THE VALSPAR CORPORATION AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
APRIL 29, 2011  
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

#### NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of The Valspar Corporation have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended April 29, 2011 are not necessarily indicative of the results that may be expected for the year ending October 28, 2011.

Certain amounts in the 2010 financial statements have been reclassified to conform to the 2011 presentation. Such reclassifications had no effect on net income or stockholders' equity as previously reported.

The Condensed Consolidated Balance Sheet at October 29, 2010 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information refer to the consolidated financial statements and footnotes thereto included in our annual report on Form 10-K for the year ended October 29, 2010.

#### NOTE 2: ACCOUNTS PAYABLE

Trade accounts payable includes \$34,483 at April 29, 2011, \$33,944 at October 29, 2010 and \$23,585 at April 30, 2010, of issued checks that had not cleared our bank accounts.

#### NOTE 3: ACQUISITIONS AND DIVESTITURES

In February 2011, we acquired Isocoat Tintas e Vernizes Ltda. (Isocoat), a Brazilian powder coatings business serving customers in Brazil, Argentina and Colombia. The acquisition strengthens our general industrial product manufacturing, marketing and distribution in a growing region. Isocoat had 2010 sales of approximately \$35,000. The acquisition was recorded at fair value in the second quarter of fiscal year 2011 and a preliminary allocation of the purchase price has been completed. Accordingly, the net assets and operating results have been included in our financial statements from the date of acquisition.

In September 2010, we acquired all the outstanding shares of Australian paint manufacturer Wattyl Limited (ASX:WYL) for approximately AUD 142,000 and assumed Wattyl's existing debt. The acquisition was paid for primarily through the use of existing cash and cash equivalents. Wattyl had fiscal year 2010 net sales of approximately AUD 386,500. Wattyl distributes leading paint brands through independent dealers, hardware chains, home centers and approximately 135 company-owned stores. The acquisition was recorded at fair value in the fourth quarter of fiscal year 2010. The purchase price allocation has been completed. Accordingly, the net assets and operating results have been included in our financial statements from the date of acquisition.

In June 2010, we sold certain non-strategic metal decorating inks assets, including inventory and intellectual property, to DIC Corporation of Japan. The sale was recorded at fair value in the third quarter of 2010 and resulted in a net gain, which was recorded as a reduction to Selling, General and Administrative expenses.

In June 2010, we purchased the shares of DIC Coatings India Limited and certain metal packaging coatings inventory and intellectual property in other countries from DIC Corporation. The acquisition was strategic as we obtained a manufacturing site in India. The acquisition was recorded at fair value in the third quarter of fiscal year 2010. Accordingly, the net assets and operating results have been included in our financial statements from the date of acquisition.

The net sales for both the June 2010 divestiture and acquisition are immaterial to our consolidated results.

Edgar Filing: VALSPAR CORP - Form 10-Q

Pro forma results of operations for the acquisitions and divestitures noted above have not been presented, as they were immaterial to the reported results on an individual and combined basis.

Accumulated other comprehensive income (loss)	\$ 128,319	\$ 88,087	\$ 56,787

NOTE 6: GOODWILL AND OTHER INTANGIBLE ASSETS

The carrying amount of goodwill as of April 29, 2011 increased from the end of fiscal year 2010 by \$29,588 to \$1,385,406. The increase is primarily due to the acquisition of Isocoat (see Note 3 for further details) and foreign currency translation.

Total intangible asset amortization expense for the six months ended April 29, 2011 was \$3,723, compared to \$3,660 for the same period last year. Estimated amortization expense for each of the five succeeding fiscal years based on the intangible assets as of April 29, 2011 is expected to be approximately \$8,000 annually.

NOTE 7: SEGMENT INFORMATION

Based on the nature of our products, technology, manufacturing processes, customers and regulatory environment, we aggregate our operating segments into two reportable segments: Coatings and Paints. We are required to report segment information in the same way that management internally organizes its business for assessing performance and making decisions regarding allocation of resources. We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

The Coatings segment aggregates our industrial and packaging product lines. Industrial products include a broad range of decorative and protective coatings for metal, wood and plastic. Packaging products include both interior and exterior coatings used in metal packaging containers, principally food containers and beverage cans. The products of this segment are sold throughout the world.

The Paints segment aggregates our consumer paints and automotive refinish product lines. Consumer paints includes interior and exterior decorative paints, primers, varnishes, high-performance floor paints and specialty decorative products, such as enamels, aerosols and faux varnishes, for the do-it-yourself and professional markets in Australia, China, New Zealand and North America. In September 2010, we acquired Watty Limited which expanded our distribution of consumer paints into Australia and New Zealand primarily through independent dealers, hardware chains, home centers and company-owned stores (see Note 3).

Our remaining activities are included in All Other. These activities include specialty polymers and colorants that are used internally and sold to other coatings manufacturers, as well as furniture protection plans and gelcoats and related products. All Other also includes our corporate administrative expenses. These administrative expenses include amortization expense, certain environmental-related expenses and other expenses not directly allocated to any other operating segment.

It is not practicable to obtain the information needed to disclose revenues attributable to each of our identified product lines within our reportable segments.

In the following table, sales between segments are recorded at selling prices that are below market prices, generally intended to recover internal costs. Segment EBIT includes income realized on inter-segment sales. Comparative second quarter and year-to-date results on this basis are as follows:

	Three Months Ended		Six Months Ended	
	April 29, 2011	April 30, 2010	April 29, 2011	April 30, 2010

**NOTE 8: DERIVATIVE FINANCIAL INSTRUMENTS**

We use derivative financial instruments to manage well-defined interest rate and foreign currency exchange risks. We enter into derivative financial instruments with high-credit-quality counterparties and diversify our positions among such counterparties to reduce our exposure to credit losses. We do not have any credit-risk-related contingent features in our derivative contracts as of April 29, 2011.

In the second quarter of 2011, our aggregate \$50,000 notional amount of interest rate swap contracts matured. These contracts were designated as cash flow hedges, to pay fixed rates of interest and receive a floating interest rate based on LIBOR. We had \$50,000 notional amount of interest rate swap contracts in place as of April 30, 2010. There was no ineffectiveness for these swaps during the quarter or year-to-date periods ended April 29, 2011 and April 30, 2010. Prior to maturity, the interest rate swap contracts were reflected at fair value in the condensed consolidated balance sheet. Unrealized gains and losses were recorded in accumulated other comprehensive income. Amounts to be received or paid under the contracts were recognized as interest expense over the life of the contracts.

THE VALSPAR CORPORATION AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
 APRIL 29, 2011  
 DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

At April 29, 2011, we had \$6,454 and \$3,005 notional amount of foreign currency contracts that mature during fiscal year 2011 and 2012, respectively. These foreign currency contracts have been designated as cash flow hedges with unrealized gains or losses recorded in accumulated other comprehensive income. Realized gains and losses will be recognized in Other Expense (Income) when they occur. At April 30, 2010, we had approximately \$8,430 notional amount of foreign currency contracts maturing during fiscal years 2010 and 2011. There was no ineffectiveness for these hedges during the quarter or year-to-date periods ended April 29, 2011 or April 30, 2010.

At April 29, 2011, we had \$100,000 notional amount of treasury locks to hedge, or lock-in, interest rates on anticipated long-term debt to be issued. We designated the treasury locks as cash flow hedges with unrealized gains and losses recorded, net of tax, to accumulated other comprehensive income. The accumulated other comprehensive income amount in our condensed consolidated balance sheet represents the unrealized gains and losses, net of tax, from our current contracts and the unamortized gain, net of tax, from our settled contracts. The unamortized gain from our settled contracts is reclassified ratably to our condensed statements of income as a decrease to interest expense over the term of the related bond issuance. At April 30, 2010 we had no treasury lock contracts in place.

Our derivative assets and liabilities subject to fair value measurement disclosures are the following:

**NOTE 9: DEBT AND MONEY MARKET SECURITIES**

The tables below summarize the carrying value and fair market value of our outstanding debt. The fair market value of our publicly traded debt is based on observable market prices. The fair market value of our non-publicly traded debt was estimated using either a discounted cash flow analysis based on our current borrowing costs for debt with similar maturities, or in the case of outstanding commercial paper, the carrying values approximate the fair market values as the maturities are less than three months.

	April 29, 2011

<b>Total debt</b>	<b>\$ 879,859</b>	<b>\$ 959,444</b>

We did not elect the option to report our debt at fair value in our Condensed Consolidated Balance Sheets.

Our non-publicly traded debt consists of the following:

	April 29, 2011	April 30, 2010
Commercial paper	\$ 344,903	\$ 60,987
Credit facility borrowings	89,851	12,502
Industrial development bonds	12,502	6,370
Uncommitted borrowings	10,242	79,859
<b>Total non-publicly traded debt</b>	<b>\$ 457,498</b>	<b>\$ 154,718</b>

Our credit facilities have covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of April 29, 2011. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

We invest in money market funds with high-credit-quality financial institutions and diversify our holdings among such financial institutions to reduce our exposure to credit losses. The fair values of our money market funds are \$15,452 and \$58,782 as of April 29, 2011 and April 30, 2010, respectively. The money market funds are included in our cash and cash equivalents and restricted cash balances with the carrying values approximating the fair market values as the maturities are less than three months. These assets have observable prices that are quoted on an active exchange, and are therefore classified as Level 1 inputs under the fair value hierarchy.

Restricted cash represents cash that is restricted from withdrawal. As of April 29, 2011 and April 30, 2010, we had restricted cash of \$16,977 and \$0, respectively. Such restricted cash primarily serves as collateral for our liability insurance programs.

**NOTE 10: GUARANTEES AND CONTRACTUAL OBLIGATIONS**

We are required to disclose information about certain guarantees and contractual obligations in our periodic financial statements.

We sell extended furniture protection plans and offer warranties for certain of our products. Revenue related to furniture protection plans is deferred and recognized over the contract life. Historical claims data is used to forecast claims payments over the contract period and revenue is recognized based on the forecasted claims payments. Actual claims costs are reflected in earnings in the period incurred. Anticipated losses on programs in progress are charged to earnings when identified. For product warranties, we estimate the costs that may be incurred under these warranties based on historical claims data and record a liability in the amount of such costs at the time revenue is recognized.

We periodically assess the adequacy of these recorded amounts and adjust as necessary. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses can be estimated. The extended furniture protection plans that we enter into have fixed prices. To the extent the actual costs to complete contracts are higher than the amounts estimated as of the date of the financial statements, gross margin would be negatively affected in future quarters when we revise our estimates. Our practice is to revise estimates as soon as such changes in estimates become known.

NOTE 12: PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We sponsor a number of defined benefit pension plans for certain hourly and salaried employees. The benefits for most of these plans are generally based on stated amounts for each year of service. We fund the plans in amounts consistent with the limits of allowable tax deductions.

The net periodic benefit cost of the pension benefits is as follows:

NOTE 13: INCOME TAXES

At October 29, 2010, we had a \$17,817 liability recorded for gross unrecognized tax benefits (excluding interest and penalties). Of this total, \$15,646 represents the amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate.

Edgar Filing: VALSPAR CORP - Form 10-Q

We recognize interest and penalties related to unrecognized tax benefits in income tax expense. As of October 29, 2010, we had accrued approximately \$5,907 of interest and penalties relating to unrecognized tax benefits.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
APRIL 29, 2011  
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

During the first quarter of fiscal year 2011, we recorded a \$1,250 benefit to income tax expense for the retroactive extension of the U.S. federal research and development tax credit. In the same period of fiscal year 2010, we settled certain income tax audits, which reduced our liability for gross unrecognized tax benefits by \$7,244 (excluding interest and penalties). The net impact to tax expense during the first quarter of fiscal year 2010 for these audit adjustments (including interest, penalties, and other offsetting items) was a net decrease of \$4,821. There were no material adjustments to our recorded liability for unrecognized tax benefits during the second quarter of fiscal year 2011 or 2010.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and numerous state and foreign jurisdictions. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2005. The Internal Revenue Service (IRS) has concluded its examination of our U.S. federal tax returns for the fiscal years ended 2004 and 2005. There were no material adjustments to our income tax expense or balance of unrecognized tax benefits as a result of the IRS examination. We are currently under audit in several state and foreign jurisdictions. We also expect various statutes of limitation to expire during the year. Due to the uncertain response of taxing authorities, a range of outcomes cannot be reasonably estimated at this time.

NOTE 14: RESTRUCTURING

In fiscal year 2008, we initiated a comprehensive series of restructuring activities which are now complete. These restructuring initiatives included plant closures, reductions to research and development and selling and administrative expenses, manufacturing consolidation and relocation, and our exit from non-strategic product lines in certain geographies. We rationalized our manufacturing capacity and reduced our overall global headcount to lower our costs in light of the challenging global economic conditions. Pre-tax restructuring charges for these initiatives were \$98 and \$1,494 for the three and six-month periods ended April 29, 2011, respectively.

During the second quarter of 2011, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which will further rationalize our manufacturing capacity and reduce our overall global headcount. These restructuring activities during the second quarter of 2011 resulted in pre-tax charges of \$1,364 or \$0.01 per share after tax. Additionally, we have announced restructuring actions related to improving the profitability of our Australian paints acquisition, Wattyl. Specific actions are expected to include facility consolidations in manufacturing and distribution, store rationalization and other related costs. We expect the cost of these activities to be \$0.30 to \$0.35 per share after tax over the next 12 to 18 months.

Our total restructuring activities for the three and six-month periods ended April 29, 2011 resulted in pre-tax charges of \$1,462 and \$2,858, respectively, or \$0.02 per share after tax in each period. In comparison, total restructuring activities for the three and six-month periods ended April 30, 2010 resulted in pre-tax charges of \$261 and \$4,262, respectively, or \$0.02 per share after tax in each period.

The total resulting expenses included severance and employee benefits, asset impairments, professional services and site clean-up. We plan to pay the majority of the current restructuring liabilities in fiscal year 2011.

The restructuring reserve balances presented are considered adequate to cover committed restructuring actions. The restructuring expenses recorded are included in the Condensed Consolidated Statement of Income. For the three-month period ended April 29, 2011, \$529 was charged to Cost of Sales and \$933 was charged to Selling, General and Administrative (SG&A) expenses. For the six-month period ended April 29, 2011, \$1,925 was charged to Cost of Sales and \$933 was charged to SG&A. For the three-month period ended April 30, 2010, \$261 was charged to Cost of Sales. ### ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

**Overview:** In the second quarter of 2011, we continued to experience a very challenging raw material environment due to escalating costs, tight supply and strong global demand for certain raw materials, a trend which began in the second half of 2010. We expect the rising cost trend to continue in the second half of 2011. Our ability to return to historical gross margins will depend on the implementation of customer price increases in a timely manner. Historically, there has been a lag between rising raw material costs and the impact of our customer price increases.

Net sales growth for the second quarter of 2011 was primarily due to higher volumes driven by our acquisitions, customer price increases across all regions and strength in our Coatings segment. Gross profit as a percent of net sales decreased due to the lag between higher raw material costs and the impact of customer price increases, along with non-recurring, acquisition-related charges. Operating expenses as a percent of net sales increased due to WattyI operating expenses and continued investments in strategic growth initiatives. Net income declined 8.7% primarily due to one-time acquisition charges and restructuring costs.

We continually evaluate our cost structure in the normal course of our business. During the second quarter of 2011, we initiated restructuring actions in our Coatings segment, primarily in our wood product line, which will reduce our manufacturing capacity and overall global headcount. The end-markets served by this product line have been struggling for several years and we do not anticipate any significant changes in the near- or medium-term. In the third quarter of 2011, we announced restructuring actions related to improving the profitability of our Australian paints acquisition, WattyI. Specific actions include facility consolidations in manufacturing and distribution, store rationalization and other related costs. We expect the restructuring cost relating to these actions to be \$0.30 to \$0.35 per share after tax over the next 12 to 18 months. Total restructuring activities during the second quarter of 2011 resulted in pre-tax charges of \$1,462 or \$0.01 per share after tax. See Note 14 in Notes to Condensed Consolidated Financial Statements for more information on restructuring.

**Earnings Per Share:** Net income per common share (diluted) was \$0.58 and \$0.91 for the three and six-month periods ended April 29, 2011, and \$0.61 and \$0.95 for the three and six-month periods ended April 30, 2010, respectively. The table below presents adjusted net income per common share - diluted, which excludes after-tax acquisition-related charges in 2011 and after-tax restructuring charges in 2011 and 2010.

	Three Months Ended		Six Months Ended	
	April 29, 2011	April 30, 2010	April 29, 2011	April 30, 2010
Net income per common share - diluted	\$ 0.58	\$ 0.61	\$ 0.91	\$ 0.95
Acquisition-related charges	0.05		0.09	
Restructuring charges	0.01		0.02	0.02
Adjusted net income per common share - diluted	\$ 0.64	\$ 0.61	\$ 1.02	\$ 0.97

Adjusted net income per common share - diluted is a non-GAAP financial measure. Management discloses this measure because we believe the measure may assist investors in comparing our results of operations in the respective periods without regard to the impact of acquisition-related and restructuring charges. The acquisition-related charges are primarily related to the step-up of inventory to fair value. This non-GAAP measure is provided to enhance investors' overall understanding of our current financial performance and prospects for the future. Specifically, we believe the non-GAAP measure provides useful information to both management and investors by excluding certain expenses, gains and losses on purchases or sales of assets and non-cash charges, which may not be indicative of our core operating results and business outlook. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of this non-GAAP measure provides consistency in our presentation of financial information. See Note 14 for further information on the restructuring charges.

**Critical Accounting Policies:** In the second quarter of 2011, there were no material changes in our critical accounting policies.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

**Consolidated Net Sales** Excluding the positive effect of 12.3% from acquisitions and 1.6% from foreign currency, sales for the second quarter of 2011 increased 9.6%. Excluding the positive effect of 13.5% from acquisitions and 1.2% from foreign currency, year-to-date sales increased 9.6%. The improvement in sales for both 2011 periods was due to customer price increases, new business and volume growth in our Coatings segment.

**Coatings Segment Net Sales** Excluding the positive effect of 2.5% from foreign currency and 1.2% from acquisitions, sales for the second quarter of 2011 increased 11.5%. Excluding the positive effect of 1.9% from foreign currency and 0.7% from acquisitions, year-to-date sales increased 13.3%. The increase in sales for both 2011 periods was primarily due to customer price increases and new business across all product lines. Additionally, improved market conditions in our general industrial product line offset continued weakness in our wood product line.

**Paints Segment Net Sales** Excluding the positive effect of 30.7% from acquisitions and a 0.6% from foreign currency, sales for the second quarter of 2011 increased 6.3%. Excluding the positive effect of 35.9% from acquisitions and 0.2% from foreign currency, year-to-date sales increased 4.3%. The increase in sales for both periods was due to customer price increases and volume growth in Asia that more than offset the loss of a large U.S. retail customer.

**All Other Net Sales** The All Other category includes resins, colorants, gelcoats and furniture protection plan product lines. Excluding the positive effect of 0.6% from foreign currency, sales for the second quarter of 2011 increased 12.8%. Year-to-date sales increased 9.7% with no effect from foreign currency. The higher sales in both periods were due to customer price increases.

Due to the seasonal nature of portions of our business, sales for the second quarter are not necessarily indicative of sales for subsequent quarters or for the full year.

**Gross Profit**

As a percent of Net Sales	31.8%	34.0%	31.3%	33.2%

**Gross Profit** Gross profit as a percent of net sales decreased due to higher raw material costs and acquisition-related charges, partially offset by increased customer pricing. Acquisition-related charges of \$4,909 or 0.5% of net sales and \$11,416 or 0.6% of net sales were included in the second quarter and year-to-date periods of 2011, respectively. Restructuring charges of \$529 and \$1,925, or 0.1% of net sales in both periods, were included in the second quarter and year-to-date periods of 2011, respectively. Restructuring charges of \$261 or 0.1% of net sales and \$4,262 or 0.3% of net sales were included in the second quarter and year-to-date periods of 2010, respectively.

**Consolidated Operating Expenses (dollars)** Second quarter consolidated operating expenses increased 27.8% or \$46,944 compared to last year. Year-to-date consolidated operating expenses increased 26.2% or \$85,367. The increase in both periods was driven primarily by the addition of Watty operating expenses and continued investments in strategic growth initiatives. For both periods, acquisition-related charges of \$1,859, 0.2% of second quarter net sales and 0.1% of year-to-date net sales, were included in operating

\* We evaluate the performance of operating segments and allocate resources based on profit or loss from operations before interest expense and taxes (EBIT).

**Consolidated EBIT** EBIT for the second quarter of 2011 decreased \$6,025 or 5.7%. Year-to-date EBIT decreased \$3,294 or 2.0%. Acquisition-related charges of \$6,768 or 0.7% of net sales and \$13,275 or 0.7% of net sales were included in the quarter and year-to-date periods of 2011, respectively. Restructuring charges of \$1,462 or 0.1% of net sales and \$2,858 or 0.2% of net sales were included in the quarter and year-to-date periods of 2011, respectively. The restructuring charges for the second quarter of 2010 were immaterial, and the year-to-date period included pre-tax charges of \$4,262 or 0.3% of net sales. Foreign currency exchange fluctuation had an immaterial effect on Consolidated EBIT, as well as EBIT of the segments discussed below.

**Coatings Segment EBIT** EBIT as a percent of net sales for the second quarter and year-to-date periods decreased primarily due to higher raw material costs, which were partially offset by customer price increases. EBIT included acquisition-related charges of \$1,859 or 0.4% of net sales in the quarter and year-to-date periods of 2011. EBIT included restructuring charges of \$1,462 or 0.3% of net sales and \$2,458 or 0.3% of net sales in the quarter and year-to-date periods of 2011, respectively. The restructuring charges for the second quarter of 2010 were immaterial, and the year-to-date period included pre-tax charges of \$2,633 or 0.3% of net sales.

**Paints Segment EBIT** EBIT as a percent of net sales for the second quarter and year-to-date periods declined primarily due to higher raw material costs, unfavorable product mix, investment in strategic initiatives and acquisition-related charges, partially offset by customer price increases. EBIT included acquisition-related charges of \$4,909 or 1.2% of net sales and \$11,416 or 1.5% of net sales in the quarter and year-to-date periods of 2011, respectively. There were no restructuring charges in the second quarter of 2011. EBIT included restructuring charges of \$400 or 0.1% of net sales in the year-to-date period of 2011. The restructuring charges for the second quarter of 2010 were immaterial, and the year-to-date period included pre-tax charges of \$1,404 or 0.3% of net sales.

**All Other EBIT** All Other EBIT includes corporate expenses. Second quarter and year-to-date EBIT as a percent of net sales improved primarily due to better performance in our Other product lines and lower incentive compensation expenses. There were no restructuring charges included in EBIT in the second quarter and year-to-date periods of 2011. EBIT included immaterial restructuring charges in the second quarter of 2010 and charges of \$225 or 0.2% of net sales in the 2010 year-to-date period.

Due to the seasonal nature of portions of our business, EBIT for the second quarter is not necessarily indicative of EBIT for subsequent quarters or for the full year.

**Interest Expense** The second quarter and year-to-date increase is primarily due to higher average debt levels as a result of acquisitions.

DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

<u>Effective Tax Rate</u>	Three Months Ended		Six Months Ended	
	April 29, 2011	April 30, 2010	April 29, 2011	April 30, 2010
Effective Tax Rate	33.0%	32.1%	31.7%	30.0%

**Effective Tax Rate** The higher year-to-date 2011 effective tax rate is due to the settlement of certain income tax audits in the 2010 period partially offset by a benefit in 2011 from the retroactive extension of the research and development tax credit. We expect the effective tax rate for the full year to be 32% to 33%.

<u>Net Income</u>	Three Months Ended			Six Months Ended		
	April 29, 2011	April 30, 2010	% Change	April 29, 2011	April 30, 2010	% Change
Consolidated Net Income	\$ 56,308	\$ 61,673	(8.7)%	\$ 89,735	\$ 95,610	(6.1)%

**Financial Condition:** Net cash used in operations was \$58,875 for the first six months of 2011 compared to net cash provided by operations of \$54,478 in the first six months of 2010. The use of cash in the 2011 period was primarily related to a decrease in trade accounts payable and other accrued liabilities, an increase in accounts and notes receivable and an increase in inventories and other assets. The \$69,775 decrease in trade accounts payable and other accrued liabilities was due to the timing of disbursements and purchases. The \$63,596 increase in accounts and notes receivable was due to higher sales levels and timing of customer payments. The \$59,890 increase in inventories and other assets was primarily due to higher raw material costs, pre-buying of certain raw materials to ensure uninterrupted delivery of products to our customers in a tight supply market and seasonality.

During the 2011 period, we used \$293,763 in net proceeds from bank borrowings to fund \$218,643 in share repurchases, working capital needs and acquisitions. We used cash on hand and \$27,722 in proceeds from the sale of treasury stock to fund \$34,483 in dividend payments, \$27,405 in capital expenditures, and \$11,454 in equity award shares purchased from Huarun employees.

Capital expenditures for property, plant and equipment were \$27,405 in 2011 compared with \$22,334 in 2010. We anticipate capital spending in 2011 to be approximately \$90,000.

See Note 9 in Notes to the Condensed Financial Statements for further discussion on our restricted cash primarily associated with cash collateralization of certain letters of credit.

The ratio of total debt-to-capital was 45.0% at April 29, 2011 compared to 36.8% at October 29, 2010 and 36.3% at April 30, 2010. Our short-term debt was \$354,467 at April 29, 2011 compared to \$8,088 and \$6,370 at October 29, 2010 and April 30, 2010, respectively. The increase was primarily funded by commercial paper borrowings. We ended our 2011 second quarter with \$343,730 of liquidity that includes \$223,679 of available committed credit facilities and \$120,051 of cash and cash equivalents. We believe cash flow from operations, existing lines of credit, access to credit facilities and access to debt and capital markets will be sufficient to meet our current and projected financing needs.

We have credit facilities with covenants that require us to maintain certain financial ratios. We were in compliance with these covenants as of April 29, 2011. Our debt covenants do not limit, nor are they reasonably likely to limit, our ability to obtain additional debt or equity financing.

Our cash and cash equivalent balances consist of high quality short-term money market instruments and cash held by our international subsidiaries that are used to fund day-to-day operating needs. Those balances have also been used to finance acquisitions. Our investment policy on excess cash is to preserve principal.

We use derivative instruments with a number of counterparties principally to manage well-defined interest rate and foreign currency exchange risks. We evaluate the financial stability of each counterparty and spread the risk among several financial institutions to limit our exposure. We will continue to monitor counterparty risk on an ongoing basis.

Off-Balance Sheet Financing: We do not have off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
DOLLARS IN THOUSANDS, EXCEPT PER SHARE AMOUNTS

Forward Looking Statements: Certain statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements.

Forward-looking statements are based on management's current expectations, estimates, assumptions and beliefs about future events, conditions and financial performance. Forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside our control and could cause actual results to differ materially from such statements. Any statement that is not historical in nature is a forward-looking statement. We may identify forward-looking statements with words and phrases such as expects, projects, estimates, anticipates, believes, could, may, will, plans to, intend, should and similar expressions.

These risks, uncertainties and other factors include, but are not limited to, deterioration in general economic conditions, both domestic and international, that may adversely affect our business; fluctuations in availability and prices of raw materials, including raw material shortages and other supply chain disruptions, and the inability to pass along or delays in passing along raw material cost increases to our customers; dependence of internal sales and earnings growth on business cycles affecting our customers and growth in the domestic and international coatings industry; market share loss to, and pricing or margin pressure from, larger competitors with greater financial resources; significant indebtedness that restricts the use of cash flow from operations for acquisitions and other investments; dependence on acquisitions for growth, and risks related to future acquisitions, including adverse changes in the results of acquired businesses, the assumption of unforeseen liabilities and disruptions resulting from the integration of acquisitions; risks and uncertainties associated with operations and achievement of profitable growth in developing markets, including Asia and Central and South America; loss of business with key customers; damage to our reputation and business resulting from product claims or recalls, litigation, customer perception and other matters; our ability to respond to technology changes and to protect our technology; changes in governmental regulation, including more stringent environmental, health and safety regulations; our reliance on the efforts of vendors, government agencies, utilities and other third parties to achieve adequate compliance and avoid disruption of our business; unusual weather conditions adversely affecting sales; changes in accounting policies and standards and taxation requirements such as new tax laws or revised tax law interpretations; the nature, cost and outcome of pending and future litigation and other legal proceedings; and civil unrest and the outbreak of war and other significant national and international events.

We undertake no obligation to subsequently revise any forward-looking statement to reflect new information, events or circumstances after the date of such statement.

## ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our foreign sales and results of operations are subject to the impact of foreign currency fluctuations. As most of our underlying costs are denominated in the same currency as our sales, the effect has not been material. We have not hedged our exposure to translation gains and losses; however, we have reduced our exposure by borrowing funds in local currencies. A 10% adverse change in foreign currency rates is not expected to have a material effect on our results of operations or financial position.

We are also subject to interest rate risk. At April 29, 2011, approximately 36.4% of our total debt consisted of floating rate debt. From time to time, we may enter into interest rate swaps to hedge a portion of either our variable or fixed rate debt. Assuming the current level of borrowings, a 10% increase in interest rates from those in effect at the end of the second quarter would not have a material impact on our results of operations or financial position.

## ITEM 4: CONTROLS AND PROCEDURES

Disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of April 29, 2011. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended April 29, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION**

## ITEM 1: LEGAL PROCEEDINGS

During the period covered by this report, there were no legal proceedings instituted that are reportable, and there were no material developments in any of the legal proceedings that were previously reported on our Form 10-K for the year ended October 29, 2010.

## ITEM 1A: RISK FACTORS
