Guggenheim Partners Investment Management, LLC and Guggenheim Funds Investment Advisors, LLC are continually updating and expanding shareholder information services on the Fund's website in an ongoing effort to provide you with the most current information about how your Fund's assets are managed and the results of our efforts. It is just one more small way we are working to keep you better informed about your investment in the Fund.

(Unaudited) November 30, 2018

DEAR SHAREHOLDER

We thank you for your investment in the Guggenheim Strategic Opportunities Fund (the “Fund”). This report covers the Fund’s performance for the six-month period ended November 30, 2018.

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy. The Fund’s sub-adviser seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2018, the Fund provided a total return based on market price of -0.75% and a total return based on NAV of 2.33%. As of November 30, 2018, the Fund’s market price of \$20.01 represented a premium of 8.34% to its NAV of \$18.47. NAV return includes the deduction of management fees, operating expenses, and all other Fund expenses.

Past performance is not a guarantee of future results. All NAV returns include the deduction of management fees, operating expenses, and all other Fund expenses. The market price of the Fund’s shares fluctuates from time to time, and it may be higher or lower than the Fund’s NAV.

From June 2018 through November 2018, the Fund paid a monthly distribution of \$0.1821 per share. The latest distribution represents an annualized distribution rate of 10.92% based on the Fund’s closing market price of \$20.01 on November 30, 2018. The Fund’s distribution rate is not constant and the amount of distributions, when declared by the Fund’s Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(f) on page 54 for more information on distributions for the period.

Guggenheim Funds Investment Advisors, LLC (the “Adviser”) serves as the investment adviser to the Fund.

Guggenheim Partners Investment Management, LLC (“GPIM” or the “Sub-Adviser”) serves as the Fund’s investment sub-adviser and is responsible for the management of the Fund’s portfolio of investments. Each of the Adviser and the Sub-Adviser is an affiliate of Guggenheim Partners, LLC (“Guggenheim”), a global diversified financial services firm. We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 79 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time. Since the Fund endeavors to maintain a stable monthly distribution, the DRIP effectively provides an income averaging technique

DEAR SHAREHOLDER (Unaudited) continued November 30, 2018

which causes shareholders to accumulate a larger number of Fund shares when the market price is depressed than when the price is higher.

To learn more about the Fund's performance and investment strategy, we encourage you to read the Questions & Answers section of this report, which begins on page 5. You'll find information on Guggenheim's investment philosophy, views on the economy and market environment, and detailed information about the factors that impacted the Fund's performance.

We appreciate your investment and look forward to serving your investment needs in the future. For the most up-to-date information on your investment, please visit the Fund's website at guggenheiminvestments.com/gof.

Sincerely,

Guggenheim Funds Investment Advisors, LLC

Guggenheim Strategic Opportunities Fund

December 31, 2018

41 GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT

QUESTIONS & ANSWERS (Unaudited) November 30, 2018

Guggenheim Strategic Opportunities Fund (“Fund”) is managed by a team of seasoned professionals at Guggenheim Partners Investment Management, LLC (“GPIM”). This team includes B. Scott Miner, Chairman of Guggenheim Investments and Global Chief Investment Officer; Anne B. Walsh, CFA, JD, Senior Managing Director and Chief Investment Officer, Fixed Income; Steven H. Brown, CFA, Managing Director and Portfolio Manager; and Adam Bloch, Director and Portfolio Manager. In the following interview, the investment team discusses the market environment and the Fund’s performance for the six-month period ended November 30, 2018.

What is the Fund’s investment objective and how is it pursued?

The Fund seeks to maximize total return through a combination of current income and capital appreciation. The Fund pursues a relative value-based investment philosophy, which utilizes quantitative and qualitative analysis.

The Fund seeks to combine a credit-managed fixed-income portfolio with access to a diversified pool of alternative investments and equity strategies. The Fund seeks to achieve its investment objective by investing in a wide range of fixed-income and other debt and senior-equity securities (“Income Securities”) selected from a variety of credit qualities and sectors, including, but not limited to, corporate bonds, loans and loan participations, structured finance investments, U.S. government and agency securities, mezzanine and preferred securities and convertible securities, and in common stocks, limited liability company interests, trust certificates, and other equity investments (“Common Equity Securities”), exposure to which is obtained primarily by investing in exchange-traded funds (“ETFs”) that Guggenheim believes offer attractive yield and/or capital appreciation potential, including employing a strategy of writing (selling) covered call and put options on such equities. Guggenheim believes the volatility of the Fund can be reduced by diversifying across a large number of sectors and securities, some of which historically have not been highly correlated to one another.

Under normal market conditions:

- The Fund may invest without limitation in fixed-income securities rated below investment grade (commonly referred to as “junk bonds”); the Fund may invest in below-investment grade income securities of any rating;
- The Fund may invest up to 20% of its total assets in non-U.S. dollar denominated fixed-income securities of corporate and governmental issuers located outside the U.S., including up to 10% of total assets in fixed-income securities of issuers located in emerging markets;

GOF I GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT I 5

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

The Fund may invest up to 50% of its total assets in common equity securities, and the Fund may invest in exchange-traded funds or other investment funds that track equity market indices and/or through derivative instruments that replicate the economic characteristics of exposure to Common Equity Securities; and

The Fund may invest up to 30% of its total assets in investment funds that primarily hold (directly or indirectly) investments in which the Fund may invest directly, of which amount up to 30% of the Fund's total assets may be invested in investment funds that are registered as investment companies under the Investment Company Act of 1940 (the "1940 Act") to the extent permitted by applicable law and related interpretations of the staff of the U.S. Securities and Exchange Commission.

Guggenheim's process for determining whether to buy a security is a collaborative effort between various groups including: (i) economic research, which focus on key economic themes and trends, regional and country-specific analysis, and assessments of event-risk and policy impacts on asset prices, (ii) the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, (iii) its Sector Specialists, who are responsible for identifying investment opportunities in particular securities within these sectors, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities, and (iv) portfolio managers, who determine which securities best fit the Fund based on the Fund's investment objective and top-down sector allocations. In managing the Fund, Guggenheim uses a process for selecting securities for purchase and sale that is based on intensive credit research and involves extensive due diligence on each issuer, region and sector. Guggenheim also considers macroeconomic outlook and geopolitical issues.

The Fund may use financial leverage to finance the purchase of additional securities. Although financial leverage may create an opportunity for increased return for shareholders, it also results in additional risks and can magnify the effect of any losses. There is no assurance that the strategy will be successful. If income and gains earned on securities purchased with the financial leverage proceeds are greater than the cost of the financial leverage, common shareholders' return will be greater than if financial leverage had not been used. Conversely, if the income or gains from the securities purchased with the proceeds of financial leverage are less than the cost of the financial leverage, common shareholders' return will be less than if financial leverage had not been used.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

What were the significant events over the six-month period ended November 30, 2018 affecting Guggenheim's view of the economy and market environment?

The market volatility seen in the final months of 2018 laid bare the tension that we expect to drive markets in the coming year. As we have highlighted previously, U.S. Gross Domestic Product ("GDP") growth has been unsustainably strong, and the Federal Reserve (the "Fed") had no choice but to signal its intent to slow growth down in an effort to reduce inflationary pressures and stabilize the labor market. At the same time, risky asset valuations reflected market expectations that strong growth would continue well into the future.

The U.S. economy expanded at a rate of about 3% in 2018, which GPIM finds to be roughly twice the pace needed to limit further tightening of the labor market. Tepid supply-side growth means the economy's longer-run "speed limit" is lower than most people think at around 1.5%, with corresponding equilibrium payroll gains in the neighborhood of just 95,000 per month. This implies that a big growth slowdown will be needed for the Fed to fulfill its "maximum sustainable employment" objective. Like most forecasters, we envision a slowdown in 2019, but we expect growth to remain above potential for most of the year, resulting in further tightening of the labor market.

With growth set to slow, the prospects for further rate increases have become more uncertain, particularly in light of recent market volatility. As the Fed enters a more data-dependent phase, GPIM has changed its call for increases in the federal funds rate in 2019 from four to two. A key element of the change in our forecast is that tighter financial conditions take some pressure off the Fed to raise the federal funds rate. Essentially, the markets have done some tightening for the Fed, which limits the need for the Fed to hike rates as much. Our expectation for two rate hikes in 2019 is also based on the Fed continuing along its pre-set course for balance sheet runoff. Our work shows that balance sheet runoff equates to at least an extra 25 basis point hike in both 2018 and 2019.

Yields on U.S. Treasury securities have fallen in recent months, but we expect higher yields in 2019 as the Fed delivers more rate hikes than the market is pricing in. As with the last hiking cycle, we believe the market is underestimating the terminal rate, which argues for maintaining an underweight duration stance.

In the six months ending November 30, 2018, the U.S. Treasury curve continued its bear-flattening trend, as the yield on the two-year Treasury rose 36 basis points, from 2.43% to 2.79% and the yield on the 10-year Treasury rose just 13 basis points, from 2.86% to 2.99%. The difference between the two-year Treasury and 10-year Treasury narrowed from 43 basis points to 20 basis points. At its December meeting, the Federal Open Market Committee ("FOMC") raised the federal funds rate as expected to a

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

target range of 2.25-2.50% and added language around the future course of policy. The adjusted language suggests the Fed will be more data dependent going forward, saying that it will “continue to monitor global economic and financial developments and assess their implications for the economic outlook.”

The weak link in the U.S. economy is corporate balance sheets that are burdened with too much debt. One aspect of this story that is underappreciated by markets is the deterioration in working capital management relative to the past cycle. Our analysis shows that corporations’ short-term liabilities are rising as they take longer to pay their suppliers. This trend increases the interconnectedness of U.S. companies and could worsen the next downturn.

Market sentiment is dependent on the continuation of above potential growth, an outcome the Fed cannot tolerate indefinitely, and economic history tells us we should not expect. With this in mind, we continue to reduce credit exposure in the portfolio.

How did the Fund perform for the six months ended November 30, 2018?

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the six-month period ended November 30, 2018, the Fund provided a total return based on market price of -0.75% and a total return based on NAV of 2.33%. As of November 30, 2018, the Fund’s market price of \$20.01 represented a premium of 8.34% to its NAV of \$18.47. NAV return includes the deduction of management fees, operating expenses, and all other Fund expenses. As of May 31, 2018, the Fund’s market price of \$21.29 represented a premium of 11.35% to its NAV of \$19.12. The market value of the Fund’s shares fluctuates from time to time and may be higher or lower than the Fund’s NAV. Past performance is not a guarantee of future results.

What were the Fund’s distributions?

From June 2018 through November 2018, the Fund paid a monthly distribution of \$0.1821 per share. The latest distribution represents an annualized distribution rate of 10.92% based on the Fund’s closing market price of \$20.01 on November 30, 2018. The Fund’s distribution rate is not constant and the amount of distributions, when declared by the Fund’s Board of Trustees, is subject to change based on the performance of the Fund. Please see Note 2(f) on page 54 for more information on distributions for the period.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

How did other markets perform in this environment for the six-month period ended November 30, 2018?

Index	Total Return
Bloomberg Barclays U.S. Aggregate Bond Index	-0.30%
Bloomberg Barclays U.S. Aggregate Bond 1-3 Year Index	0.75%
Bloomberg Barclays U.S. Corporate High Yield Index	0.30%
Credit Suisse Leveraged Loan Index	1.21%
ICE BofA/ML ABS Master BBB-AA Index	1.33%
S&P 500 Index	3.02%

Discuss performance over the period.

During the period, the Fund saw positive performance primarily attributable to the portfolio's carry. Carry refers to the income received from portfolio investments over a defined period. Carry from bank loans, collateralized loan obligations ("CLOs"), and aircraft asset-backed securities ("ABS") were the largest drivers of return.

As we approach a potential turn in the credit cycle, the Fund pared back its allocation to bank loans, high yield and investment grade corporate bonds over the period.

Bank loans performed well, buoyed by Fed rate increases and a benign default environment. We reduced our exposure, however, as uncertainty in later stages of the credit cycle has been accompanied by higher volatility in lower-quality assets. The Fund's investments focused on companies with strong cash flows, recurring revenue streams, and high-quality margins.

CLO debt continued to add to the Fund's return. Credit performance in underlying bank loans remains strong, though cyclical and idiosyncratic risk concerns are increasing. We are cognizant of the growing risk of negative credit events related to the turn in the credit cycle. We remain focused on limiting spread duration in order to protect against price volatility.

Aircraft ABS remained stable and performed well during the period. Aircraft ABS gained significant investor sponsorship in 2018, as aircraft traffic growth and aircraft collateral continued to demonstrate strong credit fundamentals.

The Fund increased its allocation to non-agency residential mortgage-backed securities. We hold a constructive view on the sector as healthy housing fundamentals and improving borrower performance support the sector. Strong demand and muted new home construction have pushed inventories to historically low levels, in turn boosting home values. Against this backdrop, ongoing credit curing of legacy mortgage-backed securities borrowers should result in improved prepayments and loss rates on bonds and has already emboldened greater risk-taking by lenders and investors.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

With approximately 68% of the Fund's managed assets invested in floating rate investments at period's end, we believe the Fund is positioned for additional interest rate increases.

What was the impact of derivatives on Fund performance?

The Fund uses derivatives for its covered call strategy and for various hedging purposes, such as currency forward contracts to hedge exchange rate risk in the purchase of government securities of foreign countries.

The covered call strategy added to performance during the period.

Over the last six months, the U.S. dollar appreciated versus foreign currencies, a positive impact on the forward contracts, adding to performance, but offset by depreciation of the foreign-denominated assets in U.S. dollar terms.

The Fund also purchased a credit hedge via credit default swaps in November to reduce portfolio spread duration. As spreads widened the credit hedge added to performance.

Discuss the Fund's approach to duration.

Although the Fund has no set policy regarding portfolio duration or maturity, the Fund maintained a low-duration target at period's end.

Discuss the Fund's use of leverage.

The Fund employed no leverage at period's end and approximately 0.30% of managed assets (including the proceeds of leverage) at May 31, 2018. The minimal use of leverage during this period had a negligible impact on the Fund's return. The purpose of leverage (borrowing and reverse repurchase agreements) is to fund the purchase of additional securities that may provide increased income and potentially greater appreciation to common shareholders than could be achieved from an unlevered portfolio. Leverage results in greater NAV volatility and entails more downside risk than an unlevered portfolio.

Guggenheim employs leverage through two vehicles: reverse repurchase agreements, under which the Fund temporarily transfers possession of portfolio securities and receives cash which can be used for additional investments, and a committed financing facility through a leading financial institution. There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

Index Definitions

The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate taxable bond market, including U.S. Treasuries, government-related and corporate securities, mortgage-backed securities or “MBS” (agency fixed-rate and hybrid adjustable-rate mortgage, or “ARM”, pass-throughs), asset-backed securities (“ABS”), and commercial mortgage-backed securities (“CMBS”) (agency and non-agency).

Bloomberg Barclays U.S. Aggregate Bond 1-3 Year Index measures the performance of publicly issued investment grade corporate, U.S. Treasury and government agency securities with remaining maturities of one to three years.

The Bloomberg Barclays U.S. Corporate High Yield Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody’s, Fitch, and S&P is Ba1/BB +/BB + or below.

The Credit Suisse Leveraged Loan Index is an index designed to mirror the investable universe of the U.S.-dollar-denominated leveraged loan market.

The ICE BofA/ML ABS Master BBB-AA Index is a subset of The ICE BofA/ML U.S. Fixed Rate Asset Backed Securities Index including all securities rated AA1 through BBB3, inclusive.

The Standard & Poor’s (“S&P 500”) Index is a capitalization-weighted index of 500 stocks designed to measure the performance of the broad economy, representing all major industries and is considered a representation of the U.S. stock market.

Risks and Other Considerations

Investing involves risk, including the possible loss of principal and fluctuation of value. The views expressed in this report reflect those of the portfolio managers only through the report period as stated on the cover. These views are expressed for informational purposes only and are subject to change at any time, based on market and other conditions, and may not come to pass. These views may differ from views of other investment professionals at Guggenheim and should not be construed as research, investment advice or a recommendation of any kind regarding the fund or any issuer or security, do not constitute a solicitation to buy or sell any security and should not be considered specific legal, investment or tax advice. The information provided does not take into account the specific objectives, financial situation or particular needs of any specific investor.

QUESTIONS & ANSWERS (Unaudited) continued November 30, 2018

The views expressed in this report may also include forward looking statements that involve risk and uncertainty, and there is no guarantee that any predictions will come to pass. Actual results or events may differ materially from those projected, estimated, assumed or anticipated in any such forward-looking statements. Important factors that could result in such differences, in addition to the other factors noted with such forward-looking statements, include general economic conditions such as inflation, recession and interest rates.

There can be no assurance that the Fund will achieve its investment objectives or that any investment strategies or techniques discussed herein will be effective. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

Performance data quoted represents past performance, which is no guarantee of future results and current performance may be lower or higher than the figures shown.

Please see guggenheiminvestments.com/gof for a detailed discussion of the Fund's risks and considerations.

~ The face amount is denominated in U.S. dollars unless otherwise indicated.

* Non-income producing security.

** Includes cumulative appreciation (depreciation). Variation margin is reported within the Statement of Assets and Liabilities.

† Value determined based on Level 1 inputs, unless otherwise noted — See Note 6.

†† Value determined based on Level 2 inputs, unless otherwise noted — See Note 6.

††† Value determined based on Level 3 inputs — See Note 6.

1 Security was fair valued by the Valuation Committee at November 30, 2018. The total market value of fair valued securities amounts to \$36,257,371, (cost \$38,558,658) or 6.1% of total net assets.

2 Affiliated issuer.

3 Perpetual maturity.

4 Variable rate security. Rate indicated is the rate effective at November 30, 2018. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

5 Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.

See notes to financial statements.

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 1 39

SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2018

- 6 All or a portion of these securities have been physically segregated in connection with futures contracts and unfunded loan commitments. As of November 30, 2018, the total value of segregated securities was \$16,447,137.
- 7 Zero coupon rate security.
- 8 Rate indicated is the 7-day yield as of November 30, 2018.
- 9 Security is a 144A or Section 4(a)(2) security. These securities have been determined to be liquid under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) liquid securities is \$163,220,852 (cost \$165,523,471), or 27.6% of total net assets.
- 10 Security has no stated coupon. However, it is expected to receive residual cash flow payments on defined deal dates.
- 11 Security is a step up/down bond. The coupon increases or decreases at regular intervals until the bond reaches full maturity. Rate indicated is the rate at November 30, 2018. See table below for additional step information for each security.
- 12 Security is a 144A or Section 4(a)(2) security. These securities have been determined to be illiquid and restricted under guidelines established by the Board of Trustees. The total market value of 144A or Section 4(a)(2) illiquid and restricted securities is \$21,384,912 (cost \$28,097,938), or 3.6% of total net assets — See Note 12.
- 13 Security is in default of interest and/or principal obligations.
- 14 Rate indicated is the effective yield at the time of purchase.
- 15 Repurchase Agreements — See additional disclosure in the repurchase agreements table below for more information on repurchase agreements.
- 16 The rate is adjusted periodically by the counterparty, subject to approval by the Adviser, and is not based upon a set reference rate and spread. Rate indicated is the rate effective at November 30, 2018.

42 | GOF | GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT

SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2018

Significant changes in an indicative quote, market comparable yield or valuation multiple would generally result in significant changes in the fair value of the security.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period.

As of November 30, 2018, the Fund had securities with a total value of \$8,362,541 transfer from Level 3 to Level 2 due to availability of market price information at period end and had securities with a total value of \$1,824,840 transfer from Level 2 to Level 3 due to lack of observable inputs. There were no other securities that transferred between levels.

Summary of Fair Value Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended November 30, 2018:

	Assets								Liabil
	Asset-Backed	Corporate	Senior Floating Rate		Common	Preferred	Senior Fixed Rate	Total	Unfur
	Securities	Bonds	Interests	Warrants	Stocks	Stocks	Interests	Assets	Loan

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 1 43

SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2018

Step Coupon Bonds

The following table discloses additional information related to step coupon bonds held by the Fund. Certain securities are subject to multiple rate changes prior to maturity. Rates for all step coupon bonds held by the Fund are scheduled to increase, none are scheduled to decrease.

Name	Coupon rate at next step up date	Date of next rate change	Final future rate	Final future step up date
Apollo Aviation Securitization Equity Trust 2016-1A, 6.50% due 03/17/36	8.50%	03/15/23	8.50%	03/15/23
Apollo Aviation Securitization Equity Trust 2016-1A, 9.20% due 03/17/36	11.75%	03/15/23	11.75%	03/15/23
Willis Engine Securitization Trust II 2012-A, 5.50% due 09/15/37	8.50%	09/15/20	8.50%	09/15/20

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian takes possession of the underlying collateral. For the following repurchase agreements, the collateral is in the possession of the Fund's custodian and is evaluated to ensure that its market value exceeds, at a minimum, 102% of the original face amount of the repurchase agreements, with the exception of where securities are being sold short. The interest rate on repurchase agreements is market driven based on the underlying collateral obtained.

Counterparty and Terms of Agreement	Face Value	Price	Collateral	Par Value	Fair Value
Bank of America Merrill Lynch 1.95%			Mylan NV 3.95%		
Open Maturity*	\$990,213	\$990,213	06/15/26	\$ 360,000	\$ 330,480
			Spirit AeroSystems Inc. 4.60%		
			06/15/28	250,000	238,625
			Dollar Tree Inc. 4.00%		
			05/15/25	250,000	237,200
			Flex Ltd. 4.75%		
			06/15/25	170,000	164,475
				1,030,000	970,780
Citigroup Global Markets 1.85%			Harley-Davidson Inc. 3.50%		
Open Maturity*	95,000	95,000	07/28/25	100,000	94,980

* The rate is adjusted periodically by the counterparty, subject to approval by the Adviser, and is not based upon a set reference rate and spread. Rate indicated is the rate effective at November 30, 2018.

In the event of counterparty default, the Fund has the right to collect the collateral to offset losses incurred. There is potential loss to the Fund in the event the Fund is delayed or prevented from exercising its right to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period

while the Fund seeks to assert its rights. The Fund's investment adviser, acting under the supervision of the Board of Trustees, reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

See notes to financial statements.

SCHEDULE OF INVESTMENTS (Unaudited) continued November 30, 2018

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a company, or control of or by, or common control under the Guggenheim Investments (“GI”), result in that company being considered an affiliated issuer, as defined in the 1940 Act.

Transactions during the period ended November 30, 2018, in which the company is an “affiliated person”, were as follows:

Security Name	Value 05/31/18	Additions	Reductions	Realized Gain (Loss)	Change in Unrealized Appreciation (Depreciation)	Value 1/30/18	Shares/ Face Amount 11/30/18	Investment Income

* Non-income producing security.

** Market value is less than \$1.

- 1 Security was fair valued by the Valuation Committee at November 30, 2018. The total market value of affiliated and fair valued securities amounts to \$33,661, (cost \$1,619,040) or less than 0.1% of total net assets.
Variable rate security. Rate indicated is the rate effective at November 30, 2018. In some instances, the effective
- 2 rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.
- 3 Security is in default of interest and/or principal obligations.

(a) Based on average shares outstanding.

Total return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value (“NAV”) or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns or the prices obtained under the Fund’s Dividend Reinvestment Plan for market value returns. Total return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.

The ratios of total expenses to average net assets applicable to common shares do not reflect fees and expenses incurred indirectly by the Fund as a result of its investment in shares of other investment companies. If these fees were included in the expense ratios, the expense ratios would increase by 0.00%*, 0.00%*, 0.00%*, 0.02%, 0.03% and 0.03% for period ended November 30, 2018 and for the years ended May 31, 2018, 2017, 2016, 2015 and 2014, respectively.

(d) Excluding interest expense, the operating expense ratios for the period ended November 30, 2018 and the years ended May 31 was:

November 30, 2018 (Unaudited)	2018	2017	2016	2015	2014
1.15%	1.33%	1.62%	1.74%	1.72%	1.78%

(e) Calculated by subtracting the Fund’s total liabilities (not including the borrowings) from the Fund’s total assets and dividing by the borrowings.

(f) Calculated by subtracting the Fund’s total liabilities (not including the borrowings or reverse repurchase agreements) from the Fund’s total assets and dividing by the borrowings.

(g) Annualized.

* Less than 0.01%

See notes to financial statements.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

November 30,
2018

Note 1 – Organization

Guggenheim Strategic Opportunities Fund (the “Fund”) was organized as a Delaware statutory trust on November 13, 2006. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund’s investment objective is to maximize total return through a combination of current income and capital appreciation.

Note 2 – Significant Accounting Policies

The Fund operates as an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) and are consistently followed by the Fund. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

(a) Valuation of Investments

The Board of Trustees of the Fund (the “Board”) has adopted policies and procedures for the valuation of the Fund’s investments (the “Valuation Procedures”). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim’s investment management, fund administration, legal and compliance departments (the “Valuation Committee”), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Fund’s securities and/or other assets.

Valuations of the Fund’s securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed, to review the valuation of all assets which have been fair valued for reasonableness. The Fund’s officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used and valuations provided by the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed on an exchange (New York Stock Exchange (“NYSE”) or American Stock Exchange) are valued at the last quoted sale price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or NASDAQ on a given day, the security is valued at the closing bid price on that day.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

Open-end investment companies are valued at their net asset value (“NAV”) as of the close of business, on the valuation date. Exchange-traded funds and closed-end investment companies are valued at the last quoted sale price.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currencies are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities. In addition, under the Valuation Procedures, the Valuation Committee and Guggenheim Funds Investment Advisors, LLC (“GFIA” or the “Adviser”) are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker-dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition are valued at amortized cost, provided such amount approximates market value. Money market funds are valued at their NAV.

Repurchase agreements are valued at amortized cost, provided such amounts approximate market value.

Typically, loans are valued using information provided by an independent third party pricing service which uses broker quotes. If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Listed options are valued at the Official Settlement Price listed in by the exchange, usually as of 4:00 p.m. Long options are valued using the bid price and short options are valued using the ask price. In the event that a settlement price is not available, fair valuation is enacted. Over-the-counter (“OTC”) options are valued using the average bid price (for long options), or average ask price (for short options) obtained from one or more security dealers.

The value of futures contracts is accounted for using the unrealized appreciation or depreciation on the contracts that is determined by marking the contracts to their current settlement prices. Financial futures contracts are valued at 4:00 p.m. on the valuation date. In the event that the exchange for a specific futures contract closes earlier than 4:00 p.m., the futures contract is valued at the Official Settlement Price of the exchange. However, the underlying securities from which the

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

futures contract value is derived are monitored until 4:00 p.m. to determine if fair valuation would provide a more accurate valuation.

The values of credit default swap agreements entered into by the Fund are accounted for using the unrealized appreciation or depreciation on the agreements that are determined by marking the agreements to the last quoted value of the index that the swaps pertain to at the close of the NYSE. The value of corporate credit default swap agreements will be computed by an approved pricing vendor in accordance with the calculation methodology contained in the swap agreement.

Forward foreign currency exchange contracts are valued daily based on the applicable exchange rate of the underlying currency.

Investments for which market quotations are not readily available are fair-valued as determined in good faith by GFIA, subject to review and approval by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security's (or asset's or liability's) "fair value". Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over U.S. Treasury securities, and other information analysis.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Paydown gains and losses on mortgage and asset-backed securities are treated as an adjustment to interest income.

Income from residual collateralized loan obligations is recognized using the effective interest method. At the time of purchase, management estimates the future expected cash flows and determines the effective yield and estimated maturity date based on the estimated cash flows. Subsequent to the purchase, the estimated cash flows are updated periodically and a revised yield is calculated prospectively.

(c) Senior Loans

Senior loans in which the Fund invests generally pay interest rates which are periodically adjusted by reference to a base short-term floating rate, plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the one-month or three-month London Inter-Bank Offered Rate (LIBOR), (ii) the prime rate offered by one or more major United States banks, or (iii) the bank's certificate of deposit rate. Senior floating rate interests often require repayments from excess cash flows or permit the borrower to repay at its election. The rate at

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

which the borrower repays cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown on the Schedule of Investments.

(d) Currency Translation

The accounting records of the Fund are maintained in U.S. dollars. All assets and liabilities initially expressed in foreign currencies are converted into U.S. dollars at prevailing exchange rates. Purchases and sales of investment securities, dividend and interest income, and certain expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in the foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Any such fluctuations are included with the net realized gain or loss and unrealized appreciation or depreciation on investments. Foreign exchange realized gain or loss resulting from holding of a foreign currency, expiration of a currency exchange contract, difference in exchange rates between the trade date and settlement date of an investment purchased or sold, and the difference between dividends or interest actually received compared to the amount shown in the Fund's accounting records on the date of receipt, if any, is shown as net realized gains or losses on foreign currency transactions on the Fund's Statement of Operations.

Foreign exchange unrealized appreciation or depreciation on assets and liabilities, other than investments, if any, is shown as unrealized appreciation (depreciation) on foreign currency translation on the Fund's Statement of Operations.

(e) Forward Foreign Currency Exchange Contracts

Forward foreign currency exchange contracts are agreements between two parties to buy and sell currencies at a set price on a future date. Fluctuations in the value of open forward foreign currency exchange contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund until the contracts are closed. When the contracts are closed, realized gains and losses are recorded, and included on the Statement of Operations in forward foreign currency exchange contracts.

(f) Distributions to Shareholders

The Fund declares and pays monthly distributions to common shareholders. These distributions consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains. Any net realized long-term capital gains are distributed annually to common shareholders. To the extent distributions exceed taxable income, the excess will be deemed a return of capital.

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

(g) U.S. Government Agency Obligations

Certain U.S. Government and Agency Obligations are traded on a discount basis; the interest rates shown on the Schedule of Investments reflect the effective rates paid at the time of purchase by the Fund. Other securities bear interest at the rates shown, payable at fixed dates through maturity.

(h) Swaps

A swap is an agreement to exchange the return generated by one instrument for the return generated by another instrument. The Fund may enter into swap agreements to manage its exposure to interest rates and/or credit risk to generate income. Swaps are valued daily at current market value and any appreciation or depreciation is included in the Statement of Assets and Liabilities. Gain or loss is realized on the termination date of the swap and is equal to the difference between the Fund's basis in the swap and the proceeds of the closing transaction, including any fees. Upon termination of a swap agreement, a payable to or receivable from swap counterparty is established on the Statement of Assets and Liabilities to reflect the net gain/loss, including interest income/expense, on terminated swap positions. The line item is removed upon settlement according to the terms of the swap agreement.

Realized gain (loss) upon termination of swap contracts is recorded on the Statement of Operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation (depreciation) of swap contracts. Net periodic payments received by the Fund are included as part of realized gain (loss) and, in the case of accruals for periodic payments, are included as part of unrealized appreciation (depreciation) on the Statement of Operations.

(i) Covered Call Options and Put Options

When an option is written, the premium received is recorded as an asset with an equal liability and is subsequently marked to market to reflect the current market value of the option written. These liabilities are reflected as written options on the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchase transactions, as a realized loss. If an option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss.

When a call option is purchased, the Fund obtains the right (but not the obligation) to buy the underlying instrument at the strike price at anytime during the option period. When a put option is purchased, the Fund obtains the right (but not the obligation) to sell the option's underlying instrument at the strike price at anytime during the option period. When the Fund purchases an option, an amount equal to the premium paid by the Fund is reflected as an asset and subsequently marked-to-market to reflect the current market value of the option purchased. Purchased options are included with Investments on the Statement of Assets and Liabilities.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

(j) Futures Contracts

Upon entering into a futures contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is affected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract.

Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

(k) Short Sales

When the Fund engages in a short sale of a security, an amount equal to the proceeds is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the market value of the short sale. The Fund maintains a segregated account of cash and/or securities as collateral for short sales.

Fees, if any, paid to brokers to borrow securities in connection with short sales are recorded as interest expense. In addition, the Fund must pay out the dividend rate of the equity or coupon rate of the obligation to the lender and record this as an expense. Short dividend or interest expense is a cost associated with the investment objective of short sale transactions, rather than an operational cost associated with the day-to-day management of any mutual fund. The Fund may also receive rebate income from the broker resulting from the investment of the proceeds from securities sold short.

(l) Indemnifications

Under the Fund's organizational documents, its Trustees and Officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, throughout the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

Note 3 – Financial Instruments and Derivatives

As part of its investment strategy, the Fund utilizes short sales and a variety of derivative instruments. These investments involve, to varying degrees, elements of market risk and risks in excess of the amounts recognized in the Statement of Assets and Liabilities. Valuation and accounting treatment of these instruments can be found under Significant Accounting Policies in Note 2 of these Notes to Financial Statements.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

Short Sales

A short sale is a transaction in which a Fund sells a security it does not own. If the security sold short decreases in price between the time the Fund sells the security and closes its short position, the Fund will realize a gain on the transaction. Conversely, if the security increases in price during the period, the Fund will realize a loss on the transaction. The risk of such price increases is the principal risk of engaging in short sales.

Derivatives

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. U.S. GAAP requires disclosures to enable investors to better understand how and why a Fund uses derivative instruments, how these derivative instruments are accounted for and their effects on the Fund's financial position and results of operations.

The Fund may utilize derivatives for the following purposes:

Hedge: an investment made in order to reduce the risk of adverse price movements in a security, by taking an offsetting position to protect against broad market moves.

Income: the use of any instrument that distributes cash flows typically based upon some rate of interest.

Index Exposure: the use of an instrument to obtain exposure to a listed or other type of index.

Options Purchased and Written

A call option on a security gives the purchaser of the option the right to buy, and the writer of a call option the obligation to sell, the underlying security. The purchaser of a put option has the right to sell, and the writer of the put option the obligation to buy, the underlying security at any time during the option period. The risk associated with purchasing options is limited to the premium originally paid.

The following table represents the Fund's use and volume of call/put options purchased on a quarterly basis:

	Average Number	Average Notional
Use of Contracts		Amount
Hedge	6,485	\$94,740,065

The risk in writing a call option is that a Fund may incur a loss if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that a Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

addition, there may be an imperfect correlation between the movement in prices of options and the underlying securities where a Fund may not be able to enter into a closing transaction because of an illiquid secondary market; or, for OTC options, a Fund may be at risk because of the counterparty's inability to perform.

The following table represents the Fund's use and volume of call/put options written on a quarterly basis:

	Average Number of Contracts	Average Notional Amount
Use Hedge	331	\$93,837,968

Futures Contracts

A futures contract is an agreement to purchase (long) or sell (short) an agreed amount of securities or other instruments at a set price for delivery at a future date. There are significant risks associated with a Fund's use of futures contracts, including (i) there may be an imperfect or no correlation between the changes in market value of the underlying asset and the prices of futures contracts; (ii) there may not be a liquid secondary market for a futures contract; (iii) trading restrictions or limitations may be imposed by an exchange; and (iv) government regulations may restrict trading in futures contracts. When investing in futures, there is minimal counterparty credit risk to a Fund because futures are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees against default. Cash deposits are shown as segregated cash with broker on the Statement of Assets and Liabilities; securities held as collateral are noted on the Schedule of Investments.

The following table represents the Fund's use and volume of futures on a quarterly basis:

	Average Notional Amount	
Use	Long	Short
Index Exposure	\$93,852,150	\$-

Swap Agreements

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. A Fund utilizing OTC swaps bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty or if the underlying asset declines in value. Certain standardized swaps are subject to mandatory central clearing and are executed on a multi-lateral or other trade facility platform, such as a registered exchange. There is limited counterparty credit risk with respect to centrally-cleared swaps as the transaction is facilitated through a central clearinghouse, much like exchange-traded futures contracts. Upon entering into certain centrally-cleared swap transactions, the Fund is required to deposit with its clearing broker an amount of cash or securities as an initial margin. Subsequent variation margin payments or receipts are made or received by the Fund, depending on Fluctuations in the fair value of the reference entity.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

Credit default swaps are instruments which allow for the full or partial transfer of third party credit risk, with respect to a particular entity or entities, from one counterparty to the other. In accordance with its principal investment strategy, the Fund enters into credit default swaps as a “seller” or “buyer” of protection primarily to gain or reduce exposure to the high yield bond market. A seller of credit default swaps is selling credit protection or assuming credit risk with respect to the underlying entity or entities. The buyer in a credit default swap is obligated to pay the seller a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a credit event occurs, as defined under the terms of the swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the reference index. The Notional Amount reflects the maximum potential amount the seller of credit protection could be required to pay to the buyer if a credit event occurs. The seller of protection receives periodic premium payments from the buyer and may also receive or pay an upfront premium adjustment to the stated periodic payments.

The quoted market prices and resulting market values for credit default swap agreements on securities and credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative had the notional amount of the swap agreement been closed/sold as of the period end. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity’s credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The following table represents the Fund’s use and volume of credit default swaps on a quarterly basis:

	Average Notional Amount	
Use	Long	Short
Hedge, Income	\$–	\$58,535,000

A credit default swap enables a fund to buy or sell protection against a defined credit event of an issuer or a basket of securities. Generally, the seller of credit protection against an issuer or basket of securities receives a periodic payment from the buyer to compensate against potential default events. If a default event occurs, the seller must pay the buyer the full notional value of the reference obligation in exchange for the reference obligation. If no default occurs, the counterparty will pay the stream of payments and have no further obligations to the fund selling the credit protection. A fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty, or in the case of a credit default swap in which a fund is selling credit protection, the default of a third party issuer.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

Forward Foreign Currency Exchange Contracts

A forward foreign currency exchange contract is an agreement between two parties to exchange two designated currencies at a specific time in the future. Certain types of contracts may be cash settled, in an amount equal to the change in exchange rates during the term of the contract. The contracts can be used to hedge or manage exposure to foreign currency risks with portfolio investments or to gain exposure to foreign currencies.

The market value of a forward foreign currency exchange contract changes with fluctuations in foreign currency exchange rates. Furthermore, the Fund may be exposed to risk if the counterparties cannot meet the contract terms or if the currency value changes unfavorably as compared to the U.S. dollar.

The following table represents the Fund's use, and volume of forward foreign currency exchange contracts on a quarterly basis:

Use	Average Settlement	
	Purchased	Sold
Hedge, Income	\$28,053	\$17,918,919

Derivative Investment Holdings Categorized by Risk Exposure

The following is a summary of the location of derivative investments on the Fund's Statement of Assets and Liabilities as of November 30, 2018:

Derivative Investment Type	Asset Derivatives	Liability Derivatives
Currency contracts	Unrealized appreciation on forward foreign currency exchange contracts	Unrealized depreciation on forward foreign currency exchange contracts
Credit contracts	Unrealized appreciation on credit default swap agreements	Unrealized depreciation on credit default swap agreements
	Unamortized upfront premiums paid on credit default swap agreements	Unamortized upfront premiums received on credit default swap agreements
Equity contracts	Variation margin on futures contracts Investments in unaffiliated issuers, at value	Options written, at value

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

The following table sets forth the fair value of the Fund's derivative investments categorized by primary risk exposure at November 30, 2018:

Asset Derivative Investments Value

	Swaps	Options	Options	Forward	
Futures	Credit	Written	Purchased	Currency	Total Value at
Equity	Default	Equity	Equity	Exchange	November 30,
Risk*	Risk	Risk	Risk	Risk	2018
\$ -	\$ 88,529	\$ -	\$ 583,470	\$ 309,198	\$ 981,197

Liability Derivative Investments Value

	Swaps	Options	Options	Forward	
Futures	Credit	Written	Purchased	Currency	Total Value at
Equity	Default	Equity	Equity	Exchange	November 30,
Risk*	Risk	Risk	Risk	Risk	2018
\$ 5,176,563	\$ 14,585	\$ 2,397,000	\$ -	\$ 373	\$ 7,588,521

* Includes cumulative appreciation (depreciation) on futures contracts as reported on the Schedules of Investments.

Variation margin is reported within the Statements of Assets and Liabilities.

The following is a summary of the location of derivative investments on the Fund's Statement of Operations for the period ended November 30, 2018:

Derivative Investment Type	Location of Gain (Loss) on Derivatives
Credit contracts	Net realized gain (loss) on credit default swap agreements Net change in unrealized appreciation (depreciation) on credit default swap agreements
Equity contracts	Net realized gain (loss) on futures contracts Net change in unrealized appreciation (depreciation) on futures contracts Net realized gain (loss) on options purchased Net change in unrealized appreciation (depreciation) on options purchased Net realized gain (loss) on options written Net change in unrealized appreciation (depreciation) on options written
Currency contracts	Net realized gain (loss) on forward foreign currency exchange contracts Net change in unrealized appreciation (depreciation) on forward foreign currency exchange contracts

GOF1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 1 61

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

The following is a summary of the Fund's realized gain (loss) and change in unrealized appreciation (depreciation) on derivative investments recognized on the Statement of Operations categorized by primary risk exposure for the period ended November 30, 2018:

Realized Gain(Loss) on Derivative Investments Recognized on the Statements of Operations

	Swap	Options	Options	Forward	
	Agreements	Written	Purchased	Foreign	
Futures	Credit	Equity	Equity	Currency	
Equity	Default	Risk	Risk	Exchange	
Risk	Risk	Risk	Risk	Risk	Total
\$ 4,422,861	\$ (16,385)	\$ (732,752)	\$ 13	\$ 861,671	\$
					4,535,408

Change in Unrealized Appreciation(Depreciation) on Derivative Investments Recognized on the Statements of Operations

	Swap	Options	Options	Forward	
	Agreements	Written	Purchased	Foreign	
Futures	Credit	Equity	Equity	Currency	
Equity	Default	Risk	Risk	Exchange	
Risk	Risk	Risk	Risk	Risk	Total
\$ (3,218,694)	\$ 73,944	\$ (687,298)	\$ (383,225)	\$ 69,691	\$ (4,145,582)

In conjunction with the use short sales and of derivative instruments, the Fund is required to maintain collateral in various forms. The Fund uses, where appropriate, depending on the financial instrument utilized and the broker involved, margin deposits at the broker, cash and/or securities segregated at the custodian bank, discount notes or repurchase agreements allocated to the Fund.

The Fund has established counterparty credit guidelines and enters into transactions only with financial institutions of investment grade or better. The Fund monitors the counterparty credit risk.

Note 4 – Offsetting

In the normal course of business, the Fund enters into transactions subject to enforceable master netting arrangements or other similar arrangements. Generally, the right to offset in those agreements allows the Fund to counteract the exposure to a specific counterparty with collateral received from or delivered to that counterparty based on the terms of the arrangements. These arrangements provide for the right to liquidate upon the occurrence of an event of default, credit event upon merger or additional termination event.

In order to better define their contractual rights and to secure rights that will help the Fund mitigate its counterparty risk, the Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (“ISDA Master Agreement”) or similar agreement with its derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a fund and a counterparty that governs OTC derivatives, including foreign exchange contracts, and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out netting) or similar event, including the bankruptcy or insolvency of the counterparty.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

For derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the mark-to-market amount for each transaction under such agreement and comparing that amount to the value of any collateral currently pledged by the Fund and the counterparty. For financial reporting purposes, cash collateral that has been pledged to cover obligations of the Fund and cash collateral received from the counterparty, if any, are reported separately on the Statement of Assets and Liabilities as segregated cash with broker/receivable for variation margin, or payable for swap settlement/variation margin. Cash and/or securities pledged or received as collateral by the Fund in connection with an OTC derivative subject to an ISDA Master Agreement generally may not be invested, sold or rehypothecated by the counterparty or the Fund, as applicable, absent an event of default under such agreement, in which case such collateral generally may be applied towards obligations due to and payable by such counterparty or the Fund, as applicable. Generally, the amount of collateral due from or to a counterparty must exceed a minimum transfer amount threshold (e.g., \$300,000) before a transfer is required to be made. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty nonperformance. The Fund attempts to mitigate counterparty risk by only entering into agreements with counterparties that it believes to be of good standing and by monitoring the financial stability of those counterparties.

For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities.

The following tables present derivative financial instruments and secured financing transactions that are subject to enforceable netting arrangements and offset in the Statement of Assets and Liabilities in conformity with U.S. GAAP:

Investment Type	Gross Amounts of Recognized Assets ¹	Gross Amounts Offset in the Statement of Assets and Liabilities	Net Amount	Gross Amounts Not Offset		
			of Assets Presented on the Statement of Assets and Liabilities	in the Statement of Assets and Liabilities		Net Amount
Credit default swap agreements				Financial Instruments	Cash Collateral Received	
	\$ 15,678	\$ –	\$ 15,678	\$ –	\$ –	\$ 15,678

¹ Exchange-traded or centrally cleared derivatives are excluded from these reported amounts.

The following table presents deposits held by others in connection with derivative investments as of November 30, 2018. The Fund has the right to offset these deposits against any related liabilities outstanding with each counterparty.

Counterparty	Asset Type	Cash Pledged	Cash Received
Bank of America Merrill Lynch	Credit Default Swap Agreements	\$ 1,959,950	\$ –
Bank of America Merrill Lynch	Credit Default Swap Agreements	1,060,000	–

Note 5 – Fees and Other Transactions with Affiliates

Pursuant to an Investment Advisory Agreement between the Fund and the Adviser, the Adviser furnishes offices, necessary facilities and equipment, provides administrative services, oversees the activities of Guggenheim Partners Investment Management, LLC (“GPIM” or “Sub-Adviser”), provides personnel including certain officers required for the Fund’s administrative management and compensates the officers and trustees of the Fund who are affiliates of the Adviser. As compensation for these services, the Fund pays the Adviser a fee, payable monthly, in an amount equal to 1.00% of the Fund’s average daily managed assets.

Pursuant to a Sub-Advisory Agreement among the Fund, the Adviser and GPIM, GPIM under the supervision of the Fund’s Board and the Adviser, provides a continuous investment program for the Fund’s portfolio; provides investment research; makes and executes recommendations for the purchase and sale of securities; and provides certain facilities and personnel, including certain officers required for its administrative management and pays the compensation of all officers and trustees of the Fund who are GPIM’s affiliates. As compensation for its services, the Adviser pays GPIM a fee, payable monthly, in an annual amount equal to 0.50% of the Fund’s average daily managed assets.

For purposes of calculating the fees payable under the foregoing agreements, average daily managed assets means the average daily value of the Fund’s total assets minus the sum of its accrued liabilities. Total assets means all of the Fund’s assets and is not limited to its investment securities. Accrued liabilities means all of the Fund’s liabilities other than borrowings for investment purposes.

Certain officers of the Fund may also be officers, directors and/or employees of the Adviser or GPIM. The Fund does not compensate its officers who are officers, directors and/or employees of the aforementioned firms.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

GFIA engages external service providers to perform other necessary services for the Fund, such as audit and accounting related services, legal services, custody, printing and mailing, among others, on a pass-through basis. MUFG Investor Services (US), LLC (“MUIS”) acts as the Fund’s administrator and accounting agent. As administrator and accounting agent, MUIS is responsible for maintaining the books and records of the Fund’s securities and cash. The Bank of New York Mellon Corp. (“BNY”) acts as the Fund’s custodian. As custodian, BNY is responsible for the custody of the Fund’s assets. For providing the aforementioned services, MUIS and BNY are entitled to receive a monthly fee equal to an annual percentage of the Fund’s average daily managed assets subject to certain minimum monthly fees and out of pocket expenses.

Note 6 – Fair Value Measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

Independent pricing services are used to value a majority of the Fund’s investments. When values are not available from a pricing service, they may be computed by the Fund’s investment adviser or an affiliate. In any event, values may be determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. A significant portion of the Fund’s assets and liabilities are categorized as Level 2, as indicated in this report. Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Fund’s assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Fund may not have the

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

transparency to view the underlying inputs which support the market quotations. Significant changes in an indicative quote would generally result in significant changes in the fair value of the security.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

Note 7 – Repurchase Agreements

The Fund may enter into reverse repurchase agreements as part of its financial leverage strategy. Under a reverse repurchase agreement, the Fund temporarily transfers possession of a portfolio instrument to another party, such as a bank or broker-dealer, in return for cash. At the same time, the Fund agrees to repurchase the instrument at an agreed upon time and price, which reflects an interest payment. Such agreements have the economic effect of borrowings. The Fund may enter into such agreements when it is able to invest the cash acquired at a rate higher than the cost of the agreement, which would increase earned income. When the Fund enters into a reverse repurchase agreement, any fluctuations in the market value of either the instruments transferred to another party or the instruments in which the proceeds may be invested would affect the market value of the Fund's assets. As a result, such transactions may increase fluctuations in the market value of the Fund's assets. For the period ended November 30, 2018, the average daily balance for which reverse repurchase agreements were outstanding amounted to \$1,611,925. The weighted average interest rate was (0.14%). As of November 30, 2018, there were no reverse repurchase agreements outstanding.

Note 8 – Borrowings

The Fund has entered into a \$80,000,000 credit facility agreement with an approved lender whereby the lender has agreed to provide secured financing to the Fund and the Fund will provide pledged collateral to the lender. Interest on the amount borrowed is based on the 3 month LIBOR plus 0.85%. As of November 30, 2018, there were no outstanding borrowings in connection with the Fund's credit facility.

The credit facility agreement governing the loan facility includes usual and customary covenants. These covenants impose on the Fund asset coverage requirements, collateral requirements, investment strategy requirements, and certain financial obligations. These covenants place limits or restrictions on the Fund's ability to (i) enter into additional indebtedness with a party other than the counterparty, (ii) change its fundamental investment policy, or (iii) pledge to any other party, other than to the counterparty, securities owned or held by the Fund over which the counterparty has a lien. In addition, the Fund is required to deliver financial information to the counterparty within established deadlines, maintain an asset coverage ratio (as defined in Section 18(g) of the 1940 Act) greater than 300%, comply with the rules of the stock exchange on which its shares are listed, and maintain its classification as a "closed-end management investment company" as defined in the 1940 Act.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

There is no guarantee that the Fund's leverage strategy will be successful. The Fund's use of leverage may cause the Fund's NAV and market price of common shares to be more volatile and can magnify the effect of any losses.

Note 9 – Federal Income Tax Information

The Fund intends to comply with the provisions of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies.

The Fund is subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year. At November 30, 2018, the cost of securities for Federal income tax purposes, the aggregate gross unrealized appreciation for all securities for which there was an excess of value over tax cost, and the aggregate gross unrealized depreciation for all securities for which there was an excess of tax cost over value were as follows:

	Tax Unrealized	Tax Unrealized	Net Unrealized
Tax Cost	Appreciation	Depreciation	Depreciation
\$600,113,682	\$16,661,381	\$(44,831,958)	\$(28,170,577)

As of May 31, 2018, (the most recent fiscal year end for federal income tax purposes) tax components of accumulated earnings (excluding paid-in capital) were as follows:

	Undistributed	Net Unrealized	Accumulated	
Undistributed	Long-Term	Appreciation	Capital and	
Ordinary Income	Capital Gain	(Depreciation)	Other Losses	Total
\$3,627,936	\$2,339,604	\$(22,581,035)	\$—	\$(16,613,495)

For the year ended May 31, 2018, (the most recent fiscal year end for federal income tax purposes) the tax character of distributions paid to shareholders as reflected in the Statement of Changes in Net Assets was as follows:

Distributions paid from:	Total Distribution
Ordinary Income	\$47,817,793
Long-Term Capital Gain	4,400,177
	\$52,217,970

Note 10 – Securities Transactions

For the period ended November 30, 2018, the cost of purchases and proceeds from sales of investment securities, excluding written options, swap agreements, futures contracts and short-term investments, were as follows:

Purchases	Sales
\$146,968,975	\$100,134,827

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

The Fund is permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by a Fund from or to another fund or portfolio that is or could be considered an affiliate by virtue of having a common investment adviser (or affiliated investment advisers), common Trustees and/or common officers complies with Rule 17a-7 of the 1940 Act. Further, as defined under these procedures, each transaction is effected at the current market price to save costs, where permissible. For the period November 30, 2018, the Fund engaged in purchases and sales of securities, pursuant to Rule 17a-7 of the 1940 Act, as follows:

Purchases	Sales	Realized Gain
\$296,703	\$835,624	\$62,624

Note 11 – Unfunded Loan Commitments

Pursuant to the terms of certain loan agreements, the Fund held unfunded loan commitments as of November 30, 2018. The Fund is obligated to fund these loan commitments at the borrower's discretion. The Fund reserves against such contingent obligations by designating cash, liquid securities, illiquid securities, and liquid term loans as a reserve. As of November 30, 2018, the total amount segregated in connection with futures contracts and unfunded loan commitments was \$16,447,137.

The unfunded loan commitments as of November 30, 2018, were as follows:

¹ Variable rate security. Rate indicated is the rate effective at November 30, 2018. In some instances, the effective rate is limited by a minimum rate floor or a maximum rate cap established by the issuer. The settlement status of a position may also impact the effective rate indicated. In some cases, a position may be unsettled at period end and

may not have a stated effective rate. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

² Security has a fixed rate coupon which will convert to a floating or variable rate coupon on a future date.

³ Security is in default of interest and/or principal obligations.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

Note 13 – Capital

Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and 31,977,280 issued and outstanding.

Transactions in common shares were as follows:

	Period Ended November 30, 2018	Year Ended May 31, 2018
Beginning Shares	27,733,512	20,751,418
Common shares issued through at-the-market offering	4,087,579	6,747,942
Shares issued through dividend reinvestment	156,189	234,152
Ending Shares	31,977,280	27,733,512

On April 8, 2011, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective. The shelf registration statement allowed for the issuance of up to \$100,000,000 of common shares. On December 16, 2011, the Fund entered into an at-the-market sales agreement with Cantor Fitzgerald & Co. to offer and sell up to 4,875,670 common shares, from time to time, through Cantor Fitzgerald & Co. as agent for the Fund.

On October 23, 2013, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective. The shelf registration statement allowed for the issuance of up to \$150,000,000 of common shares.

On November 1, 2013, the Fund amended its at-the-market sales agreement with Cantor Fitzgerald & Co. to offer and sell up to 3,977,022 common shares, from time to time, through Cantor Fitzgerald & Co. as agent for the Fund.

On November 14, 2016, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective. The shelf registration statement allowed for the issuance of up to \$125,000,000 of common shares.

On December 7, 2016, the Fund entered into an at-the-market sales agreement with Cantor Fitzgerald & Co. for the sale of up to an additional 3,900,000 shares. On September 11, 2017, the Fund amended its at-the-market sales agreement with Cantor Fitzgerald & Co. to offer and sell up to 7,013,325 common shares, from time to time, through Cantor Fitzgerald & Co. as agent for the Fund.

On January 12, 2018, the Fund's shelf registration allowing for delayed or continuous offering of additional shares became effective. The shelf registration statement allows for the issuance of up to \$250,000,000 of common shares.

On January 16, 2018 the Fund entered into an at-the-market sales agreement with Cantor Fitzgerald & Co. to offer and sell up to 5,739,210 common shares, from time to time, through Cantor Fitzgerald & Co. as agent for the Fund. On September 10, 2018, the Fund amended its at-the-market sales agreement with Cantor Fitzgerald & Co. to offer and sell up to 14,138,865 common shares, from time to time, through Cantor Fitzgerald & Co. as agent for the Fund.

NOTES TO FINANCIAL STATEMENTS (Unaudited) continued November 30, 2018

The Adviser has paid the costs associated with the at-the-market offering of shares and will be reimbursed by the Fund up to 60% of the offering price of common shares sold pursuant to the shelf registration statement, not to exceed the amount of actual offering costs incurred. For the period ended November 30, 2018, the Fund incurred \$90,283 of expenses associated with the at-the-market offerings.

Note 14 – Recent Regulatory Reporting Updates

In August 2018, the U.S. Securities and Exchange Commission adopted amendments to certain disclosure requirements under Regulation S-X to conform to U.S. GAAP, including: (i) an amendment to require presentation of the total, rather than the components, of distributable earnings on the Statements of Assets and Liabilities; and (ii) an amendment to require presentation of the total, rather than the components, of distributions to shareholders, except for tax return of capital distributions, on the Statements of Changes in Net Assets.

As of November 30, 2018, management has implemented the amendments to Regulation S-X, which did not have a material impact on the Fund's financial statements and related disclosures nor did it impact the Fund's net assets or results of operations.

Note 15 – Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board issued an Accounting Standards Update, ASU 2017-08, Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities (the “2017 ASU”) which amends the amortization period for certain purchased callable debt securities held at a premium, shortening such period to the earliest call date. The 2017 ASU does not require any accounting change for debt securities held at a discount; the discount continues to be amortized to maturity. The 2017 ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. At this time, management is evaluating the implications of these changes on the financial statements.

In August 2018, the Financial Accounting Standards Board issued an Accounting Standards Update, ASU 2018-13, Fair Value Measurement (Topic 820), Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement (the “2018 ASU”) which adds, modifies and removes disclosure requirements related to certain aspects of fair value measurement. The 2018 ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. At this time, management is evaluating the implications of these changes on the financial Statements.

Note 16 – Subsequent Events

The Fund evaluated subsequent events through the date the financial statements were available for issue and determined there were no additional material events that would require adjustment to or disclosure in the Fund's financial statements.

OTHER INFORMATION (Unaudited) November 30, 2018

Federal Income Tax Information

The Fund intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Relief and Reconciliation Act of 2003.

In January 2019, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2018.

Sector Classification

Information in the “Schedule of Investments” is categorized by sectors using sector-level classifications used by Bloomberg Industry Classification System, a widely recognized industry classification system provider. In the Fund’s registration statement, the Fund has investment policies relating to concentration in specific industries. For purposes of these investment policies, the Fund usually classifies industries based on industry-level classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

DIVIDEND REINVESTMENT PLAN (Unaudited) November 30, 2018

Unless the registered owner of common shares elects to receive cash by contacting Computershare Trust Company, N.A. (the "Plan Administrator"), all dividends declared on common shares of the Fund will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, nonparticipants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend

DIVIDEND REINVESTMENT PLAN (Unaudited) continued November 30, 2018

amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date. The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 30170 College Station, TX 77842-3170: Attention: Shareholder Services Department, Phone Number: (866) 488-3559 or online at www.computershare.com/investor.

GOF 1 GUGGENHEIM STRATEGIC OPPORTUNITIES FUND SEMIANNUAL REPORT 1 81

FUND INFORMATION continued November 30, 2018

Privacy Principles of the Fund

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to non-public personal information about the shareholders to Guggenheim Funds Investment Advisors, LLC employees with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the non-public personal information of its shareholders.

Questions concerning your shares of Guggenheim Strategic Opportunities Fund?

- If your shares are held in a Brokerage Account, contact your Broker.
- If you have physical possession of your shares in certificate form, contact the Fund's Transfer Agent: Computershare Trust Company, N.A., P.O. Box 30170 College Station, TX 77842-3170; (866) 488-3559 or online at www.computershare.com/investor

This report is sent to shareholders of Guggenheim Strategic Opportunities Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (888) 991-0091.

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (888) 991-0091, by visiting the Fund's website at guggenheiminvestments.com/gof or by accessing the Fund's Form N-PX on the U.S. Securities and Exchange Commission's (SEC) website at www.sec.gov.

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at www.sec.gov or at guggenheiminvestments.com/gof. The Fund's Form N-Q may also be viewed and copied at the SEC's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

Notice to Shareholders

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund from time to time may purchase shares of its common stock in the open market or in private transactions.

ABOUT THE FUND MANAGERS

Guggenheim Partners Investment Management, LLC

Guggenheim Partners Investment Management, LLC (“GPIM”) is an indirect subsidiary of Guggenheim Partners, LLC, a diversified financial services firm. The firm provides capital markets services, portfolio and risk management expertise, wealth management, and investment advisory services. Clients of Guggenheim Partners, LLC subsidiaries are an elite mix of individuals, family offices, endowments, foundations, insurance companies and other institutions.

Investment Philosophy

GPIM’s investment philosophy is predicated upon the belief that thorough research and independent thought are rewarded with performance that has the potential to outperform benchmark indexes with both lower volatility and lower correlation of returns over time as compared to such benchmark indexes.

Investment Process

GPIM’s investment process is a collaborative effort between various groups including the Portfolio Construction Group, which utilize proprietary portfolio construction and risk modeling tools to determine allocation of assets among a variety of sectors, and its Sector Specialists, who are responsible for security selection within these sectors and for implementing securities transactions, including the structuring of certain securities directly with the issuers or with investment banks and dealers involved in the origination of such securities.
