New Accounting - EPS

In September, the EITF reached consensus on EITF Issue No. 04-8, which changes the accounting for contingently issuable shares.

Using the if converted method as if the company's zero coupon-subordinated notes had been converted as of January 1, 2004, diluted EPS would have been reduced by approximately \$0.03, to \$0.63 and by \$0.10 to \$1.87; for the three and nine months ended September 30, 2004, respectively.

We are required to adopt the provision at the end of 2004, including retroactive restatement of all diluted EPS calculations presented.

17

Financial Guidance for 2004
