CHS Inc.
(Exact name of registrant as specified in its charter)
Minnesota
(State or other jurisdiction of
incorporation or organization)

41-0251095
(I.R.S. Employer
Identification Number)

Edgar Filing: CHS INC - Form 10-Q

5500 Cenex Drive Inver Grove Heights, Minnesota 55077
(Address of principal executive offices,
including zip code)

(651) 355-6000
(Registrant's telephone number,
including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files).

YES NO

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

(Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the Registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES NO

Indicate the number of shares outstanding of each of the Registrant's classes of common stock, as of the latest practicable date: The Registrant has no common stock outstanding.

Unless the context otherwise requires, for purposes of this Quarterly Report on Form 10-Q, the words “we,” “us,” “our,” the “Company” and “CHS” refer to CHS Inc., a Minnesota cooperative corporation, and its subsidiaries as of November 30, 2017.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains and our other publicly available documents may contain, and our officers, directors and other representatives may from time to time make, "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "anticipate," "intend," "plan," "goal," "seek," "believe," "project," "estimate," "expect," "strategy," "future," "likely," "may," "should," "will" and similar references to future periods. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our businesses, financial condition and results of operations, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not place undue reliance on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements are discussed or identified in our public filings made with the U.S. Securities and Exchange Commission ("SEC"), including in the "Risk Factors" discussion in Item 1A of our Annual Report on Form 10-K for the year ended August 31, 2017. Any forward-looking statements made by us in this Quarterly Report on Form 10-Q are based only on information currently available to us and speak only as of the date on which the statement is made. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise, except as required by applicable law.

Table of Contents

CHS INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1 Organization, Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The unaudited Consolidated Balance Sheet as of November 30, 2017, the Consolidated Statements of Operations for the three months ended November 30, 2017, and 2016, the Consolidated Statements of Comprehensive Income for the three months ended November 30, 2017, and 2016, and the Consolidated Statements of Cash Flows for the three months ended November 30, 2017, and 2016, reflect in the opinion of our management, all normal recurring adjustments necessary for a fair statement of the financial position, results of operations and cash flows for the interim periods presented. The results of operations and cash flows for interim periods are not necessarily indicative of results for a full fiscal year because of, among other things, the seasonal nature of our businesses. Our Consolidated Balance Sheet data as of August 31, 2017, has been derived from our audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP").

Over the course of fiscal year 2017, we incurred charges relating to a trading partner of ours in Brazil, which entered into bankruptcy-like proceedings under Brazilian law, intangible and fixed asset impairment charges associated with certain assets meeting the criteria to be classified as held for sale, fixed asset impairment charges due to the cancellation of a capital project at one of our refineries and bad debt and loan loss reserve charges relating to a single large producer borrower. Charges and impairments of this nature, as well as any recoveries related to amounts previously reserved, are included in the Consolidated Statements of Operations in the line item, "Reserve and impairment charges (recoveries), net" for the three months ended November 30, 2017, and 2016. The timing and amounts of these charges and impairments, and any recoveries were determined utilizing facts and circumstances that were present in the respective quarters in which the charge, impairments or recoveries were recorded. Prior year information has been revised to conform to the current year presentation.

The notes to our consolidated financial statements reference our Energy, Ag, Nitrogen Production and Foods reportable segments, as well as our Corporate and Other category, which represents an aggregation of individually immaterial operating segments. The Nitrogen Production reportable segment resulted from our investment in CF Industries Nitrogen, LLC ("CF Nitrogen") in February 2016. The Foods segment resulted from our investment in Ventura Foods, LLC ("Ventura Foods") becoming a significant operating segment in fiscal 2016. See Note 9, Segment Reporting for more information.

Our consolidated financial statements include the accounts of CHS and all of our wholly owned and majority owned subsidiaries. The effects of all significant intercompany transactions have been eliminated.

These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended August 31, 2017, included in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission (the "SEC").

Recent Accounting Pronouncements

Adopted

In October 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-16, Income Taxes - Intra-Entity Transfers of Assets Other Than Inventory (Topic 740). This ASU is intended to improve the accounting for the income tax consequences of intra-entity transfers of assets other than inventory by requiring an entity to recognize the income tax consequences when a transfer occurs, instead of when an asset is sold to an outside party. This ASU is effective for periods beginning after December 15, 2017; however, early adoption of this ASU is permitted during the first interim period if an entity issues interim financial statements and the amendments in this ASU should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. We elected to early adopt ASU No. 2016-16 during the first quarter of fiscal 2018. The adoption did not have a material impact on our consolidated financial statements.

Table of Contents

Not Yet Adopted

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. This ASU is intended to improve the financial reporting of hedging relationships to better represent the economic results of an entity's risk management activities in its financial statements and make certain improvements to simplify the application of the hedge accounting guidance. The amendments in this ASU will make more financial and nonfinancial hedging strategies eligible for hedge accounting, amend the presentation and disclosure requirements and change how entities assess effectiveness. Entities are required to apply this ASU's provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted. This ASU is effective for us beginning September 1, 2019, for our fiscal year 2020 and for interim periods within that fiscal year. We are currently evaluating the impact the adoption will have on our consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Costs and Net Postretirement Benefit Cost. This ASU changes the presentation of net periodic pension cost and net periodic postretirement benefit cost in the income statement. This ASU requires that the service cost component should be included in the same income statement line item as other compensation costs arising from services rendered by the employees during the period. The other components of net periodic benefit cost should be presented in the income statement separately outside of operating income if that subtotal is presented. Additionally, only service cost may be capitalized in assets. This ASU is effective for us beginning September 1, 2018, for our fiscal year 2019 and for interim periods within that fiscal year. The guidance on the presentation of the components of net periodic benefit cost in the income statement should be applied retrospectively and the guidance regarding the capitalization of the service cost component in assets should be applied prospectively. The adoption of this amended guidance is not expected to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The amendments within this ASU narrow the existing definition of a business and provide a more robust framework for evaluating whether a transaction should be accounted for as an acquisition (or disposal) of assets or a business. The definition of a business impacts various areas of accounting, including acquisitions, disposals and goodwill. Under the new guidance, fewer acquisitions are expected to be considered businesses. This ASU is effective for us beginning September 1, 2018, for our fiscal year 2019 and for interim periods within that fiscal year. Early adoption is permitted and the guidance should be applied prospectively to transactions following the adoption date. The adoption of this amended guidance is not expected to have a material impact on our consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. This ASU is intended to reduce diversity in practice by adding or clarifying guidance on classification and presentation of changes in restricted cash on the statement of cash flows. This ASU is effective for us beginning September 1, 2018, for our fiscal year 2019 and for interim periods within that fiscal year. Early adoption is permitted, including in an interim period. The amendments in this ASU should be applied retrospectively to all periods presented. The adoption of this amended guidance is not expected to have a material impact on our consolidated statement of cash flows.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. This ASU is intended to reduce existing diversity in practice in how certain cash receipts and payments are presented and classified in the statement of cash flows. This ASU is effective for us beginning September 1, 2018, for our fiscal year 2019 and for interim periods within that fiscal year. The adoption of this amended guidance is not expected to have a material impact on our consolidated statement of cash flows.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendments in this ASU introduce a new approach, based on expected losses, to estimate credit losses on certain types of financial instruments. This ASU is intended to provide financial statement users with more decision-useful information about the expected credit losses associated with most financial assets measured at amortized cost and certain other instruments, including trade and other receivables, loans, held-to-maturity debt securities, net investments in leases, and off-balance-sheet credit exposures. Entities are required to apply this ASU's provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is adopted. This ASU is effective for us beginning September 1, 2020, for our fiscal year 2021 and for interim periods within that fiscal year. We are currently evaluating the impact the adoption will have on our consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which replaces the existing guidance in Accounting Standards Codification ("ASC") 840 - Leases. The amendments within this ASU introduce a lessee model requiring

Table of Contents

entities to recognize assets and liabilities for most leases, but continue recognizing the associated expenses in a manner similar to existing accounting guidance. This ASU does not make fundamental changes to existing lessor accounting; however, it does modify what constitutes a sales-type or direct financing lease and the related accounting, and aligns a number of the underlying principles with those of the new revenue standard, ASU No. 2014-09. The guidance also eliminates existing real estate-specific provisions and requires expanded qualitative and quantitative disclosures. This ASU is effective for us beginning September 1, 2019, for our fiscal year 2020 and for interim periods within that fiscal year, and the ASU's provisions are required to be applied using a modified retrospective approach. We have initiated a preliminary assessment of the new lease standard, including the implementation of a new lease software that will improve the collection, maintenance, and aggregation of lease data necessary for the reporting and disclosure requirements under the new lease standard. One of the more significant changes arising from the new lease standard relates to a number of operating lease agreements not currently recognized on our Consolidated Balance Sheets. The new lease guidance will require these lease agreements to be recognized on the Consolidated Balance Sheets as a right-of-use asset along with a corresponding lease liability. As a result, our preliminary assessment indicates the provisions of ASU No. 2016-02 are expected to have a material impact on our Consolidated Balance Sheets. Although we expect the new lease guidance to have a material impact on our Consolidated Balance Sheets, we are continuing to evaluate the extent of potential impact the new lease guidance will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The amendments within this ASU, as well as within additional clarifying ASUs issued by the FASB, provide a single comprehensive model to be used in the accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. The new revenue recognition guidance includes a five-step model for the recognition of revenue, including (1) identifying the contract with a customer, (2) identifying the performance obligations in the contract, (3) determining the transaction price, (4) allocating the transaction price to the performance obligations, and (5) recognizing revenue when (or as) an entity satisfies a performance obligation. The new revenue recognition guidance also specifies the accounting for certain costs to obtain or fulfill a contract with a customer and requires expanded disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. We have completed an initial assessment of our revenue streams and do not believe that the new revenue recognition guidance will have a material impact on our consolidated financial statements. Certain revenue streams are expected to fall within the scope of the new revenue recognition guidance; however, a substantial portion of our revenue falls outside the scope of the new revenue recognition guidance and will continue to follow existing guidance, primarily ASC 815, Derivatives and Hedging. We are continuing to evaluate the impact of the new revenue recognition guidance, including potential changes to business practices and/or contractual terms for in scope revenue streams, as well as the scope of expanded disclosures related to revenue. We expect to complete our final evaluation and implementation of the new revenue recognition guidance throughout fiscal 2018, which will allow us to adopt ASU No. 2014-09 and the related ASUs on September 1, 2018, in the first quarter of fiscal 2019, using the modified retrospective method.

Note 2 Receivables

	November 30, 2017	August 31, 2017
	(Dollars in thousands)	
Trade accounts receivable	\$1,329,887	\$1,234,500
CHS Capital notes receivable	184,301	164,807
Deferred purchase price receivable	216,996	202,947
Other	556,275	493,104
	2,287,459	2,095,358
Less allowances and reserves	227,836	225,726

Total receivables \$2,059,623 \$1,869,632

Trade Accounts

Trade accounts receivable are initially recorded at a selling price, which approximates fair value, upon the sale of goods or services to customers. Subsequently, trade accounts receivable are carried at net realizable value, which includes an allowance for estimated uncollectible amounts. We calculate this allowance based on our history of write-offs, level of past due accounts, and our relationships with, and the economic status of, our customers.

Table of Contents

CHS Capital

Notes Receivable

CHS Capital, LLC ("CHS Capital"), our wholly-owned subsidiary, has short-term notes receivable from commercial and producer borrowers. The short-term notes receivable have maturity terms of 12 months or less and are reported at their outstanding unpaid principal balances, adjusted for the allowance of loan losses, as CHS Capital has the intent and ability to hold the applicable loans for the foreseeable future or until maturity or pay-off. The carrying value of CHS Capital short-term notes receivable approximates fair value, given the notes' short duration and the use of market pricing adjusted for risk.

The notes receivable from commercial borrowers are collateralized by various combinations of mortgages, personal property, accounts and notes receivable, inventories and assignments of certain regional cooperative's capital stock. These loans are primarily originated in the states of Minnesota, Wisconsin and North Dakota. CHS Capital also has loans receivable from producer borrowers which are collateralized by various combinations of growing crops, livestock, inventories, accounts receivable, personal property and supplemental mortgages and are originated in the same states as the commercial notes with the addition of Michigan.

In addition to the short-term balances included in the table above, CHS Capital had long-term notes receivable, with durations of generally not more than 10 years, totaling \$14.8 million and \$17.0 million at November 30, 2017, and August 31, 2017, respectively. The long-term notes receivable are included in Other assets on our Consolidated Balance Sheets. As of November 30, 2017, and August 31, 2017, the commercial notes represented 32% and 17%, respectively, and the producer notes represented 68% and 83%, respectively, of the total CHS Capital notes receivable. As of November 30, 2017, and August 31, 2017, CHS Capital had no third-party borrowers that accounted for more than 10% of the total CHS Capital notes receivable outstanding.

CHS Capital has commitments to extend credit to customers if there are no violations of any contractually established conditions. As of November 30, 2017, CHS Capital's customers have additional available credit of \$529.4 million.

Allowance for Loan Losses and Impairments

CHS Capital maintains an allowance for loan losses which is the estimate of potential incurred losses inherent in the loans receivable portfolio. In accordance with FASB ASC 450-20, Accounting for Loss Contingencies, and ASC 310-10, Accounting by Creditors for Impairment of a Loan, the allowance for loan losses consists of general and specific components. The general component is based on historical loss experience and qualitative factors addressing operational risks and industry trends. The specific component relates to loans receivable that are classified as impaired. Additions to the allowance for loan losses are reflected within reserve and impairment charges (recoveries), net in the Consolidated Statements of Operations. The portion of loans receivable deemed uncollectible is charged off against the allowance. Recoveries of previously charged off amounts increase the allowance for loan losses. The amount of CHS Capital notes that were past due was not significant at any reporting date presented.

Interest Income

Interest income is recognized on the accrual basis using a method that computes simple interest daily. The accrual of interest on commercial loans receivable is discontinued at the time the commercial loan receivable is 90 days past due unless the credit is well-collateralized and in process of collection. Past due status is based on contractual terms of the loan. Producer loans receivable are placed in non-accrual status based on estimates and analysis due to the annual debt service terms inherent to CHS Capital's producer loans. In all cases, loans are placed in nonaccrual status or charged

off at an earlier date if collection of principal or interest is considered doubtful.

Sale of Receivables

Receivables Securitization Facility

On July 18, 2017, we amended an existing receivables and loans securitization facility (“Securitization Facility”) with certain unaffiliated financial institutions (the “Purchasers”). Under the Securitization Facility, we and certain of our subsidiaries sell trade accounts and notes receivable (the “Receivables”) to Cofina Funding, LLC (“Cofina”), a wholly-owned bankruptcy-remote indirect subsidiary of CHS. Cofina in turn sells the purchased Receivables in their entirety to the Purchasers. Prior to amending the Securitization Facility in July 2017, the transfer of Receivables was accounted for as a secured borrowing. Under the terms of the amended Securitization Facility CHS accounts for Receivables sold under the Facility as a sale of financial

Table of Contents

assets pursuant to ASC 860, Transfers and Servicing and derecognizes the sold Receivables from its Consolidated Balance Sheets.

Sales of Receivables by Cofina occur continuously and are settled with the Purchasers on a monthly basis. The proceeds from the sale of these Receivables comprise a combination of cash and a deferred purchase price (“DPP”) receivable. The DPP receivable is ultimately realized by CHS following the collection of the underlying Receivables sold to the Purchasers. The amount available under the Securitization Facility fluctuates over time based on the total amount of eligible Receivables generated during the normal course of business, with maximum availability of \$700.0 million. As of November 30, 2017, the total availability under the Securitization Facility was \$700.0 million, of which all has been utilized. The Securitization Facility terminates on July 17, 2018, but may be extended. We use the proceeds from the sale of Receivables under the Securitization Facility for general corporate purposes.

We have no retained interests in the transferred Receivables, other than our right to the DPP receivable and collection and administrative services. The DPP receivable is recorded at fair value within the Consolidated Balance Sheets, including a current portion within receivables and a long-term portion within other assets. Subsequent cash receipts related to the DPP receivable have been reflected as investing activities and additional sales of Receivables under the Securitization Facility are reflected in operating or investing activities, based on the underlying Receivable, in our Consolidated Statements of Cash Flows. Losses incurred on the sale of Receivables are recorded in interest expense and fees received related to the servicing of the Receivables are recorded in other income (loss) in the Consolidated Statements of Operations. We consider the fees received adequate compensation for services rendered, and accordingly have recorded no servicing asset or liability.

The fair value of the DPP receivable is determined by discounting the expected cash flows to be received based on unobservable inputs consisting of the face amount of the Receivables adjusted for anticipated credit losses. The DPP receivable is being measured like an investment in debt securities classified as available for sale, with changes to the fair value being recorded in other comprehensive income in accordance with ASC 320 - Investments - debt and equity securities. Our risk of loss following the transfer of Receivables under the Securitization Facility is limited to the DPP receivable outstanding and any short-falls in collections for specified non-credit related reasons after sale. Payment of the DPP receivable is not subject to significant risks other than delinquencies and credit losses on accounts receivable sold under the Securitization Facility.

The following table is a reconciliation of the beginning and ending balances of the DPP receivable for the quarter ended November 30, 2017:

	(Dollars in thousands)
Balance - as of August 31, 2017	\$ 548,602
Monthly settlements, net	(27,100)
Balance - as of November 30, 2017	\$ 521,502

There was no DPP receivable as of November 30, 2016, and therefore, no comparative period is included in the table above.

Other Receivables

Other receivables are comprised of certain other amounts recorded in the normal course of business, including receivables related to valued added taxes and pre-crop financing, primarily to Brazilian farmers, to finance a portion of supplier production costs. We do not bear any of the costs or operational risks associated with the related growing crops. The financing is largely collateralized by future crops and physical assets of the suppliers, carries a local market

interest rate and settles when the farmer's crop is harvested and sold.

10

Table of Contents

Note 3 Inventories

	November 30, 2017	August 31, 2017
	(Dollars in thousands)	
Grain and oilseed	\$1,545,313	\$1,145,285
Energy	720,938	755,886
Crop nutrients	222,053	248,699
Feed and farm supplies	483,805	353,130
Processed grain and oilseed	54,916	49,723
Other	19,076	23,862
Total inventories	\$3,046,101	\$2,576,585

As of November 30, 2017, we valued approximately 15% of inventories, primarily related to our Energy segment, using the lower of cost, determined on the LIFO method, or net realizable value (19% as of August 31, 2017). If the FIFO method of accounting had been used, inventories would have been higher than the reported amount by \$99.0 million and \$186.2 million as of November 30, 2017, and August 31, 2017, respectively. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Interim LIFO calculations are based on management's estimates of expected year-end inventory levels, and are subject to the final year-end LIFO inventory valuation.

Note 4 Investments

	November 30, 2017	August 31, 2017
	(Dollars in thousands)	
Equity method investments:		
CF Industries Nitrogen, LLC	\$2,776,412	\$2,756,076
Ventura Foods, LLC	350,602	347,016
Ardent Mills, LLC	209,926	206,529
TEMCO, LLC	39,235	41,323
Other equity method investments	265,621	268,444
Cost method investments	135,204	131,605
Total investments	\$3,777,000	\$3,750,993

Equity Method Investments

Joint ventures and other investments, in which we have significant ownership and influence, but not control, are accounted for in our consolidated financial statements using the equity method of accounting. Our primary equity method investments are described below.

On February 1, 2016, we invested \$2.8 billion in CF Nitrogen, commencing our strategic venture with CF Industries Holdings, Inc. ("CF Industries"). The investment consists of an 11.4% membership interest (based on product tons) in CF Nitrogen. We account for this investment using the hypothetical liquidation at book value method, recognizing our share of the earnings and losses of CF Nitrogen based upon our contractual claims on the entity's net assets pursuant to the liquidation provisions of CF Nitrogen's limited liability company agreement, adjusted for the semi-annual cash distributions we receive as a result of our membership interest in CF Nitrogen. For the three months ended November 30, 2017, and 2016, this amount was \$20.3 million and \$14.7 million, respectively. These amounts are included as equity income from investments in our Nitrogen Production segment.

We have a 50% interest in Ventura Foods, a joint venture which produces and distributes primarily vegetable oil-based products, and which constitutes our Foods segment. We account for Ventura Foods as an equity method investment, and as of November 30, 2017, our carrying value of Ventura Foods exceeded our share of its equity by \$12.9 million, which represents equity method goodwill. The earnings are reported as equity income from investments in our Foods segment.

Table of Contents

We have a 12% interest in Ardent Mills, LLC ("Ardent Mills"), a joint venture with Cargill Incorporated ("Cargill") and ConAgra Foods, Inc., which combines the North American flour milling operations of the three parent companies. We account for Ardent Mills as an equity method investment included in Corporate and Other.

TEMCO, LLC ("TEMCO") is owned and governed by Cargill (50%) and CHS (50%). Both owners have committed to sell all of their feedgrains, wheat, oilseeds and by-product origination that are tributary to the Pacific Northwest, United States ("Pacific Northwest") to TEMCO and to use TEMCO as their exclusive export-marketing vehicle for such grains exported through the Pacific Northwest through January 2037. We account for TEMCO as an equity method investment included in our Ag segment.

Note 5 Goodwill and Other Intangible Assets

Goodwill of \$153.7 million and \$154.1 million as of November 30, 2017, and August 31, 2017, respectively, is included in other assets on our Consolidated Balance Sheets. Changes in the net carrying amount of goodwill for the three months ended November 30, 2017, by segment, are as follows:

	EnergyAg	Corporate and Other	Total
	(Dollars in thousands)		
Balances, August 31, 2017	\$552 \$142,929	\$ 10,574	\$154,055
Effect of foreign currency translation adjustments	— (389)	—	(389)
Balances, November 30, 2017	\$552 \$142,540	\$ 10,574	\$153,666

No goodwill has been allocated to our Nitrogen Production or Foods segments, which consist of investments accounted for under the equity method.

Intangible assets subject to amortization primarily include customer lists, trademarks and non-compete agreements, and are amortized over their respective useful lives (ranging from 2 to 30 years). Information regarding intangible assets that are included in other assets on our Consolidated Balance Sheets is as follows:

	November 30, 2017			August 31, 2017		
	Carrying Amount	Accumulated Amortization	Net	Carrying Amount	Accumulated Amortization	Net
	(Dollars in thousands)					
Customer lists	\$42,391	\$ (11,695)	\$30,696	\$46,180	\$ (14,695)	\$31,485
Trademarks and other intangible assets	6,536	(4,752)	1,784	23,623	(21,778)	1,845
Total intangible assets	\$48,927	\$ (16,447)	\$32,480	\$69,803	\$ (36,473)	\$33,330

Total amortization expense for intangible assets during the three months ended November 30, 2017, and 2016, was \$0.9 million and \$1.3 million, respectively. The estimated annual amortization expense related to intangible assets subject to amortization for the next five years is as follows:

	(Dollars in thousands)
Year 1	\$ 3,395
Year 2	3,373
Year 3	3,095
Year 4	3,037
Year 5	2,755

Table of Contents

Note 6 Notes Payable and Long-Term Debt

Our notes payable and long-term debt are subject to various restrictive requirements for maintenance of minimum consolidated net worth and other financial ratios. We were in compliance with our debt covenants as of November 30, 2017.

	November 30, 2017	August 31, 2017
	(Dollars in thousands)	
Notes payable	\$2,182,243	\$1,695,423
CHS Capital notes payable	298,021	292,792
Total notes payable	\$2,480,264	\$1,988,215

On November 30, 2017, our primary line of credit was a five-year, unsecured revolving credit facility with a committed amount of \$3.0 billion which expires in September 2020. The outstanding balance on this facility was \$1.1 billion and \$480.0 million as of November 30, 2017, and August 31, 2017, respectively.

Interest expense for the three months ended November 30, 2017, and 2016, was \$40.7 million and \$38.3 million, respectively, net of capitalized interest of \$1.8 million and \$1.6 million, respectively.

Note 7 Equities

Changes in Equities

Changes in equities for the three months ended November 30, 2017, are as follows:

	Equity Certificates Capital Equity Certificates (Dollars in thousands)	Nonpatronage Equity Certificates	Nonqualified Equity Certificates	Preferred Stock	Accumulated Other Comprehensive Loss	Capital Reserves	Noncontrol Interests	Total Equities

Table of Contents

Accumulated Other Comprehensive Loss

Changes in accumulated other comprehensive income (loss) by component, net of tax, are as follows for the three months ended November 30, 2017, and 2016:

	Pension and Other Postretirement Benefits	Unrealized Net Gain on Available For Sale Investments	Cash Flow Hedges	Foreign Currency Translation Adjustment	Total
	(Dollars in thousands)				
Balance as of August 31, 2017, net of tax	\$(135,046)	\$ 10,041	\$(6,954)	\$(51,711)	\$(183,670)
Other comprehensive income (loss), before tax:					
Amounts before reclassifications	—	4,044	(435)	(1,008)	2,601
Amounts reclassified out	6,816	—	429	(2,042)	5,203
Total other comprehensive income (loss), before tax	6,816	4,044	(6)	(3,050)	7,804
Tax effect	(2,620)	(404)	2	443	(2,579)
Other comprehensive income (loss), net of tax	4,196	3,640	(4)	(2,607)	5,225
Balance as of November 30, 2017, net of tax	\$(130,850)	\$ 13,681	\$(6,958)	\$(54,318)	\$(178,445)

	Pension and Other Postretirement Benefits	Unrealized Net Gain on Available For Sale Investments	Cash Flow Hedges	Foreign Currency Translation Adjustment	Total
	(Dollars in thousands)				
Balance as of August 31, 2016, net of tax	\$(165,146)	\$ 5,656	\$(9,196)	\$(43,040)	\$(211,726)
Other comprehensive income (loss), before tax:					
Amounts before reclassifications	—	1,259	620	(18,940)	(17,061)
Amounts reclassified out	5,250	—	440	(15)	5,675
Total other comprehensive income (loss), before tax	5,250	1,259	1,060	(18,955)	(11,386)
Tax effect	(2,011)	(482)	(406)	(209)	(3,108)
Other comprehensive income (loss), net of tax	3,239	777	654	(19,164)	(14,494)
Balance as of November 30, 2016, net of tax	\$(161,907)	\$ 6,433	\$(8,542)	\$(62,204)	\$(226,220)

Amounts reclassified from accumulated other comprehensive income (loss) were primarily related to pension and other post-retirement benefits. Pension and other post-retirement reclassifications include amortization of net actuarial loss, prior service credit and transition amounts and are recorded as marketing, general and administrative expenses (see Note 8, Benefit Plans for further information).

Table of Contents

Note 8 Benefit Plans

We have various pension and other defined benefit and defined contribution plans, in which substantially all employees may participate. We also have non-qualified supplemental executive and Board retirement plans.

Components of net periodic benefit costs for the three months ended November 30, 2017, and 2016, are as follows:

	Qualified Pension Benefits		Non-Qualified Pension Benefits		Other Benefits	
	2017	2016	2017	2016	2017	2016
Components of net periodic benefit costs for the three months ended November 30 are as follows:	(Dollars in thousands)					
Service cost	\$9,919	\$9,383	\$ 137	\$ 259	\$236	\$353
Interest cost	6,002	7,692	178	352	227	427
Expected return on assets	(12,040)	(12,014)	—	—	—	—
Prior service cost (credit) amortization	359	402	8	57	(141)	(30)
Actuarial (gain) loss amortization	6,888	4,765	15	173	(306)	(116)
Net periodic benefit cost	\$11,128	\$10,228	\$ 338	\$ 841	\$16	\$634

Employer Contributions

Total contributions to be made during fiscal 2018 will depend primarily on market returns on the pension plan assets and minimum funding level requirements. During the three months ended November 30, 2017, we made no contributions to the pension plans. At this time, we do not anticipate being required to make a contribution for our benefit plans in fiscal 2018.

Note 9 Segment Reporting

We define our operating segments in accordance with ASC Topic 280, Segment Reporting, to reflect the manner in which our chief operating decision maker, our Chief Executive Officer, evaluates performance and allocates resources in managing our business. We have aggregated those operating segments into four reportable segments: Energy, Ag, Nitrogen Production and Foods.

Our Energy segment produces and provides primarily for the wholesale distribution of petroleum products and transportation of those products. Our Ag segment purchases and further processes or resells grains and oilseeds originated by our country operations business, by our member cooperatives and by third parties; serves as a wholesaler and retailer of crop inputs; and produces and markets ethanol. Our Nitrogen Production segment consists solely of our equity method investment in CF Nitrogen, which entitles us, pursuant to a supply agreement that we entered into with CF Nitrogen, to purchase up to a specified annual quantity of granular urea and urea ammonium nitrate annually from CF Nitrogen. Our Foods segment consists solely of our equity method investment in Ventura Foods. Corporate and Other primarily represents our non-consolidated wheat milling operations, as well as our financing, hedging and insurance operations.

Corporate administrative expenses and interest are allocated to each business segment, and Corporate and Other, based on direct usage for services, such as information technology and legal, and other factors or considerations relevant to the costs incurred.

Many of our business activities are highly seasonal and operating results vary throughout the year. For example, in our Ag segment, our crop nutrients and country operations businesses generally experience higher volumes and income during the spring planting season and in the fall, which corresponds to harvest. Our grain marketing operations are also subject to fluctuations in volume and earnings based on producer harvests, world grain prices and demand. Our Energy segment generally experiences higher volumes and profitability in certain operating areas, such as refined products, in the summer and early fall when gasoline and diesel fuel usage is highest and is subject to global supply and demand forces. Other energy products, such as propane, may experience higher volumes and profitability during the winter heating and fall crop drying seasons.

Our revenues, assets and cash flows can be significantly affected by global market prices for commodities such as petroleum products, natural gas, ethanol, grains, oilseeds, crop nutrients and flour. Changes in market prices for commodities that we purchase without a corresponding change in the selling prices of those products can affect revenues and operating earnings. Commodity prices are affected by a wide range of factors beyond our control, including the weather, crop damage

Table of Contents

due to disease or insects, drought, the availability and adequacy of supply, government regulations and policies, world events, and general political and economic conditions.

While our revenues and operating results are derived from businesses and operations which are wholly owned and majority owned, a portion of our business operations are conducted through companies in which we hold ownership interests of 50% or less and do not control the operations. See Note 4, Investments for more information on these entities.

Reconciling Amounts represent the elimination of revenues and interest between segments. Such transactions are executed at market prices to more accurately evaluate the profitability of the individual business segments.

Segment information for the three months ended November 30, 2017, and 2016, is presented in the tables below.

	Energy	Ag	Nitrogen Production	Foods	Corporate and Other	Reconciling Amounts	Total
For the Three Months Ended November 30, 2017:	(Dollars in thousands)

Note 10 Derivative Financial Instruments and Hedging Activities

Our derivative instruments primarily consist of commodity and freight futures and forward contracts and, to a lesser degree, may include foreign currency and interest rate swap contracts. These contracts are economic hedges of price risk, but we do not apply hedge accounting under ASC Topic 815, Derivatives and Hedging, except with respect to

certain interest rate swap contracts which are accounted for as cash flow or fair value hedges. Derivative instruments are recorded on our Consolidated Balance Sheets at fair value as described in Note 11, Fair Value Measurements.

Table of Contents

The following tables present the gross fair values of derivative assets, derivative liabilities, and margin deposits (cash collateral) recorded on our Consolidated Balance Sheets along with the related amounts permitted to be offset in accordance with GAAP. We have elected not to offset derivative assets and liabilities when we have the right of offset under ASC Topic 210-20, Balance Sheet - Offsetting; or when the instruments are subject to master netting arrangements under ASC Topic 815-10-45, Derivatives and Hedging - Overall.

Commodity and freight derivatives	\$384,648	\$—	\$ 35,080	\$349,568
Foreign exchange derivatives	8,771	—	3,636	5,135
Interest rate derivatives - hedge	9,978	—	—	9,978
Embedded derivative asset	25,533	—	—	25,533
Total	\$428,930	\$—	\$ 38,716	\$390,214

Derivative Liabilities:

Commodity and freight derivatives	\$309,762	\$3,898	\$ 35,080	\$270,784
Foreign exchange derivatives	19,931	—	3,636	16,295
Interest rate derivatives - hedge	707	—	—	707
Total	\$330,400	\$3,898	\$ 38,716	\$287,786

The amount of long-term derivative assets and liabilities recorded on the Consolidated Balance Sheet at November 30, 2017, were \$71.8 million and \$8.6 million, respectively. The amount of long-term derivative assets and liabilities recorded on the Consolidated Balance Sheet at August 31, 2017, were \$196.9 million and \$14.4 million, respectively.

Table of Contents

Derivatives Not Designated as Hedging Instruments

The majority of our derivative instruments have not been designated as hedging instruments for accounting purposes. The following table sets forth the pretax gains (losses) on derivatives not accounted for as hedging instruments that have been included in our Consolidated Statements of Operations for the three months ended November 30, 2017, and 2016.

	Location of Gain (Loss)	For the Three Months Ended November 30,	
		2017	2016
		(Dollars in thousands)	
Commodity and freight derivatives	Cost of goods sold	\$27,752	\$18,410
Foreign exchange derivatives	Cost of goods sold	6,766	6,024
Foreign exchange derivatives	Marketing, general and administrative	(495)	145
Interest rate derivatives	Interest expense	(1)	2
Embedded derivative	Other income	1,738	29,106
Total		\$35,760	\$53,687

Commodity and Freight Contracts

As of November 30, 2017, and August 31, 2017, we had outstanding commodity futures, options and freight contracts that were used as economic hedges, as well as fixed-price forward contracts related to physical purchases and sales of commodities. The table below presents the notional volumes for all outstanding commodity and freight contracts accounted for as derivative instruments.

	November 30, 2017		August 31, 2017	
	Long	Short	Long	Short
	(Units in thousands)			
Grain and oilseed - bushels	588,263	805,041	570,673	768,540
Energy products - barrels	16,254	19,300	15,072	18,252
Processed grain and oilseed - tons	196	1,700	299	2,347
Crop nutrients - tons	25	4	9	15
Ocean and barge freight - metric tons	4,785	3,144	2,777	1,766
Rail freight - rail cars	151	68	176	75
Natural gas - MMBtu	1,500	—	500	—

Foreign Exchange Contracts

We are exposed to risk regarding foreign currency fluctuations even though a substantial amount of international sales are denominated in U.S. dollars. In addition to specific transactional exposure, foreign currency fluctuations can impact the ability of foreign buyers to purchase U.S. agricultural products and the competitiveness of U.S. agricultural products compared to the same products offered by alternative sources of world supply. From time to time, we enter into foreign currency hedge contracts to minimize the impact of currency fluctuations on our transactional exposures. The notional amounts of our foreign exchange derivative contracts were \$646.3 million and \$776.7 million as of

November 30, 2017, and August 31, 2017, respectively.

Embedded Derivative Asset

Under the terms of our strategic investment in CF Nitrogen, if CF Industries' credit rating is reduced below certain levels by two of three specified credit ratings agencies, we are entitled to receive a non-refundable annual payment of \$5.0 million from CF Industries in November of each year until the date that CF Industries' credit rating is upgraded to or above certain levels by two of the three specified credit ratings agencies or February 1, 2026, whichever is earlier. During the three months ended November 30, 2016, CF Industries' credit rating was reduced below the specified levels and we received a \$5.0 million payment from CF Industries, which was recorded as a gain in our Consolidated Statement

18

Table of Contents

of Operations. We also recorded an embedded derivative asset of \$24.1 million on our Consolidated Balance Sheet and a corresponding gain in our Consolidated Statement of Operations for the fair value of the embedded derivative asset during the three months ended November 30, 2016. During the three months ended November 30, 2017, we received a second \$5.0 million payment from CF Industries. The fair value of the embedded derivative asset recorded on our Consolidated Balance Sheet as of November 30, 2017, was equal to \$22.3 million. The current and long-term portions of the embedded derivative asset are included in derivative assets and other assets on our Consolidated Balance Sheets, respectively. See Note 11, Fair Value Measurements for more information on the valuation of the embedded derivative asset.

Derivatives Designated as Fair Value Hedging Strategies

As of November 30, 2017, and August 31, 2017, we have outstanding interest rate swaps with an aggregate notional amount of \$495.0 million designated as fair value hedges of portions of our fixed-rate debt. Our objective in entering into these transactions is to offset changes in the fair value of the debt associated with the risk of variability in the three-month U.S. dollar LIBOR interest rate, in essence converting the fixed-rate debt to variable-rate debt. Offsetting changes in the fair values of both the swap instruments and the hedged debt are recorded contemporaneously each period and only create an impact to earnings to the extent that the hedge is ineffective. During the three months ended November 30, 2017, and 2016, we recorded offsetting fair value adjustments of \$8.3 million and \$13.3 million, respectively, with no ineffectiveness recorded in earnings.

Note 11 Fair Value Measurements

ASC Topic 820, Fair Value Measurements and Disclosures defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard also establishes a hierarchy for inputs used in measuring fair value, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs or market data that a market participant would obtain from independent sources to value the asset or liability. Unobservable inputs are inputs that reflect our assumptions about the factors market participants would use in valuing the asset or liability developed based upon the best information available in the circumstances. The fair value hierarchy consists of three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Table of Contents

Recurring fair value measurements at November 30, 2017, and August 31, 2017, are as follows:

Interest rate swap derivatives	—	707	—	707
Total	\$31,189	\$ 299,211	\$ —	\$330,400

Commodity, freight and foreign currency derivatives — Exchange-traded futures and options contracts are valued based on unadjusted quoted prices in active markets and are classified within Level 1. Our forward commodity purchase and sales contracts with fixed-price components, ocean freight contracts and other over-the-counter ("OTC") derivatives are determined using inputs that are generally based on exchange traded prices and/or recent market bids and offers, adjusted for location specific inputs, and are classified within Level 2. The location specific inputs are generally broker or dealer quotations, or market transactions in either the listed or OTC markets. Changes in the fair values of these contracts are recognized in our Consolidated Statements of Operations as a component of cost of goods sold.

Table of Contents

Interest rate swap derivatives — Fair values of our interest rate swap derivatives are determined utilizing valuation models that are widely accepted in the market to value these OTC derivative contracts. The specific terms of the contracts, as well as market observable inputs, such as interest rates and credit risk assumptions, are factored into the models. As all significant inputs are market observable, all interest rate swaps are classified within Level 2. Changes in the fair values of contracts not designated as hedging instruments for accounting purposes are recognized in our Consolidated Statements of Operations as a component of interest expense. See Note 10, Derivative Financial Instruments and Hedging Activities for additional information about interest rates swaps designated as fair value and cash flow hedges.

Deferred compensation and other assets — Our deferred compensation investments, Rabbi Trust assets and available-for-sale investments in common stock of other companies are valued based on unadjusted quoted prices on active exchanges and are classified within Level 1. Changes in the fair values of these other assets are primarily recognized in our Consolidated Statements of Operations as a component of marketing, general and administrative expenses.

Deferred purchase price receivable — The fair value of the DPP receivable included in receivables, net and other assets, is determined by discounting the expected cash flows to be received. The expected cash flows are primarily based on unobservable inputs consisting of the face amount of the Receivables adjusted for anticipated credit losses. Significant changes in the anticipated credit losses could result in a significantly higher (or lower) fair value measurement. Due to the use of significant unobservable inputs in the pricing model, including management's assumptions related to anticipated credit losses, the DPP receivable is classified as a Level 3 fair value measurement. The reconciliation of the DPP receivable for the period ended November 30, 2017, is included in Note 2, Receivables.

Embedded derivative asset — The embedded derivative asset relates to contingent payments inherent in our investment in CF Nitrogen. The inputs into the fair value measurement include the probability of future upgrades and downgrades of CF Industries' credit rating based on historical credit rating movements of other public companies and the discount rates to be applied to potential annual payments based on applicable historical and current yield coupon rates. Based on these observable inputs, our fair value measurement is classified within Level 2. See Note 10, Derivative Financial Instruments and Hedging Activities for additional information.

There were no material transfers between Level 1, Level 2 and Level 3 assets and liabilities during the three months ended November 30, 2017.

Note 12 Commitments and Contingencies

Environmental

We are required to comply with various environmental laws and regulations incidental to our normal business operations. In order to meet our compliance requirements, we establish reserves for the probable future costs of remediation of identified issues, which are included in cost of goods sold and marketing, general and administrative in our Consolidated Statements of Operations. The resolution of any such matters may affect consolidated net income for any fiscal period; however, we believe any resulting liabilities, individually or in the aggregate, will not have a material effect on our consolidated financial position, results of operations or cash flows during any fiscal year.

Other Litigation and Claims

We are involved as a defendant in various lawsuits, claims and disputes, which are in the normal course of our business. The resolution of any such matters may affect consolidated net income for any fiscal period; however, we believe any resulting liabilities, individually or in the aggregate, will not have a material effect on our consolidated financial position, results of operations or cash flows during any fiscal year.

Table of Contents

Guarantees

We are a guarantor for lines of credit and performance obligations of related, non-consolidated companies. As of November 30, 2017, our bank covenants allowed maximum guarantees of \$1.0 billion, of which \$101.4 million were outstanding. We have collateral for a portion of these contingent obligations. We have not recorded a liability related to the contingent obligations as we do not expect to pay out any cash related to them, and the fair values are considered immaterial. The underlying loans to the counterparties for which we provide these guarantees were current as of November 30, 2017.

Lease Commitments

On November 30, 2017, we completed a sale-leaseback transaction for our primary corporate office building located in Inver Grove Heights, Minnesota. Simultaneous with the closing of the sale, the Company entered into a 20-year operating lease arrangement with base annual rent of approximately \$3.4 million during the first year, followed by annual increases of 2% through the remainder of the lease period.

Note 13 Subsequent Events

United States Tax Reform

On December 22, 2017, the Tax Cuts and Jobs Act was signed into law. The law includes significant changes to the U.S. corporate tax system, including a Federal corporate rate reduction from 35% to 21%, repeal of the Section 199 Domestic Production Activities Deduction and enactment of the Deduction for Qualified Business Income of Pass-Thru Entities. We are in the process of analyzing the legislation and determining an estimate of the financial impact. Currently, we expect to record a material tax benefit due to the revaluation of our net deferred tax liability position included in our Consolidated Balance Sheets.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition and results of operations, liquidity and certain other factors that may affect our future results. Our MD&A is presented in the following sections:

Overview

Business Strategy

Fiscal 2018 First Quarter Highlights

Fiscal 2018 Priorities Update

Fiscal 2018 Trends Update

Results of Operations

Liquidity and Capital Resources

Off Balance Sheet Financing Arrangements

Contractual Obligations

Critical Accounting Policies

Effect of Inflation and Foreign Currency Transactions

Recent Accounting Pronouncements

Our MD&A should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended August 31, 2017 (including the information presented therein under Risk Factors), as well as the consolidated financial statements and the related notes included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Table of Contents

Overview

CHS Inc. is a diversified company that provides grain, foods and energy resources to businesses and consumers on a global scale. As a cooperative, we are owned by farmers, ranchers and member cooperatives across the United States. We also have preferred shareholders that own our five series of preferred stock, all of which are listed and traded on the Nasdaq Global Select Market. We operate in the following four reportable segments:

- Energy Segment - produces and provides primarily for the wholesale distribution of petroleum products and transportation of those products.

- Ag Segment - purchases and further processes or resells grains and oilseeds originated by our country operations business, by our member cooperatives and by third parties and also serves as a wholesaler and retailer of crop inputs.

- Nitrogen Production Segment - consists solely of our equity method investment in CF Industries Nitrogen, LLC ("CF Nitrogen") and produces and distributes nitrogen fertilizer, a commodity chemical.

- Foods Segment - consists solely of our equity method investment in Ventura Foods, LLC ("Ventura Foods") and is a processor and distributor of edible oils used in food preparation and a packager of food products.

In addition, other operating activities, primarily our non-consolidated wheat milling joint venture, as well as our financing, hedging and insurance operations, have been aggregated within Corporate and Other.

The consolidated financial statements include the accounts of CHS and all of our wholly-owned and majority-owned subsidiaries and limited liability companies. The effects of all significant intercompany transactions have been eliminated.

Corporate administrative expenses and interest are allocated to each reporting segment, along with Corporate and Other, based on direct usage for services, such as information technology and legal, and other factors or considerations relevant to the costs incurred.

Management's Focus. When evaluating our operating performance, management focuses on gross profit and income before income taxes. As a company that operates heavily in commodities, there is significant unpredictability and volatility in pricing and costs. As such, we focus on managing the margin we can earn and the resulting income before income taxes. Management also focuses on ensuring the strength of the balance sheet through the appropriate management of financial liquidity, working capital, capital deployment, capital resources and overall leverage.

Seasonality. Many of our business activities are highly seasonal and our operating results vary throughout the year. Our revenues and income are generally lowest during the second and fourth fiscal quarters and highest during the first and third fiscal quarters. For example, in our Ag segment, our crop nutrients and country operations businesses generally experience higher volumes and income during the spring planting season and in the fall, which corresponds to harvest. Our grain marketing operations are also subject to fluctuations in volume and earnings based on producer harvests, world grain prices and demand. Our Energy segment generally experiences higher volumes and profitability in certain operating areas, such as refined products, in the summer and early fall when gasoline and diesel fuel usage by our agricultural producers is highest and is subject to global supply and demand forces. Other energy products, such as propane, may experience higher volumes and profitability during the winter heating and crop drying seasons. The graphs below depict the seasonality inherent in our business.

Table of Contents

* It should be noted the third quarter of fiscal 2017 was impacted by material charges that caused income (loss) before income taxes for that period to deviate from historical trends.

Pricing. Our revenues, assets and cash flows can be significantly affected by global market prices for commodities such as petroleum products, natural gas, grains, oilseed products and crop nutrients. Changes in market prices for commodities that we purchase without a corresponding change in the selling prices of those products can affect revenues and operating earnings. Commodity prices are affected by a wide range of factors beyond our control, including the weather, crop damage due to disease or insects, drought, availability/adequacy of supply of the related commodity, government regulations/policies, world events and general political/economic conditions.

Business Strategy

Our business strategy is to help our owners grow by maximizing returns and optimizing our various operations to ensure that our core businesses are strategically positioned today and for the future. We are focusing on improving efficiency and, when necessary, disposing of assets that are not strategic and/or do not meet our internal measurement expectations. We are also focused on maintaining financial flexibility by optimizing debt levels and ensuring adequate financial liquidity so we can effectively operate throughout the agriculture and energy economic cycles.

Table of Contents

Fiscal 2018 First Quarter Highlights

• Margins were lower in our Ag segment compared to prior year results; however, we did see improvements in our Energy business compared to the prior year.

• Long-term debt (including the current portion) was reduced by \$172.0 million by monetizing certain assets and actively managing cash flow.

• Continued our active management of the balance sheet which resulted in the decision that no cash patronage would be issued in fiscal 2018 for fiscal 2017 results, and equity retirements would be limited to \$10 million for estates.

Fiscal 2018 Priorities Update

During the three months ended November 30, 2017, we continue to make improvements in our management of risk and the granting of credit through enhancements in the related policies, practices and operations. We finalized decisions to dispose of certain assets within our Ag segment that were determined to not be strategic and were not meeting our performance expectations. We also continued our focus on restoring financial flexibility by monetizing certain assets and paying down long-term debt.

Fiscal 2018 Trends Update

Our business is cyclical and the Ag and Energy industries are currently in a challenging environment characterized by reduced commodity prices, lower margins, reduced liquidity and increased leverage. We are unable to predict how long this current environment will last or how severe it will ultimately be; however, at this time, although there was an increase in Energy margins in the first quarter of fiscal 2018, we do not foresee significant changes to the core economic environment during the remainder of fiscal 2018. During this period, we expect our revenues, margins and cash flows from our core operations to continue to be under pressure.

Table of Contents

Results of Operations

Consolidated Statements of Operations

	For the Three Months Ended November 30	
	2017	2016
	(Dollars in thousands)	
Revenues	\$8,048,889	\$8,048,250
Cost of goods sold	7,735,627	7,695,553

The charts below detail revenues and income (loss) before income taxes by reportable segment for the first quarter of fiscal 2018. Our Nitrogen Production and Foods reportable segments represent equity methods investments, and as such record earnings and allocated expenses but not revenue.

Table of Contents

Income (Loss) Before Income Taxes by Segment

Energy

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Income (loss) before income taxes	\$ 113,083	\$ 69,983	\$ 43,100	61.6 %

The following table and commentary present the primary reasons for the changes in income (loss) before income taxes ("IBIT") for the Energy segment for the three months ended November 30, 2017, compared to the prior year:

	Change Three Months Ended November 30 (Dollars in millions)
Volume	\$ (1)
Price	37
Other*	2
Non-gross profit related activity ⁺	5
Total change in Energy IBIT	\$ 43

* Other includes retail and non-commodity type activities.

+ See commentary related to these changes in the marketing, general and administrative expenses, (gain) loss on investments, interest expense, other income (loss) and equity (income) loss from investments sections of this Results of Operations.

Comparison of Energy segment IBIT for the three months ended November 30, 2017, and 2016

The \$43.1 million increase in the Energy segment IBIT reflects the following:

Primarily driven by improved margins within refined fuels, caused by lower market inventories in the energy industry due to an active hurricane season in the Gulf of Mexico which resulted in oil production and refining operations being temporarily suspended in major centers of production along a critical portion of the Gulf coast of the United States, driving prices higher.

¶ This increase was partially offset by a 3% decrease in volumes in Refined Fuels.

¶ We are subject to the Renewable Fuels Standard program ("RFS"), which requires refiners to blend renewable fuels (e.g., ethanol, biodiesel) into their finished transportation fuels or purchase renewable energy credits, known as Renewable Identification Numbers ("RINs"), in lieu of blending. The Environmental Protection Agency ("EPA") generally establishes new annual renewable fuel percentage standards for each compliance year in the preceding year. We generate RINs under the RFS in our renewable fuels operations and through our blending activities at our terminals. However, we cannot generate enough RINs to meet the needs of our refining capacity and RINs must be purchased on the open market. The price of RINs can be volatile. On November 30, 2017, the EPA released the final

mandate for year 2018.

Ag

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
Income (loss) before income taxes	\$74,519	\$109,213	\$(34,694)	(31.8)%

(Dollars in thousands)

27

Table of Contents

The following table and commentary present the primary reasons for the changes in IBIT for the Ag segment for the three months ended November 30, 2017, compared to the prior year:

	Change Three Months Ended November 30 (Dollars in millions)
Volume	\$ (7)
Price	(41)
Other*	(18)
Impairment ⁺	22
Non-gross profit related activity ⁺	9
Total change in Ag IBIT	\$ (35)

* Other includes retail and non-commodity type activities.

+ See commentary related to these changes in the marketing, general and administrative expenses, reserve and impairment charges (recoveries), net, (gain) loss on investments, interest expense, other income (loss) and equity (income) loss from investments sections of this Results of Operations.

Comparison of Ag segment IBIT for the three months ended November 30, 2017, and 2016

The \$34.7 million decrease in Ag segment IBIT reflects the following:

• Grain marketing IBIT decreased primarily due to lower grain volumes and associated margins.

• Country operations IBIT increased due to improved margins along with a gain of approximately \$7.1 million due to the sale of a non-strategic North American location, a gain on the sale of a domestic investment of \$2.2 million, and recognition of approximately \$5.3 million associated with the recovery of a loan that was written off in the prior fiscal year.

• Processing and food ingredients IBIT decreased primarily caused by lower margins along with one-time severance charges and other costs associated with held for sale assets.

• Crop nutrients IBIT increased, driven by higher associated margins.

• Renewable fuels marketing and production operations IBIT decreased primarily resulting from lower margins.

All Other Segments

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Nitrogen Production IBIT	\$5,666	\$27,037	\$(21,371)	(79.0)%
Foods IBIT	\$973	\$10,572	\$(9,599)	(90.8)%
Corporate and Other IBIT	\$5,314	\$8,749	\$(3,435)	(39.3)%

Comparison of All Other Segments IBIT for the three months ended November 30, 2017, and 2016

Our Nitrogen Production segment IBIT decreased due to a gain in the prior year of \$29.1 million associated with an embedded derivative asset inherent in the agreement relating to our investment in CF Nitrogen for which there was no

comparable gain in the current fiscal year. This was partially offset by higher equity method income in the current year driven by improved prices on urea and urea ammonium nitrate, which are produced and sold by CF Nitrogen. See Note 4, Investments, of the notes to the consolidated financial statements that are included in this Quarterly Report on Form 10-Q for additional information. Our Foods segment IBIT decreased in the first quarter of fiscal 2018 due to lower margins earned by Ventura Foods, as its customers put significant pressure on pricing and it experienced acquisition integration challenges. Corporate and Other IBIT decreased due to lower earnings from our wheat milling joint venture and reduced interest revenue from our financing group resulting from the sale of loans receivable.

Table of Contents

Revenues by Segment

Energy

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Revenue	\$1,950,499	\$1,590,093	\$360,406	22.7 %

The following table and commentary present the primary reasons for the changes in revenue for the Energy segment for the three months ended November 30, 2017, compared to the prior year:

	Change Three Months Ended November 30 (Dollars in millions)
Volume	\$ (36)
Price	377
Other*	19
Total change in Energy revenue	\$ 360

* Other includes retail and non-commodity type activities.

Comparison of Energy segment revenue for the three months ended November 30, 2017, and 2016

The \$360.4 million increase in Energy revenue reflects the following:

Refined fuels revenues rose \$257.7 million (20%), of which approximately \$298.0 million related to an increase in the net average selling price, partially offset by \$40.3 million related to lower sales volumes, compared to the prior year.

The selling price of refined fuels products increased an average of \$0.36 (24%) per gallon, and sales volumes decreased 3%, compared to the previous year.

Propane revenues increased \$87.9 million (57%), of which \$78.0 million was attributable to a rise in the net average selling price and \$9.9 million was attributable to higher volumes. Propane sales volume increased 6% and the average selling price of propane increased \$0.31 (47%) per gallon, when compared to the previous year.

Ag

* Other includes retail and non-commodity type activities.

Table of Contents

Comparison of Ag segment revenue for the three months ended November 30, 2017 and 2016

The \$349.6 million decrease in Ag segment revenue reflects the following:

Grain and oilseed revenues attributable to country operations and grain marketing totaled \$4.4 billion and \$4.7 billion for the three months ended November 30, 2017, and 2016, respectively. The grain and oilseed revenue decrease of \$338.1 million (7%) was attributable to a decline in volumes of \$368.6 million, partially offset by \$30.5 million in higher average grain selling prices. The average sales price of all grain and oilseed commodities sold increased \$0.04 per bushel. Wheat, corn and soybean volumes decreased by approximately 8% compared to the prior year. The decrease in volumes was due to lower export activity compared to the same period in the prior year caused by increased global competition.

Our processing and food ingredients revenue decreased \$26.8 million, primarily due to a \$11.7 million decline resulting from the prior-year sale of an international location, along with a decline in volumes of \$24.5 million (7%). These declines were partially offset by an average sales price increase of \$0.39 (3%) per bushel or \$9.4 million related to our oilseed commodities.

Wholesale crop nutrient revenues attributable to crop nutrients and grain marketing decreased \$3.9 million due to lower average fertilizer selling prices of \$21.2 million, partially offset by higher volumes of \$17.3 million. Our wholesale crop nutrient volumes increased 4% and the average sales price of all fertilizers sold reflected a decrease of \$12.72 (5%) per ton compared to the prior year. The increase in volumes was due to improved market conditions from the prior year as well as supply chain management improvements.

Our renewable fuels revenues from our marketing and production operations decreased \$13.7 million primarily the result of a lower average sales price of \$0.11 (7%) per gallon or \$24.1 million, partially offset by 3% higher volumes or \$10.3 million. Market supply and demand forces decreased average sales prices.

The remaining Ag segment product revenues related primarily to feed and farm supplies increased \$26.5 million mainly due to increases in diesel sold and a rise in propane sold for home heating due to colder temperatures.

All Other Segments

	For the Three		Change	
	2017	2016	Dollars	Percent
Corporate and Other revenue	\$15,743	\$25,928	\$(10,185)	(39.3)%

(Dollars in thousands)

Comparison of All Other Segments revenue for the three months ended November 30, 2017, and 2016

Corporate and Other revenue decreased due to the sale of loans receivable upon which interest was previously being recognized. Our Nitrogen Production and Foods reportable segments represent equity method investments, and as such record earnings and allocated expenses but not revenue.

Cost of Goods Sold by Segment

Energy

	For the Three Months		Change	
	2017	2016	Dollars	Percent
Cost of goods sold	\$1,800,404	\$1,478,610	\$321,794	21.8 %

(Dollars in thousands)

Table of Contents

The following table and commentary present the primary reasons for the changes in cost of goods sold ("COGS") for the Energy segment for the three months ended November 30, 2017, compared to the prior year:

	Change Three Months Ended November 30 (Dollars in millions)
Volume	\$ (35)
Price	340
Other*	17
Total change in Energy cost of goods sold	\$ 322

* Other includes retail and non-commodity type activities.

Comparison of Energy segment COGS for the three months ended November 30, 2017, and 2016

The \$321.8 million increase in Energy segment COGS reflects the following:

Refined fuels cost of goods sold increased \$196.1 million (16%), which reflects a \$0.28 (19%) per gallon or \$234.6 million rise in the average cost of refined fuels, partially offset by a decrease of 3% in volume or \$38.5 million.

The increase in propane cost of goods sold of \$112.1 million was attributable to a 6% rise in volumes or \$7.8 million and an increase in average cost of \$0.32 (62%) per gallon or \$79.7 million. In addition, there were certain manufacturing changes that reduced cost of goods sold by \$24.6 million in fiscal 2017 that did not reoccur in fiscal 2018.

Ag

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Cost of goods sold	\$5,936,062	\$6,220,190	\$(284,128)	(4.6)%

The following table and commentary present the primary reasons for the changes in COGS for the Ag segment for the three months ended November 30, 2017, compared to the prior year:

	Change Three Months Ended November 30 (Dollars in millions)
Volume	\$ (353)
Price	45
Other*	24
Total change in Ag cost of goods sold	\$ (284)

* Other includes retail and non-commodity type activities.

Comparison of Ag segment COGS for the three months ended November 30, 2017, and 2016

The \$284.1 million decrease in Ag segment COGS reflects the following:

Grain and oilseed cost of goods sold attributable to country operations and grain marketing totaled \$4.3 billion and \$4.6 billion for the three months ended November 30, 2017, and 2016, respectively. The costs of grains and oilseed procured through our Ag segment decreased \$299.2 million. The majority of the decline was driven by an 8% decrease in volumes of \$360.9 million, partially offset by a higher average cost per bushel of \$0.08 (1%) or \$61.7 million. The decrease in volumes was due to lower export activity compared to the same period in the prior year. Processing and food ingredients cost of goods sold increased \$5.5 million (2%) and is comprised of \$47.4 million from a higher average cost of oilseeds purchased for further processing, partially offset by \$22.2 million in lower volumes, plus a \$19.7 million decline due to the sale of an international location in the prior year. Changes in cost are typically driven by the market price of soybeans purchased.

Table of Contents

Wholesale crop nutrients cost of goods sold attributable to crop nutrients and grain marketing increased by \$1.2 million (less than 1%), caused primarily by an increase of 4%, or \$16.5 million, in tons sold. The increase was partially offset by a decline of 4%, or \$15.3 million, in average cost per ton of product. The increase in volumes and decrease in the prices paid for goods were due to better market conditions compared to the prior year, as well as beneficial changes in supply chain management.

Renewable fuels cost of goods sold decreased \$3.6 million (1%) resulting from a decrease in the average cost per gallon of \$0.06 (4%) or \$13.2 million, which was mostly offset by an increase in volume of 3% or \$9.7 million.

The remaining Ag segment product cost of goods sold, primarily feed and farm supplies, decreased \$11.7 million due to lower costs incurred related to crop protection services and sunflower processing.

Total Ag cost of goods sold include "Other" cost of goods sold, which are generated from our country operations elevators and agri-service centers that incur costs from activities related to production agriculture. These cost of goods sold activities include grain storage, grain cleaning, fertilizer spreading, crop protection spraying and other associated services of this nature. In addition, our grain marketing operations incur "Other" costs at our export terminals from activities related to loading vessels.

All Other Segments

	For the Three		Change	
	Months Ended			
	November 30			
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Nitrogen Production COGS	\$219	\$(884)	\$1,103	124.8%
Corporate and Other COGS	\$(1,058)	\$(2,363)	\$1,305	55.2%

Comparison of All Other Segments COGS for the three months ended November 30, 2017, and 2016

The increase in COGS for our Nitrogen Production segment for fiscal 2018 was due to an unfavorable variance on our natural gas hedges. The increase in COGS for Corporate and Other for fiscal 2018 was due to increased commission expense as a result of higher volumes of transactions in our financing, hedging and insurance operations. Our Foods reportable segment represents an equity method investment, and as such records earnings and allocated expenses but not COGS.

Marketing, General and Administrative Expenses

	For the Three		Change	
	Months Ended			
	November 30			
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Marketing, general and administrative expenses	\$140,168	\$147,849	\$(7,681)	(5.2)%

Comparison of marketing, general and administrative expenses for the three months ended November 30, 2017, and 2016

The \$7.7 million decrease in marketing, general and administrative expenses is primarily due to lower compensation expenses and lower brokerage commissions.

Reserve and Impairment Charges (Recoveries), net

Change

Edgar Filing: CHS INC - Form 10-Q

For the Three
Months Ended
November 30
2017 2016 Dollars Percent
(Dollars in thousands)

Reserve and impairment charges (recoveries), net \$(3,787) \$18,357 \$(22,144) (120.6)%

Comparison of reserve and impairment charges (recoveries), net for the three months ended November 30, 2017, and 2016

The \$22.1 million decrease in reserve and impairment charges (recoveries), net reflects the following:

• During fiscal 2017, an allowance for doubtful accounts of \$18.4 million was recorded, including loan loss reserves related to a single producer borrower.

Table of Contents

In fiscal 2018, we recovered approximately \$5.3 million associated with a loan that was previously written off in the prior fiscal year, partially offset by increases in bad debt expense of approximately \$1.5 million. As a result, the current fiscal year to date reflects a net recovery.

Gain (Loss) on Investments

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Gain (loss) on investments	\$2,819	\$(7,401)	\$10,220	138.1 %

Comparison of gain (loss) on investments for the three months ended November 30, 2017, and 2016

The increase in gain (loss) on investments is mainly attributable to a gain on the sale of a domestic investment of \$2.2 million in fiscal 2018, compared to a \$7.4 million loss on the sale of an international investment during fiscal 2017 which did not reoccur in fiscal 2018.

Interest Expense

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Interest expense	\$40,702	\$38,265	\$2,437	6.4 %

Comparison of interest expense for the three months ended November 30, 2017, and 2016

The \$2.4 million increase in interest expense for fiscal 2018 was primarily due to higher interest expense associated with higher interest rates.

Other Income (Loss)

	For the Three Months Ended November 30		Change	
	2017	2016	Dollars	Percent
	(Dollars in thousands)			
Other income (loss)	\$22,195	\$44,401	\$(22,206)	(50.0)%

Comparison of other income (loss) for the three months ended November 30, 2017, and 2016

The \$22.2 million decrease in other income (loss) reflects the following:

During fiscal 2017, we recorded a gain of \$29.1 million associated with an embedded derivative within the contract relating to our strategic investment in CF Nitrogen that did not reoccur during fiscal 2018. See Note 10, Derivative Financial Instruments and Hedging Activities, of the notes to the consolidated financial statements that are included in this Quarterly Report on Form 10-Q for additional information.

In fiscal year 2018, we sold a non-strategic North American location in our Ag segment that resulted in a gain of approximately \$7.1 million.

Table of Contents

Equity Income (Loss) from Investments

	For the Three		Change	
	Months Ended		Dollars	Percent
	2017	2016		
	(Dollars in thousands)			
Equity income (loss) from investments	\$38,362	\$40,328	\$(1,966)	(4.9)%

Comparison of equity income (loss) from investments for the three months ended November 30, 2017, and 2016

Equity income (loss) from investments primarily decreased due to lower equity income recognized from our equity method investments in Ventura Foods, TEMCO, LLC, and Ardent Mills, LLC caused by lower margins, which was partially offset by higher equity income recognized from our equity method investment in CF Nitrogen. See Note 4, Investments, of the notes to the consolidated financial statements that are included in this Quarterly Report on Form 10-Q for additional information. We record equity income or loss from the investments in which we have an ownership interest of 50% or less and have significant influence, but not control, for our proportionate share of income or loss reported by the entity, without consolidating the revenues and expenses of the entity in our Consolidated Statements of Operations.

Income Taxes

	For the Three		Change	
	Months Ended		Dollars	Percent
	2017	2016		
	(Dollars in thousands)			
Income taxes	\$(19,936)	\$(16,612)	\$(3,324)	(20.0)%

Comparison of income taxes for the three months ended November 30, 2017, and 2016

During the first quarter of fiscal 2018, we had an increase in income tax expense when compared to the first quarter of fiscal 2017, resulting in effective tax rates of 10.0% and 7.4%, respectively. The federal and state statutory rate applied to nonpatronage business activity was 38.4% and 38.3% for the periods ended November 30, 2017, and 2016, respectively. The income taxes and effective tax rate vary each year based upon profitability and nonpatronage business activity during each of the comparable years.

Liquidity and Capital Resources

Summary

In assessing our financial condition, we consider factors such as working capital and internal benchmarking related to our applicable covenants and other financial criteria. We fund our operations primarily through a combination of cash flows from operations and revolving credit facilities. We fund our capital expenditures and growth primarily through cash, operating cash flow and long-term debt financing.

On November 30, 2017, we had working capital, defined as current assets less current liabilities, of \$435.9 million and a current ratio, defined as current assets divided by current liabilities, of 1.1 compared to working capital of \$181.9 million and a current ratio of 1.0 on August 31, 2017. On November 30, 2016, we had working capital of \$378.6 million and a current ratio of 1.0 compared to working capital of \$414.4 million and a current ratio of 1.1 on August 31, 2016.

As of November 30, 2017, we had cash and cash equivalents of \$252.1 million, total equities of \$7.9 billion, long-term debt of \$2.0 billion and notes payable of \$2.5 billion. Our capital allocation priorities include maintaining

the safety and compliance of our operations, paying our dividends, reducing funded debt and taking advantage of strategic opportunities that benefit our owners. We expect the down cycle in the Ag industry to continue and while we maintain appropriate levels of liquidity, we will continue to consider opportunities to further diversify and enhance our sources and amounts of liquidity. These opportunities include reducing operating expenses, deploying and/or financing working capital more efficiently and identifying and disposing of nonstrategic or underperforming assets. We believe that cash generated by operating activities, along with available borrowing capacity under our credit facilities, will be sufficient to support our operations for the foreseeable future and we expect to remain in compliance with our loan covenants.

Table of Contents

Fiscal 2018 and 2017 Activity

On July 18, 2017, we amended an existing receivables and loans securitization facility (“Securitization Facility” or the “Facility”) with certain unaffiliated financial institutions (the “Purchasers”). Under the Securitization Facility, CHS Capital and CHS both sell eligible trade accounts and notes receivable (“Receivables”) they have originated to Cofina Funding, LLC (“Cofina Funding”), a wholly-owned bankruptcy-remote indirect subsidiary of CHS. Cofina Funding in turn sells the purchased Receivables in their entirety to the Purchasers. Prior to amending the Securitization Facility in July 2017, the transfer of Receivables was accounted for as a secured borrowing. Under the terms of the amended Securitization Facility, CHS accounts for Receivables sold under the facility as a sale of financial assets and derecognizes the sold Receivables from its Consolidated Balance Sheets. The amount available under the Facility fluctuates over time based on the total amount of eligible Receivables generated during the normal course of business, with maximum availability of \$700.0 million. As of November 30, 2017, the total availability under the Securitization Facility was \$700.0 million, all of which had been utilized.

The Facility agreement contains certain customary representations and warranties and affirmative covenants, including as to the eligibility of the Receivables being sold, and contains customary program termination events and non-reinvestment events. We were in compliance with all covenants associated with our Securitization Facility as of November 30, 2017.

Cash Flows

The following table presents summarized cash flow data for the three months ended November 30, 2017, and 2016:

	2017	2016	Change	
	(Dollars in thousands)		Dollars	Percent
Net cash provided by (used in) operating activities	\$(140,454)	\$238,417	\$(378,871)	(158.9)%
Net cash provided by (used in) investing activities	(62,770)	(327,022)	264,252	80.8 %
Net cash provided by (used in) financing activities	271,738	327,472	(55,734)	(17.0)%
Effect of exchange rate changes on cash and cash equivalents	2,236	(2,696)	4,932	182.9 %
Net increase (decrease) in cash and cash equivalents	\$70,750	\$236,171	\$(165,421)	(70.0)%

Comparison of cash flow for the three months ended November 30, 2017, and 2016

The \$378.9 million decrease in cash from operating activities reflects the following:

- Reduced seasonal purchases of inventory offset by decreased accounts payable and accrued expenses.
- Increased supplier advances due to timing of payments made in the first quarter of fiscal 2018 compared to payments made in the second quarter of fiscal 2017.
- Decreased customer advance payments in the Ag segment due to lower sales volumes and drought conditions in the upper midwest.

The \$264.3 million increase in cash from investing activities reflects the following:

- Decreased CHS Capital notes receivable activity of \$149.1 million.
- Proceeds of \$54.7 million due to sale of our primary corporate office building in Inver Grove Heights, Minnesota which was subsequently leased back to us. The proceeds received were used to pay down long-term debt.
- Reduced acquisitions of property, plant and equipment and other business acquisitions primarily related to our plan to reduce our capital investments to allow us to actively reduce our funded debt obligations.

Cash from financing activities decreased \$55.7 million, primarily due to changes in checks and drafts outstanding compared to the three months ended November 30, 2016.

Future Uses of Cash

We expect to utilize cash and cash equivalents, along with cash generated by operating activities to fund capital expenditures and payments for debt, interest, dividends and guarantees. The following is a summary of our primary cash requirements for fiscal 2018:

• Capital expenditures. We expect total capital expenditures for fiscal 2018 to be approximately \$602.0 million, compared to capital expenditures of \$446.7 million in fiscal 2017. Included in that amount for fiscal 2018 is

Table of Contents

approximately \$221.0 million for the acquisition of property, plant and equipment at our Laurel, Montana and McPherson, Kansas refineries. During the three months ended November 30, 2017, we acquired plant, property and equipment of \$85.8 million.

Major repairs. Refineries have planned major maintenance to overhaul, repair, inspect and replace process materials and equipment (referred to as a "turnaround") which typically occur for a five- to six-week period every 2-5 years.

Our Laurel, Montana refinery has planned maintenance scheduled for fiscal 2018 for approximately \$92.0 million.

Debt and interest. We expect to repay the remaining \$25.0 million of current maturities of long term debt during fiscal 2018. During the three months ended November 30, 2017, we repaid \$160.0 million of long term debt consisting of scheduled debt maturities and optional prepayments.

Preferred stock dividends. We had approximately \$2.3 billion of preferred stock outstanding at November 30, 2017.

We expect to pay dividends on our preferred stock of approximately \$168.7 million during fiscal 2018.

Guarantees. We intend to fund a total of approximately \$170.0 million in loan guarantees to our Brazilian operations in the first nine months of fiscal 2018 as a result of losses in the prior fiscal year caused by a trading partner of ours in Brazil entering into bankruptcy-like proceedings under Brazilian law. During the three months ended November 30, 2017, we funded \$25.0 million in guarantees.

Future Sources of Cash

We fund our operations primarily through a combination of cash flows from operations and committed and uncommitted revolving credit facilities, including our Securitization Facility. We believe these sources will provide adequate liquidity to meet our working capital needs. We fund certain of our long-term capital needs, primarily those related to acquisitions of property, plant and equipment by issuing privately placed long-term debt and term loans. In addition, our wholly-owned subsidiary, CHS Capital, makes loans to member cooperatives, businesses and individual producers of agricultural products included in our cash flows from investing activities, and has financing sources as detailed below in CHS Capital Financing.

Working Capital Financing

We finance our working capital needs through committed and uncommitted lines of credit with domestic and international banks. We believe our current cash balances and our available capacity on our committed lines of credit will provide adequate liquidity to meet our working capital needs. The following table summarizes our primary lines of credit as of November 30, 2017:

Revolving Credit Facilities	Maturities	Total Capacity November 30, 2017 (Dollars in thousands)	Borrowings Outstanding	Interest Rates
Committed Five-Year Unsecured Facility	2020	\$ 3,000,000	\$ 1,080,000	LIBOR+0.00% to 1.45%
Uncommitted Bilateral Facilities	2018	250,000	250,000	LIBOR+0.00% to 1.05%

In addition to our primary revolving lines of credit, we have a three-year \$325.0 million committed revolving pre-export credit facility for CHS Agronegocio Industria e Comercio Ltda ("CHS Agronegocio"), our wholly-owned subsidiary in Brazil. CHS Agronegocio uses the facility, which expires in April 2019, to finance its working capital needs related to its purchases and sales of grains, fertilizers and other agricultural products. As of November 30, 2017, the outstanding balance under the facility was \$260.0 million.

In addition to our uncommitted bilateral facility above, as of November 30, 2017, our wholly-owned subsidiaries, CHS Europe S.a.r.l and CHS Agronegocio, had uncommitted lines of credit with \$420.0 million outstanding. In addition, our other international subsidiaries had lines of credit with a total of \$167.3 million outstanding as of

November 30, 2017, of which \$38.7 million was collateralized.

On November 30, 2017, and August 31, 2017, we had total short-term indebtedness outstanding on these various primary and other facilities, as well as other miscellaneous short-term notes payable, in the amount of \$2.2 billion and \$1.7 billion, respectively.

36

Table of Contents

Long-term Debt Financing

The following table presents summarized long-term debt data as of November 30, 2017, and August 31, 2017:

	November 30, 2017	August 31, 2017
	(Dollars in thousands)	
Private placement debt	\$1,530,955	\$1,643,886
Bank financing	391,000	445,000
Capital lease obligations	28,917	33,075
Other notes and contract payable	61,542	62,652
Deferred financing costs	(4,648)	(4,820)
	\$2,007,766	\$2,179,793

CHS Capital Financing

For a description of the Securitization Facility, see above in Fiscal 2018 and 2017 activity.

CHS Capital has available credit under master participation agreements with numerous counterparties. Prior to the fourth quarter of fiscal 2017, all borrowings under these agreements were accounted for as secured borrowings.

During the fourth quarter of fiscal 2017, certain of these agreements were amended resulting in the Company accounting for the participations as the sale of financial assets. As of November 30, 2017, the remaining participations accounted for as secured borrowings bear interest at variable rates ranging from 2.94% to 4.45%. As of November 30, 2017, the total funding commitment under these agreements was \$93.6 million, of which \$58.5 million was borrowed.

CHS Capital sells loan commitments it has originated to ProPartners Financial ("ProPartners") on a recourse basis.

The total capacity for commitments under the ProPartners program is \$265.0 million. The total outstanding commitments under the program totaled \$192.1 million as of November 30, 2017, of which \$135.2 million was borrowed under these commitments with an interest rate of 2.42%.

CHS Capital borrows funds under short-term notes issued as part of a surplus funds program. Borrowings under this program are unsecured and bear interest at variable rates ranging from 0.10% to 0.90% as of November 30, 2017, and are due upon demand. Borrowings under these notes totaled \$104.2 million as of November 30, 2017.

Covenants

Our long-term debt is unsecured; however, restrictive covenants under various debt agreements have requirements for maintenance of minimum consolidated net worth and other financial ratios. We were in compliance with all debt covenants and restrictions as of November 30, 2017. Based on our current 2018 projections, we expect continued covenant compliance in the near term.

In September 2015, we amended all outstanding notes to conform the financial covenants applicable thereto to those of our amended and restated five-year, unsecured, revolving credit facility. The amended notes provide that if our ratio of consolidated funded debt to consolidated cash flow is greater than a ratio of 3.0 to 1.0, the interest rate on all outstanding notes will be increased by 0.25% until the ratio becomes 3.0 or less. During the three months ended November 30, 2017, and 2016, our ratio of funded debt to consolidated cash flow remained below 3.0 to 1.0.

Patronage and Equity Redemptions

In accordance with our bylaws and upon approval of our Board of Directors, annual net earnings from patronage sources are distributed to consenting patrons following the close of each fiscal year. For the year ended August 31, 2017, our Board of Directors authorized only non-qualified distributions, with no cash patronage.

As authorized by our Board of Directors in September 2017, we intend to redeem individual member owned equity in fiscal 2018, in an amount not to exceed \$10 million. During the three months ended November 30, 2017, \$1.6 million of that amount was redeemed in cash, compared to \$9.5 million redeemed in cash during the three months ended November 31, 2016. In addition, \$2.1 million of equities related to the Board of Director authorized fiscal 2017 redemption were redeemed during the three months ended November 30, 2017, due to the administrative timing of the

payments.

Class B Reset Rate Cumulative Redeemable, Series 3	CHSCM	9/15/2014	19,700,000	\$492.5	\$476.7	6.75 %	Quarterly	9/30/2024
Class B Cumulative Redeemable, Series 4	CHSCL	1/21/2015	20,700,000	\$517.5	\$501.0	7.50 %	Quarterly	1/21/2025

(a) Includes patrons' equities redeemed with preferred stock.

The Class B Reset Rate Cumulative Redeemable Preferred Stock, Series 2 accumulates dividends at a rate of

(b) 7.10% per year until March 31, 2024, and then at a rate equal to the three-month LIBOR plus 4.298%, not to exceed 8.00% per annum, subsequent to March 31, 2024.

The Class B Reset Rate Cumulative Redeemable Preferred Stock, Series 3 accumulates dividends at a rate of

(c) 6.75% per year until September 30, 2024, and then at a rate equal to the three-month LIBOR plus 4.155%, not to exceed 8.00% per annum, subsequent to September 30, 2024.

(d) Preferred stock is redeemable for cash at our option, in whole or in part, at a per share price equal to the per share liquidation preference of \$25.00 per share, plus all dividends accumulated and unpaid on that share to and including the date of redemption, beginning on the dates set forth in this column.

(e) The 8% Cumulative Redeemable Preferred Stock was issued at various times from 2003 through 2010.

(f) Shares of Class B Cumulative Redeemable Preferred Stock, Series 1 were issued on September 26, 2013, August 25, 2014, March 31, 2016, and March 30, 2017.

Dividends paid on our preferred stock during the three months ended November 30, 2017, and 2016, were \$42.2 million and \$41.8 million, respectively.

Off Balance Sheet Financing Arrangements

Operating Leases

Minimum future lease payments required under noncancelable operating leases as of November 30, 2017, were \$317.1 million.

Guarantees

We are a guarantor for lines of credit and performance obligations of related companies. As of November 30, 2017, our bank covenants allowed maximum guarantees of \$1.0 billion, of which \$101.4 million were outstanding. We have

collateral for a portion of these contingent obligations. We have not recorded a liability related to the contingent obligations as we do not expect to pay out any cash related to them, and the fair values are considered immaterial. The underlying loans to the counterparties for which we provide guarantees were current as of November 30, 2017.

Table of Contents

Debt

We have no material off balance sheet debt.

Receivables Securitization Facility and Loan Participations

In fiscal 2017, we engaged in off-balance sheet arrangements through our Securitization Facility and certain loan participation agreements. Refer to further details about these arrangements in Note 2, Receivables, of the notes to the consolidated financial statements that are included in this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended August 31, 2017, for additional information.

Contractual Obligations

Our contractual obligations presented in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 31, 2017, have not materially changed during the three months ended November 30, 2017.

Critical Accounting Policies

Our critical accounting policies presented in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended August 31, 2017, have not materially changed during the three months ended November 30, 2017.

Effect of Inflation and Foreign Currency Transactions

We believe that inflation and foreign currency fluctuations have not had a material effect on our operations since we conduct an insignificant portion of our business in foreign currencies.

Recent Accounting Pronouncements

See Note 1, Organization, Basis of Presentation and Significant Accounting Policies, to our unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q for a description of the recent accounting pronouncements that are applicable to us.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We did not experience any material changes in market risk exposures for the period ended November 30, 2017, that affect the quantitative and qualitative disclosures presented in our Annual Report on Form 10-K for the year ended August 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Securities Exchange Act of 1934 (the "Exchange Act") as of November 30, 2017. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of that date, our disclosure controls and procedures were effective.

On December 1, 2015, we began implementation of a new enterprise resource planning (“ERP”) system. The new ERP system is expected to take several years to fully implement, and has and will continue to require significant capital and human resources to deploy. The implementation of the new ERP system will affect the processes that constitute our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act), and our management has taken steps to ensure that appropriate controls are designed and implemented as each functional area of the new ERP system is enacted.

Other than as described above, there were no changes in our internal control over financial reporting during the quarter ended November 30, 2017, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved as a defendant in various lawsuits, claims and disputes, which are in the normal course of our business. The resolution of any such matters may affect consolidated net income for any fiscal period; however, our management believes any resulting liabilities, individually or in the aggregate, will not have a material effect on our consolidated financial position, results of operations or cash flows during any fiscal year.

Laurel

On May 17, 2016, and October 12, 2016, the Montana Department of Environmental Quality (“MDEQ”) issued violation letters to us, alleging that certain specified air emissions at our Laurel, Montana refinery exceeded amounts allowable under the refinery’s permits and applicable law. On June 1, 2016, and November 3, 2016, we responded to MDEQ and described the actions that we had taken in connection with those allegations. On August 30, 2017, MDEQ sent us a letter requesting that we execute an administrative order on consent, and pay an administrative penalty of \$184,550. On September 27, 2017, we sent MDEQ a letter providing additional information and requesting that MDEQ reconsider the alleged violations and reduce the proposed penalty with respect to four of the alleged violations described in the violation letters. We also requested changes to the administrative order on consent to remove references to the Administrative Rules of the State of Montana. We are currently awaiting MDEQ’s response to the September 2017 letter.

For information regarding our other reportable legal proceedings, see Item 3 of our Annual Report on Form 10-K for the year ended August 31, 2017.

ITEM 1A. RISK FACTORS

There were no material changes to our risk factors during the period covered by this report. See the discussion of risk factors in Item 1A of our Annual Report on Form 10-K for the year ended August 31, 2017.
