PART I. FINANCIAL INFORMATION

Item 1. FINANCIAL STATEMENTS

Review by Independent Registered Public Accounting Firm

A review of the interim consolidated financial statements included in this Quarterly Report on Form 10-Q for the three months ended March 31, 2006 and 2005 has been performed by PricewaterhouseCoopers LLP, the company's

independent registered public accounting firm. Their report on the interim consolidated financial statements follows. This report is not considered a ‘report’ within the meaning of Sections 7 and 11 of the Securities Act of 1933, and, therefore, the independent accountants’ liability under Section 11 does not extend to it.

I-1

Table of Contents

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of
W. R. Grace & Co.:

We have reviewed the accompanying consolidated balance sheets of W. R. Grace & Co. and its subsidiaries as of March 31, 2006, and the related consolidated statements of operations, cash flows, shareholders’ equity (deficit) and comprehensive income (loss) for each of the three-month periods ended March 31, 2006 and March 31, 2005. These interim financial statements are the responsibility of the Company’s management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

The accompanying interim consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Notes 1 and 2 to the interim consolidated financial statements, on April 2, 2001, the Company and substantially all of its domestic subsidiaries voluntarily filed for protection under Chapter 11 of the United States Bankruptcy Code, which raises substantial doubt about the Company’s ability to continue as a going concern in its present form. Management’s intentions with respect to this matter are also described in Notes 1 and 2. The accompanying interim consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2005, and the related consolidated statements of operations, cash flows, shareholders’ equity (deficit) and comprehensive income (loss) for the year then ended, management’s assessment of the effectiveness of the Company’s internal control over financial reporting as of December 31, 2005 and the effectiveness of the Company’s internal control over financial reporting as of December 31, 2005; and in our report dated March 10, 2006, we expressed (i) an unqualified opinion on those consolidated financial statements with an explanatory paragraph relating to the Company’s ability to continue as a going concern and, (ii) unqualified opinions on management’s assessment of the effectiveness of the Company’s internal control over financial reporting and on the effectiveness of the Company’s internal control over financial reporting. The consolidated financial statements and management’s assessment of the effectiveness of internal control over financial reporting referred to above are not presented herein. In our opinion, the information set forth in the accompanying

consolidated balance sheet as of December 31, 2005, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Table of Contents

W. R. Grace & Co. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation and Summary of Significant Accounting and Financial Reporting Policies

W. R. Grace & Co., through its subsidiaries, is engaged in specialty chemicals and specialty materials businesses on a

worldwide basis through two operating segments: “Grace Davison,” which includes silica- and alumina-based catalysts and materials used in a wide range of industrial applications; and “Grace Performance Chemicals,” which includes specialty chemicals and materials used in commercial and residential construction and in rigid food and beverage packaging.

W. R. Grace & Co. conducts substantially all of its business through a direct, wholly-owned subsidiary, W. R. Grace & Co.-Conn. (“Grace-Conn.”). Grace-Conn. owns substantially all of the assets, properties and rights of W. R. Grace & Co. on a consolidated basis, either directly or through subsidiaries.

As used in these notes, the term “Company” refers to W. R. Grace & Co. The term “Grace” refers to the Company and/or one or more of its subsidiaries and, in certain cases, their respective predecessors.

Voluntary Bankruptcy Filing – During 2000 and the first quarter of 2001, Grace experienced several adverse developments in its asbestos-related litigation, including: a significant increase in personal injury claims, higher than expected costs to resolve personal injury and certain property damage claims, and class action lawsuits alleging damages from Zonolite Attic Insulation (“ZAI”) a former Grace attic insulation product.

After a thorough review of these developments, the Board of Directors concluded that a federal court-supervised bankruptcy process provided the best forum available to achieve fairness in resolving these claims and on April 2, 2001 (the “Filing Date”), Grace and 61 of its United States subsidiaries and affiliates, including Grace-Conn. (collectively, the “Debtors”), filed voluntary petitions for reorganization (the “Filing”) under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”). The cases were consolidated and are being jointly administered under case number 01-01139 (the “Chapter 11 Cases”). Grace’s non-U.S. subsidiaries and certain of its U.S. subsidiaries were not included in the Filing.

Under Chapter 11, the Debtors have continued to operate their businesses as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Filing, all motions necessary to conduct normal business activities have been approved by the Bankruptcy Court. (See Note 2 for Chapter 11 Related Information.)

Basis of Presentation – The interim Consolidated Financial Statements presented herein are unaudited and should be read in conjunction with the Consolidated Financial Statements presented in the Company’s 2005 Annual Report on Form 10-K. Such interim Consolidated Financial Statements reflect all adjustments that, in the opinion of management, are necessary for a fair presentation of the results of the interim periods presented; all such adjustments are of a normal recurring nature. Potential accounting adjustments discovered during normal reporting and accounting processes are evaluated on the basis of materiality, both individually and in the aggregate, and are recorded in the accounting period discovered, unless a restatement of a prior period is necessary. All significant intercompany accounts and transactions have been eliminated.

The results of operations for the three-month interim period ended March 31, 2006 are not necessarily indicative of the results of operations for the year ending December 31, 2006.

Reclassifications – Certain amounts in prior years’ Consolidated Financial Statements have been reclassified to conform to the 2006 presentation.

Use of Estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that management make estimates and assumptions affecting the assets and liabilities reported at the date of the Consolidated Financial Statements, and the revenues and

Table of Contents

expenses reported for the periods presented. Actual amounts could differ from those estimates. Changes in estimates are recorded in the period identified. Grace's accounting measurements that are most affected by management's estimates of future events are:

- Contingent liabilities such as asbestos-related matters (see Notes 2 and 3), environmental remediation (see Note 12), income taxes (see Note 12), and litigation (see Note 12).
- Pension and postretirement liabilities that depend on assumptions regarding discount rates and total returns on invested funds. (See Note 13.)
- Liabilities for employee incentive compensation and customer rebates.
- Depreciation and amortization periods for long-lived assets, including property and equipment, intangible, and other assets.
- Realization values of various assets such as net deferred tax assets, trade receivables, inventories, insurance receivables, properties and equipment, and goodwill.

The accuracy of these and other estimates may also be materially affected by the uncertainties arising under Grace's Chapter 11 proceeding.

Effect of New Accounting Standards – In December 2004, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment," to require companies to measure and recognize in operations the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value. The provisions of this standard are effective for Grace in 2006. Grace implemented SFAS 123(R) in the first quarter of 2006. Under the transition method selected, the only outstanding awards affected were stock appreciation rights granted to Grace's former Chief Executive Officer. Grace has chosen to adopt the standard using the modified prospective method. Following this guidance, the award was measured at fair value of \$2.6 million using a Black Scholes model at March 31, 2006 and was recognized as compensation cost (included in selling, general and administrative expenses) in the current quarter. The cumulative effect of this new rule was \$1.4 million at the beginning of the first quarter of 2006. Grace has not granted equity options or rights while in Chapter 11.

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs – an Amendment of ARB No. 43, Chapter 4," to provide clarification that abnormal amounts of idle facility expense, freight, handling costs, and wasted material be recognized as current-period costs. In addition, this standard requires that the allocation of fixed production overheads to the costs of inventory be based on the normal capacity of the production facilities. The provisions of this standard are effective for Grace in 2006 and do not have a material impact on Grace's Consolidated Financial Statements.

2. Chapter 11 Related Information

Plan of Reorganization – On November 13, 2004 Grace filed a plan of reorganization, as well as several associated documents, including a disclosure statement, with the Bankruptcy Court. On January 13, 2005, Grace filed an amended plan of reorganization (the "Plan") and related documents to address certain objections of creditors and other interested parties. The Plan is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants.

Under the terms of the Plan, a trust would be established under Section 524(g) of the Bankruptcy Code to which all pending and future asbestos-related claims would be channeled for resolution. Grace has requested that the Bankruptcy Court conduct an estimation hearing to, among other things, determine the amount that would need to be paid into the trust on the effective date of the Plan to satisfy the estimated liability for all classes of asbestos claimants

and trust administration costs and expenses over time. The Plan provides that Grace's asbestos-related liabilities would be satisfied using cash and securities from Grace and third parties.

The Plan will become effective only after a vote of eligible creditors and with the approval of the Bankruptcy Court and the U.S. District Court for the District of Delaware. Votes on the Plan may not be

I-8

Table of Contents

solicited until the Bankruptcy Court approves the disclosure statement. The Bankruptcy Court has indicated that it will not consider the approval of the disclosure statement until after completion of estimation hearings on the amount of Grace's asbestos-related liability. The Debtors have received extensions of their exclusive right to propose a plan of reorganization through July 24, 2006.

Under the terms of the Plan, claims would be satisfied under the Chapter 11 cases as follows:

Asbestos-Related Claims and Costs

A trust would be established under Section 524(g) of the Bankruptcy Code to which all pending and future asbestos-related claims would be channeled for resolution. The trust would utilize specified trust distribution procedures to satisfy the following allowed asbestos-related claims and costs:

1. Personal injury claims that meet specified exposure and medical criteria (Personal Injury-Symptomatic Eligible or "PI-SE" Claims) – In order to qualify for this class, claimants would have to prove that their health is impaired from meaningful exposure to asbestos-containing products formerly manufactured by Grace.
2. Personal injury claims that do not meet the exposure and medical criteria necessary to qualify as PI-SE Claims (Personal Injury-Asymptomatic and Other or "PI-AO" Claims) – This class would contain all asbestos-related personal injury claims against Grace that do not meet the specific requirements to be PI-SE Claims, but do meet certain other specified exposure and medical criteria.
3. Property damage claims, including claims related to ZAI ("PD Claims") – In order to qualify for this class, claimants would have to prove Grace liability for loss of property value or remediation costs related to products formerly manufactured by Grace that claimants allege contained asbestos.
4. Trust administration costs and legal expenses

The pending asbestos-related legal proceedings are described in "Asbestos-Related Litigation" (see Note 3). The claims arising from such proceedings would be subject to this classification process as part of the Plan.

The Bankruptcy Court has entered case management orders for estimating liability for personal injury claims and property damage claims (excluding ZAI claims). The case management orders originally contemplated that estimation hearings would take place in September 2006. However, in connection with the latest extensions of the Debtors' exclusive right to propose a plan of reorganization, the Bankruptcy Court has deferred the estimation process to provide the Debtors and the other stakeholders in the Chapter 11 proceeding with an opportunity to negotiate a resolution of all or a portion of the Debtors' asbestos-related liabilities. The Bankruptcy Court has appointed a mediator to facilitate such negotiations. As a result of this deferral, if negotiations are not successful and the

Bankruptcy Court resumes the estimation process, the Debtors would not expect estimation hearings to take place until 2007.

The Debtors expect that the Bankruptcy Court will use the estimated liability to determine the amounts to be paid into the trust on the effective date of the Plan. The amounts to fund PI-SE Claims, PD Claims and the expense of trust administration would be capped at the amount determined by the Bankruptcy Court. Amounts required to fund PI-AO Claims would not be capped, so if the amount funded in respect thereof later proved to be inadequate, Grace would be responsible for contributing additional funds into the asbestos trust to satisfy PI-AO Claims.

Asbestos personal injury claimants, including both PI-SE and PI-AO claims, would have the option either to litigate their claims against the trust in federal court in Delaware or, if they meet specified eligibility criteria, accept a settlement amount based on the severity of their condition. Asbestos property damage claimants would be required to litigate their claims against the trust in federal court in Delaware. The Plan provides that, as a condition precedent to confirmation, the maximum estimated aggregate funding amount for all asbestos-related liabilities (PI-SE, PI-AO and PD including ZAI) and trust administration costs and expenses as determined by the Bankruptcy Court cannot exceed \$1,613 million, which Grace believes would fund over \$2 billion in claims, costs and expenses over time.

I-9

Table of Contents

The PI-SE Claims, the PD Claims and the related trust administration costs and expenses would be funded with (1) a payment of \$512.5 million in cash (plus interest at 5.5% compounded annually from December 21, 2002) and nine million shares of common stock of Sealed Air Corporation (“Sealed Air”) to be made directly by Cryovac, Inc., a wholly owned subsidiary of Sealed Air, (“Cryovac”) to the asbestos trust pursuant to the terms of a settlement agreement resolving asbestos-related, successor liability and fraudulent transfer claims against Sealed Air and Cryovac and (2) Grace common stock. The amount of Grace common stock required to satisfy these claims will depend on the liability measures approved by the Bankruptcy Court and the value of the Sealed Air settlement, which changes daily with the accrual of interest and the trading value of Sealed Air common stock. The Sealed Air settlement agreement has been approved by the Bankruptcy Court, but remains subject to the fulfillment of specified conditions.

The PI-AO Claims would be funded with warrants exercisable for that number of shares of Grace common stock which, when added to the shares issued directly to the trust on the effective date of the Plan, would represent 50.1% of Grace’s voting securities. If the common stock issuable upon exercise of the warrants is insufficient to pay all PI-AO Claims (the liability for which is uncapped under the Plan), then Grace would pay any additional liabilities in cash.

Other Claims

The Plan provides that all allowed administrative or priority claims would be paid 100% in cash and all general unsecured claims, other than those covered by the asbestos trust, would be paid 85% in cash and 15% in Grace common stock. Grace estimates that claims with a recorded value of approximately \$1,168 million, including interest accrued through March 31, 2006, would be satisfied in this manner at the effective date of the Plan. Grace would finance these payments with cash on hand, cash from Fresenius Medical Care Holdings, Inc. (“Fresenius”) paid in settlement of asbestos and other Grace-related claims, new Grace debt, and Grace common stock. Grace would satisfy other non-asbestos related liabilities and claims (primarily certain environmental, tax, pension and retirement medical obligations) as they become due and payable over time using cash flow from operations, insurance proceeds from policies and settlement agreements covering asbestos-related liabilities, and new credit facilities. Proceeds from available product liability insurance applicable to asbestos-related claims would supplement operating cash flow to

service new debt and liabilities not paid on the effective date of the Plan.

Effect on Grace Common Stock

The Plan provides that Grace common stock will remain outstanding at the effective date of the Plan, but that the interests of existing shareholders would be subject to dilution by additional shares of common stock issued under the Plan. In addition, in order to preserve significant tax benefits from net operating loss carryforwards (“NOLs”), which are subject to elimination or limitation in the event of a change in control (as defined by the Internal Revenue Code) of Grace, the Plan places restrictions on the purchase of Grace common stock. The restrictions would prohibit (without the consent of Grace), for a period of three years, a person or entity from acquiring more than 4.75% of the outstanding Grace common stock or, for those persons already holding more than 4.75%, prohibit them from increasing their holdings. The Bankruptcy Court has also approved the trading restrictions described above until the effective date of the Plan.

Grace intends to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in the Plan. However, Grace may not be successful in obtaining approval of the Plan by the Bankruptcy Court and other interested parties. For example, the asbestos creditors committees and future asbestos claimants representative have challenged the confirmability of the Plan, arguing that the Plan impairs the rights of asbestos creditors and impermissibly denies them voting rights, and have asserted that Grace’s asbestos-related liabilities exceed the fair value of Grace’s assets. As a result of these challenges and other Bankruptcy Court rulings, a materially different plan of reorganization may ultimately be approved and, under the ultimate plan of reorganization, the interests of the Company’s shareholders could be substantially diluted or cancelled. The value of Grace common stock following a plan of reorganization, and the extent of any recovery by non-asbestos-related creditors, will depend principally on the allowed value of Grace’s asbestos-related claims as determined by the Bankruptcy Court.

I-10

Table of Contents

Official Parties to Grace’s Chapter 11 Proceedings – Three creditors’ committees, two representing asbestos claimants and the third representing other unsecured creditors, and a committee representing shareholders, have been appointed in the Chapter 11 Cases. These committees, and a legal representative of future asbestos claimants, have the right to be heard on all matters that come before the Bankruptcy Court and are likely to play important roles in the Chapter 11 Cases. The Debtors are required to bear certain costs and expenses of the committees and of the future asbestos claimants’ representative, including those of their counsel and financial advisors.

Claims Filings – The Bankruptcy Court established a bar date of March 31, 2003 for claims of general unsecured creditors, asbestos-related property damage claims and medical monitoring claims related to asbestos. The bar date did not apply to asbestos-related personal injury claims or claims related to ZAI, which will be dealt with separately.

Approximately 14,900 proofs of claim were filed by the bar date. Of these claims, approximately 9,400 were non-asbestos related, approximately 4,300 were for asbestos-related property damage, and approximately 1,000 were for medical monitoring. The medical monitoring claims were made by individuals who allege exposure to asbestos through Grace’s products or operations. These claims, if sustained, would require Grace to fund ongoing health monitoring costs for qualified claimants. In addition, approximately 769 proofs of claim were filed after the bar date.

Approximately 7,000 of the non-asbestos related claims involve claims by employees or former employees for future retirement benefits such as pension and retiree medical coverage. Grace views most of these claims as contingent and

has proposed a plan of reorganization that would retain such benefits. The other non-asbestos related claims include claims for payment of goods and services, taxes, product warranties, principal and interest under pre-petition credit facilities, amounts due under leases and other contracts, leases and other executory contracts rejected in the Bankruptcy Court, environmental remediation, indemnification or contribution to actual or potential co-defendants in asbestos-related and other litigation, pending non-asbestos-related litigation, and non-asbestos-related personal injury.

The Debtors have analyzed the claims as filed and have found that many are duplicates, represent the same claim filed against more than one of the Debtors, lack any supporting documentation, or provide insufficient supporting documentation. As of March 31, 2006, the Debtors had filed objections to approximately 5,400 claims (approximately 100 of which were subsequently withdrawn), approximately 3,950 of which were asbestos property damage claims. Of the 5,300 claims, approximately 2,200 have been expunged, approximately 200 have been resolved, approximately 1,900 have been withdrawn by claimants, and the remaining approximately 1,000 will be addressed through the claims objection process and the dispute resolution procedures approved by the Bankruptcy Court.

Grace believes that its recorded liabilities for claims subject to the bar date represent a reasonable estimate of the ultimate allowable amount for claims that are not in dispute or have been submitted with sufficient information to both evaluate the merit and estimate the value of the claim. The asbestos-related claims are considered as part of Grace's overall asbestos liability and are being accounted for in accordance with the conditions precedent under the Plan, as described in "Accounting Impact" below. As claims are resolved, or where better information becomes available and is evaluated, Grace will make adjustments to the liabilities recorded on its financial statements as appropriate. Any such adjustments could be material to its consolidated financial position and results of operations.

Litigation Proceedings in Bankruptcy Court – In September 2000, Grace was named in a purported class action lawsuit filed in California Superior Court for the County of San Francisco, alleging that the 1996 reorganization involving a predecessor of Grace and Fresenius AG and the 1998 reorganization involving a predecessor of Grace and Sealed Air were fraudulent transfers. The Bankruptcy Court authorized the Official Committee of Asbestos Personal Injury Claimants and the Official Committee of Asbestos Property Damage Claimants to proceed with claims against Fresenius and Sealed Air and Cryovac on behalf of the Debtors' bankruptcy estate.

On November 29, 2002, Sealed Air (and Cryovac) and Fresenius each announced that they had reached agreements in principle with such Committees to settle asbestos, successor liability and fraudulent transfer claims related to such transactions (the "litigation settlement agreements"). Under the

I-11

Table of Contents

terms of the Fresenius settlement, subject to the fulfillment of certain conditions, Fresenius would contribute \$115.0 million to the Debtors' estate as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In July 2003, the Fresenius settlement was approved by the Bankruptcy Court. Under the terms of the Sealed Air settlement, subject to the fulfillment of certain conditions, Cryovac would make a payment of \$512.5 million (plus interest at 5.5% compounded annually, commencing on December 21, 2002) and nine million shares of Sealed Air common stock (collectively valued at \$1,131.6 million as of March 31, 2006), as directed by the Bankruptcy Court upon confirmation of the Debtors' plan of reorganization. In June 2005, the Sealed Air settlement was approved by the Bankruptcy Court.

Debt Capital – All of the Debtors' pre-petition debt is in default due to the Filing. The accompanying Consolidated Balance Sheets reflect the classification of the Debtors' pre-petition debt within "liabilities subject to compromise."

The Debtors have entered into a debtor-in-possession post-petition loan and security agreement with Bank of America, N.A. (the “DIP facility”) in the aggregate amount of \$250 million. The term of the DIP facility expires on April 1, 2008.

Accounting Impact – The accompanying Consolidated Financial Statements have been prepared in accordance with Statement of Position 90-7 (“SOP 90-7”), “Financial Reporting by Entities in Reorganization Under the Bankruptcy Code,” promulgated by the American Institute of Certified Public Accountants. SOP 90-7 requires that financial statements of debtors-in-possession be prepared on a going concern basis, which contemplates continuity of operations, realization of assets and liquidation of liabilities in the ordinary course of business. However, as a result of the Filing, the realization of certain of the Debtors’ assets and the liquidation of certain of the Debtors’ liabilities are subject to significant uncertainty. While operating as debtors-in-possession, the Debtors may sell or otherwise dispose of assets and liquidate or settle liabilities for amounts other than those reflected in the Consolidated Financial Statements. Further, the ultimate plan of reorganization could materially change the amounts and classifications reported in the Consolidated Financial Statements.

Pursuant to SOP 90-7, Grace’s pre-petition liabilities that are subject to compromise are required to be reported separately on the balance sheet at an estimate of the amount that will ultimately be allowed by the Bankruptcy Court. As of March 31, 2006, such pre-petition liabilities include fixed obligations (such as debt and contractual commitments), as well as estimates of costs related to contingent liabilities (such as asbestos-related litigation, environmental remediation, and other claims). Obligations of Grace subsidiaries not covered by the Filing continue to be classified on the Consolidated Balance Sheets based upon maturity dates or the expected dates of payment. SOP 90-7 also requires separate reporting of certain expenses, realized gains and losses, and provisions for losses related to the Filing as reorganization items.

Grace has not recorded the benefit of any assets that may be available to fund asbestos-related and other liabilities under the litigation settlements with Sealed Air and Fresenius, as such agreements are subject to conditions which, although expected to be met, have not been satisfied and confirmed by the Bankruptcy Court. The value available under these litigation settlement agreements as measured at March 31, 2006, was \$1,246.6 million comprised of \$115.0 million in cash from Fresenius and \$1,131.6 million in cash and stock from Cryovac. Payments under the Sealed Air settlement will be made directly to the asbestos trust by Cryovac, and will be accounted for as a satisfaction of a portion of Grace’s recorded asbestos-related liability and a credit to shareholder’s equity.

Grace’s Consolidated Balance Sheets separately identify the liabilities that are “subject to compromise” as a result of the Chapter 11 proceedings. In Grace’s case, “liabilities subject to compromise” represent pre-petition liabilities as determined under U.S. generally accepted accounting principles. Changes to the recorded amount of such liabilities will be based on developments in the Chapter 11 Cases and management’s assessment of the claim amounts that will ultimately be allowed by the Bankruptcy Court. Changes to pre-petition liabilities subsequent to the Filing Date reflect: 1) cash payments under approved court orders; 2) the terms of Grace’s proposed plan of reorganization, as discussed above, including the accrual of interest on pre-petition debt and other fixed obligations; 3) accruals for employee-related programs; and 4) changes in estimates related to other pre-petition contingent liabilities.

I-12

Table of Contents

Components of liabilities subject to compromise are as follows:

Edgar Filing: W R GRACE & CO - Form 10-Q

(In millions)	March 31, 2006	December 31, 2005
Debt, pre-petition plus accrued interest	\$ 696.8	\$ 684.7
Asbestos-related liability	1,700.0	1,700.0
Income taxes	137.4	136.5
Environmental remediation	339.9	342.0
Postretirement benefits other than pension	97.6	101.3
Unfunded special pension arrangements	86.9	86.4
Retained obligations of divested businesses	17.5	18.1
Accounts payable	31.5	31.5
Other accrued liabilities	57.7	54.6
Total Liabilities Subject to Compromise	\$ 3,165.3	\$ 3,155.1

Note that the unfunded special pension arrangements reflected above exclude non-U.S. plans and qualified U.S. plans that became underfunded subsequent to the Filing. Contributions to qualified U.S. plans are subject to Bankruptcy Court approval.

Change in Liabilities Subject to Compromise

Set forth below is a reconciliation of the changes in pre-filing date liability balances for the period from the Filing Date through March 31, 2006.

(In millions)	Cumulative Since Filing
Balance, Filing Date April 2, 2001	\$ 2,366.0
Cash disbursements and/or reclassifications under Bankruptcy Court orders:	
Freight and distribution order	(5.7)
Trade accounts payable order	(9.1)
Settlements of noncore contingencies	(119.7)
Other court orders including employee wages and benefits, sales and use tax, and customer programs	(303.5)
Expense/(income) items:	
Interest on pre-petition liabilities	219.0
Employee-related accruals	34.6
Change in estimate of asbestos-related contingencies	744.8
Change in estimate of environmental contingencies	265.6
Change in estimate of income tax contingencies	(1.0)
Balance sheet reclassifications	(25.7)
Balance, end of period	\$ 3,165.3

Additional liabilities subject to compromise may arise due to the rejection of executory contracts or unexpired leases, or as a result of the Bankruptcy Court's allowance of contingent or disputed claims. Beginning January 1, 2006, Grace has agreed to pay interest on pre-petition bank debt at the prime rate adjusted for periodic changes, and compounded quarterly. The effective rate for the quarter ended March 31, 2006 was 7.43%.

Chapter 11 Expenses

(In millions)	Three Months Ended March 31,	
	2006	2005
Legal and financial advisory fees	\$ 10.8	\$ 7.8
Interest income	(2.1)	(1.8)
Chapter 11 expenses, net	\$ 8.7	\$ 6.0

Pursuant to SOP 90-7, interest income earned on the Debtors' cash balances must be offset against Chapter 11 expenses.

In addition to Grace's financial reporting obligations as prescribed by the U.S. Securities and Exchange Commission, the Debtors are also required, under the rules and regulations of the Bankruptcy Code, to periodically file certain statements and schedules and a monthly operating report with the Bankruptcy Court. This information is available to the public through the Bankruptcy Court. This information is prepared in a format that may not be comparable to information in Grace's quarterly and annual financial statements as filed with the SEC. The monthly operating reports are not audited, do not purport to represent the financial position or results of operations of Grace on a consolidated basis, and should not be relied on for such purposes.

3. Asbestos-Related Litigation

Grace is a defendant in property damage and personal injury lawsuits relating to previously sold asbestos-containing products. As of the Filing Date, Grace was a defendant in 65,656 asbestos-related lawsuits, 17 involving claims for property damage (one of which has since been dismissed), and the remainder involving 129,191 claims for personal injury. Due to the Filing, holders of asbestos-related claims are stayed from continuing to prosecute pending litigation and from commencing new lawsuits against the Debtors. Separate creditors' committees representing the interests of property damage and personal injury claimants, and a legal representative of future personal injury claimants, have been appointed in the Chapter 11 Cases. Grace's obligations with respect to present and future claims will be determined through the Chapter 11 process.

Property Damage Litigation – The plaintiffs in asbestos property damage lawsuits generally seek to have the defendants pay for the cost of removing, containing or repairing the asbestos-containing materials in the affected buildings. Each property damage case is unique in that the age, type, size and use of the building, and the difficulty of asbestos abatement, if necessary, vary from structure to structure. Information regarding product identification, the amount of product in the building, the age, type, size and

I-15

Table of Contents

use of the building, the legal status of the claimant, the jurisdictional history of prior cases and the court in which the case is pending has provided meaningful guidance as to the range of potential costs.

Out of 380 asbestos property damage cases (which involved thousands of buildings) filed prior to the Filing Date, 140 were dismissed without payment of any damages or settlement amounts; judgments were entered in favor of Grace in nine cases (excluding cases settled following appeals of judgments in favor of Grace); judgments were entered in favor of the plaintiffs in eight cases (one of which is on appeal) for a total of \$86.1 million; 207 property damage cases were settled for a total of \$696.8 million; and 16 cases remain outstanding (including the one on appeal). Of the 16 remaining cases, eight relate to ZAI and eight relate to a number of former asbestos-containing products (two of which also are alleged to involve ZAI).

Approximately 4,300 additional property damage claims were filed prior to the March 31, 2003 claims bar date established by the Bankruptcy Court. (The bar date did not apply to ZAI claims.) Such claims were reviewed in detail

by Grace, categorized into claims with sufficient information to be evaluated or claims that require additional information and, where sufficient information existed, the estimated cost of resolution was considered as part of Grace's recorded asbestos-related liability. (Approximately 200 claims did not contain sufficient information to permit an evaluation.) Grace has objected to virtually all property damage claims on a number of different bases, including: no authorization to file a claim; the claim was previously settled or adjudicated; no or insufficient documentation; failure to identify a Grace product; the expiration of the applicable statute of limitations and/or statute of repose, and/or laches; and a defense that the product in place is not hazardous. As of March 31, 2006, following the reclassification, withdrawal or expungement of claims, approximately 890 property damage claims remain outstanding.

Eight of the ZAI cases were filed as purported class action lawsuits in 2000 and 2001. In addition, eight lawsuits were filed as purported class actions in 2004 and 2005 with respect to persons and homes in Canada. These cases seek damages and equitable relief, including the removal, replacement and/or disposal of all such insulation. The plaintiffs assert that this product is in millions of homes and that the cost of removal could be several thousand dollars per home. As a result of the Filing, the eight U.S. cases have been transferred to the Bankruptcy Court. Based on Grace's investigation of the claims described in these lawsuits, and testing and analysis of this product by Grace and others, Grace believes that the product was and continues to be safe for its intended purpose and poses little or no threat to human health. The plaintiffs in the ZAI lawsuits (and the U.S. government in the Montana criminal proceeding described in Note 12) dispute Grace's position on the safety of ZAI. In July 2002, the Bankruptcy Court approved special counsel to represent, at the Debtors' expense, the ZAI claimants in a proceeding to determine certain threshold scientific issues regarding ZAI. On October 18, 2004, the Bankruptcy Court held a hearing on motions filed by the parties to address a number of important legal and factual issues regarding the ZAI claims, and has taken the motions under advisement. The Bankruptcy Court has indicated that it may require further proceedings with respect to the matters addressed in the motions and no decision has yet been rendered. Given the early stage of litigation, Grace's recorded asbestos-related liability at March 31, 2006 assumes the risk of loss from ZAI litigation is not probable. If Grace's view as to risk of loss were not sustained, management believes the cost to resolve the matter would be material.

Personal Injury Litigation – Asbestos personal injury claimants allege adverse health effects from exposure to asbestos-containing products formerly manufactured by Grace. Claims are generally similar to each other, differing primarily in the type of asbestos-related illness allegedly suffered by the plaintiff. Grace's cost to resolve such claims has been influenced by numerous variables, including the solvency of other former producers of asbestos containing products, cross-claims by co-defendants, the rate at which new claims are filed, the jurisdiction in which the claims are filed, and the defense and disposition costs associated with these claims.

Cumulatively through the Filing Date, 16,354 asbestos personal injury lawsuits involving approximately 35,720 claims were dismissed without payment of any damages or settlement amounts (primarily on the basis that Grace products were not involved) and approximately 55,489 lawsuits involving approximately 163,698 claims were disposed of (through settlements and judgments) for a total of \$645.6 million. As of the Filing Date, 129,191 claims for personal injury were pending against Grace.

I-16

Table of Contents

Grace believes that a substantial number of additional personal injury claims would have been received between the Filing Date and March 31, 2006 had such claims not been stayed by the Bankruptcy Court.

Asbestos-Related Liability – The total recorded asbestos-related liability balance as of March 31, 2006 and December 31, 2005 was \$1,700.0 million and is included in “liabilities subject to compromise.” Grace adjusted its asbestos-related liability in the fourth quarter of 2004 based on its proposed plan of reorganization as discussed in Note 2. The amount recorded at March 31, 2006 includes the \$1,613 million maximum amount reflected as a condition precedent to the Plan and \$87 million related to pre-Chapter 11 contractual settlements and judgments included in general unsecured claims.

Under the Plan, Grace is requesting that the Bankruptcy Court determine the aggregate dollar amount, on a net present value basis, that must be funded on the effective date of the Plan into an asbestos trust (established under Section 524(g) of the Bankruptcy Code) to pay all allowed pending and future asbestos-related personal injury and property damage claims (including ZAI) and related trust administration costs and expenses on the later of the effective date of the Plan or when allowed (the “Funding Amount”). It is a condition to confirmation of the Plan that the Bankruptcy Court shall conclude that the Funding Amount is not greater than \$1,613 million. This amount, which should be sufficient to fund over \$2 billion in pending and future claims, is based in part on Grace’s evaluation of (1) existing but unresolved personal injury and property damage claims, (2) actuarially-based estimates of future personal injury claims, (3) the risk of loss from ZAI litigation, (4) proposed claim payments reflected in the Plan, and (5) the cost of the trust administration and litigation. This amount may not be consistent with what the Bankruptcy Court may conclude would be a sufficient Funding Amount.

The Bankruptcy Court has issued separate case management orders for estimating liability for pending and future personal injury claims and pending property damage claims, excluding ZAI claims. The case management orders originally contemplated that estimation hearings would take place in September 2006. However, in connection with the latest extensions of the Debtors' exclusive right to propose a plan of reorganization, the Bankruptcy Court has deferred the estimation process to provide the Debtors and the other stakeholders in the Chapter 11 proceeding with an opportunity to negotiate a resolution of all or a portion of the Debtors' asbestos-related liabilities. The Bankruptcy Court has appointed a mediator to facilitate such negotiations. As a result of this deferral, if negotiations are not successful and the Bankruptcy Court resumes the estimation process, the Debtors would not expect estimation hearings to take place until 2007.

For personal injury claims, the Court has ordered that all claimants with claims pending as of the Filing Date must complete detailed questionnaires providing information on, among other things, their medical condition, including diagnostic support, exposure to Grace and non-Grace asbestos-containing products, employment history, and pending lawsuits against other companies. Such information will be analyzed by experts and presented to the Bankruptcy Court, including estimates of the number of personal injury claims expected to be filed in the future, as the basis for determining the Funding Amount in respect of all pending and future asbestos personal injury claims.

For property damage claims, the case management order provides that estimation will be preceded by litigation on certain common threshold issues affecting a substantial majority of claims. Such litigation will consist of determining the date by which building owners knew or should have known of the reported hazards of asbestos-containing materials in their buildings, which would provide the basis for a statute of limitations defense, and the evidentiary admissibility of certain asbestos testing methodologies. During the period preceding the estimation hearing, Grace will also ask the Bankruptcy Court to rule on Grace’s specific objections to individual claims and groups of claims. Claims not resolved or expunged through the common issue litigation or the objection process would be the subject of an estimation hearing, which would provide the basis for a Bankruptcy Court determination of the Funding Amount in respect of all property damage claims.

The Funding Amount will be primarily a function of the number of allowed property damage and personal injury claims, and the amount payable per claim. Through the estimation process, Grace will

Table of Contents

seek to demonstrate that most claims should not be allowed because they fail to establish any material property damage, health impairment or significant occupational exposure to asbestos from Grace's operations or products. If the Bankruptcy Court agrees with Grace's position on the number of, and the amounts to be paid in respect of, allowed personal injury and property damage claims, then Grace believes that the Funding Amount could be less than \$1,613 million. However, this outcome is highly uncertain and will depend on a number of Bankruptcy Court rulings favorable to Grace's position.

Conversely, the asbestos claimants committees and the future claimants representative continue to assert that Grace's asbestos-related liabilities are substantially higher than \$1,613 million, and in fact are in excess of Grace's business value. If the Court accepts the position of the asbestos claimants committees, then any plan of reorganization likely would result in the loss of all or substantially all equity value by current shareholders. Therefore, due to the significant uncertainties of this process and asbestos litigation generally, Grace is not able to estimate a probable Funding Amount that would be accepted by the Bankruptcy Court.

However, as Grace is willing to proceed with confirmation of the Plan with a Funding Amount of up to \$1,613 million (assuming that other conditions precedent to confirmation of the Plan are satisfied, including the availability of the payment from Cryovac directly to the asbestos trust under the settlement agreement described in Note 2), during the fourth quarter of 2004, Grace accrued and took a charge of \$714.8 million to increase its recorded asbestos-related liability to reflect the maximum amount allowed as a condition precedent under the Plan. This amount, plus \$87.0 million for pre-Chapter 11 contractual settlements and judgments, brings the total recorded asbestos-related liability as of March 31, 2006 and December 31, 2005 to \$1,700 million. Any differences between the Plan as filed and as approved for confirmation could fundamentally change the accounting measurement of Grace's asbestos-related liability and that change could be material.

Insurance Rights – Grace previously purchased insurance policies that provide coverage for years 1962 to 1985 with respect to asbestos-related lawsuits and claims. Since 1985, insurance coverage for asbestos-related liabilities has not been commercially available to Grace.

With one exception, coverage disputes regarding Grace's primary insurance policies have been settled, and the settlement amounts paid in full. Grace's excess coverage is for loss above certain levels. The levels vary from policy to policy, creating "layers" of excess coverage, some of which are triggered before others. As of March 31, 2006, after subtracting previous reimbursements by insurers and allowing for discounts pursuant to certain settlement agreements, there remains approximately \$960 million of excess coverage from more than 56 presently solvent insurers.

Grace has entered into settlement agreements with various excess insurance carriers. These settlements involve amounts paid and to be paid to Grace. The unpaid maximum aggregate amount for settled insurers available under these settlement agreements is approximately \$477 million. With respect to asbestos-related personal injury claims, the settlement agreements generally require that the claims be spread over the claimant's exposure period and that each insurer pay a pro rata portion of each claim based on the amount of coverage provided during each year of the total exposure period.

Presently, Grace has no agreements in place with insurers with respect to approximately \$483 million of excess coverage, which is at layers of coverage that have not yet been triggered, but certain layers would be triggered if the Plan were approved at the recorded asbestos-related liability of \$1,700 million. Grace believes that any allowed ZAI claims also would be covered under the settlement agreements and unsettled policies discussed above to the extent they relate to installations of ZAI occurring after July 1, 1973.

In addition to the approximately \$960 million of excess coverage with solvent insurers, Grace has approximately \$317 million of excess coverage with insolvent or non-paying insurance carriers. (Non-paying carriers are those that, although technically not insolvent, are not currently meeting their obligations to pay claims.) Grace has filed and continues to file claims in the insolvency proceedings of

I-18

Table of Contents

insolvent carriers. Grace is currently receiving distributions from some of these insolvent carriers and expects to receive distributions in the future. Settlement amounts are recorded as income when received.

Grace estimates that, assuming an ultimate payout of asbestos-related claims equal to the recorded liability of \$1,700 million, it should be entitled to approximately \$500 million, on a net present value basis, of insurance recovery.

4. Acquisitions and Joint Ventures

In the first quarter of 2006, Grace did not complete any business combinations. In the first quarter of 2005, Grace completed two business combinations for a total cash cost of \$2.5 million as follows:

- In February 2005, Grace acquired certain assets of Midland Dexter Venezuela, S.A. (“Midevensa”). Midevensa supplies coatings and sealants for rigid packaging in the local and export markets of Latin America.
- In March 2005, Grace acquired certain assets relating to the concrete admixtures business of Perstorp Peramin AB (“Perstorp”) located in Sweden. Perstorp supplies specialty chemicals and materials to the construction industry in Sweden and other Northern European countries.

Goodwill recognized in the 2005 transactions amounted to \$0.2 million, which was assigned to Grace Performance Chemicals.

5. Other (Income) Expense

Components of other (income) expense are as follows:

Other (Income) Expense (In millions)	Three Months Ended March 31,	
	2006	2005

6. Other Balance Sheet Accounts

(In millions)	March 31, 2006	December 31, 2005
Inventories		
Raw materials	\$ 71.7	\$ 67.3
In process	35.0	32.8
Finished products	216.2	210.8
General merchandise	32.7	33.2
Less: Adjustment of certain inventories to a last-in/first-out (LIFO) basis	(54.4)	(65.8)
	\$ 301.2	\$ 278.3
Other Assets		
Deferred pension costs	\$ 109.6	\$ 108.8
Deferred charges	18.9	20.8
Long-term receivables, less allowances of \$0.8 (2005-\$0.7)	7.5	7.6
Patents, licenses and other intangible assets, net	85.7	87.6
Pension-unamortized prior service cost	12.7	12.7
Investments in unconsolidated affiliates and other	0.7	0.6
	\$ 235.1	\$ 238.1
Other Current Liabilities		
Accrued compensation	\$ 55.6	\$ 70.4
Deferred tax liability	0.8	0.8
Customer volume rebates	22.7	35.4
Accrued commissions	6.3	11.1
Accrued reorganization fees	16.2	18.0
Other accrued liabilities	62.4	62.2
	\$ 164.0	\$ 197.9

Accrued compensation in the table above includes current amounts due through March 31, 2007 under the annual and long-term incentive programs. Other liabilities on the Consolidated Balance Sheet includes amounts expected to be paid under these programs after April 1, 2007.

I-20

Table of Contents

7. Life Insurance

Grace is the beneficiary of life insurance policies on certain current and former employees with a net cash surrender value of \$86.2 million and \$84.8 million at March 31, 2006 and December 31, 2005, respectively. The policies were acquired to fund various employee benefit programs and other long-term liabilities and are structured to provide cash flow (primarily tax-free) over an extended number of years.

Edgar Filing: W R GRACE & CO - Form 10-Q

The following tables summarize activity in these policies for the three months ended March 31, 2006 and 2005, and the components of net cash value at March 31, 2006 and December 31, 2005:

Life Insurance – Activity Summary (In millions)	Three Months Ended March 31,	
	2006	2005
Earnings on policy assets	\$ 1.6	\$ 3.1
Interest on policy loans	(0.4)	(1.8)
Policy loan repayments	—	0.5
Proceeds from termination of life insurance policies	—	(14.8)
Net investing activity	0.2	(2.0)
Change in net cash value	\$ 1.4	\$ (15.0)
Tax-free proceeds received	\$ 0.1	\$ 2.0

Components of Net Cash Value (In millions)	March 31,	December 31,
	2006	2005
Gross cash value	\$ 110.9	\$ 109.2
Principal – policy loans	(23.8)	(23.7)
Accrued interest – policy loans	(0.9)	(0.7)
Net cash value	\$ 86.2	\$ 84.8
Insurance benefits in force	\$ 197.4	\$ 196.3

Grace's financial statements display income statement activity and balance sheet amounts on a net basis, reflecting the contractual interdependency of policy assets and liabilities.

In January 2005, Grace surrendered and terminated most of these life insurance policies and received approximately \$14.8 million of net cash value from the termination. As a result of the termination, gross cash value of the policies was reduced by approximately \$381 million and policy loans of approximately \$365 million were satisfied. Grace's insurance benefits in force was reduced by approximately \$2 billion.

8. Debt

Components of Debt (In millions)	March 31,	December 31,
	2006	2005
Debt payable within one year		
Other short-term borrowings	\$ 2.2	\$ 2.3
	\$ 2.2	\$ 2.3
Debt payable after one year		
Other long-term borrowings	\$ 0.4	\$ 0.4
	\$ 0.4	\$ 0.4
Debt Subject to Compromise		
Bank borrowings	\$ 500.0	\$ 500.0
Other borrowings	14.1	14.3
Accrued interest	182.7	170.4
	\$ 696.8	\$ 684.7
Annualized weighted average interest rates on total debt	7.3%	6.1%

In April 2001, the Debtors entered into the DIP facility for a two-year term in the aggregate amount of \$250 million. The DIP facility is secured by a priority lien on substantially all assets of the Debtors with the exclusion of foreign stock holdings, and bears interest based on the London Interbank Offered Rate

Table of Contents

(LIBOR). The Debtors have extended the term of the DIP facility through April 1, 2008. Grace had no outstanding borrowings under the DIP facility as of March 31, 2006; however, \$34.5 million of standby letters of credit were issued and outstanding under the facility. The letters of credit, which reduce available funds under the facility, were issued primarily for trade-related matters such as performance bonds, and certain insurance and environmental matters.

9. Shareholders' Equity (Deficit)

Under its Certificate of Incorporation, the Company is authorized to issue 300,000,000 shares of common stock, \$0.01 par value. Of the common stock unissued at March 31, 2006, approximately 6,376,135 shares were reserved for issuance pursuant to stock options and other stock incentives. Since the Filing Date, Grace has not granted any stock options.

For additional information, see Notes 15 and 17 to the Consolidated Financial Statements in Grace's 2005 Form 10-K.

10. Earnings (Loss) Per Share

The following table shows a reconciliation of the numerators and denominators used in calculating basic and diluted earnings (loss) per share.

Earnings (Loss) Per Share (In millions, except per share amounts)	Three Months Ended March 31,	
	2006	2005
Numerators		
Net income (loss)	\$ 0.1	\$ 3.1
Denominators		
Weighted average common shares – basic calculation	67.0	66.6
Dilutive effect of employee stock options	0.3	0.7
Weighted average common shares – diluted calculation	67.3	67.3
Basic earnings (loss) per share	\$ 0.00	\$ 0.05
Diluted earnings (loss) per share	\$ 0.00	\$ 0.05

11. Comprehensive Income (Loss)

The table below presents the pre-tax, tax and after tax components of Grace's other comprehensive income (loss) for the three months ended March 31, 2006 and 2005:

Three Months Ended March 31, 2006 (In millions)	Pre-Tax Amount	Tax Benefit	After- Tax Amount
Commodity hedging activities	\$ (0.9)	\$ 0.3	\$ (0.6)
Foreign currency translation adjustments	1.0	—	1.0
Other comprehensive income (loss)	\$ 0.1	\$ 0.3	\$ 0.4

Three Months Ended March 31, 2005 (In millions)	Pre-Tax Amount	Tax Benefit	After- Tax Amount
Foreign currency translation adjustments	\$ (13.0)	\$ —	\$ (13.0)
Other comprehensive income (loss)	\$ (13.0)	\$ —	\$ (13.0)

I-22

Table of Contents

The following table presents the components of Grace's accumulated other comprehensive income (loss) at March 31, 2006 and December 31, 2005:

Components of Accumulated Other Comprehensive Income (Loss) (In millions)	March 31, 2006	December 31, 2005
Commodity hedging (net of tax)	\$ (0.6)	\$ —
Minimum pension liability (net of tax)	(362.7)	(362.7)
Foreign currency translation	(30.2)	(31.2)
Accumulated other comprehensive income (loss)	\$ (393.5)	\$ (393.9)

Grace uses forward contracts and options to mitigate the risk of volatility of natural gas prices in the U.S. During the first quarter of 2006, Grace purchased forward contracts and options for a portion of its expected requirements. The outstanding options were treated as an effective cash flow hedge for accounting purposes and revalued at the end of the quarter. An adjustment of \$0.6 million, net of tax, was made to reduce the value of the derivative based on the fair value of these options at March 31, 2006. A corresponding adjustment was made to other comprehensive income.

Grace is a global enterprise which operates in over 40 countries with local currency generally deemed to be the functional currency for accounting purposes. The foreign currency translation amount represents the adjustment necessary to translate the balance sheets valued in local currencies to the U.S. dollar as of the end of each period presented.

The decline in equity market returns in 2000-2002, coupled with a decline in interest rates from 2000-2004, as well as updated assumptions for expected life-spans and the longevity of Grace's active work force, created a shortfall between the accounting measurement of Grace's obligations under certain of its qualified pension plans for U.S. employees and the market value of dedicated pension assets. This condition required Grace to record a minimum pension liability for these plans equal to the funding shortfall and to offset related deferred costs against shareholders' equity (deficit) at December 31, 2005.

12. Commitments and Contingent Liabilities

Asbestos-Related Litigation – See Note 3

Environmental Remediation – Grace is subject to loss contingencies resulting from extensive and evolving federal, state, local and foreign environmental laws and regulations relating to the generation, storage, handling, discharge and disposition of hazardous wastes and other materials. Grace accrues for anticipated costs associated with investigative and remediation efforts where an assessment has indicated that a probable liability has been incurred and the cost can

be reasonably estimated. These accruals do not take into account any discounting for the time value of money.

Grace's environmental liabilities are reassessed whenever circumstances become better defined or remediation efforts and their costs can be better estimated. These liabilities are evaluated based on currently available information, including the progress of remedial investigation at each site, the current status of discussions with regulatory authorities regarding the method and extent of remediation at each site, existing technology, prior experience in contaminated site remediation and the apportionment of costs among potentially responsible parties. Grace expects that the funding of environmental remediation activities will be affected by the Chapter 11 proceedings.

At March 31, 2006, Grace's estimated liability for environmental investigative and remediation costs totaled \$339.9 million, as compared with \$342.0 million at December 31, 2005. The amount is based on funding and/or remediation agreements in place and Grace's best estimate of its cost for sites not subject to a formal remediation plan. Grace's estimated environmental liabilities are included in "liabilities subject to compromise."

Net cash expenditures charged against previously established reserves for the three months ended March 31, 2006 and 2005 were \$2.1 million and \$1.2 million, respectively.

I-23

Table of Contents

Vermiculite Related Matters

EPA Lawsuit – In November 1999, Region 8 of the Environmental Protection Agency ("EPA") began an investigation into alleged excessive levels of asbestos-related disease in the Libby population related to Grace's former mining activities in Libby, Montana. This investigation led the EPA to undertake additional investigative activity and to carry out response actions in and around Libby. On March 30, 2001, the EPA filed a lawsuit in U.S. District Court for the District of Montana, Missoula Division (United States v. W. R. Grace & Company et al.) under the Comprehensive Environmental Response, Compensation and Liability Act for the recovery of costs allegedly incurred by the United States in response to the release or threatened release of asbestos in the Libby, Montana area relating to such former mining activities. These costs include cleaning and/or demolition of contaminated buildings, excavation and removal of contaminated soil, health screening of Libby residents and former mine workers, and investigation and monitoring costs. In this action, the EPA also sought a declaration of Grace's liability that would be binding in future actions to recover further response costs.

In December 2002, the District Court granted the United States' motion for partial summary judgment on a number of issues that limited Grace's ability to challenge the EPA's response actions. In January 2003, a trial was held on the remainder of the issues, which primarily involved the reasonableness and adequacy of documentation of the EPA's cost recovery claims through December 31, 2001. On August 28, 2003, the District Court issued a ruling in favor of the United States that requires Grace to reimburse the government for \$54.5 million (plus interest) in costs expended through December 2001, and for all appropriate future costs to complete the clean-up. The Ninth Circuit Court of Appeals upheld the District Court's rulings. Grace has appealed this case to the U.S. Supreme Court.

Grace's total estimated liability for vermiculite-related remediation, including the \$54.5 million mentioned above and the cost of remediation of vermiculite processing sites outside of Libby, at March 31, 2006 and December 31, 2005 was \$226.1 million and \$226.2 million, respectively. The estimate does not include the cost to clean-up the Grace-owned mine site at Libby, which is not currently estimable. Grace's estimate of costs is based on public comments regarding the EPA's spending plans, discussions of spending forecasts with EPA representatives, analysis of

other information made available from the EPA, and evaluation of probable remediation costs at vermiculite processing sites. However, the EPA's cost estimates have increased regularly and substantially over the course of this clean-up. Consequently, as the EPA's spending on these matters increases, Grace's liability for remediation will increase.

Montana Criminal Proceeding – On February 7, 2005, the United States Department of Justice announced the unsealing of a 10-count grand jury indictment against Grace and seven current or former senior level employees (United States of America v. W. R. Grace & Co. et al) relating to Grace's former vermiculite mining and processing activities in Libby, Montana. Two of the counts have since been dismissed. The indictment accuses the defendants of (1) conspiracy to violate environmental laws and obstruct federal agency proceedings; (2) violations of the federal Clean Air Act; and (3) obstruction of justice. The U.S. District Court for the District of Montana has entered a scheduling order setting a trial date of September 11, 2006.

Grace purchased the Libby mine in 1963 and operated it until 1990; vermiculite processing activities continued until 1992. The grand jury charges that the conspiracy took place from 1976 to 2002 and also charges that the alleged endangerment to the areas surrounding Libby continues to the present day. According to the U.S. Department of Justice, Grace could be subject to fines in an amount equal to twice the after-tax profit earned from its Libby operations or twice the alleged loss suffered by Libby victims, plus additional amounts for restitution to victims. The indictment alleges that such after tax profits were \$140 million. Grace has categorically denied any criminal wrongdoing and intends to vigorously defend itself at trial.

The U.S. Bankruptcy Court previously granted Grace's request to advance legal and defense costs to the employees, subject to a reimbursement obligation if it is later determined that the employees did not meet the standards for indemnification set forth under the appropriate state corporate law. For the three

I-24

Table of Contents

months ended March 31, 2006, total expense for Grace and the employees was \$10.1 million, which is included in selling, general and administrative expenses.

Grace is unable to assess whether the indictment, or any conviction resulting therefrom, will have a material adverse effect on the results of operations or financial condition of Grace or affect Grace's bankruptcy proceedings. However, Grace expects legal fees for this matter could range from \$10 million to \$20 million per quarter through the trial. Such costs will be expensed as incurred.

New Jersey Lawsuit – On June 1, 2005, the New Jersey Department of Environmental Protection (“DEP”) filed a lawsuit against Grace and two former employees seeking civil penalties for alleged misrepresentations and false statements made in a Preliminary Assessment/Site Investigation Report and Negative Declarations submitted by Grace to the DEP in 1995 pursuant to the New Jersey Industrial Site Recovery Act. Grace submitted the Report, which was prepared by an independent environmental consultant, in connection with the closing of Grace's former plant in Hamilton Township, New Jersey. Grace is also aware that the State of New Jersey and U.S. Department of Justice each are conducting criminal investigations related to Grace's former operations of such plant.

Grace purchased the Hamilton plant assets in 1963 and ceased operations in 1994. During the operating period, Grace produced spray-on fire protection products and vermiculite-based products at this plant. The current property owners are conducting remediation activities as directed by the EPA. The property owners and the EPA have filed proofs of

claim against Grace in the amount of approximately \$4 million with respect to the Hamilton plant site.

Grace is unable at this time to assess the effect of this lawsuit or the pending criminal investigations on Grace's results of operations, cash flows, or liquidity, or on its bankruptcy proceeding.

Non-Vermiculite Related Matters

At March 31, 2006 and December 31, 2005, Grace's estimated liability for remediation of sites not related to its former vermiculite mining and processing activities was \$113.8 million and \$115.8 million, respectively. This liability relates to Grace's current and former operations, including its share of liability for off-site disposal at facilities where it has been identified as a potentially responsible party. Grace's estimated liability is based upon an evaluation of claims for which sufficient information was available. As Grace receives new information and continues its claims evaluation process, its estimated liability may change materially.

Tax Matters – On May 19, 2005, Grace received a revised examination report (the "1993-1996 Examination Report") from the Internal Revenue Service (the "IRS") for the 1993-1996 tax periods asserting, in the aggregate, approximately \$77.3 million of proposed tax adjustments, plus accrued interest. The most significant issue addressed in the 1993-1996 Examination Report concerns interest deductions claimed with respect to corporate-owned life insurance ("COLI") policies. Grace reached an agreement with the IRS with respect to all proposed tax adjustments in the Examination Report (including settlement of COLI) with the exception of approximately \$7.0 million of proposed adjustments relating to research and development credits. On April 14, 2005, Grace made a \$90 million payment to the IRS with respect to federal taxes and accrued interest for the 1993-1996 tax periods, consistent with the revised Examination Report. On June 17, 2005, Grace filed its protest with respect to the R&D matter with the IRS Office of Appeals. Grace expects to begin negotiations with the IRS with respect to this matter during the second quarter of 2006.

As a consequence of having determined federal tax adjustments for the 1990-1996 tax periods, Grace became liable for additional state taxes plus interest accrued thereon. Grace's estimate for state taxes and interest to be paid for these years is approximately \$18.3 million, of which it has already paid approximately \$6.3 million. The remainder is expected to be paid in accordance with Grace's bankruptcy proceedings.

In March 2006, Grace received examination reports for the 1988-1989 and 1997-2001 tax periods, collectively, the "Examination Reports" from the IRS asserting, in the aggregate, approximately \$49 million

I-25

Table of Contents

of additional tax plus accrued interest. The most significant issue addressed in the Examination Reports concerns the carryback of a specified liability loss from the 1998 tax period to the 1989 taxable year. Since Grace was in a net operating loss position for all but two of the other tax periods covered in the audit, most of the other issues addressed in the Examination Reports if determined adversely to Grace should not result in any cash tax liability but rather would impact the amount of certain tax attributes claimed by Grace in those tax periods such as losses and credits. Grace intends to protest the ten year carryback issue as well as certain computational issues to IRS appeals.

Grace's federal tax returns covering 2002 and later years are open for future examination by the IRS. Grace believes that its recorded tax liability is adequate to cover the impact of probable tax return adjustments at March 31, 2006.

The IRS has assessed additional federal income tax withholding and Federal Insurance Contributions Act taxes plus interest and related penalties for calendar years 1993 through 1998 against a Grace subsidiary that formerly operated a temporary staffing business for nurses and other health care personnel. The assessments, aggregating \$61.9 million, were made in connection with a meal and incidental expense per diem plan for traveling health care personnel, which was in effect through 1999, the year in which Grace sold the business. (The statute of limitations has expired with respect to 1999.) The IRS contends that certain per diem reimbursements should have been treated as wages subject to employment taxes and federal income tax withholding. Grace contends that its per diem and expense allowance plans were in accordance with statutory and regulatory requirements, as well as other published guidance from the IRS. Grace has a right to indemnification from its former partner in the business for approximately 36% of any tax liability (including interest thereon) for the period from July 1996 through December 1998. The matter is currently pending in the United States Court of Claims. Grace has agreed with the Department of Justice and IRS on a settlement amount and certain other terms that would resolve the matter. The settlement is subject to the execution of written closing agreements with the IRS and a written settlement agreement with the Department of Justice, the terms of which have been orally agreed upon, and to Bankruptcy Court approval.

Under federal income tax law, a corporation is generally permitted to deduct from taxable income in any year net operating losses (“NOL”) carried forward from prior years. Grace’s ability to deduct NOL carryforwards could be subject to a significant limitation if it were to undergo an ownership change for purposes of Section 382 of the Internal Revenue Code of 1986, as amended, during or as a result of its Chapter 11 cases. During the course of the bankruptcy proceeding, the Bankruptcy Court entered an order that places certain limitations on trading in Grace’s common stock or options convertible into common stock. Pursuant to these limitations, the Company intends to object to any purchase of the Company’s stock or options that would potentially contribute to an “ownership change” for purposes of Section 382. However, Grace can provide no assurance that these limitations will prevent an ownership change or that our ability to utilize net operating loss carryforwards may not be significantly limited as a result of Grace’s reorganization.

Purchase Commitments – Grace engages in purchase commitments to minimize the volatility of major components of direct manufacturing costs including natural gas, certain metals, asphalt, amines and other materials. Such commitments are for quantities that Grace fully expects to use in its normal operations.

Guarantees and Indemnification Obligations – Grace is a party to many contracts containing guarantees and indemnification obligations. These contracts primarily consist of:

- Contracts providing for the sale of a former business unit or product line in which Grace has agreed to indemnify the buyer against liabilities arising prior to the closing of the transaction, including environmental liabilities. These liabilities are included in “liabilities subject to compromise” in the Consolidated Balance Sheets;

I-26

Table of Contents

- Guarantees of real property lease obligations of third parties, typically arising out of (a) leases entered into by former subsidiaries of Grace, or (b) the assignment or sublease of a lease by Grace to a third party. These obligations are included in “liabilities subject to compromise” in the Consolidated Balance Sheets;
- Licenses of intellectual property by Grace to third parties in which Grace has agreed to indemnify the licensee against third party infringement claims;
-

Contracts entered into with third party consultants, independent contractors, and other service providers in which Grace has agreed to indemnify such parties against certain liabilities in connection with their performance. Based on historical experience and the likelihood that such parties will ever make a claim against Grace, such indemnification obligations are immaterial; and

- Product warranties with respect to certain products sold to customers in the ordinary course of business. These warranties typically provide that product will conform to specifications. Grace generally does not establish a liability for product warranty based on a percentage of sales or other formula. Grace accrues a warranty liability on a transaction-specific basis depending on the individual facts and circumstances related to each sale. Both the liability and annual expense related to product warranties are immaterial to the Consolidated Financial Statements.

Financial Assurances – Financial assurances have been established for a variety of purposes, including insurance and environmental matters, asbestos settlements and appeals, trade-related commitments and other matters. At March 31, 2006, Grace had gross financial assurances issued and outstanding of \$258.9 million, comprised of \$135.0 million of surety bonds issued by various insurance companies, and \$123.9 million of standby letters of credit and other financial assurances issued by various banks. As discussed in Note 8, \$34.5 million of these financial assurances have been issued under the DIP facility.

Accounting for Contingencies – Although the outcome of each of the matters discussed above cannot be predicted with certainty, Grace has assessed its risk and has made accounting estimates as required under U.S. generally accepted accounting principles. As a result of the Filing, claims related to certain of the items discussed above will be addressed as part of Grace’s Chapter 11 proceedings. Accruals recorded for such contingencies have been included in “liabilities subject to compromise” on the accompanying Consolidated Balance Sheets. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at March 31, 2006.

13. Pension Plans and Other Postretirement Benefit Plans

Pension Plans – Grace maintains defined benefit pension plans covering employees of certain units who meet age and service requirements. Benefits are generally based on final average salary and years of service. Grace funds its U.S. qualified pension plans (“U.S. qualified pension plans”) in accordance with U.S. federal laws and regulations. Non-U.S. pension plans (“non-U.S. pension plans”) are funded under a variety of methods, as required under local laws and customs.

Grace also provides, through nonqualified plans, supplemental pension benefits in excess of U.S. qualified pension plan limits imposed by federal tax law. These plans cover officers and higher-level employees and serve to increase the combined pension amount to the level that they otherwise would have received under the U.S. qualified pension plans in the absence of such limits. The nonqualified plans are unfunded and Grace pays the costs of benefits as they are incurred.

At the December 31, 2005 measurement date for Grace’s defined benefit pension plans (the “Plans”), the accumulated benefit obligation (“ABO”) was approximately \$1,386 million as measured under U.S. generally accepted accounting principles. At March 31, 2006, Grace’s recorded pension liability for underfunded plans was \$537.2 million (\$450.3 million included in liabilities not subject to compromise and \$86.9 million related to supplemental pension benefits, included in “liabilities subject to

Table of Contents

compromise’’). The recorded liability reflects 1) the shortfall between dedicated assets and the ABO of underfunded plans (\$321.7 million); and 2) the ABO of pay-as-you-go plans (\$215.5 million).

Postretirement Benefits Other Than Pensions – Grace provides postretirement health care and life insurance benefits (referred to as other post-employment benefits or ‘‘OPEB’’) for retired employees of certain U.S. business units and certain divested units. The postretirement medical plan provides various levels of benefits to employees hired before 1991 and who retire from Grace after age 55 with at least 10 years of service. These plans are unfunded and Grace pays a portion of the costs of benefits under these plans as they are incurred. Grace applies SFAS No. 106, ‘‘Employers’ Accounting for Postretirement Benefits Other Than Pensions,’’ which requires that the future costs of postretirement health care and life insurance benefits be accrued over the employees’ years of service.

Retirees and beneficiaries covered by the postretirement medical plan are required to contribute a minimum of 40% of the calculated premium for that coverage. During 2002, per capita costs under the retiree medical plans exceeded caps on the amount Grace was required to contribute under a 1993 amendment to the plan. As a result, for 2003 and future years, retirees will bear 100% of any increase in premium costs.

For 2006 measurement purposes, per capita costs, before retiree contributions, were assumed to initially increase at a rate of 8.5%. The rate is assumed to decrease gradually to 5.0% through 2010 and remain at that level thereafter. A one percentage point increase or decrease in assumed health care medical cost trend rates would have a negligible impact on Grace’s postretirement benefit obligations.

The components of net periodic benefit cost for the three months ended March 31, 2006 and 2005 are as follows:

Components of Net Periodic Benefit Cost (Income) (In millions)	Three Months Ended March 31,					
	2006			2005		
	Pension			Pension		
	U.S.	Non-U.S.	OPEB	U.S.	Non-U.S.	OPEB
Service cost	\$ 4.3	\$ 2.0	\$ 0.1	\$ 4.2	\$ 1.9	\$ 0.2
Interest cost	14.5	4.2	1.1	14.4	4.4	1.2
Expected return on plan assets	(13.9)	(4.3)	—	(12.8)	(4.0)	—
Amortization of prior service cost	0.6	0.1	(3.2)	1.3	0.2	(3.2)
Amortization of unrecognized actuarial loss	5.3	2.0	0.4	5.1	1.9	0.4
Net curtailment and settlement loss	—	—	—	1.0	—	—
Net periodic benefit cost (income)	\$ 10.8	\$ 4.0	\$ (1.6)	\$ 13.2	\$ 4.4	\$ (1.4)

Plan Contributions and Funding – Subject to the approval of the Bankruptcy Court, Grace intends to satisfy its obligations under the Plans and to comply with all of the requirements of the Employee Retirement Income Security Act of 1974. Grace contributed approximately \$9 million in January 2006 and approximately \$20 million in April 2006 to the trusts that hold assets of the Plans. However, there can be no assurance that the Bankruptcy Court will continue to approve arrangements to satisfy the funding needs of the Plans. Contributions to non-U.S. plans are not subject to Bankruptcy Court approval and Grace intends to fund such plans based on actuarial and trustee recommendations.

Grace plans to pay benefits as they become due under virtually all pay-as-you-go plans and to maintain compliance with federal funding laws for its U.S. qualified pension plans.

14. Operating Segment Information

Grace is a global producer of specialty chemicals and materials. It generates revenues from two operating segments: Grace Davison, which includes silica- and alumina-based catalysts and materials used in a wide range of industrial applications; and Grace Performance Chemicals, which includes specialty chemicals and materials used in commercial and residential construction and in rigid food and

I-28

Table of Contents

beverage packaging. Intersegment sales, eliminated in consolidation, are not material. The table below presents information related to Grace's business segments for the three months ended March 31, 2006 and 2005. Only those corporate expenses directly related to the segment are allocated for reporting purposes. All remaining corporate items are reported separately and labeled as such.

Operating Segment Data
(In millions)

	Three Months Ended March 31,	
	2006	2005
Net Sales		
Grace Davison	\$ 356.4	\$ 334.7
Grace Performance Chemicals	302.2	268.5
Total	\$ 658.6	\$ 603.2
Pre-tax Operating Income		
Grace Davison	\$ 36.0	\$ 37.7
Grace Performance Chemicals	34.2	27.3
Total	\$ 70.2	\$ 65.0

The following table presents information related to the geographic areas in which Grace operated for the three months ended March 31, 2006 and 2005, respectively.

Geographic Area Data
(In millions)

	Three Months Ended March 31,	
	2006	2005
Net Sales		
United States	\$ 239.3	\$ 227.0
Canada and Puerto Rico	40.6	33.2
Total North America	279.9	260.2
Germany	30.3	28.4
Europe, other than Germany	216.7	192.8
Total Europe	247.0	221.2
Asia Pacific	98.3	88.1
Latin America	33.4	33.7
Total	\$ 658.6	\$ 603.2

Sales increased 9.2% for the three months ended March 31, 2006 primarily as a result of higher sales volume in most geographic regions, improved product mix, and selling price increases in response to cost inflation.

- Net income for the three months ended March 31, 2006 and 2005 was \$0.1 million and \$3.1 million, respectively. Net income includes the costs of Chapter 11, litigation and other matters not related to core operations.
- Net income for each period has been primarily affected by: 1) the results of our businesses – which is categorized as “core operations”; and 2) the impact of legal contingencies and other nonoperating liabilities – which is categorized as “noncore activities”.
- Pre-tax income from core operations increased 20.4% for the three months ended March 31, 2006 due to higher sales, cost containment, and lower pension expense. Pre-tax income was negatively impacted by raw material and utility cost inflation that was partially offset by increased selling prices and productivity.
- Pre-tax operating income of our Grace Performance Chemicals operating segment increased 25.3% for the three months ended March 31, 2006, attributable principally to higher sales of construction products and to productivity gains.
- Pre-tax operating income of our Grace Davison operating segment decreased 4.5% for the three months ended March 31, 2006 as strong sales of catalysts used in petroleum refining and specialty materials used in scientific and industrial applications were offset by higher costs of raw materials and energy, as well as costs of plant disruptions and rationalizations.
- Operating cash flow for the three months ended March 31, 2006 was a negative \$40.2 million compared with a negative \$31.4 million for the prior year period. The 2006 cash flow includes an increase in working capital in response to higher sales, payments of annual accruals for compensation and customer rebates, bankruptcy court-approved payments for pensions, and higher costs of Chapter 11 proceedings and defense costs for the criminal proceeding related to former vermiculite mining operations in Libby, Montana.
- The pre-tax loss from noncore activities for the three months ended March 31, 2006 was \$20.1 million compared with \$8.1 million in the prior year period. The increase is principally due to defense costs for the Montana criminal proceeding. Our first quarter 2006 financial statements include \$10.1 million of legal costs (included as part of selling, general and administrative expenses in the Consolidated Statement of Operations) for the defense of Grace and the other named individuals to this proceeding, compared with \$6.0 million in the first quarter of 2005.

We are attempting to resolve noncore liabilities and contingencies through our Chapter 11 proceeding. Our noncore liabilities include asbestos-related litigation, environmental remediation, tax disputes and business litigation. Our operating statements include periodic adjustments to account for changes in estimates of such liabilities and developments in our Chapter 11 proceeding. These liabilities and contingencies may result in continued volatility in net income in the future.

Description of Core Business

We are engaged in specialty chemicals and specialty materials businesses on a worldwide basis through our two operating segments:

I-31

Grace Davison includes:

- catalysts and chemical additives used by petroleum refiners, including fluid catalytic cracking, or FCC, catalysts, that help to “crack” the hydrocarbon chain in distilled crude oil to produce transportation fuels, such as gasoline and diesel fuels, and other petroleum-based products, and FCC additives used to reduce sulfur in gasoline, maximize propylene production from refinery FCC units, and reduce emissions of sulfur oxides, nitrogen oxides and carbon monoxide from refinery FCC units;
- hydroprocessing catalysts used by petroleum refiners in process reactors to upgrade heavy oils into lighter, more useful products by removing impurities such as nitrogen, sulfur and heavy metals, allowing less expensive feedstocks to be used in the petroleum refining process;
- specialty catalysts, including polyolefin catalysts and catalyst supports that are essential components in the manufacture of polyethylene and polypropylene resins, and other chemical catalysts used in a variety of industrial, environmental and consumer applications;
- silica-based and silica-alumina-based engineered materials used in:
 - industrial markets, such as coatings, plastics and rubber, precision investment casting, refractory, insulating glass windows, desiccants, and gas and liquids purification
 - consumer applications, such as food products, toothpaste, pharmaceutical and personal care products, and the processing of edible oils and beverages
 - digital media coatings on ink jet papers; and
- silica-based materials and chromatography columns, instruments, consumables and accessories used in life and analytical sciences applications.

We conduct our hydroprocessing catalyst business through Advanced Refining Technologies, LLC, or ART, our joint venture with Chevron Products Company. We report 100% of the revenues of our ART joint venture, but only receive 55% of the income after the minority interest is allocated to Chevron.

Key external factors for our FCC catalysts and hydroprocessing catalysts are the economics of the petroleum refining industry, specifically the impacts of demand for transportation fuels and petrochemical products, and crude oil supply.

Sales of our other three Grace Davison product groups are affected by general economic conditions including the underlying growth rate of targeted end-use applications.

Grace Performance Chemicals, or GPC, includes:

- Construction materials and systems, including concrete admixtures and fibers used to improve the durability and working properties of concrete, additives used in cement processing to improve energy efficiency and enhance the characteristics of finished cement, waterproofing materials used in commercial and residential construction and renovation to protect buildings from water penetration, and fireproofing materials used to protect buildings from structural failure in the event of fire; and
- Packaging technologies, primarily specialty sealants and coatings used in rigid food and beverage packages, including can and closure sealants used to seal and enhance the shelf life of can and bottle contents, and coatings for cans and closures that prevent metal corrosion, protect package contents from the influence of metal and ensure proper adhesion of sealing compounds.

Construction products sales are affected by non-residential construction activity and, to a lesser extent, residential construction activity, which tend to lag the general economy in both decline and

Table of Contents

recovery. Waterproofing products sales are also significantly affected by residential renovation activity. A significant portion of our sales of construction products are in the U.S., so we are strongly influenced by the level of U.S. construction activity.

Our packaging technologies sales are affected by general economic conditions globally as well as an ongoing shift in demand from metal and glass to plastic packaging for foods and beverages. This shift is causing a decline in can sealant usage, but provides opportunities for closure sealants and other products for plastic packaging.

Global scope – We operate our business on a global scale with more than 60% of our revenue and 40% of our operating properties outside the United States. Our business is conducted in more than 40 countries and in more than 20 currencies. Our operating segments are managed on a global basis, serving global markets, with currency fluctuations in relation to the U.S. dollar affecting reported earnings, net assets and cash flows.

The table below shows the sales in each of our operating segments as a percentage of our total sales.

Percentage of Total Grace Sales	Three Months Ended March 31,	
	2006	2005
Grace Davison	54.1%	55.5%
Grace Performance Chemicals	45.9%	44.5%
Total	100.0%	100.0%
Grace U.S.	36.3%	37.6%
Grace non-U.S.	63.7%	62.4%
Total	100.0%	100.0%

Voluntary Bankruptcy Filing

In response to a sharply increasing number of asbestos-related personal injury claims, on April 2, 2001, Grace and 61 of our United States subsidiaries and affiliates, including W. R. Grace & Co. – Conn., filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware. Our non-U.S. subsidiaries and certain of our U.S. subsidiaries were not included in the Chapter 11 filing.

Under Chapter 11, we have continued to operate as debtors-in-possession under court protection from creditors and claimants, while using the Chapter 11 process to develop and implement a plan for addressing the asbestos-related claims. Since the Chapter 11 filing, all motions necessary to conduct normal business activities have been approved by the bankruptcy court.

On January 13, 2005, we filed an amended plan of reorganization and related documents with the bankruptcy court. The plan of reorganization is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants. Under the terms of the plan of reorganization, a trust would be established to which all pending and future asbestos-related claims would be channeled for resolution. The plan of reorganization can become effective only after a vote of eligible creditors and with the approval of the bankruptcy court and the U.S. District Court for the District of Delaware. See “Plan of Reorganization” below for more information.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires that we make estimates and assumptions affecting the assets and liabilities reported at the date of the Consolidated Financial Statements, and the revenues and expenses reported for the periods presented. Actual amounts could differ from those estimates. Changes in estimates are recorded in the period identified. Accounting measurements that are most affected by our estimates of future events are:

I-33

Table of Contents

- Contingent liabilities such as asbestos-related matters (see Notes 2 and 3 to the Consolidated Financial Statements), environmental remediation (see Note 12 to the Consolidated Financial Statements), income taxes (see Note 12 to the Consolidated Financial Statements), and litigation (see Note 12 to the Consolidated Financial Statements).
- Pension and postretirement liabilities that depend on assumptions regarding discount rates and/or total returns on invested funds. (See Note 13 to the Consolidated Financial Statements.)
- Liabilities for employee incentive compensation and customer rebates.
- Depreciation and amortization periods for long-lived assets, including property and equipment, intangible, and other assets.
- Realization values of various assets such as net deferred tax assets, trade receivables, inventories, insurance receivables, properties and equipment, and goodwill.

The accuracy of these and other estimates may also be materially affected by the uncertainties arising under our Chapter 11 proceeding.

Summary Financial Information and Metrics

Set forth on the next page is a chart that lists our key operating statistics, and dollar and percentage changes for the three months ended March 31, 2006 and 2005. Please reference this chart when reading management's discussion and analysis of financial condition and the results of operations.

NM = Not meaningful

⁽¹⁾Grace Davison pre-tax operating income includes minority interest related to the Advanced Refining Technologies joint venture.

⁽²⁾Reflects the add-back of minority interests in consolidated subsidiaries.

⁽³⁾Includes depreciation and amortization related to manufacturing of products.

The above chart, as well as the financial information presented throughout this discussion, divides our financial results between “core operations” and “noncore activities.” Core operations comprise the financial results of Grace Davison, Grace Performance Chemicals, and the costs of corporate activities that directly or indirectly support our business operations. In contrast, noncore activities comprise all other events and transactions not directly related to the generation of operating revenue or the support of our core operations and generally relate to our former operations and products. See “Pretax Income (Loss)

Table of Contents

from Noncore Activities'' for more information about noncore activities. We use pre-tax income from core operations as a factor in determining certain incentive compensation and as a key factor in our decision-making process.

Neither pre-tax income from core operations nor pre-tax income from core operations before depreciation and amortization purport to represent income or cash flow as defined under generally accepted accounting principles, and you should not consider them an alternative to such measures as an indicator of our performance. We provide these measures so you can distinguish the operating results of our current business base from the results and related assets and liabilities of our past businesses, discontinued products, and corporate legacies including the effect of our Chapter 11 proceedings.

Grace Overview

The following is an overview of our financial performance for the three months ended March 31, 2006 compared with the prior year period.

Net Sales – The following table identifies the quarter-over-quarter increase or decrease in sales attributable to changes in product volume, product price and/or mix, and the impact of foreign currency translation.

Net Sales Variance Analysis	Three Months Ended March 31, 2006 as a Percentage Increase (Decrease) from Three Months Ended March 31, 2005			
	Volume	Price/Mix	Currency Translation	Total
Grace Davison	5.8%	4.5%	(3.8%)	6.5%
Grace Performance Chemicals	10.7%	5.0%	(3.1%)	12.6%
Net sales	8.0%	4.6%	(3.4%)	9.2%
By Region:				
North America	4.2%	3.2%	0.2%	7.6%
Europe	15.1%	6.2%	(9.6%)	11.7%
Asia Pacific	9.8%	3.2%	(1.4%)	11.6%
Latin America	(7.1%)	2.9%	3.3%	(0.9%)

Sales for the three months ended March 31, 2006 were favorably impacted by higher volume (including acquisitions), product mix, and selling price increases in response to cost inflation. Acquisitions contributed \$0.9 million or 0.1 percentage points of the sales growth.

Grace Net Sales
(\$ in millions)

Pre-tax Income from Core Operations – Operating profit for the three months ended March 31, 2006 improved due to sales volume growth and selling price increases, partially offset by raw material cost inflation.

Table of Contents

Corporate costs include corporate functional costs (such as financial and legal services, human resources, communications and information technology), the cost of corporate governance (including directors and officers liability insurance) and pension costs related to both corporate employees and to the effects of changes in assets and liabilities for all of our pension plans. Corporate costs for the three months ended March 31, 2006 decreased compared with the prior year period primarily due to lower pension expense from the effect of contributions made to defined benefit pension plans in recent years.

We value our U.S. inventories under the last-in/first-out method, or LIFO, and our non-U.S. inventories under the first-in/first-out, or FIFO, method. LIFO was selected in 1974 for U.S. financial reporting and tax purposes because it generally results in a better matching of current revenue with current costs during periods of inflation. We have not elected LIFO for our non-U.S. inventories due to statutory restrictions. However, if we valued our U.S. inventories using the FIFO method, consistent with our non-U.S. subsidiaries, our pre-tax income from core operations would have been approximately 14% lower for the quarter ended March 31, 2006 and 5% higher for the quarter ended March 31, 2005 (6% higher for all of 2005). The significant change in inventory valuations between FIFO and LIFO relate primarily to the price volatility, over the past several quarters, of commodity metals and natural gas used in our Davison products and production processes. We attempt to mitigate the price volatility through hedging techniques such as layering our needed supply under fixed delivery contracts and by negotiating sales contracts that permit the partial pass-through of market prices for these volatile commodity items.

Grace

Operating Income and Margin

(\$ in millions)

Pre-tax Income (Loss) from Noncore Activities – Pre-tax income (loss) from noncore activities reflects financial matters unrelated to our core operating units. This category of costs and income is expected to be volatile as potentially material items are addressed through our Chapter 11 proceedings and/or as the financial implications of our legal contingencies become apparent. Some noncore activities are shown as separate items on the Consolidated Statement of Operations. Those not separately listed are primarily included in selling, general and administrative expenses and in other (income) expense. The following table shows the components of noncore activities:

Table of Contents

Pre-tax Income (Loss) from Noncore Activities (In millions)	Three Months Ended March 31,	
	2006	2005
Asbestos administration, net	\$ (2.9)	\$ (2.3)
COLI income, net	1.2	1.3
D&O insurance cost – portion related to Chapter 11	(1.5)	(1.5)
Pension and postretirement benefit costs – divested businesses	(1.8)	(1.3)

Edgar Filing: W R GRACE & CO - Form 10-Q

Translation effects – intercompany loan	3.0	(14.9)
Value of currency contracts	(2.8)	14.5
Stock appreciation rights	(2.6)	—
Legal defense costs	(10.4)	(6.0)
Other	(2.3)	2.1
	\$ (20.1)	\$ (8.1)

Changes to pre-tax income (loss) from noncore activities were attributable primarily to: (1) legal defense costs of \$10.4 million related to the Montana and New Jersey legal proceedings (see Note 12 to the Consolidated Financial Statements for more information), and (2) an accrual for stock appreciation rights of \$2.6 million as discussed in Note 1 to the Consolidated Financial Statements.

In March 2004, we began accounting for currency fluctuations on a €293 million intercompany loan between our subsidiaries in the United States and Germany as a component of operating results instead of as a component of other comprehensive income. This change was prompted by our analysis of new tax laws in Germany and our cash flow planning in connection with our Chapter 11 reorganization, which together indicated that we should no longer consider this loan as part of our permanent capital structure in Germany. In May 2004, we entered into a series of foreign currency forward contracts to mitigate future currency fluctuations on the remaining loan balance. Contract amounts of €200.7 million were extended in June 2005 and have varying rates that coincide with loan repayments due periodically through December 2008. For the three months ended March 31, 2006, €11 million of loan principal was repaid. For the three months ended March 31, 2006, a \$2.8 million contract loss was recognized, offset by a \$3.0 million foreign currency gain, and was reported in other (income) expense. These forward contracts are derivative instruments that we use as risk management tools. We do not use them for trading or speculative purposes.

Chapter 11 Expenses – Although we are unable to measure precisely the impact of the Chapter 11 proceedings on our overall financial performance, we incur certain added costs that are directly attributable to operating in Chapter 11. Net Chapter 11 expenses consist primarily of legal, financial and consulting fees that we, and the three creditors’ committees, incur. They fluctuate with the activity in our Chapter 11 proceedings.

Our pre-tax income from core operations included expenses for Chapter 11-related compensation charges of \$3.2 million and \$2.9 million for the three months ended March 31, 2006 and 2005, respectively. Poor performance of Grace common stock in the period leading up to and after the Chapter 11 filing diminished the value of our stock option program as an incentive compensation tool for current and prospective employees, which caused us to change our long-term incentive compensation from an equity-based to a cash-based program.

We incur numerous other indirect costs to manage the Chapter 11 proceedings such as: management time devoted to Chapter 11 matters; added cost of debt capital; added costs of general business insurance, including D&O liability insurance premiums; and lost business and acquisition opportunities due to the complexities and restrictions of operating under Chapter 11.

Interest Expense – Net interest expense is higher as of March 31, 2006 compared with the prior year period due to the interest to which general unsecured creditors would be entitled under the plan of reorganization. The plan of reorganization states that each holder of an allowed general unsecured claim shall be paid in full, plus post-petition interest. Post-petition interest shall accrue through the date of payment as follows:

I-38

- for the holders of pre-petition bank credit facilities, at a rate of 6.09% per annum, compounded quarterly through December 31, 2005 and, for periods after January 1, 2006, at the floating prime rate compounded quarterly. That rate was 7.43% for the first quarter of 2006;
- for the holders of claims who, but for the Chapter 11 filing, would be entitled under a contract or otherwise to accrue or be paid interest on such claim in a non-default (or non-overdue payment) situation under applicable non-bankruptcy law, the rate provided in the contract between the Grace entity and the claimant or such rate as may otherwise apply under applicable non-bankruptcy law; or
- for all other holders of allowed general unsecured claims, at a rate of 4.19% per annum, compounded annually.

Such interest, which under the plan of reorganization is payable 85% in cash and 15% in Grace common stock, will not be paid until the plan of reorganization is confirmed and funded.

Income Taxes – Income tax benefit (provision) at the federal corporate rate of 35% for the three months ended March 31, 2006 and 2005 was \$2.0 million and \$4.1 million, respectively. The primary differences between these amounts and the overall provision for income taxes is due to interest on tax contingencies and the non-deductibility of certain Chapter 11 expenses.

Operating Segment Overview

The following is an overview of financial measures of the performance of our operating segments for the three months ended March 31, 2006.

Grace Davison

Net Sales by Region (In millions)	Three Months Ended March 31,			
	2006	2005	\$ Change Fav (Unfav)	% Change Fav (Unfav)
North America	\$ 132.7	\$ 130.0	\$ 2.7	2.1%
Europe	154.4	137.4	17.0	12.4%
Asia Pacific	58.1	50.3	7.8	15.5%
Latin America	11.2	17.0	(5.8)	(34.1%)
Total Grace Davison	\$ 356.4	\$ 334.7	\$ 21.7	6.5%

Sales

The key factors contributing to the Grace Davison sales change were:

- continued strong demand for hydroprocessing catalysts that upgrade heavy crude oil;
- selling price increases and surcharges to partially offset natural gas and raw material cost inflation; and
- higher volume in engineered materials and discovery sciences product groups from stronger economic activity, particularly in Europe and Asia.

Sales increases were partially offset by unfavorable currency translation, which lowered the increase by 3.8 percentage points.

Sales in Asia Pacific were up due to strong demand in all product groups resulting from economic activity in China. European sales were higher due to higher demand for refining catalysts, which more than

I-39

Table of Contents

offset the effects of lower economic activity in parts of that region. Sales in North America were negatively affected by continued shutdowns of several petroleum refineries from last year's hurricanes and for preventive maintenance at customer sites. Sales in Latin America were down primarily due to customer order patterns.

Grace Davison Net Sales
(\$ in millions)

Operating Income and Margin

Grace Davison 2006 pretax operating income decreased compared with 2005, as higher selling prices, lower expenses and a better product mix were more than offset by inflation in raw materials and energy costs and by costs to rationalize certain manufacturing operations in North America. We report 100% of sales for the Advanced Refining Technologies LLC joint venture, but only account for 55% of the income in our measure of operating performance.

Grace Davison
Operating Income and Margin
(\$ in millions)

I-40

Table of Contents

Grace Performance Chemicals

Net Sales by Region (In millions)	Three Months Ended March 31,		\$ Change Fav (Unfav)	% Change Fav (Unfav)
	2006	2005		
North America	\$ 147.2	\$ 130.2	\$ 17.0	13.1%
Europe	92.6	83.8	8.8	10.5%
Asia Pacific	40.2	37.8	2.4	6.3%
Latin America	22.2	16.7	5.5	32.9%
Total Performance Chemicals	\$ 302.2	\$ 268.5	\$ 33.7	12.6%

Sales

The key factors contributing to the increase in sales from our Grace Performance Chemicals operating segment were:

- continued steady construction activity in the United States;

- improved construction activity in Europe;
- increased volume of products directed at high-growth industry, geographic and customer segments; and
- higher selling prices in response to increases in raw material costs.

Sales growth was strong in all regions, reflecting geographic expansion and other growth initiatives.

Grace Performance Chemicals Net Sales
(\$ in millions)

Operating Income and Margin

Grace Performance Chemicals 2006 operating income increased compared with 2005, reflecting higher sales volume and selling price increases, partially offset by raw material cost inflation.

I-41

Table of Contents

Grace Performance Chemicals
Operating Income and Margin
(\$ in millions)

Operating Returns on Assets Employed – The following charts set forth the Grace Davison and Grace Performance Chemicals total asset position and pre-tax return on average total assets as of March 31, 2006 and December 31, 2005. We devote significantly higher capital to the manufacture of Grace Davison products than to the manufacture of Grace Performance Chemicals products. Conversely, nonmanufacturing costs, particularly selling expenses, are significantly higher for Grace Performance Chemicals than for Grace Davison.

Grace Davison (In millions)	March 31, 2006	December 31, 2005
Trade receivables	\$ 201.1	\$ 178.2
Inventory	197.0	177.6
Other current assets	18.6	24.3
Total current assets	416.7	380.1
Properties and equipment, net	385.1	390.7
Goodwill and other intangible assets	97.4	98.2
Other assets	—	—
Total assets	\$ 899.2	\$ 869.0
Pre-tax return on average total assets	17.7%	17.9%

Grace Davison's total assets increased by \$30.2 million in 2006 compared with December 31, 2005. The increase was due to higher trade receivables caused by increased sales and higher inventory in response to sales growth and seasonality.

Grace Performance Chemicals (In millions)	March 31, 2006	December 31, 2005
Trade receivables	\$ 230.6	\$ 222.7
Inventory	104.1	100.7
Other current assets	12.7	15.7
Total current assets	347.4	339.1
Properties and equipment, net	229.3	226.4
Goodwill and other intangible assets	92.9	93.5
Other assets	7.2	6.6
Total assets	\$ 676.8	\$ 665.6
Pre-tax return on average total assets	23.3%	22.4%

Grace Performance Chemicals' total assets increased by \$11.2 million, mainly due to higher trade receivables as a result of increased sales and higher inventory to support sales growth.

I-42

Table of Contents

Noncore Liabilities

We have a number of financial exposures originating from past businesses, products and events. These obligations arose from transactions and/or business practices that date to when Grace was a much larger company, when we produced products or operated businesses that are no longer part of our revenue base, and when government regulation was less stringent and scientific knowledge with respect to such businesses and products was much less advanced than today.

The following table summarizes our net noncore liabilities at March 31, 2006 and December 31, 2005:

Net Noncore Liabilities (In millions)	March 31, 2006	December 31, 2005
Asbestos-related liabilities	\$ (1,700.0)	\$ (1,700.0)
Asbestos-related insurance receivable	500.0	500.0
Asbestos-related liability, net	(1,200.0)	(1,200.0)
Environmental remediation	(339.9)	(342.0)
Postretirement benefits	(97.6)	(101.3)
Income taxes	(137.4)	(136.5)
Retained obligations and other	(22.8)	(23.4)
Net noncore liability	\$ (1,797.7)	\$ (1,803.2)

The resolution of most of these noncore recorded and contingent liabilities will be determined through the Chapter 11 proceedings. We cannot predict with any certainty how, and for what amounts, any of these contingencies will be resolved. The amounts of these liabilities as ultimately determined through the Chapter 11 proceedings could be materially different from amounts recorded at March 31, 2006.

Plan of Reorganization

As described under “Voluntary Bankruptcy Filing” in Notes 1 and 2 to the Consolidated Financial Statements, Grace and our principal U.S. operating subsidiary are debtors-in-possession under Chapter 11 of the bankruptcy code. Our non-U.S. subsidiaries, although not part of the Chapter 11 filing, are owned directly or indirectly by our principal operating subsidiary or other filing entities. Consequently, we expect that any Chapter 11 plan of reorganization, including our proposed plan of reorganization, will involve the combined value of our global businesses and other assets to fund (with cash and/or securities) our obligations as adjudicated through the bankruptcy process. We have analyzed our cash flow and capital needs to continue to fund our businesses and believe that, while in Chapter 11, sufficient cash flow and credit facilities are available to support our business strategy.

On January 13, 2005, we filed a plan of reorganization and related documents that amended our original plan of reorganization and disclosure statement filed on November 13, 2004 to address certain objections of creditors and other interested parties. The plan of reorganization is supported by committees representing general unsecured creditors and equity holders, but is not supported by committees representing asbestos personal injury claimants and asbestos property damage claimants. See Note 2 to the Consolidated Financial Statements for more information on the plan of reorganization.

Risks of the plan of reorganization – We intend to address all pending and future asbestos-related claims and all other pre-petition claims as outlined in the plan of reorganization. However, we may not be successful in obtaining approval of the plan of reorganization by the Bankruptcy Court. Instead, a materially different plan of reorganization may ultimately be approved and, under the ultimate plan of reorganization, the interests of Grace shareholders could be substantially diluted or cancelled. The value of Grace common stock following a plan of reorganization, and the extent of any recovery by non-asbestos-related creditors, will depend principally on the allowed value of our asbestos-related claims as determined by the Bankruptcy Court.

I-43

Table of Contents

Our proposed plan of reorganization assumes several fundamental conditions including that:

- our asbestos-related liabilities can be resolved at a net present value cost of no more than \$1,700 million (including \$87 million for pre-petition asbestos-related contractual settlements and judgments), including all property damage claims (including claims related to our former Zonolite Attic Insulation, or ZAI, product) and all pending and future personal injury claims
- the benefit of assets from litigation settlement agreements with Sealed Air Corporation and its subsidiary, Cryovac, Inc., and Fresenius Medical Care Holdings, Inc. will be available to satisfy liabilities under the plan of reorganization

There can be no guarantee that these two fundamental conditions can be met. The measure of our asbestos-related liabilities could be settled by the bankruptcy court (in conformity with the plan of reorganization or otherwise), by a negotiation with interested parties, and/or by legislation (currently being considered by the U.S. Congress) for the personal injury component of this contingency.

In May 2005, the U.S. Senate Judiciary Committee reported the Specter-Leahy Fairness in Asbestos Injury Resolution Act of 2005, or FAIR, to the U.S. Senate. The FAIR bill is intended to create a fair and efficient system to resolve claims of victims for personal injury caused by asbestos exposure. FAIR, as reported, provides for the creation of a government-administered trust, to be funded by payments from insurers and defendant companies. It also includes medical criteria against which monetary values have been assigned so that people with an asbestos-related condition

will receive compensation under a no-fault system.

Under the current version of FAIR, our required payments to the fund would be approximately \$30.4 million payable annually over a period of up to 30 years.

Whether FAIR, as reported or as it may be amended, is enacted into law is highly uncertain. Legislation to provide a resolution for asbestos personal injury mass tort litigation has been considered many times before and in no instance has legislation passed both houses of Congress. A resolution of personal injury claims based on FAIR may not satisfy the conditions precedent under the litigation settlement agreements with Sealed Air and Fresenius and, therefore, may reduce or eliminate the availability of those assets to fund a plan of reorganization.

Any resolution, other than that reflected in the plan of reorganization, could have a material adverse effect on the percentage of Grace common stock to be retained by current Grace shareholders beyond that reflected in the proforma financial information presented below. We will adjust our financial statements and the proforma effects of the plan of reorganization as facts and circumstances warrant.

Proforma Financial Information – The unaudited proforma financial information presented below reflects the accounting effects of our proposed plan of reorganization (1) as if it were put in effect on the date of our most recent consolidated balance sheet – March 31, 2006, and (2) as if it were in effect for (a) the full year ended December 31, 2005, and (b) the three months ended March 31, 2006. The proforma financial information included herein, may not be consistent with the plan of reorganization documents filed on January 13, 2005 due to subsequent changes in operations and accounting estimates. Such proforma financial statements reflect how our assets, liabilities, equity and income would be affected by the plan of reorganization as follows:

A. Borrowings Under New Debt Agreements and Contingencies

The plan of reorganization reflects the assumed establishment of a new \$1,000 million debt facility to fund settled claims payable at the effective date of the plan of reorganization (approximately \$800 million) and to provide working capital (approximately \$200 million) for continuing operations. Proforma expenses reflect an assumed 7% interest rate on outstanding borrowings. No such facility currently exists but, we expect, based on our discussions with prospective lenders, that we can obtain a facility before the effective

I-44

Table of Contents

date of the plan of reorganization. In addition, the proforma financial information reflects \$150.0 million in contingencies to pay professional and bank fees, other non-operating liabilities and their related tax effects that will not become liabilities until the effective date of the plan of reorganization.

B. Fresenius and Sealed Air Settlements

The plan of reorganization reflects the value, in the form of cash and securities, expected to be realized under litigation settlement agreements as follows: \$115.0 million of cash from Fresenius; and, \$1,131.6 million of estimated value from Cryovac, Inc., a subsidiary of Sealed Air (calculated as of March 31, 2006) in the form of \$512.5 million of cash plus accrued interest at 5.5% from December 21, 2002 compounded annually (approximately \$98.3 million), and nine million shares of Sealed Air common stock valued at \$57.87 per share (approximately \$520.8 million). Tax accounts have been adjusted to reflect the satisfaction of our recorded liabilities by way of these third-party agreements. The Fresenius settlement amount will be payable directly to Grace and will be accounted for as income.

Payments under the Sealed Air settlement will be paid directly to the asbestos trust by Cryovac and will be accounted for as satisfaction of a portion of our recorded asbestos-related liability and a credit to shareholder's equity. In addition, the valuation allowance related to our federal deferred tax assets will not be required as a result of these settlements and has therefore been reversed. Both the Sealed Air and Fresenius settlements are subject to the fulfillment of specified conditions.

C. Payment of Pre-Petition Liabilities

The plan of reorganization reflects the transfer of funds and securities to settle estimated obligations payable under the plan of reorganization at the effective date. We have adjusted tax accounts to reflect the change in nature of our tax assets from predominately temporary differences to predominately time-limited tax net operating losses. We have assumed non-asbestos pass-through liabilities will be paid in cash when due.

D. Proforma Consolidated Statement of Operations and Capital Structure

The proforma income adjustments reflect the elimination from our March 31, 2006 and December 31, 2005 Consolidated Statements of Operations of:

- charges and expenses directly related to Chapter 11;
- other expenses and income related to matters expected to be resolved before emerging from Chapter 11;
- the accounting for estimates and provisions directly related to the plan of reorganization; and
- the addition of interest and new shares of Grace common stock related to the assumed financing of the plan of reorganization.

For purposes of proforma earnings per share and proforma share capital, we used the trading price of \$13.30 per share as of March 31, 2006 for calculating issued and outstanding shares. At this per share valuation, we assume that 38.6 million shares will be issued at the effective date of the plan of reorganization to fund asbestos and general unsecured claims, 9.8 million shares would be issuable upon exercise of warrants to satisfy our estimate of PI-AO claims, and 2.5 million shares would be issued upon exercise of in-the-money stock options. We present the trading value solely to show a proforma Consolidated Statement of Operations. This trading value may not be indicative of the actual trading value of Grace common stock following the effective date of the plan of reorganization. If our distributable value per share at the effective date of the plan of reorganization is below approximately \$7.50 per share, we would be required to revalue our balance sheet for a change in control. (The trading value of Grace common stock over the twelve-month period ended March 31, 2006 was between \$6.75 and \$13.85 per share.) These proforma financial statements reflect no change in assets or income related to this potential accounting outcome.

I-45

Table of Contents

E. Non-asbestos Contingencies

The accompanying proforma financial information assumes all non-asbestos related contingencies (including environmental, tax and civil and criminal litigation) are settled for recorded amounts as of March 31, 2006. Certain liabilities are assumed to be paid at the effective date based on our estimate of amounts that will be determinable and payable. The remainder, which would also be subject to the plan of reorganization, if approved, is assumed to be paid subsequent to the effective date as amounts are either not due until a later date or will be determined through post-effective-date litigation. The ultimate value of such claims may change materially as Chapter 11 and other legal proceedings further define our non-asbestos related obligations.

Financial Condition

Asbestos-Related Litigation – See Note 3 to the Consolidated Financial Statements.

Environmental Matters – See Note 12 to the Consolidated Financial Statements.

Defined Benefit Pension Plans – We sponsor defined benefit pension plans for our employees in the United States, Canada, the United Kingdom, Australia, Germany, Italy, France, Spain, Denmark, Japan, Philippines, South Korea, Taiwan, South Africa, Brazil and Mexico and fund government sponsored programs in other countries where we operate. Certain of our sponsored plans are advance-funded and others are pay-as-you-go. The advance-funded plans are administered by trustees who direct the management of plan assets and arrange to have obligations paid when due out of a trust. The most significant advance-funded plans cover our salaried employees in the U.S. and U.K. and employees covered by collective bargaining agreements at certain of our U.S. facilities.

At the December 31, 2005 measurement date for the U.S. advance-funded defined benefit pension plans, the accumulated benefit obligation, or ABO, was approximately \$965 million as measured under U.S. generally accepted accounting principles. The ABO is measured as the present value (using a 5.5% discount rate as of December 31, 2005) of vested and non-vested benefits earned from employee service to date, based upon current salary levels. Such discount rate is based on a high quality bond portfolio designed to meet the payout pattern of the pension plans. Of the participants in the pension plans, approximately 80% are current retirees or employees of our former businesses, making the payout pattern skewed to the nearer term. Assets available to fund the ABO at December 31, 2005 were approximately \$645 million, or approximately \$320 million less than the measured obligation.

Assets available at March 31, 2006 to fund the ABO of the U.S. advance-funded defined benefit pension plans totaled approximately \$652 million up \$7 million from December 31, 2005, primarily due to contributions. It is our intention

to satisfy our obligations under the pension plans and to comply with all of the requirements of the Employee Retirement Income Security Act of 1974. In that regard, we will seek Bankruptcy Court approval to fund minimum required payments of approximately \$105 million for the July 2006 to April 2007 period. We contributed approximately \$9 million in January 2006 and approximately \$20 million in April 2006 to the trusts that hold assets of the pension plans. Contributions to non-U.S. plans are not subject to bankruptcy court approval and we intend to fund such plans based on actuarial and trustee recommendations; \$3.3 million was funded during the three months ended March 31, 2006.

See Note 13 to the Consolidated Financial Statements for the components of net periodic benefit cost for each of the three-month periods ended March 31, 2006 and 2005. We expect total pension expense for 2006 to be approximately \$59 million, and benefit payments to retirees to aggregate to approximately \$96 million for all pension programs in 2006. At March 31, 2006, our recorded pension liability for U.S. and non-U.S. underfunded plans was \$537.2 million (\$450.3 million included in liabilities not subject to compromise and \$86.9 million related to supplemental pension benefits, included in ‘‘liabilities subject to compromise’’) which includes the following components: (1) shortfall between dedicated assets and ABO of underfunded plans (\$321.7 million); and (2) ABO of pay-as-you-go plans (\$215.5 million).

Postretirement Benefits Other Than Pensions – We provide certain health care and life insurance benefits for retired employees, a large majority of whom are retirees of divested businesses. These plans are unfunded, and we pay the costs of benefits under these plans as they are incurred. Our share of benefits under this program was \$2.2 million during the three months ended March 31, 2006, compared with \$2.3 million in the prior year period. Our recorded liability for postretirement benefits of \$97.6 million at March 31, 2006 is stated at net present value discounted at 5.5% (as discussed under Defined Benefit Pension Plans). Our proposed plan of reorganization provides for the continuation of these benefits.

I-48

Table of Contents

Liquidity and Capital Resources

Cash Resources and Available Credit Facilities – At March 31, 2006, we had \$501.6 million in cash and cash-like assets (\$415.4 million in cash and cash equivalents and \$86.2 million in net cash value of life insurance). In addition, we had access to committed credit facilities in the U.S., Germany and France. In the U.S., under the \$250.0 million DIP facility, \$207.0 million was available at March 31, 2006 net of letters of credit and holdback provisions. The term of the DIP facility expires April 1, 2008. In Germany, under a €10.0 million line of credit, we had access to €5.7 million at March 31, 2006 net of bankers guarantees and other holdbacks. The term of the facility expires January 17, 2007. In France, under a €3.9 million line of credit, we had access to €0.1 million at March 31, 2006 net of bankers guarantees. The term of the facility expires May 31, 2006 and is expected to be renewed for an additional one-year period. We believe that these funds and credit facilities will be sufficient to finance our business strategy while in Chapter 11.

Debt and Other Contractual Obligations – Total debt outstanding at March 31, 2006 was \$699.4 million, including \$182.7 million of accrued interest on pre-petition debt. As a result of the Chapter 11 filing, we are now in default on \$514.1 million of pre-petition debt, which, together with accrued interest thereon, has been included in ‘‘liabilities subject to compromise’’ as of March 31, 2006. The automatic stay provided under the bankruptcy code prevents our lenders from taking any action to collect the principal amounts as well as related accrued interest. However, we will continue to accrue and report interest on such debt during the Chapter 11 proceedings unless further developments lead management to conclude that it is probable that such interest will be compromised.

See Note 12 to the Consolidated Financial Statements for a discussion of financial assurances.

Analysis of Cash Flows

Our net cash flow from operating activities for the three months ended March 31, 2006 was a negative \$40.2 million, compared with a negative \$31.4 million for the prior year period. The lower cash flow in the first quarter of 2006 is attributable to an increase in working capital in response to higher sales, payments of annual accruals for compensation and customer rebates, bankruptcy court-approved payments for pensions, and higher costs of Chapter 11 proceedings and environmental-related litigation. Pre-tax income from core operations before depreciation and amortization was \$75.9 million, 10.8% higher than in the prior year quarter, a result of the improved income from core operations described above. Cash used for investing activities was \$21.1 million, primarily reflecting capital replacements and investments in new production capacity.

Cash Flow From Core Operations – The following table presents the components of net cash flow from core operations for the three months ended March 31, 2006 and 2005.

Core Operations (In millions)	Three Months Ended March 31,	
	2006	2005
Cash flows:		
Pre-tax operating income	\$ 47.8	\$ 39.7
Depreciation and amortization	28.1	28.8
Pre-tax income before depreciation and amortization	75.9	68.5
Working capital and other changes	(85.4)	(65.5)
Cash flow before investing	(9.5)	3.0
Capital expenditures	(21.0)	(12.4)
Businesses acquired	—	(2.5)
Net cash flow from core operations	\$ (30.5)	\$ (11.9)

We expect to continue to invest excess cash flow and/or other available capital resources in our core business base. These investments are likely to be in the form of additional plant capacity, product line extensions and geographic market expansions, and/or acquisitions in existing product lines. Investments

I-49

Table of Contents

that are outside the ordinary course of business may be subject to bankruptcy court approval and review by the Chapter 11 creditor committees.

Cash Flow From Noncore Activities – The cash flow from our noncore activities can be volatile. Expenditures are generally governed by bankruptcy court rulings and receipts are generally nonrecurring. Much of the noncore spending in the past three years has been under Chapter 11 first-day motions that allow us to fund postretirement benefits and required environmental remediation on Grace-owned sites. Cash inflows have been from asbestos-related insurance recovery on pre-Chapter 11 liability payments, and unusual events.

Edgar Filing: W R GRACE & CO - Form 10-Q

Noncore Activities (In millions)	Three Months Ended March 31,	
	2006	2005
Cash flows:		
Pre-tax income (loss) from noncore activities	\$ (20.1)	\$ (8.1)
Other non-cash charges	7.4	(5.0)
Cash spending for:		
Noncore contingencies:		
Environmental settlements	—	(8.3)
Environmental remediation	(2.1)	(1.2)
Postretirement benefits	(2.2)	(2.3)
Retained obligations and other	(0.7)	(0.3)
Net cash flow from noncore activities	\$ (17.7)	\$ (25.2)

Net cash flow from core operations and net cash flow from noncore activities do not represent income or cash flow as defined under generally accepted accounting principles, and you should not consider them to be an alternative to such measures as an indicator of our performance. We provide these measures to permit you to distinguish operating results of our current business base from results and related assets and liabilities of past businesses, discontinued products, and corporate legacies and the effect of our Chapter 11 proceedings.

Reconciliation to Consolidated Statements of Cash Flows (In millions)	Three Months Ended March 31,	
	2006	2005
Net cash flow from core operations	\$ (30.5)	\$ (11.9)
Net cash flow from noncore activities	(17.7)	(25.2)

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Grace had outstanding derivative financial instruments (as discussed in Note 11 to the Consolidated Financial Statements) that qualify for accounting treatment under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" at March 31, 2006. Grace has also entered into foreign exchange forward contracts to manage exposure to fluctuations in foreign currency exchange rates on an intercompany loan between Grace and a subsidiary in Germany. (See "Pre-tax Income (Loss) from Noncore Activities" in Management's Discussion and Analysis of Financial Condition and Results of Operations.) For further information concerning Grace's quantitative and qualitative disclosures about market risk, refer to Note 8 in the Consolidated Financial Statements in Grace's 2005 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of March 31, 2006, Grace carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, Grace's Chief Executive Officer and Chief Financial Officer concluded that Grace's disclosure controls and procedures are effective to ensure that information required to be disclosed in Grace's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that material information relating to Grace is made known to management,

including Grace's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There was no significant change in Grace's internal control over financial reporting during the quarter ended March 31, 2006 that has materially affected, or is reasonably likely to materially affect, Grace's internal control over financial reporting.
