Timberland Bancorp, Inc. Announces Record Earnings

- * Net Income Increases by 34%
- * Diluted Earnings Per Share Increases by 38%
- * Return on Equity Increases by 31%

HOQUIAM, Wash. - January 23, 2006 - Timberland Bancorp, Inc. (Nasdaq: TSBK), ("Company") the holding company for Timberland Bank, ("Bank"), today reported record net income of \$2.01 million, or \$0.55 per diluted share, for the quarter ended December 31, 2005. This compares to net income of \$1.49 million, or \$0.40 per diluted share that the Company earned for the quarter ended December 31, 2004. The increased earnings per share was primarily a

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

result of increased net interest income and decreased non-interest expenses.

"We are pleased with the operating results achieved during our first fiscal quarter," stated Timberland's President and CEO, Michael Sand. "While the current interest rate environment introduces challenges to margin management, the Company's expanded interest margin contributed to increased profitability for the quarter. The Company recorded increases in net income and return on equity of 34% and 31% respectively, while diluted earnings per share increased by 38% as compared to the like quarter in the prior fiscal year. Loan originations increased by 7% to nearly \$66 million for the quarter ended December 31, 2005 from \$61 million for the quarter ended December 31, 2004. Assets decreased slightly as the determination was made to liquidate lower yielding assets to reduce higher cost advances from the Federal Home Loan Bank of Seattle," Sand also stated.

The Company also announced that it has declared a quarterly cash dividend of \$0.16 per share of common stock for shareholders of record as of the close of business on February 9, 2006, payable on February 23, 2006. This will be the 32nd consecutive quarter that Timberland has paid a cash dividend.

Disclaimer

This report contains certain "forward-looking statements." The Company desires to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protection of such safe harbor with forward looking statements. These forward-looking statements may describe future plans or strategies and include the Company's expectations of future financial results. Forward-looking statements are subject to a number of risks and uncertainties that might cause actual results to differ materially from stated objectives. These risk factors include but are not limited to the effect of interest rate changes, competition in the financial services market for both deposits and loans as well as regional and general economic conditions. The words "believe," "expect," "anticipate," "estimate," "project," and similar expressions identify forward-looking statements. The Company's ability to predict results or the effect of future plans or strategies is inherently uncertain and undue reliance should not be placed on such statements

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

Comparison of Financial Condition at December 31, 2005 and September 30, 2005

Total Assets: Total assets decreased \$5.02 million to \$547.75 million at December 31, 2005 from \$552.77 million at September 30, 2005 primarily due to a \$6.18 million decrease in cash and due from financial institutions and a \$1.80 million decrease in investments and mortgage backed securities. Approximately \$5.55 million in net cash was used to repay higher cost advances from the Federal Home Loan Bank of Seattle. These decreases were partially offset by a \$3.44 million increase in net loans receivable.

Investments: Investment securities decreased by \$1.80 million to \$93.61 million at December 31, 2005 from \$95.40 million at September 30, 2005, due to regular amortization and prepayments on mortgage-backed securities.

Loans: Net loans receivable increased by \$3.44 million to \$391.54 million at December 31, 2005 from \$388.11 million at September 30, 2005. The increase in the portfolio was primarily a result of a \$3.37 million increase in commercial real estate loans, a \$2.46 million increase in construction loans (net of undisbursed portion), a \$1.94 million increase in land loans, a \$1.24 million increase in consumer loans, and a \$739,000 increase in multi-family loans. Partially offsetting these increases were decreases of \$4.22 million in one-to-four family mortgage loans, and \$2.16 million in commercial business loans.

Loan demand remained strong during the current quarter as loan originations totaled \$65.78 million compared to \$61.44 million for the same period a year earlier. Loan portfolio growth during the quarter was, however, impacted by the repayment of \$5.80 million in loans secured by a particularly successful ocean front condominium project and the sale of fixed rate one-to-four family mortgages. The Bank sold fixed rate one-to-four family mortgage loans totaling \$7.53 million during the quarter ended December 31, 2005 compared to \$3.32 million for the same period one year earlier. A portion of the loans originated during the quarter were construction loans. Undisbursed construction loan balances increased by \$13.28 million to \$56.05 million at December 31, 2005.

Deposits: Deposits decreased by \$989,000 to \$410.68 million at December 31, 2005 from \$411.67 million at September 30, 2005. The deposit decrease is comprised of a \$2.99 million decrease in money market accounts, a \$1.74 million decrease in N.O.W. checking accounts, a \$1.72 million decrease in non-interest bearing accounts, and a \$1.38 million decrease in savings accounts. These decreases were offset by a \$6.83 million increase in certificates of deposit accounts.

Shareholders' Equity: Total shareholders' equity increased by \$1.31 million to \$75.96 million at December 31, 2005 from \$74.64 million at September 30, 2005, primarily due to net income of \$2.00 million and a \$161,000 increase to additional paid in capital from the exercise of stock options and vesting associated with the Bank's benefit plans. Also increasing shareholders' equity was a decrease from September 30, 2005 of \$132,000 in the equity component related to unearned shares issued to the Employee Stock Ownership Plan. Partially offsetting these increases to shareholders' equity were the payment of \$602,000 in dividends to shareholders, the repurchase of 8,200 shares of the Company's stock for \$193,000, and a \$196,000 increase in accumulated other comprehensive loss.

On April 7, 2005, the Company announced a plan to repurchase up to 5% of the

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

Company's outstanding shares, or 187,955 shares. This represents the Company's 13th stock repurchase plan. As of December 31, 2005, the Company had repurchased 36,050 of these shares at an average price of \$23.26. Cumulatively the Company has repurchased 3,375,321 (51.0%) of the 6,612,500 shares that were issued when the Company went public in January 1998. The 3,375,321 shares have been repurchased at an average price of \$15.41 per share.

Comparison of Operating Results for the Three Months Ended December 31, 2005 and 2004

Net Income: Net income for the quarter ended December 31, 2005 increased to \$2.00 million, or \$0.55 per diluted share (\$0.57 per basic share) from \$1.49 million, or \$0.40 per diluted share (\$0.42 per basic share) for the quarter ended December 31, 2004. The \$0.15 increase in diluted earnings per share for the quarter ended December 31, 2005 was primarily a result of a \$659,000 (\$435,000 net of income tax - \$0.12 per diluted share) increase in net interest income after provision for loan losses, a \$123,000 (\$81,000 net of income tax - \$0.02 per diluted share) decrease in non-interest

5

expense, and a lower number of weighted average shares outstanding, which increased diluted earnings per share by approximately \$0.01.

Net Interest Income: Net interest income increased \$659,000 to \$6.03 million for the quarter ended December 31, 2005 from \$5.37 million for the quarter ended December 31, 2004, primarily due to a larger interest earning asset base and an increase in the average yield on interest earning assets. Total interest income increased \$1.14 million to \$8.45 million for the quarter ended December 31, 2005 from \$7.30 million for the quarter ended December 31, 2004 as average total interest earning assets increased by \$25.97 million. The yield on interest earning assets increased to 6.82% for the quarter ended December 31, 2005 from 6.22% for the quarter ended December 31, 2004. The collection of delinquent interest on two non-accrual loans that paid off during the quarter contributed to a net decrease in non-accrual interest of \$49,000. The repayment of these two non-accrual loans also contributed to a net increase of \$82,000 in late fee income which is recorded as interest income.

Partially offsetting the increased interest income was an increase in interest expense as average interest bearing deposits and borrowings increased and the interest rates paid for deposits increased. Total interest expense increased by \$484,000 to \$2.42 million for the quarter ended December 31, 2005 from \$1.93 million for the quarter ended December 31, 2004 as average interest bearing liabilities increased \$15.36 million. Also contributing to increased interest expense was an increase in the average rate paid for these funding sources to 2.29% for the quarter ended December 31, 2005 from 1.90% for the quarter ended December 31, 2004. As a result of these changes, the net interest margin increased to 4.87% for the quarter ended December 31, 2005 from 4.58% for the quarter ended December 31, 2004.

Provision for Loan Losses: There was no provision for loan losses made in the current quarter. The allowance for loan losses, however, did increase during the current quarter due to a net recovery of \$18,000. Based on its comprehensive analysis, management deemed the allowance for loan losses of \$4.12 million at December 31, 2005 (1.05% of loans receivable and 152.09% of

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

non-performing loans) adequate to provide for probable losses based on an evaluation of known and inherent risks in the loan portfolio at that date. The allowance for loan losses was \$3.99 million (1.10% of loans receivable and 133.00% of non-performing loans) at December 31, 2004. For the quarters ended December 31, 2005 and 2004, the Company had net recoveries of \$18,000 and \$3,000, respectively.

The Company's non-performing assets to total assets ratio decreased to 0.52% at December 31, 2005 from 0.62% at September 30, 2005 and 0.63% at December 31, 2004. The non-performing loan total of \$2.71 million at December 31, 2005 consisted of a \$1.37 million commercial construction loan, \$1.07 million in one-to-four family mortgage loans, \$263,000 in commercial real estate loans, and \$10,000 in consumer loans.

Non-interest Income: Total non-interest income increased \$16,000 to \$1.56 million for the quarter ended December 31, 2005 from \$1.54 million for the quarter ended December 31, 2004. Total non-interest income increased as income from service charges on deposits, ATM transaction fees, bank owned life insurance and the sale of non-deposit investment products all increased from a year ago. Partially offsetting these increases was a decrease in income from loan sales, (gain on sale of loans and servicing income on loans sold) which decreased by \$164,000 to \$224,000 for the current quarter from \$388,000 for the same period a year earlier. Income from loan sales was larger in the period a year ago due the sale of the Bank's credit card portfolio, which resulted in a gain of \$245,000 (\$162,000 net of income tax).

Non-interest Expense: Total non-interest expense decreased by \$123,000 to \$4.64 million for the quarter ended December 31, 2005 from \$4.76 million for the quarter ended December 31, 2004. Non-interest expenses were higher a year ago primarily due to expenses of \$183,000 related to the branch acquisition in October 2004 and vesting expenses of \$167,000 related to one of the Company's benefit plans. Partially offsetting these expense decreases during the current quarter were increases in expenses related to premises and equipment and state and local taxes. As a result of the decreased expenses and increased revenue, the Company's efficiency ratio decreased to 61.16% for the quarter ended December 31, 2005 from 68.92% for the quarter ended December 31, 2004.

The Company also began expensing stock options under SFAS 123(R), which became effective for the Company on October 1, 2005. Total stock option expenses of \$5,000 were recorded for the quarter ended December 31, 2005.
