Item 2.02 Results of Operations and Financial Condition

On October 13, 2004, Accenture issued a press release, announcing financial results for the fourth quarter and full fiscal year ended Aug. 31, 2004.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

In the attached press release, Accenture presents core earnings using Standard & Poor's Core Earnings methodology. Management believes this information is useful to investors because the core earnings calculations provide investors with greater visibility of the earnings related to primary business operations.

Accenture also discloses in the attached press release free cash flow, defined as operating cash flow net of property and equipment additions. Management believes that by providing more visibility on free cash flow and reconciling to operating cash flow, Accenture provides another consistent metric from which the quality of its business may be monitored.
