The ATWOOD FALCON has completed its mobilization to Japan and is preparing to commence its two-well drilling program for Japan Energy Development Co., LTD. This drilling program is expected to take around 100 to 120 days to complete.

The ATWOOD HUNTER has commenced its drilling program for Burullus Gas Co. in Egypt, which includes ten firm wells, plus options to drill six additional wells. The drilling of the ten firm wells are expected to take around 400 days to complete and if all the option wells are drilled, the contract could extend for around 550 days.

The ATWOOD EAGLE is continuing to prepare for its mobilization to Australia which is scheduled to commence around mid-January 2004.

Additional information with respect to the Company's Contract Status Summary at January 8, 2004 is attached hereto as Exhibit 99.1 which is being furnished in accordance with Rule 101(e)(1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors: the Company's dependence on the oil and gas industry; the risks involved in the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to war; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2003, filed with the Securities and Exchange Commission.

SIGNATURES
