Item 2.02 Results of Operation and Financial Condition

On May 2, 2014, the registrant provided its unaudited financial results and highlights for the first quarter ended March 31, 2014. The Company's full financial results, Management's Discussion and Analysis together with other important disclosures can be found in the Company's Quarterly Report on Form 10-Q, filed with the U.S. Securities and Exchange Commission and the Canadian securities regulatory authorities.

Highlights:

- Improved the balance sheet through the sale of approximately 50% of our shares in Midas Gold Corp. ("Midas"), raising approximately \$10.6 million net proceeds from which we repaid our debt;
- Completed an Option Agreement to option our interest in the Guadalupe de los Reyes gold/silver project for a series of future cash payments; and
- Significantly reduced our Corporate G&A costs and Mt Todd gold project holding costs.

Frederick H. Earnest, President and Chief Executive Officer, commented, "I am pleased with the recent improvements to our balance sheet. In addition to successfully reducing our Corporate G&A and Mt Todd gold project holding costs, we have repaid our debt in full and we believe we have sufficient cash to operate well into the first quarter of 2015. We have had productive discussions with the NT Department of Mines and Energy to establish a framework that we believe will facilitate its participation in water remediation and related environmental monitoring costs at the Mt Todd gold project. We continue to target approval of the final environmental impact statement in the third quarter of this year, which we believe will further position the project for rapid development in an improving gold market."

Summary of First Quarter 2014 Financial Results

We reported a net loss of \$1.1 million or \$0.01 per share for the three months ended March 31, 2014. This includes an unrealized \$2.1 million mark-to-market gain on our investment in Midas. During the three months ended March 31, 2013, we reported net loss of \$27.4 million, or \$0.34 per share. The 2013 results included a \$28.8 million unrealized loss on our investment in Midas.

Expenditures for exploration and property holding costs, principally at our Mt Todd gold project, totaled \$1.4 million for the three months ended March 31, 2014, down approximately 80% from \$7.1 million for the same period in 2013, when costs included cash intensive programs such as water treatment and the prefeasibility study for the Mt Todd gold project. We continue to identify and implement cost cutting measures at the Mt Todd gold project in addition to those introduced in 2013.

Corporate cost reduction measures have also successfully been implemented. Corporate G&A costs totaled \$1.3 million for the three months ended March 31, 2014, down approximately 33% from \$1.9 million for the same period in 2013.

Our working capital at March 31, 2014 totaled approximately \$16.2 million, including cash of approximately \$7.5 million. The Company has no debt.
