Intertape Polymer Group Inc. Further Consolidates Operations Announces Closing of Montreal, Quebec Facility

Montreal, Quebec and Bradenton, Florida - November 2, 2004 - Intertape Polymer Group Inc. (NYSE, TSX: ITP) today announced that it is closing its Montreal, Quebec manufacturing facility, another step in the Company's ongoing plan to lower costs and effectively optimize inventory investment. Several operations are currently performed at the Montreal facility, including production of hot melt carton sealing tape, assembly and distribution of packaging machinery, regional distribution for a variety of other products, customer service and finance. Most of these operations will be transferred to other Company facilities. However, in keeping with the Company's commitment to provide superior service to its clients, the customer service, sales and finance groups, which number about 70 employees, will remain in Montreal. In total, the transfer of manufacturing and distribution operations will affect about 80 employees. The tape manufacturing operations are expected to be transferred over the course of the next three months and should be completed in January 2005.

"The Montreal plant is the Company's original manufacturing facility and operates in two side-by-side buildings that cannot be combined," said Intertape Polymer Group Inc. (IPG) Chairman and Chief Executive Officer, Melbourne F. Yull. "The Company's capacity will not be lowered due to the benefits of recent initiatives to increase output in other sites." Mr. Yull added: "We have excellent employees in Montreal and it is unfortunate, due to site limitations, that the operation cannot be consolidated and expanded."

There will be one-time charges of approximately \$5.1 million associated with this closure, of which \$4.0 million is non-cash. These charges will be booked in the fourth quarter of 2004. Combined with the one-time charges associated with the Cumming facility closing, there will be approximately \$8.0 million of one-time charges in the fourth quarter of 2004, of which \$4.7 million is non-cash.

"The Company expects to realize annualized cost savings of approximately \$4.7 million," said IPG's Chief Financial Officer, Andrew M. Archibald, C.A. "Combined with the expected cost savings from the recently announced closure of our Cumming, Georgia facility, these initiatives are expected to yield about \$6.3 million in annualized cost savings. These cost savings will start to be generated in the first quarter of 2005, and the full impact on an annualized basis is expected to be realized starting in the third quarter of 2005."

About Intertape Polymer Group

Intertape Polymer Group is a recognized leader in the development and manufacture of specialized polyolefin plastic and paper based packaging products and complementary packaging systems for industrial and retail use. Headquartered in Montreal, Quebec and Sarasota/Bradenton, Florida, the Company employs approximately 2,600 employees with operations in 16 locations, including 12 manufacturing facilities in North America and one in Europe.
