**Item 2.05. Costs Associated with Exit or Disposal Activities.**

At a meeting of the Company's board of directors on September 14, 2004, the board adopted and approved a plan to explore the divestiture of the Company's luxury wine assets and investments and pursue the sale of other assets identified as non-strategic. The Company has announced that as part of this restructuring, it expects to incur up to \$200 million in pre-tax charges to be detailed when the Company reports its first quarter earnings. At this time, the Company is unable in good faith to make a determination of the categories of costs associated with the restructuring or an estimate of the amount or the range of amounts expected to be incurred in connection with any of such categories or the amount or the range of amounts that will result in future cash expenditures. The Company will file an amended report on Form 8-K within four business days after it makes a determination of such categories and estimates or range of estimates. The Company expects to be able to complete these restructuring activities within twelve months.
