FOR IMMEDIATE RELEASE

**FLAGSTAR REPORTS 77% REDUCTION IN NET LOSS; LAUNCHES  
\$380 MILLION PUBLIC EQUITY OFFERING**

TROY, Mich. (October 27, 2010) Flagstar Bancorp, Inc. (NYSE:FBC) (the Company), the holding company for Flagstar Bank FSB (the Bank), today reported a 77% narrowing in net loss in the third quarter 2010 as compared to the loss in second quarter 2010. In addition, the Company launched a \$380 million public equity offering.

**Key Items for Third Quarter:**

**Net loss of \$(22.6) million improved by 77% from prior quarter**

**Incurred an \$11.9 million expense related to prepayment of FHLB advance and restructured 7 other tranches of advances, which will positively impact net interest margin**

**Gain on loan sale income of \$103.2 million (margin of 135 bps), increased by 61% from prior quarter**

**Residential mortgage originations of \$7.6 billion, increased by 40% from prior quarter**

**Mortgage rate lock commitments of \$11.0 billion, increased by 32% from prior quarter**

**Bank net interest margin of 1.55%, increased from prior quarter level of 1.53%**

**Loan fees of \$24.4 million, increased by 20% from prior quarter**

**Net servicing revenue of \$23.2 million, increased by 55% from prior quarter**

**Provision for loan losses decreased by 40% from prior quarter to \$(51.4) million**

**Asset resolution expense decreased by 25% from the prior quarter to \$(34.2) million**

**Non-performing loans of \$911 million, decreased by 10% from prior quarter**

We are pleased with the significant improvement this quarter, which reflects growth in top line revenue, combined with decreasing credit costs and a continued improvement in asset quality, said Joseph P. Campanelli, Chairman and Chief Executive Officer. In the face of a sluggish economy and compressed margins, we were able to increase our pre-tax, pre-credit cost income by 53% from the prior quarter. The third quarter includes an \$11.9 million expense related to the prepayment of a \$250 million FHLB advance. Excluding prepayment expense, net loss in the third quarter would have been \$(10.7) million, as compared to \$(88.0) million in the second quarter.

Campanelli further stated, "The improvement in the quarter was driven by a number of positives in our core business. Compared to the prior quarter, residential mortgage originations increased by 39% and gain on loan sale income increased by 60%, while credit related expenses decreased by 30% and non-performing loans decreased by 10%. We were also able to keep expenses flat and maintain historically high capital ratios.

In addition, Campanelli said, "We took a big step forward in our transformation toward becoming a full-service super community bank, announcing the launch of our new small business banking line of products and services. We are excited that we can now offer a robust set of banking and credit products to the nearly half a million small businesses near our branches. The commencement of our public equity offering and potential accelerated disposition of impaired assets is just another step in our turnaround.

For third quarter 2010, the Company had a net loss applicable to common stockholders of \$(22.6) million, as compared to a net loss of \$(97.0) million for the second quarter 2010. On a per share basis, third quarter 2010 had a loss of \$(0.15) per share (diluted) based on average shares outstanding of 153,405,000, a decline from the second quarter 2010 loss of \$(0.63) per share (diluted) based on average shares outstanding of 153,298,000. For the third quarter 2009, the Company reported a net loss applicable to common shareholders of \$(298.2) million, which was a loss of \$(6.36) per share (diluted) based on average share outstanding of 46,853,000.

On a year-to-date basis, the Company reduced its net loss by 54% during the nine months ended September 30, 2010 as compared to the same period for 2009. For the nine months ended September 30, 2010, the net loss applicable to common stockholders totaled \$(201.5) million, or \$(1.57) per share (diluted) based on average shares outstanding of 128,411,000, as compared to a net loss of \$(442.2) million, or \$(16.58) per share (diluted) based on average shares outstanding of 26,678,000 during the same period 2009.

**Results from the quarter included the following:**

Asset Quality

Non-performing assets decreased to \$1.1 billion at September 30, 2010, from \$1.2 billion at both June 30, 2010 and September 30, 2009. This category of assets is comprised of non-performing loans (i.e., loans 90 days or more past due, and matured loans), real estate owned and net repurchased assets and excludes repurchased assets that are insured by the Federal Housing Agency (FHA). The decline in non-performing assets reflects a reduction in the amount of non-performing loans.

The allowance for loan losses at September 30, 2010 decreased to \$474.0 million and equaled 6.48% of loans held for investment and 52.0% of non-performing loans. The allowance for loan losses at June 30, 2010 was \$530.0 million and equaled 7.20% of loans held for investment and 52.3% of non-performing loans. At December 31, 2009, the allowance for loan loss was \$524.0 million and equaled 6.79% of loans held for investment and 48.9% of non-performing loans. The decline in the allowance resulted from the decline in the balance of delinquent loans in both residential first mortgage and commercial real estate loans during the third quarter of 2010.

Non-performing commercial real estate mortgages decreased to \$238.6 million at September 30, 2010 as compared to \$324.9 million at June 30, 2010. Non-performing residential first mortgage loans decreased 1.7%, to \$651.9 million at September 30, 2010, as compared to \$663.5 million at June 30, 2010. The decrease reflected reductions of \$1.1 million in the 90-120 day category and \$10.5 million in the over 120 day and in the matured delinquent loans categories. The Company has received, and is currently evaluating, a firm offer on \$473 million of its non-insured non-performing residential first mortgage loans, at a price of 44% of book value before reserves.

The Company maintains a secondary marketing reserve on its balance sheet, which reflects the estimate of losses that it expects to incur on loans that it sold or securitized into the secondary market. At September 30, 2010, the secondary marketing reserve was \$77.5 million, as compared to \$76.0 million at June 30, 2010 and \$66.0 million at December 31, 2009. For the third quarter 2010, the Company incurred a secondary marketing reserve provision expense of \$13.0 million, as compared to \$11.4 million in the second quarter 2010.

### Capital

Flagstar Bank remained well-capitalized for regulatory purposes at September 30, 2010, with regulatory capital ratios of 9.12% for Tier 1 capital and 16.87% for total risk-based capital.

### Mortgage Banking Operations

Gain on loan sales increased to \$103.2 million in the third quarter 2010 as compared to \$64.3 million for the second quarter 2010 and \$104.4 million for the third quarter 2009. This reflects the increase in volume, through the increase in both interest rate lock commitments and loan production, and the increase in margin. Gain on loan sale margins increased to 1.35% for the third quarter 2010, as compared to 1.22% for the second quarter 2010 and 1.37% for the third quarter 2009.

Mortgage rate lock commitments increased to \$11.0 billion during the third quarter 2010 as compared to \$8.3 billion during the second quarter 2010 and \$8.7 billion during the third quarter 2009. Loan production, substantially comprised of agency-eligible residential first mortgage loans, increased to \$7.6 billion in the third quarter 2010, as compared to \$5.5 billion in the second quarter 2010 and \$6.6 billion in the third quarter 2009. For the nine months ended September 30, 2010, loan production was \$17.4 billion, which is comprised of \$9.9 billion originated in the correspondent channel, \$6.0 billion originated in the broker channel and \$1.4 billion originated in the retail channel. At September 30, 2010, our loans serviced for others increased to \$52.3 billion and had a weighted average servicing fee of 31.5 basis points. This was an increase from \$50.4 billion at June 30, 2010 with a weighted average servicing fee of 32.4 basis points and a decrease from \$56.5 billion at December 31, 2009 with a weighted average servicing fee of 32.1 basis points.

### Net Interest Margin

Net interest margin for the Bank increased to 1.55% for the third quarter 2010 as compared to 1.53% for the second quarter 2010, and decreased slightly from 1.58% for the third quarter 2009. The increase from second quarter 2010 reflects a 9 bps decrease in earning asset yields with average interest earning assets declining \$0.4 billion, which was partially offset by a 15 bps decline in funding costs, with average interest bearing liabilities decreasing only \$0.3 billion. The decline in funding costs is due primarily to reduced costs of retail deposits and reduced borrowings and rates associated with Federal Home Loan Bank (FHLB) advances and the absence of any repurchase agreements for the third quarter 2010 as they were repaid during the second quarter 2010.

As part of the Bank's focus on reducing its borrowing costs, it initiated a restructuring of several of its FHLB advances intended to better match its funding maturities with asset maturities, maintain an asset sensitive balance sheet structure and obtain the benefit of the current lower interest rate environment. To this end, the Bank prepaid a single advance otherwise due in 2011 and restructured seven other advances totaling \$1.9 billion to extend maturities during which time the now-current interest rates would apply. As a result, the Bank reduced its annual advance cost on the \$1.9 billion of restructured advances by 123bps.

### Net Interest Income

Third quarter net interest income decreased to \$41.1 million, as compared to, \$42.4 million during the second quarter 2010 and \$47.6 million during the third quarter 2009. The decrease reflects the decline in the average balances of interest-earning assets, including higher-yielding trading securities and loans held for investment, offset in part by the reduction in funding costs due to lower balances and average rates for FHLB advances.

Third quarter loan loss provisions declined by 40% from the second quarter, to \$51.4 million, as compared to \$86.0 million for the second quarter 2010 and \$125.5 million for the third quarter 2009. The reduced provision expense during third quarter 2010 reflects the decline in 90-day and over delinquencies on first mortgage loans held for investment between June 30, 2010 and September 30, 2010. Delinquent first mortgage loans (90 days and over) held for investment declined to \$651.9 million at September 30, 2010 from \$663.5 million at June 30, 2010. The decline in the provision for third quarter 2010 also reflects the lower balance of non-performing

commercial real estate loans, following charge-offs of \$57.6 million, of such loans which were previously reserved for during prior quarters.

#### Non-interest Income

Non-interest income increased to \$144.9 million for the third quarter 2010, as compared to \$100.3 million for the second quarter 2010 and \$66.2 million for the third quarter 2009. Non-interest income included the following components:

Gain on loan sales increased 61% to \$103.2 million as compared to \$64.3 million for the second quarter 2010, reflecting both the 33% increase in interest rate locks on mortgage loans, to \$11.0 billion in the third quarter 2010 from \$8.3 billion in the second quarter 2010, and the 43% increase in residential mortgage loan sales, to \$7.6 billion as compared to \$5.3 billion in the second quarter 2010. Margin on loan sales also increased during the third quarter 2010 to 1.35% from 1.22% during the second quarter 2010.

Loan fees, which arise from the origination of residential mortgage loans, increased 21% to \$24.4 million for the third quarter 2010 as compared to \$20.2 million for the second quarter 2010. The increase in loan fees reflected the 38% increase in originations to \$7.6 billion during the third quarter 2010 as compared to \$5.5 billion during the second quarter 2010.

Net servicing revenue, which is the combination of net loan administration income and the related hedging effect of gain (loss) on trading securities, increased 55% to \$23.2 million during third quarter 2010 as compared to \$15.0 million during second quarter 2010.

Other fees and charges were \$(7.7) million, as compared to \$(6.5) million for the second quarter 2010, principally as the result of a \$1.6 million increase in secondary market reserve provisions accrued for expected losses on loans repurchased from the secondary market.

#### Non-interest Expense

Non-interest expense increased to \$152.5 million for the third quarter 2010, as compared to \$149.0 million for the second quarter 2010, and decreased from \$166.9 million for the third quarter 2009.

Compensation and benefits expense increased \$5.6 million and commissions expense increased \$3.0 million, reflecting the overall build out of the organization, an increase in employees necessary to handle the increased loan production workload and an increase in incentive pay associated with the heightened underwriting activity.

Asset resolution expenses, which are expenses associated with foreclosed property and repurchased assets, decreased 25% to \$34.2 million, as compared to \$45.4 million in the second quarter of 2010. The decline was principally due to the reduced provisions for possible losses on foreclosed property, to gains recognized on sales of foreclosed properties, and to reduced provisions for possible losses associated with repurchased FHA-insured loans.

Loss on the early extinguishment of debt during the third quarter arose from the prepayment of a \$250.0 million advance from the FHLB with a 4.825% interest rate and due in September 2011.

The re-valuation of our outstanding warrants at the end of third quarter 2010 resulted in income of \$1.4 million, as compared to income of \$3.5 million recognized at the end of second quarter of 2010. The change in value results from reduced expense anticipated in future years based upon the decline in the market price of the Company's common stock since the end of second quarter 2010.

#### Assets

Total assets at September 30, 2010 were \$13.8 billion, as compared to \$13.7 billion at June 30, 2010 and \$14.0 billion at December 31, 2009. The increase from June 30, 2010 reflected an increase in loans available for sale,

partially offset by sales of trading securities and securities available for sale, and the continued run-off of the Bank's held-for-investment portfolio.

#### Funding Sources

Flagstar Bank's primary sources of funds are deposits obtained through its 162 community banking branches and the internet banking platform as well as deposits obtained from municipalities and investment banking firms. Funds are also obtained through loan repayments and sales of loans and securities in the ordinary course of business, advances from the FHLB, community banking operations, customer escrow accounts and security repurchase agreements. The Bank relies upon several of these sources at any one time to manage its daily and forecasted liquidity needs for operational requirements and policy levels while managing overall net interest costs. Retail deposits were \$5.4 billion at September 30, 2010, as compared to \$5.2 billion at June 30, 2010 and \$5.5 billion at December 31, 2009.

At September 30, 2010, the Bank had a collateralized \$4.0 billion line of credit with the FHLB with \$587.0 million of remaining capacity.

#### Community Banking Operations

Flagstar Bank had 162 community banking branches at both September 30, 2010 and June 30, 2010, and 176 branches at September 30, 2009.

#### **Earnings Conference Call**

The Company's quarterly earnings conference call will be held on Wednesday, October 27, 2010 from 8 p.m. until 9 p.m. (Eastern), as previously announced.

Questions for discussion at the conference call may be submitted in advance by e-mail to [investors@flagstar.com](mailto:investors@flagstar.com) or asked live during the conference call.

The conference call and accompanying slide presentation will be webcast live on the Investor Relations section of the Company's Web site, [www.flagstar.com](http://www.flagstar.com), with replays available at that site for at least 10 days.

To listen by telephone, please call at least 10 minutes prior to the start of the conference call at (866) 294-1212 toll free or (702) 696-4911 and use passcode: 15462873.

Flagstar Bancorp, with \$13.8 billion in total assets, is the largest publicly held savings bank headquartered in the Midwest. At September 30, 2010, Flagstar operated 162 banking centers in Michigan, Indiana and Georgia and 27 home loan centers in 13 states. Flagstar Bank originates loans nationwide and is one of the leading originators of residential mortgage loans.
