Certain information contained in or incorporated by reference into this prospectus includes forward-looking statements (as defined in Section 27A of the Securities Act and Section 21E of the Securities Exchange Act) that reflect Elite's current views with respect to future events and financial performance. Certain factors, such as unanticipated technological difficulties, the outcome of our negotiations to effect a major acquisition, the volatile and competitive environment for drug delivery products, changes in domestic and foreign economic, market and regulatory conditions, the inherent uncertainty of financial estimates and projections, the degree of success, if any, in concluding business partnerships or licenses with viable pharmaceutical companies, instabilities arising from terrorist actions and responses thereto, and other considerations described as "Risk Factors" in this prospectus could cause actual results to differ materially from those in the forward-looking statements. We assume no obligation to update the matters discussed in this prospectus.

PROSPECTUS SUMMARY

THE FOLLOWING SUMMARY HIGHLIGHTS SELECTED INFORMATION FROM, OR INCORPORATED BY REFERENCE INTO, THIS PROSPECTUS AND MAY NOT CONTAIN ALL THE INFORMATION THAT IS IMPORTANT TO YOU. TO UNDERSTAND OUR BUSINESS AND THIS OFFERING FULLY, YOU SHOULD READ THIS ENTIRE PROSPECTUS CAREFULLY, INCLUDING THE CONSOLIDATED FINANCIAL STATEMENTS AND THE RELATED NOTES AND THE DOCUMENTS INCORPORATED BY REFERENCE INTO THIS PROSPECTUS. OUR BUSINESS

Elite engages primarily in researching, developing and licensing proprietary controlled release drug delivery systems and products. We are also equipped to manufacture controlled release products on a contract basis for third parties and for ourselves if, and when, our products are approved. Controlled release drug delivery of a pharmaceutical compound offers a safer and more effective means of administering drugs through releasing a drug into the

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

bloodstream or delivering it to a certain site in the body at predetermined rates or predetermined times. The goal is to provide more effective drug therapy while reducing or eliminating many of the side effects associated with conventional drug therapy and/or to reduce the frequency of administration.

We have concentrated on developing orally administered controlled release products. These products include drugs that cover therapeutic areas for pain, angina, hypertension, allergy and infection. The Food and Drug Administration ("FDA") has not yet approved any of our products and, therefore, currently we do not market any products. Our products are at various stages of development.

We are focusing our efforts on the following areas: (i) obtaining FDA approval for one or more of six oral controlled release pharmaceutical products already in development, either directly or through other companies; (ii) commercial exploitation of these products by license and the collection of royalties and (iii) development of new products and the expansion of our licensing agreements with other pharmaceutical companies, including contract research and development projects, joint ventures and other collaborations.

In an effort to reduce costs and improve focus and efficiency, we have continued to limit the number of products that we are actively developing to six (a reduction from fifteen). The six products that continue in development were deemed by us to be the most suitable for continued development given our limited resources.

We are also focusing on the development of both branded drug products (which require new drug applications ("NDA")) and generic drug products (which require abbreviated new drug applications ("ANDA")).

We intend to continue to collaborate in the development of products with our current partners. We also plan to seek additional collaborations to develop more products.

2

We believe that our business strategy enables us to reduce our risk by:

- o having a product portfolio that includes both branded and generic products in various therapeutic categories; and
- o building collaborations and establishing licensing agreements with companies with greater resources thereby allowing us to share costs of development and to improve cash-flow.

Our common stock is traded on the American Stock Exchange under the symbol "ELI". The market for our stock has historically been characterized generally by low volume and broad price and volume volatility. We cannot give any assurance that a stable trading market will develop for our stock.

Our executive offices are located at 165 Ludlow Avenue, Northvale, New Jersey 07647. Phone No.: (201)750-2646; Facsimile No.: (201) 750-2755.

PROPOSED ACQUISITION

Our Board of Directors authorized in August 2003 the negotiation of an agreement to acquire Nostrum Pharmaceuticals Inc., a privately held corporation engaged in the development of drug delivery products and systems ("Nostrum"), by

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

means of a merger with our wholly-owned subsidiary.

If the merger is effected on the terms as initially proposed, the outstanding shares of Nostrum will be converted into (i) shares of our Common Stock which will represent in the aggregate 75% of the shares of our Common Stock to be outstanding immediately after such merger and (ii) options to purchase a substantial number of additional shares of our Common Stock exercisable upon satisfaction of certain conditions. No assurance can be given that the acquisition will be consummated or if consummated will be effected on materially the same terms. If an agreement is executed, it is to contain several conditions to the consummation of the merger, including approval by our stockholders and that the Company will have immediately prior to effectiveness of the merger liquid assets of at least \$8,000,000. No assurance can be given that the agreement will be executed or if executed that the foregoing terms will not be materially changed adversely to the Company or that it will be approved by the Company's stockholders.

Nostrum is a specialty pharmaceutical company engaged in the formulation and commercialization of controlled-release orally-administered generic drugs utilizing Nostrum's proprietary drug delivery technologies.

RISK FACTORS

In addition to the other information contained in this prospectus, the following risk factors should be considered carefully in evaluating an investment in Elite and in analyzing our forward-looking statements.

OUR CONTINUING LOSSES ENDANGER OUR VIABILITY AS A GOING-CONCERN AND HAVE CAUSED OUR AUDITORS TO ISSUE A "GOING CONCERN" ANNUAL AUDIT REPORT.

We reported net losses of \$6,514,217, \$4,061,422, \$1,774,527 and \$13,964,981 for the fiscal years ended March 31, 2004, 2003, 2002 and 2001, respectively. At March 31, 2004, we had an accumulated deficit of approximately \$35.1 million, consolidated assets of approximately \$7.9 million, stockholders' equity of approximately \$4.0 million, and working capital of approximately \$1.3 million. Our products are in the development and early deployment stage and have not generated any significant revenue to date. Our independent auditors have issued a "going concern" audit reports for our financial statements for the fiscal years ended March 31, 2004 and 2003.

WE HAVE A RELATIVELY LIMITED OPERATING HISTORY, WHICH MAKES IT DIFFICULT TO EVALUATE OUR FUTURE PROSPECTS.

Although we have been in operation since 1990, we have a relatively short operating history and limited financial data upon which you may evaluate our business and prospects. In addition, our business model is likely to continue to evolve as we attempt to expand our product offerings and enter new markets. As a result, our potential for future profitability must be considered in light of the risks, uncertainties, expenses and difficulties frequently encountered by companies that are attempting to move into new markets and continuing to innovate with new and unproven technologies. Some of these risks relate to our potential inability to:

- o develop new products;

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

- o obtain regulatory approval of our products;
- o manage our growth, control expenditures and align costs with revenues;
- o attract, retain and motivate qualified personnel; and
- o respond to competitive developments.

If we do not effectively address the risks we face, our business model may become unworkable and we may not achieve or sustain profitability or successfully develop any products.

WE HAVE NOT BEEN PROFITABLE AND EXPECT FUTURE LOSSES.

4

To date, we have not been profitable, and since our inception in 1990, we have not generated any significant revenues. We may never be profitable or, if we become profitable, we may be unable to sustain profitability. We have sustained losses in each year since our incorporation in 1990. We incurred net losses of \$6,514,217, \$4,061,422, \$1,774,527 and \$13,964,981 for the years ended March 31, 2004, 2003, 2002 and 2001, respectively. We expect to realize significant losses for the current year of operation. We expect to continue to incur losses until we are able to generate sufficient revenues to support our operations and offset operating costs.

OUR FOUNDER AND FORMER PRESIDENT AND CHIEF EXECUTIVE OFFICER RESIGNED IN JUNE 2003 ALL OF HIS POSITIONS WITH ELITE, WHICH MAY HAVE A MATERIAL ADVERSE EFFECT ON US.

On June 3, 2003, Dr. Atul M. Mehta, our founder and former President and Chief Executive Officer resigned from all of his positions with Elite. In the past, we have been reliant on Dr. Mehta's scientific expertise in developing our products. There can be no assurance that we will successfully replace Dr. Mehta's expertise. In addition, the loss of Dr. Mehta's services may adversely affect our relationships with our contract partners.

Under the settlement of a litigation initiated by Dr. Mehta in July 2003 for alleged breach of his employment agreement we paid Dr. Mehta \$400,000 and certain expense reimbursements, and the Company received a short term option for it or its designees to acquire all of the shares of Common Stock owned by Dr. Mehta and his affiliate at \$2.00 per share. As part of the settlement the Company also extended the expiration date of options to purchase 770,000 shares of Common Stock held by Dr. Mehta and he relinquished any rights to the Company's intellectual property and agreed to certain non-disclosure and non-competition covenants. The Company also provided him with certain "piggyback" registration rights with respect to the 770,000 shares issuable upon exercise of the foregoing options granted by the Company including the 100,000 shares which have been registered by the Registration Statement of which this prospectus is a part.

WE HAVE NOT YET SUCCESSFULLY DEVELOPED A PRODUCT FOR COMMERCIAL USE, AND IF WE ARE UNABLE TO DO SO OUR BUSINESS MAY NOT CONTINUE.

We have not yet developed a product to the stage of generating commercial sales. Our research activities are characterized by the inherent risk

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

that the research will not yield results that will receive FDA approval or otherwise be suitable for commercial exploitation. Of the products currently under development and on which we are devoting substantial attention, we have one product in a prelaunch stage, one product in a pilot Phase I study, two products in a bioequivalence stage and two additional products in preclinical testing. Additional studies including either pivotal bioequivalence or efficacy studies will be required before commercialization.

Successful completion of pivotal biostudies is required for us to file an ANDA with the FDA, and successful completion of pivotal clinical trials is required for us to file a NDA with the FDA. ANDAs are filed with respect to generic versions of existing FDA approved products

5

while NDAs are filed with respect to new products. In order for any of our products to be commercialized, FDA approval is required.

IF WE NEED ADDITIONAL FINANCING IN ORDER TO SATISFY OUR SIGNIFICANT CAPITAL REQUIREMENTS AND ARE UNABLE TO OBTAIN ADDITIONAL FINANCING, IT WOULD IMPAIR OUR ABILITY TO CONTINUE TO DO BUSINESS.

We completed a private placement in December, 2003 of shares of our Common Stock yielding gross proceeds of \$3,290,000 before commissions and expenses. (See "Selling Stockholders") We anticipate, based on our currently proposed plans and assumptions relating to our operations, and assuming the successful consummation of at least one of the proposed financings referred to below, that we have sufficient capital to satisfy our contemplated cash requirements through March 31, 2005. In particular, we expect to make substantial expenditures as we further develop and seek to commercialize our products. We also expect that our rate of spending will accelerate as the result of increased costs and expenses associated with seeking regulatory approval and commercialization of products now in development. One of the conditions to consummation of a proposed acquisition (see "Our Business - Proposed Acquisition") as currently proposed is that we have liquid assets of approximately \$8,000,000. We have no current arrangements for financings; however, (i) we are currently negotiating an equipment purchase financing agreement, which we anticipate closing in the reasonably foreseeable future; (ii) we have entered into a non-binding agreement in principle with a broker-dealer to effect a private placement of shares of our Common Stock and (iii) there is the potential exercise of options and warrants that are currently outstanding. We have no way of knowing whether any of the options or warrants will be exercised. We do not currently have commitments for financings, and so do not know whether additional financing would be available to us on favorable terms, or at all. Our inability to obtain additional financing when needed would impair our ability to continue our business and to consummate the proposed acquisition on the terms proposed. If any future financing involves the sale of our securities, our then-existing stockholders' equity could be substantially diluted. On the other hand, if we incurred debt, we would be subject to risks associated with indebtedness, including the risk that interest rates might fluctuate and cash flow would be insufficient to pay principal and interest on such indebtedness. If our plans change, or our assumptions change or prove to be inaccurate, or our cash flow proves to be insufficient to fund our operations due to unanticipated expenses or problems, we would be required to seek additional financing sooner than anticipated.

IF WE ARE UNABLE TO PROTECT OUR INTELLECTUAL PROPERTY RIGHTS AND AVOID CLAIMS

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

THAT WE INFRINGED ON THE INTELLECTUAL PROPERTY RIGHTS OF OTHERS, OUR ABILITY TO CONDUCT BUSINESS MAY BE IMPAIRED.

Our success, competitive position and amount of royalty income will depend in part on our ability to obtain patent protection in various jurisdictions related to our technologies, processes and products. We intend to file patent applications seeking such protection, but we cannot be certain that these applications will result in the issuance of patents. If patents are issued, third parties may sue us to challenge such patent protection, and although we know of no reason why they should prevail, it is possible that they could. It is likewise possible that our patents may not prevent third parties from developing similar or competing products. In addition,

6

although we are not aware of any threatened or pending actions by third parties asserting that we have infringed on their patents, and are not aware of any actions we have taken that would lead to such a claim, it is possible that we might be sued for infringement. The cost involved in bringing suits against others for infringement of our patents, or in defending any suits brought against us, can be substantial. We may not possess sufficient funds to prosecute or defend such suits. If our products were found to infringe upon patents issued to others, we would be prohibited from manufacturing or selling such products and we could be required to pay substantial damages.

In addition, we may be required to obtain licenses to patents, or other proprietary rights of third parties, in connection with the development and use of our products and technologies as they relate to other persons' technologies. At such time as we discover a need to obtain any such license, we will need to establish whether we will be able to obtain such a license on favorable terms. The failure to obtain the necessary licenses or other rights could preclude the sale, manufacture or distribution of our products.

We also rely upon trade secrets and proprietary know-how. We seek to protect this know-how in part by confidentiality agreements. We consistently require our employees and potential business partners to execute confidentiality agreements prior to doing business with us. However, it is possible that an employee would disclose confidential information in violation of his or her agreement, or that our trade secrets would otherwise become known or be independently developed in such a manner that we will have no practical recourse.

We are not engaged in any litigation, nor contemplating any, with regard to a claim that someone has infringed one of our patents, revealed any of our trade secrets, or otherwise misused our confidential information.

See also the risk under the heading "OUR FOUNDER AND FORMER PRESIDENT AND CHIEF EXECUTIVE OFFICER RESIGNED IN JUNE 2003 ALL OF HIS POSITIONS WITH ELITE, WHICH MAY HAVE A MATERIAL ADVERSE EFFECT ON US".

THE PHARMACEUTICAL INDUSTRY IS SUBJECT TO EXTENSIVE FDA REGULATION AND FOREIGN REGULATION, WHICH PRESENTS NUMEROUS RISKS TO US.

The manufacturing and marketing of pharmaceutical products in the United States and abroad are subject to stringent governmental regulation. The sale of any of our products for use in humans in the United States will require the prior approval of the FDA. Similar approvals by comparable agencies are required in most foreign countries. The FDA has established mandatory procedures and safety standards that apply to the clinical testing, manufacture and marketing of pharmaceutical products. Obtaining FDA approval for a new

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

therapeutic product may take several years and involve substantial expenditures. None of our products has been approved for sale or use in humans in the United States or elsewhere.

If we or our licensees fail to obtain or maintain requisite governmental approvals or fail to obtain or maintain approvals of the scope requested, it will delay or preclude us or our

7

licensees or marketing partners from marketing our products. It could also limit the commercial use of our products.

THE PHARMACEUTICAL INDUSTRY IS HIGHLY COMPETITIVE AND SUBJECT TO RAPID AND SIGNIFICANT TECHNOLOGICAL CHANGE, WHICH COULD IMPAIR OUR ABILITY TO IMPLEMENT OUR BUSINESS MODEL.

The pharmaceutical industry is highly competitive, and we may be unable to compete effectively. In addition, it is undergoing rapid and significant technological change, and we expect competition to intensify as technical advances in each field are made and become more widely known. An increasing number of pharmaceutical companies have been or are becoming interested in the development and commercialization of products incorporating advanced or novel drug delivery systems. We expect that competition in the field of drug delivery will increase in the future as other specialized research and development companies begin to concentrate on this aspect of the business. Some of the major pharmaceutical companies have invested and are continuing to invest significant resources in the development of their own drug delivery systems and technologies and some have invested funds in such specialized drug delivery companies. Many of our competitors have longer operating histories and greater financial, research and development, marketing and other resources than we do. Such companies may develop new formulations and products, or may improve existing ones, more efficiently than we can. Our success, if any, will depend in part on our ability to keep pace with the changing technology in the fields in which we operate.

IF OTHER KEY PERSONNEL WERE TO LEAVE ELITE OR IF WE ARE UNSUCCESSFUL IN ATTRACTING QUALIFIED PERSONNEL, OUR ABILITY TO DEVELOP PRODUCTS COULD BE MATERIALLY HARMED.

Our success depends in large part on our ability to attract and retain highly qualified scientific, technical and business personnel experienced in the development, manufacture and marketing of controlled release drug delivery systems and products. Our business and financial results could be materially harmed by the inability to attract or retain qualified personnel.

WE HAVE BEEN DEPENDENT ON CONTRACTS WITH A FEW MAJOR CUSTOMERS FOR SUBSTANTIALLY ALL OF OUR REVENUES, AND IF THOSE CONTRACTS TERMINATE OR EXPIRE, WE WILL BE WITHOUT THE STREAMS OF REVENUE THAT THEY HAVE REPRESENTED, UNLESS WE ARE ABLE TO NEGOTIATE OTHER CONTRACTS WITH OTHER CUSTOMERS THAT GENERATE SIMILAR REVENUES.

Each year we have had some customers that accounted for a large percentage of our sales. If our contracts with these customers terminate or expire, we will lose substantially all of our revenues. As a result of inadequate funds to conduct research and development we were unable to generate material revenues under existing contracts - for the year ended March 31, 2004 we had only \$258,250 of revenue, of which \$108,250 were research and development fees earned in conjunction with our distinct development, license and manufacture agreements. There can be no assurance that at the time that any of

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

our current contracts expire, other contracts will be in place generating material revenue.

8

IF WE WERE SUED ON A PRODUCT LIABILITY CLAIM, AN AWARD COULD EXCEED OUR INSURANCE COVERAGE AND COST US SIGNIFICANTLY.

The design, development and manufacture of our products involve an inherent risk of product liability claims. We have procured product liability insurance having a maximum limit of \$1,000,000; however, a successful claim against us in excess of the policy limits could be very expensive to us, damaging our financial position. Our insurance coverage may be materially below the coverage maintained by many of the other companies engaged in similar activities. To the best of our knowledge, no product liability claim has been made against us as of May 31, 2004.

OUR STOCK PRICE HAS BEEN VOLATILE AND MAY FLUCTUATE IN THE FUTURE.

There has been significant volatility in the market prices for publicly traded shares of pharmaceutical companies, including ours. For the twelve months ended March 31, 2004, the closing sale price on the American Stock Exchange of our Common Stock fluctuated from a high of \$3.80 per share to a low of \$1.34 per share. The per share price of our Common Stock may not remain at or exceed current levels. The market price for our Common Stock, and for the stock of pharmaceutical companies generally, has been highly volatile. The market price of our Common Stock may be affected by:

- o Results of our clinical trials;
- o Approval or disapproval of abbreviated new drug applications or new drug applications;
- o Announcements of innovations, new products or new patents by us or by our competitors;
- o Governmental regulation;
- o Patent or proprietary rights developments;
- o Proxy contests or litigation;
- o News regarding the efficacy of, safety of or demand for drugs or drug technologies;
- o Economic and market conditions, generally and related to the pharmaceutical industry;
- o Healthcare legislation;
- o Changes in third-party reimbursement policies for drugs; and
- o Fluctuations in our operating results.

9

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

IF ADDITIONAL AUTHORIZED SHARES OF OUR COMMON STOCK ARE AVAILABLE FOR ISSUANCE OR SHARES ELIGIBLE FOR FUTURE SALE WERE INTRODUCED INTO THE MARKET, IT COULD HURT OUR STOCK PRICE AND MAKE A CHANGE OF CONTROL MORE DIFFICULT TO ACHIEVE.

As of June 21, 2004, there were 25,000,000 shares of our Common Stock authorized, of which 12,104,423 shares were outstanding. In addition, as of that date there were 5,071,289 shares eligible for issuance upon exercise of currently outstanding options and warrants, although options for 790,000 of those shares of stock had not yet vested. If every warrant and option holder exercised his or her rights, once all the currently unvested options vested, there would be 17,175,712 shares of Common Stock outstanding. The stockholders are being asked at the adjourned Annual Meeting of Stockholders scheduled to be held on July 21, 2004 to approve a proposed amendment to the Company's Certificate of Incorporation to increase the authorized shares of capital stock from 25,000,000 shares of Common Stock to 65,000,000 shares of Common Stock and 5,000,000 shares of Preferred Stock. No assurance can be given that the amendment will be approved.

Currently, more than 9,500,000 outstanding shares are eligible for resale in addition to the 1,530,000 shares which are to be offered by the selling stockholders and the 150,000 shares which are registered for resale upon exercise of outstanding warrants and options. We are unable to estimate the amount, timing or nature of future sales of outstanding Common Stock. Sales of substantial amounts of the Common Stock in the public market by these holders or perceptions that such sales may take place may lower the Common Stock's market price.

If the proposed amendment of the Certificate of Incorporation to increase the authorized capital stock is approved by our shareholders, our Board of Directors will be authorized to issue additional shares on such terms as it may determine.

The additional authorized but unissued shares of the Company's Common Stock or the issuance of one or more series of Preferred Shares that would become available for issuance if the amendment is approved could be used to make a change of control of the Company more difficult and expensive. Under certain circumstances, such shares could be used to create impediments to or frustrate persons seeking to cause a takeover or to gain control of the Company. Such shares could be sold to purchasers who might side with the Board in opposing a takeover bid that the Board determines not to be in the best interests of its stockholders. The amendment might also have the effect of discouraging an attempt by another person or entity, through the acquisition of a substantial number of shares of the Company's Common Stock to acquire control of the Company with a view to consummating a merger, sale of all or part of the Company's assets, or a similar transaction, since the issuance of new shares could be used to dilute the stock ownership of such person or entity.

IF PENNY STOCK REGULATIONS BECOME APPLICABLE TO OUR COMMON STOCK THEY WILL IMPOSE RESTRICTIONS ON THE MARKETABILITY OF OUR COMMON STOCK AND THE ABILITY OF OUR STOCKHOLDERS TO SELL SHARES OF OUR STOCK COULD BE IMPAIRED.

The SEC has adopted regulations that generally define a "penny stock" to be an equity security that has a market price of less than

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

\$5.00 per share or an exercise price of less than \$5.00 per share subject to certain exceptions. Exceptions include equity securities issued by an issuer that has (i) net tangible assets of at least \$2,000,000, if such issuer has been in continuous operation for more than three years, or (ii) net tangible assets of at least \$5,000,000, if such issuer has been in continuous operation for less than three years, or (iii) average revenue of at least \$6,000,000 for the preceding three years. Unless an exception is available, the regulations require that prior to any transaction involving a penny stock, a risk of disclosure schedule must be delivered to the buyer explaining the penny stock market and its risks. Our Common Stock is currently trading at under \$5.00 per share. Although we currently fall under one of the exceptions, if at a later time we fail to meet one of the exceptions, our Common Stock will be considered a penny stock. As such the market liquidity for our Common Stock will be limited to the ability of broker-dealers to sell it in compliance with the above-mentioned disclosure requirements.

You should be aware that, according to the SEC, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include:

- o Control of the market for the security by one or a few broker-dealers;
- o "Boiler room" practices involving high-pressure sales tactics;
- o Manipulation of prices through prearranged matching of purchases and sales;
- o The release of misleading information;
- o Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- o Dumping of securities by broker-dealers after prices have been manipulated to a desired level, which hurts the price of the stock and causes investors to suffer loss.

We are aware of the abuses that have occurred in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, we will strive within the confines of practical limitations to prevent such abuses with respect to our Common Stock.

SECTION 203 OF THE DELAWARE GENERAL CORPORATION LAW MAY DETER A THIRD PARTY FROM ACQUIRING US.

Section 203 of the Delaware General Corporation Law prohibits a merger with a 15% shareholder within three years of the date such shareholder acquired 15%, unless the merger meets one of several exceptions. The exceptions include, for example, approval by the holders of two-thirds of the outstanding shares (not counting the 15% shareholder), or approval by the Board prior to the 15% shareholder acquiring its 15% ownership. This provision makes it difficult for a potential acquirer to force a merger with or takeover of the Company, and could thus limit the price that certain investors might be willing to pay in the future for shares of our Common Stock.

NO REPRESENTATION CAN BE MADE THAT A PROPOSAL TO ACQUIRE NOSTRUM WILL BE APPROVED BY OUR BOARD AND IF SO APPROVED, WILL BE APPROVED BY OUR STOCKHOLDERS, OR THAT IF EFFECTED IT WILL BE CONSUMMATED ON NO LESS FAVORABLE TERMS THAN INITIALLY PROPOSED.

The business of Nostrum is subject to most of the risks set forth above with respect to our business. (Note that a claim of patent infringement was filed against Nostrum in September 2003.) If the proposed transaction is effected, the Company and our stockholders will also be subject to additional risk factors including:

A. We would depend on the efforts of Dr. Nirmal Mulye, Ph.D., its president and holder of approximately 90% of its outstanding shares. A loss or diminution of his services would have a material adverse effect on the operating results and financial condition of the Company.

B. We would have to expand our staff. No assurance can be given that we would be successful in hiring additional key personnel or that the additional staff would prove beneficial.

C. Nostrum's principal operations to date derive from development and distribution agreements with three pharmaceutical companies. In the event of a termination of the agreements by a pharmaceutical company or Nostrum, payments under the related agreement by the pharmaceutical company to Nostrum are recoverable by the pharmaceutical company, primarily as credits or setoffs against royalty obligations,.

D. The proposed acquisition of Nostrum by means of a merger of a wholly owned subsidiary of Elite with Nostrum would, if effected on the terms initially proposed, result in the issuance of three times the number of all shares then outstanding and options to purchase a substantial number of additional shares. In such event the holders of our Common Stock will suffer material dilution in their equity and voting rights and Dr. Mulye will have the power to elect all of our directors, except that it is currently proposed that the agreement will provide for the current management of the Company to designate initially three of the seven directors which are to constitute the Board of Directors;

USE OF PROCEEDS

The Company will not receive any proceeds from the sale of shares by this prospectus.

DESCRIPTION OF CAPITAL STOCK

As of June 21, 2004, there were outstanding 12,104,423 shares of Common Stock and options and warrants to purchase a total of 5,071,289 shares of our Common Stock including the 50,000 shares to be offered upon exercise of warrants held by the Placement Agent and its associates and 100,000 shares to be offered upon exercise of options held by the former Chief Executive Officer of Elite, but exclusive of options to purchase up to 1,500,000 shares which

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

Our stockholders at the adjourned Annual Meeting scheduled to be held on July 21, 2004 are being asked to approved an amendment of our Certificate of Incorporation which would increase our authorized capital stock from 25,000,000 shares of Common Stock to 65,000,000 shares of Common Stock, par value \$.01 per share, and 5,000,000 shares of Preferred Stock, par value \$.01 per share. No representation can be made that the proposed amendment, approval of which will require the affirmative vote of a majority of the outstanding shares, will be approved.

COMMON STOCK

The holders of outstanding shares of Common Stock are entitled to receive dividends out of assets legally available therefore at such times and in such amounts as our Board of Directors may from time to time determine.

Each stockholder is entitled to one vote for each share of Common Stock held on all matters submitted to a vote of stockholders.

The Common Stock is not entitled to preemptive rights and is not subject to conversion or redemption. Upon liquidation, dissolution or winding up of Elite, subject if the proposed amendment is approved to the rights of the holders of any shares of Preferred Stock which may be outstanding, the remaining assets legally available for distribution to stockholders, after payment of claims or creditors, are distributable ratably among the holders of the Common Stock outstanding at that time. Each outstanding share of Common Stock is fully paid and nonassessable.

PREFERRED STOCK

If the proposed amendment to the Company's Certificate of Incorporation is approved, the Company's Board of Directors will have the authority to issue 5,000,00 shares of Preferred Stock in one or more series and to fix the powers, designations, rights, preferences and restrictions thererof, including dividend rights, conversion rights, voting rights, redemption terms, liquidation preferences and the number of shares constituting each such series, without any further vote or action by the Company's stockholders. The Company currently has no plans to issue any shares of Preferred Stock.

ANTI-TAKEOVER PROVISIONS

We are subject to the provisions of Section 203 of the Delaware General Corporation Law. Section 203 of the Delaware Law provides, subject to a number of exceptions, that a Delaware corporation may not engage in any of a broad range of business combinations with a person or an affiliate, or an associate of an affiliate, who is an "interested stockholder" for a period of three years from the date that person became an interested stockholder unless:

13

- o the transaction resulting in a person becoming an interested stockholder, or the business combination, is approved by the board of directors of the corporation before the person becomes an interested stockholder,
- o the interested stockholder acquired 85% or more of the outstanding voting stock of the corporation in the same transaction that makes this person an interested stockholder,

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

excluding shares owned by persons who are both officers and directors of the corporation, and the shares held by certain employee stock ownership plans, or

- o on or after the date the person becomes an interested stockholder, the business combination is approved by the corporation's board of directors and by the holders of at least 66-2/3% of the corporations outstanding voting stock at an annual or special meeting, excluding the shares owned by the interested stockholder.

Under Section 203 of the Delaware Law, an "interested stockholder" is defined as any person who is either the owner of 15% or more of the outstanding voting stock of the corporation or an affiliate or associate of the corporation and who was the owner of 15% or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date on which it is sought to be determined whether such person is an interested stockholder.

A corporation may, at its option, exclude itself from coverage of Section 203 of the Delaware Law by amending its certificate of incorporation or by-laws, by action of its stockholders, to exempt itself from coverage, provided that the amendment to the certificate of incorporation or by-laws does not become effective until 12 months after the date it is adopted.

("Edson Moore"), of which he is president and principal stockholder. The 914,218 shares of Common Stock are comprised of: (i) 764,218 shares of Common Stock issued to Edson Moore upon the exchange of 12,915 shares of Series A Preferred Stock, per value \$1.00 per share, of Elite Laboratories, Inc., (ii) a warrant to purchase 100,000 shares of Common Stock (exercisable through October 17, 2005) at an exercise price of \$18.00 per share and (iii) 50,000 shares acquired in a recent private placement.

(9) Includes options and warrants to purchase an aggregate of 730,000 shares.

Except as otherwise set forth, information on the stock ownership of each person was provided to the Company by such person.

Other than the Stock Option Plan, the Company does not have any compensation plans or arrangements benefiting employees or non-employees under which equity securities of the Company are authorized for issuance in exchange for consideration in the form of goods or services.

The Company is informed and believes that as of April 20, 2004, Cede & Co. held 7,069,228 shares of the Company's Common Stock as nominee for Depository Trust Company, 55 Water Street, New York, New York 10004. It is our understanding that both Cede & Co. and Depository Trust Company disclaim any beneficial ownership therein and claim that such shares are held for the account of numerous other persons, no one of whom is believed to beneficially own five

percent or more of the Common Stock of the Company.

SELLING STOCKHOLDERS

1,530,000 shares of Common Stock offered by the selling stockholders were acquired by them at a price of \$2.00 per share in a private placement by the Company completed in December, 2003, including 70,000 shares acquired by certain of our officers and directors or their affiliates. An additional 50,000 shares of Common Stock may be offered by Montauk Financial Group, Inc., the Placement Agent in the private placement and its associates upon exercise of warrants at \$2.00 per share issued to them along with a cash commission to the Placement Agent of \$72,500 as consideration for the Agent's services. The expiration date of the warrants is December 2, 2008.

The following table details the name of each selling stockholder, the Placement Agent and each associate (collectively, the "selling stockholders"), the number of shares of our Common Stock beneficially owned by each selling stockholder and the number of shares of our Common Stock that may be offered for resale under this prospectus. To the extent permitted by law, the selling stockholders which are not natural persons may distribute shares from time to time, to one or more of their respective affiliates, which may sell shares pursuant to this prospectus. We have registered the shares to permit the selling stockholders and their respective permitted transferees or other successors in interest that receive their shares from selling stockholders after the date of this prospectus to resell the shares. Because each selling stockholder may offer all, some or none of the shares it holds, and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the shares, no definitive estimate as to the number of shares that will be held by each selling stockholder after the offering can be provided. The selling stockholders may from time to time offer all or some of the shares pursuant to this offering. Pursuant to Rule 416 under the Securities Act of 1933, the Registration Statement of which this prospectus is a part also covers any additional shares of our Common Stock which become issuable in connection with such shares because of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of outstanding shares of our Common Stock. The following table has been prepared on the assumption that all shares offered under this prospectus will be sold to parties unaffiliated with the selling stockholders. Except as indicated by footnote, none of the selling stockholders has had a significant relationship with us within the past three years, other than as a result of the ownership of our shares or other securities. Except as indicated by footnote, the selling stockholders have sole voting and investment power with their respective shares. Percentages in the table below are based on 12,104,423 shares of our Common Stock outstanding as of April 30, 2004 and assumes that none of the outstanding warrants or options (including the options held by Dr. Atul Mehta) will have been exercised after the offering.

An agreement between Dr. Atul Mehta, our former Chairman of the Board and Chief Executive Officer, settling a litigation instituted against Elite alleging a breach of his employment agreement provided, among other things, for the extension to June 13, 2005 of the expiration dates of options to purchase 770,000 shares with exercise prices ranging from \$1.00 to \$10.00 per share, of which options to purchase 70,000 shares had expired, and the grant of piggyback registration rights to Dr. Mehta at our expense with respect to the shares issuable upon exercise of the options. Pursuant to Dr. Mehta's request his offering of 100,000 shares issuable upon exercise of options at a price of \$1.00 per share is covered by this prospectus.

See "Security Ownership of Our Directors, Executive Officers and Principal Stockholders" for Dr. Mehta's address and his beneficial holdings of shares of our Common Stock as of April 30, 2004. Assuming the sale by Dr. Mehta of all 100,000 shares subject to the options, the beneficial ownership of Dr. Mehta based on his holdings as of April 30, 2004 would

be reduced to 2,154,700 shares, or 16.7% of the shares to be outstanding assuming no other exercise of outstanding options or warrants.

PLAN OF DISTRIBUTION

Offer and Sale of Shares

A selling stockholder, including in such definition in this section, Dr. Mehta and the Placement Agent and its associates, or a pledgee, donee, transferee or other successor-in-interest who receives shares offered by the prospectus from a selling stockholder as a gift, pledge, partnership distribution or other non-sale related transfer, may offer and sell their shares in the following manner:

- o on the American Stock Exchange ("Amex") or otherwise at prices and at terms then prevailing or at prices related to the then current market price;
- o at fixed prices, which may be changed; or
- o in privately-negotiated transactions.

A selling stockholder or a pledgee, donee, transferee or other successor-in-interest who receives shares offered by this prospectus from a selling stockholder, may sell the shares in one or more of the following types of transactions:

- o a block trade in which a broker-dealer engaged to sell shares may sell all of such shares in one or more blocks as agent;
- o a broker-dealer may purchase as principal and resell shares for its own account pursuant to this prospectus;
- o an exchange distribution in accordance with the rules of the Amex or a quotation system;
- o upon the exercise of options written relating to the shares;
- o ordinary brokerage transactions or transactions in which the broker solicits purchasers;
- o a privately-negotiated transaction; and
- o any combination of the foregoing or any other available means allowable under law.

From time to time, a selling stockholder may transfer, pledge, donate or assign its shares to lenders or others and each of those persons will be deemed to be a "selling stockholder" for purposes of this prospectus. The number of shares beneficially owned by a selling stockholder may decrease as, when and if he takes such actions. The plan of distribution for the selling stockholder's shares sold under this prospectus will otherwise remain unchanged, except that the

transferees, pledgees, donees or other successors will be a selling stockholder under this prospectus.

A selling stockholder may enter into hedging, derivative or short sale transactions with broker-dealers in connection with sales or distributions of

Edgar Filing: ELITE PHARMACEUTICALS INC /DE/ - Form S-3/A

the shares being offered by this prospectus or otherwise. In these transactions, broker-dealers may engage in short sales of the shares in the course of hedging the positions they assume with the selling stockholder. A selling stockholder also may sell shares short and redeliver the shares to close out short positions and engage in derivative or hedging transactions. A selling stockholder may enter into option or other transactions with broker-dealers which require the delivery to the broker-dealer of the shares. The broker-dealer may then resell or otherwise transfer the shares under this prospectus. A selling stockholder also may loan or pledge the shares to a broker-dealer. The broker-dealer may sell the loaned shares or upon a default the broker-dealer may sell the pledged shares under this prospectus.

Selling through Broker-Dealers

A selling stockholder may select broker-dealers to sell its shares. Broker-dealers so engaged may arrange for other broker-dealers, commissions or discounts or concessions in amounts to be negotiated immediately before any sale. In connection with such sales, these broker-dealers, any other participating broker-dealers, and a selling stockholder and certain pledgees, donees, transferees and other successors-in-interest, may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act of 1933, as amended (the "Securities Act") in connection with the sale of the shares. Accordingly, any such commission, discount or concession received by them and any profit on the resale of the shares purchased by them may be deemed to be underwriting discounts or commissions under the Securities Act. Because a selling stockholder may be deemed to be an "underwriter" within the meaning of Section 2(11) of the Securities Act, the selling stockholder will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. There is no underwriter or coordinating broker acting in connection with the proposed sales of the shares covered by this prospectus.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Pursuant to authority conferred by Section 102 of the Delaware General Corporation Law (the "DGCL"), Elite's Certificate of Incorporation, as amended, contains a provision providing that the personal liability of a director is eliminated to the fullest extent provided by the DGCL. The effect of this provision is that no director of Elite is personally liable to Elite or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for (i) any breach of the director's duty of loyalty to Elite or its stockholders, (ii) acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) unlawful payment of dividends as provided in Section 174 of the DGCL and (iv) any transaction from which the director derived an improper personal benefit. This provision is intended to eliminate the risk that a director might incur personal liability to Elite or its stockholders for breach of duty of care. The Certificate of Incorporation, as amended, also provides that if the Delaware Law is amended to eliminate or limit further the liability of directors, then the liability of a director of Elite shall be eliminated or limited, without further stockholder action.

Section 145 of the DGCL contains provisions permitting and, in some situations, requiring Delaware corporations, such as Elite, to provide indemnification to their officers and directors for losses and litigation expenses incurred in connection with their service to the

II-1

corporation in those capacities. The by-laws of Elite contain such a provision requiring that we indemnify our directors and officers to the fullest extent permitted by law, as the law may be amended from time to time.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions or otherwise, it has been advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.
