Report of Independent Registered Public Accounting Firm

To the UST Inc.

Employee Plans Administration Committee,

We have audited the accompanying statements of net assets available for benefits of the UST Inc. Employees Savings Plan as of December 31, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2005, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

UST Inc.
Employees Savings Plan
Notes to Financial Statements
Years Ended December 31, 2005 and 2004

1. Significant Accounting Policies

The financial statements of the UST Inc. Employees Savings Plan (the Plan) have been prepared in accordance with accounting principles generally accepted in the United States and, as such, include amounts based on judgments and estimates made by management. Management believes that the judgments and estimates used in the preparation of the financial statements of the Plan are appropriate; however, actual results may differ from these estimates.

Investment in common stock of UST Inc. (the Company) is stated at a fair value of \$40.83 per share at December 30, 2005 and \$48.11 per share at December 31, 2004. Group trust funds are also stated at fair value. The fair values of UST Inc. common stock and group trust funds are determined based on published market data. Participant loans are valued at their outstanding principal balances, which approximate fair value.

The fair value of the participation units owned by the Plan in group trust funds is based on quoted redemption value on the last business day of the Plan year.

2. Description of Plan

The Plan is a defined contribution employee benefit plan established to encourage and assist employees to adopt a regular savings program and to help provide additional security for retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a trustee plan administered by the UST Inc. Employee Plans Administration Committee (EPAC). The Vanguard Fiduciary Trust Company (Vanguard) is the Plan s trustee.

Employees are eligible to participate in the Plan as of the first day of the month following their date of hire, provided they are scheduled to work at least 1,000 hours in their first year of service, as defined by the Plan. Employees are not eligible to receive an allocation of Company matching contributions until the later of the first anniversary of their date of employment or the first date on which the employee becomes eligible to participate in the Plan.

The majority of Plan Participants are able to make an aggregate contribution to the Plan of 1 percent to 15 percent (in 1 percent increments) of base pay on a before-tax or after-tax basis, of which the first 6 percent is subject to a 100 percent matching contribution by the Company. The Company s matching contribution for employees of Ste. Michelle Wine Estates, a wholly-owned subsidiary of UST Inc., is 50 percent of the first 6 percent of amounts contributed.

2. Description of Plan (continued)

If a Participant leaves the Company before becoming fully vested in the Company's matching contributions to the Plan, the Participant will forfeit the unvested portion of the Company's matching contributions. Forfeitures, which totaled \$42,954 and \$59,911 in 2005 and 2004, respectively, are directed to the Vanguard Retirement Savings Trust Fund and are applied to reduce the Company's matching contributions. At the discretion of the UST Inc. Board of Directors (the Board), additional matching contributions may be made by the Company. For the years ended December 31, 2005 and 2004, no additional discretionary contributions were made. The Plan allows Participants who have completed three or more years of service the option to diversify the Company's previously allocated and/or future matching contributions to any of the Plan's investment options. Company matching contributions for Participants who do not meet these requirements are invested in common stock of UST Inc. (the UST Common Stock Fund). Participant contributions are always 100 percent vested, while vesting of the Company's contributions generally occurs over a period of five years at a rate of 20 percent for each year of service. Upon attainment of five years of service, all Company contributions are immediately vested. Participants also become 100 percent vested upon death or attainment of age 55.

The Plan includes a loan feature for Participants who are currently employed by the Company enabling them to borrow from their vested plan balance. Participants may not obtain a loan if they (i) already have two outstanding loans under the Plan or (ii) have obtained a loan from the Plan within the six-month period immediately preceding the application for a new loan. The term of the loan can range from one to five years as elected by the Participant. Loan repayments are made in equal installments of principal and interest by automatic payroll deductions. The maximum amount the Participant can borrow is the lesser of 50 percent of their vested interest in the Plan or \$50,000, less the highest outstanding loan balance over the previous twelve months. The minimum loan amount is \$1,000. The loan interest rate is determined on a monthly basis and is equal to the prime rate received by Vanguard from Reuters on the first business day of the calendar month. The interest rate is fixed for the term of the loan. In the event a Participant defaults on a Plan loan, the entire unpaid balance of the loan shall become due and payable immediately. Loans may be prepaid in full at any time.

Expenses incurred to administer the Plan are paid from Plan assets to the extent permissible under applicable law. All costs and expenses with regard to the purchase or sale of investments are also paid by the Plan.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants' account balances become 100 percent vested and they are entitled to the fair value of their accounts.

The foregoing description of the Plan provides only general information. Participants should refer to the Summary Plan Description (SPD) for a more complete description of the Plan's provisions. Copies of the SPD are available from the Company's Employee Benefits Department.

3. Participants Interests

A Participant's interest in the Plan is based on Units of Participation, the value of which is calculated daily for each fund based on the aggregate fair value of the fund's investments. A Participant obtaining a distribution from the Plan receives the fair value of his or her account. If a Participant leaves the Company before becoming fully vested in the Company's matching contributions to the Plan, the Participant will forfeit the nonvested portion of the Company's matching contributions. Under the provisions of the Plan, a Participant may, at the discretion of the EPAC, be permitted to (i) contribute to the Plan certain distributions received from another qualified employee benefit plan or (ii) direct the trustee of such other plan to make a trust-to-trust transfer to the Plan of the Participant's account in such other plan.
