Filed Pursuant To Rule 433
Registration No. 333-167132
September 13, 2010

Bull market? Bear market? Gold is an equal opportunity investment. Historically, gold hasn't mirrored the market's behavior. So it's generally not been tied to the ups and downs of Wall Street.* That's why SPDR Gold Shares are a great way to help investors diversify their holdings. To see why GLD is a different animal, visit spdrgoldshares.com. *Source: Based on a 10-year correlation of monthly returns on key asset classes versus gold, August 1999-August 2009; Bloomberg, Barclays, JP Morgan, World Gold Council. Important Information Relating to SPDR Gold Shares Trust: The SPDR Gold Shares Trust (GLD) has filed a registration statement (including a prospectus) with the Securities and Exchange Commission (SEC) for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents GLD has filed with the SEC for more complete information about GLD and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov or by visiting www.spdrgoldshares.com.

Alternatively, the Trust or any authorized participant will arrange to send you the prospectus if you request it by calling 1-866-320-4053. GLD is not an investment company registered under the Investment Company Act of 1940 (the 1940 Act) and is not subject to regulation under the Commodity Exchange Act of 1936 (the CEA). As a result, shareholders of the Trust do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act or the protections afforded by the CEA. GLD shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of GLD shares relates directly to the value of the gold held by GLD (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them. GLD does not generate any income, and as GLD regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time.

Investing involves risk, and you could lose money on an investment in GLD. Please see the GLD prospectus for a detailed discussion of the risks of investing in GLD shares.
