**Magic Seals \$1.5 Million Deal with Leading UK Financial Institution**

PRESS RELEASE

**Magic Seals \$1.5 Million Deal with Leading UK Financial Institution**

**3-Year Deal Includes Development Software Licenses and Maintenance for Large-scale and Complex Environments**

**Or Yehuda, Israel, December 12, 2012** Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of software platforms for enterprise mobility, cloud applications, and business integration, announced today that it has signed a 3-year contract with a leading UK financial institution valued at approximately \$1.5 million. The deal includes Magic's AppBuilder software licenses and maintenance services.

Acquired by Magic in 2011, AppBuilder provides a comprehensive application development infrastructure for large-scale and complex environments employed by many Fortune 1000 enterprises around the world. AppBuilder enables development teams to quickly and easily build, deploy, and maintain large-scale, custom-built business applications. Because AppBuilder uses a platform-independent model and generates code for COBOL, Java/J2EE, and C#, enterprises get the benefit of easy-to-maintain applications, without being dependent on any particular technology.

We are very pleased to have a large and prestigious AppBuilder client firmly demonstrate its continued confidence in AppBuilder after our recent acquisition, said Guy Bernstein, CEO of Magic Software Enterprises. This deal is evidence that AppBuilder has proven to be a good fit and an important addition to the Magic family, broadening our product portfolio, strengthening our position as a global provider of application development platforms, and increasing our growth opportunities.

**About Magic Software Enterprises**
