-

Section 1 – Registrants’ Business and Operations

Item 1.01 Entry into a Material Definitive Agreement

On November 9, 2011, Louisville Gas and Electric Company (“LG&E”) and Kentucky Utilities Company (“KU”) and, collectively with LG&E, the “Companies”) entered into a settlement agreement (“Settlement Agreement”) with the intervenors in their proceedings (“Proceedings”) commenced in June 2011 before the Kentucky Public Service Commission (“KPSC”) relating to environmental cost recovery (“ECR”) plans. The original applications sought approval to install environmental upgrades at certain of the Companies’ plants during 2012-2016, including recovery through the ECR rates mechanism of approximate capital costs of \$1.4 billion at LG&E and \$1.1 billion at KU, plus operating expenses.

The Settlement Agreement provides that the parties will favorably recommend to the KPSC for approval, or not oppose, approximately \$2.25 billion of the Companies’ \$2.5 billion in capital projects for which approval was originally requested, constituting approximately \$1.4 billion and \$850 million at LG&E and KU, respectively. Under the Settlement Agreement, the \$250 million in remaining capital costs are deferred and may be the subject of future regulatory proceedings for approval to construct the deferred projects and recover the associated costs through the ECR rate mechanism. The deferred projects relate to certain proposed environmental upgrades at KU’s E.W. Brown plant, for which plant KU retains the right to operate and dispatch in accordance with applicable environmental standards. The Settlement Agreement confirms an existing 10.63% authorized return on equity for projects remaining from earlier ECR plans of the Companies and provides for an authorized return on equity of 10.10% for projects in their 2011 ECR applications.

The Settlement Agreement also contains other provisions whereby the Companies will increase funding levels for certain heating assistance programs for low-income customers.

The settling parties have agreed to recommend, or in some cases to not challenge, the approval by the KPSC of the adjusted ECR applications. The Settlement Agreement remains subject to approval by the KPSC. An order with respect to the Proceedings is anticipated from the KPSC in December 2011.
