RADA Electronic Industries and Smiths Aerospace Sign  
Teaming Agreement Providing RADA with Potential  
Revenues of \$90 Million Over the Next 10 Years

Wednesday October 22, 9:07 am ET

NETANYA, Israel, Oct. 22 /PRNewswire-FirstCall/ -- RADA Electronic Industries Ltd. (Nasdaq: RADIF - News), and Smiths Aerospace signed a Teaming Agreement on October 17th, 2003. The Agreement includes joint development, production and marketing of data management equipment and ground based training systems. As a baseline, the agreement relates to the jointly developed Peace Marble V Digital Acquisition System (DAS), Smiths' Advanced Data Transfer Equipment / Digital Video Recording (ADTE/DVR) and the RADA Squadron Information Management (SIM) Network / Debrief System. These systems and planned derivatives will expand growth opportunities in the military marketplace by building on the technical and market strengths of both companies.

Smiths and RADA estimate that the DAS market will be in excess of 2000 units during the next few years with applications for new aircraft and as replacement systems for existing aircraft. Various U.S.-made aircraft programs have already selected the DAS as their flight data recorder. The DVR and SIM Net represent the most advanced information recording and management network available for training and debriefing at the squadron level.

In addition to the above-mentioned products, Smiths has made commitments to purchase production work from RADA's Beit She'an facility in excess of \$13 million during a period of 4 years. This commitment plays a major role in RADA plans to turn its Beit She'an facility into a profitable entity by the end of 2004.

Commenting on the agreement, Adar Azancot, RADA's Chief Executive Officer said, " This agreement solidifies the foundation for the future growth of our company and has the potential to generate \$90 million in revenues for RADA over the next ten years."

The Agreement includes Smiths Aerospace businesses located in Michigan and Maryland and RADA's businesses located in Netanya and Beit She'an, Israel.

About RADA: RADA Electronic Industries Ltd. is an Israel based company involved in the military and commercial aerospace industries and a staff of 110 personnel. The company specializes in Avionics, Ground Debriefing Stations (Video, ACMI and Maintenance) and Automatic Test Equipment.
