Last Updated: 2/16/2007 4:30 PM New York City time

#### IMPORTANT NOTICE

This website and the materials on this website do not constitute an invitation to sell or an offer to buy any securities or a recommendation as to whether you should participate in the exchange offer.

In connection with the proposed combination of the fine paper business of Weyerhaeuser Company ("Weyerhaeuser") and Domtar Inc., Domtar Corporation (the "Company") has filed with the Securities and Exchange Commission (the "SEC") a registration statement that includes an exchange offer prospectus (the "Prospectus—Offer to Exchange"). The Prospectus—Offer to Exchange contains important information about the exchange offer and related matters. Investors and security holders are urged to read the Prospectus—Offer to Exchange, and any other relevant documents filed with the SEC when they become available, before making any investment decision. None of Weyerhaeuser, Weyerhaeuser Company Limited, the Company or any of their respective directors or officers makes any recommendation as to whether holders should participate in the exchange offer. Each holder must make his own decision after reading the Prospectus—Offer to Exchange.

You can obtain a free copy of the registration statement, of which the Prospectus—Offer to Exchange forms a part, and other documents filed by the Company and Weyerhaeuser with the SEC on the SEC's website at [www.sec.gov](http://www.sec.gov). Those documents may also be obtained for free upon request to Weyerhaeuser's information agent, Innisfree M&A Incorporated, at 877-750-9497 (for shareholders who speak English), 877-825-8777 (for shareholders who speak French) and 212-750-5833 (for banks and brokers). In order to ensure timely delivery, any request should be submitted no later than February 23, 2007.

None of Weyerhaeuser, Weyerhaeuser Company Limited, the Company or any of their respective directors or officers has any liability or responsibility for the accuracy of the information on this website accessed by clicking "I accept" below. The data provided may be different from other sources of volume-weighted average prices or investors' or security holders' own calculations of volume-weighted average prices.

I accept I do not accept Next

## The Exchange Offer

On the expiration date of the exchange offer, by 4:30 p.m., New York City time, this website will provide the final calculated per-share value and the exchange ratio showing the number of shares of common stock of Domtar Corporation (the “Company”) accepted in the exchange offer and state whether the limit is in effect (which would cause an automatic extension of the exchange offer). The exchange offer will expire at 12:00 midnight, New York City time, on March 2, 2007 unless the offer is extended or terminated.

Weyerhaeuser Company (“Weyerhaeuser”) is offering to exchange all shares of common stock of the Company (“Company common stock”), which are owned by Weyerhaeuser, for common shares of Weyerhaeuser (“Weyerhaeuser common shares”) and exchangeable shares of Weyerhaeuser Company Limited (“Weyerhaeuser exchangeable shares”) that are validly tendered and not properly withdrawn, as described in more detail in the exchange offer prospectus (the “Prospectus—Offer to Exchange”). [Prospectus—Offer to Exchange](#) (PDF).

You can also download copies of the following:

- [Letter of Transmittal for Weyerhaeuser common shares \(PDF\)](#)
- [Instructions for Letter of Transmittal for Weyerhaeuser common shares \(PDF\)](#)
- [Letter of Transmittal for Weyerhaeuser exchangeable shares \(PDF\)](#)

The exchange offer is designed to permit holders of Weyerhaeuser common shares and Weyerhaeuser exchangeable shares to exchange their shares for shares of Company common stock at a 10% discount to the calculated per-share value of Company common stock. Stated another way, for each \$1.00 of Weyerhaeuser common shares or Weyerhaeuser exchangeable shares accepted in the exchange offer, the tendering holder will receive approximately \$1.11 of Company common stock, based on calculated per-share values, subject to (i) a limit of 11.1442 shares of Company common stock for each Weyerhaeuser common share or Weyerhaeuser exchangeable share accepted in the exchange offer and (ii) proration.

The final calculated per-share values will be equal to (i) with respect to Weyerhaeuser common shares and Weyerhaeuser exchangeable shares, the simple arithmetic average of the “daily volume-weighted average price” (or daily VWAP) of Weyerhaeuser common shares on the New York Stock Exchange on the last three trading days (the “Valuation Dates”) of the exchange offer period, as it may be voluntarily extended, but not including the last two trading days that are part of any mandatory extension triggered by the limit; and (ii) with respect to Company common stock, the simple arithmetic average of the daily VWAP of common shares of Domtar Inc. on the New York Stock Exchange on each of the Valuation Dates. The Valuation Dates will be February 28, 2007, March 1, 2007 and March 2, 2007, unless the exchange offer is voluntarily extended. Those dates will not change if the exchange offer is extended solely as a result of any mandatory extension of the exchange offer triggered by the limit.

Weyerhaeuser will announce whether the limit on the number of shares that can be received for each Weyerhaeuser common share or Weyerhaeuser exchangeable share tendered will be in effect at the expiration of the exchange offer period, through this website and by press release, no later than 4:30 p.m., New York City time, on the expiration date. If the limit is in effect at that time, then the exchange ratio will be fixed at the limit and the exchange offer will be automatically extended until 12:00 midnight, New York City time, on the second following trading day to permit shareholders to tender or withdraw their Weyerhaeuser common shares and Weyerhaeuser exchangeable shares during those days.

The information on this website is being provided solely in connection with the exchange offer and should not be used for any other purpose. You should refer to the Prospectus—Offer to Exchange for additional information about the

exchange offer.

---

The following table shows indicative calculated per-share values for Weyerhaeuser common shares (including Weyerhaeuser exchangeable shares) and Company common stock. On each of the Valuation Dates, the VWAPs and indicative calculated per-share values will be updated at 10:30 a.m., 1:30 p.m. and 4:30 p.m., New York City time. During each of those days, this table provides only the last previously provided indicative calculated per-share value with respect to that day. On the last Valuation Date, the daily VWAP shown the prior day will be the actual daily VWAP used in determining the final calculated per-share values.

Date	End of Day VWAP WY	Indicative Calculated Value (3 Day Average)	End of Day VWAP DTC.N	Indicative Calculated Value (3 Day Average)	Indicative per Share Value	Share Exchange Ratio

\* No indicative calculated per-share values or indicative exchange ratios are provided for the first two days as such values require daily VWAP data for three trading days.

§ Represents the limit on the share exchange ratio, which would have been in effect on this date because dividing the indicative calculated value of Weyerhaeuser common shares by the indicative per share value of Domtar Inc. would have resulted in a share exchange ratio above the limit.

The following table shows how many shares of Company common stock would be exchanged for a specified number of tendered and accepted Weyerhaeuser common shares and Weyerhaeuser exchangeable shares if the indicative calculated per-share values provided in the table above were the calculated per-share values of those shares at the end of the exchange offer.

Number of Weyerhaeuser common shares and Weyerhaeuser exchangeable shares tendered	Number of shares of the Company common stock issued in exchange based on the current indicative exchange ratio
1	10.9560
10	109.5600
100	1,095.6000
1,000	10,956.0000

\*Note that the fractional share amount is provided for indicative purposes only. Cash in lieu of fractional shares of Company common stock will be distributed in the exchange offer.

### Tendering and Withdrawal

The procedures you must follow to participate in the exchange offer will depend on whether you hold your shares in certificated form, through Weyerhaeuser’s Direct Share Purchase Program (administered by Mellon Investor Services LLC) or through a bank or trust company or broker. Please note that you may withdraw your tendered Weyerhaeuser common shares or Weyerhaeuser exchangeable shares at any time prior to the expiration of the exchange offer. You can download copies of the forms of notices of withdrawal:

- [Notice of Withdrawal for Weyerhaeuser common shares \(PDF\)](#)
- [Notice of Withdrawal for Weyerhaeuser exchangeable shares \(PDF\)](#)

For specific instructions about how to participate in the exchange offer, see the sections entitled “This Exchange Offer—Terms of this Exchange Offer—Procedures for Tendering” and “This Exchange Offer—Withdrawal Rights” in the Prospectus—Offer to Exchange.

[Glossary](#)

[Legal Notices - Terms and Conditions](#)

[www.WeyerhaeuserDomtarExchange.com](http://www.WeyerhaeuserDomtarExchange.com)

## GLOSSARY

**calculated per-share value:** The calculated per-share value of a Weyerhaeuser common share or Weyerhaeuser exchangeable share for purposes of the exchange offer will equal the simple arithmetic average of the “daily volume-weighted average price” of Weyerhaeuser common shares on the New York Stock Exchange on each of the Valuation Dates, as calculated by Weyerhaeuser. The calculated per-share value of a share of Company common stock for purposes of the exchange offer will equal the average of the “daily volume-weighted average price” of common shares of Domtar Inc. on the New York Stock Exchange on each of the Valuation Dates, as calculated by Weyerhaeuser. The calculated per-share values will be rounded to four decimal places.

**daily VWAP:** Daily VWAP means VWAP for the period beginning at 9:30 a.m., New York City time (or such other time as is the official open of trading on the New York Stock Exchange), and ending at 4:00 p.m., New York City time (or such other time as is the official close of trading on the New York Stock Exchange and in no event later than 4:10 p.m., New York City time), as reported to Weyerhaeuser by Bloomberg L.P. for equity ticker WY.N in the case of Weyerhaeuser common shares, and equity ticker DTC.N, in the case of common shares of Domtar Inc. Daily VWAP will be rounded to four decimal places.

**exchange ratio:** The number of shares of Company common stock that will be exchanged for each Weyerhaeuser common share or Weyerhaeuser exchangeable share accepted in the exchange offer. The final exchange ratio will be available on this website and separately published by press release by 4:30 p.m., New York City time, on the expiration date. The final exchange ratio will be rounded to four decimal places.

**indicative calculated per-share value:** Until the expiration of the exchange offer, this website will display indicative calculated per-share values. These indicative values are displayed to assist tendering shareholders in understanding how the number of shares of Company common stock they would receive in the exchange offer will be calculated.

From the third trading day until the first Valuation Date, this website will show indicative calculated per-share values, calculated as though that day were the expiration date of the exchange offer, of (i) Weyerhaeuser common shares and Weyerhaeuser exchangeable shares, which will equal the simple arithmetic average of the daily VWAP of Weyerhaeuser common shares on each of the three prior trading days and (ii) Company common stock, which will equal the simple arithmetic average of the daily VWAP of common shares of Domtar Inc. on each of the three prior trading days. For example, by 4:30 p.m., New York City time, on February 15, 2007 (the tenth trading day of this Exchange Offer), the website will show an indicative exchange ratio based on indicative per-share values of Weyerhaeuser common shares and Domtar common shares on February 13, 2007 (the eighth trading day), February 14, 2007 (the ninth trading day) and February 15, 2007 (the tenth trading day). During this period, the indicative calculated per-share values will be updated on each trading day by 4:30 p.m., New York City time. Such data will not, however, be included in the calculation of the final calculated per-share value for either Weyerhaeuser common shares or Company common stock.

On each of the Valuation Dates, when the values of Weyerhaeuser common shares and Company common stock are calculated for the purposes of the exchange offer, this website will show the indicative calculated per-share values of Weyerhaeuser common shares and Company common stock, which will equal, with respect to each stock, (i) on the first Valuation Date, the intra-day VWAP during the elapsed portion of that day, (ii) on the second Valuation Date, the intra-day VWAP during the elapsed portion of that day averaged with the actual daily VWAP on the first Valuation Date and (iii) on the third Valuation Date, the intra-day VWAP during the elapsed portion of that day averaged with the actual daily VWAP on the first Valuation Date and with the actual daily VWAP on the second Valuation Date.

**intra-day VWAP:** Intra-day VWAP means VWAP for the period beginning at the official open of trading on the New York Stock Exchange and ending as of the specific time in such day. On each of the Valuation Dates, the indicative calculated per share values and indicative exchange ratio calculated using such values will be updated at 10:30 a.m., 1:30 p.m. and 4:30 p.m., New York City time. The data used to derive the intra-day VWAP on the Valuation Dates will be included as an element of the actual final VWAP that will be used to determine the final calculated per share values.

**limit:** The number of shares of Company common stock each tendering Weyerhaeuser shareholder will receive is subject to a limit of 11.1442 shares of Company common stock for each Weyerhaeuser common share or Weyerhaeuser exchangeable share accepted in the exchange offer. If the limit is in effect, you will receive less than \$1.11 of Company common stock for each \$1.00 of Weyerhaeuser common shares or Weyerhaeuser exchangeable shares, depending on the calculated per-share values of Weyerhaeuser common shares and Company common stock at the expiration date, and you could receive much less. The exchange offer does not provide for a minimum exchange ratio.

**proration:** If the exchange offer is oversubscribed and Weyerhaeuser cannot fulfill all tenders of all Weyerhaeuser common shares and Weyerhaeuser exchangeable shares at the exchange ratio, then all Weyerhaeuser common shares and Weyerhaeuser exchangeable shares validly tendered will generally be accepted for exchange on a pro rata basis in proportion to the number of shares tendered. We refer to this as “proration.” Weyerhaeuser shareholders who beneficially own “odd-lots” (less than 100 Weyerhaeuser common shares or 100 Weyerhaeuser exchangeable shares) and who validly tender all their Weyerhaeuser common shares or Weyerhaeuser exchangeable shares, as the case may be, will not be subject to proration. The examples provided in the tables on this website assume that there is no proration for non-odd-lot holders.

**VWAP:** VWAP means the “volume-weighted average price” per share of stock on the New York Stock Exchange.

6pt; font-size: 1pt"> the terms according to which elections can be made by us or the holder regarding payments on the Debt Securities in currency other than the currency in which the Debt Securities are stated to be payable; if payments are to be made on the Debt Securities in securities or other property, the type and amount of the securities and other property or the method by which the amount shall be determined; the manner in which we will determine any amounts payable on the Debt Securities that are to be determined with reference to an index or other fact or event ascertainable outside the applicable indenture;

**Table of Contents**

if other than the entire principal amount, the portion of the principal amount of the Debt Securities payable upon declaration of acceleration of their maturity;

any addition to the events of default applicable to any Debt Securities and any additions to our covenants for the benefit of the holders of the Debt Securities;

the terms applicable to any rights to convert Debt Securities into or exchange them for other of our securities or those of any other entity;

whether we are issuing Debt Securities as global securities, and if so,

any limitations on transfer or exchange rights or the right to obtain the registration of transfer;

any limitations on the right to obtain definitive certificates for the Debt Securities; and

any other matters incidental to the Debt Securities;

whether we are issuing the Debt Securities as bearer securities;

any limitations on transfer or exchange of Debt Securities or the right to obtain registration of their transfer, and the terms and amount of any service charge required for registration of transfer or exchange;

any exceptions to the provisions governing payments due on legal holidays, or any variations in the definition of business day with respect to the Debt Securities;

any collateral security, assurance, guarantee or other credit enhancement applicable to the Debt Securities;

any other terms of the Debt Securities not in conflict with the provisions of the applicable Debt Securities Indenture; and

the material U.S. federal income tax consequences applicable to the Debt Securities.

For more information, see Section 301 of the applicable Debt Securities Indenture.

Debt Securities may be sold at a substantial discount below their principal amount. You should consult the applicable prospectus supplement or free writing prospectus for a description of certain material U.S. federal income tax considerations that may apply to Debt Securities sold at an original issue discount or denominated in a currency other than dollars.

Unless the applicable prospectus supplement or free writing prospectus states otherwise, the covenants contained in the applicable indenture will not afford holders of Debt Securities protection in the event we have a change in control or are involved in a highly-leveraged transaction.

**Subordination**

The applicable prospectus supplement or free writing prospectus may provide that a series of Debt Securities will be Subordinated Debt Securities, subordinate and junior in right of payment to all of our Senior Indebtedness, as defined below. If so, we will issue these securities under a separate Debt Securities Indenture for Subordinated Debt

Securities. For more information, see Article XV of the form of Debt Securities Indenture.

Unless the applicable prospectus supplement or free writing prospectus states otherwise, no payment of principal of, including redemption and sinking fund payments, or any premium or interest on, the Subordinated Debt Securities may be made if:

- there occur certain acts of bankruptcy, insolvency, liquidation, dissolution or other winding up of our company;
- any Senior Indebtedness is not paid when due;

## **Table of Contents**

any applicable grace period with respect to other defaults with respect to any Senior Indebtedness has ended, the default has not been cured or waived and the maturity of such Senior Indebtedness has been accelerated because of the default; or

the maturity of the Subordinated Debt Securities of any series has been accelerated because of a default and Senior Indebtedness is then outstanding.

Upon any distribution of our assets to creditors upon any dissolution, winding-up, liquidation or reorganization, whether voluntary or involuntary or in bankruptcy, insolvency, receivership or other proceedings, all principal of, and any premium and interest due or to become due on, all outstanding Senior Indebtedness must be paid in full before the holders of the Subordinated Debt Securities are entitled to payment. For more information, see Section 1502 of the applicable Debt Securities Indenture. The rights of the holders of the Subordinated Debt Securities will be subrogated to the rights of the holders of Senior Indebtedness to receive payments or distributions applicable to Senior Indebtedness until all amounts owing on the Subordinated Debt Securities are paid in full. For more information, see Section 1504 of the applicable Debt Securities Indenture.

Unless the applicable prospectus supplement or free writing prospectus states otherwise, the term Senior Indebtedness means all obligations (other than non-recourse obligations and the indebtedness issued under the Subordinated Debt Securities Indenture) of, or guaranteed or assumed by, us:

for borrowed money (including both senior and subordinated indebtedness for borrowed money, but excluding the Subordinated Debt Securities);

for the payment of money relating to any lease that is capitalized on our consolidated balance sheet in accordance with generally accepted accounting principles; or

indebtedness evidenced by bonds, debentures, notes or other similar instruments.

In the case of any such indebtedness or obligations, Senior Indebtedness includes amendments, renewals, extensions, modifications and refundings, whether existing as of the date of the Subordinated Debt Securities Indenture or subsequently incurred by us.

The Subordinated Debt Securities Indenture does not limit the aggregate amount of Senior Indebtedness that we may issue.

## **Form, Exchange and Transfer**

Unless the applicable prospectus supplement or free writing prospectus states otherwise, we will issue Debt Securities only in fully registered form without coupons and in denominations of \$1,000 and integral multiples of that amount. For more information, see Sections 201 and 302 of the applicable Debt Securities Indenture.

Holders may present Debt Securities for exchange or for registration of transfer, duly endorsed or accompanied by a duly executed instrument of transfer, at the office of the security registrar or at the office of any transfer agent we may designate. Exchanges and transfers are subject to the terms of the applicable indenture and applicable limitations for global securities. We may designate ourselves the security registrar.

No charge will be made for any registration of transfer or exchange of Debt Securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge that the holder must pay in connection with the

transaction. Any transfer or exchange will become effective upon the security registrar or transfer agent, as the case may be, being satisfied with the documents of title and identity of the person making the request. For more information, see Section 305 of the applicable Debt Securities Indenture.

The applicable prospectus supplement or free writing prospectus will state the name of any transfer agent, in addition to the security registrar initially designated by us, for any Debt Securities. We may at any time designate additional transfer agents or withdraw the designation of any transfer agent or make a change in the office through which any transfer agent acts. We must, however, maintain a transfer agent in each place of

## **Table of Contents**

payment for the Debt Securities of each series. For more information, see Section 602 of the applicable Debt Securities Indenture.

We will not be required to:

issue, register the transfer of, or exchange any Debt Securities or any tranche of any Debt Securities during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any Debt Securities called for redemption and ending at the close of business on the day of mailing; or

register the transfer of, or exchange any Debt Securities selected for redemption except the unredeemed portion of any Debt Securities being partially redeemed.

For more information, see Section 305 of the applicable Debt Securities Indenture.

## **Payment and Paying Agents**

Unless the applicable prospectus supplement or free writing prospectus states otherwise, we will pay interest on a Debt Security on any interest payment date to the person in whose name the Debt Security is registered at the close of business on the regular record date for the interest payment. For more information, see Section 307 of the applicable Debt Securities Indenture.

Unless the applicable prospectus supplement or free writing prospectus provides otherwise, we will pay principal and any premium and interest on Debt Securities at the office of the paying agent whom we will designate for this purpose. Unless the applicable prospectus supplement or free writing prospectus states otherwise, the corporate trust office of the Debt Securities Trustee in New York City will be designated as our sole paying agent for payments with respect to Debt Securities of each series. Any other paying agents initially designated by us for the Debt Securities of a particular series will be named in the applicable prospectus supplement or free writing prospectus. We may at any time add or delete paying agents or change the office through which any paying agent acts. We must, however, maintain a paying agent in each place of payment for the Debt Securities of a particular series. For more information, see Section 602 of the applicable Debt Securities Indenture.

All money we pay to a paying agent for the payment of the principal and any premium or interest on any Debt Security that remains unclaimed at the end of two years after payment is due will be repaid to us. After that date, the holder of that Debt Security shall be deemed an unsecured general creditor and may look only to us for these payments. For more information, see Section 603 of the applicable Debt Securities Indenture.

## **Redemption**

You should consult the applicable prospectus supplement or free writing prospectus for any terms regarding optional or mandatory redemption of Debt Securities. Except for any provisions in the applicable prospectus supplement or free writing prospectus regarding Debt Securities redeemable at the holder's option, Debt Securities may be redeemed only upon notice by mail not less than 30 nor more than 60 days prior to the redemption date. Further, if less than all of the Debt Securities of a series, or any tranche of a series, are to be redeemed, the Debt Securities to be redeemed will be selected by the method provided for the particular series. In the absence of a selection provision, the Debt Securities Trustee will select a fair and appropriate method of selection. For more information, see Sections 403 and 404 of the applicable Debt Securities Indenture.

A notice of redemption we provide may state:

that redemption is conditioned upon receipt by the paying agent on or before the redemption date of money sufficient to pay the principal of and any premium and interest on the Debt Securities; and

that if the money has not been received, the notice will be ineffective and we will not be required to redeem the Debt Securities.

For more information, see Section 404 of the applicable Debt Securities Indenture.

## **Table of Contents**

### **Consolidation, Merger and Sale of Assets**

We may not consolidate with or merge into any other person, nor may we transfer or lease substantially all of our assets and property to any person, unless:

the corporation formed by the consolidation or into which we are merged, or the person that acquires by conveyance or transfer, or that leases, substantially all of our property and assets:

is organized and validly existing under the laws of any domestic jurisdiction; and

expressly assumes by supplemental indenture our obligations on the Debt Securities and under the applicable indentures;

immediately after giving effect to the transaction, no event of default, and no event that would become an event of default, has occurred and is continuing; and

we have delivered to the Debt Securities Trustee an officer's certificate and opinion of counsel as provided in the applicable indentures.

For more information, see Section 1101 of the applicable Debt Securities Indenture.

### **Events of Default**

Unless the applicable prospectus supplement or free writing prospectus states otherwise, event of default under the applicable indenture with respect to Debt Securities of any series means any of the following:

failure to pay any interest due on any Debt Security of that series within 30 days after it becomes due;

failure to pay principal or premium, if any, when due on any Debt Security of that series;

failure to make any required sinking fund payment on any Debt Securities of that series;

breach of or failure to perform any other covenant or warranty in the applicable indenture with respect to Debt Securities of that series for 60 days (subject to extension under certain circumstances for another 120 days) after we receive notice from the Debt Securities Trustee, or we and the Debt Securities Trustee receive notice from the holders of at least 33% in principal amount of the Debt Securities of that series outstanding under the applicable indenture according to the provisions of the applicable indenture;

certain events of bankruptcy, insolvency or reorganization; and

any other event of default set forth in the applicable prospectus supplement or free writing prospectus.

For more information, see Section 801 of the applicable Debt Securities Indenture.

An event of default with respect to a particular series of Debt Securities does not necessarily constitute an event of default with respect to the Debt Securities of any other series issued under the applicable indenture.

If an event of default with respect to a particular series of Debt Securities occurs and is continuing, either the Debt Securities Trustee or the holders of at least 33% in principal amount of the outstanding Debt Securities of that series

may declare the principal amount of all of the Debt Securities of that series to be due and payable immediately. If the Debt Securities of that series are discount securities or similar Debt Securities, only the portion of the principal amount as specified in the applicable prospectus supplement or free writing prospectus may be immediately due and payable. If an event of default occurs and is continuing with respect to all series of Debt Securities issued under a Debt Securities Indenture, including all events of default relating to bankruptcy, insolvency or reorganization, the Debt Securities Trustee or the holders of at least 33% in principal amount of the outstanding Debt Securities of all series issued under that Debt Securities Indenture, considered together, may declare an acceleration of the principal amount of all series of Debt Securities issued under that Debt Securities Indenture. There is no automatic acceleration, even in the event of our bankruptcy or insolvency.

**Table of Contents**

The applicable prospectus supplement or free writing prospectus may provide, with respect to a series of Debt Securities to which a credit enhancement is applicable, that the provider of the credit enhancement may, if a default has occurred and is continuing with respect to the series, have all or any part of the rights with respect to remedies that would otherwise have been exercisable by the holder of that series.

At any time after a declaration of acceleration with respect to the Debt Securities of a particular series, and before a judgment or decree for payment of the money due has been obtained, the event of default giving rise to the declaration of acceleration will, without further action, be deemed to have been waived, and the declaration and its consequences will be deemed to have been rescinded and annulled, if:

we have paid or deposited with the Debt Securities Trustee a sum sufficient to pay:

all overdue interest on all Debt Securities of the particular series;

the principal of and any premium on any Debt Securities of that series that have become due otherwise than by the declaration of acceleration and any interest at the rate prescribed in the Debt Securities;

interest upon overdue interest at the rate prescribed in the Debt Securities, to the extent payment is lawful; and

all amounts due to the Debt Securities Trustee under the applicable indenture; and

any other event of default with respect to the Debt Securities of the particular series, other than the failure to pay the principal of the Debt Securities of that series that has become due solely by the declaration of acceleration, has been cured or waived as provided in the applicable indenture.

For more information, see Section 802 of the applicable Debt Securities Indenture.

The applicable Debt Securities Indenture includes provisions as to the duties of the Debt Securities Trustee in case an event of default occurs and is continuing. Consistent with these provisions, the Debt Securities Trustee will be under no obligation to exercise any of its rights or powers at the request or direction of any of the holders unless those holders have offered to the Debt Securities Trustee reasonable indemnity against the costs, expenses and liabilities that may be incurred by it in compliance with such request or direction. For more information, see Section 903 of the applicable Debt Securities Indenture. Subject to these provisions for indemnification, the holders of a majority in principal amount of the outstanding Debt Securities of any series may direct the time, method and place of conducting any proceeding for any remedy available to the Debt Securities Trustee, or exercising any trust or power conferred on the Debt Securities Trustee, with respect to the Debt Securities of that series. For more information, see Section 812 of the applicable Debt Securities Indenture.

No holder of Debt Securities may institute any proceeding regarding the applicable indenture, or for the appointment of a receiver or a trustee, or for any other remedy under the applicable indenture unless:

the holder has previously given to the Debt Securities Trustee written notice of a continuing event of default of that particular series;

the holders of a majority in principal amount of the outstanding Debt Securities of all series with respect to which an event of default is continuing have made a written request to the Debt Securities Trustee, and have offered reasonable indemnity to the Debt Securities Trustee, to institute the proceeding as trustee; and

the Debt Securities Trustee has failed to institute the proceeding, and has not received from the holders of a majority in principal amount of the outstanding Debt Securities of that series a direction inconsistent with the request, within 60 days after notice, request and offer of reasonable indemnity.

For more information, see Section 807 of the applicable Debt Securities Indenture.

The preceding limitations do not apply, however, to a suit instituted by a holder of a Debt Security for the enforcement of payment of the principal of or any premium or interest on the Debt Securities on or after

## **Table of Contents**

the applicable due date stated in the Debt Securities. For more information, see Section 808 of the applicable Debt Securities Indenture.

We must furnish annually to the Debt Securities Trustee a statement by an appropriate officer as to that officer's knowledge of our compliance with all conditions and covenants under each of the indentures for Debt Securities. Our compliance is to be determined without regard to any grace period or notice requirement under the respective indenture. For more information, see Section 606 of the applicable Debt Securities Indenture.

## **Modification and Waiver**

We and the Debt Securities Trustee, without the consent of the holders of the Debt Securities, may enter into one or more supplemental indentures for any of the following purposes:

to evidence the assumption by any permitted successor of our covenants in the applicable indenture and the Debt Securities;

to add one or more covenants or other provisions for the benefit of the holders of outstanding Debt Securities or to surrender any right or power conferred upon us by the applicable indenture;

to add any additional events of default;

to change or eliminate any provision of the applicable indenture or add any new provision to it, but if this action would adversely affect the interests of the holders of any particular series of Debt Securities in any material respect, the action will not become effective with respect to that series while any Debt Securities of that series remain outstanding under the applicable indenture;

to provide collateral security for the Debt Securities;

to establish the form or terms of Debt Securities according to the provisions of the applicable indenture;

to evidence the acceptance of appointment of a successor Debt Securities Trustee under the applicable indenture with respect to one or more series of the Debt Securities and to add to or change any of the provisions of the applicable indenture as necessary to provide for trust administration under the applicable indenture by more than one trustee;

to provide for the procedures required to permit the use of a non-certificated system of registration for any series of Debt Securities;

to change any place where:

the principal of and any premium and interest on any Debt Securities are payable;

any Debt Securities may be surrendered for registration of transfer or exchange; or

notices and demands to or upon us regarding Debt Securities and the applicable indentures may be served; or

to cure any ambiguity or inconsistency, but only by means of changes or additions that will not adversely affect the interests of the holders of Debt Securities of any series in any material respect.

For more information, see Section 1201 of the applicable Debt Securities Indenture.

The holders of at least a majority in aggregate principal amount of the outstanding Debt Securities of any series may waive:

compliance by us with certain provisions of the applicable indenture (see Section 607 of the applicable Debt Securities Indenture); and

any past default under the applicable indenture, except a default in the payment of principal, premium, or interest and certain covenants and provisions of the applicable indenture that cannot be modified or

**Table of Contents**

amended without consent of the holder of each outstanding Debt Security of the series affected (see Section 813 of the applicable Debt Securities Indenture).

The Trust Indenture Act of 1939 may be amended after the date of the applicable indenture to require changes to the indenture. In this event, the indenture will be deemed to have been amended so as to effect the changes, and we and the Debt Securities Trustee may, without the consent of any holders, enter into one or more supplemental indentures to evidence or effect the amendment. For more information, see Section 1201 of the applicable Debt Securities Indenture.

Except as provided in this section, the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities issued pursuant to a Debt Securities Indenture, considered as one class, is required to change in any manner the applicable indenture pursuant to one or more supplemental indentures. If less than all of the series of Debt Securities outstanding under a Debt Securities Indenture are directly affected by a proposed supplemental indenture, however, only the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of all series directly affected, considered as one class, will be required. Furthermore, if the Debt Securities of any series have been issued in more than one tranche and if the proposed supplemental indenture directly affects the rights of the holders of one or more, but not all, tranches, only the consent of the holders of a majority in aggregate principal amount of the outstanding Debt Securities of all tranches directly affected, considered as one class, will be required. In addition, an amendment or modification:

may not, without the consent of the holder of each outstanding Debt Security affected:

change the maturity of the principal of, or any installment of principal of or interest on, any Debt Securities;

reduce the principal amount or the rate of interest, or the amount of any installment of interest, or change the method of calculating the rate of interest;

reduce any premium payable upon the redemption of the Debt Securities;

reduce the amount of the principal of any Debt Security originally issued at a discount from the stated principal amount that would be due and payable upon a declaration of acceleration of maturity;

change the currency or other property in which a Debt Security or premium or interest on a Debt Security is payable; or

impair the right to institute suit for the enforcement of any payment on or after the stated maturity, or in the case of redemption, on or after the redemption date, of any Debt Securities;

may not reduce the percentage of principal amount requirement for consent of the holders for any supplemental indenture, or for any waiver of compliance with any provision of or any default under the applicable indenture, or reduce the requirements for quorum or voting, without the consent of the holder of each outstanding Debt Security of each series or tranche affected; and

may not modify provisions of the applicable indenture relating to supplemental indentures, waivers of certain covenants and waivers of past defaults with respect to the Debt Securities of any series, or any tranche of a series, without the consent of the holder of each outstanding Debt Security affected.

A supplemental indenture will be deemed not to affect the rights under the applicable indenture of the holders of any series or tranche of the Debt Securities if the supplemental indenture:

changes or eliminates any covenant or other provision of the applicable indenture expressly included solely for the benefit of one or more other particular series of Debt Securities or tranches thereof; or

modifies the rights of the holders of Debt Securities of any other series or tranches with respect to any covenant or other provision.

For more information, see Section 1202 of the applicable Debt Securities Indenture.

## **Table of Contents**

If we solicit from holders of the Debt Securities any type of action, we may at our option by board resolution fix in advance a record date for the determination of the holders entitled to vote on the action. We shall have no obligation, however, to do so. If we fix a record date, the action may be taken before or after the record date, but only the holders of record at the close of business on the record date shall be deemed to be holders for the purposes of determining whether holders of the requisite proportion of the outstanding Debt Securities have authorized the action. For that purpose, the outstanding Debt Securities shall be computed as of the record date. Any holder action shall bind every future holder of the same security and the holder of every security issued upon the registration of transfer of or in exchange for or in lieu of the security in respect of anything done or permitted by the Debt Securities Trustee or us in reliance on that action, whether or not notation of the action is made upon the security. For more information, see Section 104 of the applicable Debt Securities Indenture.

## **Defeasance**

Unless the applicable prospectus supplement or free writing prospectus provides otherwise, any Debt Security, or portion of the principal amount of a Debt Security, will be deemed to have been paid for purposes of the applicable indenture, and, at our election, our entire indebtedness in respect of the Debt Security, or portion thereof, will be deemed to have been satisfied and discharged, if we have irrevocably deposited with the Debt Securities Trustee or any paying agent other than us, in trust money, certain eligible obligations, as defined in the applicable indenture, or a combination of the two, sufficient to pay principal of and any premium and interest due and to become due on the Debt Security or portion thereof. For more information, see Section 701 of the applicable Debt Securities Indenture. For this purpose, unless the applicable prospectus supplement or free writing prospectus provides otherwise, eligible obligations include direct obligations of, or obligations unconditionally guaranteed by, the United States, entitled to the benefit of full faith and credit of the United States, and certificates, depositary receipts or other instruments that evidence a direct ownership interest in those obligations or in any specific interest or principal payments due in respect of those obligations.

## **Resignation, Removal of Debt Securities Trustee; Appointment of Successor**

The Debt Securities Trustee may resign at any time by giving written notice to us or may be removed at any time by an action of the holders of a majority in principal amount of outstanding Debt Securities delivered to the Debt Securities Trustee and us. No resignation or removal of the Debt Securities Trustee and no appointment of a successor trustee will become effective until a successor trustee accepts appointment in accordance with the requirements of the applicable indenture. So long as no event of default or event that would become an event of default has occurred and is continuing, and except with respect to a Debt Securities Trustee appointed by an action of the holders, if we have delivered to the Debt Securities Trustee a resolution of our board of trustees appointing a successor trustee and the successor trustee has accepted the appointment in accordance with the terms of the applicable indenture, the Debt Securities Trustee will be deemed to have resigned and the successor trustee will be deemed to have been appointed as trustee in accordance with the applicable indenture. For more information, see Section 910 of the applicable Debt Securities Indenture.

## **Notices**

We will give notices to holders of Debt Securities by mail to their addresses as they appear in the Debt Security Register. For more information, see Section 106 of the applicable Debt Securities Indenture.

## **Title**

The Debt Securities Trustee and its agents, and we and our agents, may treat the person in whose name a Debt Security is registered as the absolute owner of that Debt Security, whether or not that Debt Security may be overdue,

for the purpose of making payment and for all other purposes. For more information, see Section 308 of the applicable Debt Securities Indenture.

**Table of Contents**

**Governing Law**

The Debt Securities Indentures and the Debt Securities, including any Subordinated Debt Securities Indentures and Subordinated Debt Securities, will be governed by, and construed in accordance with, the law of the State of New York. For more information, see Section 112 of the applicable Debt Securities Indenture.

**DESCRIPTION OF WARRANTS**

We may issue warrants to purchase common shares or preferred shares. Warrants may be issued independently or together with any securities or may be attached to or separate from the securities. Each series of warrants will be issued under a separate warrant agreement to be entered into by us with a bank or trust company, as warrant agent, as specified in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

We will describe the specific terms of any warrants we may offer in the prospectus supplement relating to those warrants, which terms will include:

the title of the warrants;

the aggregate number of warrants;

the price or prices at which the warrants will be issued;

the designation, amount and terms of the securities purchasable upon exercise of the warrants;

any provisions for adjustment of the number of securities purchasable upon exercise of the warrants or the exercise price of the warrants;

the designation and terms of the other securities, if any, with which the warrants are to be issued and the number of the warrants issued with each security;

if applicable, the date on and after which the warrants and the securities purchasable upon exercise of the warrants will be separately transferable;

the price or prices at which the securities purchasable upon exercise of the warrants may be purchased;

the minimum or maximum number of warrants which may be exercised at any one time;

the date on which the right to exercise the warrants shall commence and the date on which the right shall expire;

if appropriate, a discussion of any material U.S. federal income tax considerations applicable to the warrants;

information with respect to book-entry procedures, if applicable; and

any additional terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

Each warrant will entitle the holder of the warrant to purchase for cash the amount of common shares or preferred shares, as applicable, at the exercise price stated or determinable in the applicable prospectus supplement. Warrants may be exercised at any time up to the close of business on the expiration date shown in the applicable prospectus supplement, unless otherwise specified in such prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void. Warrants may be exercised as described in the applicable prospectus supplement. When the warrant holder makes the payment and properly completes and signs the warrant certificate at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will, as soon as possible, forward the common shares or preferred shares, as applicable, that the warrant holder has purchased. If the warrant holder exercises the warrant for less than all of the warrants represented by the warrant certificate, we will issue a new warrant certificate for the remaining warrants.

**Table of Contents**

Additionally, in order to enable us to preserve our status as a REIT, we may take certain actions to restrict ownership and transfer of our outstanding securities, including any warrants. The prospectus supplement related to the offering of any warrants will specify any additional ownership limitation relating to the warrants being offered thereby.

**DESCRIPTION OF UNITS**

This section describes some of the general terms and provisions applicable to units we may issue from time to time. We will describe the specific terms of a series of units and the applicable unit agreement in the applicable prospectus supplement. The following description and any description of the units in the applicable prospectus supplement may not be complete and is subject to and qualified in its entirety by reference to the terms and provisions of the applicable unit agreement. A form of the unit agreement reflecting the particular terms and provisions of a series of offered units will be filed with the Commission in connection with the offering and incorporated by reference in the registration statement and this prospectus.

We may issue units from time to time in such amounts and in as many distinct series as we determine. We will issue each series of units under a unit agreement to be entered into between us and a unit agent to be designated in the applicable prospectus supplement. When we refer to a series of units, we mean all units issued as part of the same series under the applicable unit agreement.

We may issue units consisting of any combination of two or more securities described in this prospectus. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement will describe the terms of the units offered pursuant to it, including one or more of the following:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

the aggregate number of, and the price at which we will issue, the units any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

whether the units will be issued in fully registered or global form;

the name of the unit agent;

a description of the terms of any unit agreement to be entered into between us and a bank or trust company, as unit agent, governing the units;

if appropriate, a discussion of the material U.S. federal income tax consequences applicable to the units; and

whether the units will be listed on any securities exchange.

Additionally, in order to enable us to preserve our status as a REIT, we may take certain actions to restrict ownership and transfer of our outstanding securities, including any units. The prospectus supplement related to the offering of any units will specify any additional ownership limitation relating to the units being offered thereby.

**GLOBAL SECURITIES**

We may issue some or all of our securities of any series as global securities. We will register each global security in the name of a depositary identified in the applicable prospectus supplement. The global securities will be deposited with a depositary or nominee or custodian for the depositary and will bear a legend

**Table of Contents**

regarding restrictions on exchanges and registration of transfer as discussed below and any other matters to be provided pursuant to the indenture.

As long as the depository or its nominee is the registered holder of a global security, that person will be considered the sole owner and holder of the global security and the securities represented by it for all purposes under the securities and the indenture. Except in limited circumstances, owners of a beneficial interest in a global security:

will not be entitled to have the global security or any securities represented by it registered in their names;

will not receive or be entitled to receive physical delivery of certificated securities in exchange for the global security; and

will not be considered to be the owners or holders of the global security or any securities represented by it for any purposes under the securities or the indenture.

We will make all payments of principal and any premium and interest on a global security to the depository or its nominee as the holder of the global security. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in definitive form. These laws may impair the ability to transfer beneficial interests in a global security.

Ownership of beneficial interests in a global security will be limited to institutions having accounts with the depository or its nominee, called participants for purposes of this discussion, and to persons that hold beneficial interests through participants. When a global security is issued, the depository will credit on its book-entry, registration and transfer system the principal amounts of securities represented by the global security to the accounts of its participants. Ownership of beneficial interests in a global security will be shown only on, and the transfer of those ownership interests will be effected only through, records maintained by:

the depository, with respect to participants' interests; or

any participant, with respect to interests of persons held by the participants on their behalf.

Payments by participants to owners of beneficial interests held through the participants will be the responsibility of the participants. The depository may from time to time adopt various policies and procedures governing payments, transfers, exchanges and other matters relating to beneficial interests in a global security. None of the following will have any responsibility or liability for any aspect of the depository's or any participant's records relating to, or for payments made on account of, beneficial interests in a global security, or for maintaining, supervising or reviewing any records relating to those beneficial interests:

us or our affiliates;

the trustee under any indenture; or

any agent of any of the above.

**MATERIAL FEDERAL INCOME TAX CONSIDERATIONS**

This section summarizes the material federal income tax considerations that you, as a securityholder, may consider relevant. Hunton & Williams LLP has acted as our counsel, has reviewed this summary, and is of the opinion that the discussion contained herein is accurate in all material respects. Because this section is a summary, it does not address

all aspects of taxation that may be relevant to particular securityholders in light of their personal investment or tax circumstances, or to certain types of securityholders that are subject to special treatment under the federal income tax laws, such as:

insurance companies;

tax-exempt organizations (except to the limited extent discussed in Taxation of Tax-Exempt Shareholders below);

**Table of Contents**

financial institutions or broker-dealers;

non-U.S. individuals and foreign corporations (except to the limited extent discussed in Taxation of Non-U.S. Shareholders below);

U.S. expatriates;

persons who mark-to-market our securities;

subchapter S corporations;

U.S. shareholders (as defined below) whose functional currency is not the U.S. dollar;

regulated investment companies and REITs;

trusts and estates;

holders who receive our securities through the exercise of employee share options or otherwise as compensation;

persons holding our securities as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment;

persons subject to the alternative minimum tax provisions of the Code;

persons holding our securities through a partnership or similar pass-through entity; and

persons holding a 10% or more (by vote or value) beneficial interest in our shares of beneficial interest.

This summary assumes that securityholders hold securities as capital assets for federal income tax purposes, which generally means property held for investment.

The statements in this section are based on the current federal income tax laws, are for general information purposes only and are not tax advice. We cannot assure you that new laws, interpretations of law, or court decisions, any of which may take effect retroactively, will not cause any statement in this section to be inaccurate.

**WE URGE YOU TO CONSULT YOUR OWN TAX ADVISOR REGARDING THE SPECIFIC TAX CONSEQUENCES TO YOU OF THE PURCHASE, OWNERSHIP AND SALE OF OUR SECURITIES AND OF OUR ELECTION TO BE TAXED AS A REIT. SPECIFICALLY, YOU ARE URGED TO CONSULT YOUR OWN TAX ADVISOR REGARDING THE FEDERAL, STATE, LOCAL, FOREIGN, AND OTHER TAX CONSEQUENCES OF SUCH PURCHASE, OWNERSHIP, SALE AND ELECTION, AND REGARDING POTENTIAL CHANGES IN APPLICABLE TAX LAWS.**

**Taxation of Our Company**

We elected to be taxed as a REIT for federal income tax purposes commencing with our short taxable year ended December 31, 2009. We believe that, commencing with such short taxable year, we have been organized and have operated in such a manner as to qualify for taxation as a REIT under the federal income tax laws, and we intend to

continue to operate in such a manner, but no assurances can be given that we will operate in a manner so as to qualify or remain qualified as a REIT. This section discusses the laws governing the federal income tax treatment of a REIT and its shareholders. These laws are highly technical and complex.

In the opinion of Hunton & Williams LLP, we qualified to be taxed as a REIT under the federal income tax laws for our taxable year ended December 31, 2010 and our organization and current and proposed method of operation will enable us to continue to qualify as a REIT for our taxable year ending December 31, 2011 and thereafter. Investors should be aware that Hunton & Williams LLP's opinion is based upon customary assumptions, is conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets and the conduct of our business, is not binding upon the IRS, or any court, and speaks as of the date issued. In addition, Hunton & Williams LLP's opinion is based on existing federal income tax law governing qualification as a REIT, which is subject to change either

**Table of Contents**

prospectively or retroactively. Moreover, our qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the federal tax laws. Those qualification tests involve the percentage of income that we earn from specified sources, the percentage of our assets that falls within specified categories, the diversity of ownership of our shares of beneficial interest, and the percentage of our earnings that we distribute. Hunton & Williams LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements. Hunton & Williams LLP's opinion does not foreclose the possibility that we may have to use one or more of the REIT savings provisions described below, which would require us to pay an excise or penalty tax (which could be material) in order to maintain our REIT qualification. For a discussion of the tax consequences of our failure to qualify as a REIT, see Failure to Qualify.

If we qualify as a REIT, we generally will not be subject to federal income tax on the taxable income that we distribute to our shareholders. The benefit of that tax treatment is that it avoids the double taxation, or taxation at both the corporate and shareholder levels, that generally results from owning stock in a corporation. However, we will be subject to federal tax in the following circumstances:

We will pay federal income tax on any taxable income, including undistributed net capital gain, that we do not distribute to shareholders during, or within a specified time period after, the calendar year in which the income is earned.

We may be subject to the alternative minimum tax on any items of tax preference including any deductions of net operating losses.

We will pay income tax at the highest corporate rate on:

net income from the sale or other disposition of property acquired through foreclosure ( foreclosure property ) that we hold primarily for sale to customers in the ordinary course of business, and

other non-qualifying income from foreclosure property.

We will pay a 100% tax on net income from sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.

If we fail to satisfy one or both of the 75% gross income test or the 95% gross income test, as described below under Gross Income Tests, and nonetheless continue to qualify as a REIT because we meet other requirements, we will pay a 100% tax on:

the gross income attributable to the greater of the amount by which we fail the 75% gross income test or the 95% gross income test, in either case, multiplied by

a fraction intended to reflect our profitability.

If we fail to distribute during a calendar year at least the sum of (1) 85% of our REIT ordinary income for the year, (2) 95% of our REIT capital gain net income for the year, and (3) any undistributed taxable income required to be distributed from earlier periods, we will pay a 4% nondeductible excise tax on the excess of the required distribution over the amount we actually distributed.

We may elect to retain and pay income tax on our net long-term capital gain. In that case, a U.S. shareholder would be taxed on its proportionate share of our undistributed long-term capital gain (to the extent that we

made a timely designation of such gain to the shareholders) and would receive a credit or refund for its proportionate share of the tax we paid.

We will be subject to a 100% excise tax on transactions with a TRS that are not conducted on an arm's-length basis.

In the event of a failure of any of the asset tests, other than a *de minimis* failure of the 5% asset test, the 10% vote or the 10% value test, as described below under Asset Tests, as long as the failure was due to reasonable cause and not to willful neglect, we file a description of each asset that caused such failure with the IRS, and we dispose of the assets causing the failure or otherwise comply with the

## **Table of Contents**

asset tests within six months after the last day of the quarter in which we identify such failure, we will pay a tax equal to the greater of \$50,000 or the highest federal income tax rate then applicable to U.S. corporations (currently 35%) on the net income from the nonqualifying assets during the period in which we failed to satisfy the asset tests.

In the event we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, and such failure is due to reasonable cause and not to willful neglect, we will be required to pay a penalty of \$50,000 for each such failure.

If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference either to the C corporation's basis in the asset or to another asset, we will pay tax at the highest regular corporate rate applicable if we recognize gain on the sale or disposition of the asset during the 10-year period after we acquire the asset provided no election is made for the transaction to be taxable on a current basis. The amount of gain on which we will pay tax is the lesser of:

the amount of gain that we recognize at the time of the sale or disposition, and

the amount of gain that we would have recognized if we had sold the asset at the time we acquired it.

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor our compliance with rules relating to the composition of a REIT's shareholders, as described below in Recordkeeping Requirements.

The earnings of our lower-tier entities that are subchapter C corporations, including TRSs, will be subject to federal corporate income tax.

In addition, notwithstanding our status as a REIT, we may also have to pay certain state and local income taxes, because not all states and localities treat REITs in the same manner that they are treated for federal income tax purposes. Moreover, as further described below, TRSs will be subject to federal, state and local corporate income tax on their taxable income.

## **Requirements for Qualification**

A REIT is a corporation, trust, or association that meets each of the following requirements:

1. It is managed by one or more directors or trustees.
2. Its beneficial ownership is evidenced by transferable shares, or by transferable certificates of beneficial interest.
3. It would be taxable as a domestic corporation but for the REIT provisions of the federal income tax laws.
4. It is neither a financial institution nor an insurance company subject to special provisions of the federal income tax laws.
5. At least 100 persons are beneficial owners of its shares or ownership certificates.
6. Not more than 50% in value of its outstanding shares or ownership certificates is owned, directly or indirectly, by five or fewer individuals, which the Code defines to include certain entities, during the last half of any taxable year.

7. It elects to be a REIT, or has made such election for a previous taxable year, and satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status.

8. It meets certain other qualification tests, described below, regarding the nature of its income and assets and the amount of its distributions to shareholders.

**Table of Contents**

9. It uses a calendar year for federal income tax purposes and complies with the recordkeeping requirements of the federal income tax laws.

We must meet requirements 1 through 4, 7, 8 and 9 during our entire taxable year and must meet requirement 5 during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. Requirements 5 and 6 began applying to us with our 2010 taxable year. If we comply with all the requirements for ascertaining the ownership of our outstanding shares in a taxable year and have no reason to know that we violated requirement 6, we will be deemed to have satisfied requirement 6 for that taxable year. For purposes of determining share ownership under requirement 6, an individual generally includes a supplemental unemployment compensation benefits plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes. An individual, however, generally does not include a trust that is a qualified employee pension or profit sharing trust under the federal income tax laws, and beneficiaries of such a trust will be treated as holding our shares in proportion to their actuarial interests in the trust for purposes of requirement 6.

Our declaration of trust provides restrictions regarding the transfer and ownership of our shares of beneficial interest. See *Description of Shares of Beneficial Interest – Restrictions on Ownership and Transfer*. We believe that we have issued sufficient shares of beneficial interest with sufficient diversity of ownership to allow us to satisfy requirements 5 and 6 above. The restrictions in our declaration of trust are intended (among other things) to assist us in continuing to satisfy requirements 5 and 6 described above. These restrictions, however, may not ensure that we will, in all cases, be able to satisfy such share ownership requirements. If we fail to satisfy these share ownership requirements, our qualification as a REIT may terminate.

In addition, we must satisfy all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status and comply with the record-keeping requirements of the Code and regulations promulgated thereunder.

*Qualified REIT subsidiaries.* A corporation that is a qualified REIT subsidiary is not treated as a corporation separate from its parent REIT. All assets, liabilities, and items of income, deduction, and credit of a qualified REIT subsidiary are treated as assets, liabilities, and items of income, deduction, and credit of the REIT. A qualified REIT subsidiary is a corporation, other than a TRS, all of the stock of which is owned by a REIT. Thus, in applying the requirements described herein, any qualified REIT subsidiary that we own will be ignored, and all assets, liabilities, and items of income, deduction, and credit of such subsidiary will be treated as our assets, liabilities, and items of income, deduction, and credit.

*Other disregarded entities and partnerships.* An unincorporated domestic entity, such as a partnership or limited liability company that has a single owner, generally is not treated as an entity separate from its parent for federal income tax purposes. An unincorporated domestic entity with two or more owners is generally treated as a partnership for federal income tax purposes. In the case of a REIT that is a partner in a partnership that has other partners, the REIT is treated as owning its proportionate share of the assets of the partnership and as earning its allocable share of the gross income of the partnership for purposes of the applicable REIT qualification tests. Our proportionate share of the assets of a partnership for purposes of the 10% value test (see *Asset Tests*) is based on our proportionate interest in the equity interests and certain debt securities issued by the partnership. For all of the other asset and income tests, our proportionate share is based on our proportionate interest in the capital interests in the partnership. Our proportionate share of the assets, liabilities, and items of income of any partnership, joint venture, or limited liability company that is treated as a partnership for federal income tax purposes in which we acquire an equity interest, directly or indirectly, are treated as our assets and gross income for purposes of applying the various REIT qualification requirements.

*Taxable REIT subsidiaries.* A REIT may own up to 100% of the capital stock of one or more TRSs. A TRS is a fully taxable corporation that may earn income that would not be qualifying income if earned directly by the parent REIT. The subsidiary and the REIT must jointly elect to treat the subsidiary as a TRS. A corporation of which a TRS directly or indirectly owns more than 35% of the voting power or value of the stock will automatically be treated as a TRS. However, an entity will not qualify as a TRS if it directly or indirectly operates or manages a lodging or health care facility or, generally, provides to another person under

**Table of Contents**

a franchise, license, or otherwise, rights to any brand name under which any lodging facility or health care facility is operated, unless such rights are provided to an eligible independent contractor (as defined below under Gross Income Tests Rents from Real Property ) to operate or manage a lodging facility or health care facility and such lodging facility or health care facility is either owned by the TRS or leased to the TRS by its parent REIT. Additionally, a TRS that employs individuals working at a qualified lodging facility outside the United States will not be considered to operate or manage a qualified lodging facility as long as an eligible independent contractor is responsible for the daily supervision and direction of such individuals on behalf of the TRS pursuant to a management contract or similar service contract.

We are not treated as holding the assets of a TRS or as receiving any income that the subsidiary earns. Rather, the stock issued by a TRS to us is an asset in our hands, and we treat the distributions paid to us from such taxable subsidiary, if any, as income. This treatment can affect our compliance with the gross income and asset tests. Because we do not include the assets and income of TRSs in determining our compliance with the REIT requirements, we may use such entities to undertake indirectly activities that the REIT rules might otherwise preclude us from doing directly or through pass-through subsidiaries. Overall, no more than 25% of the value of a REIT's assets may consist of stock or securities of one or more TRSs.

A TRS will pay income tax at regular corporate rates on any income that it earns. In addition, the TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. Further, the rules impose a 100% excise tax on transactions between a TRS and its parent REIT or the REIT's tenants that are not conducted on an arm's-length basis. We have formed a TRS, Pebblebrook Hotel Lessee, Inc., whose wholly owned subsidiaries are the lessees of our hotels. We refer to our TRS and its wholly owned subsidiaries as our TRS lessees. We may also form additional TRSs in the future. See Taxable REIT Subsidiaries.

*Ownership of Subsidiary REIT.* Our operating partnership owns 100% of the common shares of DC Hotel Trust, or our subsidiary REIT, a Maryland real estate investment trust that will elect to be taxed as a REIT under the federal income tax laws commencing with its short taxable year ending December 31, 2010 upon the filing of its federal income tax return for that year. DC Hotel Trust currently owns one hotel in Washington, D.C.

Our subsidiary REIT is subject to the various REIT qualification requirements and other limitations described herein that are applicable to us. We believe that our subsidiary REIT is organized and has operated and will continue to operate in a manner to permit it to qualify for taxation as a REIT for federal income tax purposes from and after the effective date of its REIT election. However, if our subsidiary REIT were to fail to qualify as a REIT, then (i) the subsidiary REIT would become subject to regular U.S. corporation income tax, as described herein, see Failure to Qualify below, and (ii) our ownership of shares in such subsidiary REIT would cease to be a qualifying real estate asset for purposes of the 75% asset test and would become subject to the 5% asset test, the 10% vote test, and the 10% value test generally applicable to our ownership in corporations other than REITs, qualified REIT subsidiaries and TRSs. See Asset Tests below. If our subsidiary REIT were to fail to qualify as a REIT, it is possible that we would not meet the 10% vote test and the 10% value test with respect to our indirect interest in such entity, in which event we would fail to qualify as a REIT unless we could avail ourselves of certain relief provisions. We have made a protective TRS election with respect to our subsidiary REIT and may implement other protective arrangements intended to avoid such an outcome if our subsidiary REIT were not to qualify as a REIT, but there can be no assurance that such protective election and other arrangements will be effective to avoid the resulting adverse consequences to us. Moreover, even if the protective TRS election with respect to our subsidiary REIT were to be effective in the event of the failure of the subsidiary REIT to qualify as a REIT, we cannot assure you that we would not fail to satisfy the requirement that not more than 25% of the value of our total assets may be represented by the securities of one or more TRSs. In this event, we would fail to qualify as a REIT unless we or our subsidiary REIT could avail itself of certain relief provisions.

## Table of Contents

### **Gross Income Tests**

We must satisfy two gross income tests annually to maintain our qualification as a REIT. First, at least 75% of our gross income for each taxable year must consist of defined types of income that we derive, directly or indirectly, from investments relating to real property or mortgages on real property or qualified temporary investment income.

Qualifying income for purposes of that 75% gross income test generally includes:

rents from real property;

interest on debt secured by mortgages on real property, or on interests in real property;

dividends or other distributions on, and gain from the sale of, shares in other REITs;

gain from the sale of real estate assets;

income and gain from foreclosure property; and

income derived from the temporary investment of new capital that is attributable to the issuance of our shares of beneficial interest or a public offering of our debt with a maturity date of at least five years and that we receive during the one-year period beginning on the date on which we received such new capital.

Second, in general, at least 95% of our gross income for each taxable year must consist of income that is qualifying income for purposes of the 75% gross income test, other types of interest and dividends, gain from the sale or disposition of shares or securities, or any combination of these. Gross income from our sale of property that we hold primarily for sale to customers in the ordinary course of business is excluded from both the numerator and the denominator in both gross income tests. In addition, income and gain from hedging transactions that we enter into to hedge indebtedness incurred or to be incurred to acquire or carry real estate assets and that are clearly and timely identified as such will be excluded from both the numerator and the denominator for purposes of the 75% and 95% gross income tests. In addition, certain foreign currency gains will be excluded from gross income for purposes of one or both of the gross income tests. See *Foreign Currency Gain* below. The following paragraphs discuss the specific application of the gross income tests to us.

*Rents from real property.* Rent that we receive from our real property will qualify as rents from real property, which is qualifying income for purposes of the 75% and 95% gross income tests, only if the following conditions are met:

First, the rent must not be based, in whole or in part, on the income or profits of any person, but may be based on a fixed percentage or percentages of receipts or sales.

Second, neither we nor a direct or indirect owner of 10% or more of our shares of beneficial interest may own, actually or constructively, 10% or more of a tenant from whom we receive rent, other than a TRS. If the tenant is a TRS, such TRS may not directly or indirectly operate or manage the related property. Instead, the property must be operated on behalf of the TRS by a person who qualifies as an independent contractor and who is, or is related to a person who is, actively engaged in the trade or business of operating lodging facilities for any person unrelated to us and the TRS. See *Taxable REIT Subsidiaries*.

Third, if the rent attributable to personal property leased in connection with a lease of real property is 15% or less of the total rent received under the lease, then the rent attributable to personal property will qualify as rents from real property. However, if the 15% threshold is exceeded, the rent attributable to personal property will not qualify as rents from real property.

Fourth, we generally must not operate or manage our real property or furnish or render services to our tenants, other than through an independent contractor who is adequately compensated and from whom we do not derive revenue. However, we need not provide services through an independent contractor, but instead may provide services directly to our tenants, if the services are usually or

**Table of Contents**

customarily rendered in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, we may provide a minimal amount of noncustomary services to the tenants of a property, other than through an independent contractor, as long as our income from the services (valued at not less than 150% of our direct cost of performing such services) does not exceed 1% of our income from the related property. Furthermore, we may own up to 100% of the stock of a TRS which may provide customary and noncustomary services to our tenants without tainting our rental income for the related properties. See Taxable REIT Subsidiaries.

Our TRS lessees lease from our operating partnership and its subsidiaries the land, buildings, improvements, furnishings and equipment comprising our hotel properties. In order for the rent paid under the leases to constitute rents from real property, the leases must be respected as true leases for federal income tax purposes and not treated as service contracts, joint ventures or some other type of arrangement. The determination of whether our leases are true leases depends on an analysis of all the surrounding facts and circumstances. In making such a determination, courts have considered a variety of factors, including the following:

the intent of the parties;

the form of the agreement;

the degree of control over the property that is retained by the property owner (for example, whether the lessee has substantial control over the operation of the property or whether the lessee was required simply to use its best efforts to perform its obligations under the agreement); and

the extent to which the property owner retains the risk of loss with respect to the property (for example, whether the lessee bears the risk of increases in operating expenses or the risk of damage to the property) or the potential for economic gain with respect to the property.

In addition, the federal income tax law provides that a contract that purports to be a service contract or a partnership agreement is treated instead as a lease of property if the contract is properly treated as such, taking into account all relevant factors. Since the determination of whether a service contract should be treated as a lease is inherently factual, the presence or absence of any single factor may not be dispositive in every case.

We believe that our leases are structured so that they qualify as true leases for federal income tax purposes. Our belief is based on the following with respect to each lease:

our operating partnership and the lessees intend for their relationship to be that of a lessor and lessee, and such relationship is documented by a lease agreement;

the lessee has the right to exclusive possession and use and quiet enjoyment of the hotels covered by the lease during the term of the lease;

the lessee bears the cost of, and is responsible for, day-to-day maintenance and repair of the hotels other than the cost of certain capital expenditures, and dictates through hotel managers that are eligible independent contractors, who work for the lessee during the terms of the lease, how the hotels are operated and maintained;

the lessee bears all of the costs and expenses of operating the hotels, including the cost of any inventory used in their operation, during the term of the lease, other than utilities, real estate and personal property taxes and the cost of certain furniture, fixtures and equipment, and certain capital expenditures;

the lessee benefits from any savings and bears the burdens of any increases in the costs of operating the hotels during the term of the lease;

in the event of damage or destruction to a hotel, the lessee will be at economic risk because it will bear the economic burden of the loss in income from operation of the hotels subject to the right, in certain circumstances, to terminate the lease if the lessor does not restore the hotel to its prior condition;

**Table of Contents**

the lessee generally indemnifies the lessor against all liabilities imposed on the lessor during the term of the lease by reason of (i) injury to persons or damage to property occurring at the hotels or (ii) the lessee's use, management, maintenance or repair of the hotels;

the lessee is obligated to pay, at a minimum, substantial base rent for the period of use of the hotels under the lease;

the lessee stands to incur substantial losses or reap substantial gains depending on how successfully it, through the hotel managers who work for the lessees during the terms of the leases, operates the hotels;

each lease that we enter into, at the time we enter into it (or at any time that any such lease is subsequently renewed or extended) enables the tenant to derive a meaningful profit, after expenses and taking into account the risks associated with the lease, from the operation of the hotels during the term of its leases; and

upon termination of each lease, the applicable hotel will be expected to have a substantial remaining useful life and substantial remaining fair market value.

Investors should be aware that there are no controlling U.S. Department of the Treasury, or the Treasury, regulations, published rulings or judicial decisions involving leases with terms substantially the same as our leases that discuss whether such leases constitute true leases for federal income tax purposes. If our leases are characterized as service contracts or partnership agreements, rather than as true leases, part or all of the payments that our operating partnership and its subsidiaries receive from the TRS lessees may not be considered rent or may not otherwise satisfy the various requirements for qualification as rents from real property. In that case, we likely would not be able to satisfy either the 75% or 95% gross income test and, as a result, would lose our REIT status unless we qualify for relief, as described below under Failure to Satisfy Gross Income Tests.

As described above, in order for the rent that we receive to constitute rents from real property, several other requirements must be satisfied. One requirement is that percentage rent must not be based in whole or in part on the income or profits of any person. Percentage rent, however, will qualify as rents from real property if it is based on percentages of receipts or sales and the percentages:

are fixed at the time the percentage leases are entered into;

are not renegotiated during the term of the percentage leases in a manner that has the effect of basing percentage rent on income or profits; and

conform with normal business practice.

More generally, percentage rent will not qualify as rents from real property if, considering the leases and all the surrounding circumstances, the arrangement does not conform with normal business practice, but is in reality used as a means of basing the percentage rent on income or profits.

Second, we must not own, actually or constructively, 10% or more of the shares or the assets or net profits of any lessee (a related party tenant), other than a TRS. The constructive ownership rules generally provide that, if 10% or more in value of our shares of beneficial interest is owned, directly or indirectly, by or for any person, we are considered as owning the shares owned, directly or indirectly, by or for such person. We currently lease all of our hotels to TRS lessees and intend to lease to a TRS any hotels we acquire in the future. In addition, our declaration of trust prohibits transfers of our shares of beneficial interest that would cause us to own actually or constructively, 10%

or more of the ownership interests in any non-TRS lessee. Based on the foregoing, we should never own, actually or constructively, 10% or more of any lessee other than a TRS. However, because the constructive ownership rules are broad and it is not possible to monitor continually direct and indirect transfers of our shares of beneficial interest, no absolute assurance can be given that such transfers or other events of which we have no knowledge will not cause us to own constructively 10% or more of a lessee (or a subtenant, in which case only rent attributable to the subtenant is disqualified) other than a TRS at some future date.

**Table of Contents**

As described above, we may own up to 100% of the capital stock of one or more TRSs. A TRS is a fully taxable corporation that is permitted to lease hotel properties from the related REIT as long as it does not directly or indirectly operate or manage any lodging facilities or health care facilities or provide rights to any brand name under which any lodging or health care facility is operated, unless such rights are provided to an eligible independent contractor to operate or manage a lodging or health care facility if such rights are held by the TRS as a franchisee, licensee, or in a similar capacity and such hotel is either owned by the TRS or leased to the TRS by its parent REIT. A TRS will not be considered to operate or manage a qualified lodging facility solely because the TRS directly or indirectly possesses a license, permit, or similar instrument enabling it to do so. Additionally, a TRS will not be considered to operate or manage a qualified lodging facility located outside of the United States, as long as an eligible independent contractor is responsible for the daily supervision and direction of such individuals on behalf of the TRS pursuant to a management contract or similar service contract. Moreover, rent that we receive from a TRS will qualify as rents from real property as long as the property is operated on behalf of the TRS by an independent contractor who is adequately compensated, who does not, directly or through its shareholders, own more than 35% of our shares, taking into account certain ownership attribution rules, and who is, or is related to a person who is, actively engaged in the trade or business of operating qualified lodging facilities for any person unrelated to us and the TRS lessee (an eligible independent contractor). A qualified lodging facility is a hotel, motel, or other establishment more than one-half of the dwelling units in which are used on a transient basis, unless wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. A qualified lodging facility includes customary amenities and facilities operated as part of, or associated with, the lodging facility as long as such amenities and facilities are customary for other properties of a comparable size and class owned by other unrelated owners. See Taxable REIT Subsidiaries.

We have formed Pebblebrook Hotel Lessee, Inc., a TRS whose wholly owned subsidiaries are the lessees of our hotels. Our TRS lessees engage independent third-party hotel managers that qualify as eligible independent contractors to operate the related hotels on behalf of such TRS lessees.

Third, the rent attributable to the personal property leased in connection with the lease of a hotel must not be greater than 15% of the total rent received under the lease. The rent attributable to the personal property contained in a hotel is the amount that bears the same ratio to total rent for the taxable year as the average of the fair market values of the personal property at the beginning and at the end of the taxable year bears to the average of the aggregate fair market values of both the real and personal property contained in the hotel at the beginning and at the end of such taxable year (the personal property ratio). To comply with this limitation, a TRS lessee may acquire furnishings, equipment and other personal property. With respect to each hotel in which the TRS lessee does not own the personal property, we believe either that the personal property ratio is less than 15% or that any rent attributable to excess personal property does not jeopardize our ability to qualify as a REIT. There can be no assurance, however, that the IRS would not challenge our calculation of a personal property ratio, or that a court would not uphold such assertion. If such a challenge were successfully asserted, we could fail to satisfy the 75% or 95% gross income test and thus potentially lose our REIT status.

Fourth, we cannot furnish or render noncustomary services to the tenants of our hotels, or manage or operate our hotels, other than through an independent contractor who is adequately compensated and from whom we do not derive or receive any income. However, we need not provide services through an independent contractor, but instead may provide services directly to our tenants, if the services are usually or customarily rendered in connection with the rental of space for occupancy only and are not considered to be provided for the tenants' convenience. In addition, we may provide a minimal amount of noncustomary services to the tenants of a property, other than through an independent contractor, as long as our income from the services does not exceed 1% of our income from the related property. Finally, we may own up to 100% of the capital stock of one or more TRSs, which may provide noncustomary services to our tenants without tainting our rents from the related hotel properties. We will not perform

any services other than customary ones for our lessees, unless such services are provided through independent contractors or TRSs.

**Table of Contents**

If a portion of the rent that we receive from a hotel does not qualify as rents from real property because the rent attributable to personal property exceeds 15% of the total rent for a taxable year, the portion of the rent that is attributable to personal property will not be qualifying income for purposes of either the 75% or 95% gross income test. Thus, if such rent attributable to personal property, plus any other income that is nonqualifying income for purposes of the 95% gross income test, during a taxable year exceeds 5% of our gross income during the year, we would lose our REIT qualification. If, however, the rent from a particular hotel does not qualify as rents from real property because either (1) the percentage rent is considered based on the income or profits of the related lessee, (2) the lessee either is a related party tenant or fails to qualify for the exception to the related party tenant rule for qualifying TRSs or (3) we furnish noncustomary services to the tenants of the hotel, or manage or operate the hotel, other than through a qualifying independent contractor or a TRS, none of the rent from that hotel would qualify as rents from real property. In that case, we might lose our REIT qualification because we might be unable to satisfy either the 75% or 95% gross income test. In addition to the rent, the lessees will be required to pay certain additional charges. To the extent that such additional charges represent either (1) reimbursements of amounts that we are obligated to pay to third parties, such as a lessee's proportionate share of a property's operational or capital expenses, or (2) penalties for nonpayment or late payment of such amounts, such charges should qualify as rents from real property. However, to the extent that such charges do not qualify as rents from real property, they instead will be treated as interest that qualifies for the 95% gross income test.

*Interest.* The term interest generally does not include any amount received or accrued, directly or indirectly, if the determination of such amount depends in whole or in part on the income or profits of any person. However, interest generally includes the following:

an amount that is based on a fixed percentage or percentages of receipts or sales; and

an amount that is based on the income or profits of a debtor, as long as the debtor derives substantially all of its income from the real property securing the debt from leasing substantially all of its interest in the property, and only to the extent that the amounts received by the debtor would be qualifying rents from real property if received directly by a REIT.

If a loan contains a provision that entitles a REIT to a percentage of the borrower's gain upon the sale of the real property securing the loan or a percentage of the appreciation in the property's value as of a specific date, income attributable to that loan provision will be treated as gain from the sale of the property securing the loan, which generally is qualifying income for purposes of both gross income tests.

We may, on a select basis, purchase mortgage debt and mezzanine loans when we believe our investment will allow us to acquire ownership of the underlying property. Interest on debt secured by a mortgage on real property or on interests in real property, including, for this purpose, discount points, prepayment penalties, loan assumption fees, and late payment charges that are not compensation for services, generally is qualifying income for purposes of the 75% gross income test. However, if a loan is secured by real property and other property and the highest principal amount of a loan outstanding during a taxable year exceeds the fair market value of the real property securing the loan as of the date the REIT agreed to originate or acquire the loan or on the date the REIT modifies the loan (if the modification is treated as significant for federal income tax purposes), a portion of the interest income from such loan will not be qualifying income for purposes of the 75% gross income test, but will be qualifying income for purposes of the 95% gross income test. The portion of the interest income that will not be qualifying income for purposes of the 75% gross income test will be equal to the portion of the principal amount of the loan that is not secured by real property—that is, the amount by which the loan exceeds the value of the real estate that is security for the loan. For purposes of this paragraph, however, under recently issued IRS guidance we do not need to redetermine the fair market value of the real property securing a loan in connection with a loan modification that is occasioned by a borrower default or made at a time when we reasonable believe that the modification to the loan will substantially reduce a significant risk of

default on the original loan.

Mezzanine loans are loans secured by equity interests in an entity that directly or indirectly owns real property, rather than by a direct mortgage of the real property. IRS Revenue Procedure 2003-65 provides a safe harbor pursuant to which a mezzanine loan, if it meets each of the requirements contained in the Revenue

## **Table of Contents**

Procedure, will be treated by the IRS as a real estate asset for purposes of the REIT asset tests described below, and interest derived from it will be treated as qualifying mortgage interest for purposes of the 75% gross income test. Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. Moreover, we anticipate that the mezzanine loans we will acquire typically will not meet all of the requirements for reliance on this safe harbor. We intend to invest in mezzanine loans in manner that will enable us to continue to satisfy the gross income and asset tests.

*Dividends.* Our share of any dividends received from any corporation (including any TRS, but excluding any REIT) in which we own an equity interest will qualify for purposes of the 95% gross income test but not for purposes of the 75% gross income test. Our share of any dividends received from any other REIT in which we own an equity interest, including our subsidiary REIT, will be qualifying income for purposes of both gross income tests.

*Prohibited transactions.* A REIT will incur a 100% tax on the net income (including foreign currency gain) derived from any sale or other disposition of property, other than foreclosure property, that the REIT holds primarily for sale to customers in the ordinary course of a trade or business. We believe that none of our assets will be held primarily for sale to customers and that a sale of any of our assets will not be in the ordinary course of our business. Whether a REIT holds an asset primarily for sale to customers in the ordinary course of a trade or business depends, however, on the facts and circumstances in effect from time to time, including those related to a particular asset. A safe harbor to the characterization of the sale of property by a REIT as a prohibited transaction and the 100% prohibited transaction tax is available if the following requirements are met:

the REIT has held the property for not less than two years;

the aggregate expenditures made by the REIT, or any partner of the REIT, during the two-year period preceding the date of the sale that are includable in the basis of the property do not exceed 30% of the selling price of the property;

either (1) during the year in question, the REIT did not make more than seven sales of property other than foreclosure property or sales to which Section 1033 of the Code applies, (2) the aggregate adjusted bases of all such properties sold by the REIT during the year did not exceed 10% of the aggregate bases of all of the assets of the REIT at the beginning of the year or (3) the aggregate fair market value of all such properties sold by the REIT during the year did not exceed 10% of the aggregate fair market value of all of the assets of the REIT at the beginning of the year;

in the case of property not acquired through foreclosure or lease termination, the REIT has held the property for at least two years for the production of rental income; and

if the REIT has made more than seven sales of non-foreclosure property during the taxable year, substantially all of the marketing and development expenditures with respect to the property were made through an independent contractor from whom the REIT derives no income.

We will attempt to comply with the terms of the safe-harbor provisions in the federal income tax laws prescribing when an asset sale will not be characterized as a prohibited transaction. We cannot assure you, however, that we can comply with the safe-harbor provision or that we will avoid owning property that may be characterized as property that we hold primarily for sale to customers in the ordinary course of a trade or business. The 100% tax will not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will be taxed to the corporation at regular corporate income tax rates.

*Foreclosure property.* We will be subject to tax at the maximum corporate rate on any income from foreclosure property, which includes certain foreign currency gains and related deductions, other than income that otherwise would be qualifying income for purposes of the 75% gross income test, less expenses directly connected with the production of that income. However, gross income from foreclosure property will qualify

**Table of Contents**

under the 75% and 95% gross income tests. Foreclosure property is any real property, including interests in real property, and any personal property incident to such real property:

that is acquired by a REIT as the result of the REIT having bid on such property at foreclosure, or having otherwise reduced such property to ownership or possession by agreement or process of law, after there was a default or default was imminent on a lease of such property or on indebtedness that such property secured;

for which the related loan was acquired by the REIT at a time when the default was not imminent or anticipated; and

for which the REIT makes a proper election to treat the property as foreclosure property.

A REIT will not be considered to have foreclosed on a property where the REIT takes control of the property as a mortgagee-in-possession and cannot receive any profit or sustain any loss except as a creditor of the mortgagor. Property generally ceases to be foreclosure property at the end of the third taxable year following the taxable year in which the REIT acquired the property, or longer if an extension is granted by the Secretary of the Treasury. However, this grace period terminates and foreclosure property ceases to be foreclosure property on the first day:

on which a lease is entered into for the property that, by its terms, will give rise to income that does not qualify for purposes of the 75% gross income test, or any amount is received or accrued, directly or indirectly, pursuant to a lease entered into on or after such day that will give rise to income that does not qualify for purposes of the 75% gross income test;

on which any construction takes place on the property, other than completion of a building or any other improvement, where more than 10% of the construction was completed before default became imminent; or

which is more than 90 days after the day on which the REIT acquired the property and the property is used in a trade or business which is conducted by the REIT, other than through an independent contractor from whom the REIT itself does not derive or receive any income.

*Hedging transactions.* From time to time, we or our operating partnership may enter into hedging transactions with respect to one or more of our assets or liabilities. Our hedging activities may include entering into interest rate swaps, caps, and floors, options to purchase such items, and futures and forward contracts. Income and gain from hedging transactions will be excluded from gross income for purposes of both the 75% and 95% gross income tests. A hedging transaction means either (1) any transaction entered into in the normal course of our or our operating partnership's trade or business primarily to manage the risk of interest rate changes, price changes, or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred, to acquire or carry real estate assets and (2) any transaction entered into primarily to manage the risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% gross income test (or any property which generates such income or gain). We are required to clearly identify any such hedging transaction before the close of the day on which it was acquired or entered into and to satisfy other identification requirements. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT.

*Foreign currency gain.* Certain foreign currency gains will be excluded from gross income for purposes of one or both of the gross income tests. Real estate foreign exchange gain will be excluded from gross income for purposes of the 75% and 95% gross income tests. Real estate foreign exchange gain generally includes foreign currency gain attributable to any item of income or gain that is qualifying income for purposes of the 75% gross income test, foreign currency gain attributable to the acquisition or ownership of (or becoming or being the obligor under) obligations secured by mortgages on real property or on interests in real property and certain foreign currency gain attributable to

certain qualified business units of a REIT. Passive foreign exchange gain will be excluded from gross income for purposes of the 95% gross income test. Passive foreign exchange gain generally includes real estate foreign exchange gain as described above, and also includes foreign currency gain attributable to any item of income or gain that is qualifying income

## **Table of Contents**

for purposes of the 95% gross income test and foreign currency gain attributable to the acquisition or ownership of (or becoming or being the obligor under) obligations. These exclusions for real estate foreign exchange gain and passive foreign exchange gain do not apply to any certain foreign currency gain derived from dealing, or engaging in substantial and regular trading, in securities. Such gain is treated as nonqualifying income for purposes of both the 75% and 95% gross income tests.

*Failure to satisfy gross income tests.* If we fail to satisfy one or both of the gross income tests for any taxable year, we nevertheless may qualify as a REIT for that year if we qualify for relief under certain provisions of the federal income tax laws. Those relief provisions are available if:

our failure to meet those tests is due to reasonable cause and not to willful neglect; and

following such failure for any taxable year, we file a schedule of the sources of our income in accordance with regulations prescribed by the Secretary of the Treasury.

We cannot predict, however, whether in all circumstances we would qualify for the relief provisions. In addition, as discussed above in Taxation of Our Company, even if the relief provisions apply, we would incur a 100% tax on the gross income attributable to the greater of the amount by which we fail the 75% gross income test or the 95% gross income test multiplied, in either case, by a fraction intended to reflect our profitability.

## **Asset Tests**

To qualify as a REIT, we also must satisfy the following asset tests at the end of each quarter of each taxable year.

First, at least 75% of the value of our total assets must consist of:

cash or cash items, including certain receivables and, in certain circumstances, foreign currencies;

government securities;

interests in real property, including leaseholds and options to acquire real property and leaseholds;

interests in mortgages loans secured by real property;

stock in other REITs; and

investments in stock or debt instruments during the one-year period following our receipt of new capital that we raise through equity offerings or public offerings of debt with at least a five-year term.

Second, of our investments not included in the 75% asset class, the value of our interest in any one issuer's securities may not exceed 5% of the value of our total assets, or the 5% asset test.

Third, of our investments not included in the 75% asset class, we may not own more than 10% of the voting power of any one issuer's outstanding securities or 10% of the value of any one issuer's outstanding securities, or the 10% vote or the 10% value test, respectively.

Fourth, no more than 25% of the value of our total assets may consist of the securities of one or more TRSs.

Fifth, no more than 25% of the value of our total assets may consist of the securities of TRSs and other non-TRS taxable subsidiaries and other assets that are not qualifying assets for purposes of the 75% asset test, or the 25% securities test.

For purposes of the 5% asset test, the 10% vote and the 10% value test, the term securities does not include shares in another REIT, equity or debt securities of a qualified REIT subsidiary or TRS, mortgage loans that constitute real estate assets, or equity interests in a partnership. The term securities, however,

**Table of Contents**

generally includes debt securities issued by a partnership or another REIT, except that for purposes of the 10% value test, the term "securities" does not include:

*Straight debt* securities, which is defined as a written unconditional promise to pay on demand or on a specified date a sum certain in money if (i) the debt is not convertible, directly or indirectly, into equity, and (ii) the interest rate and interest payment dates are not contingent on profits, the borrower's discretion, or similar factors. Straight debt securities do not include any securities issued by a partnership or a corporation in which we or any controlled TRS (*i.e.*, a TRS in which we own directly or indirectly more than 50% of the voting power or value of the stock) hold non-*straight debt* securities that have an aggregate value of more than 1% of the issuer's outstanding securities. However, *straight debt* securities include debt subject to the following contingencies:

a contingency relating to the time of payment of interest or principal, as long as either (i) there is no change to the effective yield of the debt obligation, other than a change to the annual yield that does not exceed the greater of 0.25% or 5% of the annual yield, or (ii) neither the aggregate issue price nor the aggregate face amount of the issuer's debt obligations held by us exceeds \$1 million and no more than 12 months of unaccrued interest on the debt obligations can be required to be prepaid; and

a contingency relating to the time or amount of payment upon a default or prepayment of a debt obligation, as long as the contingency is consistent with customary commercial practice.

Any loan to an individual or an estate;

Any section 467 rental agreement, other than an agreement with a related party tenant;

Any obligation to pay rents from real property ;

Certain securities issued by governmental entities;

Any security issued by a REIT;

Any debt instrument issued by an entity treated as a partnership for federal income tax purposes in which we are a partner to the extent of our proportionate interest in the equity and debt securities of the partnership; and

Any debt instrument issued by an entity treated as a partnership for federal income tax purposes not described in the preceding bullet points if at least 75% of the partnership's gross income, excluding income from prohibited transactions, is qualifying income for purposes of the 75% gross income test described above in Gross Income Tests.

For purposes of the 10% value test, our proportionate share of the assets of a partnership is our proportionate interest in any securities issued by the partnership, without regard to the securities described in the last two bullet points above.

As described above, we may, on a select basis, invest in mortgage debt and mezzanine loans when we believe our investment will allow us to acquire ownership of the underlying property. Although we expect that any investments in mezzanine loans will generally be treated as real estate assets, we anticipate that the mezzanine loans in which we would invest will not meet all the requirements of the safe harbor in IRS Revenue Procedure 2003-65. Thus, no assurance can be provided that the IRS will not challenge our treatment of mezzanine loans as real estate assets. Additionally, we expect that any investments in mortgage loans will generally be treated as real estate assets.

However, for purposes of the asset tests, if the outstanding principal balance of a mortgage loan during a taxable year exceeds the fair market value of the real property securing the loan, a portion of such loan likely will not be a qualifying real estate asset. Under current law, it is not clear how to determine what portion of such a loan will be treated as a real estate asset. Under recently issued guidance, the IRS has stated that it will not challenge a REIT's treatment of a loan as being, in part, a real estate asset for purposes of the 75% asset test if the REIT treats the loan as being a qualifying real estate asset in an amount equal to the lesser of (1) the fair market value of the real property securing the loan on the date the REIT acquires the loan or (2) the fair market value of the loan. We intend to invest in mortgage debt and

## **Table of Contents**

mezzanine loans in a manner that will enable us to continue to satisfy the asset and gross income test requirements.

We will monitor the status of our assets for purposes of the various asset tests and will manage our portfolio in order to comply at all times with such tests. If we fail to satisfy the asset tests at the end of a calendar quarter, we will not lose our REIT qualification if:

we satisfied the asset tests at the end of the preceding calendar quarter; and

the discrepancy between the value of our assets and the asset test requirements arose from changes in the market values of our assets and was not wholly or partly caused by the acquisition of one or more non-qualifying assets.

If we did not satisfy the condition described in the second item, above, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose.

In the event that we violate the 5% asset test, the 10% vote or the 10% value test described above, we will not lose our REIT qualification if (1) the failure is *de minimis* (up to the lesser of 1% of our assets or \$10 million) and (2) we dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter in which we identify such failure. In the event of a failure of any of the asset tests (other than *de minimis* failures described in the preceding sentence), as long as the failure was due to reasonable cause and not to willful neglect, we will not lose our REIT status if we (1) dispose of assets or otherwise comply with the asset tests within six months after the last day of the quarter in which we identify the failure, (2) we file a description of each asset causing the failure with the IRS and (3) pay a tax equal to the greater of \$50,000 or 35% of the net income from the nonqualifying assets during the period in which we failed to satisfy the asset tests.

We believe that the assets that we hold satisfy the foregoing asset test requirements. However, we have not in all cases obtained, and we may not in the future obtain, independent appraisals to support our conclusions as to the value of our assets and securities, or the real estate collateral for the mortgage or mezzanine loans that support our investments. Moreover, the values of some assets may not be susceptible to a precise determination. As a result, there can be no assurance that the IRS will not contend that our ownership of securities and other assets violates one or more of the asset tests applicable to REITs.

## **Distribution Requirements**

Each taxable year, we must distribute dividends, other than capital gain dividends and deemed distributions of retained capital gain, to our shareholders in an aggregate amount at least equal to:

the sum of

90% of our REIT taxable income, computed without regard to the dividends paid deduction and our net capital gain or loss, and

90% of our after-tax net income, if any, from foreclosure property, minus

the sum of certain items of non-cash income.

We must pay such distributions in the taxable year to which they relate, or in the following taxable year if either (a) we declare the distribution before we timely file our federal income tax return for the year and pay the distribution on or before the first regular dividend payment date after such declaration or (b) we declare the distribution in

October, November or December of the taxable year, payable to shareholders of record on a specified day in any such month, and we actually pay the dividend before the end of January of the following year. The distributions under clause (a) are taxable to the shareholders in the year in which paid, and the distributions in clause (b) are treated as paid on December 31st of the prior taxable year. In both instances, these distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

We will pay federal income tax on taxable income, including net capital gain, that we do not distribute to shareholders. Furthermore, if we fail to distribute during a calendar year, or by the end of January following

## **Table of Contents**

the calendar year in the case of distributions with declaration and record dates falling in the last three months of the calendar year, at least the sum of:

85% of our REIT ordinary income for such year,

95% of our REIT capital gain income for such year, and

any undistributed taxable income from prior periods,

We will incur a 4% nondeductible excise tax on the excess of such required distribution over the amounts we actually distribute. We may elect to retain and pay income tax on the net long-term capital gain we receive in a taxable year. If we so elect, we will be treated as having distributed any such retained amount for purposes of the 4% nondeductible excise tax described above. We intend to make timely distributions sufficient to satisfy the annual distribution requirements and to avoid corporate income tax and the 4% nondeductible excise tax.

It is possible that, from time to time, we may experience timing differences between the actual receipt of income and actual payment of deductible expenses and the inclusion of that income and deduction of such expenses in arriving at our REIT taxable income. For example, we may not deduct recognized capital losses from our REIT taxable income. Further, it is possible that, from time to time, we may be allocated a share of net capital gain attributable to the sale of depreciated property that exceeds our allocable share of cash attributable to that sale. As a result of the foregoing, we may have less cash than is necessary to distribute taxable income sufficient to avoid corporate income tax and the excise tax imposed on certain undistributed income or even to meet the 90% distribution requirement. In such a situation, we may need to borrow funds or, if possible, pay taxable dividends of our shares of beneficial interest or debt securities.

Under certain circumstances, we may be able to correct a failure to meet the distribution requirement for a year by paying deficiency dividends to our shareholders in a later year. We may include such deficiency dividends in our deduction for dividends paid for the earlier year. Although we may be able to avoid income tax on amounts distributed as deficiency dividends, we will be required to pay interest to the IRS based upon the amount of any deduction we take for deficiency dividends.

## **Taxable REIT Subsidiaries**

As described above, we may own up to 100% of the capital stock of one or more TRSs. A TRS is a fully taxable corporation that may earn income that would not be qualifying income if earned directly by us. A TRS may provide services to our lessees and perform activities unrelated to our lessees, such as third-party management, development, and other independent business activities. However, a TRS may not directly or indirectly operate or manage any lodging facilities or health care facilities or provide rights to any brand name under which any lodging facility or health care facility is operated, unless such rights are provided to an eligible independent contractor (as described below) to operate or manage a lodging facility if such rights are held by the TRS as a franchisee, licensee, or in a similar capacity and such lodging facility is either owned by the TRS or leased to the TRS by its parent REIT. A TRS will not be considered to operate or manage a qualified lodging facility solely because the TRS directly or indirectly possesses a license, permit, or similar instrument enabling it to do so. Additionally, a TRS that employs individuals working at a qualified lodging facility located outside the United States will not be considered to operate or manage a qualified lodging facility as long as an eligible independent contractor is responsible for the daily supervision and direction of such individuals on behalf of the TRS pursuant to a management contract or similar service contract.

We and our corporate subsidiary must elect for the subsidiary to be treated as a TRS. A corporation of which a qualifying TRS directly or indirectly owns more than 35% of the voting power or value of the shares will

automatically be treated as a TRS. Overall, no more than 25% of the value of our assets may consist of securities of one or more TRSs, and no more than 25% of the value of our assets may consist of the securities of TRSs and other taxable subsidiaries and other assets that are not qualifying assets for purposes of the 75% asset test.

## **Table of Contents**

Rent that we receive from our TRSs will qualify as rents from real property as long as the property is operated on behalf of the TRS by a person who qualifies as an independent contractor and who is, or is related to a person who is, actively engaged in the trade or business of operating qualified lodging facilities for any person unrelated to us and the TRS lessee (an eligible independent contractor). A qualified lodging facility includes customary amenities and facilities operated as part of, or associated with, the lodging facility as long as such amenities and facilities are customary for other properties of a comparable size and class owned by other unrelated owners.

We lease our hotels to wholly owned subsidiaries of our TRS, Pebblebrook Hotel Lessee, Inc., and all of our TRS lessees have engaged eligible independent contractors to operate and manage those hotels.

The TRS rules limit the deductibility of interest paid or accrued by a TRS to us to assure that the TRS is subject to an appropriate level of corporate taxation. Further, the rules impose a 100% excise tax on certain transactions between a TRS and us or our tenants that are not conducted on an arm's-length basis. We believe that all transactions between us and each of our TRSs have been and will be conducted on an arm's-length basis.

## **Recordkeeping Requirements**

We must maintain certain records in order to qualify as a REIT. In addition, to avoid a monetary penalty, we must request on an annual basis information from our shareholders designed to disclose the actual ownership of our outstanding shares of beneficial interest. We intend to comply with these requirements.

## **Failure to Qualify**

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. In addition, there are relief provisions for a failure of the gross income tests and asset tests, as described in [Gross Income Tests](#) and [Asset Tests](#).

If we fail to qualify as a REIT in any taxable year, and no relief provision applies, we would be subject to federal income tax and any applicable alternative minimum tax on our taxable income at regular corporate rates. In calculating our taxable income in a year in which we fail to qualify as a REIT, we would not be able to deduct amounts paid out to shareholders. In fact, we would not be required to distribute any amounts to shareholders in that year. In such event, to the extent of our current and accumulated earnings and profits, all distributions to shareholders would be taxable as ordinary income. Subject to certain limitations of the federal income tax laws, corporate shareholders might be eligible for the dividends received deduction and shareholders taxed at individual rates may be eligible for the reduced federal income tax rate of 15% through 2012 on such dividends. Unless we qualified for relief under specific statutory provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT. We cannot predict whether in all circumstances we would qualify for such statutory relief.

## **Taxation of Taxable U.S. Shareholders**

As used herein, the term U.S. shareholder means a holder of our shares of beneficial interest that for U.S. federal income tax purposes is:

a citizen or resident of the United States;

a corporation (including an entity treated as a corporation for federal income tax purposes) created or organized in or under the laws of the United States, any of its states or the District of Columbia;

an estate whose income is subject to federal income taxation regardless of its source; or

any trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a U.S. person.

**Table of Contents**

If a partnership, entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our shares, the federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. If you are a partner in a partnership holding our shares, you are urged to consult your tax advisor regarding the consequences of the ownership and disposition of our shares by the partnership.

As long as we qualify as a REIT, a taxable U.S. shareholder must generally take into account as ordinary income distributions made out of our current or accumulated earnings and profits that we do not designate as capital gain dividends or retained long-term capital gain. For purposes of determining whether a distribution is made out of our current or accumulated earnings and profits, our earnings and profits will be allocated first to our preferred share dividends and then to our common share dividends. A U.S. shareholder will not qualify for the dividends received deduction generally available to corporations. In addition, dividends paid to a U.S. shareholder generally will not qualify for the 15% tax rate for qualified dividend income. The maximum tax rate for qualified dividend income received by U.S. shareholders taxed at individual rates is 15% through 2012. The maximum tax rate on qualified dividend income is lower than the maximum tax rate on ordinary income, which is 35% through 2012. Qualified dividend income generally includes dividends paid to U.S. shareholders taxed at individual rates by domestic C corporations and certain qualified foreign corporations. Because we are not generally subject to federal income tax on the portion of our REIT taxable income distributed to our shareholders (see Taxation of Our Company above), our dividends generally will not be eligible for the 15% rate on qualified dividend income. As a result, our ordinary REIT dividends will be taxed at the higher tax rate applicable to ordinary income. However, the 15% tax rate for qualified dividend income will apply to our ordinary REIT dividends (i) attributable to dividends received by us from non-REIT corporations, such as our TRS, and (ii) to the extent attributable to income upon which we have paid corporate income tax (e.g., to the extent that we distribute less than 100% of our taxable income). In general, to qualify for the reduced tax rate on qualified dividend income, a shareholder must hold our shares for more than 60 days during the 121-day period beginning on the date that is 60 days before the date on which our shares becomes ex-dividend. In addition, for taxable years beginning after December 31, 2012, dividends paid to certain individuals, estates or trusts may be subject to a 3.8% Medicare tax.

A U.S. shareholder generally will take into account as long-term capital gain any distributions that we designate as capital gain dividends without regard to the period for which the U.S. shareholder has held our shares. We generally will designate our capital gain dividends as either 15% or 25% rate distributions. See Capital Gains and Losses. A corporate U.S. shareholder, however, may be required to treat up to 20% of certain capital gain dividends as ordinary income.

We may elect to retain and pay income tax on the net long-term capital gain that we receive in a taxable year. In that case, to the extent that we designate such amount in a timely notice to such shareholder, a U.S. shareholder would be taxed on its proportionate share of our undistributed long-term capital gain. The U.S. shareholder would receive a credit for its proportionate share of the tax we paid. The U.S. shareholder would increase the basis in its shares of beneficial interest by the amount of its proportionate share of our undistributed long-term capital gain, minus its share of the tax we paid.

A U.S. shareholder will not incur tax on a distribution in excess of our current and accumulated earnings and profits if the distribution does not exceed the adjusted basis of the U.S. shareholder's shares. Instead, the distribution will reduce the adjusted basis of such shares of beneficial interest. A U.S. shareholder will recognize a distribution in excess of both our current and accumulated earnings and profits and the U.S. shareholder's adjusted tax basis in his or her shares of beneficial interest as long-term capital gain, or short-term capital gain if the shares of beneficial interest have been held for one year or less, assuming the shares of beneficial interest are a capital asset in the hands of the U.S. shareholder. In addition, if we declare a distribution in October, November, or December of any year that is payable to a U.S. shareholder of record on a specified date in any such month, such distribution shall be treated as

both paid by us and received by the U.S. shareholder on December 31 of such year, provided that we actually pay the distribution during January of the following calendar year.

**Table of Contents**

Shareholders may not include in their individual income tax returns any of our net operating losses or capital losses. Instead, these losses are generally carried over by us for potential offset against our future income. Taxable distributions from us and gain from the disposition of our shares will not be treated as passive activity income and, therefore, shareholders generally will not be able to apply any passive activity losses, such as losses from certain types of limited partnerships in which the shareholder is a limited partner, against such income. In addition, taxable distributions from us and gain from the disposition of our shares generally will be treated as investment income for purposes of the investment interest limitations. We will notify shareholders after the close of our taxable year as to the portions of the distributions attributable to that year that constitute ordinary income, return of capital and capital gain.

**Taxation of U.S. Shareholders on the Disposition of Our Shares**

A U.S. shareholder who is not a dealer in securities must generally treat any gain or loss realized upon a taxable disposition of our shares as long-term capital gain or loss if the U.S. shareholder has held the shares for more than one year and otherwise as short-term capital gain or loss. In general, a U.S. shareholder will realize gain or loss in an amount equal to the difference between the sum of the fair market value of any property and the amount of cash received in such disposition and the U.S. shareholder's adjusted tax basis. A shareholder's adjusted tax basis generally will equal the U.S. shareholder's acquisition cost, increased by the excess of net capital gains deemed distributed to the U.S. shareholder (discussed above) less tax deemed paid on such gains and reduced by any returns of capital. However, a U.S. shareholder must treat any loss upon a sale or exchange of shares held by such shareholder for six months or less as a long-term capital loss to the extent of capital gain dividends and any other actual or deemed distributions from us that such U.S. shareholder treats as long-term capital gain. All or a portion of any loss that a U.S. shareholder realizes upon a taxable disposition of our shares may be disallowed if the U.S. shareholder purchases other shares within 30 days before or after the disposition.

**Taxation of U.S. Shareholders on a Redemption of Preferred Shares**

A redemption of our preferred shares will be treated under Section 302 of the Code as a distribution that is taxable as dividend income (to the extent of our current or accumulated earnings and profits), unless the redemption satisfies certain tests set forth in Section 302(b) of the Code enabling the redemption to be treated as a sale of the preferred shares (in which case the redemption will be treated in the same manner as a sale described above in Taxation of U.S. Shareholders on the Disposition of Our Shares). The redemption will satisfy such tests if it (i) is substantially disproportionate with respect to the U.S. shareholder's interest in our shares, (ii) results in a complete termination of the U.S. shareholder's interest in all of our classes of shares, or (iii) is not essentially equivalent to a dividend with respect to the shareholder, all within the meaning of Section 302(b) of the Code. In determining whether any of these tests have been met, shares considered to be owned by the holder by reason of certain constructive ownership rules set forth in the Code, as well as shares actually owned, generally must be taken into account. Because the determination as to whether any of the three alternative tests of Section 302(b) of the Code described above will be satisfied with respect to any particular U.S. shareholder of the preferred shares depends upon the facts and circumstances at the time that the determination must be made, prospective investors are urged to consult their tax advisors to determine such tax treatment. If a redemption of our preferred shares does not meet any of the three tests described above, the redemption proceeds will be treated as a distribution, as described above Taxation of Taxable U.S. Shareholders. In that case, a U.S. shareholder's adjusted tax basis in the redeemed preferred shares will be transferred to such U.S. shareholder's remaining share holdings in us. If the U.S. shareholder does not retain any of our shares, such basis could be transferred to a related person that holds our shares or it may be lost.

Under proposed Treasury regulations, if any portion of the amount received by a U.S. shareholder on a redemption of any class of our preferred shares is treated as a distribution with respect to our shares but not as a taxable dividend, then such portion will be allocated to all shares of the redeemed class held by the redeemed shareholder just before the redemption on a pro-rata, share-by-share, basis. The amount applied to each share will first reduce the redeemed

shareholder's basis in that share and any excess after the basis is

**Table of Contents**

reduced to zero will result in taxable gain. If the redeemed shareholder has different bases in its shares, then the amount allocated could reduce some of the basis in certain shares while reducing all the basis and giving rise to taxable gain in others. Thus the redeemed shareholder could have gain even if such shareholder's basis in all its shares of the redeemed class exceeded such portion.

The proposed Treasury regulations permit the transfer of basis in the redeemed preferred shares to the redeemed shareholder's remaining, unredeemed preferred shares of the same class (if any), but not to any other class of shares held (directly or indirectly) by the redeemed shareholder. Instead, any unrecovered basis in the redeemed preferred shares would be treated as a deferred loss to be recognized when certain conditions are satisfied. The proposed Treasury regulations would be effective for transactions that occur after the date the regulations are published as final Treasury regulations. There can, however, be no assurance as to whether, when and in what particular form such proposed Treasury regulations will ultimately be finalized.

**Taxation of U.S. Shareholders on a Conversion of Preferred Shares**

Except as provided below, (i) a shareholder generally will not recognize gain or loss upon the conversion of preferred shares into our common shares, and (ii) a shareholder's basis and holding period in our common shares received upon conversion generally will be the same as those of the converted preferred shares (but the basis will be reduced by the portion of adjusted tax basis allocated to any fractional share exchanged for cash). Any of our common shares received in a conversion that are attributable to accumulated and unpaid dividends on the converted preferred shares will be treated as a distribution that is potentially taxable as a dividend. Cash received upon conversion in lieu of a fractional share generally will be treated as a payment in a taxable exchange for such fractional share, and gain or loss will be recognized on the receipt of cash in an amount equal to the difference between the amount of cash received and the adjusted tax basis allocable to the fractional share deemed exchanged. This gain or loss will be long-term capital gain or loss if the U.S. shareholder has held the preferred shares for more than one year at the time of conversion. Shareholders are urged to consult with their tax advisors regarding the federal income tax consequences of any transaction by which such holder exchanges shares received on a conversion of preferred shares for cash or other property.

**Capital Gains and Losses**

A taxpayer generally must hold a capital asset for more than one year for gain or loss derived from its sale or exchange to be treated as long-term capital gain or loss. The highest marginal individual income tax rate currently is 35% (which, absent additional congressional action, will apply until December 31, 2012). The maximum tax rate on long-term capital gain applicable to taxpayers taxed at individual rates is 15% for sales and exchanges of assets held for more than one year occurring through December 31, 2012. Absent additional congressional action, that rate will increase to 20% for sales and exchanges of such assets occurring after December 31, 2012. The maximum tax rate on long-term capital gain from the sale or exchange of Section 1250 property, or depreciable real property, is 25%, which applies to the lesser of the total amount of the gain or the accumulated depreciation on the Section 1250 property. In addition, for taxable years beginning after December 31, 2012, capital gains recognized by certain U.S. shareholders that are individuals, estates or trusts may be subject to a 3.8% Medicare tax.

With respect to distributions that we designate as capital gain dividends and any retained capital gain that we are deemed to distribute, we generally may designate whether such a distribution is taxable to our shareholders taxed at individual rates at a 15% or 25% rate. Thus, the tax rate differential between capital gain and ordinary income for those taxpayers may be significant. In addition, the characterization of income as capital gain or ordinary income may affect the deductibility of capital losses. A non-corporate taxpayer may deduct capital losses not offset by capital gains against its ordinary income only up to a maximum annual amount of \$3,000. A non-corporate taxpayer may carry forward unused capital losses indefinitely. A corporate taxpayer must pay tax on its net capital gain at ordinary

corporate rates. A corporate taxpayer may deduct capital losses only to the extent of capital gains, with unused losses being carried back three years and forward five years.

**Table of Contents****Taxation of Tax-Exempt Shareholders**

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from federal income taxation. However, they are subject to taxation on their unrelated business taxable income, or UBTI. Although many investments in real estate generate UBTI, the IRS has issued a ruling that dividend distributions from a REIT to an exempt employee pension trust do not constitute UBTI so long as the exempt employee pension trust does not otherwise use the shares of beneficial interest in the REIT in an unrelated trade or business of the pension trust. Based on that ruling, amounts that we distribute to tax-exempt shareholders generally should not constitute UBTI. However, if a tax-exempt shareholder were to finance its acquisition of our shares with debt, a portion of the income that it receives from us would constitute UBTI pursuant to the debt-financed property rules. Moreover, social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts and qualified group legal services plans that are exempt from taxation under special provisions of the federal income tax laws are subject to different UBTI rules, which generally will require them to characterize distributions that they receive from us as UBTI. Finally, in certain circumstances, a qualified employee pension or profit sharing trust that owns more than 10% of our shares of beneficial interest must treat a percentage of the dividends that it receives from us as UBTI. Such percentage is equal to the gross income we derive from an unrelated trade or business, determined as if we were a pension trust, divided by our total gross income for the year in which we pay the dividends. That rule applies to a pension trust holding more than 10% of our shares only if:

the percentage of our dividends that the tax-exempt trust must treat as UBTI is at least 5%;

we qualify as a REIT by reason of the modification of the rule requiring that no more than 50% of our shares be owned by five or fewer individuals that allows the beneficiaries of the pension trust to be treated as holding our shares in proportion to their actuarial interests in the pension trust; and

either:

one pension trust owns more than 25% of the value of our shares of beneficial interest; or

a group of pension trusts individually holding more than 10% of the value of our shares collectively owns more than 50% of the value of our shares.

**Taxation of Non-U.S. Shareholders**

The term non-U.S. shareholder means a holder of our shares that is not a U.S. shareholder or a partnership (or entity treated as a partnership for federal income tax purposes). The rules governing federal income taxation of nonresident alien individuals, foreign corporations, foreign partnerships, and other foreign shareholders are complex. This section is only a summary of such rules. **We urge non-U.S. shareholders to consult their own tax advisors to determine the impact of federal, state, and local income tax laws on the purchase, ownership and sale of our shares, including any reporting requirements.**

A non-U.S. shareholder that receives a distribution that is not attributable to gain from our sale or exchange of a United States real property interest, or USRPI, as defined below, and that we do not designate as a capital gain dividend or retained capital gain will recognize ordinary income to the extent that we pay such distribution out of our current or accumulated earnings and profits. A withholding tax equal to 30% of the gross amount of the distribution ordinarily will apply to such distribution unless an applicable tax treaty reduces or eliminates the tax. However, if a distribution is treated as effectively connected with the non-U.S. shareholder's conduct of a U.S. trade or business, the non-U.S. shareholder generally will be subject to federal income tax on the distribution at graduated rates, in the same manner as U.S. shareholders are taxed with respect to such distribution, and a non-U.S. shareholder that is a

corporation also may be subject to the 30% branch profits tax with respect to that distribution. We plan to withhold U.S. income tax at the rate of 30% on the gross amount of any such distribution paid to a non-U.S. shareholder unless either:

a lower treaty rate applies and the non-U.S. shareholder files an IRS Form W-8BEN evidencing eligibility for that reduced rate with us; or

**Table of Contents**

the non-U.S. shareholder files an IRS Form W-8ECI with us claiming that the distribution is effectively connected income.

A non-U.S. shareholder will not incur tax on a distribution in excess of our current and accumulated earnings and profits if the excess portion of such distribution does not exceed the adjusted basis of its shares. Instead, the excess portion of such distribution will reduce the adjusted basis of such shares. A non-U.S. shareholder will be subject to tax on a distribution that exceeds both our current and accumulated earnings and profits and the adjusted basis of its shares, if the non-U.S. shareholder otherwise would be subject to tax on gain from the sale or disposition of its shares, as described below. Because we generally cannot determine at the time we make a distribution whether the distribution will exceed our current and accumulated earnings and profits, we normally will withhold tax on the entire amount of any distribution at the same rate as we would withhold on a dividend. However, a non-U.S. shareholder may claim a refund of amounts that we withhold if we later determine that a distribution in fact exceeded our current and accumulated earnings and profits.

For any year in which we qualify as a REIT, a non-U.S. shareholder will incur tax on distributions that are attributable to gain from our sale or exchange of a USRPI under the Foreign Investment in Real Property Act of 1980, or FIRPTA. A USRPI includes certain interests in real property and stock in corporations at least 50% of whose assets consist of interests in real property. Under FIRPTA, a non-U.S. shareholder is taxed on distributions attributable to gain from sales of USRPIs as if such gain were effectively connected with a U.S. business of the non-U.S. shareholder. A non-U.S. shareholder thus would be taxed on such a distribution at the normal capital gains rates applicable to U.S. shareholders, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of a nonresident alien individual. A non-U.S. corporate shareholder not entitled to treaty relief or exemption also may be subject to the 30% branch profits tax on such a distribution. We would be required to withhold 35% of any distribution that we could designate as a capital gain dividend. A non-U.S. shareholder may receive a credit against its tax liability for the amount we withhold.

Capital gain distributions on our shares that are attributable to our sale of real property will be treated as ordinary dividends rather than as gain from the sale of a USRPI, as long as (i) the applicable class of our shares is regularly traded on an established securities market in the United States and (ii) the non-U.S. shareholder did not own more than 5% of the applicable class of our shares at any time during the one-year period preceding the distribution. As a result, non-U.S. shareholders generally would be subject to withholding tax on such capital gain distributions in the same manner as they are subject to withholding tax on ordinary dividends. We believe that our common shares and Series A Preferred Shares currently are treated as regularly traded on an established securities market in the United States. If the applicable class of our shares is not regularly traded on an established securities market in the United States or the non-U.S. shareholder owned more than 5% of the applicable class of our shares at any time during the one-year period preceding the distribution, capital gain distributions that are attributable to our sale of real property would be subject to tax under FIRPTA, as described in the preceding paragraph. Moreover, if a non-U.S. shareholder disposes of our shares during the 30-day period preceding a dividend payment, and such non-U.S. shareholder (or a person related to such non-U.S. shareholder) acquires or enters into a contract or option to acquire our shares within 61 days of the first day of the 30-day period described above, and any portion of such dividend payment would, but for the disposition, be treated as a USRPI capital gain to such non-U.S. shareholder, then such non-U.S. shareholder shall be treated as having USRPI capital gain in an amount that, but for the disposition, would have been treated as USRPI capital gain.

Non-U.S. shareholders could incur tax under FIRPTA with respect to gain realized upon a disposition of our shares if we are a United States real property holding corporation during a specified testing period. If at least 50% of a REIT's assets are United States real property interests, then the REIT will be a United States real property holding corporation. We believe that we are a United States real property holding corporation based on our investment strategy. However, if we are a United States real property holding corporation, a non-U.S. shareholder generally

would not incur tax under FIRPTA on gain from the sale of our shares if we are a domestically controlled qualified investment entity. A domestically controlled qualified investment entity includes a REIT in which, at all times during a specified testing period, less than 50% in value of its shares are held directly or indirectly by non-U.S. shareholders. We cannot assure you that this test will be met.

## **Table of Contents**

If the applicable class of our shares is regularly traded on an established securities market, an additional exception to the tax under FIRPTA is available, even if we do not qualify as a domestically controlled qualified investment entity at the time the non-U.S. shareholder sells the applicable class of our shares. Under that exception, the gain from such a sale by such a non-U.S. shareholder will not be subject to tax under FIRPTA if:

the applicable class of our shares is treated as being regularly traded under applicable Treasury regulations on an established securities market; and

the non-U.S. shareholder owned, actually or constructively, 5% or less of the applicable class of our shares at all times during a specified testing period.

As noted above, we believe that our common shares and Series A Preferred Shares are currently treated as being regularly traded on an established securities market.

If the gain on the sale of our shares were taxed under FIRPTA, a non-U.S. shareholder would be taxed on that gain in the same manner as U.S. shareholders, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals. Furthermore, a non-U.S. shareholder generally will incur tax on gain not subject to FIRPTA if:

the gain is effectively connected with the non-U.S. shareholder's U.S. trade or business, in which case the non-U.S. shareholder will be subject to the same treatment as U.S. shareholders with respect to such gain; or

the non-U.S. shareholder is a nonresident alien individual who was present in the U.S. for 183 days or more during the taxable year and has a tax home in the United States, in which case the non-U.S. shareholder will incur a 30% tax on his or her capital gains.

For taxable years beginning after December 31, 2012, a U.S. withholding tax at a 30% rate will be imposed on dividends and proceeds of sale in respect of our shares received by certain non-U.S. shareholders if certain disclosure requirements related to U.S. accounts or ownership are not satisfied. If payment of withholding taxes is required, non-U.S. shareholders that are otherwise eligible for an exemption from, or reduction of, U.S. withholding taxes with respect of such dividends and proceeds will be required to seek a refund from the IRS to obtain the benefit of such exemption or reduction. We will not pay any additional amounts in respect of any amounts withheld.

## **Information Reporting Requirements and Backup Withholding, Shares Held Offshore**

We will report to our shareholders and to the IRS the amount of distributions we pay during each calendar year, and the amount of tax we withhold, if any. Under the backup withholding rules, a shareholder may be subject to backup withholding at a rate of 28% with respect to distributions unless the holder:

is a corporation (for payments made prior to January 1, 2012) or qualifies for certain other exempt categories and, when required, demonstrates this fact; or

provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding, and otherwise complies with the applicable requirements of the backup withholding rules.

A shareholder who does not provide us with its correct taxpayer identification number also may be subject to penalties imposed by the IRS. Any amount paid as backup withholding will be creditable against the shareholder's income tax liability. In addition, we may be required to withhold a portion of capital gain distributions to any shareholders who fail to certify their non-foreign status to us.

Backup withholding will generally not apply to payments of dividends made by us or our paying agents, in their capacities as such, to a non-U.S. shareholder provided that the non-U.S. shareholder furnishes to us or our paying agent the required certification as to its non-U.S. status, such as providing a valid IRS Form W-8BEN or W-8ECI, or certain other requirements are met. Notwithstanding the foregoing, backup withholding may apply if either we or our paying agent has actual knowledge, or reason to know, that the holder is a U.S. person that is not an exempt recipient. Payments of the net proceeds from a disposition or a

## **Table of Contents**

redemption effected outside the U.S. by a non-U.S. shareholder made by or through a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, information reporting (but not backup withholding) generally will apply to such a payment if the broker has certain connections with the U.S. unless the broker has documentary evidence in its records that the beneficial owner is a non-U.S. shareholder and specified conditions are met or an exemption is otherwise established. Payment of the net proceeds from a disposition by a non-U.S. shareholder of our shares made by or through the U.S. office of a broker is generally subject to information reporting and backup withholding unless the non-U.S. shareholder certifies under penalties of perjury that it is not a U.S. person and satisfies certain other requirements, or otherwise establishes an exemption from information reporting and backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or credited against the shareholder's federal income tax liability if certain required information is furnished to the IRS. Shareholders are urged consult their own tax advisors regarding application of backup withholding to them and the availability of, and procedure for obtaining an exemption from, backup withholding.

For taxable years beginning after December 31, 2012, a U.S. withholding tax at a 30% rate will be imposed on dividends and proceeds of sale in respect of our shares received by U.S. shareholders who own their shares through foreign accounts or foreign intermediaries if certain disclosure requirements related to U.S. accounts or ownership are not satisfied. We will not pay any additional amounts in respect of any amounts withheld.

## **Other Tax Consequences**

### ***Tax Aspects of Our Investments in Our Operating Partnership and Subsidiary Partnerships***

The following discussion summarizes certain federal income tax considerations applicable to our direct or indirect investments in our operating partnership and any subsidiary partnerships or limited liability companies that we form or acquire (each individually a Partnership and, collectively, the Partnerships). The discussion does not cover state or local tax laws or any federal tax laws other than income tax laws.

*Classification as partnerships.* We are entitled to include in our income our distributive share of each Partnership's income and to deduct our distributive share of each Partnership's losses only if such Partnership is classified for federal income tax purposes as a partnership (or an entity that is disregarded for federal income tax purposes if the entity has only one owner or member) rather than as a corporation or an association taxable as a corporation. An unincorporated entity with at least two owners or members will be classified as a partnership, rather than as a corporation, for federal income tax purposes if it:

is treated as a partnership under the Treasury regulations relating to entity classification (the check-the-box regulations); and

is not a publicly traded partnership.

Under the check-the-box regulations, an unincorporated entity with at least two owners or members may elect to be classified either as an association taxable as a corporation or as a partnership. If such an entity fails to make an election, it generally will be treated as a partnership (or an entity that is disregarded for federal income tax purposes if the entity has only one owner or member) for federal income tax purposes. Each Partnership intends to be classified as a partnership for federal income tax purposes and no Partnership will elect to be treated as an association taxable as a corporation under the check-the-box regulations.

A publicly traded partnership is a partnership whose interests are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof. A publicly traded partnership will not, however, be treated as a corporation for any taxable year if, for each taxable year beginning after December 31, 1987 in which it was classified as a publicly traded partnership, 90% or more of the partnership's gross income for such year consists of certain passive-type income, including real property rents, gains from the sale or other disposition of real property, interest, and dividends, or (the 90% passive income exception). Treasury regulations (the PTP regulations) provide limited safe harbors from the

**Table of Contents**

definition of a publicly traded partnership. Pursuant to one of those safe harbors (the private placement exclusion), interests in a partnership will not be treated as readily tradable on a secondary market or the substantial equivalent thereof if (1) all interests in the partnership were issued in a transaction or transactions that were not required to be registered under the Securities Act and (2) the partnership does not have more than 100 partners at any time during the partnership's taxable year. In determining the number of partners in a partnership, a person owning an interest in a partnership, grantor trust, or S corporation that owns an interest in the partnership is treated as a partner in such partnership only if (1) substantially all of the value of the owner's interest in the entity is attributable to the entity's direct or indirect interest in the partnership and (2) a principal purpose of the use of the entity is to permit the partnership to satisfy the 100-partner limitation. Each Partnership is expected to qualify for the private placement exclusion in the foreseeable future. Additionally, if our operating partnership were a publicly traded partnership, we believe that our operating partnership would have sufficient qualifying income to satisfy the 90% passive income exception and thus would continue to be taxed as a partnership for federal income tax purposes.

We have not requested, and do not intend to request, a ruling from the IRS that the Partnerships will be classified as partnerships for federal income tax purposes. If for any reason a Partnership were taxable as a corporation, rather than as a partnership, for federal income tax purposes, we likely would not be able to qualify as a REIT unless we qualified for certain relief provisions. See *Gross Income Tests* and *Asset Tests*. In addition, any change in a Partnership's status for tax purposes might be treated as a taxable event, in which case we might incur tax liability without any related cash distribution. See *Distribution Requirements*. Further, items of income and deduction of such Partnership would not pass through to its partners, and its partners would be treated as shareholders for tax purposes. Consequently, such Partnership would be required to pay income tax at corporate rates on its net income, and distributions to its partners would constitute dividends that would not be deductible in computing such Partnership's taxable income.

**Income Taxation of the Partnerships and their Partners**

*Partners, not the partnerships, subject to tax.* A partnership is not a taxable entity for federal income tax purposes. Rather, we are required to take into account our allocable share of each Partnership's income, gains, losses, deductions, and credits for any taxable year of such Partnership ending within or with our taxable year, without regard to whether we have received or will receive any distribution from such Partnership.

*Partnership allocations.* Although a partnership agreement generally will determine the allocation of income and losses among partners, such allocations will be disregarded for tax purposes if they do not comply with the provisions of the federal income tax laws governing partnership allocations. If an allocation is not recognized for federal income tax purposes, the item subject to the allocation will be reallocated in accordance with the partners' interests in the partnership, which will be determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners with respect to such item. Each Partnership's allocations of taxable income, gain, and loss are intended to comply with the requirements of the federal income tax laws governing partnership allocations.

*Tax allocations with respect to our properties.* Income, gain, loss, and deduction attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated in a manner such that the contributing partner is charged with, or benefits from, respectively, the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of such unrealized gain or unrealized loss (built-in gain or built-in loss) is generally equal to the difference between the fair market value of the contributed property at the time of contribution and the adjusted tax basis of such property at the time of contribution (a book-tax difference). Any property purchased by our operating partnership for cash initially will have an adjusted tax basis equal to its fair market value, resulting in no book-tax difference. In the future, however, our operating partnership may admit partners in exchange for a contribution of appreciated or depreciated property, resulting in book-tax differences. Such allocations are solely for federal income tax purposes and do not affect the

book capital accounts or other economic or legal arrangements among the partners. The Treasury has issued regulations requiring partnerships to use a reasonable method for allocating items with respect to which there is a book-tax difference and

**Table of Contents**

outlining several reasonable allocation methods. Under certain available methods, the carryover basis of contributed properties in the hands of our operating partnership (i) would cause us to be allocated lower amounts of depreciation deductions for tax purposes than would be allocated to us if all contributed properties were to have a tax basis equal to their fair market value at the time of the contribution and (ii) in the event of a sale of such properties, could cause us to be allocated taxable gain in excess of the economic or book gain allocated to us as a result of such sale, with a corresponding benefit to the contributing partners. An allocation described in (ii) above might cause us to recognize taxable income in excess of cash proceeds in the event of a sale or other disposition of property, which might adversely affect our ability to comply with the REIT distribution requirements and may result in a greater portion of our distributions being taxed as dividends.

*Basis in partnership interest.* Our adjusted tax basis in our partnership interest in our operating partnership generally is equal to:

the amount of cash and the basis of any other property contributed by us to our operating partnership;

increased by our allocable share of our operating partnership's income and our allocable share of indebtedness of our operating partnership; and

reduced, but not below zero, by our allocable share of our operating partnership's loss and the amount of cash distributed to us, and by constructive distributions resulting from a reduction in our share of indebtedness of our operating partnership.

If the allocation of our distributive share of our operating partnership's loss would reduce the adjusted tax basis of our partnership interest below zero, the recognition of such loss will be deferred until such time as the recognition of such loss would not reduce our adjusted tax basis below zero. To the extent that our operating partnership's distributions, or any decrease in our share of the indebtedness of our operating partnership, which is considered a constructive cash distribution to the partners, reduce our adjusted tax basis below zero, such distributions will constitute taxable income to us. Such distributions and constructive distributions normally will be characterized as long-term capital gain.

*Depreciation deductions available to our operating partnership.* To the extent that our operating partnership acquires its hotels in exchange for cash, its initial basis in such hotels for federal income tax purposes generally was or will be equal to the purchase price paid by our operating partnership. Our operating partnership's initial basis in hotels acquired in exchange for units in our operating partnership should be the same as the transferor's basis in such hotels on the date of acquisition by our operating partnership. Although the law is not entirely clear, our operating partnership generally will depreciate such depreciable hotel property for federal income tax purposes over the same remaining useful lives and under the same methods used by the transferors. Our operating partnership's tax depreciation deductions will be allocated among the partners in accordance with their respective interests in our operating partnership, except to the extent that our operating partnership is required under the federal income tax laws governing partnership allocations to use a method for allocating tax depreciation deductions attributable to contributed properties that results in our receiving a disproportionate share of such deductions.

**Sale of a Partnership's Property**

Generally, any gain realized by a Partnership on the sale of property held by the Partnership for more than one year will be long-term capital gain, except for any portion of such gain that is treated as depreciation or cost recovery recapture. Any gain or loss recognized by a Partnership on the disposition of contributed properties will be allocated first to the partners of the Partnership who contributed such properties to the extent of their built-in gain or loss on those properties for federal income tax purposes. The partners' built-in gain or loss on such contributed properties will equal the difference between the partners' proportionate share of the book value of those properties and the partners' tax

basis allocable to those properties at the time of the contribution. Any remaining gain or loss recognized by the Partnership on the disposition of the contributed properties, and any gain or loss recognized by the Partnership on the disposition of the other properties, will be allocated among the partners in accordance with their respective percentage interests in the Partnership.

## **Table of Contents**

Our share of any gain realized by a Partnership on the sale of any property held by the Partnership as inventory or other property held primarily for sale to customers in the ordinary course of the Partnership's trade or business will be treated as income from a prohibited transaction that is subject to a 100% penalty tax. Such prohibited transaction income also may have an adverse effect upon our ability to satisfy the income tests for REIT status. See Gross Income Tests. We do not presently intend to acquire or hold or to allow any Partnership to acquire or hold any property that represents inventory or other property held primarily for sale to customers in the ordinary course of our or such Partnership's trade or business.

## **Sunset of Reduced Tax Rate Provisions**

Several of the tax considerations described herein are subject to a sunset provision. On December 17, 2010, President Obama signed into law the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, preventing the expiration of current federal income tax rates on December 31, 2010 by amending the sunset provisions such that they will take effect on December 31, 2012. The amended sunset provisions generally provide that for taxable years beginning after December 31, 2012, certain provisions that are currently in the Code will revert back to a prior version of those provisions. These provisions include provisions related to the reduced maximum income tax rate for long-term capital gains of 15% (rather than 20%) for taxpayers taxed at individual rates, the application of the 15% tax rate to qualified dividend income, and certain other tax rate provisions described herein. The impact of this reversion is not discussed herein. Consequently, prospective shareholders are urged to consult their own tax advisors regarding the effect of sunset provisions on an investment in our shares.

## **State, Local and Foreign Taxes**

We and/or you may be subject to taxation by various states, localities and foreign jurisdictions, including those in which we or a securityholder transacts business, owns property or resides. The state, local and foreign tax treatment may differ from the federal income tax treatment described above. Consequently, you are urged to consult your own tax advisors regarding the effect of state, local and foreign tax laws upon an investment in our securities.

## **PLAN OF DISTRIBUTION**

We may sell the securities offered by this prospectus from time to time in one or more transactions, including without limitation:

through underwriters or dealers;

directly to purchasers;

in a rights offering;

in at the market offerings, within the meaning of Rule 415(a)(4) of the Securities Act to or through a market maker or into an existing trading market on an exchange or otherwise;

through agents;

through a combination of any of these methods; or

through any other method permitted by applicable law and described in a prospectus supplement.

The prospectus supplement with respect to any offering of securities will include the following information:

the terms of the offering;

the names of any underwriters or agents;

the name or names of any managing underwriter or underwriters;

the purchase price or initial public offering price of the securities;

**Table of Contents**

the net proceeds from the sale of the securities;

any delayed delivery arrangements;

any underwriting discounts, commissions and other items constituting underwriters' compensation;

any discounts or concessions allowed or reallocated or paid to dealers;

any commissions paid to agents; and

any securities exchange on which the securities may be listed.

**Sale through Underwriters or Dealers**

If underwriters are used in the sale, the underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless we inform you otherwise in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all of the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

We will describe the name or names of any underwriters, dealers or agents and the purchase price of the securities in a prospectus supplement relating to the securities.

In connection with the sale of the securities, underwriters may receive compensation from us or from purchasers of the securities, for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and these dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents, which is not expected to exceed that customary in the types of transactions involved. Underwriters, dealers and agents that participate in the distribution of the securities may be deemed to be underwriters, and any discounts or commissions they receive from us, and any profit on the resale of the securities they realize may be deemed to be underwriting discounts and commissions, under the Securities Act. The prospectus supplement will identify any underwriter or agent and will describe any compensation they receive from us.

Underwriters could make sales in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an at-the-market offering, sales made directly on the NYSE, the existing trading market for our common shares and Series A Preferred Shares, or sales made to or through a market maker other than on an exchange. The name of any such underwriter or agent involved in the offer and sale of our securities, the amounts underwritten, and the nature of its obligations to take our securities will be described in the applicable prospectus supplement.

Unless otherwise specified in the prospectus supplement, each series of the securities will be a new issue with no established trading market, other than our common shares, which are currently listed on the NYSE. We currently intend to list any common shares sold pursuant to this prospectus on the NYSE. We may elect to list any series of preferred shares on an exchange, but are not obligated to do so. It is possible that one or more underwriters may make a market in a series of the securities, but underwriters will not be obligated to do so and may discontinue any market

making at any time without notice. Therefore, we can give no assurance about the liquidity of the trading market for any of the securities.

Under agreements we may enter into, we may indemnify underwriters, dealers, and agents who participate in the distribution of the securities against certain liabilities, including liabilities under the Securities Act, or contribute with respect to payments that the underwriters, dealers or agents may be required to make.

In compliance with the guidelines of the Financial Industry Regulatory Authority, Inc. ( FINRA ), the maximum aggregate discounts, commissions, agency fees or other items constituting underwriting

## **Table of Contents**

compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of the aggregate offering price of the securities offered pursuant to this prospectus and any applicable prospectus supplement.

To facilitate the offering of securities, certain persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the price of the securities. This may include over-allotments or short sales of the securities, which involve the sale by persons participating in the offering of more securities than we sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

From time to time, we may engage in transactions with these underwriters, dealers, and agents in the ordinary course of business.

If indicated in the prospectus supplement, we may authorize underwriters or other persons acting as our agents to solicit offers by institutions to purchase securities from us pursuant to contracts providing for payment and delivery on a future date. Institutions with which we may make these delayed delivery contracts include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others. The obligations of any purchaser under any such delayed delivery contract will be subject to the condition that the purchase of the securities shall not at the time of delivery be prohibited under the laws of the jurisdiction to which the purchaser is subject. The underwriters and other agents will not have any responsibility with regard to the validity or performance of these delayed delivery contracts.

## **Direct Sales and Sales through Agents**

We may sell the securities directly. In this case, no underwriters or agents would be involved. We may also sell the securities through agents designated by us from time to time. In the applicable prospectus supplement, we will name any agent involved in the offer or sale of the offered securities, and we will describe any commissions payable to the agent. Unless we inform you otherwise in the applicable prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. We will describe the terms of any sales of these securities in the applicable prospectus supplement.

## **Remarketing Arrangements**

Securities may also be offered and sold, if so indicated in the applicable prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more remarketing firms, acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreements, if any, with us and its compensation will be described in the applicable prospectus supplement.

## **Delayed Delivery Contracts**

If we so indicate in the applicable prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities from us at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in the applicable

**Table of Contents**

prospectus supplement. The applicable prospectus supplement will describe the commission payable for solicitation of those contracts.

**General Information**

We may have agreements with the underwriters, dealers, agents and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments that the underwriters, dealers, agents or remarketing firms may be required to make. Underwriters, dealers, agents and remarketing firms may be customers of, engage in transactions with or perform services for us in the ordinary course of their businesses.

In compliance with Financial Industry Regulatory Authority, or FINRA, guidelines, the maximum commission or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus or any applicable prospectus supplement.

**LEGAL MATTERS**

The validity of the securities issued under this prospectus will be passed upon for us by Hunton & Williams LLP and, with respect to matters of Maryland law, by Venable LLP. The validity of any securities issued under this prospectus will be passed upon for any underwriters by counsel named in the applicable prospectus supplement.

**EXPERTS**

The consolidated financial statements and schedule of Pebblebrook Hotel Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010 and the period from October 2, 2009 (inception) through December 31, 2009, and management's assessment of the effectiveness of internal control over financial reporting as of December 31, 2010, and the financial statements of Westin Gaslamp Quarter, San Diego as of December 31, 2010 and 2009, and for the years then ended, have been incorporated by reference herein in reliance upon the reports of KPMG LLP, an independent registered public accounting firm, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.
