

Edgar Filing: Enterprise GP Holdings L.P. - Form 425

Enterprise GP Holdings L.P.
Form 425
October 07, 2010

**Filed by Enterprise Products Partners L.P.
Pursuant to Rule 425 under the Securities Act of 1933
Subject Company: Enterprise GP Holdings L.P.
Commission File No.: 333-169437**

Enterprise Products Partners L.P. is filing an investor presentation that discloses a variety of financial, operating and general information regarding the company. In addition, this material contains references to the proposed merger with Enterprise GP Holdings L.P. The presentation will be posted on our website, www.epplp.com.

Enterprise Products Partners L.P. (NYSE: EPD) October 2010 All rights reserved. Enterprise Products Partners L.P.

Forward Looking Statements This presentation contains forward-looking statements and information based on the belief of Enterprise Products Partners L.P. (Enterprise or EPD) and those of its general partner, as well as assumptions made by and information currently available to them. When used in this presentation, words such as anticipate, project, expect, plan, seek, goal, estimate, forecast, intend, should, will, believe, may, potential, and similar expressions and statements regarding the plans and objectives of Enterprise for future operations, are intended to identify forward-looking statements. Although Enterprise and its general partner believe that such expectations reflected in such forward-looking statements are reasonable, neither it nor its general partner can give assurances that such expectations will prove to be correct. Such statements are subject to a variety of risks, uncertainties and assumptions. If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, actual results may vary materially from those Enterprise anticipated, estimated, projected or expected. Among the key risk factors that may have a direct bearing on Enterprise s results of operations and financial condition are: y Fluctuations in oil, natural gas and NGL prices and production due to weather and other natural and economic forces; y A reduction in demand for its products by the petrochemical, refining or heating industries; y The effects of its debt level on its future financial and operating flexibility; y A decline in the volumes of energy commodities delivered by its facilities; y The failure of its credit risk management efforts to adequately protect it against customer non-payment; y Actual construction and development costs could exceed forecasted amounts; y The proposed merger with Enterprise GP Holdings L.P. (EPE) may not be completed prior to the December 31, 2010 outside termination date, due to failure to obtain the required approvals by EPE unitholders and regulatory agencies, and the possibility that the anticipated benefits of the merger cannot be fully realized; y Operating cash flows from our capital projects may not be immediate; y National, international, regional and local economic, competitive and regulatory conditions; y Terrorist attacks aimed at its facilities; and y The failure to successfully integrate its operations with assets or companies, if any, that it may acquire in the future. The foregoing discussion of important factors may not be all-inclusive and Enterprise provides additional cautionary discussion of risks and uncertainties under the captions Risk Factors and Management s Discussion and Analysis of Financial Condition and Results of Operations contained in its recent filings with the U.S. Securities and Exchange Commission. You should not put undue reliance on any forward-looking statements. All forward-looking statements attributable to Enterprise or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements contained herein, in such filings and in its future periodic reports filed with the U.S. Securities and Exchange Commission. Enterprise has no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All rights reserved. Enterprise Products Partners L.P.

Investor Notice In connection with the proposed merger, EPD has filed a registration statement (Registration No. 333-169437), which includes a preliminary prospectus of EPD and a preliminary proxy statement of EPE and other materials, with the Securities and Exchange Commission (SEC). INVESTORS AND SECURITY HOLDERS ARE URGED TO CAREFULLY READ THE REGISTRATION STATEMENT AND THE DEFINITIVE PROXY STATEMENT / PROSPECTUS AND ANY OTHER MATERIALS FILED OR TO BE FILED WITH THE SEC REGARDING THE PROPOSED TRANSACTION WHEN THEY BECOME AVAILABLE, BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION ABOUT EPD, EPE AND THE PROPOSED MERGER. A definitive proxy statement / prospectus will be sent to security holders of EPE seeking their approval of the proposed merger after the registration statement is declared effective by the SEC. Investors and security holders may obtain a free copy of the proxy statement / prospectus (when it is available) and other documents containing information about EPE, without charge, at the SEC s website at www.sec.gov. EPD, EPE and their respective general partners, and the directors and certain of the executive officers of the respective general partners, may be deemed to be participants in the solicitation of proxies from the unitholders of EPE in connection with the proposed merger. Information about the directors and executive officers of the respective general partners of EPD and EPE is set forth in the preliminary proxy statement / prospectus, each partnership s Annual Report on Form 10-K for the year ended December 31, 2009, which were each filed with the SEC on March 1, 2010, and subsequent statements of changes in beneficial ownership on file with the SEC. These documents can be obtained free of charge from the source listed above. All rights reserved. Enterprise Products Partners L.P.

Overview Largest publicly traded energy partnership in U.S. with an enterprise value of approximately \$39 billion (as of October 6, 2010) Diversified, integrated midstream energy system serving producers and consumers of natural gas, NGLs, crude oil, petrochemicals and refined products y Accesses some of the most prolific natural gas, NGL and crude oil supply basins in the U.S. including non-conventional and shale plays y Handles natural gas volumes equal to almost 20% of total U.S. demand y Serves all U.S. ethylene steam crackers (largest NGL market) Large asset footprint generates growth opportunities Delivered record operating performance in each of the last 4 years Announced merger with Enterprise GP Holdings L.P. to lower long- term cost of capital and simplify partnership structure All rights reserved. Enterprise Products Partners L.P.

Acadian TETCO FGT TGC ANR Transco Cypress Tennessee Texas Gas Columbia Gulf Sonat Pipeline Interconnects Acadian TETCO FGT TGC ANR Transco Cypress Tennessee Texas Gas Columbia Gulf Sonat Pipeline Interconnects Haynesville Shale Extension of Acadian Gas Pipeline Industry sources estimate potential to cover 2 million acres y 200 Tcf of reserves y Initial production rates high as 30 MMcf/d Haynesville Extension pipeline project y 270-mile, 42 / 36 pipeline with approximately 1.8 Bcf/d of capacity; can be expanded to 2.1 Bcf/d y Total cost of approximately \$1.56 billion y Provides access to industrial and utility markets on Acadian System, Henry Hub and 9 interstate pipelines, including FGT and Sonat y Executed agreements for up to approximately 1.6 Bcf/d of firm capacity to date Expected in service September 2011 Source: PIRA All rights reserved. Enterprise Products Partners L.P.

Acadian Haynesville Extension Long-Term Gas Supply Louisiana market areas Brings a new, long-term producing basin of hurricane proof gas into the Mississippi River Corridor area y Ability to access Acadian s 150 end-user markets with additional transportation via Acadian legacy system Allows significant quantities of Haynesville gas to be retained in the State (as compared to other projects designed to export the gas primarily into the interstate market) Provides an additional, long-term gas supply source to North, Central and South Louisiana consumers Facilitates seamless transactions from the field to end-user markets All rights reserved. Enterprise Products Partners L.P.

Haynesville Shale EPD's \$1.2B M2 Midstream Acquisition Transaction Overview y Closed effective May 1, 2010 y Immediately provides EPD with an excellent footprint from which to grow a natural gas gathering business in core area of Haynesville / Bossier shale play y Provides capital and operating efficiencies for additional gathering systems in development y Synergies with Haynesville Extension State Line System y Provides significant position in core area of Haynesville / Bossier play in LA and TX y 138 miles of pipe; 400 MMcf/d capacity y Provides CO₂ & H₂S treating services y Expansion to 700 MMcf/d in June 2010 y Planned interconnect with Haynesville Extension in 3Q 2011 will allow additional expansion to 1.2 Bcf/d for approximately \$26 million Fairplay System y Provides access to Cotton Valley production and Haynesville / Bossier shale acreage in TX y Plan to interconnect with Enterprise Texas natural gas pipeline in 1Q 2011 y Provides potential NGL volume growth for EPD's Mont Belvieu complex y 249 miles of pipe; 285 MMcf/d system capacity y 30 different producers on system All rights reserved. Enterprise Products Partners L.P.

Eagle Ford Shale All rights reserved. Enterprise Products Partners L.P.

Eagle Ford Shale Overview The Eagle Ford Shale derives its name from the old community of Eagle Ford, now a neighborhood in West Dallas, Texas, where outcrops of the formation were first observed. Source: Wikipedia The Eagle Ford has a broad range of potential at depths ranging from 4,000 - 14,000 feet y Rich gas / lean gas y Gas condensate y Crude oil Potential resource: 60 Tcf gas; 12.0 BBbls of crude / condensate; 5.0 BBbls of NGLs Producers ramping up rigs in 2010: 100 rigs now drilling in Eagle Ford Shale play 175 producing wells drilled with another 150+ in various stages of drilling and completion Current Eagle Ford production approximately 300 MMcf/d; crude / condensate approximately 40 MBPD GPM range 0.1 - 9.0, Btu from 980 to 1,300 and crude gravity range 40° - 70° More than 5.2 million acres currently under lease Sources: Rigdata and producer estimates All rights reserved. Enterprise Products Partners L.P.

Eagle Ford Shale EPD Growth Plans Focus on Eagle Ford areas with crude oil / condensate with associated NGL-rich natural gas production Maximize utilization of existing system supported by small incremental expansions Execute long-term, firm contracts and acreage dedications to support major expansions y To date, have executed agreements with a combination of acreage dedications and throughput commitments to support announced expansions of approximately 1.0 Bcf/d Announced major expansions y 140-mile crude oil pipeline and associated storage to facilitate deliveries to Cushing and Houston markets y 168-mile rich natural gas mainline y 600 900 MMcf/d natural gas processing plant y 64-mile residue natural gas pipeline from processing plant to Wilson storage facility and downstream 3rd party pipelines y 5 Bcf expansion of Wilson natural gas storage facility y 127-mile NGL pipeline from processing plant to Mont Belvieu, expandable up to 120 MBPD y 75 MBPD NGL Fractionator V at Mont Belvieu All rights reserved.  3Q 4Q 1Q09 2Q 3Q 4Q 1Q10 2Q10 Sep-10 Ethane demand: 5 year average ~748 MBPD Ethylene
 production from steam crackers is currently at 54 billion pounds per year, which compares to an average
 51 billion pounds per year for the last five years y Ethylene capacity has declined from approximately
 62 billion lbs/year at the end of 2008 to 57 billion lbs/year currently, with most of the rationalization
 occurring in 2009 in heavy cracker space Current ethane demand of 945 MBPD is being supplied by
 approximately 830 MBPD from gas processing plants, 50 MBPD from refinery production and 60 MBPD
 from inventory Ethane is forecasted to continue to provide ethylene producers consistently higher
 margins than more costly crude oil derivatives over next 12 months y Ethylene producers continue to
 maximize light-end feedstocks with daily volumes of ethane and propane consistently at 1.3 MMBbls/d
 or 83% of feedslate in 2010 vs. 5-yr average of 67% y Cracker modifications have accounted for more
 than 100 MBPD increase in ethane and NGL cracking capacity; estimate another 100 MBPD of
 modifications being evaluated Sources: Pace Hodson, En*Vantage, CMAI, quoted forward prices for
 feedstocks and company estimates on October 7, 2010 All rights reserved. Enterprise Products Partners

Petrochemical Preference for NGLs Expansion of MTBV NGL Fractionator Mont Belvieu complex is centerpiece of the largest NGL hub in the U.S. Over 100 MMBbls of multiple product underground storage capacity Enterprise's NGL distribution system is connected to all major refineries and petrochemical facilities NGL fractionation capacity expansion to 380 MBPD y 4th 75 MBPD fractionator in service in 4Q 2010 y 5th 75 MBPD fractionator estimated completion in early 2012 Enterprise entered into a new 6-year agreement with Anadarko to provide up to 62 MBPD of firm fractionation capacity which began September 1, 2010 y Single largest fractionation agreement in Enterprise history All rights reserved. Enterprise Products Partners L.P.

Merger Between Enterprise Products Partners L.P. (EPD) & Enterprise GP Holdings L.P. (EPE) All rights reserved. Enterprise Products Partners L.P.

EPD / EPE Merger Transaction Summary Enterprise Products Partners L.P. (NYSE: EPD) and Enterprise GP Holdings L.P. (NYSE: EPE) have agreed to merge. EPD will acquire all outstanding EPE units through a unit-for-unit exchange whereby EPE unitholders would receive 1.5 EPD units for each EPE unit y Transaction value: approximately \$9.1 billion y Cancels EPD GP s incentive distribution rights, 2% GP partner interest and approximately 21.6 million EPD units owned by EPE y 39.0 million ETE units owned by EPE are retained by EPD y EPD to refinance approximately \$1.1 billion of EPE debt on a long-term basis y Represents an approximate 16% premium to EPE s closing price on September 3, 2010 y Represents a substantial increase in distributions to EPE unitholders, approximately 54% based on EPD and EPE s respective cash distributions paid in August 2010 An affiliate of privately-held Enterprise Products Company (EPCO) will waive distributions on certain EPD common units for five years following the merger totaling over \$275 million of waived distributions based on August 2010 distribution rate EPE unitholder meeting set for November 22, 2010 to approve the merger y October 13, 2010 record date Certain affiliates of EPCO that own approximately 76% of total EPE units outstanding have executed a support agreement to vote in favor of the merger EPD has stated its intent to recommend an increase in the quarterly distribution rate to \$0.5825 per unit and \$0.59 per unit for the distributions with respect to the 3rd and 4th quarter of 2010, respectively All rights reserved. Enterprise Products Partners L.P.

Strategic Rationale and Benefits to EPD Lower Cost of Capital Simplifies Structure Maintains Flexibility
Cost Savings Lowers EPD's long-term cost of capital by permanently cancelling EPD GP's incentive
distribution rights y Enhances cash accretion from investments in organic growth projects and
acquisitions y Allows EPD to maintain its competitive position when pursuing growth opportunities
Reduces complexity of partnership structure Enhances transparency for debt and equity investors
Unit-for-unit exchange finances approximately 88% of \$9.1 billion purchase price with EPD equity
Annual synergies of approximately \$6 million primarily from eliminating public company expenses
associated with EPE All rights reserved. Enterprise Products Partners L.P.

Non-GAAP Financial Measures This presentation utilizes the Non-GAAP financial measures of Gross Operating Margin, Adjusted EBITDA and Distributable Cash Flow. In general, we define Gross Operating Margin as operating income before: (i) depreciation, amortization and accretion expense; (ii) non-cash asset impairment charges; (iii) operating lease expenses for which we do not have the payment obligation; (iv) gains and losses from asset sales and related transactions; and (v) general and administrative costs. The GAAP financial measure most directly comparable to Gross Operating Margin is operating income. In general, we define distributable cash flow as net income or loss attributable to Enterprise Products Partners L.P. adjusted for: (i) the addition of depreciation, amortization and accretion expense; (ii) the addition of operating lease expenses for which we do not have the payment obligation; (iii) the addition of cash distributions received from unconsolidated affiliates less equity in income from unconsolidated affiliates; (iv) the subtraction of sustaining capital expenditures and cash payments to settle asset retirement obligations; (v) the addition of losses or subtraction of gains from asset sales and related transactions; (vi) the addition of cash proceeds from asset sales or related transactions; (vii) the return of an investment in an unconsolidated affiliate (if any); (viii) the addition of losses or subtraction of gains on the monetization of derivative instruments recorded in accumulated other comprehensive income (loss), if any, less related amortization of such amount to earnings; (ix) the addition of transition support payments received from El Paso Corporation related to the GulfTerra merger; (x) the addition of net income attributable to the noncontrolling interest associated with the public unitholders of Duncan Energy Partners L.P., less related distributions to be paid to such holders with respect to the period of calculation; and (xi) the addition or subtraction of other miscellaneous non-cash amounts (as applicable) that affect net income or loss for the period. The GAAP measure most directly comparable to Distributable Cash Flow is net cash flows provided by operating activities. We define Adjusted EBITDA as net income or loss minus equity in income of unconsolidated affiliates, plus distributions received from unconsolidated affiliates, interest expense, provision for income taxes and depreciation, amortization and accretion expense. Adjusted EBITDA is commonly used as a supplemental financial measure by management and external users of our financial statements, such as investors, commercial banks, research analysts and rating agencies, to assess: (i) the financial performance of our assets without regard to financing methods, capital structures or historical cost basis; (ii) the ability of our assets to generate cash sufficient to pay interest and support our indebtedness; and (iii) the viability of projects and the overall rates of return on alternative investment opportunities. Since Adjusted EBITDA excludes some, but not all, items that affect net income or loss and because these measures may vary among other companies, the Adjusted EBITDA data presented in this press release may not be comparable to similarly titled measures of other companies. The GAAP measure most directly comparable to Adjusted EBITDA is net cash flows provided by operating activities. All rights reserved. Enterprise Products Partners L.P.
