**ELECTION OF DIRECTORS and INFORMATION WITH RESPECT TO
BOARD OF DIRECTORS**

Our Board of Directors is divided into three classes, one of which is elected at each Annual Meeting for a term of three years and until their successors have been elected and qualified. The Board of Directors has nominated three persons for election as Directors for the terms indicated in the following table. The Board of Directors believes that the nominees will be available and able to serve as Directors, but, if for any reason any of them should not be, the persons named in the proxy may exercise discretionary authority to vote for a substitute proposed by the Board of Directors. The holders of a majority of the outstanding shares of common stock are required to be present in person or to be represented by proxy at the meeting in order to constitute a quorum for transaction of business. Directors are elected by a plurality of the votes cast. Proxies indicating abstentions and broker non-votes are counted as present for quorum purposes but are not counted for or against the election of Directors. Our By-laws govern the methods for

counting votes and vest this responsibility in the Inspectors of Election appointed to perform this function.

The Board of Directors currently consists of eleven members. Thomas P. Connolly, whose term expires in 2010, has elected to retire as a director and is not standing for re-election. As approved at the January 27, 2010 Board of Directors meeting, the Board size will be fixed at ten members effective at the Annual Organizational

CORPORATE GOVERNANCE INFORMATION

Based on recommendations made by the Executive, Nominating and Governance Committee, the Board of Directors has determined that all current directors are independent under NASDAQ rules, except Peter G. Humphrey, the President and Chief Executive Officer. Relationships described in the section titled Certain Relationships and Related Party Transactions were taken into consideration when determining this status.

In 2009, the Board of Directors held fourteen meetings. All Directors attended more than 75% of the Board meetings and the meetings of Committees on which they serve. There is no required attendance policy with respect to the Annual Meeting of Shareholders however all of the directors did attend the 2009 Annual Meeting.

The Board of Directors has established the following four standing committees: Audit; Management Development and Compensation; Executive, Nominating and Governance; and Risk Oversight. All the committees function under written charters that outline the respective authority, membership, meetings, duties and responsibilities. These committee charters may be viewed by accessing the *Investor Relations* tab on the FII website (<http://www.fiiwarsaw.com>). The Company has a written Code of Business Conduct and Ethics policy to assist its Directors, officers, and employees in adhering to their ethical and legal responsibilities. Additionally the Company has a Code of Ethics for CEO, CFO and Senior Financial Officers policy that prescribes the corporate governance employed in the finance area. The current versions of these policies may be viewed by accessing the *Investor Relations* tab on the FII website under the *Corporate Overview Governance Documents* section (<http://www.fiiwarsaw.com>).

The Board of Directors of FII also serves as the Board of Directors of its wholly-owned subsidiary, Five Star Bank, and the compensation, risk oversight, audit and governance functions of the Five Star Bank Board are delegated to the appropriate committees of the FII Board.

The Audit Committee engages and reviews the general scope of the audit conducted by our independent auditors and matters relating to our financial reporting, internal control systems and credit quality. In performing its function, the Audit Committee meets separately with representatives of the independent auditors, internal auditors and senior management. In 2009, the Audit Committee held nine meetings. The Audit Committee members are Chairman James L. Robinson, Karl V. Anderson, Jr., Barton P. Dambra, and Samuel M. Gullo. Mr. Robinson and Mr. Dambra are the committee's audit committee financial experts. All committee members are independent as defined in Securities and Exchange Commission and NASDAQ rules applicable to audit committees.

The Management Development and Compensation (MD&C) Committee is responsible for establishing the performance goals and objectives, evaluating the performance, and recommending and approving all components of compensation for the Company's CEO. The Committee is responsible for oversight of performance, compensation, benefit plans, and succession plans for senior and executive management. The MD&C Committee also reviews and makes recommendations to the full Board with regard to compensation of Directors. All committee members are independent under NASDAQ rules. The MD&C Committee members are Susan R. Holliday, Chair, Samuel M. Gullo, Robert N. Latella and Thomas P. Connolly. In 2009, the MD&C Committee held seven meetings.

The Executive, Nominating and Governance (ENG) Committee is charged with assisting the Board of Directors with strategic planning, in identifying qualified individuals to become Directors, determining membership on Board committees and addressing corporate governance issues. The Committee members are John E. Benjamin, Chairman, Susan R. Holliday, Robert N. Latella, James L. Robinson and James H. Wyckoff. All committee members are considered independent under NASDAQ rules. In 2009, the ENG Committee held nine meetings. The ENG

Committee will consider nominations made by shareholders that are timely received pursuant to our By-laws. The consideration process will include, but not be limited to, determining (i) whether the nominee would be independent , and (ii) whether the nominee fits the Board s then current needs for diversity, geographic distribution and professional expertise. Written nominations should be sent to

Table of Contents

the Director of Human Resources. The ENG Committee will evaluate all nominees on the same basis, provided that current Directors may be evaluated solely on the basis of their record of performance as an FII Director. Requests for Board of Director selection are posted on the FII website under the *Corporate Overview Governance Documents* section (<http://www.fiiwarsaw.com>).

The Risk Oversight Committee was established in May 2009 by the FII Board of Directors to assist the Board in establishing prudent levels of risk consistent with the Company's strategic objectives, and in reviewing the Company's risk management framework and processes, including the significant policies, procedures, and practices employed to identify, measure, monitor and control the Company's risk profile. The first meeting of the newly formed committee was held in July 2009. The committee meets with the Chief Risk Officer at least on a quarterly basis, and reports to the Board on various levels of risk associated with the approved business and financial plans of the Company relative to credit risk, investment risk, liquidity risk, interest rate risk, operational risk, and legal and compliance risk. In 2009, the Risk Oversight Committee held two meetings. The committee members are Robert N. Latella, Chairman, Susan R. Holliday, Karl V. Anderson, Jr., and Barton P. Dambra. All committee members are independent under NASDAQ rules.

The Vice Chairman's position was created at the Annual Organizational Meeting in May 2009. By selecting a Vice Chairman in 2009 the Company created a position by which a Director would have the opportunity to work with the current Chairman and the Company's CEO, both of who have extensive banking experience respectively. This would allow for an appropriate future transition and succession to the Chairman's position.

AUDIT COMMITTEE REPORT

The Audit Committee of the Company assists the Board of Directors in its general oversight of the Company's financial reporting process, internal controls and audit functions. The Audit Committee is comprised of independent members, as defined in Securities and Exchange Commission rules, including two financial experts, as defined by the NASDAQ rules, and operates under a written charter adopted by the Board of Directors. The Committee reviews and assesses the adequacy of its charter on an annual basis.

Management is responsible for the Company's internal controls and financial reporting process. The Company's independent registered public accounting firm, KPMG LLP (KPMG), is responsible for performing an independent audit of the Company's consolidated financial statements and the effectiveness of the Company's internal controls over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States) and to issue reports thereon. The Audit Committee's responsibility is to monitor and oversee the financial reporting and audit processes.

In connection with these responsibilities, the Company's Audit Committee met with management and the independent accountants to review and discuss the Company's December 31, 2009 consolidated financial statements. The Audit Committee also discussed with the independent accountants matters requiring communications. The Audit Committee received written disclosures from the independent accountants required by the applicable sections of the Public Company Accounting Oversight Board and considered the compatibility of non-audit services with KPMG's independence.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

The economic crisis has dramatically impacted the profitability and overall performance of financial institutions over the last two years. Industry capitalization levels have deteriorated as loans and investment portfolios continue to be compromised by both declining credit quality and related falling valuations. While much of the industry suspended lending out of concerns over their organization's asset quality, mounting losses and liquidity, our Company lent nearly \$450 million in 2009. Taking advantage of indiscriminant retrenchment in commercial and auto lending, the Company focused on opportunities to continue to serve our communities by acquiring new relationships, while maintaining our high standards of credit worthiness, a strong collateral position and solid cash flow.

The Company recognizes its value to the communities it serves. The Board of Directors and the management team recognize the importance of their responsibilities with respect to assessing and managing risk. We remain committed to compliance with the American Recovery and Reinvestment Act and the respective guidance on executive compensation and corporate governance under the Troubled Asset Relief Program (TARP), while maximizing the return on the use of inexpensive TARP capital, to the benefit of our shareholders.

We remain alert as we examine the regulatory landscape. We continue to work diligently with our trade associations and lobbyists to urge a proper balance between the proposed new burdensome regulations and the economic and resource realities of community banks.

The Company's compensation philosophy is focused on rewarding its employees for performance excellence, with an acute regard for long term Company performance and shareholder return. Compensation plans are designed to discourage unnecessary and excessive risks while maintaining the ability to attract and retain outstanding talent.

We are confident that the most difficult challenges are behind us and that the Company's core performance will remain strong.

Role of the Management Development & Compensation Committee

Overview of Compensation Program

The Management Development and Compensation Committee (the Committee) of the Board is responsible for establishing the performance goals and objectives, evaluating the performance, and evaluating and approving all components of compensation for the Company's CEO. The Committee is responsible for oversight of performance, compensation, benefit plans, and succession plans for senior and executive management. The Committee also reviews and makes recommendations to the full Board with regard to compensation of Directors. All Committee members are independent under NASDAQ rules.

The Committee's Charter calls for it to meet at least three times annually, or more frequently as circumstances warrant. The Committee met seven times during 2009.

Compensation Philosophy and Objectives

The Company's philosophy for executive officer compensation is to align pay with performance, while at the same time providing competitive compensation that allows the Company to retain, attract and motivate executives to achieve the short and long-term objectives of the Company. The Committee believes that executive compensation should be directly linked to continuous improvements in corporate performance.

Table of Contents

The executive compensation program is designed to:

Drive performance relative to our financial goals, balancing short-term operational objectives with long-term strategic goals;

Align executives' long-term interests with those of shareholders by placing a portion of total compensation at risk, contingent on our performance;

Attract and retain the highly-qualified executives needed to achieve our goals, and maintain a stable executive management group;

Deliver compensation effectively, providing value to the executive in a controlled and cost-effective manner;

Allow flexibility in responding to changing laws, accounting standards, and business needs, as well as the constraints and dynamic conditions in the markets in which we do business.

Role of Executive Officers in Compensation Decisions

The Committee reviews and approves all compensation decisions for the executive officers named in the Summary Compensation Table which follows, and approves equity awards to all officers of the Company including the Chief Executive Officer (CEO). Decisions regarding the non-equity compensation of other senior executive officers are made by the CEO. The Chairman of the Board and the CEO annually review the performance of each senior executive officer, other than the CEO, whose performance is reviewed by the Committee. The conclusions reached and recommendations based on these reviews, with respect to salary adjustments and annual cash incentive amounts, are presented to the Committee. The Committee has final discretion over all compensation of the Company's senior executive officers, which includes the named executive officers.

Committee Activity and Key Initiatives During 2009

In 2009, the Committee completed the following initiatives:

Review of the Annual Management Incentive Plan;

Review of the Long-Term Equity-Based Incentive Plan;

Review of Senior Executive Officer Compensation and all incentive plans for unnecessary and excessive risk. The Committee worked with the Senior Risk Officer to review all employee compensation plans for unnecessary and excessive risk;

Executive leadership changes/organizational structure;

A search for an executive compensation consultant.

Interactions with Consultants

The Committee evaluates existing compensation program components on an ongoing basis to maintain the Company's competitive position and meet the goal of attracting, retaining and motivating key executives. From time to time, the Committee seeks advice from outside experts in the executive compensation field. As a result of the Committee's

search for a compensation consultant in 2009, the Committee retained Amalfi Consulting, LLC (Amalfi Consulting) to assist with several projects.

Table of Contents

Amalfi Consulting's consultants report directly to the Committee and the Committee discusses, reviews, and approves all consulting projects performed by Amalfi Consulting. There were no other relationships between the Company and Amalfi Consulting in 2009.

Setting Executive Compensation

The Committee reviews compensation practices of other banking organizations. For 2009, no external compensation benchmarking was conducted. The Committee anticipates formal benchmarking of executive salaries will take place during the first half of 2010, therefore, the Committee worked with Amalfi Consulting and a new peer group was selected based on the following criteria:

United States publicly traded financial institutions;

Headquartered in the northeast states of Connecticut, Massachusetts, Maine, New Hampshire, New Jersey, upstate New York, Ohio, western Pennsylvania, Rhode Island and Vermont;

\$1.0-\$5.5 billion in assets.

The following peer group was approved by the Committee as appropriate for the compensation analysis of the Company's top executives. Nine of the twenty-one peer banks have participated in the TARP program.

Elements of Compensation

Our executive compensation program consists of the following principle components:

1. Base salary;
2. Annual incentive awards; and
3. Performance-based equity incentives.

Base Salary

It is the Committee's philosophy to compensate the Company's executive officers competitively. Base salaries are determined annually based on the scope and performance of the executives' responsibilities and the experience, skills and knowledge required for the position, taking into account compensation paid by competitive financial services organizations for similar positions. Generally, the Committee believes that executive base salaries should be targeted near the median market levels within the peer group, as defined by asset size and geography, for executives in similar positions and with similar responsibilities. The Committee also recognizes that, in some circumstances, it may be necessary to provide compensation at above-market levels. These circumstances include the need to retain or attract key individuals, or to recognize roles that were larger in scope or accountability than comparable market positions.

Based on 2009 individual performance and the merit increase guidelines in the Company's salary administration program, the following base salary increases to the named executives were approved for 2010: Mr. Humphrey received a 2% merit increase as compared to 0% for 2009, a year in which salary increases to executives were limited in order to control overall salary costs. Mr. Miller received a 5% merit increase, as compared to 0% in 2009. For 2010, Mr. Krebs received a salary range adjustment of \$10,000 in order to bring his base salary more in line with market salaries for CFO positions in companies of our size. Messrs. Witkowski, Hagi and Birmingham received merit increases of 1.7%, 2.8%, and 2.3%, respectively, as compared to 2%, 0%, and 2.7%, respectively in 2009. Individual performance and position in salary range are the two factors considered in determining merit increases.

Annual Incentive Plan

Executive incentive compensation is based on a pay-for-performance philosophy, which emphasizes performance targets that correlate with Company financial performance, so a portion of our executives' annual and long-term compensation is at risk. The percentage of compensation at risk increases as the executive level rises. This provides additional upside potential and downside risk for more senior executives, recognizing that these executives have greater influence on the performance of the Company.

The Annual Management Incentive Plan is a cash incentive plan designed to reward employees who do not participate in any direct sales incentive plan. The Annual Incentive Plan is intended to compensate employees for the Company's achievement of financial goals at corporate and business unit levels and for achieving measurable individual annual performance objectives. The 2009 annual incentive plan awards started at 90% of goal and were capped at an achievement level of 120% of goal. Incentive awards were also subject to an adjustment factor based on individual-specific performance goals. For 2009, the Committee chose earnings per share (EPS) as the corporate performance measurement and set the target at \$.95 per common share.

For 2009, the target incentives for executives ranged from 30% to 50% of base salary, depending on the executive officer's position. The amount of an executive's actual annual incentive award, in relation to the executive's target opportunity, was based on the Company's performance versus the EPS target and the executive's individual performance. The individual performance component of the annual incentive was based on measures of performance relevant to the particular individual's job responsibilities. The target incentive was subject to application of an individual adjustment factor. In determining achievement of the target incentive, the Company's 2009 reported EPS was \$.99 per common share.

On January 13, 2010, the Committee approved 2009 incentives earned under the Company's Annual Management Incentive Plan. As a TARP recipient, limitations have been placed on the Company's ability to pay cash incentives to certain employees. Therefore, to remain in compliance with TARP, the Committee elected to pay annual incentives earned under the Annual Incentive Plan in the form of restricted stock to certain executive officers and obtain clawback agreements from the required officers and employees paid cash incentives for 2009. The Committee determined the number of shares of restricted stock to be granted by dividing the executive officer's 2009 incentive earned by the closing price of the Company's common stock on January 13, 2010. The restricted stock awards were granted under the Company's 2009 Management Stock Incentive Plan. The awards vest on January 13, 2012, subject to the participant's continued employment with the Company and subject to accelerated vesting upon the death or disability of the participant, however, as long as the Company is a TARP recipient, as defined under the Interim Final Rules, the award may become transferable only in 25% increments at the time of the Company's repayment of 25%, 50%, 75%, and 100%, respectively, of the financial assistance it received under the Treasury's Capital Purchase Program, or as may be required to satisfy tax obligations incurred in connection with the vesting of the restricted shares. The unvested restricted stock is not entitled to receive dividends.

Table of Contents

Restricted stock was granted as follows: Mr. Humphrey 17,807 shares, Mr. Witkowski 5,681 shares, Mr. Hagi 6,554 shares, and Mr. Birmingham 5,124 shares. These awards were in lieu of a cash award.

2009 Management Incentive Plan Awards

Executive Name	Target Incentive (\$)	Incentive Earned (\$)	Restricted Stock Granted in Lieu of Cash (#)
Peter G. Humphrey	199,084	199,084	17,807
John J. Witkowski	66,856	63,513	5,681

Martin K. Birmingham	60,305	57,290	5,124

The 2010 Annual Incentive Plan will again use EPS as the corporate performance measure for incentive payments to the named executive officers. At least 90% of the Company's EPS goal must be achieved in order for that portion of the incentive attributable to the EPS goal to be earned. The 2010 Plan will include two additional corporate performance measures to further ensure incentives do not encourage excessive risk taking and the plan promotes sustainable performance and safety and soundness. Along with EPS, the performance measures include non-performing assets and efficiency ratio. An additional feature of the 2010 Annual Incentive Plan for certain employees will be the deferral of a percentage of the annual incentive award for an additional two years to ensure the Company's performance has been sustained.

Long-Term Equity-Based Incentives

Long-term incentives are important components of our compensation program. Two types of long-term equity-based incentive awards may be granted to executive officers. The objectives of the program are to retain executives, align executives' financial interests with the interests of the shareholders, and reward the achievement of the Company's goals.

Non-Qualified Stock Options. Options are granted at an exercise price equal to the price as of close of business on the date of the grant. Option grants vest 25% on the first anniversary of the date of grant and an additional 25% of shares vest on each of the second, third, and fourth anniversaries of the date of grant, provided the employee is still employed by the Company. Options expire not more than ten years from the date of grant.

Restricted Stock. Restricted stock is used to incent the named executive officers and certain other key executives. The value of each share is determined as of the close of business on the date of the grant. The executive is entitled to receive dividends with respect to unvested shares unless otherwise specified in the restricted stock agreement.

Timing of Grants. Stock options and restricted stock grants are approved at regularly scheduled predetermined meetings of the MD&C Committee. The number of restricted stock grants awarded to named executive officers in 2009 was based on their positions and relative responsibilities and did not take into consideration the executive's shareholdings or previous awards. No stock options were awarded to named executive officers in 2009.

The 1999 Management Stock Incentive Plan provided that no award may be granted more than ten years after the effective date of the plan, May 27, 1999. Therefore, the Board of Directors of the Company adopted the 2009 Management Stock Incentive Plan so that the Company could continue to make stock-based awards to eligible employees after expiration of the 1999 Plan. At the May 6, 2009 shareholders meeting, the 2009

Table of Contents

Management Stock Incentive Plan was approved. No awards may be granted more than 10 years after the effective date.

The Company's Management Restricted Stock Agreement provides for an award of restricted shares that vest based on achievement of three Company performance targets and satisfaction of service requirements. If the participant ceases to be employed by the Company before the shares vest under the service vesting schedule, the shares are immediately forfeited, except as provided in the Management Stock Incentive Plan and the Restricted Stock Agreement. 50% of the restricted shares earned will vest 24 months from the grant date, and 50% vest 36 months from the grant date.

For 2009, the performance targets were earnings per share, net charge offs, and efficiency ratio, weighted 60%, 20%, and 20%, respectively. Subject to the service requirements, each participant could earn between 92% and 100% of the restricted shares if performance targets between 95% and 103% of the Company goals were achieved. If a performance target was not at least 95% satisfied, the shares associated with that target were forfeited. If the maximum performance target was not achieved, a portion of the shares associated with that target were forfeited.

Restricted stock awards made in 2009 to executive officers are shown in the Outstanding Equity Awards Table. A qualitative gateway performance goal must be attained before any restricted stock awards are considered. Full vesting of restricted stock awarded to the named executive officers will be subject to the vesting limitations under TARP regulations and the terms of the Plan.

Each of the Company's 2009 performance targets were met and the Company's 2009 EPS and net charge-off results surpassed 2009 targets. The Company's efficiency ratio for December 31, 2009, was 101.1% of the target, however, slightly under the maximum performance target of 103%. As a result, partial stock awards were made as shown in the tables below.

Performance Measure	Performance Target	2009 Performance Targets		Result as a % of Target	Restricted Stock Awarded ⁽²⁾
		Shares Subject to Performance Measure	2009 Results		
Earnings Per Share	\$.95 per common share	60%	\$.99 per common share	104.2%	60%

Efficiency Ratio ⁽¹⁾	66.27%	20%	65.52%	101.1%	19.6%

(1) Efficiency ratio equals noninterest expense less other real estate expense and amortization of intangible assets as a percentage of net revenue, defined as the sum of tax-equivalent net interest income and noninterest income before net gains and impairment charges on investment securities, and proceeds from company owned life insurance included in income.

(2) Where performance targets related to granted restricted shares are not met those shares will not be converted to an award and will be forfeited.

For 2010, the Restricted Stock Agreement provides for awards of restricted shares based on the achievement of earnings per share, efficiency ratio and non-performing assets as performance targets and the number of shares that are subject to each performance measure.

Stock Ownership Guidelines

To directly align the interests of executive officers with the interests of the shareholders, the Committee requires that each named executive officer maintain a minimum ownership interest in the Company, which varies depending upon the executive's position. The CEO is required to own a number of shares at least equal in value to his base salary, while the other named executive officers are required to own a number of shares with a value of at least \$50,000. Executives are required to satisfy their stock ownership requirement within five years of the effective date of the plan, or December 31, 2010, or within five years beginning in January following the year they become subject to the ownership requirement. Until this requirement is satisfied, executives are required to retain at least 75% of the net shares acquired through the Company's Management Stock Incentive Plan. Once achieved, ownership of the required shares must be maintained for as long as the individual is subject to the requirements.

100% vesting after five years of qualified service. The Plan was closed to new Participants effective December 31, 2006.

A Participant's Normal Retirement Benefit is an annual pension benefit commencing on his Normal Retirement Date. Normal Retirement Age for participants who first participated in the plan prior to January 1, 2004, is age 62 with ten years of vesting service, as defined in the plan. Normal Retirement Age is age 65 for any participant who first participates in the plan on or after January 1, 2004. Basic benefits are determined by formulas that recognize benefit service accrued prior to January 1, 2004 and service accrued on or after January 1, 2004.

The following table provides information regarding the present value of the accumulated benefit and years of credited service for the named executive officers under the Company's pension plan:

Voluntary Retirement Agreements

As part of the Company's management succession planning, the Committee entered into voluntary retirement agreements with James T. Rudgers, Executive Vice President and Chief of Community Banking and Ronald A. Miller, Executive Vice President and CFO, on September 24, 2008. By amendment dated June 30, 2009, Mr. Rudgers' retirement date changed from June 30, 2009 to September 30, 2009. The amendment further provided employment conditions for the period July 1, 2009 through September 30, 2009. Mr. Rudgers was paid \$10,000 per month for his part-time services provided in July, August, and September 2009. The commencement date for his consulting services was also changed from July 1, 2009 to October 1, 2009. Nonqualified Deferred Compensation

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code. The Committee generally intends to maximize deductibility of compensation under Section 162(m) to the extent consistent with our overall compensation objectives, while maintaining flexibility with regard to compensation plan designs and appropriate payments to the Company's executive officers. Therefore, the Committee reserves the right to approve non-deductible compensation, while considering the financial effects such action may have on the Company. Section 162(m) limits the tax deduction available to public companies for annual compensation paid to certain executive officers in excess of \$1 million, unless the compensation qualifies as performance-based, or is otherwise exempt from Section 162(m). Annual incentives and equity-based awards made to executive officers under the Company's 2009 Management Stock Incentive Plan are intended to qualify as performance-based compensation under Section 162(m). In addition, as a condition to participate in the U.S. Treasury's Capital Purchase Program, no deduction will be claimed for remuneration for federal income tax purposes in excess of \$500,000 for each senior executive officer of the Company.

Management Development & Compensation Committee Report

The MD&C Committee of the Company's Board of Directors has reviewed and discussed the Compensation Discussion and Analysis with management and, based on such review and discussions, the MD&C Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The MD&C Committee certifies that:

- (1) It has reviewed with the Senior Risk Officer the Senior Executive Officers' (SEO) compensation plans and has made all reasonable efforts to ensure that these plans do not encourage SEOs to take unnecessary and excessive risks that threaten the value of the Company;
- (2) It has reviewed with the Senior Risk Officer the employee compensation plans and has made all reasonable efforts to limit any unnecessary risks these plans pose to the Company; and
- (3) It has reviewed the employee compensation plans to eliminate any features of these plans that would encourage the manipulation of reported earnings of the Company to enhance the compensation of any employee.

At the MD&C Committee meeting held January 14, 2009, the Senior Risk Officer presented the fundamental aspects of the Company's Management Incentive Compensation Programs, including the Annual Management Incentive Plan and the Performance Based Equity Incentive Plan. The Senior Risk Officer determined that the risk management processes and risk mitigation practices in place throughout the Company ensure that management operates within established and acceptable risk tolerance limits and that the Company's Management Incentive Compensation Programs do not lead to excessive risk taking activities.

At the MD&C Committee meeting held October 14, 2009, the Senior Risk Officer reviewed with the Committee the Senior Executive Officers' Compensation Plans and presented an evaluation of all the other employee compensation plans employed by the Company. This evaluation focused on the risks posed to the Company by such plans, how the Company's overall risk management processes limit such risks, and how the Company's system of internal control over financial reporting ensures these plans do not encourage the manipulation of reported earnings by the Company's employees. The plans reviewed at the January 14th meeting were again determined not to encourage unnecessary and excessive risk. The review of the remaining employee compensation plans revealed that the Company maintains fourteen distinct employee compensation plans. The review included eligible employees covered under each plan, a description of each plan, and the frequency of pay under each plan, and a risk assessment of each of the plans. Based on a review of the various plans, it was determined that all the employee compensation plans focused on long term value creation for the Company. Further the Company's risk management processes and risk mitigation practices ensure that no unnecessary risks are being fostered based on the design of the compensation plans.

Change in Control Agreements

The Company has entered into Change of Control Agreements with certain key employees, including Messrs. Humphrey, Miller, Witkowski, Hagi, and Birmingham. The Change of Control Agreements are designed to promote stability and continuity of senior management. If a change of control, as defined in the agreement, occurs during the Executive's employment, and if within the twelve-month period following such change of control, either the Company terminates the Executive, other than for cause, or the Executive terminates his employment for good reason, as defined in the agreement, the Executive will be entitled to benefits as provided in the Agreement. Each Change of Control Agreement includes covenants by the executive not to solicit employees of the Company during a period following their notice of termination, and not to compete during the term of the Agreement and during any period for which the executive is entitled to receive compensation and six months thereafter.

The following summary sets forth potential cash payments and benefits in the event that a named executive's employment terminates as a result of an involuntary termination or the executive terminates his employment because of good reason at any time within twelve months after a change of control:

1. All stock options and restricted stock held by the named executive will become fully vested and exercisable;
2. Medical and dental benefits will continue for a period not to exceed 18 months;
3. Monthly cash payments equal to 1/12th the sum of the base salary amount for the most recent calendar year ending before the date on which the change of control occurred plus the average of the annual incentive compensation earned by the Executive for the two most recent calendar years ending before the date on which the change of control occurred will be made;

4. Mr. Humphrey is entitled to receive these cash payments over a thirty-six month period. Messrs. Miller and Hagi are entitled to receive cash payments for twenty-four months. Messrs. Witkowski and Birmingham are entitled to receive cash payments for twelve months.

The Company participated in the U.S. Treasury's Capital Purchase Program (CPP). As a result, the Company is prohibited from making any golden parachute payments to the named executives and certain other employees during the period the Treasury holds any of the Company's securities issued under the CPP. The senior executive officers have agreed to executive compensation waivers and agreements which specify the limitations on their compensation arrangements required by the CPP.

Table of Contents**Director Compensation**

The Company uses a combination of cash and stock-based compensation to attract and retain qualified candidates to serve on the Board. In setting Director compensation, the Company considers the significant amount of time that Directors expend in fulfilling their duties to the Company, as well as the skill levels required of members of the Board. Directors are subject to a minimum stock ownership requirement. Within five years after joining the Board, each Director is required to own shares of the Company's Common Stock with a value of \$50,000 based on the trailing 365-day average closing common stock price.

Compensation Paid to Board Members

For the fiscal year ended December 31, 2009, members of the Board who were not employees of the Company received annual cash retainers for serving on the Company Board of Directors and for serving on the Board of the Company's wholly-owned subsidiary, Five Star Bank, as shown in the tables which follow. Half of the retainers is paid in shares of the Company's common stock on the date of the Company's Annual Organizational Meeting and half is paid in cash six months thereafter. Directors may elect to receive cash instead of stock. Board service fees are specified in the table which follows. Company and Bank Board meetings are normally scheduled on the same day, therefore only one meeting fee is paid. In the event a Bank Board or Committee meeting is held on a day other than a Company meeting, fees are paid in accordance with the schedule for Company meetings. Board members are reimbursed for reasonable travel expenses to attend meetings.

Effective as of the Annual Organizational Meeting of the Board held on May 6, 2009, John E. Benjamin was named Vice Chairman of the Board of Directors of Financial Institutions, Inc. and Five Star Bank. This position and corresponding fees were approved by the Company's Board of Directors at its meeting held on December 19, 2008.

Table of Contents**Non-Qualified Stock Options and Restricted Stock**

The Board of Directors of the Company adopted the 2009 Director Stock Incentive Plan so that the Company could continue to make awards to non-employee directors after expiration of the 1999 Plan. At the May 6, 2009 shareholders meeting, the 2009 Director Stock Incentive Plan was approved which provides awards that may consist of any combination of non-qualified stock options as well as restricted stock grants. No awards may be granted more than 10 years after the effective date. These grants are made at the Company's Annual Organizational Meeting.

Under the terms of the 2009 Director Stock Incentive Plan, for 2009, each Company Director was granted 400 shares of restricted stock and each Bank Director was granted 400 shares of restricted stock at a grant price of \$14.86. The Restricted Stock Agreement provides that fifty percent (50%) of the shares shall vest immediately upon the date of the grant, and if the Director remains in continuous service as a director of the Company until the first anniversary of the date of grant, the remaining fifty percent (50%) of the shares will vest. If the Director ceases to be a director of the Company before the shares vest, the shares shall be immediately forfeited, subject to the terms of the Plan. Directors will be entitled to receive any dividends paid with respect to the unvested shares. No non-qualified stock options were granted to Directors in 2009. The following table sets forth certain information regarding 2009 total director compensation.

Peter G. Humphrey and James H. Wyckoff are first cousins.

The Company maintains a policy on Related Party Transactions that provides for the oversight of such transactions by the Chief Risk Officer, as outlined in the Code of Business Conduct and Ethics policy, and the Company's Audit Committee.

During 2009 neither FII nor any subsidiary of FII was a party to any transaction or series of transactions in which the amount involved exceeded \$120,000 and which any director, executive officer, or related interests had or will have a direct or indirect material interest other than:

**PROPOSAL FOR
ADVISORY APPROVAL OF EXECUTIVE OFFICER COMPENSATION**

The Company believes that the executive compensation policies and procedures which have been developed by the Management Development and Compensation Committee of the Board of Directors are appropriately aligned with the long-term interests of our shareholders.

The American Recovery and Reinvestment Act of 2009 (ARRA), enacted on February 17, 2009, requires that all participants in the U.S. Treasury Department's Troubled Asset Relief Program conduct an advisory, non-binding shareholder vote to approve the compensation of their executives. Since the Company participated in that program, the Company is providing shareholders the opportunity to cast an advisory vote on the compensation of the executive officers.

This proposal, commonly known as a "say-on-pay" proposal, gives shareholders the opportunity to vote on the following resolution:

RESOLVED, that the shareholders of Financial Institutions, Inc. approve the compensation of its executives named in the Summary Compensation Table in the Proxy Statement for its 2010 Annual Meeting of Shareholders, as well as the Compensation Discussion and Analysis, the tabular disclosures regarding executive compensation and the related narrative disclosure contained in the Proxy Statement.

Under the ARRA, the vote on this matter is advisory and will therefore not be binding upon the Board of Directors.

Vote Required.

The Board of Directors recommends that the shareholders approve the executive officer compensation resolution and, accordingly, recommends a vote FOR this proposal.
