YPF SOCIEDAD ANONIMA Form F-3/A March 10, 2008

As filed with the Securities and Exchange Commission on March 10, 2008

Registration No. 333- 149313

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Amendment No. 1 to Form F-3
REGISTRATION STATEMENT UNDER THE SECURITIES ACT OF 1933

YPF Sociedad Anónima (Exact name of Registrant as specified in its charter)

Argentina (State or other jurisdiction of incorporation or organization)

Not Applicable (I.R.S. Employer Identification No.)

Avenida Pte. R. Sáenz Peña 777 C1035AAC Ciudad Autónoma de Buenos Aires, Argentina (011-5411) 4329-2000

(Address, including zip code, and telephone number, including area code, of registrant's principal executive offices)

CT Corporation System 111 Eighth Avenue New York, NY 10011 212-894-8940

(Name, address, including zip code, and telephone number, including area code, of agent for service)

With copies to:

Nicholas A. Kronfeld, Esq. Davis Polk & Wardwell 450 Lexington Avenue New York, NY 10017 Walter C. Forwood Alejandro D. Quiroga YPF Sociedad Anónima Avenida Pte. R. Sáenz Peña 777

Approximate date of commencement of proposed sale to the public: As soon as practicable after this Registration Statement becomes effective.

If the only securities being registered on this Form are being offered pursuant to dividend or interest reinvestment plans, please check the following box. []

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act, please check the following box. [x]

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration

statement for the same offering. []

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. []

If this Form is a registration statement pursuant to General Instruction I.C. or a post-effective amendment thereto that shall become effective upon filing with the Commission pursuant to Rule 462(e) under the Securities Act, check the following box. [x]

If this Form is a post-effective amendment to a registration statement filed pursuant to General Instruction I.C. filed to register additional securities or additional classes of securities pursuant to Rule 413(b) under the Securities Act, check the following box.

CALCULATION OF REGISTRATION FEE

		Proposed	Proposed	
Title of Each Class Of	Amount To	Maximum	Maximum	Amount of
	Be	Offering	Aggregate	Amount of
Securities To Be Registered	Registered	Price per	Offering	Registration Fee
		Unit(1)	Price(2)	
Class D shares(1)(3)	98,328,198	\$	\$3,749,254,190	\$147,345.69 (4)

- (1) This registration statement on Form F-3 registers 98,328,198 shares of Class D common stock, par value Ps.10 per share, of YPF Sociedad Anónima, including in the form of American depositary shares ("ADSs"), that may be offered by certain selling shareholders.
- (2) Estimated solely for purposes of calculating the amount of the registration fee pursuant to Rule 457(c) under the Securities Act based on the average of the high and low prices of the ADSs as reported by the New York Stock Exchange on February 15, 2008.
- (3) A separate registration statement on Form F-6 was filed on June 17, 1993 for the registration of the ADSs issued upon deposit of the Class D shares registered hereby.
- (4) Previously paid in connection with initial filing of registration statement on February 20, 2008.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act, or until this Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state or jurisdiction where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS

i

Subject to Completion

YPF Sociedad Anónima

American Depositary Shares, each representing one share of Class D Common Stock

This prospectus relates to up to 98,328,198 issued and outstanding shares of our Class D common stock (the "Class D shares"), including in the form of American depositary shares, or ADSs, that may be offered and sold from time to time by certain selling shareholders. Each ADS represents one Class D share. This prospectus describes the terms of these securities and the general manner in which these securities may be offered. Each time these securities are offered or sold using this prospectus, we will provide a supplement to this prospectus that contains more specific information about the offering, the number of securities being offered and the identities of the selling shareholders.

The ADSs trade on the New York Stock Exchange ("NYSE") under the symbol "YPF." Our Class D shares trade on the Buenos Aires Stock Exchange under the symbol "YPFD."

Investing in the ADSs involves significant risks. See "Risk Factors" on page 14 of this prospectus and any additional risk factors included in the applicable prospectus supplement under the heading "Risk Factors".

Neither the Securities and Exchange Commission nor any state securities regulators have approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form F-3 that we filed with the Securities and Exchange Commission (the "SEC") utilizing a "shelf" registration process. As allowed by the SEC rules, this prospectus does not contain all of the information included in the registration statement. For further information, we refer you to the registration statement, including its exhibits. Statements contained in this prospectus about the provisions or contents of any agreement or other document are not necessarily complete. If the SEC's rules and regulations require that an agreement or document be filed as an exhibit to the registration statement, please see that agreement or document for a complete description of these matters.

This prospectus provides you with a general description of our Class D shares and ADSs. Each time such securities are offered and sold by selling shareholders, we will provide a prospectus supplement that will contain specific information about the terms of the offering and the identity of the selling shareholders. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information" beginning on page 183 of this prospectus. Any information in a prospectus supplement or information incorporated by reference after the date of this prospectus is considered part of this prospectus and may add, update or change information contained in this prospectus. Any information in such subsequent filings that is inconsistent with this prospectus will supersede the information in this prospectus.

You should rely only on the information contained in this prospectus. Neither we nor the selling shareholders have authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. Neither we nor the selling shareholders are making an offer to sell the Class D shares or ADSs in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus is accurate only as of the date on the front cover of this prospectus. Our business, financial condition, results of operations and prospects may have changed since that date.

YPF Sociedad Anónima is a stock corporation organized under the laws of the Republic of Argentina ("Argentina"). As used in this prospectus, "YPF," "the company," "we," "our" and "us" refer to YPF Sociedad Anónima and its controlled and jointly controlled companies or, if the context requires, its predecessor companies. "YPF Sociedad Anónima" refers to YPF Sociedad Anónima only. "Repsol YPF" refers to Repsol YPF, S.A. and its consolidated companies, including YPF, unless otherwise specified. We maintain our financial books and records and publish our financial statements in Argentine pesos. In this prospectus, references to "pesos" or "Ps." are to Argentine pesos, and references to "dollars," "U.S. dollars" or "U.S.\$" are to United States dollars.

SUMMARY

This summary highlights certain relevant information included elsewhere in this prospectus. This summary does not purport to be complete and may not contain all of the information that is important or relevant to you. Before investing in the Class D shares or ADSs, you should read this entire prospectus carefully for a more complete understanding of our business and the offering, including our audited and unaudited financial statements and related notes, the sections entitled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this prospectus, and the information contained in the prospectus supplements and the documents incorporated by reference into this prospectus.

Overview

We are Argentina's leading energy company, operating a fully integrated oil and gas chain with leading market positions across the domestic upstream and downstream segments. Our upstream operations consist of the exploration, development and production of crude oil, natural gas and liquefied petroleum gas. Our downstream operations include the refining, marketing, transportation and distribution of oil and a wide range of petroleum products, petroleum derivatives, petrochemicals, liquid petroleum gas and bio-fuels. Additionally, we are active in the gas separation and natural gas distribution sectors both directly and through our investments in several affiliated companies. In 2006, we had consolidated net sales of Ps.25,635 million (U.S.\$8,138 million) and consolidated net income of Ps.4,457 million (U.S.\$1,415 million) and, in the nine months ended September 30, 2007, we had consolidated net sales of Ps.20,869 million (U.S.\$6,625 million) and consolidated net income of Ps.2,980 million (U.S.\$946 million).

Most of our predecessors were state-owned companies with operations dating back to the 1920s. In November 1992, the Argentine government enacted the Privatization Law (Law No. 24,145), which established the procedures for our privatization. In accordance with the Privatization Law, in July 1993, we completed a worldwide offering of 160 million Class D shares that had previously been owned by the Argentine government. As a result of that offering and other transactions, the Argentine government's ownership interest in our capital stock was reduced from 100% to approximately 20% by the end of 1993.

Since 1999, we have been controlled by Repsol YPF, an integrated oil and gas company headquartered in Spain with global operations. On February 21, 2008, Petersen Energía, S.A. ("Petersen Energía") purchased 58,603,606 of our ADSs, representing 14.9% of our capital stock, from Repsol YPF for U.S.\$2,235 million (the "Petersen Transaction"). In addition, Repsol YPF also granted certain affiliates of Petersen Energía options to purchase up to an additional 10.1% of our outstanding capital stock within four years (the "Petersen Options"). See "Selling Shareholders." We believe that Petersen Energía's participation in our capital stock and management will strengthen our Argentine ties and expertise.

Upstream Operations

- We operate more than 70 oil and gas fields in Argentina, accounting for approximately 42% of the country's total production of crude oil, excluding natural gas liquids, and approximately 42% of its total natural gas production, including natural gas liquids, in 2007, according to the Argentine Secretariat of Energy.
- We had proved reserves, as estimated as of September 30, 2007, of approximately 646 mmbbl of oil and 3,728 bcf of gas, representing aggregate reserves of 1,311 mmboe.
- In 2006, we produced 126 mmbbl of oil (346 mbbl/d) and 651 bcf of gas (1,779 mmcf/d) and, in the nine months ended September 30, 2007, we produced 89 mmbbl of oil (327 mbbl/d) and 485 bcf of gas (1,778 mmcf/d).

Downstream Operations

- We are Argentina's leading refiner with operations conducted at three wholly owned refineries with combined annual refining capacity of approximately 116 mmbbl (319.5 mbbl/d). We also have a 50% interest in Refinería del Norte S.A. ("Refinor"), a jointly controlled entity operated by Petrobras Energía S.A., which has a refining capacity of 26.1 mbbl/d.
- Our retail distribution network for automotive petroleum products as of September 30, 2007 consisted of 1,698 YPF-branded service stations, which we believe represented approximately 30.9% of all service stations in Argentina.
- We are a leading petrochemical producer in Argentina and in the Southern Cone of Latin America, with operations conducted through our Ensenada plant. In addition, Profertil S.A. ("Profertil"), a company that we jointly control, is a leading producer of urea in the Southern Cone.

The Argentine Market

Argentina is the second largest producer of natural gas and the fourth largest producer of crude oil in Latin America based on 2006 production, according to the BP Statistical Review.

Beginning in 2002, in response to the economic crisis, the Argentine government, pursuant to the Public Emergency Law (Law No. 25,561), established export taxes on certain hydrocarbon products. In subsequent years, in order to satisfy growing domestic demand and abate inflationary pressures, this policy was supplemented by constraints on domestic prices, temporary export restrictions and subsidies on imports of natural gas and diesel. As a result, local prices for oil and natural gas products have remained significantly below those prevalent in neighboring countries and international commodity exchanges, heightening domestic demand for such products. For example, in January 2008, diesel import prices were approximately U.S.\$700/cubic meter, while the average domestic sales prices were approximately U.S.\$350/cubic meter before government subsidies. In addition, the price at which Bolivia exports natural gas to Argentina was approximately U.S.\$6/mmBtu in December 2007, while our average sales price for such gas in Argentina was approximately U.S.\$2.29/mmBtu.

Argentina's gross domestic product, or GDP, has grown at an average annual rate of approximately 9% from 2003 to 2006, after declines during the economic crisis of 2001 and 2002. Driven by this economic expansion and low domestic prices, energy demand has increased significantly during the same period, outpacing energy supply (which in the case of oil declined). For example, Argentine natural gas and diesel consumption grew at average annual rates of 6.5% and 6.9%, respectively, during this period, according to the BP Statistical Review and the Argentine Secretariat of Energy. As a result of this increasing demand and actions taken by the Argentine regulatory authorities to support domestic supply, exported volumes of hydrocarbon products, especially natural gas, declined steadily over this period. At the same time, Argentina has increased hydrocarbon imports, becoming a net importer of certain products, such as diesel, and increased imports of natural gas. In 2003, Argentina's net exports of diesel amounted to approximately 1,349 thousand cubic meters, while in 2006 its net imports of diesel amounted to approximately 533 thousand cubic meters, according to the Argentine Secretariat of Energy. Significant investments in the energy sector are expected to be required in order to support continued economic growth, as the industry is currently operating near capacity.

Demand for diesel in Argentina exceeds domestic production. In addition, the import prices of refined products substantially exceed the domestic sales prices of such products, rendering the import and resale of such products uneconomic. As a result, service stations experience temporary shortages and are required to suspend or curtail diesel sales. While we are operating our refineries at or above capacity, during peak demand periods we are forced to prorate

supplies among our service stations according to historical sales levels.

As the largest integrated oil and gas company in Argentina, we believe that we are well positioned to benefit from potential reform in the energy sector, although we cannot assure that reforms will be implemented or, if

implemented, that they will be advantageous to our business. We also believe that, as a result of limitations on the prices of our products, our margins should be less sensitive if international prices of oil and gas decline.

Competitive Strengths

Largest producer, refiner and marketer of crude oil, natural gas and refined products in Argentina

Our upstream operations benefit from concessions providing access to 29% of the total proved crude oil reserves, excluding natural gas liquids, and 33% of total proved natural gas reserves, including natural gas liquids, in Argentina as of December 31, 2006, according to the Argentine Secretariat of Energy. In 2007, we had an attributable production share, which represents our share of the total production from the fields in which we have an interest, of approximately 42% of the total crude oil extracted, excluding natural gas liquids (more than the next seven largest producers combined), and approximately 42% of total natural gas extracted, including natural gas liquids (more than the next four largest producers combined), in Argentina, according to the Argentine Secretariat of Energy.

Our downstream operations refine and distribute more refined products than any other company in Argentina. In 2006, we estimate that we had over 50% of the country's refining capacity and distributed more diesel, gasoline, lubricants, asphalts and compressed natural gas than any other distributor. As of September 30, 2007, we had 1,698 YPF-branded service stations (including proprietary and franchised service stations), which we believe represented approximately 30.9% of the country's service stations. We are also a leading Argentine petrochemical company in terms of sales.

Favorably positioned as an integrated player

We participate in all phases of the oil and gas value chain, including production, refining, marketing and distribution, with the potential to capture margin at all levels. In 2006, we delivered approximately 90% of our crude oil production to our own refineries, corresponding to approximately 90% of the total crude oil processed by our refineries. In addition, in 2006, we directly marketed 62% of our refining production (including through YPF-branded service stations).

Substantial portfolio of operated oil and gas concessions

As of September 30, 2007, we held interests in 110 production concessions and exploration permits in Argentina, with 100% ownership interest in 60 of these. Many of our production concessions are among the most productive in Argentina, including concessions in the Neuquina and Golfo de San Jorge basins, which accounted for approximately 84% of our total production in 2006. Our concessions are not scheduled to expire until 2017, and in December 2000, we extended our concession to the Loma La Lata field, Argentina's largest natural gas deposit, through 2027. We have a portfolio of mature fields with geologic characteristics that are similar in many respects to those in other regions (such as those in the United States) which have been successfully rejuvenated through the use of advanced oil recovery technologies to increase field recovery factors. In addition, there is tight gas in place within our concession areas in Argentina.

A majority of our fields have been in operation for several years and, as a result, approximately 70% of our total proved reserves of 1,311 mmboe were categorized as developed as of September 30, 2007.

Extensive refining and logistics assets

We have extensive refining assets which we believe represent more than 50% of the country's refining capacity. Our refining assets operate at the highest utilization rates in Argentina (almost 100% in 2006). Our refining system has high complexity, giving us flexibility to shift some of our production resources toward higher value-added products.

Our refining assets also benefit from large scale (our La Plata refinery is the largest in Argentina with a capacity of 189,000 bbl/d) and convenient location, and rank highly in terms of availability and maintenance.

We manage a large scale logistics network, consisting of 1,801 km of multi-product pipelines for the distribution of our refined products, connecting our two main refineries to our most important depots, of which we have 16 with a total storage capacity of approximately 983,620 cubic meters. We also have 53 airport facilities with a total storage capacity of 24,000 cubic meters and 27 company-owned tanker trucks.

All of our refineries are connected to pipelines that we own or in which we have a significant stake. Oil is piped to our Luján de Cuyo refinery from Puerto Hernández by a 528 km pipeline and to our La Plata refinery from Puerto Rosales by another 585 km pipeline. We also have a 37% stake in Oleoductos del Valle S.A. (the company operating the oil pipeline from the Neuquina basin to Puerto Rosales).

Strong marketing brand

The "YPF" brand is widely recognized in the Argentine consumer market. Our 1,698 YPF-branded service stations are located throughout Argentina's urban and suburban areas, and we have more than 1 million cardmembers in our marketing loyalty programs. We also leverage our marketing and branding power to sell industrial products, such as LPG, for which we held a 22% market share, and lubricants, for which we held a 37% market share in 2006.

Strong financial position

We have achieved a solid financial position through operating cash flow generation and effective financial management. We also have a history of returning value to shareholders through dividend payment. We have distributed over 85% of our net income attributable to the years 2001 through 2006 in dividends to our shareholders. In addition, we have the highest credit rating of any Argentine company and our senior corporate debt is currently rated slightly higher than the Argentine sovereign ceiling.

Experienced management team and access to Repsol YPF expertise

We are led by a highly regarded and experienced team of professionals. Most of the members of the senior management team have long tenures with us and significant experience in the Argentine energy sector.

We benefit from Repsol YPF's experience and know-how in the upstream and downstream businesses. Repsol YPF is an integrated international oil and gas company with significant activity along the hydrocarbon product value chain. It holds one of the largest refining and marketing asset portfolios in Europe and owns significant refining and marketing assets in other Latin American countries, including a market-leading position in Peru. Repsol YPF conducts exploration and production activities in more than 30 countries and has developed its offshore expertise through its participation in offshore areas and assets in the Gulf of Mexico, Brazil and West Africa.

Repsol YPF is responsible for group-wide research and development activities. We have a research and development facility in La Plata, Argentina, which works in cooperation with the research and development activities of Repsol YPF.

Business Strategy

As the largest integrated oil and gas company in Argentina, we seek to improve margins and to maximize profitability through the most efficient utilization of resources and assets along our entire value chain. Our key strategies are the following:

Upstream

Improve our field recovery factors. In 2006, we developed a new integrated strategy, known by its Spanish acronym "PLADA," aimed at rejuvenating mature fields through the use of advanced technologies. This strategy, which we began to implement in 2007, seeks to increase recovery factors in our mature fields through infill drilling and secondary and tertiary recovery, and is subject to prevailing economic and regulatory conditions. Many of the

technologies to be implemented through PLADA have been successfully employed in large mature basins, such as those in the United States, although no assurances can be given that we will achieve recovery factors resembling those achieved in the United States. Additionally, we have planned several potential projects to develop unconventional resources, including tight gas and heavy oil, that may offer significant potential under favorable economic and regulatory conditions. As of September 30, 2007, we had a recovery factor of approximately 22% and 64% of oil and gas in place, respectively. We estimate, based on internal studies, that every one percentage point increase in our recovery factor of oil reserves may allow us to increase our reserves by up to 180 mmbbl of oil, although no assurance can be given that we will be able to achieve such reserve increases in practice. During the nine months ended September 30, 2007, we incorporated new proved reserves of 55 million barrels of oil and 198 bcf of gas through extensions, discoveries, improved recovery and revisions of previous estimates. As of September 30, 2007, 68.4% of our proved reserves had been audited by external auditors.

Improve the operational efficiency of our exploration and production. Our exploration and production business unit is carrying out a comprehensive operational improvement and cost reduction program with over 100 initiatives that we expect to have a positive impact on our business. These include initiatives seeking to improve well productivity through better water management, enhancing facilities maintenance, optimizing the fracturing process and reducing energy costs, among others.

Invest in onshore and offshore exploration in Argentina. Onshore, we plan to carry out targeted exploration for conventional and unconventional resources. For example, we intend to access new onshore exploratory properties in under-explored areas within currently producing basins. To support this initiative, in 2007 we began to add new drilling and fracturing equipment and hired additional technical personnel. We have entered into three agreements with ENARSA, the state-owned energy company, and other companies, for the joint exploration of Argentine offshore properties, which we believe positions us well to explore potentially lucrative offshore areas in Argentina. Offshore acreage is largely unexplored in Argentina and constitutes the largest area for green field developments in the country, and we intend to actively participate in the tender process for new offshore properties in Argentina.

Optimize value of non-core fields. We are seeking to optimize our portfolio of exploration and production assets through active management of various non-core fields, including through potential associations with smaller operators in certain fields in order to improve their operational effectiveness. Given the current demand for exploration and production assets in the Argentine market, we are also evaluating the possibility of selling certain non-core fields to third parties.

Downstream

Continue to improve production and cost efficiencies in downstream businesses. We are seeking to optimize our refining assets to increase their capacity (through de-bottlenecking and revamping of equipment), further improve their flexibility to shift capacity among certain categories of products, adapt our refineries to new low-sulfur regulations and develop our logistics network and assets to meet the continued growth in demand we expect. In addition, we are in the process of implementing various cost reduction programs throughout our refining and logistics assets (including internal consumption reduction and centralized purchasing), marketing network (including back-office integration, loyalty program reductions and selective expansion of our company-owned and operated service station network while continuing to eliminate dealer-operated service stations with lower operating efficiency) and chemical division (including the reduction of maintenance-related production stoppages).

Maximize production and marketing of high-value products. We plan to maximize the production and marketing of our highest margin products as well to gradually introduce new high-value products into the market. For example, we have recently commenced selling higher value fuels with bio-additives at a small number of our service stations in anticipation of Argentine regulatory measures that mandate a minimum bio-content by 2010.

Increase value creation from petrochemicals. Our chemicals business unit will carry out a significant upgrade of its aromatics plant by migrating to state-of-the-art technology. We believe our investments will facilitate the

integration with our refining and marketing business unit through a significant increase in aromatics production, much of which will be used by our refining and marketing business unit to increase gasoline octane levels and to produce hydrogen to improve refining plant productivity.

Our principal executive offices are located at Avenida Pte. R. Sáenz Peña 777, (C1035AAC) Ciudad Autónoma de Buenos Aires, Argentina, and our general telephone number is (011-5411) 4329-2000. Our website address is www.repsolypf.com and our website is available in Spanish and English. Information contained on our website is not incorporated by reference in, and shall not be considered a part of, this prospectus.

SUMMARY FINANCIAL AND OPERATING DATA

The following tables present our summary financial and operating data. You should read this information in conjunction with our audited and unaudited financial statements and related notes, and the information under "Selected Financial and Operating Data" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" included elsewhere in this prospectus. All financial data included in this prospectus as of September 30, 2007 and for the nine-month periods ended September 30, 2007 and 2006 is unaudited. Results for the nine-month period ended September 30, 2007 are not necessarily indicative of results to be expected for the full year 2007 or any other period.

The financial data as of December 31, 2006, 2005 and 2004 and for the years then ended is derived from our audited consolidated financial statements (the "Audited Consolidated Financial Statements"), which are included in our annual report on Form 20-F for the year ended December 31, 2006 incorporated by reference in this prospectus. The financial data as of September 30, 2007 and for the nine-month periods ended September 30, 2007 and 2006 is derived from our unaudited individual and consolidated interim financial statements (the "Unaudited Individual and Consolidated Interim Financial Statements") included elsewhere in this prospectus. The Unaudited Individual and Consolidated Interim Financial Statements reflect all adjustments which, in the opinion of our management, are necessary to present the financial statements for such periods on a consistent basis with the Audited Consolidated Financial Statements. Our audited and unaudited financial statements have been prepared in accordance with generally accepted accounting principles in Argentina, which we refer to as Argentine GAAP and which differ in certain significant respects from generally accepted accounting principles in the United States, which we refer to as U.S. GAAP. Notes 13, 14 and 15 to our Audited Consolidated Financial Statements provide a description of the significant differences between Argentine GAAP and U.S. GAAP, as they relate to us, and a reconciliation to U.S. GAAP of net income and shareholders' equity as of December 31, 2006, 2005 and 2004 and for the years then ended. Notes 5, 6 and 7 to our Unaudited Individual and Consolidated Interim Financial Statements included elsewhere in this prospectus provide a description of the significant differences between Argentine GAAP and U.S. GAAP, as they relate to us, and a reconciliation to U.S. GAAP of net income for the nine-month periods ended September 30, 2007 and 2006 and shareholders' equity as of September 30, 2007 and December 31, 2006.

In this prospectus, except as otherwise specified, references to "\$," "U.S.\$" and "dollars" are to U.S. dollars, and references to "Ps." and "pesos" are to Argentine pesos. Solely for the convenience of the reader, peso amounts as of and for the nine months ended September 30, 2007 and as of and for the year ended December 31, 2006 have been translated into U.S. dollars at the exchange rate quoted by Banco Central de la República Argentina (Banco Central) on September 28, 2007 of Ps.3.15 to U.S.\$1.00 (the last rate quoted in September 2007), unless otherwise specified. The buying exchange rate quoted by Banco Central on March 6, 2008 was Ps. 3.15 to U.S.\$1.00. The U.S. dollar equivalent information should not be construed to imply that the peso amounts represent, or could have been or could be converted into U.S. dollars at such rates or any other rate. See "Exchange Rates and Controls."

Certain figures included in this prospectus have been subject to rounding adjustments. Accordingly, figures shown as totals may not sum due to rounding.

Note - The Trust has made commitments to fund specified amounts under certain existing credit arrangements. Pursuant to the terms of these arrangements, the Trust had unfunded loan commitments of \$2,758,570 as of July 31, 2004.

PIK - Payment In Kind.

- (1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At July 31, 2004 the aggregate value of the securities is \$59,864,344 or 9.5% of the net assets.

31

At July 31, 2004, the Trust had entered into Credit Default Swaps with Credit Suisse First Boston dated January 9, 2004 and January 27, 2004 whereby the Trust will receive 2.45% per year times the notional amounts of \$7,800,000 and \$7,800,000, respectively. The Trust makes payment only upon a default event on underlying loan assets (50 in total, each representing 2% of the notional value of the swap). At July 31, 2004, the Trust had sufficient cash segregated to cover potential obligations arising from open swap contracts.

The cost and unrealized appreciation (depreciation) in value of investments owned by the Trust at July 31, 2004, as computed on a federal income tax basis, were as follows:

Aggregate cost	\$ 989,794,408
Gross unrealized appreciation	\$ 7,318,473
Gross unrealized depreciation	(4,836,514)
Net unrealized appreciation	\$ 2,481,959

32

Item 2. Controls and Procedures

(a) It is the conclusion of the registrant s principal executive officer and principal financial officer that the effectiveness of the registrant s current
disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing)
provide reasonable assurance that the information required to be disclosed by the registrant on this Form N-Q has been recorded, processed,
summarized and reported within the time period specified in the Commission s rules and forms and that the information required to be disclosed
by the registrant on this Form N-Q has been accumulated and communicated to the registrant s principal executive officer and principal financial
officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant s internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant s internal control over financial reporting.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
