PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

The accompanying proxy is being solicited by the Board of Directors of Invitrogen Corporation and contains information related to the annual meeting of stockholders to be held April 23, 2003, at 9:00 a.m. local time, or any adjournment or postponement thereof, for the purposes described in the accompanying Notice of Annual Meeting. The annual meeting will be held at Invitrogen's offices at 5781 Van Allen Way, Carlsbad, California 92008. This Proxy Statement was filed with the SEC on March 17, 2003, and the approximate date on which the Proxy Statement and the accompanying form of proxy were first sent or given to stockholders was March 24, 2003.

Invitrogen will bear the cost of soliciting proxies. We may solicit stockholder proxies by mail through our regular employees, and may request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have Invitrogen stock registered in their names and will reimburse them for their reasonable, out-of-pocket costs. We may use the services of our officers, directors, and others to solicit proxies, personally or by telephone, without additional compensation.

ABOUT THE MEETING

What is the purpose of the annual meeting?

At our annual meeting, stockholders will act upon the matters outlined in the Notice of Meeting that is attached to this proxy statement. These matters include the election of directors and ratification of the appointment of Ernst & Young, LLP as our independent public accountants. In addition, management will report on Invitrogen's performance during 2002 and will respond to questions from our stockholders. An annual report for the fiscal year ended December 31, 2002, is enclosed with this Proxy Statement.

Who is entitled to vote at the meeting?

Only stockholders of record as of the close of business on the record date, February 28, 2003, will be entitled to vote the shares of Invitrogen stock they held on the record date at the annual meeting. As of the close of business on the record date, there were 50,011,202 shares of Invitrogen common stock outstanding and entitled to vote.

Stockholders may vote in person or by proxy. Each holder of shares of Invitrogen common stock is entitled to one vote for each share of stock held on the proposals presented in

Table of Contents

this Proxy Statement. Invitrogen's bylaws provide that a majority of all of the outstanding shares of stock entitled to vote, whether present in person or represented by proxy, constitutes a quorum for the transaction of business at the annual meeting.

How do I vote?

Voting by completing the proxy card. If you properly complete and sign the enclosed proxy card and return it as instructed on the proxy card, it will be voted as you direct. If you hold your shares in your name and you attend the meeting, you may deliver your completed proxy card in person. If you hold your shares in street name through a brokerage or other nominee, you will need to obtain a proxy card from the institution that holds your shares.

All shares represented by a proxy will be voted, and where a stockholder specifies a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specification so made. If you do not indicate a choice on the proxy card, the shares will be voted in favor of the election of the nominees for director contained in this proxy statement, in favor of ratifying Ernst & Young LLP as independent public accountants for the Company for 2003, and in the discretion of the proxy holders on any other matter that comes before the meeting.

Once you have given your proxy, you may revoke it at any time prior to the time it is voted, by delivering to the Secretary of Invitrogen at Invitrogen's principal offices either a written document revoking the proxy or a duly executed proxy with a later date, or it may be revoked by attending the meeting and voting in person. Merely attending the annual meeting will not, by itself, revoke a proxy.

Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum. Broker non-votes are shares held by brokers or nominees who are present in person or represented by proxy, but which are not voted on a particular matter because instructions have not been received from the beneficial owner. The effect of broker non-votes and abstentions on the specific items to be brought before the Annual Meeting is discussed under each item.

Voting via the Internet or by telephone. If you vote via the Internet, you should be aware that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, for which you will be responsible.

Shares Registered Directly in the Name of the Stockholder. If you hold shares that are registered in your name directly with EquiServe LP, the Company's transfer agent, you may vote telephonically by calling (877) 779-8683. Alternatively, you may vote via the Internet by visiting the following site on the Internet: www.eproxyvote.com/ivgn and following the instructions on your screen.

Shares Registered in the Name of a Brokerage Firm or Bank. A number of brokerage firms and banks are participating in a program provided through ADP Investor Communication Services that offers telephone and Internet voting options. This program is different from the program provided by EquiServe LP for shares registered in the name of the stockholder. If your shares are held in an account at a brokerage firm or bank participating in the ADP program, you may vote those shares telephonically by calling the telephone number referenced on your voting form. Alternatively, you may vote via the Internet by visiting the following site on the Internet: www.proxyvote.com and following the instructions on your screen.

INFORMATION REGARDING CHANGE OF INDEPENDENT AUDITORS

On April 5, 2002, the Board of Directors of the Company, upon the recommendation of its Audit Committee, dismissed Arthur Andersen LLP (Arthur Andersen) as the Company's independent public accountants and engaged Ernst & Young LLP to serve as the Company's independent public accountants for the fiscal year ending December 31, 2002.

Arthur Andersen's reports on the Company's consolidated financial statements for each of the years ended December 31, 2001 and 2000 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. In connection with its audits for the Company's fiscal years ended December 31, 2001 and 2000, and through April 5, 2002, there were no disagreements between the Company and

Arthur Andersen on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure which, if not resolved to Arthur Andersen's satisfaction, would have caused Arthur Andersen to make reference to the subject matter in connection with Arthur Andersen's report on the Company's consolidated financial statements for such years and interim period; and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K. The Company provided Arthur Andersen with a copy of the foregoing disclosures. Attached as Exhibit 16.1 to the Company's Current Report on Form 8-K filed with the SEC on April 9, 2002 is a copy of Arthur Andersen's letter, dated April 8, 2002, stating its agreement with such statements.

During the fiscal years ended December 31, 2001 and 2000, and through April 5, 2002, the Company did not consult Ernst & Young with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events listed in Items 304(a)(2)(i) and (ii) of Regulation S-K.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Executive Employment and Severance Agreement

The Company entered into an Executive Employment and Severance Agreement effective December 5, 2002, with its current Chief Executive Officer, President and Chief Operating Officer, James R. Glynn. Under the terms of this agreement, upon termination of employment he could receive a consulting fee totaling two times his annual salary plus two times an imputed bonus of 35% of his annual salary, and continuing health and welfare benefits for two years. The executive would be eligible for this fee and these benefits upon his separation from the Company under specified circumstances other than termination for cause. The compensation is contingent upon several conditions, including the executive's remaining available for consulting for two years and executing a general release. The consulting fee would be payable over the two year consulting period. In addition, the Company agreed to accelerate the vesting (to the extent not

already vested) of 212,221 stock options, which became effective January 29, 2003, and to extend the post-employment exercise period for such options. The Executive Employment and Severance Agreement was filed as Exhibit 10.51 to the Company's Annual Report on Form 10-K for 2002, filed with the SEC on March 7, 2003.

Separation Agreement and Contractor Agreement

In December 2002, the Company entered into a Confidential Separation Agreement and General Release of All Claims and an Independent Contractor Services Agreement with its former Chairman, President, and Chief Executive Officer, Lyle C. Turner. Pursuant to these agreements, the Company paid \$1.0 million in December 2002, and \$1.43 million is payable in four equal quarterly installments during 2003, assuming that all obligations under the agreements are satisfied. The Company also agreed to continue group health benefits for 18 months after December 31, 2002, and accelerated the vesting of 200,000 stock options and extended the post-employment exercise period for such options. The Confidential Separation Agreement and General Release of All Claims was filed as Exhibit 10.52, and the Independent Contractor Services Agreement was filed as Exhibit 10.53, to the Company's Annual Report on Form 10-K for 2002, filed with the SEC on March 7, 2003.

Change in Control Agreements

When the Company acquired Life Technologies in September of 2000, C. Eric Winzer, Daryl J. Faulkner and John A. Cottingham, as members of Life Technologies management, were covered by change-in-control agreements. These agreements provided for cash payments and other benefits upon a change in control of Life Technologies and other conditions. These former Life Technologies employees are now executive officers of the Company. These individuals were entitled to benefits under the change-in-control agreements, which were collectible upon separation from the Company. Wishing to retain these individuals and remove a substantial incentive to separate from the Company, the Company offered to exchange the rights under these change-in-control agreements for pay to stay contracts with four individuals in the second quarter of 2002. These three individuals and one other employee who was a member of Life Technologies management, but is not an executive officer of the Company, have relinquished their rights under the change-in-control agreements in exchange for payments totaling \$1.8 million, in the aggregate, of which \$0.9 million was paid in October, 2002, and \$0.9 million that will be paid in October, 2004, contingent upon continuing employment and other conditions.

Indemnification Agreements

Invitrogen has entered into indemnification agreements with each of its executive officers and directors containing provisions that may require the Company, among other things, to indemnify those officers and directors against liabilities that may arise by reasons of their status or service as officers or directors. The agreements also provide for the Company to advance to the officers and directors expenses that they expect to incur as a result of any proceeding against them as to which they could be indemnified. Invitrogen also intends to execute such agreements with its future directors and executive officers.

Employee Relocation Loans

Prior to July 30, 2002, as part of the restructuring of the Company's operations in Maryland, the Company provided housing loans during 2002 and 2001 to certain employees, including two of its executive officers, C. Eric Winzer and John A. Cottingham, respectively, upon their relocation from Maryland to Carlsbad. The loans of \$150,000 each, are interest free, and the principal amount of the loans will be forgiven in equal one-third increments after the third, fourth, and fifth year of the loans if the executive officer's employment has not been

Table of Contents

terminated at such times. The loans will also be forgiven if the Company terminates the executive officer's employment without Cause (as defined in the related agreements) on or before the fifth anniversary of the loan or upon the death or permanent disability of the executive officer. The loans are secured by the underlying real property purchased by the executive officer. The Company is also providing moving expenses, closing costs, and other relocation costs relating to these transfers.

Settlement Agreement

The Company entered into a Settlement Agreement effective September 9, 2002, with its Senior Vice President, International Operations, Daryl J. Faulkner. Under the terms of this agreement, the Company agreed to pay Mr. Faulkner an aggregate of approximately \$157,000 in settlement payments in exchange for a mutual release between Mr. Faulkner and the Company releasing each other from all claims arising out of the Company's decision not to provide Mr. Faulkner with a relocation loan that was offered to Mr. Faulkner as part of his employment terms. The settlement payments consist of an initial payment of \$6,917.72, monthly payments of \$740.13 for a period of 56 months beginning on September 30, 2002 and three lump sum payments for an aggregate of \$108,663.09. If Mr. Faulkner's employment with the Company is terminated for cause, the Company has no further obligation to pay any remaining settlement payments. If Mr. Faulkner's employment with the Company is terminated for reasons other than cause, the Company will have to pay some, and in certain instances, all, of the remaining settlement payments.

Each of our executive officers is a party to an agreement that provides certain benefits upon a qualifying termination of employment after a change of control of Invitrogen. Each executive officer would be provided with certain benefits under his or her change-in-control agreement if, within twenty-four months after a change in control, the executive officer's employment were involuntary terminated (for reasons other than disability or cause) or if the executive officer terminates his or her employment for good reason. For additional information regarding contracts with our Executive Officers, see the section titled "Certain Relationships and Related Party Transactions", beginning on page 13 of this Proxy Statement.

Table of Contents

Chairmen of the Audit Committee and Compensation and Organization Committees each receive annual cash compensation of \$75,000. Employee directors do not receive any compensation for their participation on the Board of Directors, and no employee director is a member of the Audit Committee or the Compensation and Organization Committee.

During the year 2002 each non-employee director received annual cash compensation of \$20,000 and the Chairmen of the Audit Committee and the Compensation and Organization Committee received an additional retainer of \$4,000. Since November 19, 1998, directors who are not employees of Invitrogen receive annual grants of options to purchase 10,000 shares of common stock in accordance with the 1997 Stock Option Plan. Employee directors did not receive any compensation for their participation on the Board of Directors, and no employee director was a member of the Audit Committee or the Compensation and Organization Committee.

COMPENSATION AND ORGANIZATION COMMITTEE REPORT TO STOCKHOLDERS

What are the Compensation and Organization Committee's responsibilities?

In fiscal 2002, the Compensation and Organization Committee (referred to below as the Committee) was responsible for setting and administering our overall compensation policies and the annual compensation of the CEO and other executive officers. Invitrogen's executive compensation is designed to be closely linked to long-term corporate performance and returns to stockholders. To this end, we have developed an overall compensation strategy and specific compensation plans that tie a significant portion of executive compensation to Invitrogen's success in meeting specified performance goals and to appreciation in our stock price over time. The overall objectives of this strategy are to attract and retain executive talent of the highest quality, to motivate these executives to achieve the goals inherent in our strategy, to link executive and stockholder interests through equity-based compensation and to provide a compensation package that recognizes individual contributions as well as overall business results.

The Committee reviews and determines the compensation of the officers of the Company who are subject to the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934, including the individuals named in the Summary Compensation Table, and reviews the compensation policies and pay practices employed with respect to all of Invitrogen's other executive-level employees. This practice is designed to ensure consistency throughout the executive compensation program. The key elements of our executive compensation program consist of base salary, cash bonuses and stock options. The Committee's policies with respect to each of these elements, including the bases for the compensation awarded to Mr. Turner in 2002 and Mr. Glynn in 2003, are discussed below.

Table of Contents

How are Invitrogen's executive officers compensated?

Salary. Invitrogen strives to offer salaries to its executive officers that are competitive in its industry and in its geographic regions for similar positions requiring similar qualifications. In determining executive officers' salaries, the Committee considers salary surveys of companies in similar industries, and of similar size and geographic location. Companies selected for salary comparisons are not necessarily the same companies used to compare stock performance in the chart under the heading "Comparison of Stockholder Return." In addition to competitive industry salaries, the Committee also takes into account the subjective assessment of the nature of the position, the contribution and experience of the officer, and the length of the officer's service.

The Committee evaluates the performance and sets the salary of our executive officers on an annual basis. In 2002, the executive officers were Chief Executive Officer, Lyle C. Turner, Executive Vice President (through December 4, 2002) and President and Chief Operating Officer (after December 4, 2002), James R. Glynn, Chief Financial Officer, C. Eric Winzer, Vice President, Corporate Development, John D. Thompson, Senior Vice President, International Operations, Daryl J. Faulkner, Vice President, General Counsel and Secretary, John A. Cottingham, President, Cell Culture, Victor N. Nole, Jr., Vice President, Human Resources, L. James Runchey and Vice President, Manufacturing, Ann M. McCormick. Performance evaluations for individual executive officers are based on individual goals and accomplishments. The goals of executive officers are based on their individual management responsibilities. In addition to reviewing the results of the performance of the individuals and information concerning competitive salaries, the Committee considers Invitrogen's financial condition and performance in evaluating salary adjustments. The salaries are evaluated by the Committee, with each member using his personal judgment and subjective factors to assess performance.

Bonuses. Invitrogen seeks to provide additional incentives and rewards to executive officers who make contributions of outstanding value. For this reason, we may award incentive compensation which can comprise a substantial portion of the total compensation of executive officers when earned and paid. Cash bonuses are based on an evaluation of personal performance and existing salary as well as a formula-based evaluation of company performance.

Stock Options. The Committee believes that equity ownership provides significant additional incentive to executive officers to maximize value for Invitrogen's stockholders, and therefore makes periodic grants of stock options under the Invitrogen Corporation 1997 Stock Option Plan to those officers (as well as other employees). Such options are granted at the prevailing market price, and will only have value if our stock price increases over the exercise price. Therefore, the Committee believes that stock options serve to align the interest of executive officers closely with other stockholders because of the direct benefit executive officers receive through improved stock performance.

In fiscal year 2002, the Committee made determinations concerning the size and frequency of option grants for executive officers, after consideration of recommendations from the Chief Executive Officer. Option grants were based upon relative position and responsibilities of each executive officer, historical and expected contributions of each officer, and previous option grants to such executive officers. Options were granted with a goal to provide competitive equity compensation for executive officers compared to executive officers of similar rank in companies of our industry, geographic locations, and size. Generally, these option grants vest over four years. Option grants to executive officers for fiscal year 2002 are set forth in the table entitled

Table of Contents

Option Grants in Last Fiscal Year in the section entitled Executive Compensation and Other Matters.

How is Invitrogen addressing the deductibility of executive compensation?

Section 162(m) of the Internal Revenue Code of 1986 and the related regulations of the Internal Revenue Service limit the amount of compensation a corporation may deduct as a business expense paid to any of its Chief Executive Officer and its four other most highly compensated officers to \$1,000,000 each in any year, except to the extent that such compensation qualifies as performance based compensation. Although the Committee considers the net cost to Invitrogen in making all compensation decisions (including, for this purpose, the potential limitation on deductibility of executive compensation), there is no assurance that compensation realized with respect to any particular award will qualify as performance based compensation or will otherwise be tax deductible by Invitrogen. The Committee's policy is to qualify its executive compensation for deductibility under applicable tax laws as practicable.

Conclusion

The Committee believes that linking executive compensation to individual and company performance results in better alignment of compensation with corporate business goals and stockholder value. As performance goals are met or exceeded, resulting in increased value to stockholders, executives are rewarded commensurately. The Committee believes that compensation paid to its executives during 2002, including the Chief Executive Officer, reflects Invitrogen's compensation goals and policy.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers, directors and persons who beneficially own more than 10% of Invitrogen common stock to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission (SEC). SEC regulations require these individuals to give us copies of all Section 16(a) forms they file.

Based solely on our review of forms that were furnished to us and written representations from reporting persons, we believe that the executive officers, directors and more than 10% stockholders complied with all filing requirements related to Section 16(a), except for the following:

On December 5, 2002, the Board of Directors granted James R. Glynn options to purchase 50,000 shares of the Company's Common Stock in connection with his accepting the position of President and Chief Operating Officer of the Company. The Form 4 for these options was filed on December 16, 2002, eleven days after the option grant, but outside the new two-day reporting requirement enacted under the Sarbanes-Oxley Act of 2002.

The NASDAQ Pharmaceutical Stocks Index, a published industry index, encompasses companies operating under the same 3-digit Standard Industry Code (SIC) as that of Invitrogen. The comparison assumes that on February 26, 1999 (the first day of public trading for our common stock) \$100 was invested in Invitrogen common stock and in each of the indices and assumes the reinvestment of dividends, where applicable.

AUDIT COMMITTEE CHARTER

General Statements of Policy

The Audit Committee (Committee) of the Board of Directors (Board) reports directly to the Board and assists it in fulfilling its oversight responsibilities to stockholders, potential stockholders, the investment community, and others related to (i) the integrity of the Company's financial statements; the financial reporting process; the systems of internal accounting and financial controls, (ii) the performance of the Company's internal audit function and independent auditors; (iii) the independent auditor's qualifications and independence; and (iv) the Company's compliance with ethics policies and legal and regulatory requirements. In so doing, it is the responsibility of the Committee to maintain free and open communication between the Committee, independent auditors, the internal auditors, and management of the Company.

In discharging its oversight role, the Committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and authority to engage independent counsel and other advisors as it determines necessary to carry out its duties.

Membership

Number of Members/ Independence. The Committee shall consist of three or more Board members who are independent of management and the Company and are free of any relationship that, in the opinion of the Board of Directors, would interfere with their exercise of independent judgment as a Committee member.

Financial Literacy. All members of the Committee shall be financially literate, and at least one member of the Committee shall be a financial expert, as defined by SEC regulations. Committee members may enhance their familiarity with finance and accounting by participating in educational programs conducted by the Company or an outside consultant. Members of the Committee shall be appointed and removed at the discretion of the Board.

Meetings

Timing of Meetings/ Procedures. The Committee's regular meetings shall coincide with the regular quarterly meetings of the Board. The business of the Committee shall be conducted at its regular meetings, at special meetings or by unanimous written consent.

Table of Contents

Special meetings may be called by any Committee member or by the Chairman of the Board. Adequate notice of the place, date, and time of each special meeting of the Committee shall be given in accordance with such policies and procedures adopted by the Committee from time to time.

Meetings with Management and Auditors. The Committee shall meet separately periodically with management, the internal auditors, and the independent auditors to discuss issues and concerns warranting Committee attention. The Committee shall provide sufficient opportunity for the internal auditors and the independent auditors to meet privately with the members of the Committee. The Committee shall review with the independent auditor any audit problems or difficulties and management's response.

Records and Reports

The Committee, with the assistance of the Corporate Secretary, shall maintain a record of the Committee's actions. The Committee shall report to the Board of Directors on any matter that the Committee deems necessary or desirable for the Board to carry out its duties.

Duties and Responsibilities

While the Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements and for the appropriateness of the accounting principles and reporting policies that are used by the Company. The independent auditors are responsible for auditing the Company's financial statements and for reviewing the Company's unaudited interim financial statements.

The Committee, in carrying out its responsibilities, believes its policies and procedures should remain flexible, so that it can most effectively react to changing conditions and circumstances. The Committee should take appropriate actions to set the overall corporate tone for high quality financial reporting, sound business risk practices, and ethical behavior.

The following shall be the principal duties and responsibilities of the Committee. These are set forth as a guide with the understanding that the Committee may supplement them as appropriate.

Annual Audit

1. **Oversight of Independent Auditors.** The Committee shall be directly responsible for the appointment and termination (subject, if applicable, to shareholder ratification), compensation, and oversight of the work of the independent auditors,
