National Grid plc (NG)

3 March 2006

QUALIFYING EMPLOYEE SHARE OWNERSHIP TRUST (Quest)

(Notification of Directors' Interests pursuant to Section 324(2)

of the Companies Act 1985)

Yesterday, each of the following NG Executive Directors: E M Astle, S J Holliday, S Lucas, N P Winser and R J Urwin, technically ceased to be interested in 1,817,743 NG Ordinary shares, by virtue of the Quest transferring the shares to some 580 employees. Following this transfer there are no further shares retained by the Quest.

(Note: For Companies Act purposes, the Executive Directors named above are deemed to have a technical interest in the shares held in NG's Quest, together with all participating employees. The interest ceases when shares are transferred to participants who exercise their Sharesave scheme options.)

National Grid plc (NG)

Directors Interests in NG Ordinary Shares

Edward Astle has today received confirmation that, having exercised Executive Share Scheme options granted to him in December 2002 at 434.25p per share, over 74,841 NG shares, on 7 March, the shares were sold on that day at 594.5p per share.

His total interest after this event is over 784,837 NG ordinary shares.

National Grid plc (NG)

13 March 2006

Notification of Directors' Interests pursuant to

Section 324(2) of the Companies Act 1985

(Employee Sharesave Scheme Maturity)

Today, some 400 NG employees exercised Sharesave Scheme options granted in December 2002, at 350p per share, following the three year maturity under the scheme.

One of NG's Directors, Steve Lucas, was a participant to whom shares were allotted on exercising his Sharesave scheme option for 2,700 shares; which he has retained leaving his total personal interest unchanged.

National Grid plc (NG)

Director's Interests in NG Ordinary Shares

The Company has today received confirmation of the following dealings by Nick Winser:

National Grid Executive Share Option Scheme

On 13th March, Nick Winser exercised Executive Share Scheme options granted to him in June 1998 (10,633 shares; option price 375.75p per share) and June 1999 (47,236 shares; option price 455.25p per share) which were all sold on that day at 601.5p per share;

On 14th March, he exercised Executive Share Scheme options granted to him in June 2002 (37,383 shares; option price 481.5p per share) of which 21,184 shares were sold on that day at 598p per share; and he retains 16,199 NG shares.

National Grid Share Matching Plan

In addition, on 14th March, the Trustee of the National Grid 1996 Employee Benefit Trust (ESOP) confirmed that 2,509 shares were transferred to Nick Winser on exercising the Sharematch award (at a total exercise price of £1) granted to him under the National Grid Share Matching Scheme operation in 2002. These shares are also retained by him.

(Note: For Companies Act purposes, certain Executive Directors of NG (E Astle, S Holliday, R Urwin and N Winser) are deemed to have a technical interest in all the shares held by the ESOP, together with all participating employees. The joint interest ceases on those shares on transfer to individual participants by the exercise of executive share options or under another employees' share scheme.)

Nick Winser's total interest after this event is over 355,895 option/award shares and 56,687 beneficially held NG ordinary shares.

30 March 2006

National Grid close period trading update for the

year ending 31 March 2006

Continued good performance and strong earnings per share growth

National Grid plc (the Group) is today issuing its trading update as it enters its close period ahead of the announcement of its preliminary results on Thursday 18 May 2006.

The Group expects to deliver growth in operating profit* and, due to significantly lower financing costs this year, strong growth in profit before tax* for the year. The effective tax rate for the year is anticipated to be around 31%. Earnings per share* are expected to be well ahead of last year, reflecting the 1 August 2005 share consolidation**.

The good operating performance reflects a continued focus on efficiencies across the Group, as well as underlying volume growth in the US and higher UK capacity auction income. This, together with the strengthening US dollar, is forecast to more than offset a significant increase in depreciation charges, a decrease in incentive profits, timing on the recovery of US pension costs and higher shrinkage gas costs.

As expected, net debt is anticipated to be around £11 billion, excluding certain mark-to-market effects.

* Results are measured on a Business Performance basis. Business Performance results are the primary financial performance measure used by the Group, being the results for continuing operations before exceptional items and certain non-cash mark-to-market re-measurements of commodity contracts and financial instruments that are held for economic hedging purposes but which do not achieve hedge accounting.

** The number of ordinary shares in issue is expected to decrease by 12%, from 3.1 billion at 31 March 2005 to 2.7 billion at 31 March 2006 as a result of the share consolidation.

Note:

As previously reported, the adoption of International Financial Reporting Standards (IFRS) will lead to greater volatility on both underlying and statutory reported earnings due to the effects IFRS has on the accounting treatment of US regulatory assets as compared with UK GAAP and the adoption of International Accounting Standard 39: Financial Instruments, Recognition and Measurement, which the Group adopted with effect from 1 April 2005. While this may cause the reported results for any given period to be more volatile than those reported under UK GAAP, this change in treatment does not impact the performance of the Group or its current or future cash flows.

Cautionary statement

This announcement contains certain statements that are neither reported financial results nor other historical information. These statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Because these forward-looking statements are subject to assumptions, risks and uncertainties, actual future results may differ materially from those expressed in or implied by such statements. Many of these assumptions, risks and uncertainties relate to factors that are beyond National Grid's ability to control or estimate precisely, such as delays in obtaining, or adverse conditions contained in, regulatory approvals, competition and industry restructuring, changes in economic conditions, currency fluctuations, changes in interest and tax rates, changes in energy market prices, changes in historical weather patterns, changes in laws, regulations or regulatory policies, the impact of changes to accounting standards, technological developments, the failure to retain key management, the availability of new acquisition opportunities or the timing and success of future acquisition opportunities. Other factors that could cause actual results to differ materially from those described in this announcement include the ability to obtain, delays in obtaining or adverse conditions contained in regulatory approvals or other consents to acquisitions made by or mergers with National Grid, the ability to integrate these businesses once acquired or merged or to realise the expected synergies from such transactions, the failure for any reason to achieve anticipated reductions in costs or to achieve operational efficiencies, unseasonable weather impacting on demand for electricity and gas, the behaviour of UK electricity market participants on system balancing, the timing of amendments in prices to shippers in the UK gas market, the performance of National Grid's pension schemes and the regulatory treatment of pension costs and any adverse consequences arising from outages on or otherwise affecting energy networks owned and/or operated by National Grid.

For a more detailed description of these assumptions, risks and uncertainties, together with any other risk factors, please see National Grid's filings with and submissions to the US Securities and Exchange Commission (and in particular the Risk Factors and Operating and Financial Review sections in its most recent annual report on Form 20-F). Recipients are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this announcement. National Grid does not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this announcement.
