March 24, 2005

YOUR VOTE IS IMPORTANT

You are urged to date, sign and promptly return the accompanying form of proxy, or to use the telephone or internet method of voting, so that if you are unable to attend the meeting your shares can be voted.

AMERADA HESS CORPORATION

PROXY STATEMENT

The enclosed proxy is solicited by the board of directors of Amerada Hess Corporation for use at the annual meeting of stockholders on May 4, 2005, at 2:00 P.M., local time.

The company's principal executive office is located at 1185 Avenue of the Americas, New York, New York 10036. The approximate date on which this proxy statement is first being sent to stockholders is March 28, 2005.

Holders of record of common stock of the company at the close of business on March 14, 2005 will be entitled to vote at the annual meeting. Each share of common stock will be entitled to one vote. On March 14, 2005, there were 92,319,305 shares of common stock outstanding. There are no other voting securities of the company outstanding. A majority of the outstanding shares of common stock, present in person or represented by proxy, will constitute a quorum at the annual meeting. Abstentions and broker non-votes will be counted for purposes of determining the presence of a quorum for the transaction of business.

If you are a registered stockholder, you can simplify your voting by using the internet or calling the toll-free number listed on the enclosed proxy card. Internet and telephone voting information is provided on the proxy card. A control number, located on the instruction sheet attached to the proxy card, is designated to verify a stockholder's identity and allow the stockholder to vote the shares and confirm that the voting instructions have been recorded properly. If you vote via the internet or by telephone, there is no need to return a signed proxy card. However, you may still vote by proxy by using the proxy card enclosed with this proxy statement.

Proxies in the form enclosed will be voted at the annual meeting in accordance with the specifications you make on the proxy. If you sign the proxy card and do not specify how your shares are to be voted, your shares will be voted:

for the election of directors nominated herein, and

for the proposal to ratify the selection of Ernst & Young LLP as independent auditors for the fiscal year ending December 31, 2005.

You may revoke the proxy at any time prior to its use by delivering a written notice to the secretary of the company, by executing a later-dated proxy in a form permitted under Delaware law, or by attending the annual meeting and voting in person.

ELECTION OF DIRECTORS

At the annual meeting, four directors are to be elected to serve for a term of three years and until their successors are elected and qualified. It is intended that proxies will be voted for the nominees set forth herein. Directors are elected by a plurality of the votes cast. Accordingly, abstentions and broker non-votes will not affect tabulation of the vote for directors. It is expected that all candidates will be able to serve. However, if one or more are unable to do so, the proxy holders will vote the proxies for the remaining nominees and for substitute nominees chosen by the board of directors unless it reduces the number of directors to be elected.

The following table presents information as of February 1, 2005 on the nominees for election as directors of the company and the directors continuing in their respective terms of office:

The board of directors has affirmatively determined that Mr. Brady, Ms. Holiday, Mr. Kean, Ms. Lavizzo-Mourey, Mr. Matthews, Mr. Olson, Mr. von Metzsch and Mr. Wilson are independent within the meaning of rules and standards of the New York Stock Exchange. The board determined that these directors not only met all bright-line criteria under these rules, but also that, based on all known relevant facts and circumstances, there did not exist any relationship that would compromise the independence of these directors. In particular, the board affirmatively determined that service by Messrs. Brady and Kean as executors of the estate of Leon Hess and as trustees of certain related trusts does not impair their independence because there are no factors relating to such service that would exert influence on their decisions with respect to matters affecting the company.

The board has approved a set of corporate governance guidelines in accordance with rules of the New York Stock Exchange. These guidelines set forth the key policies relating to corporate governance, including director qualification standards, director responsibilities and director compensation. The board has also approved a code of business conduct and ethics in accordance with rules of the New York Stock Exchange and the Securities and Exchange Commission applicable to all directors, officers and employees, including the chief executive officer, senior financial officers and the principal accounting officer. The code is intended to provide guidance to directors and management to assure compliance with law and promote ethical behavior. Non-management directors meet without members of management present generally after each regularly scheduled board meeting. The chairman of the corporate governance and nominating committee, Nicholas F. Brady, presides at these meetings.

Stockholder Communications

The company has adopted a new stockholder communication procedure in 2005.

Any stockholder who wishes to communicate or request a meeting with members of the board of directors or with only non-management directors may do so by writing to them in care of the Chairperson of the Corporate Governance and Nominating Committee, Amerada Hess Corporation, P.O. Box 2694, Easton, Maryland 21601. The stockholders may also communicate directly to the chairperson of this committee by e-mail to directors@hess.com. Communications sent by mail or e-mail will be reviewed by the chairperson of the corporate governance and nominating committee and will be referred for resolution and response as deemed appropriate by the chairperson. If a stockholder requests a meeting, the corporate governance and nominating committee will decide whether the subject matter is a proper one to be addressed by the board and, if so, whether a meeting is warranted. The corporate governance and nominating committee will meet periodically to review all stockholder communications received.

The company expects all directors to attend the annual meeting of stockholders. All directors attended last year's annual meeting.

Audit Committee

The audit committee of the board of directors is composed of Robert N. Wilson, Chairman, Edith E. Holiday, Craig G. Matthews, Risa Lavizzo-Mourey and Frank A. Olson. The board has determined that each member of the audit committee is independent within the meaning of applicable rules of the Securities and Exchange Commission and the New York Stock Exchange. The board has also determined that Craig G. Matthews is the audit committee financial expert as this term is defined under applicable rules of the Securities and Exchange Commission. The audit committee met seven times in 2004. In addition, the audit committee held four telephone conference calls in 2004 with management and independent auditors to review quarterly financial results.

A copy of the charter is available on the company's website at www.hess.com and is available without charge upon request to the company's corporate secretary at its principal executive office set forth on the first page of the proxy statement. As stated in the charter, the audit committee's principal responsibility is to provide assistance to the board of directors in fulfilling its oversight responsibility to the shareholders, the investment community and others relating to:

the company's financial statements,

the financial reporting practices of the company,

the systems of internal accounting and financial controls,

the internal audit function,

the annual independent audit of the company's financial statements,

the retention of outside auditors and review of their independence, and

the company's environmental, health, safety and social responsibility programs and compliance.

Corporate Governance and Nominating Committee and Consideration of Stockholder Recommended Candidates

The corporate governance and nominating committee is composed of Nicholas F. Brady, Chairman, Edith E. Holiday and Thomas H. Kean. The board of directors has determined that each member of this committee is independent within the meaning of applicable rules of the New York Stock Exchange. The corporate governance and nominating committee met four times in 2004.

The board of directors has adopted a written charter for the corporate governance and nominating committee in accordance with applicable rules of the New York Stock Exchange. A copy of this charter is available on the company's website, www.hess.com, and is also available without charge upon request to the company's secretary at the company's principal executive office set forth on the first page of this proxy statement. As stated in this charter, this committee's principal responsibilities are to:

identify and recommend individuals to the board for nomination as members of the board and its committees consistent with criteria approved by the board,

make recommendations to the board relating to board practices and corporate governance, and

develop, recommend to the board and periodically review a set of corporate governance principles applicable to the company.

This committee recommends for election as directors qualified candidates identified through a variety of sources, including stockholder suggestions. Stockholders may suggest candidates by writing to the committee, in care of the secretary of the company at the company's principal executive office set forth on the first page of this proxy statement. Stockholder suggestions should include a summary of the candidate's qualifications, the information required by Securities and Exchange Commission rules for director nominees and contact information for the candidate. In accordance with the company's corporate governance guidelines approved by the

board of directors, nominees are reviewed and recommended based on a variety of criteria including:

personal qualities and characteristics, education, background, accomplishments and reputation in the business community;

current knowledge of the energy industry or industries relevant to the company's business and relationships with individuals or organizations affecting the domestic and international areas in which the company does business;

ability and willingness to commit adequate time to board and committee matters;

the fit of the individual's skills and personality with those of other directors and potential directors in building a board that is effective, collegial and responsive to the needs of the company;

diversity of viewpoints, background and experience; and

compatibility with independence and other qualifications established by applicable law and rules.

The committee meets to recommend nominees for election at each annual meeting early in the year, generally at a February meeting. From time to time throughout the year, in advance of that meeting, members of the committee will be furnished appropriate materials regarding any new nominees and may from time to time meet with new potential candidates. Stockholder suggestions should be submitted no later than December 1 for consideration as nominees for election at the next annual meeting and otherwise in accordance with the company's policy and by-laws. The committee follows the same process of identifying and evaluating nominees recommended by stockholders as that for candidates recommended by any other source.

Each of the nominees for election at the 2004 annual meeting was initially recommended either by the non-management directors on the corporate governance and nominating committee (or its predecessor committee), the prior chief executive officer or the current chief executive officer. The committee currently does not retain a search firm to identify potential candidates and has not paid fees to any third parties to assist in identifying or evaluating potential nominees.

Certain Litigation

Purported class actions that have been consolidated are pending in the United States District Court for the District of New Jersey against certain executive officers and former executive officers of the company alleging that these individuals sold shares of the company's common stock in advance of the company's acquisition of Triton Energy Limited (Triton) in 2001 in violation of federal securities laws. Two other purported class actions, based in large part on the same factual background, were commenced in May and August 2003 and were consolidated in the United States District Court for the District of New Jersey against certain named executive officers,

certain directors and former directors and certain employees of the company on behalf of participants in the company's savings and stock bonus plans, alleging that the defendants breached their fiduciary duties under the Employee Retirement Income Security Act, resulting in losses to participants in the plan who held shares of the company's common stock. A tentative settlement of these latter actions has been reached, subject to court approval. The company is advancing expenses to the individuals named in the above actions in accordance with its by-laws to defend these actions.

Report of the Audit Committee

The audit committee of the board of directors oversees the company's financial reporting on behalf of the board. Management is responsible for the system of internal controls and for preparing financial statements. The independent auditors are responsible for expressing an opinion on the fair presentation of the financial statements in conformity with generally accepted accounting principles. The audit committee operates in accordance with a charter approved by the board of directors.

In fulfilling its oversight responsibilities, the audit committee reviewed the audited December 31, 2004 financial statements of the company with management and the independent auditors. Management represented to the committee that these statements were prepared in accordance with generally accepted accounting principles. The audit committee also discussed accounting policies, significant judgements inherent in the financial statements, disclosures and other matters required by generally accepted auditing standards with management and the independent auditors. In addition, the committee has received from the independent auditors the annual independence disclosures required by Independence Standards Board Standard No. 1 and discussed with them their independence from management and the company. In that connection, the audit committee considered the compatibility of all non-audit services with the auditors' independence.

During 2004, the audit committee met with management, the internal auditors and independent auditors to discuss:

the annual audit scope and plans for their respective audits,

the adequacy of staffing and related fees,

the results of their examinations, and

the adequacy and effectiveness of accounting and financial controls.

The audit committee also met separately with the independent auditors and the internal auditors without management present.

In reliance on the reviews and discussions with management and the independent auditors, the audit committee recommended to the board of directors, and the board approved, the inclusion of the audited financial statements in the Annual Report on Form 10-K for the year ended December 31, 2004 to be filed with the Securities and Exchange Commission. The audit committee has also selected Ernst & Young LLP as independent auditors for 2005. The board has proposed that the stockholders ratify this selection at the annual meeting.

* This table includes information about stock options awarded by the compensation and management development committee effective June 2, 2004 as part of compensation in respect of the last fiscal year. One-third of these options becomes exercisable on June 2, 2005, one-third becomes exercisable on June 2, 2006 and one-third becomes exercisable on June 2, 2007, except that options may become exercisable earlier in full in cases of death, disability, normal retirement or change of control. At the discretion of the committee, upon early retirement of an awardee, options not then exercisable may become exercisable in proportion to the amount of time elapsed in the non-exercisability period to the early retirement date. The options remain exercisable until June 2, 2014, except in cases of termination of employment for reasons other than death, disability or normal retirement, in which case options remain exercisable only for specified periods. If a grantee's employment terminates before these options become exercisable, they will be forfeited.

** The grant date present values shown in the above table have been determined using the Black-Scholes option pricing model. This model, like all pricing models, requires assumptions, and therefore the amounts shown should not necessarily be considered indicative of the present value of the amounts that may actually be realized. The following assumptions were made for purposes of this valuation: expected life of seven years for each option; volatility of 29.3%; risk-free rate of return of 4.35%; and dividend yield of 1.66%.

The following table sets forth information as to the named executives regarding the values of unexercised options under the incentive plan as of the end of the last fiscal year:

Retirement Plans

The following table shows the estimated annual pension benefits payable to a covered participant at normal retirement age under the company's employees' pension plan, a qualified defined benefit pension plan and a nonqualified supplemental plan that provides benefits, paid from a trust established and funded by the

company, that would otherwise be paid to participants under the pension plan but for limitations imposed by the Internal Revenue Code:

Pension Plan Table

A participant's remuneration covered by the pension plan and the supplemental plan is the greater of:

twelve times the participant's average monthly compensation (as reported on an annual basis in columns (c) and (d) of the summary compensation table) in the 36 consecutive months (or the number of consecutive months of employment, if fewer) of highest compensation during the 120 months immediately preceding the participant's retirement date, and

the participant's average annual compensation in any three calendar years during the ten calendar years immediately preceding the participant's retirement date.

Benefits shown are computed as a straight life annuity beginning at age 65 and do not reflect the offset for a portion of social security benefits as required under the pension plan. Covered compensation for the named executives as of December 31, 2004 was: Mr. Hess: \$3,183,333; Mr. Collins: \$1,241,667; Mr. O'Connor: \$2,033,333; Mr. Walker: \$1,146,667 and Mr. Rielly: \$740,000.

The years of credited service for the named executives under the pension plan and, except for Messrs. O'Connor, Walker and Rielly, the supplemental plan as of February 1, 2005 are as follows: Mr. Hess, 27 years; Mr. Collins, 20 years; Mr. O'Connor, 3 years; Mr. Walker, 8 years and Mr. Rielly, 4 years. As of February 1, 2005, Messrs. O'Connor, Walker and Rielly had 36 years, 27 years and 20 years, respectively, of credited service under the supplemental plan pursuant to determinations of the compensation and management development committee that gave Messrs. O'Connor, Walker and Rielly credit for 33 years, 19 years and 16 years, respectively, of prior service with previous employers for purposes of determining benefits under the supplemental plan. However, retirement benefits payable to Messrs. O'Connor, Walker and Rielly in connection with their prior employment will be deducted from benefits payable under the supplemental plan.

Employment Contracts, Termination of Employment and Change of Control Arrangements

The company has entered into change of control termination benefit agreements with executive officers and certain other officers of the company. These agreements provide for lump sum cash payments equal to a multiple of an executive's annual compensation if the executive is actually or constructively terminated within 24 months following a change in control, as defined in the agreements. For these purposes, annual compensation consists of the executive's base pay at the date of his termination or immediately before the change in control, whichever is higher, plus the greater of his or her target bonus for the year in which the change in control occurs or the highest bonus earned in the three fiscal years preceding the change in control. The multiple of annual compensation received is three times for the named executive officers (other than Mr. Rielly) and two times for Mr. Rielly and all other officers with whom such agreements were entered into.

In addition, the executive is entitled to receive a pro rata portion of his or her target bonus for the fiscal year in which termination occurs. The executive is also entitled to receive continuation of medical, dental and other welfare benefits for 24 months following termination (36 months in the case of the named executive officers). The agreements provide for immediate vesting of retirement benefits upon termination and certain other ancillary benefits.

For purposes of these agreements, constructive termination includes a reduction in base salary or target annual bonus or a material adverse change in the nature or scope of the executive's authorities or responsibilities.

Awards granted to employees under the incentive plan, including the named executive officers, are subject to accelerated vesting and, at the compensation and management development committee's discretion, cash-out upon the occurrence of a change of control, as defined in the incentive plan.

Messrs. O'Connor, Walker and Rielly have agreements with the company which provide credit for prior service and determine benefits payable under the company's nonqualified supplemental retirement plan, as more fully described above under Retirement Plans.

Directors' Compensation

Each director who is not an employee of the company or any of its subsidiaries receives an annual fee of \$75,000 for membership on the board of directors and a fee of \$2,000 for each board of directors and stockholders meeting attended. These directors receive an additional annual fee of \$4,000 for membership on each committee of the board of directors on which such director serves, except for audit committee members who each receive an annual fee of \$7,500, and a fee of \$2,000 for each committee meeting, and in the case of audit committee members each conference call, attended. The chairperson of each committee receives an annual fee of \$5,000, except for the chairman of the audit committee, who receives an annual fee of \$10,000. The members of the executive committee are John B. Hess, Chairman,

Nicholas F. Brady, Thomas H. Kean and Robert N. Wilson. Mr. Hess is an employee of the company and receives no additional compensation for serving on any committee of the board of directors.

In addition, each non-employee director receives 500 shares of common stock, generally in the beginning of each year. These awards are made from treasury shares purchased by the company in the open market. Also, in lieu of cash from the company, directors instruct the company to purchase on their behalf 500 shares of common stock each year. The company has adopted a stock ownership guideline requiring directors to own 5,000 shares of the company's common stock within six years of their first election to the board, or within two years of adoption of the guideline, whichever is later.

Compensation Committee Report on Executive Compensation

The compensation and management development committee of the board of directors is responsible for approving and administering the company's compensation policies for executive officers and approving the compensation of the chief executive officer of the company.

Executive Compensation Policies. The company's executive compensation policies are designed to attract and retain executives and motivate them to achieve the company's business goals through a combination of cash and stock-based compensation. The key elements of executive compensation consist of cash salary, cash bonuses, stock option awards, and restricted stock awards.

Cash Compensation. The company's goal is to target total cash compensation, using a combination of salary and cash bonus, at the 75th percentile of that of a group of surveyed industrial companies, if specified performance metrics are met. This level of cash compensation was selected in recognition of the company's need to remain competitive in attracting and retaining talented executives to work as part of a small management team functioning in a demanding corporate and market environment. The company's goal is to rely increasingly on cash bonuses in an effort to relate a greater portion of cash compensation to performance.

Salary. In determining salary levels for executive officers, the compensation and management development committee considers the following subjective and quantitative factors:

job level and responsibility,

individual performance,

recent corporate performance, success in implementing corporate strategy and long-term goals and development of future strategies, and

the objective of targeting cash compensation at the company's desired percentile benchmark.

For 2004, the committee relied on two surveys: first, a survey of 739 industrial companies, including six companies also included in the peer group discussed under

Performance Graph, and a survey comprising twelve major oil and gas companies including five companies also included in the peer group.

Cash Bonus. The annual cash bonus plan approved by the committee for 2004 for executive officers, including the named executive officers, has both quantitative and qualitative elements. A target bonus was established for each executive officer. For corporate officers, including the named executive officers, one-third of the target bonus is based on attainment of a specified target level of a quantitative corporate performance measure, net income before interest and special items, one-third is based on attainment of specified business unit metrics and the remaining one-third is based on individual performance and other qualitative factors.

The weightings were developed to provide for a quantifiable performance incentive, but also to permit discretion to adjust compensation to recognize individual performance. Payouts may range from 0% to 150% of each component of the target bonus, based on the percentage attainment of the corporate and business unit performance measures and, with respect to the individual performance component, the committee's determination of an appropriate amount. Cash compensation in excess of \$1 million to the named executive officers is not deductible for federal income tax purposes.

In 2004, the company achieved 150% of the corporate performance goal. Achievement of business unit performance metrics in 2004 varied. The individual performance component was adjusted to result in total bonuses for executive officers averaging approximately 123% of target bonus levels. This component of each individual's bonus was adjusted up or down from the average payout to reflect differences in performance among individuals. The Committee believes that the average 123% payout appropriately reflects continued improvement in the company's performance in 2004. Among the 2004 highlights were:

net income of \$977 million, the second highest in the company's history,

increase in year-end proved reserves,

significant progress on development projects which will drive further production and reserve growth,

enhanced profitability and strong operational performance of refining and marketing operations, and

continued strengthening of the company's financial position, with the company's debt to capitalization ratio improving to 40.7%.

Long-Term Compensation Incentive Plan. The incentive plan, which was amended and restated in 2004 to increase the number of shares available for awards by 7.5 million shares, and approved by the board of directors and later by stockholders, was developed to align senior management's compensation more closely with the

interests of stockholders. The incentive plan provides the compensation and management development committee with authority to grant various types of stock-based and other compensation, including performance awards, stock options, restricted stock, deferred stock, dividend equivalents and stock appreciation rights. The committee believes that a plan of this type affords the committee the flexibility to design compensation packages that provide appropriate remuneration to attract and retain talented executives, while at the same time providing incentives to maximize shareholder value.

While awards under the incentive plan to executive officers have been primarily option-based, the committee has also determined that grants of restricted stock, vesting over a period of years, are useful to support retention of employees. The committee believes that the combination of these two types of stock awards gives executives considerable incentive to maximize long-term financial growth for shareholders. The annual aggregate grant levels depend on the company's performance as well as oil industry and general industry benchmarks. Individual awards are based on market benchmarks, grade level and individual performance. The performance-based nature of the options will permit any compensation paid in respect of the options to a named executive in a fiscal year in excess of \$1 million to be deductible by the company for federal income tax purposes. Compensation paid in respect of restricted stock, however, will not be deductible.

Long-Term Compensation 2004 Awards. In June 2004, the committee granted a combination of stock options and restricted stock to executive officers of the company. The restricted stock vests in three years from the date of grant and the options vest pro rata over a three-year period. The committee believes this combination provides incentives to executives to maximize shareholder value and also helps to retain individuals necessary for the future growth and profitability of the company. The aggregate number of shares awarded to all executive officers and participating employees was approximately 1.5 million. Awards to executive officers on average are targeted to deliver long-term equity compensation near the 75th percentile of such compensation as established in the benchmark surveys. The level of awards for 2004 were also partly made in recognition of the fact that no equity-based compensation was made to executives in respect of 2003.

Compensation of the Chief Executive Officer. Mr. Hess' cash compensation for 2004 was established in the manner discussed above for all executive officers. Mr. Hess' combined salary and bonus for 2004 were below the 75th percentile cash compensation benchmark for chief executive officers as determined from the surveys.

In approving stock awards shown in the summary compensation table to Mr. Hess for 2004, the committee followed the principles set forth above in establishing long-term compensation for all executive officers for 2004. Based on comparative analysis of long-term compensation as published in the benchmark surveys, the total grant date value of Mr. Hess' incentive stock awards was below the 75th percentile benchmark for chief executive officers as determined from the surveys.

The committee concluded that Mr. Hess' 2004 total compensation was reasonable compared with that of his peers and was an appropriate level of compensation reflecting the continued progress in 2004 to position the company for long-term profitable growth.

RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The audit committee has selected the firm of Ernst & Young LLP as the independent auditors of the company for the fiscal year ending December 31, 2005. Ernst & Young LLP has acted for the company in this capacity since November 1, 1971. The board proposes that the stockholders ratify this selection at the annual meeting.

If the stockholders do not ratify the selection of Ernst & Young LLP, the selection of independent auditors will be reconsidered by the audit committee.

Representatives of Ernst & Young LLP are expected to be present at the annual meeting and will be afforded the opportunity to make a statement if they desire and will be available to respond to appropriate questions.

Independent Auditor Fee Information

Ernst & Young LLP's fees, by category of professional service in each of the last two fiscal years, were (in thousands):

	2004	2003
Audit Fees	\$ 8,191	\$ 7,984
Audit-Related Fees	1,118	609
Tax Fees	3,109	2,251
All Other Fees	18	82
	<u> </u>	<u> </u>
Total	\$ 12,436	\$ 10,926
	<u> </u>	<u> </u>

Ernst & Young LLP audit fees include fees associated with the last annual audit, the reviews of the company's quarterly reports on Form 10-Q, reporting on the

effectiveness of internal controls over financial reporting, SEC registration statements, and statutory audits required internationally.

Ernst & Young's fees for audit-related services include pension and savings plan audits, accounting consultations and consultations on internal accounting controls.

Tax fees include expatriate tax services, tax compliance, and United States and international tax advice and planning. During 2004, the audit committee approved the company's decision to transfer expatriate tax compliance services to another firm commencing in 2005. The table above includes \$1,533,000 of expatriate tax fees paid to Ernst & Young in 2004.

All other fees principally include insurance advisory services.

As part of its responsibility for oversight of the independent auditor, the audit committee has established a pre-approval policy for the provision of engaging audit and permitted non-audit services provided by the company's independent auditors, Ernst & Young LLP. In accordance with this policy, each type of audit, audit-related, tax and other permitted service to be provided by the independent auditor is specifically described and each such service, together with a fee level or budgeted amount for such service, is pre-approved annually by the audit committee. Each such service and budgeted amount is thereafter updated quarterly. Any type of permitted service not previously approved by the audit committee must be specifically pre-approved before the service can be provided. For each fiscal year, the audit committee may determine appropriate ratios between categories of services and the total fees paid to the independent auditor. The audit committee has delegated authority to the chairman of the audit committee to approve additional services or an increase in fees for a previously approved service in excess of the budgeted amount for that service. However, any increased fees or additional services so approved must be reported to the audit committee at its next scheduled meeting. The audit committee has determined that the provision of all services approved in accordance with this policy is not incompatible with the independence of the independent auditors.
