News Release

14 August 2003

COLES MYER FULL YEAR SALES \$27 billion

- Q4 2003 sales up 7.4% to \$6,703m
- FY 2003 sales up 6.1% to \$27,017m¹
- Food & Liquor initiatives positioning for growth
- Sales quality and growth improvement at MGB

- Kmart and Target on track
- Underlying full year profit upgraded

Coles Myer Ltd (CML) today announced fourth quarter sales of \$6.7 billion, an increase of 7.4%. Sales for full year 2003 were \$27 billion, an increase of 6.1% over the previous year.

CML CEO John Fletcher said: "This result demonstrates good progress against our strategy to be Australia's number one retailer in all of our brands and provides a strong base to build upon in FY2004.

"There is every evidence that we have the right team, with the right strategy starting to deliver the right performance."

- Food & Liquor sales increased by 6.3% for the fourth quarter, with full year growth of 5.3%. Fourth quarter sales growth continued to trend up, despite the absence of a fuel discount offer and the full impact of our new initiatives during the period.
- Kmart and Officeworks combined sales rose by 12.7% for the fourth quarter, while Target sales were up by 7.1%. Full year sales grew 11.9% for Kmart and Officeworks and 9.3% for Target. These results provide clear evidence that the distinct positioning of these brands is delivering against our strategy. The non-food brands' marketing and product offers are well planned and co-ordinated, as demonstrated by the success of toy sales in each brand.
- Sales for Myer Grace Bros and Megamart were up in the fourth quarter by 5.1% and flat for the full year (down 0.1%). This improvement reflects building momentum and a strong Stocktake period. The sales quality continues to improve, in line with the brand's ongoing turnaround strategy, underpinning a return to profitability this year.

CML's comparable store sales growth improved 3.2% in the fourth quarter and by 2.9% over the full year.

"The continued rebuild of the non-food businesses and the new Food & Liquor initiatives provide the group with a strong platform for our continued growth as Australia's largest retailer," Mr Fletcher said.

Food & Liquor

Chief Operating Officer Food and Liquor, Alan Williams, said sales increased by 6.3% in the fourth quarter, an increase over the past two quarterly performances. Sales grew by 5.3% for the full year.

"The quarterly sales increase is a reflection of the early impacts of customer initiatives in price perception, fresh produce and house-brands, most of which are yet to be fully implemented.

"Sales also benefited from the continuing store expansion program, with 12 new supermarkets opening during the fourth quarter. A total of 42 new supermarkets opened in FY2003, well ahead of our strategic plan of 30-35 stores.

"There is increasing recognition by customers of our price and value competitiveness reinforced by new marketing campaigns, a view supported by independent research.

"We are now well positioned to capitalise on the sales initiatives as implementation continues:

- The roll-out of the new Coles' fresh produce concept, which will be completed in most Victorian stores this month and rolled out to the majority of eastern seaboard stores by the end of FY2004.

Edgar Filing: COLES MYER LTD - Form 6-K

- The launch of marketing campaigns to reinforce our competitive positioning. The Coles campaign, "Save Everyday", was launched in June and the "Why Pay More" Bi-Lo marketing campaign began in May.
- The launch of our Alliance with Shell in Victoria on July 28. Early indications are positive.

"The acquisition of Theo's Liquor in NSW was settled on May 26, contributing nine weeks of sales. Including Theo's, 55 new stores and 4 hotels were opened in the quarter. For the full year, a total of 92 new stores and 6 hotels were opened, well ahead of our plan of 20-25 stores", Mr Williams said.

Kmart & Officeworks

combined sales growth increased to 12.7% in the fourth quarter, while full year sales grew by 11.9%.

Kmart Managing Director Hani Zayadi said, "We are pleased with our fourth quarter result which demonstrated solid growth, particularly given the prior year fourth quarter was our strongest for FY2002.

"Our results show strong customer acceptance of our strategy, to deliver to them the lowest prices on the products they want and to lead seasonal events. All our products are backed by our lowest price guarantee, which is clearly something our customers understand and support.

"During the quarter our Winter toy sale was exceptionally successful, further strengthening our position as the number one toy retailer.

"Kmart opened four full-service stores and four Garden Centres for the full year, with no additions in the fourth quarter," Mr Zayadi said.

Officeworks delivered another impressive performance for the year, with a strong fourth quarter on the back of June tax-time spending. Officeworks Managing Director, Peter Scott, said core sales growth was strengthened by the second half contribution from the acquired Viking business. The Officeworks network continues to expand, with a further four new locations opened in the fourth quarter, bringing the total to 69 stores by the end of FY2003.

After three quarters of negative growth, **Myer Grace Bros** and **Megamart** combined achieved a solid sales increase of 5.1% for the fourth quarter. Sales growth was flat for the full year (down 0.1%).

Managing Director, Dawn Robertson, said the fourth quarter sales result showed solid progress against the Myer Grace Bros strategy and demonstrated an ongoing improvement in the quality of sales.

"We planned to report increased sales in the fourth quarter as part of the Myer Grace Bros turnaround, and have delivered on that. We are on the way to restoring Myer Grace Bros to its place as Australia's leading department store.

"Our June Stocktake Sale was one of our strongest ever, contributing to the fourth quarter result. We continue to improve our delivery of planned marketing programs, which achieve an effective balance between fashion and promotional activities in line with our strategy.

"The combination of our ongoing improvements in merchandise assortment, in-store execution, and our strategic marketing program have delivered the outcomes we anticipated when we launched our new brand positioning in February," Ms Robertson said.

Target

sales growth increased to 7.1% for the fourth quarter in line with expectations. Sales grew 9.3% for the full year as customers continued to respond positively to the merchandise offer.

"Our focus continues to remain on the timely delivery of on-trend, affordable, high quality ranges and executing planned rapid sell-through within each season," Target Managing Director Larry Davis said.

"The apparel and homeware categories continued their strong momentum. Target also continued its good growth in major category events, with a successful stocktake and toy sale in the fourth quarter.

"We are pleased with our buying team and the improvement over the last 12 months of our in-store execution to support the quality and fashionability of our merchandise offer.

"Our merchandising programs, combined with our ongoing portfolio strategy, of closing non-performing stores and opening in key growth areas, has established a solid base for Target's future," Mr Davis said.

Sales in the **Emerging Businesses** division increased by 10.2% in the fourth quarter and 19.1% for the full year. Coles Online purchased Shopfast during the fourth quarter, which contributed four weeks sales to the division's result. Harris Technology sales growth was impacted by the high prior year result (fourth quarter, FY2002 40.6%).

Outlook

While the financial year has just ended and the audit is still in progress, we anticipate the Group's underlying net profit after tax for F2003 will be in the order of \$445 million.
