VALERO ENERGY CORPORATION

PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

MAY 9, 2002

GENERAL INFORMATION

This Proxy Statement is being mailed to stockholders beginning on or about April 5, 2002 in connection with the solicitation of proxies by the Board of Directors of Valero Energy Corporation(1) to be voted at the 2002 Annual Meeting of Stockholders of Valero on May 9, 2002. The accompanying notice describes the time, place and purposes of the Annual Meeting. Holders of record of Valero's Common Stock, \$0.01 par value, at the close of business on March 11, 2002 are entitled to vote on the matters presented at the Annual Meeting. On the record date, 105,671,352 shares of Common Stock were issued and outstanding, and entitled to one vote per share. Action may be taken at the Annual Meeting on May 9, 2002 or on any date or dates to which the meeting may be adjourned. A majority of such shares, present in person or represented by properly executed proxy, shall constitute a quorum. If instructions to the contrary are not given, shares will be voted as indicated on the proxy card. A stockholder may revoke a proxy at any time before it is voted by submitting a written revocation to Valero, returning a subsequently dated proxy to Valero or by voting in person at the Annual Meeting.

Brokers holding shares must vote according to specific instructions they receive from the beneficial owners. If specific instructions are not received, brokers may generally vote these shares in their discretion. However, the New York Stock Exchange precludes brokers from exercising voting discretion on certain proposals without specific instructions from the beneficial owner. This results in a "broker non-vote" on such a proposal. A broker non-vote is treated as "present" for purposes of determining the existence of a quorum, has the effect of a negative vote when a majority of the shares issued and outstanding is required for approval of a particular proposal and has no effect when a majority of the shares present and entitled to vote or a majority of the votes cast is required for approval. Pursuant to the rules of the New York Stock Exchange, brokers will have discretion to vote on the two items scheduled to be presented at the Annual Meeting.

Valero pays for the cost of soliciting proxies and the Annual Meeting. In addition to the solicitation of proxies by mail, proxies may be solicited by personal interview, telephone and similar means by directors, officers or

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

employees of Valero, none of whom will be specially compensated for such activities. Valero also intends to request that brokers, banks and other nominees solicit proxies from their principals and will pay such brokers, banks and other nominees certain expenses incurred by them for such activities. Valero has retained Georgeson Shareholder Communications, Inc., a proxy soliciting firm, to assist in the solicitation of proxies, for an estimated fee of \$11,500, plus reimbursement of certain out-of-pocket expenses.

- (1) Valero was incorporated in Delaware in 1981 under the name Valero Refining and Marketing Company as a wholly owned subsidiary of a corporation then known as Valero Energy Corporation, or Old Valero. Old Valero was engaged in both the refining and marketing business and the natural gas related services business. On July 31, 1997, Old Valero spun off Valero to Old Valero's stockholders by distributing to them all of the Common Stock of Valero. Immediately after this distribution, Old Valero, with its remaining natural gas related services business, merged with a wholly owned subsidiary of PG&E Corporation. The distribution and the merger are collectively referred to as the "Restructuring." Upon completion of the Restructuring, Valero's name was changed from Valero Refining and Marketing Company to Valero Energy Corporation and its common stock was listed for trading on the New York Stock Exchange under the symbol "VLO."

PARTICIPANTS IN VALERO BENEFIT PLANS PLEASE NOTE:

In the case of participants in Valero's thrift plan the proxy card will represent (in addition to any shares held individually of record) the number of shares allocated to the participant's accounts under the thrift plan. For those shares held under the plan, the proxy card will constitute an instruction to the Trustee of the plan as to how those shares are to be voted. Shares for which instructions are not received may be voted by the Trustee in accordance with the terms of the plan.

INFORMATION REGARDING THE BOARD OF DIRECTORS

The business of Valero is managed under the direction of the Board of Directors. The Board conducts its business through meetings of the Board and its committees. During 2001, the board held 10 meetings and the committees held 11 meetings in the aggregate. No member of the Board attended less than 75% of the meetings of the Board of Directors and committees of which he or she was a member.

Valero's Restated Certificate of Incorporation requires the Board to be divided into Class I, Class II and Class III directors, with each class serving a staggered three-year term. The Board is currently comprised of twelve members.

The Board has standing Audit, Compensation, Executive and Finance Committees. When deemed necessary or advisable, the Board will form from its members a Nominating Committee to consider and recommend candidates for election to the Board. The standing committees of the Board and the number of meetings held by each committee in 2001 are described below.

EXPANSION OF BOARD OF DIRECTORS IN CONNECTION WITH UDS MERGER

On December 31, 2001, Ultramar Diamond Shamrock Corporation ("UDS") merged with and into Valero, with Valero as the surviving corporation of the merger. The Agreement and Plan of Merger (the "Merger Agreement"), dated May 6, 2001 between

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Valero and UDS required in connection with the merger that Valero expand its Board of Directors by up to four members and cause four members of the UDS board of directors (collectively, the "UDS Board Designees") to be appointed to Valero's Board of Directors. The Merger Agreement further required Valero to nominate and recommend each of the UDS Board Designees for reelection to Valero's Board of Directors at the May 9, 2002 Annual Meeting of Stockholders, with at least one UDS Board Designee serving in each of the three classes of directors and with no more than two UDS Board Designees serving in the same class of directors. Accordingly, pursuant to the recommendation of the Nominating Committee, made at its meeting on October 10, 2001, the Board of Directors at its meeting on October 18, 2001 expanded the size of Valero's Board of Directors and appointed the UDS Board Designees to Valero's Board of Directors, effective upon the consummation of the merger on December 31, 2001. The UDS Board Designees are Messrs. E. Glenn Biggs, W. E. "Bill" Bradford, W. H. Clark and Bob Marbut. As further described below under the heading, "Proposal No. 1 Election Of Directors," the Nominating Committee and the Board have also nominated and recommended to the Stockholders that each UDS Board Designee be reelected to Valero's Board of Directors. The class assignments for the UDS Board Designees and Valero's other Board members are shown below under Proposal No. 1.

AUDIT COMMITTEE

The Audit Committee reviews and reports to the Board on various auditing and accounting matters, including the quality, objectivity and performance of Valero's internal and external accountants and auditors, the adequacy of its financial controls and the reliability of financial information reported to the public. The Audit Committee also monitors Valero's efforts to comply with environmental laws and regulations. Current members of the Audit Committee are Ruben M. Escobedo (Chairman), E. Glenn

2

Biggs, W. E. "Bill" Bradford and Dr. Susan Kaufman Purcell. The Audit Committee met three times in 2001. For further information, see the "Report of the Audit Committee" on page 24.

COMPENSATION COMMITTEE

The Compensation Committee reviews and reports to the Board on matters related to compensation strategies, policies and programs, including certain personnel policies and policy controls, management development, management succession and benefit programs. The Compensation Committee also approves and administers Valero's stock option, restricted stock, incentive bonus and other stock plans. See "Report of the Compensation Committee of the Board of Directors on Executive Compensation." Current members of the Compensation Committee are Robert G. Dettmer (Chairman), Jerry D. Choate and Bob Marbut, none of whom are current or former employees or officers of Valero. The Compensation Committee met five times in 2001.

There are no compensation committee interlocks. For the previous three fiscal years, except for compensation arrangements disclosed in this Proxy Statement, the Company has not participated in any contracts, loans, fees, awards or financial interests, direct or indirect, with any committee member, nor is the Company aware of any means, directly or indirectly, by which a committee member could receive a material benefit from the Company.

EXECUTIVE COMMITTEE

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

The Executive Committee exercises the power and authority of the Board during intervals between meetings of the Board. With limited exceptions specified in Valero's By-laws and under Delaware law, actions taken by the Executive Committee do not require Board ratification. In the absence of a Nominating Committee, the Executive Committee may also review possible director candidates for nomination as a director. Current members of the Executive Committee are William E. Greehey (Chairman), E. Glenn Biggs, Robert G. Dettmer and Ruben M. Escobedo. The Executive Committee met once in 2001.

FINANCE COMMITTEE

The Finance Committee reviews and monitors the investment policies and performance of the Company's thrift and pension plans, insurance and risk management policies and programs, and finance and financial policy matters as needed. Current members of the Finance Committee are W. H. Clark (Chairman), Dr. Ronald K. Calgaard, Dr. Donald M. Carlton and William B. Richardson. The Finance Committee, which was formed in connection with the UDS merger, did not meet in 2001 and has had one meeting in 2002.

NOMINATING COMMITTEE

When deemed necessary or advisable, the Board will form from its members a Nominating Committee. If appointed, a Nominating Committee may evaluate policy on the size and composition of the Board and criteria and procedures for director nominations, and may consider and recommend candidates for election to the Board. Robert G. Dettmer (Chairman) and Dr. Ronald K. Calgaard were appointed as a Nominating Committee by the Board with respect to nominations for the 2002 Annual Meeting. As indicated above under the heading, "Expansion of Board of Directors in Connection with UDS Merger," the Nominating Committee also considered and made recommendations to the Board with respect to the UDS Board Designees to be appointed to Valero's Board of Directors in connection with the UDS merger, and assignments for the committees of the Board. The full Board approved the recommendations of the Nominating Committee and adopted resolutions approving the UDS Board Designees, the slate of director nominees to stand for election at the 2002 Annual Meeting, and assignments for the committees of the Board. There were two Nominating Committee meetings in 2001.

3

COMPENSATION OF DIRECTORS

Non-employee directors receive a retainer fee of \$25,000 per year, plus \$1,250 for each Board and committee meeting attended. Directors who serve as chairperson of a committee receive an additional \$2,000 annually. Each director is also reimbursed for expenses of meeting attendance. Directors who are employees of the Company receive no compensation (other than reimbursement of expenses) for serving as directors.

Valero maintains the Restricted Stock Plan for Non-Employee Directors, or Director Stock Plan, and the Non-Employee Director Stock Option Plan, or Director Option Plan, to supplement the compensation paid to non-employee directors and increase their identification with the interests of Valero's stockholders through ownership of Common Stock. Upon election to the Board, each non-employee director receives a grant of Common Stock valued at \$45,000 that vests (becomes nonforfeitable) in equal annual installments over a three-year period. After all of the Common Stock previously granted to a director under the Director Stock Plan is fully vested and the director is reelected for an additional term, another similar grant is made.

The Director Option Plan provides non-employee directors of Valero automatic

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

annual grants of stock options to purchase Valero's Common Stock. To the extent necessary, the plan is administered by the Compensation Committee of the Board. The plan provides that each new non-employee director elected to the Valero Board automatically receives an initial grant of 5,000 options that vest in equal annual installments over a three-year period. On the date of each subsequent annual meeting of stockholders, each non-employee director (who is not a new non-employee director) automatically receives a grant of 2,000 additional options which vest fully six months following the date of grant. Stock options awarded under the Director Option Plan have an exercise price equal to the market price of the Common Stock on the date of grant. All options expire ten years following the date of grant. Options vest and remain exercisable in accordance with their original terms if a director retires from the Board.

In the event of a "Change of Control" as defined in the Director Stock Plan and Director Option Plan, all unvested shares of Common Stock and options previously granted under the plans immediately become vested or exercisable. The Director Option Plan also contains anti-dilution provisions providing for an adjustment in the number of options granted to prevent dilution of benefits or potential benefits in the event any change in the capital structure of the Company affects the Common Stock.

The Board of Directors determined in 2001 to cease benefit accruals in the Retirement Plan for Non-Employee Directors, or Retirement Plan. The plan provided for non-employee directors to receive a retirement benefit upon completion of five years of service. The annual benefit at retirement was equal to 10% of the highest annual cash retainer paid to the director during his or her service on the Board, multiplied by the number of full and partial years of service (not to exceed 10 years). This benefit was then paid for a period (not to exceed 10 years) that is equal to the director's length of service on the Board or the director's remaining life, whichever is shorter. Service on the Board of Directors of Old Valero was counted for purposes of computing benefits under the Retirement Plan. The Retirement Plan provided no survivor benefits and was an unfunded plan paid from the general assets of the Company. The Board also determined that the Director retirees already receiving benefits under the Retirement Plan would continue to receive their benefits in accordance with the terms of the plan. Additionally, they determined that each of the then current directors would receive the actuarial value of their accrued benefits through December 31, 2001, via a lump sum cash payment or a monthly annuity for the director's length of service on the Board, not to exceed 10 years.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The Company's Board is divided into three classes for purposes of election. Two Class I directors, four Class II directors and one Class III director will be elected at the Annual Meeting. The Class I directors will serve until the 2004 Annual Meeting of Stockholders, the Class II directors will serve until the 2005 Annual Meeting and the Class III director will serve until the 2003 Annual Meeting. The nominees for Class I director are E. Glenn Biggs and Bob Marbut. The nominees for Class II director are W. E. "Bill" Bradford, Dr. Ronald K. Calgaard, William E. Greehey and Dr. Susan Kaufman Purcell. The nominee for Class III director is W. H. Clark.

The persons named in the enclosed proxy card intend to vote for the election of each of the nominees, unless you indicate on the proxy card that your vote should be withheld from any or all of such nominees.

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR ALL" NOMINEES.

Directors are elected by a plurality of the shares of Common Stock represented at the Annual Meeting and entitled to vote. The nominees for Class I, Class II and Class III directors receiving the greatest number of votes, whether or not these votes represent a majority of the shares present and voting at the Annual Meeting, will be elected as directors. Votes "withheld" from a nominee will not count against the election of the nominee. If any nominee is unavailable as a candidate at the time of the Annual Meeting, either the number of directors constituting the full Board will be reduced to eliminate the vacancy, or the persons named as proxies will use their best judgment in voting for any available nominee. The Board has no reason to believe that any current nominee will be unable to serve.

5

INFORMATION CONCERNING NOMINEES AND OTHER DIRECTORS

The following table sets forth information concerning each nominee for election as a director and the current directors whose terms expire in 2003 and 2004. The information provided is based partly on data furnished by the directors and partly on the Company's records. There is no family relationship among any of the executive officers, directors or nominees for director of Valero.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, or Exchange Act, requires Valero's executive officers, directors and greater than 10% stockholders to file with the SEC certain reports of ownership and changes in ownership. Based on a review of the copies of such forms received and written representations from certain reporting persons, Valero believes that, during the year ended December 31, 2001, its executive officers, directors and greater than 10% stockholders were in compliance with applicable requirements of Section 16(a).

The following Performance Graph and Report of the Compensation Committee of the Board of Directors on Executive Compensation are not "soliciting material," are not deemed filed with the SEC and are not to be incorporated by reference in any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, as amended, respectively, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language therein.

PERFORMANCE GRAPH

Set forth below is a line graph which compares the Cumulative Total Return* on an investment in Valero Common Stock, against the cumulative total return of the S&P 500 Composite Index and an index of peer companies selected by Valero for the period of five fiscal years commencing December 31, 1996 and ending December 31, 2001. The Peer Group selected by Valero consists of two companies, Sunoco, Inc. and Ultramar Diamond Shamrock Corporation ("UDS"), that are engaged in the domestic petroleum refining industry with business operations, risks and markets comparable to Valero's. Valero's Peer Group for the prior year also included Tosco Corporation. Because Tosco merged into Phillips Petroleum Corporation on September 17, 2001, Tosco is no longer included in the Peer Group.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

Valero's executive compensation programs are administered by the Compensation Committee of Valero's Board of Directors. The Committee is presently composed of three independent outside directors who are not participants in the Company's executive compensation programs. Policies adopted by the Committee are implemented by Valero's compensation and benefits staff. Valero's executive compensation programs are intended to provide strong incentives for high performance, enabling Valero to recruit, retain and motivate the executive talent necessary to be successful.

COMPENSATION POLICIES

Valero's philosophy for compensating executive officers is based on the belief that a significant portion of executive compensation should be incentive based and determined by both the Company's and the executive's performance. Compensation for Valero executives includes base salary, an annual incentive bonus opportunity and long-term, stock-based incentives. The CEO and other executive officers also participate in benefit plans generally available to other employees. The Committee believes that the market in which the Company competes for executive talent is broader than the market defined by the companies included in the Peer Group presented above in the Comparison of Five Year Cumulative Total Return. Accordingly, to assist with determining executive compensation levels, Valero utilizes a group of companies from a nationally recognized compensation database compiled by Towers Perrin, an independent compensation consultant. This group consists of 11 companies, referred to as the Compensation Peer Group, who have significant participation in the domestic oil refining and marketing industry and includes those Peer Group companies for which compensation data is available. Towers Perrin's Compensation Peer Group recommendation reflects consideration of each company's relative revenue, asset base, employee population and capitalization, along with the scope of managerial responsibility and reporting relationships. Base salary, bonuses and other compensation recommendations are developed by Valero's compensation and benefits staff using recognized, independent compensation surveys, reviewed by Towers Perrin and submitted to the Committee for consideration.

Annual incentive bonuses, when awarded, are related both to measures of Company financial performance and to individual performance. Long-term incentives, consisting of performance shares, restricted stock and stock option grants, as well as the non-cash portion of annual incentive bonus awards, are intended to balance executive management focus between short and long-term goals and provide capital accumulation linked directly to the performance of Valero's Common

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Stock. For executive officers other than the CEO, base salary levels are targeted at approximately the 50th percentile of the Compensation Peer Group, while annual and long-term incentive compensation, when awarded, are targeted at the 65th percentile. For the CEO, base salary levels as well as annual and long term incentive compensation, when awarded, are targeted at the 75th percentile.

BASE SALARIES

Base salaries for each executive position are set based on the Compensation Peer Group data for positions having similar duties and levels of responsibility. Base salaries are reviewed annually and may be adjusted to reflect promotions, the assignment of additional responsibilities, individual performance or the performance of the Company. Salaries are also periodically adjusted to remain competitive with the Compensation Peer Group.

13

ANNUAL INCENTIVE BONUS

Executive officers have the opportunity to earn an annual incentive bonus based on the following three factors:

- o the position of the executive officer, which is used to determine a targeted percentage of annual base salary that may be awarded as incentive bonus, with the targets ranging from a low of approximately 50% of base salary to approximately 100% of base salary (for the CEO);
- o realization by the Company of quantitative financial performance goals approved by the Committee; and
- o a qualitative evaluation of the individual's performance.

For each executive, the target percentage of base salary is adjusted upward or downward depending upon whether Valero achieves certain financial performance goals. The Committee retains discretion to further adjust individual bonus targets upward or downward by up to 25%, based upon such factors as the Committee deems appropriate, and ultimately to determine whether to award a bonus to any individual. The following quantitative measures of financial performance were utilized in establishing incentive bonuses for 2001:

- o return on equity, or ROE, compared with the average ROE for a group of three companies in the domestic oil refining and marketing business, referred to as the Target Group, for the 12-month period ended September 30, 2001;
- o return on investment, or ROI, for the 12 month period ended September 30, 2001, compared with the ROI of the Target Group;
- o earnings per share, or EPS, of Valero's common stock in 2001 (based on estimates available at the time of computation) compared with Valero's EPS for 2000; and
- o the daily average closing price per share of Valero's common stock during November 2001 compared with the daily average closing price during the corresponding period in the prior year.

For the ROE and ROI financial performance measures, the target percentage of base salary is subject to adjustment, upward or downward, depending upon whether Valero's ROE and ROI exceeds, or falls short of, the average ROE and ROI for the

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Target Group. For the earnings per share and stock price performance measures, the target percentage of base salary is subject to adjustment if the Company's performance exceeds or falls short of the prior year's measures. The four performance factors are given approximately equal weight in determining potential adjustments to the target percentages of base salary for 2001. ROE and ROI are measured against the Target Group rather than the Compensation Peer Group because (i) certain entities for which compensation survey information is not available are nonetheless included in the Target Group because their operations are most comparable to Valero's; and (ii) certain entities with whom Valero competes for executive talent, and who are therefore included in the Compensation Peer Group, have operations sufficiently different in size or scope from Valero's such that financial comparisons are less meaningful.

For 2001, the Company's performance was above the Target Group average for ROE, above the Target Group average for ROI, and above the 2000 earnings per share and stock price performance. Based on these financial results, the Committee determined to adjust the bonus target amounts upward. Executives received bonus awards at an average of approximately 200% of the original target bonus amounts. In furtherance of Valero's goal of increasing stock ownership as a component of both short and long-term

14

compensation, 25% of each bonus award was paid with shares of Valero's common stock and the remainder in cash.

LONG-TERM INCENTIVE AWARDS

Valero provides stock-based, longer-term compensation for executives through its Executive Stock Incentive Plan. The plan authorizes awards of performance shares which vest (become nonforfeitable) upon the achievement of an objective performance goal, as well as grants of restricted stock, which vest over a period determined by the Committee. For each eligible executive, a targeted number of performance shares is set with an aggregate hypothetical market value at the date of grant targeted at the 65th percentile of the Compensation Peer Group. The targeted award can then be adjusted based upon an evaluation of individual performance, which (for executives other than the CEO) is based upon the recommendation of the CEO, and other factors the Committee deems appropriate. As with the annual incentive bonus, the Committee retains the discretion to determine whether an award should be made. The total number of shares awarded is a function of Valero's common stock price at the time of grant and the number of shares required to achieve a percentage of compensation target. The Committee anticipates that awards of performance shares will generally be made annually.

Performance shares are earned only upon the achievement of an objective performance measure. Total shareholder return is the performance measure utilized for determining what portion of performance share awards may vest. Each award is subject to vesting in three annual increments, based upon Valero's total shareholder return during rolling three-year periods that end on December 31 of each year following the date of grant. At the end of each performance period, the Company's total shareholder return is compared to the Target Group and ranked by quartile. Participants then earn 0%, 50%, 100% or 150% of that portion of the initial grant amount that is vesting, depending upon whether Valero's total shareholder return is in the last, 3rd, 2nd or 1st quartile, respectively; and they earn 200% if Valero ranks highest in the group. Amounts not earned in a given performance period can be carried forward for one additional performance period and up to 100% of the carried amount can still be

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

earned, depending upon the quartile achieved for that subsequent period. For the performance period ended December 31, 2001, Valero's performance ranked highest in the group, resulting in vesting of eligible shares at the 200% level. The Committee believes this type of incentive award strengthens the tie between the named executive's pay and the Company's financial performance. Because performance share awards are intended to provide an incentive for future performance, determination of individual awards are not based upon Valero's past performance. Additionally, in determining an individual award, the Committee does not consider performance shares or restricted stock previously awarded or currently held, because the Committee does not wish to encourage executives to sell stock in order to qualify for additional awards.

STOCK OPTIONS

Under the Executive Stock Incentive Plan, the Committee may grant stock options to executive officers. Procedures for determining the number of options to be granted are in all material respects the same as for performance share awards. Generally, option awards made by the Committee vest over a period of three years in equal installments, provide for an option price equal to the market price of Valero's common stock on the date of grant and expire ten years from the date of grant. The Committee expects to continue this practice. The award and vesting of stock options are not contingent on achievement of any specified performance targets, but the options will provide a benefit to the executive only to the extent that there is appreciation in the market price of Valero's common stock during the option period.

15

DETERMINATION OF THE CEO'S COMPENSATION

The CEO's compensation is recommended by the Committee and approved by the Board of Directors. Mr. Greehey's base salary, which is determined as described above, was set at \$1.3 million in 2000 and was not changed in 2001. In determining the CEO's annual incentive bonus for the 2001 bonus year, the Committee considered the four financial performance measures previously discussed above and made substantially the same adjustments as discussed above. Based upon these factors, and considering Mr. Greehey's individual performance and contributions to the Company's growth and record profitability for 2001, particularly in stewarding the successful acquisitions of Ultramar Diamond Shamrock Corporation, Huntway Refining Company and El Paso Corporation's Corpus Christi refinery and related logistics assets, the Committee recommended, and on January 17, 2002 the Board of Directors approved, a bonus award to Mr. Greehey equal to \$5,000,000, which is approximately 3.8 times his annual base pay, with 100% of the award payable in shares of Valero's common stock. The Committee and the Board further determined that Mr. Greehey's bonus award would be delivered on January 1 of the year following Mr. Greehey's retirement. As a result, the Company's tax burden under Section 162(m) of the internal revenue code (discussed below) was reduced by approximately \$1.9 million in 2001. In order to alleviate the cash flow impact to Mr. Greehey resulting from the delivery of his bonus after his retirement, the Committee and the Board determined to make a loan to Mr. Greehey of \$1.9 million. The loan is evidenced by a promissory note executed by Mr. Greehey and made payable to Valero. The loan will be combined with a similar \$400,000 loan made to Mr. Greehey in 2001. The note has a five-year term and bears interest at a rate of 4.49% per annum. Interest and principal on the note are payable at maturity. If Mr. Greehey's employment with Valero ceases prior to the stated maturity of the note, the note must be repaid in full by the end of the third month following such cessation of employment.

TAX POLICY

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Under Section 162(m) of the Internal Revenue Code, publicly held corporations may not take a tax deduction for compensation in excess of \$1 million paid to the CEO or the other four most highly compensated executive officers unless that compensation meets the Internal Revenue Code's definition of "performance based" compensation. Section 162(m) allows a deduction for compensation to the specified executives that exceeds \$1 million only if it is paid (i) solely upon attainment of one or more performance goals, (ii) pursuant to a qualifying performance-based compensation plan adopted by the Committee, and (iii) the material terms, including the performance goals, of such plan are approved by the stockholders before payment of the compensation. Valero believes that stock option awards and performance share grants under the Executive Stock Incentive Plan qualify as performance-based compensation and are not subject to any deductibility limitations under Section 162(m). Grants of restricted stock and other stock based awards will likely not qualify as "performance based" compensation and, in such event, would be subject to 162(m) deduction restrictions.

- (1) For 1999, executive bonuses were paid 50% cash and 50% in Common Stock. For 2000, executive bonuses (other than Mr. Greehey) were paid 50% in cash and 50% in Common Stock. For 2001, executive bonuses (other than Mr. Greehey) were paid 75% in cash and 25% in Common Stock. Mr. Greehey's bonus awards for 2000 and 2001 were made payable 100% in Common Stock to be delivered on January 1 of the year following Mr. Greehey's retirement. For further information, see "Report of the Compensation Committee of the Board of Directors on Executive Compensation" above.
- (2) Dividends are paid on restricted stock at the same rate as on Valero's unrestricted Common Stock. Shares of restricted stock reported vest 1/3 annually over a three-year period. Amounts reported may include awards the executive has elected to defer. The aggregate number of unvested shares of restricted stock held at December 31, 2001 and the market value of such shares on that date (calculated according to SEC regulation without regard to restrictions on such shares) were: Mr. Greehey, 0 shares, Mr. King, 1,666 shares, \$63,508; Mr. Gibbons, 0 shares; Mr. Boone, 666 shares, \$25,388; and Mr. Hohnholt, 0 shares.
- (3) LTIP payouts are the number of performance share awards vested for 2001 performance multiplied by the market price per share of Valero Common Stock on the vesting date. Amounts reported may include awards the executive has elected to defer. For further information, see the notes following the table entitled "Long Term Incentive Plans-Awards in Last Fiscal Year."
- (4) Amounts include Company contributions pursuant to the Thrift Plan and Valero's Excess Thrift Plan, unused portions of amounts provided by the Company under the Company's Flexible Benefits Plan and that portion of interest accrued under the Executive Deferred Compensation Plan which is deemed to be at "above-market" rates under applicable SEC rules. Messrs. Greehey, King, Gibbons, Boone and Hohnholt, were allocated \$101,834, \$31,084, \$29,025, \$27,117 and \$24,109, respectively, as a result of Company contributions to the Thrift Plan and Valero's Excess Thrift Plan for 2001, and received \$6,335, \$2,586, \$4,121, \$4,331 and \$3,522, respectively, as reimbursement of certain membership dues. Mr. Greehey also received \$22,726 as a result of "above-market" allocations to the Executive Deferred Compensation Plan for 2001. Amounts for Mr. Greehey also include executive insurance policy premiums with respect to cash value life insurance (not split-dollar life insurance) in the amount of \$12,212 for 1999, 2000 and 2001.

(1) All options reported vest in equal increments over a three-year period from the date of grant, unless otherwise noted. In the event of a change of control of Valero, such options may become immediately exercisable pursuant to provisions of the plan under which such options were granted or of an executive severance agreement. Under the terms of the Company's option plans, the exercise price and tax withholding obligations related to exercise may be paid by delivery of already owned shares or by offset of the underlying option shares, subject to certain conditions.

(2) A variation of the Black-Scholes option pricing model was used to determine grant date present value. This model is designed to value publicly traded options. Options issued under the Company's option plans are not freely traded, and the exercise of such options is subject to substantial restrictions. Moreover, the Black-Scholes model does not give effect to either risk of forfeiture or lack of transferability. The estimated values under the Black-Scholes model are based on assumptions as to variables such as interest rates, stock price volatility and future dividend yield. The estimated grant date present values presented in this table were calculated using an expected average option life of 3.32 years, risk-free rate of return of 4.51%, average volatility rate for the 3.32 year period prior to the grant date of 45.42%, and dividend yield of 1.19%, which is the expected annualized quarterly dividend rate in effect at the date of grant expressed as a percentage of the market value of the Common Stock at the date of grant. The actual value of stock options could be zero; realization of any positive value depends upon the actual future performance of the Common Stock, the continued employment of the option holder throughout the vesting period and the timing of the exercise of the option. Accordingly, the values set forth in this table may not be achieved.

- (1) Long-term incentive awards are grants of Performance Shares made under the Executive Stock Incentive Plan. Total shareholder return, or TSR, during a specified "performance period" was established as the performance measure for determining what portion of an award may vest. TSR is measured by dividing the sum of (a) the net change in the price of a share of Valero's Common Stock between the beginning of the performance period and the end of the performance period, and (b) the total dividends paid on the Common Stock during the performance period, by (c) the price of a share of Valero's Common Stock at the beginning of the performance period. Each Performance Share award is subject to vesting in three equal increments, based upon the Company's TSR during rolling three-year periods that end on December 31, 2001, 2002 and 2003, respectively. At the end of each performance period, the Company's TSR is compared to the TSR for a target group of comparable companies. Valero and the companies in the target group are then ranked by quartile. Participants then earn 0%, 50%, 100% or 150% of that portion of the initial grant amount that is vesting for such period, depending upon whether the Company's TSR is in the last, 3rd, 2nd or 1st quartile of the target group; 200% will be earned if the Company ranks highest in the group. Amounts not earned in a given performance period can be carried forward for one additional performance period and up to 100% of the carried amount can still be earned, depending upon the quartile achieved for such subsequent period.

The following table provides information regarding securities underlying options exercisable at December 31, 2001, and options exercised during 2001, for the executive officers named in the Summary Compensation Table:

Valero maintains a noncontributory defined benefit Pension Plan in which virtually all employees are eligible to participate and under which contributions by individual participants are neither required nor permitted. Valero also maintains a noncontributory, non-qualified Excess Pension Plan and a non-qualified SERP, which provide supplemental pension benefits to certain highly compensated employees. The Pension Plan (supplemented, as necessary, by the Excess Pension Plan) provides a monthly pension at normal retirement equal to 1.6% of the participant's average monthly compensation (based upon the last 10 years of the participant's credited service, including service with Old Valero, affording the highest such average) times the participant's years of credited service. The SERP provides an additional benefit equal to .35% times the product of the participant's years of credited service (maximum 35 years) multiplied by the excess of the participant's average monthly compensation over the lesser of 1.25 times the monthly average (without indexing) of the social security wage bases for the 35-year period ending with the year the participant attains social security retirement age, or the monthly average of the social security wage base in effect for the year that the participant retires. For purposes of the SERP, the participant's most highly compensated consecutive 36 months of service during the participant's last 10 years of employment, including employment with Old Valero and its subsidiaries, are considered. Compensation for purposes of the Pension Plan, Excess Pension Plan and SERP includes salary and bonus as reported in the Summary Compensation Table. Pension benefits are not subject to any deduction for social security or other offset amounts.

Credited years of service for the period ended December 31, 2001 for the executive officers named in the Summary Compensation Table are as follows: Mr. Greehey - 38 years; Mr. King - 8 years; Mr. Gibbons - 21 years; Mr. Boone - 19 years; and Mr. Hohnholt - 20 years.

20

ARRANGEMENTS WITH CERTAIN OFFICERS AND DIRECTORS

Old Valero entered into a severance agreement with Mr. Greehey, which provides certain payments and other benefits in the event of his termination of employment under certain circumstances. Mr. Greehey's severance agreement provides that if he leaves the Company for any reason (other than death, disability or normal retirement) within two years after a "change of control," he will receive a lump-sum cash payment equal to three times his highest compensation during any consecutive 12-month period in the prior three years. He will also be entitled to accelerated vesting of all previously granted stock options and restricted stock. The agreement also provides for special retirement benefits if he would have qualified for benefits under the Pension Plan had he remained with the Company for the three-year period following such termination, continuance of life and health insurance coverages, relocation assistance and other fringe benefits for such three-year period.

Valero has entered into management stability agreements with various key executives, including Messrs. King, Gibbons, Boone and Hohnholt. These agreements are intended to assure the continued availability of these executives in the event of certain transactions culminating in a "change of control" of

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Valero. Under the management stability agreements, in the event Mr. King, Mr. Gibbons, Mr. Boone or Mr. Hohnholt is terminated within two years after a change of control or divestiture transaction has occurred, and termination is not voluntary or the result of death, permanent disability, retirement or certain other defined circumstances, the executive would be entitled to receive (i) a lump sum cash payment equal to two times the highest annual compensation paid to him during the prior three-year period, and (ii) the continuation of life, disability and health insurance coverages for two years. Each executive would also be entitled to accelerated vesting of all previously granted stock options and restricted stock.

Valero has entered into an employment agreement with Mr. Greehey. The agreement became effective March 25, 1999 and the initial period of the agreement expired on July 31, 2001. In accordance with the agreement, prior to the expiration date, Mr. Greehey delivered written notice to Valero of his intention to extend the employment agreement, and the Company and Mr. Greehey executed an extension of employment agreement that extended the term of Mr. Greehey's employment beyond the end of the initial period on a month-to-month basis. Mr. Greehey may terminate the employment agreement within the extension period by giving Valero 90 calendar days written notice of termination. The agreement provided for Mr. Greehey to serve as Chief Executive Officer of Valero and receive an initial base salary of \$900,000 per annum, subject to possible increase adjustments by the Board of Directors. The agreement also provided for the grant to Mr. Greehey of an option to acquire 860,000 shares of Common Stock and a grant of 150,000 Performance Shares, each vesting 50% per year over two years. Mr. Greehey is also eligible to receive an annual bonus in an amount determined by the Board. During his employment, Mr. Greehey will also receive reimbursement for certain club membership dues and fees, tax planning services and a permanent life insurance benefit. In the event Mr. Greehey dies during employment, his base salary shall be paid to his beneficiaries or estate for the remainder of the agreement period.

The agreement provides that Mr. Greehey may retire at any time upon 90 days prior notice. Upon his retirement from employment, Mr. Greehey has agreed to continue to serve at the discretion of the Board as Chairman of the Board for two additional years at a rate of compensation equal to one-half of his base salary in effect at the time of his retirement. Upon his retirement, in addition to retiree medical and other benefits payable to retirees generally, Mr. Greehey would also receive credit for eight additional years of service for purposes of calculating his pension benefits, vesting of certain outstanding derivative securities, office and secretarial facilities and \$300,000 of permanent life insurance.

The Company may terminate Mr. Greehey's employment as Chief Executive Officer at any time upon 90 days notice. Unless his termination is for cause, Mr. Greehey would be entitled to receive a pro rata, lump sum cash settlement equal to the sum of (i) Mr. Greehey's base salary for the remaining term of the

agreement, plus (ii) an amount equal to the highest annual bonus paid to Mr. Greehey during the preceding five years. If Mr. Greehey's employment is terminated by the Company, he would not be entitled to serve as Chairman or to receive the compensation specified for such service. However, if Mr. Greehey retires and commences service as Chairman of the Board, and is then removed from such position by a majority of the remaining Board members, he would be entitled to receive the balance of the two years compensation for serving as Chairman of the Board. The employment agreement provides that if Mr. Greehey receives a cash payment, and the payment is determined to be subject to the excise tax required

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

for certain "excess parachute payments," then he shall receive a cash bonus to cover the amount of the excise tax payable, plus any taxes on such bonus amount. The employment agreement also states that any amounts that Mr. Greehey may receive under his severance agreement shall be credited against amounts payable under his employment agreement.

TRANSACTIONS WITH MANAGEMENT AND OTHERS

See "Executive Compensation" and "Arrangements with Certain Officers and Directors" for a discussion of compensation paid to certain officers and directors. In connection with the deferral of certain compensation, the Company has made a loan to Mr. Greehey. See "Determination of the CEO's Compensation" in the "Report of the Compensation Committee of the Board of Directors on Executive Compensation."

Except as referenced above, no executive officer, director or nominee for director of Valero has been indebted to the Company, or has acquired a material interest in any transaction to which the Company is a party, during the last fiscal year.

PROPOSAL NO. 2 RATIFICATION OF INDEPENDENT PUBLIC ACCOUNTANTS

Following a thorough evaluation, and in accordance with the recommendation of the Audit Committee, the Board of Directors determined on March 12, 2002 to engage Ernst and Young LLP to serve as the Company's independent auditors for the fiscal year ending December 31, 2002. Prior to the selection of Ernst and Young, Arthur Andersen LLP served as the company's independent auditors.

Arthur Andersen's reports on the Company's consolidated financial statements for each of the years ended December 31, 2001 and 2000 did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. During the years ended December 31, 2001 and 2000 and through the date hereof, there were no disagreements with Arthur Andersen on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure which, if not resolved to Arthur Andersen's satisfaction, would have caused them to make reference to the subject matter in connection with their report on the Company's consolidated financial statements for such years; and there were no reportable events as defined in Item 304(a)(1)(v) of Regulation S-K.

During the years ended December 31, 2001 and 2000 and through the date hereof, the Company did not consult Ernst and Young LLP with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

The Board requests stockholder approval of the following resolution adopted at the Board of Directors meeting held on March 12, 2002, appointing Ernst and Young LLP as independent auditors for the Company for the fiscal year ending December 31, 2002.

RESOLVED, that the appointment of the firm of Ernst and Young LLP, Certified Public Accountants, as the independent auditors for the Company for the purpose of conducting an examination and audit of the financial statements of Valero and its subsidiaries for the fiscal year ending December 31, 2002 is hereby approved and ratified.

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

THE BOARD RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" THE PROPOSAL TO RATIFY THE APPOINTMENT OF INDEPENDENT PUBLIC ACCOUNTANTS.

Passage of the proposal requires approval of a majority of the shares represented and entitled to vote at the Annual Meeting. If the appointment is not approved, the adverse vote will be considered as an indication to the Board that it should select other independent public accountants for the following year. Because of the difficulty and expense of making any substitution of accountants so long after the beginning of the current year, it is contemplated that the appointment for 2002 will be permitted to stand unless the Board finds other good reason for making a change.

Representatives of Ernst and Young and Arthur Andersen are expected to be present at the Annual Meeting to respond to appropriate questions raised at the Annual Meeting or submitted to them in writing prior to the Annual Meeting. The representatives may also make a statement if they desire to do so.

23

ARTHUR ANDERSEN LLP FEES FOR FISCAL YEAR 2001

Audit Fees. Audit fees incurred by the Company with respect to the Arthur Andersen LLP audit of Fiscal Year 2001 financial statements were \$984,000.

Financial Information Systems Design and Implementation Fees. Fees incurred by the Company to Arthur Andersen LLP in connection with financial information systems design and implementation projects for Fiscal Year 2001 were \$867,504.

All Other Fees. All other fees incurred by the Company payable to Arthur Andersen LLP with respect to Fiscal Year 2001 were \$4,833,885. These fees related primarily to provision of services with respect to acquisitions.

The Audit Committee considered whether the provision of services described above under "All Other Fees" is compatible with maintaining Arthur Andersen's independence.

REPORT OF THE AUDIT COMMITTEE FOR FISCAL YEAR 2001(2)

The Audit Committee is composed of four directors who are not officers or employees of the Company. Under currently applicable rules of the New York Stock Exchange, all members are independent. The Board of Directors has adopted a written charter for the Audit Committee, which is included as Appendix A to this Proxy Statement.

Management is responsible for the Company's internal controls and the financial reporting process. Arthur Andersen LLP, the Company's independent accountants for the fiscal year ended December 31, 2001, is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Committee monitors and oversee these processes. The Committee recommends to the Board of Directors the selection of the Company's independent auditors.

The Committee has reviewed and discussed the Company's audited financial statements with management and the independent accountants. The Committee has discussed with Arthur Andersen the matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees). The Committee has received the written disclosures and the letter from Arthur

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

Andersen required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed with Arthur Andersen that firm's independence.

Based on the foregoing review and discussions and such other matters the Committee deemed relevant and appropriate, the Committee recommended to the Board of Directors that the audited financial statements of the Company be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

MEMBERS OF THE AUDIT COMMITTEE:

Ruben M. Escobedo, Chairman
E. Glenn Biggs
W. E. Bradford
Dr. Susan Kaufman Purcell

- (2) The material in this Report of the Audit Committee of the Board of Directors is not "soliciting material," is not deemed filed with the SEC and is not to be incorporated by reference in any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, as amended, respectively, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language therein.

24

PROPOSAL NO. 3 OTHER BUSINESS

If any matters not referred to in this Proxy Statement properly come before the Annual Meeting, a majority of the persons named in the proxy (or, if one such person acts, then that one) may vote the shares represented by proxy in accordance with their best judgment. The Board was not aware at a reasonable time before solicitation of proxies began of any other matters that would be presented for action at the meeting.

STOCKHOLDER PROPOSALS

Under Valero's by-laws, stockholders intending to bring any business before an Annual Meeting of Stockholders, including nominations of persons for election as directors, must give prior written notice to the Corporate Secretary regarding the business to be presented or persons to be nominated. The notice must be received at the principal executive office of Valero within the specified period and must be accompanied by the information and documents specified in the by-laws. A copy of the by-laws may be obtained by writing to the Corporate Secretary of Valero.

The provisions of the by-laws do not affect any stockholder's right to request inclusion of proposals in the Proxy Statement pursuant to Rule 14a-8 under the Exchange Act. Rule 14a-8 of the federal proxy rules specifies what constitutes timely submission for a stockholder proposal to be included in the Company's proxy statement. If a stockholder desires to bring business before the meeting which is not the subject of a proposal timely submitted for inclusion in the proxy statement, the stockholder must follow procedures outlined in the Company's by-laws. A copy of these procedures is available upon request from the Corporate Secretary of the Company, P.O. Box 500, San Antonio, Texas, 78292-0500. One of the procedural requirements in the Company's by-laws is timely notice in writing of the business the stockholder proposes to bring before the meeting. Notice must be received not less than 60 days nor more than

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

90 days prior to the first anniversary of the preceding year's annual meeting. It should be noted that those by-law procedures govern proper submission of business to be put before a stockholder vote and do not preclude discussion by any stockholder of any business properly brought before the annual meeting. Under the SEC's proxy solicitation rules, to be considered for inclusion in the proxy materials for the 2003 Annual Meeting of Stockholders, stockholder proposals must be received by the Corporate Secretary at Valero's principal office in San Antonio, Texas by November 28, 2002.

Valero will consider recommendations by stockholders for directors to be nominated at the 2002 Annual Meeting of Stockholders. Recommendations must be in writing and include sufficient biographical and other relevant information such that an informed judgment as to the proposed nominee's qualifications can be made. Recommendations must be accompanied by a notarized statement executed by the proposed nominee consenting to be named in the Proxy Statement, if nominated, and to serve as a director, if elected. Recommendations received in proper order by the Corporate Secretary at Valero's principal executive office at least six months prior to the 2002 Annual Meeting of Stockholders will be referred to, and considered by, the Executive Committee or, if appointed, a Nominating Committee.

Stockholders are urged to review all applicable rules and, if questions arise, to consult their own legal counsel before submitting a nomination or proposal to Valero. No stockholder recommendations or proposals were received within the required period before the Annual Meeting.

25

MISCELLANEOUS

Consolidated financial statements and related information for Valero, including audited financial statements for the fiscal year ended December 31, 2001, are contained in the Company's Annual Report on Form 10-K which is being distributed to stockholders with this Proxy Statement.

Valero's Annual Report to Stockholders for the fiscal year ended December 31, 2001 has simultaneously been mailed to stockholders entitled to vote at the Annual Meeting. The Annual Report is not to be treated as a part of the proxy materials.

APPENDIX A

VALERO ENERGY CORPORATION
AUDIT COMMITTEE OF THE BOARD OF DIRECTORS
CHARTER
(Adopted May 4, 2000)

I. PURPOSE

The primary purpose of the Audit Committee ("Committee") of the Board of Directors of Valero Energy Corporation (the "Company") is to assist the Board of Directors in fulfilling its oversight responsibilities by: reviewing the financial reports and other financial information provided by the Company to any governmental body or to the public, and reviewing processes established by management to assess whether an adequate system of financial reporting and internal control is functioning within the Company. The Committee's primary responsibilities are to:

- o Serve as an independent and objective party to monitor the Company's financial reporting process and internal control system.
- o Review the audit activities of the Company's independent accountants and internal auditors.
- o Provide an open avenue of communication among the Company's independent accountants, its management, its internal auditing department, and the Board of Directors.

The Committee will fulfill these responsibilities by carrying out the activities described in Section III of this Charter, in accordance with the parameters set forth in Section II of the Charter.

II. COMMITTEE MEMBERSHIP REQUIREMENTS

The Committee shall be comprised of at least three directors as determined by the Board of Directors. The Board of Directors will designate one member of the Committee to chair the committee. Each member of the Committee shall be an independent director or be otherwise eligible to serve on the Committee pursuant to the parameters for eligibility set forth by the Securities and Exchange Commission and the New York Stock Exchange.

Specifically, each member of the Committee shall be financially literate, or become financially literate within a reasonable period of time after appointment to the Committee. The Board of Directors will exercise its business judgment to appoint Committee members who fulfill this requirement. In addition, at least one Committee member shall possess accounting or related financial management expertise. The Board of Directors will exercise its business judgment to appoint at least one Committee member who fulfills this requirement.

III. COMMITTEE FUNCTIONS.

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

A. Meetings. The Committee undertakes to meet at least three times each year. The Committee will report to the Board of Directors regarding any significant discussions or findings relating to the meetings of the Committee.

B. Charter. The Committee shall annually review and reassess the adequacy of this Charter.

1

C. Independent Accountants. The independent accountants for the Company are ultimately accountable to the Board of Directors and the Committee. The Committee undertakes the following with respect to the Company's independent accountants.

1. The Committee will recommend annually to the Board of Directors the name of the independent accountants to be appointed to conduct an examination and audit of the financial statements of the Company and its subsidiaries.

2. The Committee will review with the appropriate officers of the Company the terms of the independent accountants' engagement with the Company, including fee estimates for arranged audit services and special services.

3. The Committee will require the independent accountants to submit to the Committee at least annually a written report delineating all relationships between the independent accountants and the Company (and its subsidiaries) as well as the independent accountants' assessment of whether any such relationships affect their ability to serve as independent accountants for the Company. The Committee will discuss with the appropriate officers of the Company and the independent accountants any disclosed relationships or services that may impact the objectivity and independence of the independent accountants. The Committee will recommend that the Board of Directors take appropriate action in response to the independent accountants' report to satisfy itself of the independent accountants' independence.

4. Before the Company files its Annual Report on Form 10-K with the Securities and Exchange Commission, the Committee will review and discuss with the appropriate officers of the Company and the independent accountants any report or information delivered to the Committee by the independent accountants and required to be discussed under the Statement on Auditing Standards (SAS) No. 61, as may be amended or superseded, regarding the scope and results of the independent accountants' audit.

5. The Committee shall review the audited financial statements of the Company with the appropriate officers of the Company and the independent accountants, and make a recommendation to the Board of Directors whether the audited financial statements should be included in the Company's Annual Report on Form 10-K.

6. The Committee shall review the independent accountants' internal control report and the adequacy of the Company's internal controls with the appropriate officers of the Company

Edgar Filing: VALERO ENERGY CORP/TX - Form DEF 14A

and the independent accountants.

D. The Company's Internal Auditors. The Committee will review the Company's annual internal audit plan and annual internal audit performance report with the appropriate officers of the Company, including its Internal Audit Director, and the independent accountants. The Committee will also review the Company's internal audit reports and its completed and active internal audit projects with the appropriate officers of the Company, including its Internal Audit Director, and the independent accountants.

E. Environmental and Safety Matters. The Committee will review annually the Company's and its subsidiaries' compliance with applicable environmental and safety laws and regulations and the results of internal environmental and safety assessment and compliance programs with the appropriate environmental and safety personnel of the Company.

2

F. Reporting. The Committee will prepare and deliver to the Company a report of the Committee for inclusion in the Company's annual proxy statement. The report will contain all of the information required by the Securities and Exchange Commission pursuant to its rules and regulations pertaining to reports of audit committees included in proxy statements.

G. Other Activities. In its discretion, the Committee will perform the following activities when deemed necessary or appropriate.

1. The Committee will meet separately with the Company's financial and executive officers, including the Internal Audit Director, and the Company's independent accountants to assess whether any conditions may exist that could impair the working relationship between the independent accountants and the Company's management.

2. The Committee will review compliance with the Company's policies regarding conflicts of interest and employee trading of securities, and inquire about any fraud or significant conflicts of interest.

3. The Committee will review any legal proceedings affecting the Company or its subsidiaries that could have a material adverse effect on the Company's financial statements.

4. The Committee will consider any other matters in relation to the financial affairs of the Company and its accounts, and in relation to audits of the Company, as the Committee may determine to be advisable.

EXPANSION OF BOARD OF DIRECTORS IN CONNECTION WITH UDS MERGER

On December 31, 2001, Ultramar Diamond Shamrock Corporation ("UDS") merged with and into Valero, with Valero as the surviving corporation of the merger. The Agreement and Plan of Merger (the "Merger Agreement"), dated as of May 6, 2001, between Valero and UDS required in connection with the merger that Valero expand its Board of Directors by up to four members and cause four members of the UDS board of directors (collectively, the "UDS Board Designees") to be appointed to Valero's Board of Directors. The Merger Agreement further required Valero to nominate and recommend each of the UDS Board Designees for reelection to Valero's Board of Directors at the May 9, 2002 Annual Meeting of Stockholders, with at least one UDS Board Designee serving in each of the three classes of directors and with no more than two UDS Board Designees serving in the same class of directors. Accordingly pursuant to the recommendation of the Nominating Committee, made at its meeting on October 10, 2001, the Board of Directors at its meeting on October 18, 2001, expanded the size of Valero's Board of Directors and appointed the UDS Board Designees to Valero's Board of Directors, effective upon the consummation of the merger on December 31, 2001. The UDS Board Designees are Messrs. E. Glenn Biggs, W. E. "Bill" Bradford, W. H. Clark and Bob Marbut. As per the proposals on the reverse side; "Proposal No. 1 Election of Directors," the Nominating Committee and the Board have also nominated and recommended to the Stockholders that each UDS Board Designee be reelected to Valero's Board of Directors. The class assignments for the UDS Board Designees and Valero's other Board members are shown on the reverse side under Proposal No. 1.
