Item 2.05. Costs Associated with Exit or Disposal Activities.

On November 3, 2010, Olin Corporation (the “Company”) filed a Current Report on Form 8-K announcing that the Company approved a plan to relocate Winchester’s Centerfire Operations to Oxford, MS. At that time, the Company was unable to estimate the charges that it would incur in connection with the transfer of these operations over the next several years.

On December 10, 2010, the Company filed an amendment to that Current Report on Form 8-K/A in which it estimated expenses associated with this relocation to include \$7 million of employment-related costs, consisting of approximately \$3 million for pension curtailment costs and approximately \$4 million for other employment-related costs, plus certain other expenses which were not estimable at that time.

On July 22, 2011, the Company increased its total estimate by \$23 million, as set forth in the table below. For the three months ended June 30, 2011, the Company recorded a pretax restructuring charge of \$2.2 million related primarily to the ratification of a new five and one half year Winchester, East Alton, IL union labor agreement. The restructuring charge included a non-cash pension curtailment charge of \$1.1 million, employee severance and related benefits costs of \$0.8 million and employee relocation costs of \$0.3 million. The Company expects to incur additional pretax restructuring charges of approximately \$20 million related to the relocation of our Winchester centerfire ammunition manufacturing operations from East Alton, IL to Oxford, MS through 2016. The Company currently estimates that the expenses associated with this relocation, including the \$7 million reported on the December 10, 2010, Form 8-K/A, will consist of:

Description		(\$ in millions)
Employee severance and job related benefits	\$	14.0
Employee relocation costs		10.0
Pension and other postretirement benefits curtailments		4.0
Facility exit costs		2.0
Total	\$	30.0

The total forecasted costs may change as the relocation and related actions are completed.
