If answer is no, identify report(s).  Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?  Yes  No

BioLargo, Inc. (the Company) anticipates that its net loss for the three-month period ended March 31, 2007 will be approximately \$1,550,000, or \$0.36 per share, compared to a net loss of \$442,000, or \$0.18 per share for the three-month period ended March 31, 2006. This increase in loss is primarily attributable to increases in selling, general and administrative expenses and interest expense.

The Company anticipates that selling, general and administrative expenses for the three-month period ended March 31, 2007 will be approximately \$581,000, compared to \$334,000 for the three-month period ended March 31, 2006. This increase is primarily a result of increased legal expenses associated with various transactions, including the acquisition of the BioLargo technology. The Company further anticipates that interest expense for the three-month period ended March 31, 2007 will be approximately \$953,000, compared to \$88,000 for the three-month period ended March 31, 2006. This increase is the result of additional interest expense recorded in connection with the conversion by certain noteholders of obligations owed to them by the Company into shares of the Company's common stock. The Company further anticipates that research and development expenses will be approximately \$18,000 for the three-month period ended March 31, 2007, as compared to \$20,000 for the three-month period ended March 31, 2006. This rate of expense is consistent with the Company's plan to provide applications of the BioLargo technology for potential licensees or other customers in various vertical markets, while reflecting the Company's situation immediately prior to the consummation of the transaction with IOWC Technologies, Inc., pursuant to which the Company acquired the BioLargo technology.
