Dear Fellow Shareholders,

The stock market has made a strong recovery in 2003. Historically low interest rates, improving corporate earnings and government stimulus in the form of tax

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

cuts gave investors hope that the economy would soon begin to strengthen. The markets move up began in April and the breadth of the rally was enormous. As a result, the major indexes were able to wipe out their first-quarter losses and post solid gains for the first nine months of the year. With technology leading the way, the tech-heavy Nasdaq Composite Index rose 33.80% through September, while the Dow Jones Industrial Average was up 13.18% and the Standard & Poors 500 Index returned 14.71%. With falling interest rates, bonds also did well, although they reversed course in July and August. High yield bonds led the pack, returning 21.77% through September, as measured by the Lehman Brothers High Yield Index.

In other news, we are pleased to inform you that on September 28, 2003, the Boards of Directors of Canada-based Manulife Financial Corporation and Boston-based John Hancock Financial Services, Inc., the parent company of John Hancock Funds, unanimously voted to merge the two companies.

Please be assured that the completion of the merger - anticipated to occur in the first half of 2004 - will have no effect on your investment in our John Hancock mutual funds. Your funds adviser and board of trustees will remain the same, as will your relationship with your financial adviser.

The merger is subject to customary closing conditions, including receipt of required regulatory approvals and approval by John Hancock stockholders. If you only own shares in a John Hancock mutual fund, you are not affected and will not receive a proxy.

Additional information on this transaction is available on our Web site: www.jhfunds.com. If you have questions about the merger, you may also call 1-800-732-5543. Separately, for information about your investments in John Hancock mutual funds, please contact your financial adviser or our Customer Service representatives at 1-800-225-5291.

Sincerely,

/s/Maureen Ford Goldfarb

YOUR FUND
AT A GLANCE

The Fund seeks to provide high current income, consistent with modest growth of capital, for holders of its common shares by investing in a diversified portfolio of dividend-paying preferred and common equity securities.

Over the last twelve months

[] Preferred stocks performed well as interest rates fell and Congress enacted a dividend tax cut.

[] Utility common stocks rallied strongly.

[] The Fund benefited from tax-advantaged dividend-paying preferred and common

MANAGERS'
REPORT

John Hancock
Patriot Premium
Dividend Fund I

Preferred stocks performed well amid mostly favorable conditions during the 12-month period ended September 30, 2003. Much of what was behind the preferred stock rally was action by the Federal Reserve Board, which lowered interest rates on two separate occasions during the year. Also boosting preferred stocks was demand from income-seeking individual investors and income-oriented mutual funds looking for significantly higher yields than what companies paid on their bonds and common stocks. The yields on many preferred stocks - which generally ranged from 6% to 7% - continued to outstrip by a fairly wide margin the yields available on Treasury and corporate bonds, as well as the dividends paid on common stocks. Demand also strengthened in advance of, and in response to, President Bush's dividend tax-cut package, which greatly reduced the taxes that individuals pay on many stock dividends. A dramatic rise in interest rates and bond yields in the summer briefly tempered an otherwise favorable backdrop for fixed-income-oriented investments, including preferreds. But they regained some of their footing by the final month of the period when weaker-than-expected economic reports helped to cool inflation concerns.

"Preferred stocks performed well amid mostly favorable conditions during the

12-month period ended September 30, 2003."

Utility common stocks - the Funds other area of emphasis - performed even better than preferreds, buoyed by a combination of utility companies ability to clean up their balance sheets and improve corporate earnings, and strong demand from investors seeking tax-advantaged dividend-paying stocks. Even the August electricity blackout that plagued cities from New York to Cleveland did not dim investors enthusiasm for the group. In fact, the blackout helped underscore the need for better,

expensive high-voltage transmission and distribution systems, which would be fostered by state regulatory bodies granting the utilities higher allowable rates of return.

FUND PERFORMANCE

For the 12 months ended September 30, 2003, John Hancock Patriot Premium Dividend Fund I returned 14.60% at net asset value. Over the same period, the average income and preferred stock closed-end fund returned 21.10%, according to Lipper, Inc. The Funds lag stemmed primarily from our focus on high-quality investments; lower-quality junk names soared during the year in response to better-than-expected corporate earnings, fewer corporate defaults and a reduction in the rate of corporate credit downgrades. Meanwhile, the Standard & Poors 500 Index, a broad measure of the overall stock market, returned 24.37% and the Dow Jones Utility Average, which tracks the performance of 15 electric and natural gas utilities, returned 21.95%.

OIL AND GAS SHINES

Preferred stocks paying tax-advantaged dividends were some of the Funds best performers during the period. In particular, some of our best-performing and largest holdings in the category were oil and natural gas companies such as Anadarko Petroleum and Devon Energy which, along with strong investor demand, were helped by relatively high energy prices and favorable energy supply/demand conditions. In the electric utility segment of the tax-advantaged preferred group, our winners included holdings such as Boston Edison and Great Plains Energy. They got an added boost from their call protection, meaning they had some measure of protection against being redeemed by their issuers before maturity. In the financial segment, our winners included J.P. Morgan Chase, which also benefited from an increase in the growth of its private banking business, as well as an increased market share in stock and bond underwriting. Our holdings in Bear Stearns also posted good gains, primarily due to its ability to avoid scandals and produce financial results that met or exceeded expectations.

"Preferred stocks paying tax-advantaged dividends were some of the Funds best performers during the period."

[Table at top left-hand side of page entitled "Top five industry groups1." The first listing is Utilities 68%, the second is Broker services 8%, the third Banks-United States 5%, the fourth Media 5%, and the fifth Oil & gas 5%.]

In the utility common stock portion of the Fund, our best performers included Alliant Energy, Northeast Utilities and Dominion Resources. Alliant benefited from its back-to-basics approach and improved balance sheet. Dominion was helped by its increasingly valued oil and gas reserves and natural gas pipeline and storage assets. Investors rewarded Northeast in large measure because of its above-average dividend growth and its attractive service area, which boasts higher-than-average growth in electricity usage.

In contrast, our common stock holdings in Aquila Inc. proved disappointing. Investors punished the stock because the company made an ill-timed foray into energy/merchant trading, which forced it to take write-downs and reduce dividends. That said, we believe that the companys efforts to return to its regulated electric and gas roots and reduce debt will help to restore its financial health over time.

OUTLOOK

For the balance of 2003, we remain optimistic about the outlook for preferred and utility common stocks. Much of our optimism stems from our macroeconomic outlook, which calls for a continually sluggish economy coupled with sustained low interest rates. This could continue to prompt strong demand for relatively high-yielding preferred and utility common stocks. Were also heartened by the fact that dividend tax relief could help boost demand for many stocks that pay high dividends, not only in the short-term but also over the next decade or so, as more aging Americans increasingly seek out income-oriented investment options. Utility common stocks have other

factors going for them as well, including the potential for more stable credit ratings, attractive valuations and the possible elimination of an anachronistic law limiting utility mergers.

This commentary reflects the views of the portfolio management team through the end of the Funds period discussed in this report. The managers statements reflect their own opinions. As such, they are in no way guarantees of future events, and are not intended to be used as investment advice or a recommendation regarding any specific security. They are also subject to change at any time as market and other conditions warrant.

The Fund normally will invest more than 65% of its managed assets in securities of companies in the utilities industry. Such an investment concentration makes the Fund more susceptible than a broader diversified fund to factors adversely affecting the utilities industry. Sector investing is subject to greater risks than the market as a whole.

NOTES TO
STATEMENTS

NOTE A

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

Accounting policies

John Hancock Patriot Premium Dividend Fund I (the Fund) is a diversified closed-end management investment company registered under the Investment Company Act of 1940.

Significant accounting policies of the Fund are as follows:

Valuation of investments

Securities in the Funds portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value. The Fund determines the net asset value of the common shares each business day.

Investment transactions

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis.

Expenses

The majority of expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific fund will be allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Federal income taxes

The Fund qualifies as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required. For federal income tax purposes, the Fund has \$55,954 of a capital loss carryforward available, to the extent provided by regulations, to offset future net realized capital gains. To the extent that such carryforward is used by the Fund, no capital gain distributions will be made. The entire amount of the loss carryforward expires September 30, 2010.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to common and preferred shareholders from net investment income and net realized gains on the ex-dividend date. During the year ended September 30, 2003, the tax character of distributions paid was as follows: ordinary income \$10,682,298. As of

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

September 30, 2003, the components of distributable earnings on a tax basis included \$3,201,220 of undistributed ordinary income.

Such distributions and distributable earnings, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Funds financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

NOTE B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with John Hancock Advisers, LLC (the Adviser), a wholly owned subsidiary of The Berkeley Financial Group, LLC. Under the investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 0.50% of the Funds average weekly net assets and the value attributable to the DARTS, plus 5.00% of the Funds weekly gross income. The Advisers total fee is limited to a maximum amount equal to 1.00% annually of the Funds average weekly net assets and the value attributable to the DARTS. For the year ended September 30, 2003, the advisory fee incurred did not exceed the maximum advisory fee allowed.

The Fund has an administrative agreement with the Adviser under which the Adviser oversees the custodial, auditing, valuation, accounting, legal, stock transfer and dividend disbursing services and maintains Fund communications with the shareholders. The Fund pays the Adviser a monthly administration fee at an annual rate of approximately 0.10% of the Funds average weekly net assets plus the value attributable to the DARTS.

Ms. Maureen Ford Goldfarb and Mr. John M. DeCiccio are directors and/or officers of the Adviser and/or its affiliates, as well as Trustees of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer for tax purposes their receipt of this compensation under the John Hancock Group of Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Funds deferred compensation liability are recorded on the Funds books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

Dutch Auction Rate Transferable Securities preferred shares Series A

The Fund issued 685 shares of Dutch Auction Rate Transferable Securities preferred shares Series A (DARTS) in a public offering. The underwriting discount was recorded as a reduction of the capital of common shares.

Dividends on the DARTS, which accrue daily, are cumulative at a rate that was established at the offering of the DARTS and has been reset every 49 days thereafter by an auction. Dividend rates on DARTS ranged from 1.00% to 1.86% during the year ended September 30, 2003. Accrued dividends on DARTS are included in the value of DARTS on the Funds Statement of Assets and Liabilities.

The DARTS are redeemable at the option of the Fund, at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The DARTS are also subject to mandatory redemption at a redemption price equal to \$100,000 per share, plus accumulated and unpaid dividends, if the Fund is in default on its asset coverage requirements with respect to the DARTS as defined in the Funds by-laws. If the dividends on the DARTS shall remain unpaid in an amount equal to two full years dividends, the holders of the DARTS, as a class, have the right to elect a majority of the Board of Trustees. In general, the holders of the DARTS and the common shareholders have equal voting rights of one vote per share, except that the holders of the DARTS, as a class, vote to elect two members of the Board of Trustees, and separate class votes are required on certain matters that affect the respective interests of the DARTS and common shareholders.

NOTE D

Investment transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the year ended September 30, 2003, aggregated \$18,791,613 and \$24,409,059, respectively.

The cost of investments owned on September 30, 2003, including short-term investments, for federal income tax purposes was \$213,395,570. Gross unrealized appreciation and depreciation of investments aggregated \$13,481,979 and \$24,979,822, respectively, resulting in net unrealized depreciation of \$11,497,843. The difference between book basis and tax basis net unrealized depreciation of investments is attributable primarily to the tax deferral of losses on wash sales.

NOTE E
Reclassification
of accounts

During the year ended September 30, 2003, the Fund reclassified amounts to reflect a decrease in accumulated net realized loss on investments of \$331, an increase in accumulated net investment income of \$136,191 and a decrease in capital paid-in of \$136,522. This represents the amount necessary to report these balances on a tax basis, excluding certain temporary differences, as of September 30, 2003. Additional adjustments may be needed in subsequent reporting periods. These reclassifications, which have no impact on the net asset value of the Fund, are primarily attributable to certain differences in the computation of distributable income and capital gains under federal tax rules versus accounting principles generally accepted in the United States of America, book and tax differences in accounting for deferred compensation and federal excise tax. The calculation of net investment income per share in the Funds Financial Highlights excludes these adjustments.

AUDITORS'
REPORT

Report of Deloitte & Touche LLP, Independent Auditors

To The Board of Trustees and Shareholders of
John Hancock Patriot Premium Dividend Fund I,

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of John Hancock Patriot Premium Dividend Fund I (the Fund) as of September 30, 2003, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years ended September 30, 2002 and 2003, and the financial highlights for each of the years in the five-year period ended September 30, 2003. These financial statements and financial highlights are the responsibility of the Funds management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned at September 30, 2003, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of September 30, 2003, the results of its operations, the changes in its net assets and its financial highlights for the respective stated periods, in conformity

with accounting principles generally accepted in the United States of America.

TAX
INFORMATION

Unaudited

For federal income tax purposes, the following information is furnished with respect to the distributions of the Fund, if any, paid during its taxable year ended September 30, 2003.

With respect to the ordinary dividends paid by the Fund for the fiscal year ended September 30, 2003, 85.93% of the dividends qualify for the corporate dividends-received deduction.

The Fund hereby designates the maximum amount allowable of its net taxable income as qualified dividend income as provided in the Jobs and Growth Tax Relief Reconciliation Act of 2003. This amount will be reflected on Form 1099-DIV for calendar year 2003.

Shareholders will be mailed a 2003 U.S. Treasury Department Form 1099-DIV in January 2004. This will reflect the total of all distributions that are taxable for calendar year 2003.

INVESTMENT
OBJECTIVE
AND POLICY

The Funds investment objective is to provide a high current income consistent with modest growth of capital for holders of its common shares of beneficial interest. The Fund will pursue its objective by investing in a diversified portfolio of dividend-paying preferred and common stocks.

The Funds non-fundamental investment policy, with respect to the quality of ratings of its portfolio investments, was changed by a vote of the Funds Trustees on September 13, 1994. The new policy, which became effective October 15, 1994, stipulates that preferred stocks and debt obligations in which the Fund will invest will be rated investment-grade (at least BBB by S&P or Baa by Moodys) at the time of investment or will be preferred stocks of issuers of investment-grade senior debt, some of which may have speculative characteristics, or, if not rated, will be of comparable quality as determined by the Adviser. The Fund will invest in common stocks of issuers whose senior debt is rated investment grade or, in the case of issuers that have no rated senior debt outstanding, whose senior debt is considered by the Adviser to be of comparable quality. The new policy supersedes the requirement that at least 80%

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

of the Funds total assets consist of preferred stocks and debt obligations rated A or higher and dividend-paying common stocks whose issuers have senior debt rated A or higher.

On November 20, 2001, the Funds Trustees approved the following investment policy investment restriction change, which became effective December 15, 2001. Under normal circumstances the Fund will invest at least 80% of its assets in dividend-paying securities. The Assets are defined as net assets including the liquidation preference amount of the DARTS plus borrowings for investment purposes. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

DIVIDEND REINVESTMENT PLAN

The Fund offers its shareholders a Dividend Reinvestment Plan (the Plan), which offers the opportunity to earn compounded yields. Each holder of common shares will automatically have all distributions of dividends and capital gains reinvested by Mellon Investor Services, as Plan agent for the common shareholders (the Plan Agent), unless an election is made to receive cash. Holders of common shares who elect not to participate in the Plan will receive all distributions in cash, paid by check mailed directly to the shareholder of record (or if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose shares are held in the name of a broker or a nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

If the Fund declares a dividend payable either in common shares or in cash, non-participants will receive cash and participants in the Plan will receive the equivalent in common shares. If the market price of the common shares on the payment date of the dividend is equal to or exceeds their net asset value as determined on the payment date, participants will be issued common shares (out of authorized but unissued shares) at a value equal to the higher of net asset value or 95% of the market price. If the net asset value exceeds the market price of the common shares at such time, or if the Board of Trustees declares a dividend payable only in cash, the Plan Agent will, as agent for Plan participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participants accounts. Such purchases will be made promptly after the payable date for such dividend and, in any event, prior to the next ex-dividend date after

19

such date, except where necessary to comply with federal securities laws. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the common shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the common shares, resulting in the acquisition of fewer shares than if the dividend had been paid in shares issued by the Fund.

Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agents open market purchases in connection with the reinvestment of dividends and distributions. The cost per share of the shares purchased for each participants account will be the average cost, including brokerage commissions, of any shares purchased on the open market plus the cost of any shares issued by the Fund. There will be no brokerage charges with respect to common shares issued directly by the Fund. There are no other charges

Edgar Filing: HANCOCK JOHN PATRIOT PREMIUM DIVIDEND FUND I - Form N-CSR

to participants for reinvesting dividends or capital gain distributions.

Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agents Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account.

The Plan Agent maintains each shareholders account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in non-certificated form in the name of the participant. Proxy material relating to the shareholders meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan.

The reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable or required to be withheld on such dividends or distributions. Participants under the Plan will receive tax information annually. The amount of dividend to be reported on 1099-DIV should be (1) in the case of shares issued by the Fund, the fair market value of such shares on the dividend payment date and (2) in the case of shares purchased by the Plan Agent in the open market, the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (telephone 1-800-852-0218).

SHAREHOLDER MEETINGS

In November 2002, the Board of Trustees adopted several amendments to the Funds by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal that they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior years annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

On March 20, 2003, the Annual Meeting of the Fund was held to elect four Trustees and to ratify the actions of the Trustees in selecting independent auditors for the Fund.

Proxies covering 13,794,599 common shares of beneficial interest were voted at the meeting. The common shareholders elected the following Trustees to serve until their respective successors are duly elected and qualified, with the votes tabulated as follows:

	FOR	WITHHELD AUTHORITY
Maureen Ford Goldfarb	13,569,200	225,399
Charles L. Ladner	13,481,391	313,208
John A. Moore	13,482,516	312,083

Proxies covering 685 DARTS were voted at the meeting. The preferred shareholders elected Ronald Dion to serve until his successor is duly elected and qualified, with the votes tabulated as follows: 495 FOR and 0 WITHHELD AUTHORITY.

The common shareholders also ratified the Trustees selection of Deloitte & Touche LLP as the Funds independent auditor for the fiscal year ending September 30, 2003, with votes tabulated as follows: 13,545,840 FOR, 152,157 AGAINST and 97,097 ABSTAINING.
