Item 2.02 Results of Operations and Financial Condition.

On November 1, 2011, Dynex Capital, Inc., or the Company, issued a press release, which is available on its website (www.dynexcapital.com under "Investor Relations/News & Market Information"), reporting its financial results for the quarter ended September 30, 2011. A copy of the press release is being furnished as Exhibit 99.1 to this report and is incorporated by reference into this Item 2.02.

In addition to the results presented in accordance with GAAP, the release presents the Company's earnings per common share excluding certain items. This presentation is used by management in its assessment of the Company's performance, which the Company believes may be informative to investors. The Company believes that these non-GAAP financial measures provide information to investors that is useful in assessing the quality of the Company's earnings for the current quarter as well as useful in helping investors estimate our future earnings. Excluding these items from the Company's results is an incomplete measure of the Company's financial performance and involves differences from net income computed in accordance with GAAP, and, as such, non-GAAP earnings should be considered as supplementary to, and not as a substitute for, the Company's net income computed in accordance with GAAP as a measure of the Company's financial performance. In addition, this presentation may not be comparable to similarly-titled measures reported by other companies.

Item 9.01 Financial Statements and Exhibits.
