ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

Flanders Corporation (Nasdaq:FLDR), today announced its results for its third quarter ended September 30, 2004. The Company reported earnings for the third quarter of \$2.8 million, or \$0.11 per share, compared to \$2.3 million, or \$0.09 per share in the third quarter of 2003.

Edgar Filing: FLANDERS CORP - Form 8-K

Revenues for the quarter were up \$4.6 million or 9% to \$54.8 million from \$50.2 million in the third quarter of 2003. The Company experienced excellent growth in all product lines during the quarter. It also appears that the Company continues to increase its overall market share in all areas. The sales growth in the containment (Chemical, Biological and Radioactive) group continues to lead the Company.

Stockholders equity has increased \$8 million from \$80.7 million at December 31, 2003 to \$88.7 million as of September 30, 2004. The stockholders equity increased from \$3.10 per share as of December 31, 2003 to \$3.38 per share as of September 30, 2004.

Robert Amerson, Chairman of the Board, commented, We are implementing price increases for the first quarter of 2005 and hope to see double digit growth in our retail sector as we execute our national advertising program.

Robert Amerson continued, We are continuing to see a tremendous amount of interest in our high-end containment products for government and commercial controlled environments. We are acquiring contracts in this area, expanding our operations in Aiken, South Carolina to facilitate future growth in a state of the art facility and actively bidding certain contracts. Success in this area could have a major impact on our overall business and we believe that we should see significant growth during the first quarter of 2005. This is a developing market, and we currently have no reliable data as to the size of this niche. We have a competitive advantage with these customers given our long experience in what was, historically, a niche specialty manufacturing area.
