U.S. SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-K
ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 30, 2006
Commission file number 1-7685
AVERY DENNISON CORPORATION
(Exact name of registrant as specified in its charter)

Delaware <i>(State of incorporation)</i>	95-1492269 <i>(I.R.S. Employer Identification No.)</i>
150 North Orange Grove Boulevard Pasadena, California <i>(Address of principal executive offices)</i>	91103 <i>(Zip Code)</i>

Registrant's telephone number, including area code:
(626) 304-2000

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of each exchange on which registered
Common stock, \$1 par value	New York Stock Exchange
Preferred Share Purchase Rights	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

Not applicable.

Indicate by a check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by a check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the act). Yes No

The aggregate market value of voting stock held by non-affiliates as of June 30, 2006, was approximately \$5,798,821,404.

Number of shares of common stock, \$1 par value, outstanding as of January 26, 2007: 106,549,314.

The following documents are incorporated by reference into the Parts of this report below indicated:

PART I

Item 1. BUSINESS

Avery Dennison Corporation (Avery Dennison, the Company, Registrant, Issuer, which may be referred to as or us) was incorporated in 1977 in the state of Delaware as Avery International Corporation, the successor corporation to a California corporation of the same name, which was incorporated in 1946. In 1990, the Company merged one of its subsidiaries into Dennison Manufacturing Company (Dennison), as a result of which Dennison became a wholly-owned subsidiary of the Company, and in connection with which Company s name was changed to Avery Dennison Corporation. *Our homepage on the internet is www.averydennison.com and you can learn more about us by visiting our Web site. Our Web site address provided in this annual report on Form 10-K is not intended to function as a hyperlink and the information on our Web site is not and should not be considered part of this report and is not incorporated by reference in this document.*

Our businesses include the production of pressure-sensitive materials, office products and a variety of tickets, tags, labels and other converted products. Some pressure-sensitive materials are converted into labels and other products through embossing, printing, stamping and die-cutting, and some are sold in unconverted form as base materials, tapes and reflective sheeting. We also manufacture and sell a variety of office products and other converted products and other items not involving pressure-sensitive components, such as binders, organizing systems, markers, fasteners, business forms, as well as tickets, tags, and imprinting equipment for retail and apparel manufacturers.

A pressure-sensitive, or self-adhesive, material is one that adheres to a surface by press-on contact. It generally consists of four elements: a face material, which may be paper, metal foil, plastic film or fabric; an adhesive, which may be permanent or removable; a release coating; and a backing material to protect the adhesive against premature contact with other surfaces, and which can also serve as the carrier for supporting and dispensing individual labels. When the products are to be used, the release coating and protective backing are removed, exposing the adhesive, and the label or other face material is pressed or rolled into place.

Self-adhesive materials may initially cost more than materials using heat or moisture activated adhesives, but the use of self-adhesive materials often provides cost savings because of their easy and instant application, without the need for adhesive activation. They also provide consistent and versatile adhesion, with minimal adhesive deterioration and are available in a large selection of materials in nearly any size, shape and color.

Our reporting segments are:

Pressure-sensitive Materials

Office and Consumer Products

Retail Information Services

In addition to our reporting segments, we have other specialty converting businesses comprised of several businesses that produce specialty tapes and highly engineered labels including radio frequency identification (RFID) inlays and labels, and other converted products.

Although our segment structure remained the same as reported in the prior year, in 2006, we transferred our business media division from the Retail Information Services segment into other specialty converting businesses to align with a change in our internal reporting structure. Prior year amounts included herein have been reclassified to conform to the current year presentation.

In 2006, the Pressure-sensitive Materials segment contributed approximately 58% of our total sales, while the Office and Consumer Products and the Retail Information Services segments contribute approximately 19% and 12%, respectively, of our total sales.

In 2006, international operations constituted a significant portion of our business and represented approximately 55% of our sales. We expanded our operations, focusing particularly on Asia, Latin America

Table of Contents

and Eastern Europe. As of December 30, 2006, we operated approximately 120 manufacturing and distribution facilities located in over 40 countries, and employed approximately 22,700 persons worldwide.

We are subject to certain risks referred to in Item 1A, *Risk Factors* and Item 3, *Legal Proceedings* below, including those normally attending international and domestic operations, such as changes in economic or political conditions, currency fluctuations, exchange control regulations and the effect of international relations and domestic affairs of foreign countries on the conduct of business, legal proceedings, and the availability and pricing of raw materials.

Except as set forth below, no single customer represented 10% or more of our net sales or trade receivables at year end 2006 and 2005. However, our ten largest customers at year end 2006 represented approximately 18% of trade accounts receivable and consisted of six customers of our Office and Consumer Products segment, three customers of our Pressure-sensitive Materials segment and one customer of both these segments. The financial position and operations of these customers are monitored on an ongoing basis (see *Critical Accounting Policies and Estimates* of Item 7, *Management's Discussion and Analysis of Results of Operations and Financial Condition*). United States export sales are not a significant part of our business. Backlogs are not considered material in the industries in which we compete.

Corporate Governance and Information Related to SEC Filings

Our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed with, or furnished to, the Securities and Exchange Commission (*SEC*) pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge by way of a third-party hyperlink service through our Web site, www.averydennison.com (in the *Investors* section), as soon as reasonably practical after electronic filing with or furnishing of such material to the SEC. We make available at the Web site our (i) Corporate Governance Guidelines, (ii) Code of Ethics and Business Conduct, which applies to our directors and employees, (iii) Code of Ethics for the Chief Executive Officer and Senior Financial Officers, (iv) the charters of the Audit, Compensation and Executive Personnel, and Nominating and Governance Committees of our Board of Directors, and (v) Audit Committee Complaint Handling Procedures. These materials are also available free of charge in print to stockholders who request them by writing to: Secretary, Avery Dennison Corporation, 150 North Orange Grove Boulevard, Pasadena, California 91103.

On December 1, 2005, Kent Kresa was elected non-executive Chairman. Mr. Kresa presides at executive sessions of the Board. During 2006, the Board held six executive sessions with non-management directors only during regularly scheduled Board meetings, as well as one additional executive session with independent directors only. Stockholders and other interested parties may write to Mr. Kresa concerning matters other than accounting and auditing matters c/o Secretary, Avery Dennison Corporation, 150 North Orange Grove Boulevard, Pasadena, California 91103. Stockholders may also write to John T. Cardis, Chairman of the Audit Committee, regarding accounting and auditing matters c/o Secretary at the same address.

Pressure-sensitive Materials Segment

The Pressure-sensitive Materials segment manufactures and sells Fasson-, JAC-, and Avery Dennison-brand pressure-sensitive materials, Avery-brand graphics and graphic films, Avery Dennison-brand reflective products, and performance polymers. The business of this segment is generally not seasonal, except for certain outdoor graphics and highway safety products and operations in Western Europe. Pressure-sensitive materials consist primarily of papers, plastic films, metal foils and fabrics, which are coated with Company-developed and purchased adhesives, and then laminated with specially coated backing papers and films. They are sold in roll or sheet form with either solid or patterned adhesive coatings, and are available in a wide range of face materials, sizes, thicknesses and adhesive properties. These materials are sold to label printers and converters for labeling, decorating, fastening, electronic data processing and special applications on a worldwide basis.

Graphic products consist of a variety of films and other products sold to the architectural, commercial sign, digital printing, and other related markets. We also sell durable cast and reflective films to the construction, automotive, and fleet transportation markets, scrim-reinforced vinyl material for banner sign

Table of Contents

applications, and reflective films for traffic and safety applications. Our graphic and reflective businesses are organized on a worldwide basis to serve the expanding commercial graphic arts market, including wide-format digital printing applications. We also manufacture and sell proprietary films that are used for outdoor, weather-resistant applications.

Performance polymer products include a range of solvent- and emulsion-based acrylic polymer adhesives, protective coatings and other polymer additives for internal use, as well as for sale to other companies.

In this segment, our larger competitors are Raflatac, a subsidiary of UPM-Kymmene; Morgan Adhesives (MACtac), a division of the Bemis Company; and 3M Company (for graphic and reflective products). Entry of competitors into the field of pressure-sensitive adhesives and materials may be limited by capital requirements and a need for technical knowledge. We believe that our relative size and scale of operations, our ability to serve our customers with a broad line of quality products and service programs, our distribution and brand strength, and the development and commercialization of new products are among the more significant factors in developing and maintaining our competitive position.

Office and Consumer Products Segment

The Office and Consumer Products segment manufactures and sells a wide range of Avery-brand printable media and other products. The business of this segment is seasonal, with higher volume related to the back-to-school season.

This segment's products are generally sold through office products superstores, mass market distributors, wholesalers and dealers. We manufacture and sell a wide range of Avery-brand products for office, school and home uses: printable media, such as copier, ink-jet and laser printer labels, related computer software, ink-jet and laser printer card and index products; and organization, filing and presentation products, such as binders, dividers and sheet protectors. We also offer a wide range of other stationery products, including writing instruments, markers, adhesives and specialty products under brand names such as Avery, Marks-A-Lot and HI-LITER. The extent of product offerings varies by geographic market.

In this segment, our larger competitors are Acco Brands Corporation, Esselte Corporation and manufacturers of private brands. We believe that our brand strength, a large installed base of software that facilitates the use of many of our products, our ability to serve our customers with a broad line of quality products, and the development and commercialization of new products are among the more significant factors in developing and maintaining our competitive position.

Retail Information Services Segment

The Retail Information Services segment designs, manufactures and sells a wide variety of price marking and brand identification products for retailers, apparel manufacturers, distributors and industrial customers on a worldwide basis. This business is seasonal, with higher volume in advance of the back-to-school and holiday shipping periods.

Our brand identification products include woven and printed labels, graphic tags and barcode tags. Our information management products include price tickets, carton labels, RFID tags and printing applications for supply chain and security management. Our solution enabling products include barcode printers, molded plastic fastening and application devices and security management products.

In this segment, our largest competitor is Paxar Corporation. We believe that our ability to serve our customers with product innovation, a comprehensive brand identification and information management product line, our global distribution network, service, quality, and geographic reach are the key advantages in developing and maintaining our competitive position.

Other specialty converting businesses

Other specialty converting businesses include our specialty tape, industrial, performance films and automotive products, business media, RFID and security printing businesses. These businesses manufacture

Table of Contents

and sell specialty tapes, highly engineered films, RFID inlays, pressure-sensitive postage stamps and other converted products. These businesses are generally not seasonal, except for certain automotive products due to typical summer plant shutdowns by automotive manufacturers.

The specialty tape business manufactures and sells single- and double-coated tapes and adhesive transfer tapes for use in non-mechanical fastening, bonding and sealing systems in various industries, which are sold to industrial and medical original equipment manufacturers, converters, and disposable diaper producers worldwide. These products are sold in roll form and are available in a wide range of face materials, sizes, thicknesses and adhesive properties.

Our industrial and automotive products businesses primarily consist of custom pressure-sensitive and heat-seal labels for the automotive and durable goods industries. These products are sold primarily to original equipment manufacturers.

Our performance films business produces a variety of decorative and functional films, primarily for the automotive industry, that are designed for injection mold applications.

Our business media business designs and markets customized products for printing and information workflow applications.

Our RFID business manufactures RFID inlays and labels and makes use of our existing distribution by marketing to our label converting customers.

Our security printing business manufactures and sells self-adhesive battery labels to a battery manufacturer, and self-adhesive stamps to the U.S. Postal Service.

In addition, we sell specialty print-receptive films to the industrial label market, metallic dispersion products to the packaging industry, and proprietary wood grain and other patterns of film laminates for housing exteriors and interior and exterior automotive applications.

We compete with a number of diverse businesses. Our largest competitor for this group of businesses is 3M Company in the specialty tape business. Entry of competitors into these specialty converting businesses may be limited by capital and technical requirements. We believe that our ability to serve our customers with quality, cost effective products and the development and commercialization of new products are among the more significant factors in developing and maintaining our competitive position.

Research and Development

Many of our current products are the result of our research and development efforts. Our expenses for research, design and testing of new products and applications by our operating units and the Avery Research Center (the

Research Center) located in Pasadena, California were \$87.9 million in 2006, \$85.4 million in 2005, and \$81.8 million in 2004. A significant number of our research and development activities are conducted at the Research Center, which supports each of our operating segments.

Our operating units' research efforts are directed primarily toward developing new products and operating techniques and improving product performance, often in close association with customers. The Research Center supports our operating units' patent and product development work, and focuses on improving adhesives, materials and coating processes, as well as related product applications and ventures. These efforts often focus on projects relating to printing and coating technologies and adhesive, release and ink chemistries.

The loss of individual patents or licenses would not be material to us taken as a whole, nor to our operating segments individually. Our principal trademarks are Avery, Fasson, Avery Dennison and the Company's symbol. These trademarks are significant in the markets in which our products compete.

Three-Year Summary of Segment Information

Certain financial information on our reporting segments and other specialty converting businesses for the three years ended December 30, 2006, which appear in Note 12, Segment Information, in the Notes to

Table of Contents

Consolidated Financial Statements beginning on page 65 of our 2006 Annual Report to Shareholders, are incorporated herein by reference.

Other Matters

We use various raw materials, primarily paper, plastic films and resins, and specialty chemicals, which we purchase from a variety of commercial and industrial sources and which are subject to price fluctuations. Although from time to time shortages could occur, these raw materials currently are generally available.

We produce a majority of our self-adhesive materials using water-based emulsion and hot-melt adhesive technologies. Emissions from these operations contain small amounts of volatile organic compounds, which can be regulated by agencies of federal, state, local and foreign governments. We continue to evaluate the use of alternative materials and technologies to minimize these emissions.

A portion of our manufacturing process for self-adhesive materials utilizes certain organic solvents which, unless controlled, would be emitted into the atmosphere. Emissions of these substances are regulated by agencies of federal, state, local and foreign governments. In connection with the maintenance and acquisition of certain manufacturing equipment, we invest in solvent capture and control units to assist in regulating these emissions.

We have developed adhesives and adhesive processing systems that minimize the use of solvents. Emulsion adhesives, hot-melt adhesives or solventless silicone systems have been installed in our facilities in Peachtree City, Georgia; Fort Wayne and Greenfield, Indiana; and Quakertown, Pennsylvania; as well as in other plants in the United States, Argentina, Australia, Belgium, Brazil, Canada, China, Colombia, France, Germany, India, Korea, Luxembourg, Malaysia, Mexico, the Netherlands, South Africa, Thailand and United Kingdom.

Based on current information, we do not believe that the costs of complying with applicable laws regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, will have a material effect upon our capital expenditures, consolidated financial position or results of operations.

For information regarding our potential responsibility for cleanup costs at certain hazardous waste sites, see Legal Proceedings (Part I, Item 3) and Management's Discussion and Analysis of Results of Operations and Financial Condition (Part II, Item 7).

Item 1A. RISK FACTORS

Our ability to attain our goals and objectives is materially dependent on numerous factors and risks, including but not limited to, the following:

The demand for our products is impacted by economic conditions of the principal countries in which we operate. A decline in the economies in these countries could have an adverse effect on our sales and profitability.

We have operations in over 40 countries and our domestic and international operations are strongly influenced by matters beyond our control, including changes in the political, social, economic, tax and regulatory environments (including tariffs) in the countries in which we operate, as well as the impact of economic conditions on underlying demand for our products. In addition, approximately 55% of our sales are in foreign currencies, which fluctuate in relation to one another and to the United States dollar. Fluctuations in currencies can cause transaction, translation and other losses to us, which can negatively impact our sales and profitability.

Table of Contents

We operate in some highly competitive markets. If we do not compete effectively, we could lose market share and experience falling prices, adversely affecting our financial results.

We are at risk that our competitors will expand in our key markets and implement new technologies making them more competitive. There is also the possibility that competitors will be able to offer additional products, services, lower prices, or other incentives that we cannot or will not offer or that will make our products less profitable. There can be no assurance that we will be able to compete successfully against current and future competitors.

We are also at risk with regards to changes in customer order patterns, such as changes in the levels of inventory maintained by customers and the timing of customer purchases, which may be affected by announced price changes, changes in the Company's incentive programs, or the customer's ability to achieve incentive goals. Changes in customers' preferences for our products can also affect the demand for our products.

As a manufacturer, our sales and profitability are also dependent upon the cost and availability of raw materials and energy, which are subject to price fluctuations, and the ability to control or pass on costs of raw materials and labor.

Inflationary and other increases in the costs of raw materials, labor and energy have occurred in the past and are expected to recur, and our performance depends in part on our ability to pass on to customers changes in costs in our selling prices for products and on improvements in productivity. Also, it is important that we are able to obtain timely delivery of materials, equipment, and packaging from suppliers. A disruption to our supply chain could adversely affect our sales and profitability.

Potential adverse developments in legal proceedings and investigations regarding competitive activities and other legal, compliance and regulatory matters, including those involving product liability, product and trade compliance, Foreign Corrupt Practices Act issues and other matters, could impact us materially.

Our financial results could be materially adversely impacted by an unfavorable outcome to pending or future litigation and investigations, including, without limitation, any relating to the Canadian Department of Justice and Australian Competition and Consumer Commission investigations, into industry competitive practices and any related proceedings or lawsuits pertaining to these investigations or to the subject matter thereof (including purported class actions in the United States seeking treble damages for alleged unlawful competitive practices, and a purported class action related to alleged disclosure and fiduciary duty violations pertaining to alleged unlawful competitive practices, which were filed after the announcement of the recently closed U.S. Department of Justice investigation). See Item 3,

Legal Proceedings. There can be no assurance that any investigation or litigation outcome will be favorable.

Our future results may be affected if we generate less productivity improvement than projected.

We are undergoing efforts to reduce costs in many of our operations, including closure of facilities, headcount reductions, organizational simplification, process standardization, and using a variety of tools such as Lean Sigma and Kaizen events, to accomplish this productivity, which is not assured. Lower levels of productivity could result in lower production, sales, and profitability. Cost reduction actions, in turn, could expose us to additional production risk.

Slower growth in key markets could adversely affect our profitability.

Our business could be negatively impacted by a decline in key end use markets or applications for our products. Our overall performance will be influenced by these markets.

Our customers are widely diversified, but in certain portions of our business, industry concentration has increased the importance and decreased the number of significant customers.

In particular, sales of our office and consumer products in the United States are concentrated in a few major customers, principally office product superstores, mass market distributors and wholesalers. The

Table of Contents

business risk associated with this concentration, including increased credit risks for these and other customers, and the possibility of related bad debt write-offs, could negatively affect our margins and profits.

Our ability to develop and successfully market new products and applications is important in maintaining growth.

The timely introduction of new products and improvements in current products helps determine our success. Research and development for each of our operating segments is complex and uncertain and requires innovation and anticipation of market trends. We could focus on products that ultimately are not accepted by customers.

Infringing intellectual property rights of third parties or inadequately acquiring or protecting our intellectual property and patents could harm our ability to grow.

Because our products involve complex technology and chemistry, we are sometimes involved in litigation involving patents and other intellectual property. Parties have filed, and in the future may file, claims against us alleging that we have infringed their intellectual property rights. We could be held to be liable to pay damages or obtain licenses. There can be no assurance that licenses will be available, or will be available on commercially reasonable terms, and the cost to defend these infringement claims and to develop new technology could be significant.

We also could have our intellectual property infringed. We attempt to protect and restrict access to our intellectual property and proprietary information, but it may be possible for a third party to obtain our information and develop similar technologies. In addition, many of the countries in which we operate have limited or no protection for intellectual property rights. The costs involved to protect our intellectual property rights could adversely impact our profitability.

The amount of income taxes we pay is subject to ongoing audits by federal, state and foreign tax authorities.

Our estimate of the potential outcome of uncertain tax issues is subject to our assessment of relevant risks, facts, and circumstances existing at that time. We use these assessments to determine the adequacy of our provision for income taxes. Our future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate and our financial results.

We have deferred tax assets that we may not be able to use under certain circumstances.

If we are unable to generate sufficient future taxable income in certain jurisdictions, or if there is a significant change in the time period within which the underlying temporary differences become taxable or deductible, we could be required to increase our valuation allowances against our deferred tax assets. This would result in an increase in our effective tax rate, and an adverse effect on our future operating results. In addition, changes in statutory tax rates may also change our deferred tax assets or liability balances, with either favorable or unfavorable impact on our effective tax rate. Our deferred tax assets may also be impacted by new legislation or regulation.

The level of returns on pension and postretirement plan assets and the actuarial assumptions used for valuation purposes could affect our earnings in future periods.

Assumptions used in determining projected benefit obligations and the fair value of plan assets for our pension plan and other postretirement benefit plans are evaluated by us in consultation with outside actuaries. Funding obligations are determined under the Employee Retirement Income Security Act and are measured each year based on the value of assets and liabilities on a specific date. In the event that we determine that changes are warranted in the assumptions used, such as the discount rate, expected long term rate of return, or health care costs, our future pension and projected postretirement benefit expenses could increase or decrease. Due to changing market conditions or changes in the participant population, the actuarial assumptions that we use may differ from actual results, which could have a significant impact on our pension and postretirement

Table of Contents

liability and related costs. Future pension funding requirements, and the timing of funding payments, could be affected by legislation enacted in the U.S. Congress.

We have acquired companies and our interest in various acquisition opportunities has increased. Acquisitions come with significant risks and uncertainties, including integration, technology and personnel.

In order to grow our product lines and expand into new markets, we have made acquisitions and may do so in the future. Many risks, uncertainties, and costs are associated with the acquisitions. The integration of systems, objectives, personnel, product lines, markets, customers, suppliers, and cost savings can be difficult to achieve and the results are uncertain. There can be no assurance that acquisitions will be successful and contribute to our profitability.

In order for us to remain competitive, it is important to recruit and retain highly-skilled employees.

There is significant competition to recruit and retain skilled employees. Due to rapid expansion in certain markets and the ongoing productivity efforts and recent employee reductions, it may be difficult for us to retain and recruit sufficient numbers of highly-skilled employees.

We need to comply with many environmental, health, and safety laws.

Due to the nature of our business, we are subject to environmental, health, and safety laws and regulations, including those related to the disposal of hazardous waste from our manufacturing processes. Compliance with existing and future environmental, health and safety laws could subject us to future costs or liabilities; impact our production capabilities; constrict our ability to sell, expand or acquire facilities; and generally impact our financial performance. We have accrued liabilities for environmental clean-up sites, including sites for which governmental agencies have designated us as a potentially responsible party, where it is probable that a loss will be incurred and the cost or amount of loss can be reasonably estimated. However, because of the uncertainties associated with environmental assessment and remediation activities, future expense to remediate currently identified sites and other sites, which could be identified in the future for cleanup, could be higher than the liability currently accrued.

In order to mitigate risk, it is important that we obtain various types of insurance.

We have various types of insurance including health, life, and property. Insurance costs can be unpredictable and may adversely impact our financial results.

Significant disruption to our information technology infrastructure could adversely impact our operations, sales, customer relations, and financial results.

We rely on the efficient and uninterrupted operation of a large and complex information technology infrastructure to link our worldwide divisions. Like other information technology systems, ours is susceptible to damage or interruptions caused by natural disasters, power failures, viruses and security breaches. We upgrade and install new systems, which if installed or programmed incorrectly, could cause significant disruptions. We have implemented various measures to manage our risk related to system and network disruptions, but if a disruption occurs, we could incur losses and costs for remediation and interruption of operations.

Our share price may be volatile.

Our stock price is influenced by changes in the overall stock market and demand for equity securities in general. Other factors, including market expectations for our performance, the level of perceived growth of our industries, announcements concerning industry investigations have also impacted our share price. There can be no assurance that our stock price will not be less volatile in the future.

If our credit ratings are downgraded, we may have difficulty obtaining acceptable short- and long-term financing from capital markets.

Credit ratings are a significant factor in our ability to raise short-term and long-term financing. The credit ratings assigned to us also impact the interest rates on our commercial paper and other borrowings. Standard

Table of Contents

and Poor's (S&P) has assigned us a credit rating of A-2 for short-term and A- for long-term financing. S&P has given us a negative outlook. Moody's Investors Service (Moody's) has assigned us a credit rating of P2 for short-term and A3 for long-term financing. Moody's has given us a stable outlook. If our credit ratings were to be downgraded, our financial flexibility would decrease and the cost to borrow would increase.

Our reputation, sales, and earnings could be affected adversely if the quality of our products and services does not meet customer expectations.

There are occasions when we ship products with quality issues resulting from defective materials, manufacturing, packaging or design. Many of these issues are discovered before shipping but this causes delays in shipping, delays in the manufacturing process, and occasionally cancelled orders. When the issues are discovered after shipment, this causes additional shipping costs, possible discounts, possible refunds, and potential loss of future sales. Both pre-shipment and post-shipment quality issues can result in financial consequences along with a negative impact on our reputation.

Some of our products are sold by third parties.

Our products are not only sold by us, but by third party distributors and retailers as well. Some of our distributors also market products that compete with our products. Changes in the financial or business condition or purchasing decisions of these third parties could affect our sales and profitability.

We outsource some of our manufacturing. If there are significant changes in the quality control or financial or business condition of these outsourced manufacturers, our business could be negatively impacted.

We manufacture most of our products, but occasionally third-party manufacturers are needed for specialty jobs or capacity overflow. Outsourced manufacturers reduce our ability to control product failure, late deliveries, customer dissatisfaction and compliance with customer requirements for labor standards. Because of possible quality problems and customer dissatisfaction, outsourced manufacturers could have an adverse effect on our business and financial results.

The risks described above are not exclusive. Additional risks not presently known to us or that we currently consider to be less significant may also have an adverse effect on us. If any of the above risks actually occur, our business, results of operations, cash flows or financial condition could suffer, which might cause the value of our securities to decline.

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. PROPERTIES

As of December 30, 2006, we operated over thirty principal manufacturing facilities in excess of 100,000 square feet. The following sets forth the locations of such principal facilities and the operating segments for which they are presently used:

Pressure-sensitive Materials Segment

Domestic Peachtree City, Georgia; Fort Wayne, Greenfield and Lowell, Indiana; Fairport Harbor, Hamilton, Mentor and Painesville, Ohio; Quakertown, Pennsylvania; and Neenah, Wisconsin

Foreign Adelaide and Melbourne, Australia; Vinhedo, Brazil; Kunshan, China; Champ-sur-Drac, France; Gotha and Schwelm, Germany; Chungju, Korea; Rodange, Luxembourg; Queretaro, Mexico; Rayong, Thailand; Hazerswoude, the Netherlands; and Cramlington, United Kingdom

Table of Contents

Office and Consumer Products Segment

Domestic Chicopee, Massachusetts; and Meridian, Mississippi

Foreign Oberlaidern, Germany; and Juarez and Tijuana, Mexico

Retail Information Services Segment

Domestic Greensboro, North Carolina

Foreign Hong Kong and Nansha, China

Other specialty converting businesses

Domestic Schererville, Indiana; Painesville, Ohio; and Clinton, South Carolina

Foreign Turnhout, Belgium

In addition to our principal manufacturing facilities described above, our other principal facilities include our corporate headquarters facility and research center in Pasadena, California, and offices located in Brea and Westlake Village, California; Framingham, Massachusetts; Mentor, Ohio; Hong Kong and Kunshan, China; Leiden, the Netherlands; and Zug, Switzerland.

All of our principal properties identified above are owned except certain facilities in Brea and Westlake Village, California; Hong Kong, China; Oberlaidern, Germany; Juarez, Mexico; Greensboro, North Carolina; Hamilton and Mentor, Ohio; and Zug, Switzerland, which are leased.

All buildings owned or leased are considered suitable and generally adequate for our present needs. We expand production capacity and provide facilities as needed to meet increased demand. Owned buildings and plant equipment are insured against major losses from fire and other usual business risks, subject to deductibles. We are not aware of any material defects in title to, or significant encumbrances on, our properties except for certain mortgage liens.

Item 3. LEGAL PROCEEDINGS

The Company has been designated by the U.S. Environmental Protection Agency (EPA) and/or other responsible state agencies as a potentially responsible party (PRP) at fourteen waste disposal or waste recycling sites, which are the subject of separate investigations or proceedings concerning alleged soil and/or groundwater contamination and for which no settlement of the Company s liability has been agreed. The Company is participating with other PRPs at all such sites, and anticipates that its share of cleanup costs will be determined pursuant to remedial agreements entered into in the normal course of negotiations with the EPA or other governmental authorities.

The Company has accrued liabilities for these and certain other sites, including sites in which governmental agencies have designated the Company as a PRP, where it is probable that a loss will be incurred and the cost or amount of loss can be reasonably estimated. However, because of the uncertainties associated with environmental assessment and remediation activities, future expense to remediate the currently identified sites and any sites which could be identified in the future for cleanup could be higher than the liability currently accrued.

During the third quarter of 2006, the Company recognized an additional liability of \$13 million for estimated environmental remediation costs for a former operating facility, for which \$2 million had been accrued in the second quarter of 2006. The amount accrued represents the lower end of the current estimated range of \$15 million to \$17 million for costs expected to be incurred. Management considered additional information provided by outside consultants in revising its previous estimates of expected costs. This estimate could change depending on various factors such as modification of currently planned remedial actions, changes in the site conditions, changes in the estimated time to complete remediation, changes in laws and regulations affecting remediation requirements and other factors.

Table of Contents

Other amounts currently accrued are not significant to the consolidated financial position of the Company and, based upon current information, management believes it is unlikely that the final resolution of these matters will significantly impact the Company's consolidated financial position, results of operations or cash flows.

On October 19, 2006, the U.S. Department of Justice notified the Company that the U.S. Department of Justice had decided to close its criminal investigation (initiated in April 2003) into competitive practices in the label stock industry without further action, as described below.

On November 15, 2006, the Company announced that it had been notified by the European Commission (EC) that the EC had closed its investigation (initiated in May 2004) into the Company's competitive activities in the label stock industry with no action, as described below.

On April 14, 2003, the Company announced that it had been advised that the U.S. Department of Justice was challenging the proposed merger of UPM-Kymmene (UPM) and the Morgan Adhesives (MACTac) division of Bemis Co., Inc. (Bemis) on the basis of its belief that in certain aspects of the label stock industry the competitors have sought to coordinate rather than compete. The Company also announced that it had been notified that the U.S. Department of Justice had initiated a criminal investigation into competitive practices in the label stock industry.

On April 15, 2003, the U.S. Department of Justice filed a complaint in the U.S. District Court for the Northern District of Illinois seeking to enjoin the proposed merger (DOJ Merger Complaint). The DOJ Merger Complaint, which set forth the U.S. Department of Justice's theory of its case, included references not only to the parties to the merger, but also to an unnamed Leading Producer of North American label stock, which is the Company. The DOJ Merger Complaint asserted that UPM and the Leading Producer have already attempted to limit competition between themselves, as reflected in written and oral communications to each other through high level executives regarding explicit anticompetitive understandings, although the extent to which these efforts have succeeded is not entirely clear to the United States at the present time.

In connection with the U.S. Department of Justice's investigation into the proposed merger, the Company produced documents and provided testimony by Messrs. Neal, Scarborough and Simcic (then CEO, President and Group Vice President Roll Materials Worldwide, respectively). On July 25, 2003, the United States District Court for the Northern District of Illinois entered an order enjoining the proposed merger. UPM and Bemis thereafter agreed to terminate the merger agreement. The court's decision incorporated a stipulation by the U.S. Department of Justice that the paper label industry is competitive.

On April 24, 2003, Sentry Business Products, Inc. filed a purported class action in the United States District Court for the Northern District of Illinois against the Company, UPM, Bemis and certain of their subsidiaries seeking treble damages and other relief for alleged unlawful competitive practices, essentially repeating the underlying allegations of the DOJ Merger Complaint. Ten similar complaints were filed in various federal district courts. In November 2003, the cases were transferred to the United States District Court for the Middle District of Pennsylvania and consolidated for pretrial purposes. Plaintiffs filed a consolidated complaint on February 16, 2004, which the Company answered on March 31, 2004. On April 14, 2004, the court separated the proceedings as to class certification and merits discovery, and limited the initial phase of discovery to the issue of the appropriateness of class certification. On January 4, 2006, plaintiffs filed an amended complaint. The Company intends to defend these matters vigorously.

On May 6, 2003, Sekuk Global Enterprises filed a purported stockholder class action in the United States District Court for the Central District of California against the Company and Messrs. Neal, O Bryant and Skovran (then CEO, CFO and Controller, respectively) seeking damages and other relief for alleged disclosure violations pertaining to alleged unlawful competitive practices. Subsequently, another similar action was filed in the same court. On September 24, 2003, the court appointed a lead plaintiff, approved lead and liaison counsel and ordered the two actions consolidated as the In Re Avery Dennison Corporation Securities Litigation. Pursuant to court order and the parties' stipulation, plaintiff filed a consolidated complaint in mid-February 2004. The court approved a briefing schedule for defendants' motion to dismiss the consolidated complaint, with a contemplated hearing date in June 2004. In January 2004, the parties stipulated to stay the

Table of Contents

consolidated action, including the proposed briefing schedule, pending the outcome of the government investigation of alleged anticompetitive conduct by the Company. The court has approved the parties' stipulation to stay the consolidated actions. On January 12, 2007, the plaintiffs filed a notice of voluntary dismissal of the case without prejudice. On January 17, 2007, the Court entered an order dismissing the case.

On May 21, 2003, The Harman Press filed in the Superior Court for the County of Los Angeles, California, a purported class action on behalf of indirect purchasers of label stock against the Company, UPM and UPM's subsidiary Raflatac (Raflatac), seeking treble damages and other relief for alleged unlawful competitive practices, essentially repeating the underlying allegations of the DOJ Merger Complaint. Three similar complaints were filed in various California courts. In November 2003, on petition from the parties, the California Judicial Council ordered the cases be coordinated for pretrial purposes. The cases were assigned to a coordination trial judge in the Superior Court for San Francisco County on March 30, 2004. A further similar complaint was filed in the Superior Court for Maricopa County, Arizona on November 6, 2003. Plaintiffs voluntarily dismissed the Arizona complaint without prejudice on October 4, 2004. On January 21, 2005, American International Distribution Corporation filed a purported class action on behalf of indirect purchasers in the Superior Court for Chittenden County, Vermont. Similar actions were filed by Webtego on February 16, 2005, in the Court of Common Pleas for Cuyahoga County, Ohio; by D.R. Ward Construction Co. on February 17, 2005, in the Superior Court for Maricopa County, Arizona; by Richard Wrobel, on February 16, 2005, in the District Court of Johnson County, Kansas; and by Chad and Terry Muzzey, on February 16, 2005 in the District Court of Scotts Bluff County, Nebraska. On February 17, 2005, Judy Benson filed a purported multi-state class action on behalf of indirect purchasers in the Circuit Court for Cocke County, Tennessee. On October 7, 2005, Webtego voluntarily dismissed its complaint. On February 16, 2007, D.R. Ward voluntarily dismissed its complaint. The Company intends to defend the remaining matters vigorously.

On August 15, 2003, the U.S. Department of Justice issued a subpoena to the Company in connection with its criminal investigation into competitive practices in the label stock industry. The Company produced documents and provided testimony in response to the subpoena.

On May 25, 2004, officials from the EC, assisted by officials from national competition authorities, launched unannounced inspections of and obtained documents from the Company's pressure-sensitive materials facilities in the Netherlands and Germany. The investigation apparently sought evidence of unlawful anticompetitive activities affecting the European paper and forestry products sector, including the label stock market. The Company cooperated with the investigation.

Based on published press reports, certain other European producers of paper and forestry products received similar visits from European authorities. One such producer, UPM, stated that it had decided to disclose to competition authorities any conduct that has not comported with applicable competition laws, and that it had received conditional immunity in the European Union (EU) and Canada with respect to certain conduct it has previously disclosed to them, contingent on full cooperation. In February 2006, UPM announced that the U.S. Department of Justice had agreed not to prosecute UPM in connection with the label stock investigation, and, further, that UPM had received conditional immunity in jurisdictions in addition to the EU and Canada.

On July 9, 2004, the Competition Law Division of the Department of Justice of Canada notified the Company that it was seeking information from the Company in connection with a label stock investigation. The Company is cooperating with the investigation.

On May 18, 2005, Ronald E. Dancer filed a purported class action in the United States District Court for the Central District of California against the Company, Mr. Neal, Karyn Rodriguez (VP and Treasurer) and James Bochinski (then VP, Compensation and Benefits), for alleged breaches of fiduciary duty under the Employee Retirement Income Security Act to the Company's Employee Savings Plan and Plan participants. The plaintiff alleges, among other things, that permitting investment in and retention of Company Common Stock under the Plan was imprudent because of alleged anticompetitive activities by the Company, and that failure to disclose such activities to the Plan and participants was unlawful. Plaintiff seeks an order compelling defendants to compensate the Plan for any losses and other relief. The parties stipulated to transfer the case to

Table of Contents

the judge in the consolidated case, *In Re Avery Dennison Corporation Securities Litigation* referenced above, and the court has approved the parties' stipulation to stay the matter pending the outcome of the government investigation of alleged anticompetitive conduct by the Company. The Company intends to defend this matter vigorously.

On August 18, 2005, the Australian Competition and Consumer Commission notified two of the Company's subsidiaries, Avery Dennison Material Pty Limited and Avery Dennison Australia Pty Ltd, that it was seeking information in connection with a label stock investigation. The Company is cooperating with the investigation.

On October 19, 2006, the U.S. Department of Justice notified the Company that the U.S. Department of Justice decided to close its criminal investigation into competitive practices in the label stock industry without further action.

On November 15, 2006, the Company announced that it had been notified that the EC had closed its investigation into the Company's competitive activities in the label stock industry, with no action.

The Board of Directors has created an ad hoc committee comprised of independent directors to oversee the foregoing matters.

The Company is unable to predict the effect of these matters at this time, although the effect could be adverse and material.

In 2005, the Company contacted relevant authorities in the U.S. and reported on the results of an internal investigation of potential violations of the U.S. Foreign Corrupt Practices Act. The transactions at issue were carried out by a small number of employees of the Company's reflective business in China, and involved, among other things, impermissible payments or attempted impermissible payments. The payments or attempted payments and the contracts associated with them appear to have been relatively minor in amount and of limited duration. Corrective and disciplinary actions have been taken. Sales of the Company's reflective business in China in 2005 were approximately \$7 million. Based on findings to date, no changes to the Company's previously filed financial statements are warranted as a result of these matters. However, the Company expects that fines or other penalties could be incurred. While the Company is unable to predict the financial or operating impact of any such fines or penalties, it believes that its behavior in detecting, investigating, responding to and voluntarily disclosing these matters to authorities should be viewed favorably.

The Company and its subsidiaries are involved in various other lawsuits, claims and inquiries, most of which are routine to the nature of the business. Based upon current information, management believes that the resolution of these other matters will not materially affect the Company's financial position.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

Table of Contents**EXECUTIVE OFFICERS OF AVERY DENNISON⁽¹⁾**

Name	Age	Served as Executive Officer since	Former Positions and Offices with Avery Dennison
Dean A. Scarborough ⁽²⁾ President and Chief Executive Officer (also Director of Avery Dennison)	51	August 1997	2000-2005 President and Chief Operating Officer

Christian A. Simcic Group Vice President,	50	May 2000	1997-2000 V.P. and Managing Director, Asia Pacific

Roll Materials

- (1) All officers are elected to serve a one-year term and until their successors are elected and qualify.
- (2) Mr. Scarborough was elected President and Chief Executive Officer effective May 1, 2005.
- (3) Business experience during past 5 years prior to service with the Company.

Table of Contents**PART II****Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

(a)(b) The information called for by this item appears on page 72 of our 2006 Annual Report to Shareholders and under the Equity Compensation Plan Information table in the 2007 Proxy Statement, and is incorporated herein by reference.

Stockholder Return Performance

The following graphs compare the Company's cumulative stockholder return on its common stock, including the reinvestment of dividends, with the return on the Standard & Poor's 500 Stock Index (the "S&P 500 Index") and the average return, weighted by market capitalization, of the Peer Group for five-year and ten-year periods each ending December 30, 2006. The Company has also included the median return of the Peer Group in the graph as an additional comparison.

The Peer Group is comprised of Air Products & Chemicals Inc., ArvinMeritor Inc., Baker-Hughes Incorporated, Ball Corporation, Bemis Company, Inc., Black & Decker Corporation, Bowater Incorporated, Cabot Corporation, Crane Company, Crown Holdings Inc., Cummins Inc., Dana Corporation, DanaHER Corporation, Dover Corporation, Eaton Corporation, Ecolab Incorporated, Ferro Corporation, FMC Corporation, Fuller (H. B.) Company, Goodrich (B F) Company, Grace (W R) & Company, Harley-Davidson Inc., Harris Corporation, Harsco Corporation, Hercules Incorporated, Illinois Tool Works Incorporated, Ingersoll-Rand Company, MASCO Corporation, MeadWestvaco Corporation, NACCO Industries, Newell Rubbermaid Incorporated, Olin Corporation, PACCAR Inc., Parker-Hannifin Corporation, Pentair Inc., Pitney Bowes Incorporated, PolyOne Corporation, Potlatch Corporation, P.P.G. Industries Incorporated, Sequa Corporation, The Sherwin-Williams Company, Smurfit-Stone Container Corporation, Snap-On Incorporated, Sonoco Products Company, Stanley Works, Tecumseh Products Company, Temple-Inland Inc., Thermo Electron Corporation, Thomas & Betts Corporation, and Timken Company.

During 2006, Engelhard Corporation was acquired by BASF Corporation, and Maytag Corporation was acquired by Whirlpool Corporation. Therefore, they are no longer public companies and they were deleted. Temple-Inland and Potlatch were added to the Peer Group, and have been included for all periods.

The above Stockholder Return Performance graphs in this Item 5 are not deemed to be soliciting material or to be filed with the SEC or subject to Regulation 14A or 14C under the Securities Exchange Act of 1934 (Exchange Act), other than as provided in Item 201 to Regulation S-K under the Exchange Act, or subject to the liabilities of Section 18 of the Exchange Act, and will not be deemed incorporated by reference into any filing under the Securities Act of 1993 or the Exchange Act, except to the extent the Company specifically incorporates it by reference into such a filing.

(c) Purchases of Equity Securities by Issuer

On October 26, 2006, the Board of Directors authorized the repurchase of an additional 5 million shares of the Company's outstanding common stock. This authorization increased the total shares authorized for repurchase to approximately 7.4 million. Repurchased shares may be reissued under the Company's stock option and incentive plans or used for other corporate purposes. Included in the total shares repurchased were 136,665 shares that were delivered (actually or constructively) to the Company by participants exercising stock options during the fourth quarter of 2006 under the Company's stock option plans in payment of the option exercise price and/or to satisfy withholding tax obligations.

The following table sets forth the monthly repurchases of our common stock:

<i>(Shares in thousands, except per share amounts)</i>		Total shares repurchased	Average price per share	Remaining authorization to repurchase shares
Fourth Quarter				
October 1, 2006	October 28, 2006	52.2	\$ 34.94	7,451.9
October 29, 2006	November 25, 2006	1,370.4	63.88	6,161.5

Quarterly Total		2,667.6	\$ 65.16	4,921.0

Item 6. SELECTED FINANCIAL DATA

Selected financial data for each of the Company's last five fiscal years appears on page 18 of our 2006 Annual Report to Shareholders and is incorporated herein by reference.

16

Table of Contents**Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

Management's Discussion and Analysis provides a narrative concerning our financial performance and condition that should be read in conjunction with the accompanying financial statements. It includes the following sections:

Definition of Terms	17
Overview and Outlook	18
Analysis of Results of Operations	23
Results of Operations by Segment	26
Financial Condition	29
Uses and Limitations of Non-GAAP Measures	37
Related Party Transactions	37
Critical Accounting Policies and Estimates	38
Recent Accounting Requirements	42
Safe Harbor Statement	42

DEFINITION OF TERMS

Our discussion of financial results includes several non-GAAP measures to provide additional information concerning Avery Dennison Corporation's (the Company's) performance. These non-GAAP financial measures are not in accordance with, nor are they a substitute for, GAAP financial measures. These non-GAAP financial measures are intended to supplement the presentation of our financial results that are prepared in accordance with GAAP. (Refer to Uses and Limitations of Non-GAAP Measures.)

We use the following terms:

Organic sales growth refers to the change in sales excluding the estimated impact of currency translation, acquisitions and divestitures;

Core unit volume refers to a measure of sales performance that excludes the estimated impact of currency translation, acquisitions and divestitures, as well as changes in product mix and pricing;

Segment operating income refers to income before interest and taxes;

Free cash flow refers to cash flow from operations, less payments for capital expenditures, software and other deferred charges; and

Working capital from continuing operations refers to working capital excluding short-term debt, current assets and current liabilities of held-for-sale businesses.

While our segment structure remained the same as reported in the prior year, in 2006, we transferred our business media division from the Retail Information Services segment into other specialty converting businesses, to align with a change in our internal reporting structure. Prior year amounts included herein have been reclassified to conform to the current year presentation.

As a result of the sale of our raised reflective pavement marker business during 2006 (discussed below in Acquisitions and Divestitures), the discussions which follow generally reflect summary results from our continuing operations unless otherwise noted. However, the net income and net income per share discussions include the impact of discontinued operations.

Table of Contents**OVERVIEW AND OUTLOOK****Overview***Sales*

Our sales from continuing operations increased 2% in 2006 compared to growth of 3% in 2005, reflecting the factors summarized in the following table.

	2006	2005	2004
Estimated change in sales due to:			
Core unit volume	2%	(1)%	8%
Pricing & product mix	1	2	(1)
Organic sales growth	3%	1%	7%
Foreign currency translation		2	5
Divestitures, net of acquisitions	(1)		
Reported sales growth	2%	3%	12%

Organic sales growth in 2006 reflected increases in most of our businesses outside of the U.S., particularly in the emerging markets of Asia, Eastern Europe and Latin America.

In the U.S., sales were approximately even with the prior year. In our North American roll materials business, reduced market share during the first quarter of 2006 (reflecting share loss related to price increases implemented in 2005 and early 2006, to offset higher raw material costs), as well as generally slow market conditions, were offset by some share gain during the second half of 2006. The benefit from growth of Avery-brand products and a strong back-to-school season in our Office and Consumer Products segment in the U.S. was offset by the loss of sales from exiting certain low-margin private label business in that segment.

Organic sales growth in 2005 reflected favorable changes in pricing and product mix, primarily due to the impact of selling price increases implemented to offset higher raw material costs. This benefit was partially offset by a decrease in core unit volume in 2005, reflecting the following factors:

Loss of market share in our North American roll materials business following our implementation of selling price increases during 2005 to offset higher raw material costs

The impact of an extra week in the 2004 fiscal year

Accelerated purchases by Office and Consumer Products customers in advance of our 2005 selling price increases, which shifted sales into the fourth quarter of 2004.

Net Income

Net income increased \$141 million in 2006 compared to 2005.

Positive factors affecting the change in net income included:

Higher sales

Reduced restructuring and asset impairment charges in 2006 compared to 2005 (which included asset impairment charges related to discontinued operations)

Cost savings from productivity improvement initiatives across all segments and corporate, including restructuring actions taken in 2006 and late 2005

Tax benefit and gain on divestiture of a business

Benefit of a lower effective tax rate on continuing operations

18

Table of Contents

Negative factors affecting the change in net income included:

Stock-based compensation and other employee-related costs

Transition costs associated with 2006 restructuring actions

Increased investment in information technology and marketing

Accrual for environmental remediation costs

Summary Results by Segment

	Net Sales		Operating Income	
	2006	2005	2006	2005
<i>(In millions)</i>				
Pressure-sensitive Materials	\$ 3,236.3	\$ 3,114.5	\$ 301.2	\$ 258.1
Office and Consumer Products	1,072.0	1,136.1	179.0	168.0
Retail Information Services	667.7	630.4	45.0	37.7
Other specialty converting businesses	599.9	592.5	17.2	14.1
Corporate expense			(61.3)	(53.2)
Interest expense			(55.5)	(57.9)
Total from continuing operations	\$ 5,575.9	\$ 5,473.5	\$ 425.6	\$ 366.8

Pressure-sensitive Materials (58% of net sales)

Our Pressure-sensitive Materials segment reported a 4% increase in sales in 2006 compared to 2005. Organic sales growth was approximately 3%, reflecting growth in our roll materials and graphics and reflective businesses in Asia, Europe and Latin America.

Operating income for this segment increased 17% in 2006, reflecting higher sales and cost savings from restructuring and productivity improvement initiatives. Operating income for this segment included restructuring costs and asset impairments in both 2006 and 2005 and transition costs in 2006.

Office and Consumer Products (19% of net sales)

Our Office and Consumer Products segment reported a 6% decrease in sales in 2006 compared to 2005. On an organic basis, sales declined approximately 1%, reflecting the loss of sales from exiting certain low-margin private label business and decreased volume in Europe. These declines were partially offset by growth in North America for Avery-brand products, a strong back-to-school season, and accelerated purchases by customers in advance of our 2007 selling price increases for certain product lines.

Operating income for this segment increased 7% in 2006, including the benefit from cost savings from productivity improvement and restructuring initiatives. Operating income for this segment included restructuring costs, asset impairments and transition costs in both 2006 and 2005.

Retail Information Services (12% of net sales)

The Retail Information Services segment reported a 6% increase in sales in 2006 compared to 2005. Organic sales growth was approximately 5%, reflecting continued growth of the business in Asia, Latin America and Europe.

Operating income for this segment increased 19% in 2006, reflecting higher sales and cost savings from restructuring and productivity improvement initiatives. Operating income for this segment included restructuring costs, asset impairments and transition costs in 2006 and 2005.

Table of Contents*Other specialty converting businesses (11% of net sales)*

Other specialty converting businesses reported a 1% increase in sales in 2006 compared to 2005. Organic sales growth was approximately 2%, reflecting solid growth in our specialty tape business, partially offset by weakness in other businesses.

Operating income for these businesses increased 22% in 2006, reflecting sales growth and cost savings from restructuring and productivity improvement initiatives. Operating income for these businesses included restructuring costs and asset impairments in both 2006 and 2005.

Organic Sales Growth by Region

We estimate organic sales growth (decline) in major regions of operation as follows:

	2006	2005	2004
U.S.		(3)%	5%
Europe	3%	3%	5%
Asia	13%	13%	26%
Latin America	11%	4%	19%

As discussed above, sales in the U.S. were approximately even with the prior year, due to slow market conditions in our Pressure-sensitive Materials segment, the impact of prior year share loss in our roll materials business, and loss of sales from exiting low-margin private label business in our Office and Consumer Products segment.

Organic growth in Europe reflected strong growth in the east and modest growth in the west.

Growth in our Asian and Latin American businesses was due to continued market expansion.

Cost Reduction Actions

	Accrued Expenses	Headcount Reduction
(Dollars in millions)		
Q4 2005 restructuring	\$ 41.1	700
2006 restructuring	23.5	450
Total Q4 2005-2006 restructuring actions	\$ 64.6	1,150
Q4 2006 charges related to 2007 actions	\$ 5.1	140

During late 2005 and 2006, we implemented cost reduction actions related to restructuring, which have improved our global operating efficiencies and are expected to result in annualized pretax savings of \$90 million to \$100 million. We estimate that approximately \$50 million of these savings (net of transition costs) were achieved in 2006, with the balance to benefit 2007. These restructuring actions resulted in headcount reductions of approximately 1,150 positions, which impacted all of our segments and geographic regions and were completed in 2006. We are reinvesting some of the savings in future growth opportunities.

Additional restructuring actions were identified during the fourth quarter of 2006. These actions are expected to be completed during 2007, with savings expected to benefit 2008.

In 2005, we also incurred charges related to the planned divestitures of several low-margin businesses and product lines, as discussed in *Divestitures and Acquisitions*.

Restructuring charges associated with severance and asset impairments recorded during 2004 were related to the completion of the integration of the 2002 acquisition of Jackstädt into our other existing businesses. We closed a manufacturing facility in France during the first quarter of 2004 and a manufacturing facility in Italy during the second quarter of 2004.

Refer to Note 10, Cost Reduction Actions, to the Consolidated Financial Statements for further detail.

Table of Contents**Effective Rate of Taxes on Income**

The effective tax rate was 17.2% for the full year 2006 compared with 20.4% for the full year 2005. Our effective tax rate in both years included benefits from:

Changes in the geographic mix of income

Continued improvements in our global tax structure

Several favorable global tax audit settlements and the closure of certain tax years

Release of certain valuation allowances

In 2005, these benefits were partially offset by incremental expense associated with the repatriation of accumulated foreign earnings under the American Jobs Creation Act of 2004.

Free Cash Flow

Free cash flow, which is a non-GAAP measure, is used as a measure of funds available for other corporate purposes, such as dividends, debt reduction, acquisitions, and repurchase of common stock. Refer to Uses and Limitations of Non-GAAP Measures.

	2006	2005	2004
<i>(In millions)</i>			
Net cash provided by operating activities	\$ 510.8	\$ 441.6	\$ 516.9
Purchase of property, plant and equipment	(161.9)	(162.5)	(178.9)
Purchase of software and other deferred charges	(33.4)	(25.8)	(21.8)
Free cash flow	\$ 315.5	\$ 253.3	\$ 316.2

The increase in free cash flow in 2006 of \$62 million reflects changes in assets and liabilities and higher net income compared to 2005. See Analysis of Results of Operations and Liquidity below for more information.

Divestitures and Acquisitions

In December 2005, we announced our plan to sell our raised reflective pavement marker business, which had sales of approximately \$23 million in 2005. The divestiture of this business was completed during the second quarter of 2006 and resulted in a tax benefit due to capital losses arising from the sale of the business. The results of this business have been accounted for as discontinued operations for the years presented herein. This business was previously included in the Pressure-sensitive Materials segment.

In December 2005, we also announced the divestiture of two product lines. These divestitures were completed in the first quarter of 2006. The first product line, which was included in the Office and Consumer Products segment, had estimated sales of \$60 million in 2005, with minimal impact to income from operations. The second product line, which was included in other specialty converting businesses, had annual sales of approximately \$10 million in 2005, with minimal impact to income from operations. As part of these divestitures, in 2005, we recorded severance and other employee-related charges of approximately \$6 million and asset impairments of approximately \$9 million. These charges were included in the Other Expense, net line of our Consolidated Statement of Income, as noted in Cost Reduction Actions above.

During the third quarter of 2004, we acquired Rinke Etiketten, a privately held company in Germany. The incremental impact of this acquisition on our net sales was approximately \$9 million during 2004, with an additional impact of approximately \$18 million in 2005. This business is included in our Retail Information Services segment.

Table of Contents

Investigations and Legal Proceedings

On October 19, 2006, we were notified by the U.S. Department of Justice's Antitrust Division (DOJ) that the DOJ had decided to close its criminal investigation (initiated in April 2003) into competitive practices in the label stock industry without further action.

On November 15, 2006, we announced that we had been notified by the European Commission (EC) that the EC had closed its investigation (initiated in May 2004) into competitive activities in the label stock industry with no action.

In July 2004, we were notified by the Competition Law Division of the Department of Justice of Canada that it was seeking information in connection with a label stock investigation. In August 2005, we were notified by the Australian Competition and Consumer Commission that it was seeking information in connection with a label stock investigation. We are cooperating with these investigations.

We are a named defendant in purported class actions in the U.S. seeking treble damages and other relief for alleged unlawful competitive practices, which were filed after the announcement of the DOJ investigation. We are also a named defendant in a purported class action in the U.S. seeking damages and other relief for alleged disclosure and fiduciary duty violations pertaining to alleged unlawful competitive practices. We have discovered instances of conduct by certain employees in China that potentially violate the U.S. Foreign Corrupt Practices Act, and we have reported that conduct to authorities in the U.S. Accordingly, we expect that fines or other penalties may be incurred.

We are unable to predict the effect of these matters at this time, although the effect could be adverse and material. These and other matters are reported in Note 8, Contingencies, to the Consolidated Financial Statements.

Outlook

In 2007, we expect low to mid single-digit revenue growth, including a modest positive effect from foreign currency translation. Our revenue expectations are subject to changes in economic and market conditions.

We anticipate continued benefit from our productivity improvement initiatives. In particular, we estimate that our restructuring and business realignment efforts will reduce costs by an additional \$45 million compared to 2006. However, we plan to reinvest some of the savings from these productivity improvements in growth initiatives. This reinvestment includes incremental spending of approximately \$12 million to \$15 million related to investments in information technology.

We estimate that pretax interest expense will be approximately even with 2006, subject to changes in average debt outstanding.

We expect total restructuring and asset impairment charges in 2007 will be lower than the charges taken in 2006.

We anticipate an increase in our annual effective tax rate for 2007, subject to changes in tax laws and the geographic mix of income, with potentially wide variances from quarter to quarter.

Reflecting these assumptions, we expect an increase in annual earnings and free cash flow in comparison with 2006. Additionally, the effect of share repurchase will benefit earnings per share in 2007.

We expect capital expenditures in 2007 to be approximately \$160 million to \$165 million, or approximately \$210 million to \$225 million including software investments, funded through operating cash flows. Major capital projects in 2007 include expansion in China and India, serving both our materials and retail information services businesses. Major software investments relate to customer service and standardization initiatives.

Table of Contents**ANALYSIS OF RESULTS OF OPERATIONS****Income from Continuing Operations Before Taxes:**

	2006	2005	2004
<i>(In millions)</i>			
Net sales	\$ 5,575.9	\$ 5,473.5	\$ 5,317.0
Cost of products sold	4,047.5	3,997.3	3,890.4
Gross profit	1,528.4	1,476.2	1,426.6
Marketing, general and administrative expense	1,011.1	987.9	957.4
Interest expense	55.5	57.9	58.7
Other expense, net	36.2	63.6	35.2
Income from continuing operations before taxes	\$ 425.6	\$ 366.8	\$ 375.3

	%	%	%
<i>As a Percent of Sales:</i>			
Gross profit (margin)	27.4	27.0	26.8
Marketing, general and administrative expense	18.1	18.0	18.0
Income from continuing operations before taxes	7.6	6.7	7.1

Sales

Sales increased 2% in 2006 compared to an increase of 3% in 2005. Organic sales growth was approximately 3% in 2006 compared to approximately 1% in 2005. Organic sales growth in 2006 reflected increases in most of our businesses in Asia, Europe and Latin America. Organic growth in Europe reflected strong growth in the east and modest growth in the west. Growth in our Asian and Latin American businesses was due to continued market expansion.

On an organic basis, sales in the U.S. were approximately even in 2006, compared to a decrease of approximately 3% in 2005. In our North American roll materials business, reduced market share during the first quarter of 2006 (reflecting share loss related to price increases implemented in 2005 and early 2006 to offset higher raw material costs), as well as generally slow market conditions, were offset by some share gain during the second half of 2006. The benefit from growth of Avery-brand products and a strong back-to-school season in our Office and Consumer Products segment in the U.S. was offset by the loss of sales from exiting certain low-margin private label business (approximate impact of \$22 million) in that segment.

Sales growth in 2005 was negatively impacted by an extra week in the 2004 fiscal year and accelerated purchases by Office and Consumer Products customers in advance of 2005 selling price increases, both of which contributed to higher growth in 2004. Combined, the accelerated purchases and extra week in 2004 represented an estimated \$60 million to \$70 million of the change in sales between 2005 and 2004. The loss of market share in our North American roll materials business also affected sales growth in 2005.

Foreign currency translation had a favorable impact on the change in sales of approximately \$21 million in 2006 compared to approximately \$77 million in 2005.

Product line divestitures, net of incremental sales from acquisitions, reduced sales by approximately \$54 million in 2006. Incremental sales from acquisitions, net of divestitures, contributed approximately \$19 million in 2005.

Gross Profit

Gross profit margin in both 2006 and 2005 benefited from our ongoing productivity improvement and cost reduction actions.

Table of Contents

In 2006, these benefits were partially offset by:

Unfavorable segment mix (faster growth in segments with lower gross profit margin as a percent of sales)

Energy-related cost inflation (approximately \$9 million)

Change in the last-in, first-out (LIFO) inventory reserves (approximately \$9 million); refer to Critical Accounting Policies and Estimates

Transition costs associated with restructuring (approximately \$9 million)

In 2005, these benefits were partially offset by:

Unfavorable segment mix

Raw material inflation in excess of selling price increases

Higher costs related to our radio frequency identification (RFID) business (approximately \$9 million)

In 2006, we reclassified shipping and handling costs to Cost of products sold to align our businesses around a standard accounting policy. In 2005, several of our businesses included these costs in marketing, general and administrative expenses (approximately \$143 million for 2006, \$145 million for 2005, and \$148 million for 2004); previous results included herein have been reclassified for comparability to the current year.

Marketing, General and Administrative Expenses

Marketing, general and administrative expense as a percent of sales in 2006 and 2005 reflected the benefit of productivity improvement initiatives and cost reduction actions.

In 2006, these benefits were offset by:

Recognition of stock option expense (approximately \$21 million)

Increased spending on information systems and marketing (approximately \$19 million)

Increase in pension, medical and other employee-related costs (approximately \$12 million)

In 2005, these benefits were offset by:

Higher pension and medical expenses (approximately \$14 million)

Impact of foreign currency translation (approximately \$11 million)

Additional spending on the development of our RFID business (approximately \$8 million), as well as other long-term growth initiatives

Additional spending associated with acquisitions (approximately \$6 million)

Interest Expense

Interest expense decreased in 2006 and 2005. The decreases were due to a reduction in debt outstanding, partially offset by an increase in interest rates.

Other Expense

	2006	2005	2004
<i>(In millions, pretax)</i>			
Restructuring costs	\$ 21.1	\$ 37.5	\$ 23.6
Asset impairment & lease cancellation charges	8.7	28.1	11.6
Other	6.4	(2.0)	

Other expense, net	\$ 36.2	\$ 63.6	35.2
--------------------	---------	---------	------

Table of Contents

In 2006 and 2005, Other expense, net, consisted of charges for restructuring, including severance and other employee-related costs and asset impairment charges related to cost reduction actions and divestitures, as well as other items discussed below.

During late 2005 and 2006, we implemented cost reduction actions related to restructuring which have improved our global operating efficiencies and are expected to result in annualized pretax savings of \$90 million to \$100 million. We estimate that approximately \$50 million of these savings (net of transition costs) have been achieved in 2006. These restructuring actions resulted in a headcount reduction of approximately 1,150 positions, which impacted all of our segments and geographic regions, and were completed in 2006. We are reinvesting some of the savings in future growth opportunities. Refer to Note 10, Cost Reduction Actions, to the Consolidated Financial Statements for more information.

The other items included in Other expense, net, in 2006 included:

Accrual for environmental remediation costs (\$13 million); refer to the Environmental section of Financial Condition below

Costs related to a patent lawsuit and a divestiture (\$.8 million)

Gain on sale of assets (\$5.3 million)

Gain on curtailment and settlement of a pension obligation (\$1.6 million)

Gain on sale of an investment (\$10.5 million), partially offset by a charitable contribution to the Avery Dennison Foundation (\$10 million)

In 2005, other items included in Other expense, net, consisted of the gain on the sale of assets, partially offset by costs related to a patent lawsuit.

In 2004, Other expense, net, consisted of charges for productivity improvement actions, primarily related to the completion of the Jackstädt integration actions.

Net Income:

	2006	2005	2004
<i>(In millions, except per share amounts)</i>			
Income from continuing operations before taxes	\$ 425.6	\$ 366.8	\$ 375.3
Taxes on income	73.1	75.0	94.3
Income from continuing operations	352.5	291.8	281.0
Income (loss) from discontinued operations, net of tax	14.7	(65.4)	(1.3)
Net income	\$ 367.2	\$ 226.4	\$ 279.7
Net income per common share	\$ 3.68	\$ 2.26	\$ 2.80
Net income per common share, assuming dilution	\$ 3.66	\$ 2.25	\$ 2.78
Net income as a percent of sales	6.6%	4.1%	5.3%
Effective tax rate from continuing operations	17.2%	20.4%	25.1%

Taxes on Income

Our 2006 effective tax rate included the benefit of changes in the geographic mix of income and continued improvements in our global tax structure, as well as the following:

Net benefit from several favorable global tax audit settlements (approximately \$8.1 million)

Release of certain valuation allowances (approximately \$5.2 million)
25

Table of Contents

Our 2005 effective tax rate included the benefit of changes in the geographic mix of income and continued improvements in our global tax structure, as well as the following:

Release of certain valuation allowances (approximately \$15.6 million)

Net benefit from several favorable global tax audit settlements (approximately \$9 million)

In 2005, these benefits were partially offset by the incremental expense of \$13.5 million associated with the repatriation of accumulated foreign earnings under the American Jobs Creation Act of 2004.

Income (Loss) from Discontinued Operations

Income (loss) from discontinued operations includes the divestiture of our raised reflective pavement markers business as noted in the Overview section above. The divestiture of this business was completed during 2006 and resulted in a tax benefit (\$14.9 million) due to capital losses arising from the sale of the business and a gain on sale of \$1.3 million.

Based on our estimated value of the raised reflective pavement markers business in 2005, we concluded that associated goodwill and intangible assets from our acquisition of this business were impaired. The resulting pretax impairment charge was approximately \$74 million in 2005.

Income from discontinued operations included net sales of approximately \$7 million in 2006, \$23 million in 2005 and \$24 million in 2004.

Refer to the Discontinued Operations section of Note 1, Summary of Significant Accounting Policies, to the Consolidated Financial Statements for more information.

RESULTS OF OPERATIONS BY SEGMENT***Pressure-sensitive Materials Segment***

	2006	2005	2004
<i>(In millions)</i>			
Net sales including intersegment sales	\$ 3,397.8	\$ 3,277.7	\$ 3,154.1
Less intersegment sales	(161.5)	(163.2)	(169.3)
Net sales	\$ 3,236.3	\$ 3,114.5	\$ 2,984.8
Operating income ⁽¹⁾	301.2	258.1	221.4

⁽¹⁾ Includes restructuring, asset impairment & lease cancellation charges and accrual for patent lawsuit, net of gain on sale of assets	\$ 9.3	\$ 23.0	\$ 34.4
--	--------	---------	---------

Net Sales

Sales in our Pressure-sensitive Materials segment increased 4% in both 2006 and 2005. Organic sales growth was approximately 3% in 2006 and 2% in 2005.

Organic sales growth in 2006 reflected growth in our roll materials and graphics and reflective businesses in Asia, Latin America, and Europe. Organic growth in 2005 reflected the positive impact of pricing and product mix, resulting from increased selling prices implemented to offset higher raw material costs. The extra week in the 2004 fiscal year contributed to slower growth in 2005.

In our North American roll materials business, 2005 sales declined on an organic basis at a low single-digit rate, while 2006 sales were even with the prior year. The loss of market share following our implementation of selling price increases in 2005 and early 2006 contributed to this decline. Both years were also affected by generally slow market conditions. Some share gain during the second half of 2006 offset these factors.

Table of Contents

Our roll materials business in Europe experienced low single-digit organic sales growth in 2006, reflecting strong growth in the east. In 2005, this business experienced high single-digit organic sales growth reflecting solid growth in the west and stronger growth in the east.

Market expansion contributed to double-digit organic sales growth in the roll materials business in Asia in both 2006 and 2005. The roll materials business in Latin America experienced high single-digit organic sales growth in 2006, resulting from market expansion. In 2005, this region experienced low single-digit organic sales growth due to market expansion and selling price increases, partially offset by loss of market share from selling price increases and loss of sales with a large customer.

Our graphics and reflective business experienced mid single-digit organic sales growth in 2006, as strong international growth was partially offset by a decline in the U.S. On an organic basis, sales in this business were unchanged in 2005.

The changes in reported sales for the segment included a favorable impact of foreign currency translation of approximately \$15 million in 2006 and approximately \$58 million in 2005.

Operating Income

Increased operating income in 2006 and 2005 reflected higher sales and cost savings from restructuring and productivity improvement initiatives. Operating income for all years reflected restructuring, asset impairment and lease cancellation charges. In 2006, operating income was also impacted by transition costs associated with restructuring and stock option expense.

Office and Consumer Products Segment

	2006	2005	2004
<i>(In millions)</i>			
Net sales including intersegment sales	\$ 1,073.8	\$ 1,138.1	\$ 1,174.7
Less intersegment sales	(1.8)	(2.0)	(2.2)
Net sales	\$ 1,072.0	\$ 1,136.1	\$ 1,172.5
Operating income ⁽¹⁾	179.0	168.0	186.4

⁽¹⁾ Includes restructuring and asset impairment charges and net gain from product line divestiture	\$ (2.3)	\$ 21.8	\$.5
---	----------	---------	-------

Net Sales

Sales in our Office and Consumer Products segment decreased 6% in 2006, while sales decreased 3% in 2005. The decline in reported sales in 2006 reflected the impact of a product line divestiture in Europe (approximately \$51 million). Foreign currency translation had a favorable impact on the change in reported sales of approximately \$1 million in 2006 and \$8 million in 2005.

On an organic basis, sales declined approximately 1% in 2006. The decline reflected the loss of sales from exiting certain low-margin private label business at the end of 2005 (approximately \$22 million), partially offset by growth in Avery-brand products, a strong back-to-school season in North America, and accelerated purchases by customers in late 2006 in advance of our 2007 selling price increases for certain product lines.

In 2005, sales on an organic basis declined 4%, reflecting a shift in volume to late 2004 (due to customers accelerated purchases in advance of selling price increases effective January 1, 2005), as well as the benefit from an extra week in the 2004 fiscal year. Declines in core unit volume in 2005 were partially offset by increased selling prices, implemented to offset higher raw material costs.

Table of Contents*Operating Income*

Operating income in 2006 reflected cost savings from productivity improvement and restructuring actions, partially offset by associated transition costs, higher raw material and energy-related costs, increased marketing costs, an increase in the LIFO reserve, and stock option expense.

Operating income in 2005 reflected charges related to restructuring, asset impairment and net losses associated with product line divestitures, partially offset by cost savings from restructuring and productivity initiatives. The selling price increases in 2005 offset the cumulative effect of raw material inflation over the 2004 to 2005 period.

Retail Information Services Segment

	2006	2005	2004
<i>(In millions)</i>			
Net sales including intersegment sales	\$ 671.1	\$ 637.1	\$ 599.5
Less intersegment sales	(3.4)	(6.7)	(6.8)
Net sales	\$ 667.7	\$ 630.4	\$ 592.7
Operating income ⁽¹⁾	45.0	37.7	43.4
⁽¹⁾ Includes restructuring, asset impairment & lease cancellation charges	\$ 11.2	\$ 7.5	\$.3

Net Sales

Sales in our Retail Information Services segment increased 6% in both 2006 and 2005. The increase in both years reflected continued growth of the business in Asia, Latin America and Europe, as well as incremental sales from acquisitions, net of product line divestitures. Organic sales growth was approximately 5% in 2006 and 2% in 2005.

The impact of acquisitions, net of product line divestitures, was approximately \$3 million in 2006 and \$21 million in 2005. Foreign currency translation contributed to the increase in sales by approximately \$3 million in 2006 and \$7 million in 2005.

Operating Income

Operating income in 2006 and 2005 benefited from productivity improvement actions, including the migration of production from Hong Kong to lower cost facilities in mainland China. Benefits from productivity initiatives were offset by increased spending for information systems, stock option expense and other incremental employee-related costs in 2006, and higher costs associated with growth initiatives in 2005. Operating income in both years included charges for restructuring, asset impairment, and lease cancellation.

Other specialty converting businesses

	2006	2005	2004
<i>(In millions)</i>			
Net sales including intersegment sales	\$ 614.3	\$ 607.7	\$ 585.8
Less intersegment sales	(14.4)	(15.2)	(18.8)
Net sales	\$ 599.9	\$ 592.5	\$ 567.0
Operating income ⁽¹⁾	17.2	14.1	39.9
⁽¹⁾ Includes restructuring and asset impairment charges	\$ 3.7	\$ 6.2	\$

Net Sales

Sales in our other specialty converting businesses increased 1% in 2006 and 4% in 2005. A product line divestiture reduced reported sales by approximately \$7 million in 2006. Organic sales growth was approxi-

Table of Contents

mately 2% in 2006, reflecting solid growth in our specialty tape business, partially offset by weakness in other businesses. In 2005, organic sales growth of 4% reflected growth in most businesses.

Foreign currency translation had a favorable impact on the change in sales of approximately \$1 million in 2006 and \$4 million in 2005.

Operating Income

Operating income for these businesses increased in 2006, reflecting cost savings from restructuring and productivity improvement initiatives, partially offset by stock option expense. Operating income in both years included charges for restructuring and asset impairment.

The change in operating income in 2005 primarily reflected incremental costs related to the development of the RFID business.

FINANCIAL CONDITION*Liquidity***Cash Flow Provided by Operating Activities:**

	2006	2005	2004
<i>(In millions)</i>			
Net income	\$ 367.2	\$ 226.4	\$ 279.7
Depreciation and amortization	197.9	201.5	188.2
Income taxes (deferred and accrued)	1.8	(44.5)	31.2

Long-term retirement benefits and other liabilities	(11.8)	(12.9)	(27.6)
Stock-based compensation	24.1		
Other non-cash items, net	(6.5)	(7.5)	(.5)
Net cash provided by operating activities	\$ 510.8	\$ 441.6	\$ 516.9

For cash flow purposes, changes in assets and liabilities exclude the impact of foreign currency translation and the impact of acquisitions and divestitures and certain non-cash transactions (discussed in Analysis of Selected Balance Sheet Accounts below).

In 2006, cash flow provided by operating activities was negatively impacted by changes in working capital, as shown below:

Uses of cash

Other current assets primarily reflected the timing of collection of value-added tax receivables in Europe

Inventories reflected increased purchases to support higher sales and customer service initiatives

Long-term retirement benefits and other liabilities reflected benefit payments, partially offset by contributions of approximately \$39 million to our pension and postretirement health benefit plans

Table of Contents*Sources of cash*

Accounts payable and accrued liabilities reflected the timing of payments and increased inventory
In 2005, cash flow provided by operating activities was negatively impacted by changes in working capital, as shown below:

Uses of cash

Accounts receivable reflected higher sales and the timing of collections, partially offset by a decrease in the average days sales outstanding

Income taxes reflected the timing of payments made, as well as the current year tax accrual

Long-term retirement benefits and other liabilities reflected contributions of approximately \$46 million to our pension and postretirement health benefit plans, partially offset by benefit payments

Inventory reflected higher raw material purchases to support growth and business expansion

Sources of cash

Accounts payable and accrued liabilities reflected the timing of payments and accruals, including accrual for restructuring charges

Net cash used in investing activities	\$ (154.9)	\$ (167.6)	\$ (216.9)

Capital Spending

Our major capital projects in 2006 included investments for expansion in China and India serving both our materials and retail information services businesses, as well as spending related to our new films coater in the U.S. Our major information technology projects in 2006 included system improvements for our Retail Information Services segment and our materials businesses.

Proceeds from Sale of Businesses

In 2006, we sold a long-term investment and divested both a product line in Europe and the raised reflective pavement marker business.

Cash Flow Used in Financing Activities:

	2006	2005	2004
<i>(In millions)</i>			
Net change of borrowings and payments of debt	\$ (140.1)	\$ (80.5)	\$ (119.1)

Purchase of treasury stock	(157.7)	(40.9)	(.7)
Proceeds from exercise of stock options, net	54.1	11.1	19.1
Other	17.7	18.5	18.2
Net cash used in financing activities	\$ (397.8)	\$ (260.5)	\$ (247.1)

Table of Contents

Borrowings and Repayment of Debt

At year end 2006, our borrowings outstanding under foreign short-term lines of credit were \$101.5 million (weighted-average interest rate of 9.6%), compared to \$108.3 million at year end 2005 (weighted-average interest rate of 6.6%).

Short-term variable rate commercial paper borrowings were \$154.4 million at December 30, 2006 (weighted-average interest rate of 5.0%) compared to \$255.3 million at December 31, 2005 (weighted-average interest rate of 2.3%).

We had medium-term notes of \$160 million outstanding at year end 2006 and 2005. In 2005, medium-term notes of \$73 million were paid on maturity. Outstanding medium-term notes have maturities from 2007 through 2025 and accrue interest at fixed rates ranging from 5.9% to 7.5%.

In August 2004, we issued \$150 million in floating rate senior notes due in 2007 under our 2001 shelf registration statement filed with the Securities and Exchange Commission (SEC). These notes are callable at par.

Shareholders Equity

Our shareholders equity was \$1.68 billion at year end 2006, compared to \$1.51 billion at year end 2005. Our annual dividend per share increased to \$1.57 in 2006 from \$1.53 in 2005.

Share Repurchases

On October 26, 2006, the Board of Directors authorized an additional 5 million shares of the Company s stock for our repurchase program, resulting in a total authorization of approximately 7.4 million shares of the Company s stock at that date. During the fourth quarter of 2006, we repurchased approximately 2.5 million shares. As of December 30, 2006, approximately 4.9 million shares were available for repurchase under the Board of Directors authorization.

In the fourth quarter of 2005, we repurchased approximately .7 million shares under an agreement related to the L&E Packaging (L&E) acquisition and recorded such amount to treasury stock. (See the Other section of Contractual Obligations, Commitments and Off-Balance Sheet Arrangements below for further details.)

Analysis of Selected Balance Sheet Accounts

Long-lived Assets

Goodwill increased \$43 million during 2006 primarily due to foreign currency translation (approximately \$32 million) and goodwill associated with an acquisition (approximately \$10 million).

Other intangibles resulting from business acquisitions decreased \$3 million during 2006 due to amortization expense recorded during 2006 (approximately \$11 million) partially offset by the impact of foreign currency translation (approximately \$6 million) and acquired intangibles associated with an acquisition (approximately \$2 million).

Other assets decreased approximately \$64 million during 2006 due primarily to a decrease in assets related to pension and postretirement benefits (approximately \$68 million). Refer to Note 6, Pensions and Other Postretirement Benefits, to the Consolidated Financial Statements for more information on the change in accounting for pension and postretirement benefits as a result of the adoption of Statement of Financial Accounting Standards (SFAS) No. 158.

Other Shareholders Equity Accounts

The value of our employee stock benefit trusts increased \$51 million in 2006, due to an increase in the market value of shares held in the trusts (approximately \$122 million), partially offset by the issuance of shares under our stock and incentive plans (approximately \$71 million).

Table of Contents

Accumulated other comprehensive loss increased by approximately \$39 million, due to foreign currency translation, partially offset by the after-tax impact of the adoption of SFAS No. 158 (approximately \$57 million). Refer to Note 6, Pensions and Other Postretirement Benefits, to the Consolidated Financial Statements.

Effect of Foreign Currency

International operations generate approximately 55% of our net sales. Our future results are subject to changes in political and economic conditions and the impact of fluctuations in foreign currency exchange and interest rates. To reduce our income statement exposure to transactions in foreign currencies, we enter into foreign exchange forward, option and swap contracts, where available and appropriate.

Impact of Foreign Currency Translation:

	2006	2005	2004
<i>(In millions)</i>			
Change in net sales	\$ 21	\$ 77	\$ 207
Change in net income	2	2	8

While there was a benefit from foreign currency translation in 2006, this benefit was lower compared to prior years. The benefit to sales in 2006 primarily reflected a benefit from currencies in Canada, Brazil, Korea and China, partially offset by a negative impact of the Euro and currencies in South Africa and Australia. The impact of foreign currency fluctuations on net income is smaller than the impact on net sales, because our products are generally sourced in the currencies in which they are sold. As a result, the impact of foreign exchange rates on sales is matched with a partially offsetting impact on reported expenses, thereby reducing the impact of foreign currency fluctuations on net income.

Our net income for 2005 and 2004 included translation gains and losses for operations in hyperinflationary economies, which included Turkey. For accounting purposes, operations are treated as being in a hyperinflationary economy, based on the cumulative inflation rate over the past three years. Operations in hyperinflationary economies consist of our operations in the Dominican Republic, which use the U.S. dollar as the functional currency. These operations were not significant to our consolidated financial position or results of operations. In 2006, Turkey was removed from hyperinflationary status.

Analysis of Selected Financial Ratios

We utilize certain financial ratios to assess our financial condition and operating performance, as discussed below.

Working Capital Ratio

Working capital (current assets minus current liabilities, excluding working capital of held-for-sale business), as a percent of net sales, decreased in 2006 primarily due to an increase in short-term debt. Working capital from continuing operations, as a percent of net sales, is shown below. We use this non-GAAP measure as a tool to assess our working capital requirements because it excludes the impact of fluctuations due to our financing activities. (Refer to Uses and Limitations of Non-GAAP Measures.) The timing of financing activities is not necessarily related to our current operations and would tend to distort the working capital ratio from period to period. Our objective is to minimize our investment in working capital from operations by reducing this ratio, to maximize cash flow and return on investment.

Table of Contents**Working capital from continuing operations:**

	2006	2005
<i>(In millions)</i>		
(A) Working capital (current assets minus current liabilities; excludes working capital of held-for-sale businesses)	\$ (43.4)	\$ 31.0
Reconciling item:		
Short-term and current portion of long-term debt	466.4	364.7
(B) Working capital from continuing operations	\$ 423.0	\$ 395.7
(C) Net sales	\$ 5,575.9	\$ 5,473.5
Working capital, as a percent of net sales(A)÷(C)	(.8)%	.6%
Working capital from continuing operations, as a percent of net sales(B)÷(C)	7.6%	7.2%

As a percent of sales, working capital from continuing operations in 2006 weakened compared to 2005. In 2006, the change primarily reflected a decrease in cash and cash equivalents and income taxes payable. Working capital changes included the impact of currency.

Accounts Receivable Ratio

The average number of days sales outstanding was 58 days in 2006 and 2005, calculated using a four-quarter average accounts receivable balance divided by the average daily sales for the year.

Inventory Ratio

Average inventory turnover was 8.5 in 2006 compared to 8.8 in 2005, calculated using the annual cost of sales divided by a four-quarter average inventory balance. The decrease is due to higher average inventory levels, primarily to support customer service initiatives.

Debt Ratios

		Year End	
	Requirement	2006	2005
Total debt to total capital		36.5%	41.8%
<i>Debt covenant ratios:</i>			
Total debt to earnings before other expense, interest, taxes, depreciation and amortization	Not to exceed 3.5:1.0	1.4:1.0	1.6:1.0
Earnings before other expense, interest and taxes to interest	At least 3.5:1.0	9.3:1.0	8.4:1.0

The decrease in the total debt to total capital ratio in 2006 was due to a decrease in total debt outstanding and an increase in shareholders' equity.

Our various loan agreements in effect at year end require that we maintain specified ratios of consolidated debt and consolidated interest expense in relation to certain measures of income. We were in compliance with these covenants as shown in the table above.

The fair value of our debt is estimated based on the discounted amount of the related cash flows using the current rates offered to us for debt of the same remaining maturities. At year end, the fair value of our total debt, including short-term borrowings, was \$963 million in 2006 and \$1.1 billion in 2005.

Shareholders Equity Ratios

	2006	2005	2004
Return on average shareholders equity	22.5%	14.6%	19.9%
Return on average total capital	15.6	10.1	12.1

Table of Contents

Increases in these ratios in 2006 compared to 2005 were primarily due to higher net income. These ratios are computed using actual net income and a five-quarter average denominator for equity and total debt accounts.

Capital Resources

Capital resources include cash flows from operations and debt financing. We maintain adequate financing arrangements at competitive rates. These financing arrangements consist of our commercial paper programs in the U.S. and Europe, committed and uncommitted bank lines of credit in the countries where we operate, callable commercial notes, and long-term debt, including medium-term notes.

Capital from Debt

Our total debt decreased approximately \$120 million in 2006 to \$968 million compared to year end 2005, reflecting payments of debt, partially offset by the impact of foreign currency translation.

In July 2004, we entered into a revolving credit agreement with ten domestic and foreign banks for a total commitment of \$525 million, expiring July 16, 2009. We use the financing available under this agreement as a commercial paper back-up facility and to finance other corporate requirements. There was no debt outstanding under this agreement as of year end 2006 and 2005.

In addition, we have a 364-day revolving credit facility with a foreign bank to provide up to Euro 30 million (\$39.6 million) in borrowings through July 31, 2007. With the approval of the bank, we may extend the revolving period and due date on an annual basis. Our intention is to negotiate an extension of this facility in 2007. Financing under this agreement is used to finance cash requirements of our European operations. As of year end 2006, \$26.3 million was outstanding under this agreement.

We had standby letters of credit outstanding of \$77.1 million and \$81.2 million at the end of 2006 and 2005, respectively.

Our uncommitted lines of credit were approximately \$359 million at year end 2006. Our uncommitted lines of credit do not have a commitment expiration date and may be cancelled by the banks or us at any time.

In the fourth quarter of 2004, we filed a shelf registration statement with the SEC to permit the issuance of up to \$500 million in debt and equity securities. Proceeds from the shelf offering may be used for general corporate purposes, including repaying, redeeming or repurchasing existing debt, and for working capital, capital expenditures and acquisitions. As of December 30, 2006, no securities had been issued under this registration statement.

Credit ratings are a significant factor in our ability to raise short-term and long-term financing. The credit ratings assigned to us also impact the interest rates on our commercial paper and other borrowings. When determining a credit rating, the rating agencies place significant weight on our competitive position, business outlook, consistency of cash flows, debt level and liquidity, geographic dispersion and management team.

Our credit ratings as of year end 2006:

	Short-term	Long-term	Outlook
Standard & Poor's Rating Service	A-2	A-	Negative
Moody's Investors Service	P2	A3	Stable

Table of Contents**Contractual Obligations, Commitments and Off-balance Sheet Arrangements****Contractual Obligations at Year End 2006:**

	Payments Due by Period						
	Total	2007	2008	2009	2010	2011	Thereafter
<i>(In millions)</i>							
Short-term lines of credit	\$ 255.9	\$ 255.9					
Long-term debt and capital leases	712.1	210.5	\$ 50.5	\$.5	\$.5	\$.1	\$ 450.0
Interest on long-term debt ⁽¹⁾	400.1	35.6	27.3	24.6	24.6	24.6	263.4
Operating leases	201.3	50.8	41.5	27.1	18.6	15.7	47.6
Pension and postretirement benefit contributions	14.1	14.1					
Total contractual obligations	\$ 1,583.5	\$ 566.9	\$ 119.3	\$ 52.2	\$ 43.7	\$ 40.4	\$ 761.0

⁽¹⁾ Interest on floating rate debt was estimated using the index rate in effect as of December 30, 2006.

We enter into operating leases primarily for office and warehouse space and equipment for electronic data processing and transportation. The terms of our leases do not impose significant restrictions or unusual obligations, except for the facility in Mentor, Ohio as noted below. The table above includes minimum annual rental commitments on operating leases having initial or remaining non-cancelable lease terms of one year or more.

On September 9, 2005, we completed the lease financing for a commercial facility (the Facility) located in Mentor, Ohio, used primarily for the new headquarters and research center for our roll materials division. The Facility consists generally of land, buildings, equipment and office furnishings. We have leased the Facility under an operating lease arrangement, which contains a residual value guarantee of \$33.4 million. We do not expect the residual value of the Facility to be less than the amount guaranteed.

We did not include purchase obligations or open purchase orders at year end 2006 in the table of contractual obligations above, because it is impracticable for us to either obtain such information or provide a reasonable estimate due to the decentralized nature of our purchasing systems.

Investigations and Legal Proceedings

On October 19, 2006, we were notified by the DOJ that the DOJ had decided to close its criminal investigation (initiated in April 2003) into competitive practices in the label stock industry without further action.

On November 15, 2006, we announced that we had been notified by the EC that the EC had closed its investigation (initiated in May 2004) into the Company's competitive activities in the label stock industry, with no action.

In July 2004, we were notified by the Competition Law Division of the Department of Justice of Canada that it was seeking information in connection with a label stock investigation. In August 2005, we were notified by the Australian Competition and Consumer Commission that it was seeking information in connection with a label stock investigation. We are cooperating with these investigations.

We are a named defendant in purported class actions in the U.S. seeking treble damages and other relief for alleged unlawful competitive practices, which were filed after the announcement of the DOJ investigation. We are also a named defendant in a purported class action in the U.S. seeking damages and other relief for alleged disclosure and fiduciary duty violations pertaining to alleged unlawful competitive practices.

We are unable to predict the effect of these matters at this time, although the effect could be adverse and material. These matters are reported in Note 8, Contingencies, to the Consolidated Financial Statements.

Table of Contents

Environmental

We have been designated by the U.S. Environmental Protection Agency (EPA) and/or other responsible state agencies as a potentially responsible party (PRP) at fourteen waste disposal or waste recycling sites, which are the subject of separate investigations or proceedings concerning alleged soil and/or groundwater contamination and for which no settlement of our liability has been agreed upon. We are participating with other PRPs at such sites, and anticipate that our share of cleanup costs will be determined pursuant to remedial agreements to be entered into in the normal course of negotiations with the EPA or other governmental authorities.

We have accrued liabilities for these and certain other sites, including sites in which governmental agencies have designated us as a PRP, where it is probable that a loss will be incurred and the cost or amount of loss can be reasonably estimated. However, because of the uncertainties associated with environmental assessment and remediation activities, future expense to remediate the currently identified sites and any sites which could be identified in the future for cleanup could be higher than the liability currently accrued.

During the third quarter of 2006, we recognized an additional liability of \$13 million for estimated environmental remediation costs for a former operating facility, for which \$2 million had been accrued in the second quarter of 2006. The amount accrued represents the lower end of the current estimated range of \$15 million to \$17 million for costs expected to be incurred. We considered additional information provided by outside consultants in revising our previous estimates of expected costs. This estimate could change depending on various factors such as modification of currently planned remedial actions, change in site conditions, change in the estimated time to complete remediation, change in laws and regulations affecting remediation requirements and other factors.

Other amounts currently accrued are not significant to our consolidated financial position, and based upon current information, we believe that it is unlikely that the final resolution of these matters will significantly impact our consolidated financial position, results of operations or cash flows.

Other

In 2005, we contacted relevant authorities in the U.S. and reported the results of an internal investigation of potential violations of the U.S. Foreign Corrupt Practices Act. The transactions at issue were carried out by a small number of employees of our reflectives business in China, and involved, among other things, impermissible payments or attempted impermissible payments. The payments or attempted payments and the contracts associated with them appear to have been relatively minor in amount and of limited duration. Corrective and disciplinary actions have been taken. Sales of our reflectives business in China in 2005 were approximately \$7 million. Based on findings to date, no changes to our previously filed financial statements are warranted as a result of these matters. However, we expect that fines or other penalties may be incurred. While we are unable to predict the financial or operating impact of any such fines or penalties, we believe that our behavior in detecting, investigating, responding to and voluntarily disclosing these matters to authorities should be viewed favorably.

We and our subsidiaries are involved in various other lawsuits, claims and inquiries, most of which are routine to the nature of our business. Based upon current information, we believe that the resolution of these other matters will not materially affect us.

We provide for an estimate of costs that may be incurred under our basic limited warranty at the time product revenue is recognized. These costs primarily include materials and labor associated with the service or sale of products. Factors that affect our warranty liability include the number of units installed or sold, historical and anticipated rate of warranty claims on those units, cost per claim to satisfy our warranty obligation and availability of insurance coverage. As these factors are impacted by actual experience and future expectations, we assess the adequacy of the recorded warranty liability and adjust the amounts as necessary.

Table of Contents

We participate in receivable financing programs, both domestically and internationally, with several financial institutions whereby we may request advances from these financial institutions. At December 30, 2006, we guaranteed approximately \$22 million of these advances.

We also guaranteed up to approximately \$22 million of certain of our foreign subsidiaries' obligations to their suppliers as of December 30, 2006.

In connection with the L&E acquisition in 2002, we issued approximately .7 million shares at \$63.08 per share. We also entered into an agreement with L&E whereby in the event the value of our common shares fell below the price of the shares that were issued to L&E (adjusted for dividends received), during the period from January 1, 2005 through December 31, 2007, L&E had the option to exercise a true-up right. Upon exercise of this true-up right, we had the option to (1) pay the difference in value to L&E, in the form of (a) cash or (b) common shares, or (2) repurchase the shares at the issued share price, adjusted for dividends paid. The true-up obligation was reduced by any shares sold by L&E to third parties. During 2005, L&E sold 44,603 shares to third parties. On October 20, 2005, L&E notified us that it was exercising its true-up right under the agreement for the remaining approximately .7 million shares. We repurchased the remaining shares under the agreement for \$41 million in the fourth quarter of 2005.

USES AND LIMITATIONS OF NON-GAAP MEASURES

Our presented non-GAAP financial measures exclude the impact of certain events, activities or strategic decisions. The accounting effects of these events, activities or decisions, which are included in the GAAP measures, may make it difficult to assess the underlying performance of the Company in a single period. By excluding certain accounting effects, both positive and negative (for example, divestitures and acquisitions), from certain of our GAAP measures, management believes that it is providing meaningful supplemental information to facilitate an understanding of the Company's core or underlying operating results. These non-GAAP measures are used internally to evaluate trends in our underlying business, as well as to facilitate comparison to the results of competitors for a single period.

Limitations associated with the use of our non-GAAP measures include (1) the exclusion of foreign currency translation and the impact of acquisitions and divestitures from the calculation of organic sales growth; (2) the exclusion of mandatory debt service requirements, as well as the exclusion of other uses of the cash generated by operating activities that do not directly or immediately support the underlying business (such as discretionary debt reductions, dividends, share repurchase, acquisitions, etc.) for calculation of free cash flow; and (3) the exclusion of short-term debt from the calculation of working capital ratio from continuing operations. While some of the items the Company excludes from GAAP measures recur, these items tend to be disparate in amount and timing. Based upon feedback from investors and financial analysts, we believe that supplemental non-GAAP measures provide information that is useful to the assessment of the Company's performance and operating trends.

RELATED PARTY TRANSACTIONS

From time to time, we enter into transactions in the normal course of business with related parties. We believe that such transactions are at arm's length and for terms that would have been obtained from unaffiliated third parties.

One of our directors, Peter W. Mullin is the chairman, chief executive officer and a director of MC Insurance Services, Inc. (MC), Mullin Insurance Services, Inc. (MINC), and PWM Insurance Services, Inc. (PWM), executive compensation and benefit consultants and insurance agents. Mr. Mullin is also the majority stockholder of MC, MINC and PWM (collectively referred to as the Mullin Companies). We paid premiums to insurance carriers for life insurance placed by the Mullin Companies in connection with several of our employee benefit plans. The Mullin Companies have advised us that they earned commissions from such insurance carriers for the placement and renewal of this insurance. Approximately 50% of these commissions were allocated to and used by MC Insurance Agency Services, LLC, and MullinTBG Insurance Agency Services (affiliates of MC) to administer benefit plans and provide benefit statements to participants under several of our employee benefit plans. The Mullin Companies own a minority interest in M Financial

Table of Contents

Holdings, Inc. (MFH). Substantially all of the life insurance policies, which we placed through the Mullin Companies in 2006 and prior years, are issued by insurance carriers that participate in reinsurance agreements entered into between these insurance carriers and M Life Insurance Company (M Life), a wholly-owned subsidiary of MFH. Reinsurance returns earned by M Life are determined annually by the insurance carriers and can be negative or positive, depending upon the results of M Life 's aggregate reinsurance pool, which consists of the insured lives reinsured by M Life. The Mullin Companies have advised us that they participated in net reinsurance gains of M Life. None of these transactions were significant to our financial position or results of operations.

Summary of Related Party Activity:

	2006	2005	2004
<i>(In millions)</i>			
Mullin Companies commissions on our insurance premiums	\$.5	\$.9	\$ 1.1

Mullin Companies reinsurance gains (subject to risk of forfeiture) ascribed by M Life to our life insurance policies	.6	1.5	
Mr. Mullin 's direct & indirect interest in reinsurance gains (subject to risk of forfeiture)	.4	1.1	

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions for the reporting period and as of the financial statement date. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities and the reported amounts of revenue and expense. Actual results could differ from those estimates.

Critical accounting policies are those that are important to the portrayal of our financial condition and results, and which require us to make difficult, subjective and/or complex judgments. Critical accounting policies cover accounting matters that are inherently uncertain because the future resolution of such matters is unknown. We believe that critical accounting policies include accounting for revenue recognition, sales returns and allowances, accounts receivable allowances, inventory and inventory reserves, long-lived asset impairments, pensions and postretirement benefits, income taxes, stock-based compensation, restructuring and severance costs and litigation.

Revenue Recognition

Sales are recognized when persuasive evidence of an arrangement exists, pricing is determinable, and collection is reasonably assured. Furthermore, sales, provisions for estimated returns, and the cost of products sold are recorded at the time title transfers to customers and when the customers assume the risks and rewards of ownership. Sales terms are generally f.o.b. (free on board) shipping point or f.o.b. destination, depending upon local business customs. For most regions in which we operate, f.o.b. shipping point terms are utilized and sales are recorded at the time of shipment, because this is when title and risk of loss are transferred. In certain regions, notably in Europe, f.o.b. destination terms are generally utilized and sales are recorded when the products are delivered to the customer 's delivery site, because this is when title and risk of loss are transferred. Actual product returns are charged against estimated sales return allowances.

Sales rebates and discounts are common practice in the industries in which we operate. Volume, promotional, price, cash and other discounts and customer incentives are accounted for as a reduction to gross sales. Rebates and discounts are recorded based upon estimates at the time products are sold. These estimates

Table of Contents

are based upon historical experience for similar programs and products. We review such rebates and discounts on an ongoing basis and accruals for rebates and discounts are adjusted, if necessary, as additional information becomes available.

Sales Returns and Allowances

Sales returns and allowances represent credits we grant to our customers (both affiliated and non-affiliated) for the return of unsatisfactory product or a negotiated allowance in lieu of return. We accrue for returns and allowances based upon the gross price of the products sold and historical experience for such products. We record these allowances based on the following factors: (i) customer specific allowances; and (ii) an estimated amount, based on our historical experience, for issues not yet identified.

Accounts Receivable Allowances

We are required to make judgments as to the collectibility of accounts receivable based on established aging policy, historical experience and future expectations. The allowances for doubtful accounts represent allowances for customer trade accounts receivable that are estimated to be partially or entirely uncollectible. These allowances are used to reduce gross trade receivables to their net realizable value. We record these allowances based on estimates related to the following factors: (i) customer specific allowances; (ii) amounts based upon an aging schedule; and (iii) an estimated amount, based on our historical experience, for issues not yet identified. No single customer represented 10% or more of our net sales or trade receivables at year end 2006 and 2005. However, our ten largest customers at year end 2006 represented approximately 18% of trade accounts receivable and consisted of six customers of our Office and Consumer Products segment, three customers of our Pressure-sensitive Materials segment and one customer of both these segments. The financial position and operations of these customers are monitored on an ongoing basis.

Inventory and Inventory Reserves

Inventories are stated at the lower of cost or market value and are categorized as raw materials, work-in-progress or finished goods. Cost is determined using methods that approximate both the first-in, first-out (FIFO) and last-in, first-out (LIFO) methods. Inventories valued using the LIFO method comprised 29% and 32% of inventories before LIFO adjustment at year end 2006 and 2005, respectively. The Company's international operations are on the FIFO basis of inventory cost accounting. U.S. operations use both FIFO and LIFO. Our limited use of the LIFO valuation methodology reflects the tax-basis election in place at the time of previous acquisitions of businesses in the U.S.

Inventory reserves are recorded for damaged, obsolete, excess and slow-moving inventory. We use estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory.

Long-lived Asset Impairments

We record impairment charges when the carrying amounts of long-lived assets are determined not to be recoverable. Impairment is measured by assessing the usefulness of an asset or by comparing the carrying value of an asset to its fair value. Fair value is typically determined using quoted market prices, if available, or an estimate of undiscounted future cash flows expected to result from the use of the asset and its eventual disposition. The amount of impairment loss is calculated as the excess of the carrying value over the fair value. Changes in market conditions and management strategy have historically caused us to reassess the carrying amount of our long-lived assets.

Table of Contents

Pensions and Postretirement Benefits

In December 2006, we adopted the provisions of SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R) :

- a) Recognition of the funded status of the Company's defined benefit and postretirement benefit plan (with a corresponding reversal of minimum pension liability under SFAS No. 87)
- b) Recognition of the gains or losses, prior service costs or credits and transition assets or obligations remaining from the initial application of SFAS Nos. 87 and 106 as a component of accumulated other comprehensive income, net of tax
- c) Measurement of the defined benefit plan assets and obligations as of the Company's fiscal year end
- d) Disclosure of additional information about the effects of the amortization of gains or losses, prior service costs or credits, and transition assets or obligations (remaining from the initial application of SFAS Nos. 87 and 106) on net periodic benefit cost for the next fiscal year

Assumptions used in determining projected benefit obligations and the fair value of plan assets for our pension plan and other postretirement benefit plans are evaluated by management in consultation with outside actuaries. In the event we determine that changes are warranted in the assumptions used, such as the discount rate, expected long term rate of return, or health care costs, future pension and postretirement benefit expenses could increase or decrease. Due to changing market conditions or changes in the participant population, the actuarial assumptions we use may differ from actual results, which could have a significant impact on our pension and postretirement liability and related cost.

Discount Rate

We, in consultation with our actuaries, annually review and determine the discount rates to be used in connection with our postretirement obligations. The assumed discount rate for each pension plan reflects market rates for high quality corporate bonds currently available. In the U.S., our discount rate is determined by evaluating several yield curves consisting of large populations of high quality corporate bonds. The projected pension benefit payment streams are then matched with the bond portfolios to determine a rate that reflects the liability duration unique to our plans.

Long-term Return on Assets

We determine the long-term rate of return assumption for plan assets by reviewing the historical and expected returns of both the equity and fixed income markets, taking into consideration that assets with higher volatility typically generate a greater return over the long run. Additionally, current market conditions, such as interest rates, are evaluated and peer data is reviewed to check for reasonability and appropriateness.

Healthcare Cost Trend Rate

Our practice is to fund the cost of postretirement benefits on a cash basis. For measurement purposes, a 9% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2007. This rate is expected to decrease to approximately 5% by 2011.

Income Taxes

Deferred tax assets and liabilities reflect temporary differences between the amounts of assets and liabilities for financial and tax reporting purposes. Such amounts are adjusted, as appropriate, to reflect changes in tax rates expected to be in effect when the temporary differences reverse. A valuation allowance is recorded to reduce our deferred tax assets to the amount that is more likely than not to be realized.

When establishing a valuation allowance, we consider future sources of income such as forecasted earnings, the mix of earnings in the jurisdictions in which we operate, and prudent and feasible tax planning.

Table of Contents

In the event we determine that we would not be able to realize our deferred tax assets in the future, the valuation adjustment to the deferred tax assets is charged to earnings in the period in which we make such a determination. Likewise, if later it is determined that it is more likely than not that the deferred tax assets would be realized, we would release the previously provided valuation allowance.

We calculate current and deferred tax provisions based on estimates and assumptions that could differ from the actual results reflected in income tax returns filed during the following years. Adjustments based on filed returns are recorded when identified in the subsequent years.

The amount of income taxes we pay is subject to ongoing audits by federal, state and foreign tax authorities. Our estimate of the potential outcome of any uncertain tax issue is subject to management's assessment of relevant risks, facts, and circumstances existing at that time. We believe that we have adequately provided for reasonably foreseeable outcomes related to these matters. However, our future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate on a quarterly basis.

Stock-Based Compensation

Effective January 1, 2006, we began recognizing expense for stock-based compensation to comply with the provisions of the reissued SFAS No. 123(R), using the modified prospective application transition method. As permitted by this transition method, results for the prior periods have not been restated. In addition, we continued to recognize compensation cost related to outstanding unvested awards as of December 31, 2005 under the original provisions of SFAS No. 123. Stock-based compensation expense for all awards granted after December 31, 2005 was based on the grant date fair value estimated in accordance with SFAS No. 123(R).

Valuation of Stock Options

Our stock-based compensation expense is the estimated fair value of options granted, amortized on a straight-line basis over the requisite service period. The fair value of each of our stock option awards is estimated on the date of grant using the Black-Scholes option-pricing model. This model requires input assumptions for our expected dividend yield, expected volatility, risk-free interest rate and the expected life of the options.

Expected dividend yield was based on the current annual dividend divided by the 12-month average monthly stock price prior to grant.

Expected volatility for options granted during 2006 was based on both historical and implied volatility. Expected volatility for options granted prior to 2006 was based on historical volatility of our stock price.

Risk-free rate was based on the average of the weekly T-Bond rate over the expected option term.

Expected term was determined based on historical experience under our stock option plans.

Forfeiture rate assumption was determined based on historical data of our stock option forfeitures over the last twelve years.

Certain of the assumptions used above are based on management's estimates. As such, if factors change and such factors require us to change our assumptions and estimates, our stock-based compensation expense could be significantly different in the future.

We have not capitalized costs associated with stock-based compensation.

Accounting for Income Taxes for Stock-based Compensation

We elected to use the short-cut method to calculate the historical pool of windfall tax benefits related to employee stock-based compensation awards.

Table of Contents***Restructuring and Severance Costs***

We account for restructuring costs including severance and other costs associated with exit or disposal activities following the guidance provided in SFAS No. 112, Accounting for Postemployment Benefits, and SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. In the U.S., we have a severance pay plan (Pay Plan), which provides eligible employees with severance payments in the event of an involuntary termination due to qualifying cost reduction actions. We calculate severance pay using the severance benefit formula under the Pay Plan. Accordingly, we record provisions for such amounts and other related exit costs when they are probable and estimable as set forth under SFAS No. 112. In the absence of a Pay Plan, liability for severance and other employee-related costs are recognized when the liability is incurred and follow the guidance of SFAS No. 146.

Litigation and Environmental

We are currently involved in various lawsuits, claims and inquiries, most of which are routine to the nature of our business. In accordance with SFAS No. 5, Accounting for Contingencies, we accrue estimates of the probable and estimable losses for the resolution of these claims. The ultimate resolution of these claims could affect future results of operations should our exposure be materially different from our earlier estimates or should liabilities be incurred that were not previously accrued.

RECENT ACCOUNTING REQUIREMENTS

During 2006, we adopted several accounting and financial disclosure requirements of the Financial Accounting Standards Board (FASB), Emerging Issues Task Force (EITF) and Financial Interpretations by the staff of the FASB. The requirements with the most significant impact were the reissued SFAS No. 123(R), Share-Based Payment, and SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R). (Refer to Note 1, Summary of Significant Accounting Policies, to the Consolidated Financial Statements for more information.)

SAFE HARBOR STATEMENT

The matters discussed in this Management s Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Annual Report contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which are not statements of historical fact, may contain estimates, assumptions, projections and/or expectations regarding future events, which may or may not occur. Words such as aim, anticipate, assume, believe, continue, could, estimate, expect, guidance, intend, plan, potential, project, seek, shall, should, target, will, would, or variations thereof and other expressions to future events and trends, identify forward-looking statements. Such forward-looking statements, and financial or other business targets, are subject to certain risks and uncertainties, which could cause actual results to differ materially from expected results, performance or achievements of the Company expressed or implied by such forward-looking statements.

Certain of such risks and uncertainties are discussed in more detail in Part I, Item 1A, Risk Factors, to the Company s Annual Report on Form 10-K for the year ended December 30, 2006, and include, but are not limited to, risks and uncertainties relating to investment in development activities and new production facilities, timely development and successful market acceptance of new products, fluctuations in cost and availability of raw materials, ability of the Company to achieve and sustain targeted cost reductions, impact of competitive products and pricing, business mix shift, credit risks, ability to obtain adequate financing arrangements, fluctuations in pension, insurance and employee benefit costs, successful integration of acquisitions, successful implementation of new manufacturing technologies and installation of manufacturing equipment, customer and supplier concentrations, financial condition and inventory strategies of customers, changes in customer order patterns, loss of significant contract(s) or customer(s), legal proceedings, including the Canadian Department of Justice and Australian Competition Consumer Commission investigations into

Table of Contents

industry competitive practices and any related proceedings or lawsuits pertaining to these investigations or to the subject matter thereof or of the recently concluded investigations by the DOJ and the EC (including purported class actions seeking treble damages for alleged unlawful competitive practices, and a purported class action related to alleged disclosure and fiduciary duty violations pertaining to alleged unlawful competitive practices, which were filed after the announcement of the DOJ investigation), impact of potential violations of the U.S. Foreign Corrupt Practices Act based on issues in China, changes in governmental regulations, fluctuations in interest rates, fluctuations in foreign currency exchange rates and other risks associated with foreign operations, changes in economic or political conditions, acts of war, terrorism, natural disasters, impact of epidemiological events on the economy, the Company's customers and suppliers, and other factors.

The Company believes that the most significant risk factors that could affect its ability to achieve its stated financial expectations in the near-term include (1) the impact of economic conditions on underlying demand for the Company's products; (2) the impact of competitor's actions, including expansion in key markets, product offerings and pricing; (3) the impact of changes in raw material and energy-related costs and associated changes in selling prices; (4) potential adverse developments in legal proceedings and/or investigations regarding competitive activities, including possible fines, penalties, judgments or settlements; and (5) the ability of the Company to achieve and sustain targeted cost reductions.

The Company's forward-looking statements represent judgment only on the dates such statements were made. By making such forward-looking statements, the Company assumes no duty to update them to reflect new, changed or unanticipated events or circumstances, other than as may be required by law.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Risk Management

We are exposed to the impact of changes in interest rates and foreign currency exchange rates.

Our policy is not to purchase or hold foreign currency, interest rate or commodity contracts for trading purposes.

Our objective in managing the exposure to foreign currency changes is to reduce the risk to our earnings and cash flow associated with foreign exchange rate changes. As a result, we enter into foreign exchange forward, option and swap contracts to reduce risks associated with the value of our existing foreign currency assets, liabilities, firm commitments and anticipated foreign revenues and costs, when available and appropriate. The gains and losses on these contracts are intended to offset changes in the related exposures. We do not hedge our foreign currency exposure in a manner that would entirely eliminate the effects of changes in foreign exchange rates on our consolidated net income.

Our objective in managing our exposure to interest rate changes is to reduce the impact of interest rate changes on earnings and cash flows. To achieve our objectives, we may periodically use interest rate contracts to manage net exposure to interest rate changes related to our borrowings. In connection with the issuance of the \$250 million 10-year senior notes in 2003, we settled a forward starting interest rate swap at a loss of approximately \$32.5 million. The loss is currently being amortized to interest expense over 10 years, which corresponds to the term of the related debt.

Additionally, we enter into certain natural gas futures contracts to reduce the risks associated with anticipated domestic natural gas used in manufacturing and operations. These amounts are not material to our financial statements.

In the normal course of operations, we also face other risks that are either nonfinancial or nonquantifiable. Such risks principally include changes in economic or political conditions, other risks associated with foreign operations, commodity price risk and litigation risk, which are not represented in the analyses that follow.

Table of Contents

Foreign Exchange Value-At-Risk

We use a Value-At-Risk (VAR) model to determine the estimated maximum potential one-day loss in earnings associated with both our foreign exchange positions and contracts. This approach assumes that market rates or prices for foreign exchange positions and contracts are normally distributed. The VAR model estimates were made assuming normal market conditions. Firm commitments, accounts receivable and accounts payable denominated in foreign currencies, which certain of these instruments are intended to hedge, were included in the model. Forecasted transactions, which certain of these instruments are intended to hedge, were excluded from the model. The VAR was estimated using a variance-covariance methodology based on historical volatility for each currency. The volatility and correlation used in the calculation were based on two-year historical data obtained from one of our domestic banks. A 95% confidence level was used for a one-day time horizon.

The VAR model is a risk analysis tool and does not purport to represent actual losses in fair value that could be incurred by us, nor does it consider the potential effect of favorable changes in market factors.

The estimated maximum potential one-day loss in earnings for our foreign exchange positions and contracts was approximately \$.5 million at year end 2006.

Interest Rate Sensitivity

An assumed 40 basis point move in interest rates (10% of our weighted-average interest rate on floating rate debt) affecting our variable-rate borrowings would have had an immaterial effect on our 2006 earnings.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The information called for by this item is contained in the Company's 2006 Annual Report to Shareholders on pages 36 through 69 (including the Consolidated Financial Statements and the Notes thereto appearing on pages 36 through 67, Statement of Management Responsibility for Financial Statements and Management's Report on Internal Control Over Financial Reporting on page 68, and the Report of Independent Registered Public Accounting Firm on page 69) and is incorporated herein by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures. As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) of the Exchange Act). Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting. Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) of the Exchange Act). Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, the Company conducted an evaluation of the effectiveness of its internal control over financial reporting based upon the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the

Table of Contents

Treadway Commission. Based on that evaluation, the Company's management concluded that its internal control over financial reporting was effective as of December 30, 2006. (See Management's Report on Internal Control Over Financial Reporting on page 68 in the Company's 2006 Annual Report to Shareholders.)

Management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 30, 2006, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their Report of Independent Registered Public Accounting Firm on page 69 in the Company's 2006 Annual Report to Shareholders, and is incorporated herein by reference.

Changes in Internal Control over Financial Reporting. During the third quarter of 2006, the Company implemented an upgrade to its financial reporting and consolidation system and installed new finance and accounting software for its Retail Information Services business in Asia. The Company reviewed both systems as they were being implemented, as well as the internal controls affected by the implementation. Where appropriate, the Company made changes to affected internal controls.

During the fourth quarter of 2006, the Company outsourced certain of its shared service functions for accounts receivable, accounts payable, and general ledger accounting to a third-party service provider. As part of the transition process, the Company reviewed the related internal controls and determined that the design of the controls surrounding these processes satisfies the control objectives of the Company. Where appropriate, the Company made changes to affected internal controls. The Company also tested the operating effectiveness of the controls, and determined that they were operating effectively.

Except for these changes, there have been no changes in the Company's internal controls over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting. The Company believes that its internal controls, as modified, were operating effectively as of December 30, 2006.

Item 9B. OTHER INFORMATION

None.

PART III

Item 10. DIRECTORS, EXECUTIVE OFFICERS OF THE REGISTRANT AND CORPORATE GOVERNANCE

The information concerning directors called for by this item is incorporated by reference from pages 2-4 and 7-8 of the 2007 Proxy Statement, filed with the SEC pursuant to Regulation 14A within 120 days of the end of the fiscal year covered by this report. Information concerning executive officers called for by this item appears in Part I of this report. The information concerning late filings under Section 16(a) of the Securities Exchange Act of 1934, as amended, is incorporated by reference from page 6 of the 2007 Proxy Statement.

We have adopted a Code of Ethics (the Code). The Code applies to our Chief Executive Officer, Chief Financial Officer and Controller. Our Code is available on the Company's Web site, www.averydennison.com, in the Investors section. We will satisfy disclosure requirements under Item 5.05 of Form 8-K regarding any amendment to, or waiver from, any provision of the Code that applies to these officers disclosing the nature of such amendment or waiver on our Web site or in a current report on Form 8-K. Our Code of Ethics and Business Conduct, which applies to our directors and employees, is also available on our Web site in the Investors section. *The Company's Web site address provided above is not intended to function as a hyperlink, and the contents of the Web site are not a part of this Form 10-K, nor are they incorporated by reference herein.*

Item 11. EXECUTIVE COMPENSATION

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Item 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information called for by Items 11, 12, 13 and 14 is incorporated by reference from page 5 until the end of the Audit Committee Report of the 2007 Proxy Statement, filed with the Securities and Exchange Commission pursuant to Regulation 14A within 120 days of the end of the fiscal year covered by this report.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) Financial Statements, Financial Statement Schedule and Exhibits

(1) (2) Financial statements and financial statement schedule filed as part of this report are listed in the accompanying Index to Financial Statements and Financial Statement Schedule.

(3) Exhibits filed as a part of this report are listed in the Exhibit Index, which follows the financial statements and schedules referred to above. Each management contract or compensatory plan or arrangement required to be filed as an exhibit to this Form 10-K pursuant to Item 15(c) is identified in the Exhibit Index.

(b) Those Exhibits and the Index thereto, required to be filed by Item 601 of Regulation S-K, are attached hereto.

(c) Those financial statement schedules required by Regulation S-X, which are excluded from the Company's 2006 Annual Report by Rule 14a-3(b)(1) and which are required to be filed as a financial statement schedule to this report, are indicated in the accompanying Index to Financial Statements and Financial Statement Schedule.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON FINANCIAL STATEMENT SCHEDULE**

To the Board of Directors
of Avery Dennison Corporation:

Our audits of the consolidated financial statements, of management's assessment of the effectiveness of internal control over financial reporting and of the effectiveness of internal control over financial reporting referred to in our report dated February 22, 2007 appearing in the 2006 Annual Report to Shareholders of Avery Dennison Corporation (which report, consolidated financial statements and assessment are incorporated by reference in this Annual Report on Form 10-K) also included an audit of the financial statement schedule listed in Item 15(a)(2) of this Form 10-K. In our opinion, this financial statement schedule presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.
