NOTES TO SCHEDULE OF INVESTMENTS

* Denotes non-income producing security

- (a) Portfolio securities listed on recognized United States or foreign securities exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, of two brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are readily available are valued at current market value. Securities for which market quotations are not readily available are valued in good faith at fair value using methods determined by the Board of Directors. Direct Investments not traded on an exchange are valued at fair value as determined by the Board of Directors based on advice from the Investment Manager and Direct Investment Manager. The Direct Investment's original cost is considered to be fair value unless the Board of Directors, based on such advice, concludes there has been a material change of a long-term nature and sufficient reliable information is available to revalue these investments.

The China Fund, Inc.'s (the "Fund") investments in China companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of China companies trade; (3) currency exchange fluctuations, currency blockage and higher rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized China companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

- (b) Direct investments are generally restricted as to resale and do not have a readily available resale market. On the date of acquisition of each direct investment, there were no market quotations on similar securities, and such investments were therefore initially valued at acquisition cost. The procedures applied by the Board of Directors in arriving at its estimate of value of securities without readily available market values comply with the Fund's policies for valuing Direct Investments at original cost unless the Board of Directors, based on advice from the Direct Investment Manager, concludes that there has been a material change of a long-term nature and sufficient reliable information is available to revalue these investments. Determination of fair values involves subjective judgment and, because of the inherent uncertainty of valuation, the Board of Directors' estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

Edgar Filing: CHINA FUND INC - Form N-Q

- (c) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees (see note (a) above).
 - (d) Warrants issued by Citigroup Global Markets Holdings
 - (e) Amount represents less than 0.1% of net assets.
- + Affiliated Issuer, as defined in the 1940 Act, includes issuers in which the Fund held 5% or more of the outstanding securities.
- ** At July 31, 2005, aggregate gross unrealized appreciation for all securities for which there was an excess of value over financial reporting cost was \$88,799,243 and aggregate gross unrealized depreciation for all securities for which there was an excess of financial reporting cost over value was \$9,864,358 and net appreciation for financial reporting purposes was \$78,934,885. At July 31, 2005, aggregate cost for financial reporting purposes was \$172,321,637.

ITEM 2. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this Form N-Q that includes the disclosure required by this paragraph based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS.

The certification required by Rule 30a-2 of the 1940 Act is attached as an exhibit to this filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
