Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

In order to more closely align ongoing executive incentives and stockholder expectations, on January 20, 2010 the Board of Directors (the Board) of McKesson Corporation (the Company) approved a number of important adjustments to the Company's corporate governance and executive compensation programs. A summary of each modification is provided below.

Executive Death Benefits Policy

To bring the Company's policies more in line with current practices at other leading corporations, the Board approved a new executive death benefits policy such that effective immediately, the Company will not enter into a new plan, program or agreement (a Benefit Agreement) with any executive officer, as defined by the Federal securities laws (an Executive Officer), or a material amendment of an existing Benefit Agreement with any Executive Officer, which provides for a death benefit that is not generally provided to all employees, including salary continuation upon the death of an Executive Officer, unless such Benefit Agreement or material amendment thereto is approved by the Company's stockholders pursuant to an advisory vote.

Executive Survivor Benefits Plan

In tandem with the new executive death benefits policy, the Board approved an amendment to the Company's Executive Survivor Benefits Plan (the ESBP) such that no new executive may be designated to participate in the plan, effective immediately. Thereby, participation in the Company's ESBP was frozen to the current roster of beneficiaries, which includes all current Executive Officers. For those that remain as plan participants, the ESBP will continue to provide a supplemental death benefit in addition to the voluntary and company-provided life insurance plan afforded to all employees. A detailed description of the ESBP is available in the Company's 2009 annual proxy statement on Schedule 14A, under the subheading Potential Payments upon Termination or Change-in-Control, which was filed with the Securities and Exchange Commission (the SEC) on June 15, 2009.

A copy of the ESBP, amended and restated as of January 20, 2010, is attached hereto as Exhibit 10.1 and is incorporated herein by reference.

Item 8.01 Other Events.

Stock Ownership Policy

Recognizing the continuing importance of aligning executives with the interests of stockholders, on January 20, 2010 the Board strengthened and clarified a number of provisions in the Company's guidelines for stock ownership by executives (the Stock Ownership Policy). Specifically, in order to increase program clarity, the Stock Ownership Policy was restated such that the chief executive officer's holding requirement is now expressed as ten times his base salary, and the holding requirement for each of the Company's remaining Executive Officers is now expressed as six times his or her base salary. Prior to the restatement, the ownership requirement for the chief executive officer was four times his combined base salary and target annual cash bonus, which we refer to as the Management Incentive Plan (the MIP), and each of the Company's remaining Executive Officers had to achieve stock ownership equal in value to three times his or her combined base salary and target MIP.

All other provisions in the Stock Ownership Policy remain the same, except for the addition of a new enforcement feature. Effective immediately, each affected equity incentive award will include language

that the Company reserves the right to impose a sell restriction on the underlying shares of common stock delivered when these awards vest, should the executive fail to meet his or her ownership requirement as specified in the Stock Ownership Policy.

Compensation Recoupment Policy

The Board believes it desirable, and in the best interests of the Company and its stockholders, to maintain and enhance a culture that is focused on integrity and accountability, and that discourages conduct detrimental to the Company's sustainable growth. To that end, on January 20, 2010 the Board approved an updated Compensation Recoupment Policy (the Recoupment Policy) that both expands on and clarifies the previous clawback policies embedded in the Company's various incentive plans and programs. The updated Recoupment Policy applies to any Company employee who receives a cash or equity incentive award after January 20, 2010.

Under the Recoupment Policy, and consistent with the Company's core values, the Board determined that it may be appropriate for the Company to recover annual or long-term incentive compensation provided to certain employees in the event that these individuals engage in conduct that is detrimental to the Company. Specifically, the Company may recoup incentive compensation from any employee if: (i) he or she engages in intentional misconduct pertaining to any financial reporting requirement under the Federal securities laws resulting in the Company being required to prepare and file an accounting restatement with the SEC as a result of such misconduct, other than a restatement due to changes in accounting policy; (ii) there is a material negative revision of a financial or operating measure on the basis of which incentive compensation was awarded or paid to the employee; or (iii) he or she engages in any fraud, theft, misappropriation, embezzlement or dishonesty to the material detriment of the Company's financial results as filed with the SEC. If triggered, then to the fullest extent permitted by law, the Company may require the employee to reimburse the Company for all, or a portion of, any incentive compensation received in cash within the last 12 months, and remit to the Company any profits realized from the sale of the Company's common stock within the last 12 months.

Item 9.01 Financial Statements and Exhibits.
