Entry into LaSalle Loan Agreement

Line of Credit

On September 10, 2007, we, through NNN Healthcare/Office REIT Holdings, L.P., or our operating partnership, entered into a loan agreement with LaSalle to obtain a secured revolving credit facility in an aggregate maximum principal amount of \$50,000,000, or the LaSalle line of credit. The proceeds of loans made under the loan agreement may be used to finance the purchase of properties or, provided no event of default has occurred and is continuing, may be used for any other lawful purpose. In addition to loans, our operating partnership may obtain up to \$10,000,000 of the credit available under the loan agreement in the form of letters of credit. The initial term of the loan agreement is three years which may be extended by one 12-month period subject to satisfaction of certain conditions, including payment of an extension fee equal to 0.20% of the principal balance of loans then outstanding. On September 10, 2007, we secured the LaSalle line of credit by executing a Commercial Deed of Trust, Assignment of Leases and Rents, Security Agreement and Fixture Filing, or Deed of Trust, on our Triumph Hospital Northwest and Triumph Hospital Southwest properties, located in Houston and Sugarland, Texas, respectively, for the benefit of LaSalle.

The actual amount of credit available under the loan agreement is a function of certain loan to cost, loan to value and debt service coverage ratios contained in the loan agreement. The maximum principal amount of the loan agreement may be increased to \$120,000,000 subject to the terms of the loan agreement and additional financial institutions may become lenders under the loan agreement.

At the option of our operating partnership, loans under the loan agreement bear interest at per annum rates equal to (a) LIBOR plus a margin ranging from 1.45% to 1.60%, depending on the ratio of outstanding amounts under the loan agreement to the value of the collateral securing the loan agreement, (b) the greater of LaSalle's prime rate or the Federal Funds Rate plus 0.50%, or (c) a combination of these rates. Accrued interest under the loan agreement is

payable monthly and at maturity. In addition to interest, our operating partnership is required to pay a fee on the unused portion of the lenders' commitments under the loan agreement at a per annum rate equal to 0.20%, payable quarterly in arrears.

Our operating partnership's obligations with respect to the loan agreement are guaranteed by us and by subsidiaries of our operating partnership that own properties that serve as collateral for the loan agreement.

The loan agreement contains various affirmative and negative covenants that are usual for facilities and transactions of this type, including limitations on the incurrence of debt by our operating partnership and its

subsidiaries that own properties that serve as collateral for the loan agreement, limitations on the nature of our operating partnership's business, and limitations on distributions by our operating partnership and its subsidiaries that own properties that serve as collateral for the loan agreement. The loan agreement also imposes the following financial covenants on us and our operating partnership, as applicable: (a) a minimum ratio of operating cash flow to interest expense, (b) a minimum ratio of operating cash flow to fixed charges, (c) a maximum ratio of liabilities to asset value, (d) a maximum distribution covenant and (e) a minimum net worth covenant. In addition, the loan agreement includes events of default that are usual for facilities and transactions of this type.

Use of Proceeds from LaSalle Line of Credit

Repayment of Note

On September 5, 2007, we entered into an unsecured loan with NNN Realty Advisors, Inc., our sponsor, as evidenced by an unsecured promissory note in the principal amount of \$6,100,000. The unsecured promissory note provided for a maturity date of March 5, 2008. The \$6,100,000 unsecured promissory note bore interest at a fixed rate of 6.86% per annum and required monthly interest-only payments for the term of the unsecured note. The unsecured promissory note provided for a default interest rate in an event of default equal to 8.86% per annum. On September 10, 2007, we borrowed \$4,030,000 under our LaSalle line of credit and used proceeds net of closing costs of \$3,615,000 and \$1,090,000 from funds raised through our initial public offering to repay all outstanding principal and accrued interest on the unsecured promissory note.

Financing of Acquisition

On September 10, 2007, in connection with our purchase of 2750 Monroe Boulevard as described above, we borrowed \$27,870,000 under our LaSalle line of credit. The LaSalle line of credit is further secured by an Open End Real Property Mortgage, Security Agreement, Assignment of Rents and Leases and Fixture Filing, or the mortgage loan agreement, on 2750 Monroe Boulevard. The mortgage loan agreement requires that NNN Healthcare/Office REIT 2750 Monroe, LLC maintain 2750 Monroe Boulevard in good condition and repair, receive prior written consent before encumbering the property, and remain a single asset entity, as well as other customary requirements.
