017. There is no amortization of principal and we may prepay loan balances from time to time, in whole or in part, without premium or penalty.

We utilized this facility to fund the acquisition of Sauflon Pharmaceuticals Limited, as well as to provide working capital and for general corporate purposes.

Amounts outstanding under this term loan agreement will bear interest, at the Company's option, at either the base rate, which is a rate per annum equal to the greatest of (a) KeyBank's prime rate, (b) 0.5% in excess of the federal funds effective rate and (c) 1% in excess of the adjusted Eurodollar rate (currently referred to as LIBOR) for a one-month interest period on such day, or the adjusted Eurodollar rate, plus, in each case, an applicable margin. The applicable margins will be determined quarterly by reference to a grid based upon the Company's ratio of funded debt to consolidated pro forma EBITDA, as defined in the term loan agreement and consistent with our existing revolving Credit Agreement.

This term loan agreement contains customary restrictive covenants, as well as financial covenants that require the Company to maintain a certain Total Leverage Ratio and Interest Coverage Ratio, each as defined in the agreement, and consistent with our existing revolving Credit Agreement. This term loan agreement also contains customary events of default, the occurrence of which would permit the Administrative Agent to declare the principal, accrued interest and other obligations of the Company under the agreement to be immediately due and payable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Note numbers refer to "Notes to Consolidated Condensed Financial Statements" in Item 1. Financial Statements.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains "forward-looking statements" as defined by the Private Securities Litigation Reform Act of 1995. These include statements relating to plans, prospects, goals, strategies, future actions, events or performance and other statements which are other than statements of historical fact, including all statements regarding the acquisition of Sauflon including Sauflon's financial position, market position, product development and business strategy, expected cost synergies, expected timing and benefits of the transaction, as well as estimates of our and Sauflon's future expenses, sales and earnings per share are forward-looking. In addition, all statements regarding anticipated growth in our revenue, anticipated effects of any product recalls, anticipated market conditions, planned product launches and expected results of operations and integration of any acquisition are forward-looking. To identify these statements look for words like "believes," "expects," "may," "will," "should," "could," "seeks," "intends," "plans," "estimates" or "anticipates" and similar words or phrases. Forward-looking statements necessarily depend on assumptions, data or methods that may be incorrect or imprecise and are subject to risks and uncertainties. Among the factors that could cause our actual results and future actions to differ materially from those described in forward-looking statements are:

Adverse changes in global or regional general business, political and economic conditions due to the current global economic downturn, including the impact of continuing uncertainty and instability of certain European Union countries that could adversely affect our global markets.

Foreign currency exchange rate and interest rate fluctuations including the risk of fluctuations in the value of the yen, pound and euro that would decrease our revenues and earnings.

Acquisition-related adverse effects including the failure to successfully obtain the anticipated revenues, margins and earnings benefits of acquisition, including the Sauflon acquisition; integration delays or costs and the requirement to record significant adjustments to the preliminary fair value of assets acquired and liabilities assumed within the measurement period, required regulatory approvals for an acquisition not being obtained or being delayed or subject to conditions that are not anticipated, adverse impacts of contingent liabilities or indemnification obligations, increased leverage and lack of access to available financing (including financing for the acquisition or refinancing of debt owed by us on a timely basis and on reasonable terms).

A major disruption in the operations of our manufacturing, research and development or distribution facilities, due to technological problems, natural disasters or other causes.

Disruptions in supplies of raw materials, particularly components used to manufacture our silicone hydrogel lenses.

Limitations on sales following product introductions due to poor market acceptance.

New competitors, product innovations or technologies.

Reduced sales, loss of customers and costs and expenses related to recalls.

- New U.S. and foreign government laws and regulations, and changes in existing laws, regulations and enforcement guidance, which affect the medical device industry and the healthcare industry generally.

Failure to receive, or delays in receiving, U.S. or foreign regulatory approvals for products.

- Failure to obtain adequate coverage and reimbursement from third party payors for our products.

Compliance costs and potential liability in connection with U.S. and foreign healthcare regulations, including product recalls, warning letters and potential losses resulting from sales of counterfeit and other infringing products.

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

In this section, we discuss the results of our operations for the fiscal third quarter of 2014 ended July 31, 2014, and the nine months then ended and compare them with the same periods of fiscal 2013. We discuss our cash flows and current financial condition under "Capital Resources and Liquidity." Within the tables presented, percentages are calculated based on the underlying whole-dollar amounts and, therefore, may not recalculate from the rounded numbers used for disclosure purposes.

Third Quarter Highlights

- Net sales of \$432.5 million, up 5% from \$412.0 million
- Gross profit \$280.6 million, up 5% from \$268.3 million
- Operating income \$96.6 million, up 3% from \$93.6 million
- Diluted earnings per share of \$1.80, up from \$1.79 per share
- Cash provided by operations \$107.9 million, up from \$103.1 million

Results in our fiscal third quarter include costs related to acquisitions of \$4.5 million and severance costs of \$0.6 million

Nine-Month Highlights

- Net sales of \$1,249.8 million, up 6% from \$1,175.9 million
- Gross profit of \$812.0 million, up 6% from \$763.0 million
- Operating income \$267.1 million, up 10% from \$243.9 million
- Diluted earnings per share of \$4.89, up from \$4.81 per share
- Cash provided by operations \$302.8 million, up from \$265.6 million

Results include costs related to acquisitions of \$5.5 million and severance costs of \$0.6 million

Outlook

Overall, we remain optimistic about the long-term prospects for the worldwide contact lens and women's healthcare markets. However, events affecting the economy as a whole, including the uncertainty and instability of global markets driven by United States debt and uncertainty surrounding employment, credit concerns and the Affordable Care Act, including the trend of consolidation within the healthcare industry, together with foreign currency volatility, particularly the yen, euro and the pound, impact our current performance and continue to represent a risk to our performance for fiscal year 2014 and beyond.

We compete in the worldwide contact lens market with our spherical, toric and multifocal contact lenses offered in a variety of materials including using silicone hydrogel Aquaform® technology and phosphorylcholine (PC) Technology™. We believe that there will be lower contact lens wearer dropout rates as technology improves and enhances the wearing experience through a combination of improved designs and materials and the growth of preferred modalities such as single-use and monthly wearing options. CooperVision is focused on greater worldwide market penetration as we introduce new products and continue to expand our presence in existing and emerging markets, including through acquisitions.

Sales of contact lenses utilizing silicone hydrogel materials, a major product material in the industry, have grown significantly. Our ability to compete successfully with a full range of silicone hydrogel products is an important factor to achieving our desired future levels of sales growth and profitability. CooperVision markets monthly and two-week silicone hydrogel spherical and toric lens products under our Biofinity® and Avaira® brands, a multifocal lens under Biofinity and a single-use spherical lens under MyDay®.

Table of Contents

THE COOPER COMPANIES, INC. AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We believe that the global market for single-use contact lenses is expanding and will continue to grow and competitive silicone hydrogel single-use lens products are gaining market share and represent a risk to our business. In fiscal 2013, we launched MyDay, our single-use spherical silicone hydrogel lens, in Europe, and in fiscal 2012 we launched Proclear® 1 Day multifocal. We forecast increasing demand for our existing and future single-use products. To meet this anticipated demand, in fiscal 2014 we plan to continue the implementation of capital projects to invest in increased single-use manufacturing capacity. Consistent with this strategy, on August 6, 2014, we completed the acquisition of Sauflon Pharmaceuticals Limited, a manufacturer of single-use spherical, toric and multifocal silicone hydrogel lenses, discussed below.

Similarly, consistent with CooperVision's strategy to focus on our core soft contact lens business, on October 31, 2013, we completed a transaction to sell Aime, our rigid gas permeable contact lens and solutions business in Japan. The business was originally obtained as part of the December 1, 2010, acquisition which included obtaining the rights to market Biofinity in Japan. Aime revenue had declined in recent periods, and the products had lower than average company margins. Results from operations of Aime are included in our Consolidated Statements of Income for fiscal 2013 and the divestiture was neutral to earnings per share in the fiscal third quarter and nine-months ended July 31, 2014.

Our CooperSurgical business competes in the highly fragmented medical device segment of the women's healthcare market. CooperSurgical has steadily grown its market presence and distribution system by developing products and acquiring companies and products that complement its business model. We intend to continue to invest in CooperSurgical's business through acquisitions of companies and product lines. CooperSurgical product sales are categorized based on the point of healthcare delivery including products used in medical office and surgical procedures by obstetricians and gynecologists (ob/gyns) representing 66% of CooperSurgical's net sales in the fiscal third quarter of 2014. CooperSurgical's remaining sales represent products used in fertility clinics that represented 34% of CooperSurgical's net sales in the fiscal third quarter of 2014.

As part of the Affordable Care Act, a 2.3% excise tax on any entity that manufactures or imports medical devices offered for sale in the United States, with limited exceptions, became effective January 1, 2013. CooperVision's products are not subject to this tax because contact lenses are excluded from the tax. However, United States sales of CooperSurgical's products are subject to this tax, which is recorded in selling, general and administrative expense on the Statement of Income.

At July 31, 2014, we had \$173.8 million in cash, primarily outside the United States, and \$999.8 million available under our existing revolving Credit Agreement. On August 4, 2014, after the end of our fiscal third quarter of 2014, we entered into a new three-year \$700.0 million senior unsecured term loan agreement, and on August 6, 2014, we completed the acquisition of Sauflon for \$1.2 billion, discussed below. We used the new term loan to fund the acquisition of Sauflon, as well as to provide working capital and for general corporate purposes. Looking forward, our cash and availability under existing credit facilities will be reduced due to the use of cash outside the United States and existing credit facilities to fund the acquisition of Sauflon. We believe that our cash and cash equivalents, cash flow from operating activities and borrowing capacity under existing credit facilities, including the August 4, 2014, \$700.0 million term loan, will fund operations both in the next 12 months and in the longer term as well as current and long-term cash requirements for capital expenditures, acquisitions, share repurchases and cash dividends. However, depending on the size or timing of these business activities, we may seek to raise additional debt financing.

Recent Acquisition

On August 6, 2014 and subsequent to the end of our fiscal third quarter, we completed the acquisition of Sauflon Pharmaceuticals Limited (Sauflon), a privately-held European manufacturer and distributor of soft contact lenses and aftercare solutions. The acquisition of Sauflon expands our contact lens product portfolio particularly with Sauflon's

clariti® 1day brand of single-use sphere, toric and multifocal silicone hydrogel lenses. Clariti lenses received United States FDA clearance in August 2013. Sauflon is headquartered in the UK and has a global presence, with manufacturing facilities in the United Kingdom (UK) and Hungary.

We paid approximately \$1.2 billion for Sauflon, consisting of approximately \$1,075.0 million in cash, including a net debt adjustment amount; approximately \$58.0 million in the form of loan notes; and we also assumed third-party debt of Sauflon of approximately \$79.0 million that we repaid concurrent with the acquisition. We financed the acquisition

and Results of Operations

with available offshore cash and credit facilities along with funds from the new \$700.0 million term loan facility described in Note 4 of the notes to consolidated condensed financial statements. We are in the process of determining the purchase price allocation for this acquisition.

This acquisition is consistent with our strategy to expand CooperVision's presence in underpenetrated areas particularly the single-use silicone hydrogel lens market. We expect the acquisition to accelerate the growth of our single-use franchise by enabling a multi-tier, single-use strategy with a full suite of hydrogel and silicone hydrogel product offerings in the major product categories of sphere, toric and multifocal lenses. We also expect this acquisition to provide for an enhanced relationship with key European retailers and opportunities for operational synergies.

Net Sales

Cooper's two business units, CooperVision and CooperSurgical, generate all of its sales.

CooperVision develops, manufactures and markets a broad range of soft contact lenses for the worldwide vision correction market.

CooperSurgical develops, manufactures and markets medical devices and procedure solutions to improve healthcare delivery to women.

Our consolidated net sales grew by \$20.5 million or 5% and \$73.9 million or 6% in the three and nine months ended July 31, 2014, respectively:

Periods Ended July 31, (\$ in millions)	Three Months			Nine Months			% Change	% Change
	2014	2013	% Change	2014	2013	% Change		
CooperVision	\$349.9	\$330.5	6	% \$1,007.3	\$941.2	7	%	
CooperSurgical	82.6	81.5	1	% 242.5	234.7	3	%	
	\$432.5	\$412.0	5	% \$1,249.8	\$1,175.9	6	%	

CooperVision Net Sales

The contact lens market has two major product categories:

Spherical lenses including lenses that correct near- and farsightedness uncomplicated by more complex visual defects. Toric and multifocal lenses including lenses that, in addition to correcting near- and farsightedness, address more complex visual defects such as astigmatism and presbyopia by adding optical properties of cylinder and axis, which correct for irregularities in the shape of the cornea.

In order to achieve comfortable and healthy contact lens wear, products are sold with recommended replacement schedules, often defined as modalities, with the primary modalities being single-use, two-week and monthly.

CooperVision offers spherical, aspherical, toric, multifocal and toric multifocal lens products in most modalities.

The contact lens market consists primarily of disposable and frequently replaced lenses. Disposable lenses are designed for either daily, two-week or monthly replacement; and frequently replaced lenses are designed for replacement after one to three months. The market for spherical, toric and multifocal lenses is growing with value-added lenses to alleviate dry eye symptoms as well as higher oxygen permeable lenses such as silicone hydrogels.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CooperVision's Proclear brand aspheric, toric and multifocal contact lenses, manufactured using PC Technology, help enhance tissue/device compatibility and offer improved lens comfort.

CooperVision's silicone hydrogel Biofinity brand spherical, toric and multifocal contact lenses, Avaira brand spherical and toric lenses and MyDay, our spherical single-use lens, are manufactured using proprietary Aquaform technology to increase oxygen transmissibility for longer wear. We believe the clariti single-use silicon-hydrogel lens products acquired with Sauflon are important to address increased pressure from multifocal and single-use silicone hydrogel products offered by our major competitors.

CooperVision net sales growth for the three-month period included increases in total sphere lenses up 4%, representing 55% of net sales, compared to 56% in the prior year period, and total toric lenses up 11%, representing 32% of net sales up from 31% in the prior year period. Total multifocal lenses grew 16%, representing 11% of net sales up from 10% in the prior year period on increased sales of Biofinity monthly and Proclear single-use multifocal products. Silicone hydrogel products, including MyDay, our single-use silicone hydrogel lens, grew 21%, representing 50% of net sales up from 43% in the prior year period. Proclear products grew 3%, representing 25% of net sales, compared to 26% in the prior year period. Older conventional lens products declined 14% and represented 2% of net sales, down from 3% in the prior year period.

CooperVision competes in the worldwide soft contact lens market and services three primary regions: the Americas, EMEA (Europe, Middle East and Africa) and Asia Pacific.

CooperVision Net Sales by Geography

Periods Ended July 31, (\$ in millions)	Three Months			Nine Months				
	2014	2013	% Change	2014	2013	% Change		
Americas	\$149.5	\$143.0	5	% \$432.3	\$404.5	7	%	
EMEA	133.9	118.4	13	% 370.9	325.1	14	%	
Asia Pacific	66.5	69.1	(4))% 204.1	211.6	(4))%	
	\$349.9	\$330.5	6	% \$1,007.3	\$941.2	7	%	

The growth in Americas net sales was primarily due to market gains of CooperVision's silicone hydrogel contact lenses, single-use sphere and multifocal products. The growth in EMEA net sales was primarily due to market gains of silicone hydrogel lenses, including MyDay, along with single-use sphere and multifocal products. EMEA net sales were favorably impacted due to weakening of the United States dollar compared to the euro. The decline in Asia Pacific net sales in the three- and nine-month periods reflect the negative impact of the weakening of the Japanese yen compared to the United States dollar. Excluding the impact of currency, sales in the Asia Pacific region for the nine-month period grew on market gains of silicone hydrogel lenses and single-use toric and multifocal products. CooperVision's net sales growth was driven primarily by increases in the volume of lenses sold and introduction of new products, primarily silicone hydrogel lenses. While unit growth and product mix have influenced CooperVision's sales growth, average realized prices by product have not materially influenced sales growth.

and Results of Operations

CooperSurgical Net Sales

CooperSurgical participates in the market for women's healthcare with its diversified product lines used in fertility procedures and by gynecologists and obstetricians in surgical procedures and in the medical office. With the July 2012 acquisition of Origio a/s, a global in-vitro fertilization (IVF) medical device company, CooperSurgical develops, manufactures and distributes highly specialized products that target IVF treatment with a goal to make fertility treatment safer, more efficient and convenient.

Three Months Ended July 31, (\$ in millions)	2014	% Net Sales	2013	% Net Sales	% Change	
Office and surgical procedures	\$54.5	66	% \$54.0	66	% 1	%
Fertility	28.1	34	% 27.5	34	% 3	%
	\$82.6	100
