PROPOSAL 1

ELECTION OF DIRECTORS

The Board of Directors currently comprises seven directors. The directors are divided into three classes, two of which are comprised of two directors and one is comprised of three directors. One class is elected each year for a three-year term. Gary F. Locke was appointed to the Board of Directors upon the recommendation of the Nominating and Corporate Governance Committee on September 9, 2008. Mr. Locke was initially recommended by Donald A. Washburn, an independent director and Chairman of the Board's Nominating and Corporate Governance Committee.

The three nominees recommended by the Nominating and Corporate Governance Committee and nominated by the Board of Directors for election as directors at this year's Annual Meeting, to serve until the Annual Meeting of Shareholders in 2012 or until their respective successors are elected, are Gary F. Locke, Michael L. Shannon and Donald A. Washburn. All of the nominees for director are independent, as defined under the rules of The Nasdaq Global Market®.

Unless marked otherwise, proxies received will be voted FOR the election of each of the nominees.

If a nominee is unable or unwilling to serve as a director at the date of the Annual Meeting or any adjournment or postponement thereof, the proxies may be voted for a substitute nominee designated by the proxy holders or by the present Board of Directors to fill such vacancy, or for another properly designated nominee without nomination of a substitute, or the number of directors on the Board may be reduced accordingly. The Board of Directors has no reason to believe that any of the nominees will be unwilling or unable to serve if elected.

The Board of Directors recommends a vote FOR the election of Messrs. Locke, Shannon and Washburn.

The following table sets forth certain information about each nominee for election to the Company's Board of Directors, each continuing director and each executive officer who is not also a director. During fiscal 2008, the Board of Directors held seven meetings. No director attended fewer than 75% of the total number of meetings of the Board of Directors and the committees of which he was a member during the period of such director's service during fiscal 2008.

The Board of Directors does not currently have a policy with regard to the attendance of board members at the annual meeting of shareholders. All of the current directors of the Company then-serving attended the Company's 2008 Annual Meeting of Shareholders.

The Board of Directors has determined that a majority of its directors presently meet the independence standards established under the applicable rules of The Nasdaq Global Market. These directors are Messrs. Lawrence, Locke, Pelo, Shannon, Stonecipher and Washburn.

The Audit Committee consists of four members: Mr. Pelo, Chairman, Mr. Lawrence, Mr. Stonecipher, and Mr. Washburn. All of the Audit Committee members are independent, as defined under the rules of The Nasdaq Global Market. The Audit Committee operates under a written charter adopted by the Board of Directors, which is provided to shareholders as Appendix A to this Proxy Statement and is available on the Company's website at www.key.net. The function of the Audit Committee is to review the performance of and recommend to the Board of Directors the appointment of the Company's independent registered public accountants, to review and approve the scope and proposed cost of the yearly audit, to review the financial information provided to shareholders and others, to review the Company's internal controls, and to consult with and review recommendations made by the Company's independent registered public accountants with respect to financial statements, financial records and internal controls, and to make such other recommendations to the Board of Directors as it deems appropriate from time-to-time. The Audit Committee met nine times during fiscal 2008.

The Compensation and Management Development Committee consists of four members: Mr. Shannon, Chairman, and Mr. Lawrence, Mr. Locke and Mr. Washburn. All of the Compensation and Management Development Committee members are independent, as defined under the rules of The Nasdaq Global Market. The Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at www.key.net. The Committee is charged with reviewing and approving corporate goals and objectives relevant to compensation of the Company's chief executive officer, evaluating the chief executive officer's performance in light of those goals and objectives, and determining and approving the compensation level of the chief executive officer based on this evaluation. The Committee is also charged with, among other matters, considering and making recommendations to the Board of Directors regarding the compensation of the senior executives of the Company; and considering, reviewing and granting awards under the Company's stock incentive plans and cash bonus plans for senior executives administered by the Committee. The Committee has delegated to the Chief Executive Officer the authority to make discretionary awards of restricted stock each year up to a pre-determined aggregate number of shares to non-executive managers, individual contributors, and new hires for the purposes of retention and recruitment. For fiscal 2009, this number has not yet been determined. The Committee met seven times during fiscal 2008.

The Nominating and Corporate Governance Committee consists of six members: Mr. Washburn, Chairman, Mr. Lawrence, Mr. Locke, Mr. Pelo, Mr. Shannon, and Mr. Stonecipher, all of whom are independent directors as defined under the rules of The Nasdaq Global Market. The Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at www.key.net. The Committee is responsible for providing guidance and recommendations with respect to Board education and development, identifying qualified candidates who may become future members of the Board, and developing and monitoring corporate governance principles. The Committee met four times during fiscal 2008.

The Nominating and Corporate Governance Committee receives suggestions for potential director nominees from many sources, including members of the Board of Directors, advisors, and shareholders. Any such

Table of Contents

nominations, together with appropriate biographical information, should be submitted to the Committee in accordance with the Company's policies governing submissions of nominees discussed below. Any candidates submitted by a shareholder or shareholder group will be reviewed and considered by the Committee in the same manner as all other candidates.

Qualifications for consideration as a board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, minimum qualifications include high level leadership experience in business activities, breadth of knowledge about issues affecting the Company, experience on other boards of directors, preferably public company boards, and time available for meetings and consultation on Company matters. The Nominating and Corporate Governance Committee seeks a diverse group of candidates who possess the background, skills and expertise to make a significant contribution to the Board, to the Company and its shareholders. The Committee evaluates potential nominees, whether proposed by shareholders or otherwise, by reviewing their qualifications, reviewing results of personal and reference interviews, and reviewing such other information as may be deemed relevant. Candidates whose evaluations are favorable are then chosen by a majority of the members of the Nominating and Corporate Governance Committee to be recommended for selection by the Board of Directors. The Board selects and recommends candidates for nomination as directors for shareholders to consider and vote upon at the annual meeting. The Company does not currently employ an executive search firm, or pay a fee to any third party, to locate qualified candidates for director positions.

A shareholder wishing to nominate a candidate for election to the Company's Board of Directors at any annual meeting at which the Board has determined that one or more directors will be elected shall submit a written notice of his or her nomination of a candidate to the Company's Secretary at its principal executive offices. The submission must be received at the Company's principal executive offices not less than 120 calendar days before the date the Company's proxy statement was released to shareholders in connection with the previous year's annual meeting. For the 2010 annual meeting, this date would be September 7, 2009. However, if the Company did not hold an annual meeting the previous year, or if the date of this year's annual meeting has been changed by more than 30 days from the date of the previous year's meeting, then the deadline is a reasonable time before the Company begins to print and mail its proxy materials.

A shareholder's notice to the Secretary in order to be valid must set forth (i) the name and address, as they appear on the Company's books, of the shareholder nominating such candidate; (ii) the class and number of shares of the Company which are beneficially owned by the shareholder; (iii) the name, age, business address and residence address of each nominee proposed in the notice; (iv) the principal occupation or employment of the nominee; (v) the number of shares of the Company's Common Stock beneficially owned by the nominee, if any; (vi) a description of all arrangements or understandings between the shareholder and each nominee and any other person pursuant to which the shareholder is making the nomination; and (vii) any other information required to be disclosed in solicitations of proxies for election of directors or information otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, relating to any person that the shareholder proposes to nominate for election or re-election as a director, including the nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected.

The Company has adopted the Key Technology, Inc. Code of Business Conduct and Ethics which applies to all of the Company's directors and employees, including its chief executive officer and senior financial officers. The Code of Business Conduct and Ethics is available on the Company's website at www.key.net and will be provided without charge to any shareholder upon written request to: Investor Relations, Key Technology, Inc., 150 Avery Street, Walla Walla, Washington 99362. The Code of Business Conduct and Ethics provides that any waiver of its applicability to any director or executive officer may be made only by the Board of Directors or an appropriately designated Board committee and will be publicly disclosed promptly to the Company's shareholders.

The amount and composition of Board compensation is consistent with recommendations received from compensation consultants.

During fiscal 2008, the Board of Directors adopted stock ownership guidelines for its directors. The ownership guidelines call for the non-executive board members to own shares of the Company's common stock having a value equal to at least five times the level of the board member's annual base cash compensation to be achieved within three years of initiation of service as a director.

The following table provides information as to compensation for services of the non-employee directors during fiscal 2008, including compensation attributed to them in 2008 as a result of stock option grants and restricted stock awards made in prior years.

- (2) The threshold, target and maximum values are calculated based on certain percentages of the executive's annual base salary. The percentages and formulas are described below in the Compensation Discussion and Analysis section of this Proxy Statement.
- (3) This award is a performance-based restricted stock award granted to Mr. Camp pursuant to commitments made at the time of hire as described below in the Compensation Discussion and Analysis section of this Proxy Statement and represents the second of three annual grants. - (4) This award is a service-based restricted stock

award granted to Mr. Camp pursuant to commitments made at the time of hire as described below in the Compensation Discussion and Analysis section of this Proxy Statement and represents the second of three annual grants. This award will vest one-third each year beginning September 30, 2008.

- (5) These awards are the 2008 equity incentive restricted stock awards granted to the named executive officers under the Company's 2003 Restated Employee's Stock Incentive Plan as described below in the Compensation Discussion and Analysis section of this Proxy Statement. In total, each award is valued at 50% of the executive's annual base salary, with the exception of Mr. Ehren whose award is valued at 100% of his annual base salary and was granted per the terms of his initial employment. Two-thirds of these shares are

performance-based restricted stock, the restrictions on which lapse on December 15, 2010 upon the Company achieving certain pre-determined financial performance goals related to revenue and earnings growth over a three-year period compared to the fiscal year preceding the grant date. The remaining one-third of the shares are service-based restricted stock awards and will vest based on continued employment in three equal annual installments beginning October 1, 2008, with the exception of Mr. Ehren whose restrictions lapse annually beginning February 25, 2009. The service-based shares are denoted with an asterisk (*). The service-based award for Mr. Boutsikaris includes an additional 1,000 shares of service-based restricted stock granted to him for exceeding 100% of his fiscal 2007 cash bonus program goals.

Stock Incentive Compensation for the Chief Executive Officer

Pursuant to commitments made at the time of hire, the Chief Executive Officer is entitled to receive an annual award of 21,602 shares of restricted stock during each of the first three years of his employment. The commitment to the annual grant amount was equal in value to 100% of Mr. Camp's annual base salary of \$275,000 based on the fair market value of the Company's Common Stock on the date of the commencement of employment.

Table of Contents

Fifty percent of each annual restricted share grant will vest based on continued employment, in three equal annual installments, and 50% of each annual restricted share grant will vest based on financial performance criteria determined by the Compensation Committee and measured over the three-year period applicable to each annual grant. It is anticipated that beginning in fiscal year 2010, annual restricted stock grants will be awarded to Mr. Camp, with the size of the award targeted at 100% of his base salary.

Activity Prior to Fiscal 2008

During fiscal 2008, final payouts on prior performance-based and time-based restricted stock awards under a prior plan were made. The amounts recognized for financial reporting purposes are reflected in the Summary Compensation Table Fiscal 2008 above.

In past years, the Compensation Committee or the Board of Directors had from time to time also awarded stock options to executive officers and key employees under the Stock Incentive Plan and predecessor plans. Beginning with the 2006 fiscal year, the Compensation Committee determined that equity incentive awards should primarily be granted in the form of shares of restricted stock. The Compensation Committee determined to switch from stock options to restricted stock for a number of reasons, but some of the more important reasons were that (i) restricted stock awards provide a more predictable form of compensation and do not reward short-term price fluctuations in the price of the Company's Common Stock that many critics have argued is inherent in stock options, (ii) restricted stock awards reduce dilution to the Company's shareholders because the Company can provide a long-term incentive award having the same relative value as a stock option award using fewer shares, and (iii) due to changes in accounting rules under SFAS No. 123(R), stock options no longer receive preferential financial accounting treatment relative to restricted stock awards.

None of the named executive officers have ever been granted stock options. The following table reflects previously granted and outstanding restricted stock awards.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****Overview of Compensation**

The Compensation and Management Development Committee of the Board of Directors (the Compensation Committee) is responsible for oversight and design of compensation programs for the Company's senior management. The Compensation Committee is composed only of independent, non-employee members of the Board of Directors. The Compensation Committee, with input from the Board of Directors, is responsible for establishing performance goals and objectives relevant to compensation of the Chief Executive Officer, evaluating his performance in light of those goals and objectives, and determining and approving his compensation based on this evaluation. The Compensation Committee reviews and considers recommendations made by the Chief Executive Officer in determining the compensation of the other named executive officers. Under the Compensation Committee Charter, the Compensation Committee is also charged with administering and granting awards under the Company's stock incentive plans and cash incentive plans for senior executives.

Background

The Compensation Committee makes every effort to ensure that the Company's compensation program for senior management aligns interests of senior management with the economic interests of shareholders and provides incentives to support the business strategy of the Company. Historically, the Compensation Committee has not retained compensation consultants to review the Company's executive compensation policies or survey compensation paid by comparable companies, and no compensation consultant was retained with respect to fiscal 2008 or any prior year. Instead, the Compensation Committee has conducted an annual review of compensation for the named executive officers. In making compensation decisions, the Chief Executive Officer and Compensation Committee have historically considered the Company's financial performance, as well as the experience level and contributions of the individual executive officer, the role and responsibilities of the executive officer, and other factors. The goal has been to provide reasonable and fair compensation with appropriate incentives that are sufficient to recruit and retain executive employees with the skill, background and experience to lead the Company and to achieve the goals set by the Chief Executive Officer and the Board of Directors.

Compensation Philosophy and Objectives

The Compensation Committee has established the following compensation objectives for the Company's named executive officers as important elements of its overall compensation philosophy:

Compensation should be related to performance. The Compensation Committee believes that the compensation paid to the named executive officers should be closely aligned with the performance of the Company on both a short-term and long-term basis, with a material portion of an executive's potential annual cash compensation at risk if Company and individual performance objectives are not achieved.

Compensation should serve to encourage executives to remain with the Company. The Company's executive compensation program components are designed to retain talented executives. The Compensation Committee believes that continuity of employment is critical to achieving the Company's strategic objectives and building shareholder value. A significant element of the executive compensation program, therefore, is long-term stock-based incentive compensation plans with awards that vest on a rolling basis over periods of several years. As part of the retention objective, the Committee believes that compensation should include a meaningful stock component to further align the interests of senior management with our shareholders.

Compensation should be reasonable for our business, our locations and our long-term, multi-year approach to achieving sustainable growth. The Compensation Committee believes that an appropriate compensation package will attract executives and motivate them to achieve the Company's annual and long-term strategic objectives. At the same time, the Committee believes that compensation should be set at reasonable and fiscally responsible levels.

Table of Contents**Elements of Compensation**

The compensation program for named executive officers consists of (i) annual base cash compensation, (ii) annual performance-based cash compensation, (iii) long-term awards of restricted stock, and (iv) other executive benefits. A discussion of each element follows.

Annual Base Cash Compensation

The Company provides the named executive officers with annual base cash compensation (base salary) at levels which generally are less than half the potential total annual cash compensation if the Company s performance objectives for that year are substantially exceeded. Base salary is a fixed, cash component of overall compensation, which is reviewed and may be adjusted periodically based on a variety of factors, including general economic conditions, cost of living changes, executive performance, Company performance and perceived changes in market rates of pay for comparable executives. Base salary ranges for named executive officers are designed to account for different experience, responsibilities and performance levels.

Annual Performance-Based Cash Compensation

The Company s annual performance-based cash compensation program is designed to tie executive compensation to the Company s performance and for fiscal 2008 contained three elements: (1) an objectively determined portion awarded upon the Company achieving certain financial performance goals for that year; (2) an individual incentive portion tied to the performance of certain aspects of the Company s business within the executive s area of responsibility; and (3) a graduated supplemental incentive based on the Company exceeding its financial performance goals. Annual performance-based cash payments for a given year are approved by the Compensation Committee in the first quarter of the following year after a review of the previous fiscal year s financial performance. Beginning in fiscal 2009, a fourth element was added to allow the Chief Executive Officer to make a discretionary cash bonus award to the other named executives, based on subjective factors, in an amount up to 10% of the named executive officer s base salary. Additionally, some or all of performance-based cash compensation for an executive may be at risk if the annual cost budget in the executive s area of responsibility is exceeded by 10% or more.

A target level, which determines the percentage of the named executive officer s base salary that may be earned as performance-based cash compensation for the fiscal year, is established by the Compensation Committee for each named executive officer prior to the commencement of the fiscal year. With the exception of the Chief Executive Officer, the Chief Financial Officer and Mr. Brausen, the target level for all named executive officers for fiscal 2008 varied from 10% to 20% of base salary based on the achievement of a targeted earnings goal for the Company, and 20% to 40% of base salary based on achievement of performance goals within the particular executive s area of responsibility. The target bonus percentage may vary somewhat year to year depending on the value of specific annual objectives and goals. The Chief Executive Officer s target level of performance-based cash compensation for fiscal 2008 was 100% of base salary in accordance with the terms of his employment established at the initiation of his employment with the Company.

The Chief Executive Officer s base salary, cash bonus and stock incentive compensation are higher than that of the other individual named executive officers due to the increased level of his responsibility. The Compensation Committee does not believe that the differences in cash incentive compensation during the past year among the other executive officers are material.

The Compensation Committee has determined that annual net earnings is the primary appropriate measure of financial performance by which to link annual cash incentive compensation to Company performance. The Compensation Committee establishes financial targets for the Company for each fiscal year either at the beginning of the year or in the fourth quarter of the preceding fiscal year, with an emphasis on net earnings, based on the Company s business plan for the year. The business plan is developed and proposed by management, but is subject to review and final approval by the Board of Directors.

Table of Contents

In addition to the earnings-based element, the second element of the named executive officer's annual performance-based cash compensation is based on an individual incentive plan designed to place a percentage of the executive's total annual cash compensation at risk to encourage achievement against measured quantitative goals within the executive's area of responsibility. For fiscal 2008, all of the named executive officers except for the Chief Executive Officer, the Chief Financial Officer and Mr. Brausen participated in individual annual performance-based cash compensation incentive plans tied to a specific area of Company financial performance. Mr. Boutsikaris was eligible to earn additional annual performance-based cash compensation equal to 40% of his annual base salary if the Company's new orders met or exceeded a budgeted target amount involving specific objectives related to bookings, factory margins and sales expenses per order dollar. Mr. Miller was eligible to earn additional annual performance-based cash compensation equal to 30% of his annual base salary if the Company's aftermarket and SYMETIX factory margin and SYMETIX contribution met or exceeded a budgeted target amount. Mr. Hopwood was eligible to earn additional annual performance-based cash compensation equal to 20% of his annual base salary by achieving certain specific recruiting objectives. For fiscal 2008, Mr. Ehren was not eligible to participate in any cash incentive plan due to the timing of his hire and terms of employment. In fiscal 2009, he will participate in the same performance-based cash compensation program as the other named executive officers.

The third portion of the named executive officer's annual performance-based cash compensation is in the form of a supplemental incentive cash bonus for Company performance in excess of targeted achievement levels. With the exception of Mr. Camp, Mr. Ehren and Mr. Brausen, each officer is eligible to receive an additional graduated bonus amount to the extent the Company exceeds its net earnings target or the pre-established quantitative goal for the individual executive's area of responsibility, in each case by not less than 10%, up to a maximum supplemental bonus amount such that the total cash bonus could equal 100% of the officer's base salary, and potentially in excess of 100% for performance substantially in excess of goals and if approved at the discretion of the Compensation Committee. The Compensation Committee has the discretion to award a supplemental incentive cash bonus to Mr. Camp up to a maximum supplemental bonus amount such that the total annual performance-based cash compensation could equal 200% of his base salary. The supplemental incentive cash bonus for Mr. Camp is based solely upon the Company exceeding its pre-established earnings goal for the year.

For fiscal 2008, the Company did not exceed the net earnings objective but certain other performance measures established by the Compensation Committee for senior management incentive pay were met, and as a result an aggregate total of \$213,634 of performance-based cash compensation was awarded to the named executive officers. The following table states the fiscal 2008 annual performance-based cash compensation awarded to each named executive officer:

Name	Annual Base Compensation	Cash Bonus Awarded for Target Earnings Achievement	Cash Bonus Awarded for Company Performance in Area of Responsibility	Supplemental Incentive Cash Bonus Awarded for Exceeding Target	Total Cash Bonus Awarded

Annual Performance Based Cash Compensation for Fiscal 2009

The Company's annual performance-based cash compensation program for fiscal 2009 has been established based on the Company's business plan for the year and the criteria as described above. The Compensation Committee believes that the goals it sets in connection with the determination of performance-based

Table of Contents

cash compensation should be aggressive, relative to Company performance in prior years, industry conditions and other factors, emphasizing overall financial performance and, in particular, net earnings.

Stock Incentive Compensation

The Compensation Committee believes that incentives tied to stock ownership by executive officers and key employees are the most important component of total compensation. The Compensation Committee uses grants of restricted stock as part of the Company's overall incentive compensation to align the interests of executive officers with those of the Company's shareholders. All named executive officers other than Mr. Brausen participate in the restricted stock awards. The stock is restricted in that if the criteria for retention of the shares awarded are not achieved, the shares are forfeited and cancelled. If the criteria for unrestricted ownership are achieved, the restrictions lapse.

Beginning in 2008, the Compensation Committee began awarding annual grants of restricted stock to executive officers. One-third of the shares awarded under the annual grant of restricted stock are subject to time-based vesting requirements. Two-thirds of the shares awarded under the annual grant are subject to Company achievement of specified financial performance criteria. The restrictions on the annual grants of restricted stock lapse on a rolling basis over three years as described below. With the exception of the Chief Executive Officer, each participating executive officer will receive in fiscal 2009 a grant of restricted stock valued at between 80% and 125% of the executive's base salary on the date of grant.

The lapse of the restrictions on one-third of each of the awards of restricted stock (the time-vested shares) is contingent upon the continued employment of the executive for the three-year period ending September 30, 2011, vesting in equal annual increments each year during the three-year period, subject to acceleration in certain circumstances in the event of termination of employment prior to such date. The lapse of the restrictions on the remaining two-thirds of the restricted stock (the performance shares) is contingent upon the Company achieving certain pre-determined financial performance criteria related to revenue and earnings growth during the three-year period as set by the Compensation Committee. The Company must also meet goals for return on capital used to achieve its revenue and earnings objectives. The restrictions are intended to lapse after three years, subject to achievement of the performance criteria and continued employment.

Other Benefits and Perquisites

The philosophy of the Company is not to provide material perquisites to its named executive officers. Executive officers are eligible to participate in the Company's 401(k) plan and Restated 1996 Employee Stock Purchase Plan, and receive similar health, dental and insurance benefits as are available to other employees of the Company.

Other Compensation Matters*Change in Control and Severance Arrangements*

Pursuant to commitments made at the time of hire, if Mr. Camp's employment with the Company is terminated at or within 12 months of a change in control event, or by the Board without cause in a non-change of control environment, Mr. Camp will receive severance benefits equal to one year's base salary. In the event that a transaction occurs in which substantially all of the Company's assets or 50% or more of its stock is acquired in one or more related transactions, the restrictions on all shares of restricted stock previously awarded to Mr. Camp will immediately lapse. The purpose of the change in control and severance arrangement is to facilitate Mr. Camp's continued service with the Company.

For purposes of Mr. Camp's severance arrangement, cause is defined to mean (i) a material breach by Mr. Camp of his obligations to perform the duties of his position, other than as a result of incapacity due to physical or mental illness, which is demonstrably willful and deliberate on his part, which is committed in bad faith or without reasonable belief that such breach is in the best interests of the Company and which is not remedied in a reasonable period of time after receipt of a written notice from the Company specifying such breach or (ii) the conviction of Mr. Camp (including a plea of nolo contendere) of a felony or gross misdemeanor under federal or state law which is

Table of Contents

materially and demonstrably injurious to the Company or which impairs Mr. Camp's ability to perform substantially his duties for the Company.

During fiscal 2008, the Company entered into a severance agreement with Mr. Ehren that was established in accordance with the terms of his recruitment and initial employment. Pursuant to the terms of this agreement, if his employment terminates for reasons other than for cause at any time during his first 12 months of employment, he will receive severance in an amount equal to six months salary payable over a six-month period, subject to withholding taxes, and the Company will also pay all COBRA contributions in order to continue his elected medical and dental coverage for a period of twelve months following termination of his employment.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally provides that a publicly-held company may not deduct compensation paid to certain of its top executive officers to the extent such compensation exceeds \$1,000,000 per officer in any year. However, pursuant to regulations issued by the Treasury Department, certain limited exceptions to Section 162(m) apply with respect to performance-based compensation. At the Company's 2008 Annual Meeting, its shareholders approved an amendment to the Company's 2003 Restated Employees' Stock Incentive Plan related to the establishment of performance goals for performance-based awards of restricted stock. The approval of this amendment meets one of the criteria the IRS requires for the Company to be able to exempt compensation attributed to performance-based awards of restricted stock from the limitations on tax deductible compensation expense of Section 162(m). The Company did not pay any compensation during fiscal 2008 that would be subject to the limitations set forth in Section 162(m) and, therefore, all compensation paid to executives was deductible for tax purposes.

Stock Ownership Guidelines

As noted above, part of the Compensation Committee's compensation philosophy is to align the interests of its named executive officers with those of the Company's shareholders. During fiscal 2008, the Board of Directors adopted stock ownership guidelines for its named executive officers. The ownership guidelines call for the Chief Executive Officer to own shares of the Company's Common Stock having a value equal to at least four times his base salary. The ownership guidelines call for the Chief Financial Officer to own shares of the Company's Common Stock having a value equal to at least three times his base salary. The ownership guidelines call for all other named executive officers who are Senior Vice Presidents or Vice Presidents of the Company to own shares of the Company's Common Stock having a value equal to at least two and one times, respectively, of their respective base salaries. The Chief Executive Officer and each other executive officer have four years from the date of their respective appointment to attain their target share ownership.

AUDIT COMMITTEE REPORT AND OTHER RELATED MATTERS

Report of the Audit Committee of the Board of Directors

The information contained in this report shall not be deemed to be soliciting material, or to be filed with, the Securities and Exchange Commission or to be subject to Regulation 14A or Regulation 14C (other than as provided in Item 407 of Regulation S-K) or to the liabilities of Section 18 of the Securities Exchange Act of 1934, and shall not be deemed to be incorporated by reference into future filings with the Securities and Exchange Commission except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933 or the Securities Exchange Act of 1934.

The Audit Committee of the Board of Directors comprises four non-employee directors who meet the independence standards of The Nasdaq Global Market. The members of the Audit Committee are John E. Pelo, Chairman, Richard Lawrence, Charles H. Stonecipher and Donald A. Washburn. The Board has determined that Mr. Pelo qualifies as an audit committee financial expert under federal securities laws. The Audit Committee operates under a written charter adopted by the Board of Directors, which is provided to shareholders as Appendix A to this Proxy Statement and is available on the Company's website at www.key.net. Among other things, the Audit Committee recommends to the Board of Directors the selection of the Company's independent registered public accountants (the public accountants). The Audit Committee has adopted a policy for the pre-approval of services provided by the public accountants.

Management is responsible for the Company's internal controls and the financial reporting process. The Company's public accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and the public accountants of the Company. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated audited financial statements separately with management and the Company's public accountants. The Audit Committee discussed with the public accountants the matters required to be discussed by Statement on Auditing Standards No. 61, as amended.

The Company's public accountants also provided to the Audit Committee the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Audit Committee discussed with the Company's public accountants that firm's independence and considered whether the non-audit services provided by the Company's public accountants were compatible with maintaining the independence of such public accountants.

Based upon the Audit Committee's discussion with management and the public accountants and the Audit Committee's review of the representations of management and the report of the public accountants to the Audit Committee, the Audit Committee recommended that the Board of Directors include the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2008 filed with the Securities and Exchange Commission.

Table of Contents

For fiscal year 2008, management completed the documentation, testing, and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002, and related regulations. The Audit Committee monitored the progress of the evaluation and provided oversight and guidance to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and the Company's public accountants. At the conclusion of the process, management provided the Audit Committee with a report on management's assessment of the effectiveness of internal control over financial reporting, and the Company's public accountants provided the Audit Committee with their related report.

In compliance with the Sarbanes-Oxley Act, the Audit Committee has established procedures for receipt, retention, and treatment of complaints for confidential, anonymous reporting of employee concerns with regard to accounting controls or auditing matters.
