PROXY STATEMENT

**For the 2008 Annual Meeting of Stockholders
To Be Held On May 28, 2008**

This proxy statement and the enclosed proxy card are being furnished in connection with the solicitation of proxies by the board of directors of Critical Therapeutics, Inc. for use at the 2008 Annual Meeting of Stockholders to be held on May 28, 2008 at 10:00 a.m., local time, at the Doubletree Guest Suites, 550 Winter Street, Waltham, MA 02451, and of any adjournment thereof.

All proxies will be voted in accordance with your instructions. If no choice is specified, the proxies will be voted in favor of the matters set forth in the accompanying Notice of Meeting. Any proxy may be revoked by a stockholder at any time before it is exercised by delivery of written revocation to our Secretary or by appearing at the meeting and voting in person.

Our Annual Report to Stockholders for the fiscal year ended December 31, 2007 is being mailed to stockholders with the mailing of these proxy materials on or about April 25, 2008.

A copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 as filed with the Securities and Exchange Commission, or SEC, except for exhibits, will be furnished without charge to any stockholder upon written or oral request to Critical Therapeutics, Inc., Attention of Linda S. Lennox, Vice President, Investor & Media Relations, 60 Westview Street, Lexington, Massachusetts 02421; telephone: (781) 402-5700. This proxy statement and our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 are also available on the SEC's website at www.sec.gov.

Voting Securities and Votes Required

Stockholders of record at the close of business on April 2, 2008 will be entitled to notice of and to vote at the annual meeting. On that date, 43,479,198 shares of our common stock were issued and outstanding. Each share of common stock entitles the holder to one vote with respect to all matters submitted to stockholders at the meeting. We have no other securities entitled to vote at the meeting.

The representation in person or by proxy of at least a majority of the shares of common stock issued, outstanding and entitled to vote at the annual meeting is necessary to establish a quorum for the transaction of business. If a quorum is not present, the meeting will be adjourned until a quorum is obtained.

Directors are elected by a plurality of votes cast by stockholders entitled to vote at the meeting. To be approved, any other matter submitted to our stockholders, including the ratification of Deloitte & Touche LLP as our independent registered public accounting firm, requires the affirmative vote of the majority of shares present in person or represented by proxy and voting on such matter at the annual meeting. The votes will be counted, tabulated and certified by a representative of BNY Mellon Shareowner Services, who will serve as the inspector of elections at the annual meeting.

Shares which abstain from voting as to a particular matter, and shares held in street name by banks, brokers or other nominees who indicate on their proxy cards that they do not have discretionary authority to vote such shares as to a particular matter, which we refer to as broker non-votes, will be counted for the purpose of determining whether a quorum exists but will not have any effect upon the outcome of voting with respect to any matters voted on at the annual meeting.

Stockholders may vote in person or by proxy. Voting by proxy will not in any way affect a stockholder's right to attend the meeting and vote in person. Any stockholder voting by proxy has the right to revoke the proxy at any time before the polls close at the annual meeting by giving our Secretary a duly executed proxy card bearing a later date than the proxy being revoked at any time before that proxy is voted, by voting again

Table of Contents

over the Internet or by telephone or by appearing at the meeting and voting in person. The shares represented by all properly executed proxies received in time for the meeting or voted by proxy over the Internet or by telephone will be voted as specified. If the shares you own are held in your name and you do not specify in the proxy card how your shares are to be voted, they will be voted in favor of the election as directors of those persons named as nominees in this proxy statement and in favor of the ratification of Deloitte & Touche LLP as our independent registered public accounting firm. If any other matters properly come before the meeting, the persons named in the accompanying proxy intend to vote, or otherwise act, in accordance with their judgment. If the shares you own are held in street name, the bank, broker or other nominee, as the record holder of your shares, is required to vote your shares in accordance with your instructions. In order to vote your shares held in street name, you will need to follow the directions your bank, broker or other nominee provides you.

If your shares are registered directly in your name, you may vote:

Over the Internet. Go to the web site of our tabulator, BNY Mellon Shareowner Services, at <http://www.proxyvoting.com/crtx> and follow the instructions you will find there. You must specify how you want your shares voted or your Internet vote cannot be completed and you will receive an error message. Your shares will be voted according to your instructions.

By Telephone. Call (866) 540-5760 toll-free from the United States or Canada and follow the instructions. You must specify how you want your shares voted and confirm your vote at the end of the call or your telephone vote cannot be completed. Your shares will be voted according to your instructions.

By Mail. Complete, date and sign the enclosed proxy card and mail it in the enclosed postage-paid envelope to BNY Mellon Shareowner Services. Your proxy will be voted according to your instructions. If you do not specify how you want your shares voted, they will be voted as recommended by our board of directors.

In Person at the Meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

If your shares are held in street name for your account by a bank, broker or other nominee, you may vote:

Over the Internet or By Telephone. You will receive instructions from your broker or other nominee if you are permitted to vote over the Internet or by telephone.

By Mail. You will receive instructions from your broker or other nominee explaining how to vote your shares.

In Person at the Meeting. Contact the broker or other nominee that holds your shares to obtain a broker's proxy card and bring it with you to the meeting. **A broker's proxy is *not* the form of proxy enclosed with this proxy statement. You will not be able to vote shares you hold in street name at the meeting unless you have a proxy from your broker issued in your name giving you the right to vote the shares.**

Householding of Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of householding proxy statements and annual reports. This means that only one copy of our proxy statement and Annual Report to Stockholders may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you upon written or oral request to Critical Therapeutics, Inc., Attention of Linda S. Lennox, Vice President, Investor & Media Relations, 60 Westview Street, Lexington, Massachusetts 02421; telephone: (781) 402-5700. If you want to receive separate copies of the proxy statement or Annual Report to

Stockholders in the future, or if you are receiving multiple copies and would like to receive only one copy per household, you should contact your bank, broker or other nominee record holder, or you may contact us at the above address and phone number.

CORPORATE GOVERNANCE

General

We believe that good corporate governance is important to ensure that Critical Therapeutics, Inc. is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

Board Determination of Independence

Under applicable rules of The NASDAQ Stock Market, a director will only qualify as an independent director if, in the opinion of our board of directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Our board of directors has determined that none of Dr. Mirabelli, Ms. George or Mr. Dugan has a relationship which would interfere with the exercise of his or her independent judgment in carrying out the responsibilities of a director and, therefore, that each of these directors is an independent director as defined under NASDAQ Rule 4200(a)(15).

Board of Directors Meetings and Attendance

The board of directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our board of directors is to oversee the

management of our company and, in doing so, to serve the best interests of the company and our stockholders. The board of directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our board of directors

Table of Contents

also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at board of directors and committee meetings.

Our board of directors met 21 times during the fiscal year ended December 31, 2007, either in person or by teleconference. During 2007, each of our directors attended at least 75% of the aggregate of the total number of board meetings held during the period each has been a director and the total number of meetings held by all committees on which each director then served.

We have no formal policy regarding director attendance at the annual meeting of stockholders, although all directors are expected to attend the annual meeting of stockholders if they are able to do so. All of our current directors who were also then serving as directors attended our 2007 annual meeting of stockholders.

Lead Independent Director

On October 9, 2006, a majority of the independent directors of our board of directors appointed Mr. Dugan as the lead independent director. The lead independent director consults with our President and Chief Executive Officer and the Nominating and Corporate Governance Committee on matters relating to corporate governance and the performance of our board of directors. In addition, the lead independent director provides assistance to the President and Chief Executive Officer and Corporate Secretary in planning board agendas, acts as the leader of the independent directors and acts as the chair of the independent directors in meetings of the independent directors.

Board Committees

Our board of directors has established an audit committee, a compensation committee and a nominating and corporate governance committee. The members of each committee are appointed by our board of directors, upon recommendation of the nominating and corporate governance committee, and serve one-year terms. Each of these committees operates under a charter that has been approved by the board of directors. We have posted current copies of each committee's charter on the Corporate Governance section of our website, which can be found at www.crtx.com in the Investors section under Corporate Governance.

The board of directors has determined that all of the members of each of the board's three standing committees are independent as defined under the rules of The NASDAQ Stock Market, and, in the case of all members of the Audit Committee, that they meet the additional independence requirements of Rule 10A-3 under the Securities Exchange Act of 1934.

Audit Committee

The Audit Committee's responsibilities include:

- appointing, approving the compensation of, and assessing the independence of our registered public accounting firm;

- overseeing the work of our independent registered public accounting firm, including through the receipt and consideration of reports from the independent registered public accounting firm;

- reviewing and discussing with management and the independent registered public accounting firm our annual and quarterly financial statements and related disclosures;

monitoring our internal control over financial reporting, disclosure controls and procedures and code of business conduct and ethics;

establishing policies regarding hiring employees from the independent registered public accounting firm and procedures for the receipt and retention of accounting-related complaints and concerns;

meeting independently with our independent registered public accounting firm and management to discuss our financial statements, and other financial reporting and audit matters;

preparing the audit committee report required by SEC rules, which is included on page 12 of this proxy statement; and

reviewing and approving or ratifying related person transactions.

The members of the Audit Committee are Mr. Dugan, Ms. George and Dr. Mirabelli. Mr. Dugan serves as chair of the Audit Committee. The board of directors has determined that Mr. Dugan is an audit committee financial expert as defined by applicable SEC rules. The Audit Committee met 10 times in 2007.

Compensation Committee

The Compensation Committee's responsibilities include:

reviewing and making recommendations to the board of directors regarding the compensation of our executive officers;

overseeing the evaluation of our senior executives;

reviewing and making recommendations to the board of directors regarding incentive compensation and equity-based plans;

administering our stock incentive plans;

reviewing and making recommendations to the board of directors regarding director compensation;

reviewing and discussing with management our Compensation Discussion and Analysis, which is included on page 17 of this proxy statement; and

preparing the compensation committee report required by SEC rules, which is included on page 33 of this proxy statement.

For information about the processes and procedures followed by the Compensation Committee in considering and making recommendations regarding executive and director compensation, see Executive and Director Compensation Process.

The members of the Compensation Committee are Ms. George and Dr. Mirabelli. Ms. George serves as chair of the Compensation Committee. The Compensation Committee met six times in 2007.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee's responsibilities include:

identifying individuals qualified to become board members;

recommending to the board the persons to be nominated for election as directors and to each of the board's committees;

reviewing and making recommendations to the board with respect to management succession planning;

developing and recommending to the board corporate governance principles; and

overseeing an annual evaluation of the board.

The members of the Nominating and Corporate Governance Committee are Dr. Mirabelli and Mr. Dugan. Dr. Mirabelli serves as chair of the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee met two times in 2007.

Executive and Director Compensation Process

The Compensation Committee has implemented an annual performance review program for our executive officers, under which annual performance goals are determined and set forth in writing at the beginning of each calendar year for the company as a whole and each executive officer. Annual corporate goals are proposed by management and approved by the independent directors of our board of directors. These

Table of Contents

corporate goals target the achievement of specific commercialization, research, clinical, regulatory, financial and operational milestones. Annual individual goals focus on contributions that facilitate the achievement of the corporate goals and are set during the first quarter of each calendar year. Individual goals are proposed by each executive officer and approved by our President and Chief Executive Officer. Annual salary increases, annual bonuses and annual stock option and restricted stock awards granted to our executives are based on actual corporate and individual performance compared to these corporate and individual performance goals and various subjective performance criteria.

We evaluate individual and corporate performance against the goals for each completed year. Each executive's evaluation begins with a written self-assessment, which is submitted to our President and Chief Executive Officer. Our President and Chief Executive Officer then prepares a written evaluation based on the executive officer's self-assessment, the President and Chief Executive Officer's own evaluation and input from others within our company. This process leads to a recommendation by our President and Chief Executive Officer for annual executive salary increases, annual stock option and restricted stock awards and bonuses, if any. The Compensation Committee then reviews and makes a recommendation to the independent directors. In the case of our President and Chief Executive Officer, his individual performance evaluation is conducted by the Compensation Committee, which then recommends his compensation changes and awards to the independent directors.

The Compensation Committee periodically reviews and makes recommendations to the board of directors regarding director compensation. Currently, each non-employee member of our board of directors is compensated pursuant to our compensation and reimbursement policy that became effective January 1, 2006. For more information regarding this policy, see [Information About Executive and Director Compensation](#) [Compensation of Directors](#).

The Compensation Committee may delegate its authority to the chair of the Compensation Committee to the extent it deems necessary to finalize matters as to which the Compensation Committee has given its general approval. In March 2006, the Compensation Committee delegated to each of our Chief Executive Officer, Chief Financial Officer and Chief Operating Officer the authority to make stock option grants under our 2004 Stock Incentive Plan, as amended, to our existing employees. Our Chief Executive Officer, Chief Financial Officer and Chief Operating Officer were not authorized to grant options to any executive officer or other officer subject to Section 16(a) of the Securities Exchange Act of 1934 or to any person designated by the Compensation Committee. In addition, our Chief Executive Officer, Chief Financial Officer and Chief Operating Officer were not authorized to grant, in the aggregate, options with respect to more than 120,000 shares of common stock to existing employees or grant to any existing employee, in any one calendar year, options with respect to more than 5,000 shares of common stock, except as may be approved by the Compensation Committee.

The Compensation Committee has the authority to retain compensation consultants and other outside advisors to assist in the evaluation of executive officer compensation. During 2006, the Compensation Committee retained Nancy Arnosti and Pearl Meyer & Partners as compensation consultants, and continued to consider their recommendations in 2007. The Compensation Committee retained Ms. Arnosti in September 2007 to update her prior work. For more information regarding the nature and scope of the work performed by these consultants to the Compensation Committee, see [Information About Executive and Director Compensation](#) [Compensation Discussion and Analysis](#).

Director Nomination Process

The Nominating and Corporate Governance Committee, or the Committee, is responsible for identifying individuals qualified to become board members, consistent with criteria approved by the board, and recommending the persons to be nominated for election as directors, except where we are legally required by contract, bylaw or otherwise to provide third parties with the right to nominate directors. The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating

to potential candidates and interviews of selected

Table of Contents

candidates by members of the Committee and the board, with direct input from our chief executive officer and the lead independent director. In addition, during 2007, the Nominating and Corporate Governance Committee retained the services of an executive search firm to help identify and evaluate potential director candidates.

In considering whether to recommend any particular candidate for inclusion in the board's slate of recommended director nominees, the Nominating and Corporate Governance Committee applies certain criteria, including the candidate's reputation for integrity, honesty and adherence to high ethical standards, business acumen, experience and judgment, understanding of our business and industry, diligence, conflicts of interest or the appearance thereof, other directorships and their impact on the ability of the candidate to devote adequate time to service on our board, the ability to act in the interests of all stockholders and willingness to serve for at least three years on the board. The Committee does not assign specific weights to particular criteria, and no particular criterion is a prerequisite for each prospective nominee. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a significant breadth of experience, knowledge and abilities that will assist our board in fulfilling its responsibilities.

Stockholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Critical Therapeutics, Inc., 60 Westview Street, Lexington, Massachusetts 02421. Assuming that appropriate biographical and background material has been provided on a timely basis, the Committee will evaluate stockholder recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. Stockholders also have the right under our by-laws to directly nominate director candidates, without any action or recommendation on the part of the Committee or the board, by following the procedures set forth under Stockholder Proposals.

At the 2008 annual meeting, stockholders will be asked to consider the election of Dr. Phillips for the first time. In March 2008, following the resignation of Mr. Thomas as President and Chief Executive Officer and a member of our board of directors, and in connection with the appointment of Dr. Phillips as President and Chief Executive Officer, our board of directors elected Dr. Phillips to the board to fill the vacancy created by Mr. Thomas's resignation.

Communicating with the Independent Directors

The board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The lead independent director, or otherwise the chairman of the Nominating and Corporate Governance Committee, with the assistance of our General Counsel, is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other directors as he considers appropriate.

Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the lead independent director, or otherwise the chairman of the Nominating and Corporate Governance Committee, considers to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the board should address such communications to the Board of Directors, c/o Corporate Secretary, Critical Therapeutics, Inc., 60 Westview Street, Lexington,

Massachusetts 02421. You should indicate on your correspondence that you are a Critical Therapeutics stockholder.

Anyone may express concerns regarding questionable accounting or auditing matters or complaints regarding accounting, internal accounting controls or auditing matters to the Audit Committee by calling the

voicemail box at (800) 799-6158. Messages to the Audit Committee will be received by the members of the Audit Committee and our Corporate Secretary. You may report your concern anonymously or confidentially.

Transactions with Related Persons

Agreements with MedImmune, Inc.

In July 2003, we entered into an exclusive license and collaboration agreement with MedImmune Inc., a wholly-owned subsidiary of AstraZeneca plc, to jointly develop products directed towards high mobility group box protein 1, or HMGB1. This agreement was amended in December 2005. Under the terms of the agreement, we granted MedImmune an exclusive worldwide license, under patent rights and know-how controlled by us, to make, use and sell products, including small molecules and antibodies, that bind to, inhibit or inactivate HMGB1 and are used in the treatment or prevention, but not the diagnosis, of diseases, disorders and medical conditions.

Under the collaboration, MedImmune paid us initial fees of \$12.5 million in 2003 and 2004 for the HMGB1 program. Under the collaboration, MedImmune also agreed to make specified research and development payments to us, including \$4.0 million of research and development payments through the end of 2006, all of which had been paid by December 31, 2007. In addition, we may receive, subject to the terms and conditions of the agreement, other payments upon the achievement of research, development and commercialization milestones up to a maximum of \$124.0 million, after taking into account payments that we are obligated to make to The Feinstein Institute for Medical Research (formerly known as the North Shore-Long Island Jewish Research Institute) on milestone payments we receive from MedImmune. MedImmune also has agreed to pay royalties to us based upon net sales by MedImmune of licensed products resulting from the collaboration. MedImmune's obligation to pay us royalties continues on a product-by-product and country-by-country basis until the later of ten years from the first commercial sale of a licensed product in each country and the expiration of the patent rights covering the product in that country. We are obligated to pay a portion of any milestone payments or royalties we receive from MedImmune to The Feinstein Institute, which initially licensed to us patent rights and know-how related to HMGB1.

In December 2005, MedImmune agreed that the collaboration demonstrated proof-of-concept in two preclinical disease models with human HMGB1 monoclonal antibodies. As a result, MedImmune made a \$1.25 million milestone payment to us. In addition, in December 2005, MedImmune agreed to fund an additional \$1.0 million of research work performed by our full-time employees in 2006. In March 2007, MedImmune agreed to fund an additional \$125,000 of research work performed by our full-time employees in 2007.

We have agreed to work exclusively with MedImmune in the research and development of HMGB1-inhibiting products. Under the terms of the agreement, MedImmune's license to commercialize HMGB1-inhibiting products generally excludes us from manufacturing, promoting or selling the licensed products. However, we have the option to co-promote in the United States the first product for the first indication

Table of Contents

approved in the United States, for which we must pay a portion of the ongoing development costs and will receive a proportion of the profits in lieu of royalties that would otherwise be owed to us.

MedImmune has the right to terminate the agreement at any time upon six-months' written notice. Each party has the right to terminate the agreement upon the occurrence of a material uncured breach by the other party. Under specified conditions, we or MedImmune may have certain payment or royalty obligations after the termination of the agreement.

MedImmune Ventures, Inc., an affiliate of MedImmune, is the beneficial owner of more than 5% of our outstanding common stock. For more information regarding MedImmune Ventures' stock ownership, see [Stock Ownership Information](#).

Consulting Agreement with M. Cory Zwerling

On October 25, 2006, we entered into a consulting agreement with M. Cory Zwerling, who served as a member of our board of directors from October 2006 until February 2008. This agreement had an initial term expiring on October 25, 2007, and thereafter automatically renewed for successive one-month periods unless either party were to give at least one-month's prior notice of termination. Under this agreement, Mr. Zwerling provided consulting services relating to our commercial sales, marketing and business development initiatives and other such related projects as were mutually agreed upon by us and Mr. Zwerling. We paid Mr. Zwerling a rate of \$1,800 per day for these services during the consulting period. In 2007, we paid Mr. Zwerling a total of approximately \$14,000 for these services. On October 25, 2006, pursuant to the terms of the consulting agreement, we granted Mr. Zwerling an option to purchase 200,000 shares of our common stock at an exercise price of \$2.63 per share. This option vested in 36 equal monthly installments commencing on November 25, 2006 for so long as Mr. Zwerling remained a consultant. In addition, 50% of the then unvested options would vest upon a change of control or specified transactions as set forth in the consulting agreement. We terminated this consulting agreement with Mr. Zwerling for convenience effective June 30, 2007. As of the date of termination, 119,713 shares subject to the option had vested. The option expired unexercised on September 30, 2007.

Employment Agreements

We have entered into employment agreements with our executive officers. For additional information regarding these agreements, see [Information About Executive and Director Compensation](#), [Executive Compensation](#) and [Employment Agreements](#).

Policies and Procedures Regarding Review, Approval or Ratification of Related Person Transactions

In March 2007, our board of directors adopted written policies and procedures for the review of any transaction, arrangement or relationship in which we are a participant, the amount involved exceeds \$120,000 and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related person, has a direct or indirect material interest.

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a related person transaction, the related person must report the proposed related person transaction to our General Counsel, who we refer to as our chief legal officer. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by our Audit Committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the Audit Committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chair of the Audit Committee to review and, if deemed appropriate, approve proposed related person transactions that arise between

committee meetings, subject to ratification by the Audit Committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

Table of Contents

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the Audit Committee after full disclosure of the related person's interest in the transaction. As appropriate for the circumstances, the Audit Committee will review and consider:

the related person's interest in the related person transaction;

the approximate dollar value of the amount involved in the related person transaction;

the approximate dollar value of the amount of the related person's interest in the transaction without regard to the amount of any profit or loss;

whether the transaction was undertaken in the ordinary course of our business;

whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;

the purpose of, and the potential benefits to us of, the transaction; and

any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in, or is not in conflict with, our best interests. The Audit Committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC's related person transaction disclosure rule, our board of directors has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

interests arising solely from the related person's position as an executive officer of another entity (whether or not the person is also a director of such entity), that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10% equity interest in such entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction, and (c) the amount involved in the transaction equals less than the greater of \$200,000 or 5% of the annual gross revenues of the company receiving payment under the transaction; and

a transaction that is specifically contemplated by provisions of our charter or bylaws.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter.

We did not have a written policy regarding the review and approval of related person transactions before March 2007. Nevertheless, with respect to such transactions in 2007 prior to our adoption of this written policy, it was our policy for the Audit Committee or another committee of independent directors to consider the nature of and business reason for such transactions, how the terms of such transactions compared to those which might be obtained from unaffiliated third parties and whether such transactions were otherwise fair to and in the best interests of, or not contrary to, our best interests. In addition, all related person transactions required prior approval, or later ratification, by the Audit

Committee or a committee of independent directors. There were no related person transactions in 2007 with respect to which these policies and procedures were not followed.

INFORMATION ABOUT EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

This compensation discussion and analysis describes the material elements of compensation awarded to, earned by, or paid to each of our executive officers identified in the Summary Compensation Table below as our named executive officers for the fiscal year ending December 31, 2007. This compensation discussion and analysis focuses on the information contained in the following tables and related footnotes and narrative for primarily the last completed fiscal year, but we also describe compensation actions taken before or after the last completed fiscal year to the extent it enhances the understanding of our executive compensation disclosure.

The Compensation Committee of our board of directors oversees our executive compensation program. In this role, the Compensation Committee annually reviews and approves, or recommends for approval, all compensation decisions relating to our executive officers.

Objectives and Philosophy of Our Executive Compensation Program

The objectives of our executive compensation program are to align the interests of management with the interests of stockholders through a system that relates compensation to the achievement of business objectives and individual performance. Our executive compensation philosophy is based on the following principles:

Competitive and Fair Compensation. We are committed to providing an executive compensation program that helps us to attract, motivate and retain highly qualified and industrious executives. Our policy is to provide total compensation that is competitive for comparable work and comparable corporate performance. In addition to providing competitive compensation packages, we also seek to achieve a balance of the compensation paid to a particular individual and the compensation paid to our other executives and employees.

Sustained Performance. Executive officers are rewarded based upon an assessment of corporate, business group and individual performance. Corporate performance and business group performance are evaluated by reviewing the extent to which strategic and business plan goals are met, including such factors as achievement of operating budgets, establishment of strategic development alliances with third parties and timely accomplishment of strategic objectives. Individual performance is evaluated by reviewing attainment of specified individual objectives and the degree to which teamwork and our other values are fostered.

Retention. We have placed significant emphasis on retention of key executives in structuring our executive compensation programs for 2007 and 2008. Our goal in doing so is to provide such executives with an incentive to remain employed and engaged notwithstanding the usual uncertainties attendant to the examination of various strategic alternatives for our business.

Comparative Compensation Review and Benchmarking

We do not believe that it is appropriate to establish compensation levels primarily based on benchmarking. We believe, however, that information regarding pay practices at other companies is useful in two respects. First, we recognize that our compensation practices must be competitive in the marketplace. Second, this marketplace information is one of the many factors that we consider in assessing the reasonableness of compensation. Accordingly, we regularly compare our compensation packages with those of other companies in the biotechnology and pharmaceutical industry, through reviews of survey data and information gleaned from filings of publicly traded companies and through information compiled and analyzed by our compensation consultants. However, while such

information may be a useful guide for comparative purposes, we believe that a successful compensation program also requires the application of judgment and subjective determinations of individual performance. Our review of this information and these factors forms the basis of our compensation recommendations.

Table of Contents

In making compensation decisions, the Compensation Committee compares our executive compensation against that paid by a peer group of publicly traded companies in the biotechnology and pharmaceutical industry compiled by Nancy Arnosti, a compensation consultant specializing in the recruiting and compensation of senior executives retained by the Compensation Committee in 2006. This peer group consists of companies the Compensation Committee believes are generally comparable to our company at the time and against which the committee believes we compete for executive talent.

The Compensation Committee's charter grants it the authority to retain outside advisors, including compensation consultants, and approve their compensation. Critical Therapeutics is obligated to pay the Compensation Committee's advisors and consultants. These advisors and consultants report directly to the Compensation Committee. Pursuant to its authority, the Compensation Committee first engaged Ms. Arnosti in late 2004 to assist the committee in its review of our executive employment arrangements and in formulating recommendations regarding such arrangements for 2005. The Compensation Committee instructed Ms. Arnosti to conduct a review of survey data and information gleaned from filings of publicly traded companies regarding executive officer base salary, target bonus and equity ownership information. Ms. Arnosti produced a report for us regarding executive employment arrangements at biotechnology and pharmaceutical companies comparable to ours, and we discussed the results of this report with her in detail in arriving at our recommendations regarding the employment agreements entered into with our senior executives in 2004 and in setting the initial base salaries and bonus opportunities reflected in such agreements. In addition, this consultant produced updated analyses of executive compensation arrangements for us in October 2005, December 2006 and October 2007, which we considered in arriving at our recommendations for the market adjustment and merit increases in executive base salaries and bonus opportunities for 2006, 2007 and 2008 that are described in Executive Compensation Employment Agreements and mentioned below. In December 2006, the Compensation Committee reviewed a report from another compensation consultant, Pearl Meyer & Partners, which had been retained by the Compensation Committee to assist in the development of an executive and key employee success bonus and retention program for 2007. This report contained benchmarking and comparative information with respect to various financial incentives that can be used to retain employees, including equity retention grants, success bonus pools and option restructuring.

Elements of Executive Compensation

Compensation for our executives generally consists of the following elements:

salary;

bonus;

stock-based awards;

health, dental, life and disability insurance and other traditional employee benefits;

cash retention payments; and

severance and change-in-control arrangements.

We have not had any formal or informal policy or target for allocating compensation between long-term and short-term compensation, between cash and non-cash compensation or among the different forms of non-cash compensation. Instead, the Compensation Committee, after reviewing information provided by its compensation consultants, determines subjectively what it believes to be the appropriate level and mix of the various compensation components. Ultimately, the Compensation Committee's objective in allocating between long-term and currently paid

compensation is to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize long-term value for our company and our stockholders. Therefore, we provide cash compensation in the form of base salary to meet competitive salary norms and reward good performance on an annual basis and in the form of bonus compensation to reward superior performance against specific annual goals, as well as to create incentives to remain employed with our company through specified periods. We provide non-cash compensation to reward superior performance

against specific objectives and long-term strategic goals, as well as to create incentives to remain employed with our company.

Salary. Salary for our executives is generally set by reviewing compensation for comparable positions in the market, as described above, and the historical compensation levels of our executives. Salaries are then adjusted from time to time, but at least once annually, based upon market changes, actual corporate and individual performance and promotions or changes in responsibilities.

Bonuses. Bonuses, as well as annual increases in salaries, generally are based on actual corporate and individual performance compared to targeted performance criteria and various subjective performance criteria. The Compensation Committee works with our President and Chief Executive Officer to develop corporate and individual goals that they believe can be reasonably achieved with an appropriate level of effort over the course of the year. Targeted performance criteria vary for each executive based on his or her business group or area of responsibility, and may include:

achievement of the operating budget for Critical Therapeutics as a whole and of the business group of Critical Therapeutics for which the executive is responsible;

continued innovation in development and commercialization of our technology;

timely development of new product candidates or processes;

development and implementation of successful marketing and commercialization strategies; and

implementation of financing strategies and establishment of strategic development alliances with third parties.

In March 2007, the Compensation Committee established the following company goals to be considered in determining actual bonus amounts for executive officers in respect of the 2007 fiscal year:

enhance the commercial value of ZYFLO CR by signing a co-promotion arrangement for ZYFLO CRtm (zileuton) extended-release tablets, launching ZYFLO CR following FDA approval, initiating a Phase IIIb clinical trial of ZYFLO CR, increasing ZYFLO prescriptions and achieving specified business development goals;

progress the research and development pipeline by initiating a Phase II clinical trial of zileuton injection, completing specified preclinical work for the alpha-7 receptor program, establishing a co-development collaboration arrangement for the alpha-7 receptor program and supporting MedImmune in selecting a lead candidate for the HMGB1 program;

establish a strong financial position by managing corporate cash spending and ensuring adequate funding and communicate effectively with investors; and

create an attractive organization by establishing employee programs, recruiting key employees and developing a long-term facility strategy.

In establishing these goals, the Compensation Committee considered their importance to the overall success of the company, as well as the relative difficulty of achieving them. The Compensation Committee believes that these goals were clear, would require significant efforts on the part of the Company's executive team, but were, ultimately, achievable.

Subjective performance criteria include an executive's ability to motivate others, develop the skills necessary to grow as we mature as a company, recognize and pursue new business opportunities and initiate programs to enhance our growth and success. The Compensation Committee does not rely on a formula that assigns a pre-determined value to each of the criteria, but instead evaluates an executive officer's contribution in light of all criteria. Although generally none of our executive officers is guaranteed an annual cash bonus, we paid retention bonuses in lieu of cash bonuses based on performance goals for 2006 and established minimum bonuses for 2007, as described below.

Table of Contents

In addition to targeted performance bonuses, we employ bonuses designed to retain executives under certain circumstances. Such bonuses are typically payable so long as the executive remains employed as of a particular date or event. For example, in November 2006, the Compensation Committee determined that, in lieu of a cash bonus for 2006 based on performance goals, our executive officers and other employees, other than sales specialists and sales managers, designated by our President and Chief Executive Officer would be entitled to receive a bonus payment equal to 50% of their potential or target bonus for 2006 if they remained employed by us as of January 15, 2007, and an additional 50% of their potential or target bonus for 2006 if they remain employed by us on the date we received an action letter from the U.S. Food and Drug Administration, or FDA, on our New Drug Application, or NDA, for ZYFLO CRtm (zileuton) extended-release tablets. We paid aggregate cash bonuses to our executive officers who remained employed by us as of January 15, 2007, Mr. Thomas, Dr. Phillips, Dr. Hilt, Mr. Townsend and Mr. Young, in late January 2007 of \$194,000 and in June 2007 of \$194,000. Pursuant to new employment agreements that we entered into with our executive officers in 2007, each of our executive officers was entitled to a minimum cash bonus for 2007 if he remained employed with us through December 31, 2007. We paid these bonuses in January 2008. Under Mr. Thomas's employment agreement, he was entitled to an additional one-time special cash bonus of \$625,000 if he remained employed with us through January 31, 2008. We paid this bonus to Mr. Thomas in February 2008, and Mr. Thomas resigned as our President and Chief Executive Officer in March 2008.

Stock-Based Awards. Compensation for executive officers also includes the long-term incentives afforded by stock options and restricted stock awards. Our stock option and restricted stock award program is designed to align the long-term interests of our employees and our stockholders and assist in the retention of executives. The size of stock-based awards is generally intended to reflect the executive's position with us and his or her contributions to us, including his or her success in achieving the individual performance criteria described above and his or her contributions to our corporate goals. We generally make stock-based awards on an annual basis in connection with our annual reviews of executive performance and compensation, but will also make such awards in connection with appropriate events, such as the promotion of the executive, or as part of a retention program. We generally grant annual stock-based awards at the last regularly scheduled meeting of the board of directors and the Compensation Committee for each calendar year. The Compensation Committee may consider the value of stock-based awards or other long-term compensation arrangements previously granted or entered into with the executive in making grants of stock-based awards, but a significant amount of value represented by previous awards will not necessarily cause the committee to forego making, or reduce the size of, a future award. We generally grant stock options with annual vesting schedules over a four-year period to encourage key employees to continue their employment with us.

Because of the direct relationship between the value of an option and the market price of our common stock, the Compensation Committee has always believed that granting stock options is an effective method of motivating the executive officers to manage our company in a manner that is consistent with the interests of our company and our stockholders. However, because of the evolution of regulatory, tax and accounting treatment of equity incentive programs, and because it is important to us to retain our executive officers and key employees, the Compensation Committee realizes that it is important that the company utilize other forms of equity awards as and when we may deem necessary. In 2006, we granted restricted stock awards to all of our employees, including our executives in December 2006, as we believed that this was a more efficient way to reward them for and motivate them toward superior performance. These restricted stock awards vest as to 50% of the shares subject to the awards on each of the first and second anniversaries of the grant date. In addition, in August 2007, we made a restricted stock award of 26,700 shares to Mr. Kelly in connection with the commencement of his employment with us. These restricted stock awards vest as to 50% of the shares subject to the awards on each of the first and second anniversaries of the grant date. In November 2007, we made restricted stock awards of 50,000 shares to Dr. Phillips and 25,000 shares to each of Mr. Kelly, Mr. Townsend and Mr. Young in connection with our annual performance review of our executives. These restricted stock awards vest as to 50% of the shares subject to the awards on each of the six-month and 24-month anniversaries of the grant date. In February 2008, we made restricted stock awards of 35,000 shares to each of Mr. Kelly and Mr. Townsend in connection with rewarding and retaining these executives. These restricted stock

awards vest as to 50% of the shares subject to the awards on each of the six-month and 24-month anniversaries of the grant date.

Insurance and Other Employee Benefits. We maintain broad-based benefits and perquisites that are provided to all employees, including health insurance, life and disability insurance, dental insurance and a 401(k) plan. In November 2005, our board of directors, based on the recommendation of the Compensation Committee, approved, effective as of January 1, 2006, a matching contribution for each 401(k) plan participant of fifty percent (50%) of the participant's elective deferrals for a plan year up to six percent (6%) of the participant's salary. The Company's matching contribution up to \$3,000 per year is fully and immediately vested. In particular circumstances, we also utilize cash signing bonuses and pay relocation expenses when executives join us. Such cash signing bonuses and relocation expenses are typically repayable in full to us if the executive voluntarily terminates employment with us, or we terminate the executive for cause, prior to the first anniversary of the date of hire. Whether a signing bonus and relocation expenses are paid and the amount thereof is determined on a case-by-case basis under the specific hiring circumstances. For example, we will consider paying signing bonuses to compensate for amounts forfeited by an executive upon terminating prior employment or to create additional incentive for an executive to join our company in a position for which there is high market demand. For example, in 2006, we paid Dr. Hilt a signing bonus of \$10,000 and reimbursed Dr. Hilt for \$100,000 in relocation expenses. We did not pay any such signing bonuses or relocation expenses in 2007.

Severance and Change-in-Control Arrangements. Compensation for executive officers also includes severance and change-in-control arrangements, which are generally reflected in the employment agreements for such officers. These arrangements, like other elements of executive compensation, are structured with regard to practices at comparable companies for similarly-situated officers and in a manner we believe is likely to attract and retain high quality executive talent. Changes to existing severance arrangements are also sometimes negotiated with departing executives in exchange for transition services and/or general releases. The severance and change-in-control arrangements currently in effect with respect to our current executive officers and in effect with respect to Mr. Thomas as of December 31, 2007 are described in greater detail under Executive Compensation Employment Agreements, Severance Agreements and Payments Upon Termination or Change of Control. Because these severance and change-in-control arrangements are designed primarily for retention purposes, amounts payable in connection with such arrangements do not generally affect other elements of compensation payable to executive officers.

Other Corporate Policies Relating to Executive Compensation

Role of Executive Officers in Determining or Recommending Executive and Director Compensation. Management plays a significant role in the process of setting executive compensation. The most significant aspects of management's role are:

- evaluating employee performance;
- establishing business performance targets and objectives; and
- recommending salary levels and stock-based awards.

Our President and Chief Executive Officer works with the chair of the Compensation Committee in establishing the agenda for committee meetings. Management also prepares meeting information for each Compensation Committee meeting. Our President and Chief Executive Officer also participates in Compensation Committee meetings at the Committee's request to provide:

- background information regarding our company's strategic objectives and progress toward the attainment of those objectives;
- his evaluation of the performance of the senior executive officers; and

compensation recommendations as to senior executive officers, other than himself.

Ultimately, however, all compensation decisions are made, or recommended to the board of directors, by the Compensation Committee, which makes such decisions and recommendations after considering management's recommendations in light of those made by its compensation consultant and engaging in deliberations in executive session without the presence of any members of management.

Table of Contents

Management does not play any role in setting non-employee director compensation. Decisions with respect to non-employee director compensation are made by the Compensation Committee in consultation with its compensation consultant.

Impact of Tax Treatment on Compensation Decisions. Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and our other officers whose compensation is required to be disclosed to our stockholders pursuant to the Exchange Act by reason of being among our four other most highly compensated officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We periodically review the potential consequences of Section 162(m) and we generally intend to structure the performance-based portion of our executive compensation, where feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. However, the compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Security Ownership Requirements or Guidelines. While we believe it is important for our executives to have an equity stake in our company in order to help align their interests with those of our stockholders, we do not currently have any equity ownership guidelines for our executive officers.

- (1) The target amounts in the Estimated Future Payouts Under Non-Equity Incentive Plan Awards column represent the amount determined by our independent directors as the target annual cash bonus payable to each named executive officer for 2008. Under the employment agreements that we have entered into with our executive officers, each executive officer is eligible for an annual cash bonus in an amount determined by the Compensation Committee. On November 5, 2007, based on the recommendation of the Compensation Committee, our independent directors established the 2008 annual base salary and the target annual cash bonus for 2008, as a percentage of annual base salary, for each executive officer. The Compensation Committee may make actual cash bonus awards that may be greater or less than the target annual cash bonus based on overall corporate performance and individual performance. Company goals approved by our board of directors in February 2008 will be considered in determining actual bonus amounts for executive officers in respect of the 2008 fiscal year.
- (2) The amounts in the Grant Date Fair Value of Stock and Option Awards column reflect the grant date fair value of each equity award calculated in accordance with SFAS 123(R).

Employment Agreements

On December 21, 2004, we entered into employment agreements with each of the following executive officers: Dr. Phillips, Mr. Thomas and Mr. Townsend. On April 26, 2006, we entered into an employment agreement with Dr. Hilt. On June 26, 2006, we entered into an employment agreement with Mr. Young. On August 21, 2007, we entered into an employment agreement with Mr. Kelly. In November 2007, we entered into amended and restated employment agreements with Mr. Thomas, Dr. Phillips, Mr. Townsend and Mr. Young. In April 2008, we entered into a further amended and restated employment agreement with Dr. Phillips in connection with his appointment as President and Chief Executive Officer.

Each employment agreement with our current executive officers, other than Mr. Kelly, has an initial term that extends through December 31, 2009. Mr. Kelly's employment agreement has an initial term that extends through December 31, 2008. Each of these employment agreements automatically extends for an additional one-year term after the initial term unless either we or the executive officer gives 90-days prior notice.

Under the employment agreements, each executive officer is paid a base salary and is eligible for an annual cash bonus of a specified percentage of his annual base salary and an annual equity award. The employment agreements in effect as of December 31, 2007 provide for an initial annual base salary of \$345,000 for Mr. Thomas, \$300,000 for Dr. Phillips, \$275,000 for Mr. Kelly, \$245,000 for Mr. Townsend and \$195,000 for Mr. Young and an annual target cash bonus as a percentage of base salary of 40% for Mr. Thomas, 35% for Dr. Phillips, 30% for Mr. Kelly, 30% for Mr. Townsend and 30% for Mr. Young. The amended and restated employment agreement that we entered into with Dr. Phillips in April 2008 provides for an initial annual base salary of \$330,000 and an annual target bonus of 40% of his base salary.

The actual amount of any cash bonus or equity award is determined by the Compensation Committee. The Compensation Committee may make actual cash bonus awards that may be greater or less than the annual target cash bonus based on overall corporate performance and individual performance. Although generally none of the executive officers is guaranteed either an annual cash bonus or an annual equity award, each of the executive officers was entitled to a minimum cash bonus for the year ended December 31, 2007 if he remained employed with us through December 31, 2007. The employment agreements in effect as of December 31, 2007 provide for a minimum cash bonus for 2007 of \$138,000 for Mr. Thomas, \$157,500 for Dr. Phillips, \$30,000 for Mr. Kelly, \$73,500 for Mr. Townsend and \$43,875 for Mr. Young.

For more information regarding our executive compensation process and the elements of executive compensation, see [Corporate Governance](#) [Executive and Director Compensation Process](#) and [Information About Executive and Director Compensation](#) [Compensation Discussion and Analysis](#) [Elements of Executive Compensation](#).

Each employment agreement with our current executive officers provides that if we terminate the executive officer's employment other than for cause or if the executive officer terminates his employment for good reason, in each case as those terms are defined in his employment agreement, then we are

Table of Contents

obligated to provide the following to the executive officer, provided he executes and delivers to Critical Therapeutics a severance agreement and release drafted by and satisfactory to counsel to Critical Therapeutics:

a lump sum payment equal to his annual base salary in effect at that time for each executive officer other than Dr. Phillips, and a lump sum payment equal to 1.25 times his annual base salary in effect at that time for Dr. Phillips;

monthly payments in the amount of 100% of the monthly COBRA premiums for continued health and dental coverage for the executive officer and his dependents for each executive officer other than Mr. Kelly, and 80% of the monthly COBRA premiums for continued health and dental coverage for Mr. Kelly and his dependents, and 100% of the amount of the monthly premiums paid by us for life insurance and disability insurance for the executive officer until the earlier of one year, or in the case of Dr. Phillips 15 months, after termination or the last day of the first month when such officer is eligible for benefits through other employment;

a pro rata payment of his target cash bonus in effect in the year of termination; and

accelerated vesting of 50% of his outstanding unvested stock options and restricted stock.

Immediately upon a change of control of Critical Therapeutics, as defined in his employment agreement, each executive officer is entitled to accelerated vesting of 50% of all his outstanding unvested stock options and restricted stock. In addition, Dr. Phillips is entitled to receive a one-time lump sum payment of \$175,000 upon a change of control.

If we terminate the executive officer's employment other than for cause or if the executive officer terminates his employment for good reason during the period from three months before until one year after the occurrence of a change of control, then we are obligated to provide the following to the executive officer, provided he executes and delivers to Critical Therapeutics a severance agreement and release drafted by and satisfactory to counsel to Critical Therapeutics:

a lump sum payment equal to his annual base salary in effect at that time for each executive officer other than Dr. Phillips, and a lump sum payment equal to 1.5 times his annual base salary in effect at that time for Dr. Phillips;

monthly payments in the amount of 100% of the monthly COBRA premiums for continued health and dental coverage for the executive officer and his dependents for each executive officer other than Mr. Kelly and 80% of the monthly COBRA premiums for continued health and dental coverage for Mr. Kelly and his dependents, and 100% of the amount of the monthly premiums paid by us for life insurance and disability insurance for the executive officer until the earlier of one year, or in the case of Dr. Phillips 18 months, after termination or the last day of the first month when such officer is eligible for benefits through other employment;

a pro rata payment of his target cash bonus in effect in the year of termination;

accelerated vesting of 100% of his outstanding unvested stock options and restricted stock; and

up to three months of outplacement services.

Upon voluntary resignation, each executive officer is entitled to a pro rata payment of his annual bonus from the previous year provided that the executive officer gives 90-days prior written notice of resignation and executes a release of Critical Therapeutics.

Under Mr. Thomas's employment agreement, he was entitled to an additional one-time special cash bonus of \$625,000 if he remained employed with us through January 31, 2008. If Mr. Thomas's employment had been terminated on or before January 31, 2008 by us other than for cause, by him for good reason, or as a result of his death or disability, then Mr. Thomas would have been entitled to receive his annual target cash bonus for 2007 plus this one-time special cash bonus. The one-time special cash bonus was payable to Mr. Thomas in lieu of the cash compensation and benefits that he would otherwise have been entitled to if his employment was terminated on or before July 31, 2008, although he would remain entitled to accelerated

vesting of his outstanding unvested stock options and restricted stock as specified in his employment agreement depending on the circumstances under which his employment terminated. We paid this bonus to Mr. Thomas in February 2008. Mr. Thomas resigned as our President and Chief Executive Officer in March 2008.

Each executive officer has agreed not to compete with us during his employment with us and for a one-year period after termination of employment by us for any reason or after a change of control of Critical Therapeutics. In the event of a breach of this non-competition obligation, Critical Therapeutics will be entitled to injunctive relief in addition to any other remedies it might have, and the executive will continue to be held to the obligation until the requisite time period has passed without any violation. Each executive officer has also agreed not to disclose any confidential information obtained during his employment. The severance agreements and releases used by Critical Therapeutics typically contain provisions, whereby a departing executive reaffirms these obligations, and non-disparagement clauses of perpetual duration, compliance with which is a condition to the receipt of payments.

Retention Bonus Arrangements

On November 9, 2006, the Compensation Committee determined that, in light of the restructuring announced in October 2006 and in lieu of cash bonuses based on performance goals, annual cash bonuses to executive officers for 2006 would be paid as flat sum retention bonus payments. Under this revised bonus program, each executive officer employed by us as of January 15, 2007 received a bonus payment equal to 50% of his target annual cash bonus for 2006. In addition, under this revised bonus program, each executive officer employed by us on the date we received an action letter from the FDA on our NDA for ZYFLO CR was paid a bonus equal to the remaining 50% of his target annual cash bonus for 2006.

On November 5, 2007, our independent directors determined that for 2007 our executive officers were entitled to minimum cash bonuses pursuant to their employment agreements described above.

2008 Salary Increases

On November 5, 2007, based on the recommendation of the Compensation Committee, our independent directors approved market adjustments and merit increases in the annual base salaries for our executive officers effective as of January 1, 2008. The independent directors approved a 2008 annual base salary of \$358,800 for Mr. Thomas, \$312,000 for Dr. Phillips, \$279,500 for Mr. Kelly, \$275,000 for Mr. Townsend and \$202,800 for Mr. Young. On April 1, 2008, Dr. Phillips's annual base salary increased to \$330,000 when he became our President and Chief Executive Officer.

Future Bonus Eligibility

On November 5, 2007, based on the recommendation of the Compensation Committee, our independent directors established target annual cash bonuses for executive officers for 2008. The independent directors approved a target annual cash bonus for 2008, as a percentage of 2008 annual base salary, of 40% for Mr. Thomas, 35% for Dr. Phillips and 30% for each of Mr. Kelly, Mr. Townsend and Mr. Young. On April 1, 2008, Dr. Phillips's target annual cash bonus percentage for 2008 increased to 40% when he became our President and Chief Executive Officer. The Compensation Committee may make actual cash bonus awards that may be greater or less than the target annual cash bonus based on overall corporate performance and individual performance. None of the executive officers is guaranteed any annual cash bonus.

Stock Option Grants

As reported in the Grants of Plan Based-Awards table above, we have granted stock options to our executive officers at various times during 2007. All stock options granted during 2007 to our executive officers vest as to 25% of the shares on the first anniversary of the grant date and as to the remaining shares in 36 approximately equal monthly installments beginning one month thereafter. Unless otherwise noted, all stock options are granted with an exercise price equal to the closing price per share of our common stock reported by NASDAQ on the grant date.

The shares of common stock subject to the awards vest as to 50% of the shares on each of the first and second anniversaries of the grant date.

Our board of directors has approved a tax withholding right that allows employees to satisfy any tax withholding obligations that occur upon the vesting of restricted stock by means of a deemed disposition to us of a portion of the restricted shares that are scheduled to vest. We deduct and retain the applicable number of shares from the number of restricted shares that are scheduled to vest.

**PROPOSAL TWO RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC
ACCOUNTING FIRM**

The Audit Committee has selected the firm of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

Although stockholder approval of the selection of Deloitte & Touche LLP is not required by law, our board of directors believes that it is advisable to give stockholders an opportunity to ratify this selection. If this proposal is not approved at the annual meeting, our board of directors will reconsider its selection of Deloitte & Touche LLP.

Deloitte & Touche LLP also served as our independent registered public accounting firm for the fiscal year ending December 31, 2007. Representatives of Deloitte & Touche LLP are expected to be present at the annual meeting and will have the opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions from our stockholders.

Board Recommendation

The board of directors recommends a vote FOR the ratification of the selection of Deloitte & Touche LLP as Critical Therapeutics, Inc. s independent registered public accounting firm for the fiscal year ending December 31, 2008.

OTHER MATTERS

Our board of directors has no knowledge of any other matters which may come before the meeting. However, if any other matters are properly presented to the meeting, it is the intention of the persons named in the accompanying proxy card to vote, or otherwise act, in accordance with their judgment on those matters.

The notice of revocation must indicate the certificate number and numbers of shares to which the revocation relates and the aggregate number of shares represented by the certificate(s).

STOCKHOLDER PROPOSALS

In order to be included in proxy material for our 2009 annual meeting of stockholders, stockholders proposed resolutions must be received by us at our principal executive offices, Critical Therapeutics, Inc., Attn: Corporate Secretary, 60 Westview Street, Lexington, Massachusetts 02421 no later than December 26, 2008. However, if the date of the 2009 annual meeting is changed by more than 30 days from the date of the first anniversary of the 2008 annual meeting, then the deadline is a reasonable time before we begin to print and mail our proxy statement for the 2009 annual meeting. We suggest that proponents submit their proposals by certified mail, return receipt requested, addressed to our Corporate Secretary.

In addition, our by-laws require that we be given advance notice of stockholder nominations for election to the board of directors and of other matters which stockholders wish to present for action at an annual meeting of stockholders, other than matters included in our proxy statement. The required notice must be in writing and received by our corporate secretary at our principal offices in the case of an election of directors at an annual meeting of stockholders, not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is advanced by more than 20 days, or delayed by more than 60 days, from the first anniversary of the preceding year's annual meeting, a stockholder's notice must be so received not earlier than the 120th day prior to such annual meeting and not later than the close of business on the later of (A) the 90th day prior to such annual meeting and (B) the tenth day following the day on which notice of the date of such annual meeting was mailed or public disclosure of the date of such annual meeting was made, whichever first occurs. The date of our 2009 annual meeting of stockholders has not yet been established, but assuming it is held on May 28, 2009, in order to comply with the time periods set forth in our by-laws, appropriate notice for the 2009 annual meeting would need to be provided to our Corporate Secretary no earlier than January 28, 2009 and no later than February 27, 2009.
