ABOUT THE ANNUAL MEETING

What is the Purpose of the Meeting?

At the Annual Meeting, stockholders will act upon the matters outlined in the accompanying notice of meeting, including the election of directors. In addition, our management will report on our performance during 2004 and respond to questions from stockholders.

When are these Materials Being Mailed?

This Proxy Statement, form of proxy and voting instructions are being mailed starting on approximately May 27, 2005.

Who is Entitled to Vote?

Only holders of record of common stock as of the close of business on the record date, May 13, 2005, are entitled to receive notice of the Annual Meeting and to vote at the Annual Meeting (or any adjournment or postponement thereof) the shares that they held on the record date. Each share of common stock will entitle its holder to one vote on each matter properly brought before the Annual Meeting. As of May 13, 2005, there were 55,446,902 common shares outstanding.

What Constitutes a Quorum?

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the common shares on the record date will constitute a quorum, permitting us to conduct the business of the meeting. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting, but will not be counted for any other purpose. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received instructions as to that item from the beneficial owner.

How Do I Vote?

If you complete and properly sign the accompanying proxy card and return it to our transfer agent, it will be voted as you direct. If you are a registered stockholder and attend the Annual Meeting, you may vote at the Annual Meeting either by ballot or by delivery of your completed proxy card in person. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the Annual Meeting.

Can I Vote by Telephone or Electronically?

No. You must vote by completing and returning the enclosed proxy card in the enclosed postage paid pre-addressed envelope, or by voting in person at the meeting.

Can I Change My Vote After I Return My Proxy Card?

Yes. Even after you have submitted your proxy, you may revoke the proxy and you may change your vote any time before the proxy is exercised. To change your vote, file with the Secretary of Trinsic either a written notice of revocation or a duly executed proxy bearing a later date or by attending the Annual Meeting and voting the shares in

person. A notice of revocation or a later dated proxy will not be effective until received by us and unless we receive it at or before the Annual Meeting. Unless the proxy is revoked, the shares represented thereby will be voted at the Annual Meeting or any adjournment thereof as indicated on the proxy card. Sending in a proxy does not affect your right to vote in person if you attend the meeting, although attendance at the meeting will not by itself revoke a previously granted proxy.

If I Submit a Proxy, How Will My Shares be Voted?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors.

What are the Board's Recommendations?

The Board's recommendations are set forth, together with the description of each item, in this Proxy Statement. In summary, the Board recommends a vote:

For election of the nominees for director positions (see page 3)

Table of Contents

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion. As of the date this Proxy Statement, we did not know of any other matter to be raised at the Annual Meeting.

What Vote is Required to Approve Each Item?

Election of Directors. The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of directors. A properly executed proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, even though it will be counted for purposes of determining whether there is a quorum present at the Annual Meeting.

How Will Votes be Counted?

All votes will be tabulated by employees of Corporate Communications, Inc., one or more of whom will serve also as inspectors of election. Although abstentions and broker non-votes are included in the determination of the number of shares present, they are not counted on any matters brought before the meeting.

Who is Paying for the Preparation and Mailing of the Proxy Materials and How Will Solicitations be Made?

The company will pay the expenses of soliciting proxies. Proxies may be solicited by directors, officers or employees in person or by telephone, mail, electronic transmission, facsimile transmission or telegram. The company will request brokerage houses and other custodians, nominees and fiduciaries to forward soliciting material to stockholders, and the company will reimburse such institutions for their out-of-pocket expenses.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Two directors are to be elected at the Annual Meeting. Currently, the Board of Directors is divided into three classes. Class I consists of three directors and Classes II and III each consist of two directors. Class I currently has one vacancy. All directors within a class have the same terms of office as all other directors in the same class. The class terms expire at successive annual meetings so that each year a class of directors is elected. The current terms of the three classes of directors expire in 2005 (Class II directors), 2006 (Class III directors) and 2007 (Class I directors). Directors are elected for three-year terms or to serve the remainder of an unexpired three-year term. Each of the Class II directors elected at the 2005 Annual Meeting will be elected to serve a three-year term.

The Board of Directors has nominated the following persons to stand for election as Class II directors at the 2005 Annual Meeting of Stockholders, with terms expiring in 2008:

Andrew C. Cowen

Raymond L. Golden

Each of the proposed nominees for election as a director has consented to serve if elected. If, as a result of circumstances not now known or foreseen, one or more of the nominees becomes unavailable or unwilling to serve as a director, proxies may be voted for the election of such other persons as the Board of Directors may select. The Board of Directors has no reason to believe that any of the nominees will be unable or unwilling to serve.

The persons named in the enclosed proxy intend, unless otherwise directed, to vote such proxy FOR the election of Andrew C. Cowen and Raymond L. Golden as Class II directors of the company. Each nominee that receives a plurality of the votes cast by the shares entitled to vote at the Annual Meeting will be elected as the directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR ELECTION OF EACH OF THE NOMINEES AS DIRECTORS OF THE COMPANY ITEM 1 ON YOUR PROXY CARD.

OTHER BUSINESS

We do not expect any other matters to be brought before the meeting. However, if any other matters are presented, it is the intention of the persons named in the proxy to vote the proxy in accordance with their best judgment.

AUDIT COMMITTEE REPORT

To The Board of Directors:

The Audit Committee oversees Trinsic's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the company's financial statements and reporting process, including its systems of internal controls. The company's independent auditors are responsible for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management (which has the primary responsibility for the company's financial statements and reporting process, including its systems of internal controls) the audited financial statements in the Annual Report and discussed with management the quality, in addition to the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

In addition, the Audit Committee met various times with the company's independent auditors, with and without management present. The independent auditors are responsible for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles. In these meetings, the Audit Committee discussed with the independent auditors, among other things, the overall scope and plans for their audit, the results of their examinations, their evaluations of the company's internal controls, and the overall quality of the company's financial reporting. The Audit Committee also reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. Furthermore, the Audit Committee discussed with the independent auditors their independence from management and the company, including the matters in the written disclosures required by the Independence Standards Board. Specifically, the Audit Committee discussed with the independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU § 380) and it received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2004 for filing with the Securities and Exchange Commission.

Mr. Davis received a grant of 5,000 shares on March 5, 2004 when the price per share was \$14.00. This amount would be \$8,500 at December 31, 2004 based upon a closing price of \$1.70. Both the number of shares and the price per share are adjusted to reflect a 5 for 1 reverse split that took place in November 2004. These shares of restricted stock may not be sold or transferred until they vest. One-third of these shares of restricted stock vests on the first anniversary of the grant. The remainder vests ratably over the following 24 months. The holder of the restricted stock will be entitled to any dividends that might accrue on the shares.

Option Grants During Last Fiscal Year

The following table contains information concerning the stock option grants made to each of the Named Executive Officers during the fiscal year ended December 31, 2004, subject to the following.

The options described below were granted pursuant to our 2000 Equity Participation Plan. The options vest over a three-year period commencing on the grant date and expire ten years thereafter (unless the employee at the time of the grant owned more than 10% of the total combined voting power of all classes of stock, in which case they expire over five years).

The 5% and 10% assumed annual rates of compounded stock price appreciation are mandated by the rules of the Securities and Exchange Commission. They are for analysis purposes only. The actual stock price appreciation, if any, over the ten-year option term (or five-year term, as the case may be) may differ substantially from these assumed rates. Unless the market price of the common stock appreciates over the option term, no value will be realized from the option grants. The potential realizable value is calculated by assuming that the fair market value of the common stock appreciates at the indicated rate during the entire term of the option (commencing on the date of grant) and that the option is exercised at the exercise price and sold on the last day at the appreciated price.

COMPENSATION COMMITTEE REPORT

To The Board of Directors:

Role of the Compensation Committee; Philosophy

The Compensation Committee is a committee of the Board of Directors to which authority has been delegated to approve and monitor the executive compensation and benefits programs of Trinsic, Inc. and its subsidiaries (collectively the Company), to administer and make awards under the company's equity participation plans and to monitor and supervise the administration of the Trinsic, Inc. 401-K Plan (the 401-K Plan).

The primary objectives of the Compensation Committee as set forth in the Compensation Committee Charter are

(1) To assure that the Company's executive compensation and benefits programs and awards under its equity plans

Are competitive with other growing companies in the Company's industry;

Safeguard the interests of the Company and its stockholders;

Are effective in driving performance to achieve financial goals and create stockholder value;

Foster teamwork on the part of management and non-management employees;

Are cost effective and fair to employees, management and stockholders; and

Are well communicated and understood by the participants;

(2) To assure investor confidence in the integrity of the Company's process for determining executive compensation; and

(3) To assure the Company fulfills its fiduciary obligations in its administration of the 401-K Plan.

The Committee's philosophy with respect to executive compensation is to establish comparatively low base salaries and place substantial emphasis on stock-based and performance-based incentive compensation, which we view to be

very effective at correlating executive compensation with corporate performance and increases in stockholder value. In setting the compensation levels for the chief executive officer and other executive officers, we use our own judgment considering many factors, including comparisons to the levels of compensation paid to similarly situated executives in other companies and a variety of quantitative performance measures such as revenue, earnings and cash flow, all with due regard to management's projections and the competitive and regulatory environment in which the company operates. In 2004, we retained a compensation consulting firm, Hewitt Associates LLC, to assist us. Hewitt provided us with an executive compensation study.

Table of Contents

Equity Participation Plans

The company has three equity participation plans: the 1998 Equity Participation Plan, the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan. The 1998 Equity Participation Plan was terminated in 2000, although options remain outstanding under that plan. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan authorize us to award, among other things, non-qualified and incentive stock options, restricted stock, deferred stock and stock appreciation rights to employees and consultants, while the full Board administers stock-based awards to independent directors. Under the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan, we select the employees and consultants to whom awards are to be made, determine the number of shares to be subject to awards and the terms and conditions of the awards, and make all other determinations and take all other actions necessary or advisable for the administration of the plan with respect to employees or consultants.

As of May 2, 2005, 1,549,084 shares of common stock were available for issuance under the 2000 Equity Participation Plan. The 2000 Equity Plan is an evergreen plan. On the first day of each fiscal year a number of shares equal to the lesser of 600,000 or 6% of the outstanding shares of common stock are added to the plan, unless the Board of Directors sets a smaller number. The exercise price of stock options awarded under the 2000 Equity Participation Plan is generally made at no less than fair market value on the date of the award. The number of shares subject to options granted under the 2000 Plan to any individual in any calendar year cannot exceed 110,000. During 2004, we awarded options to purchase 453,665 shares and we awarded 280,600 shares of restricted stock.

As of May 2, 2005, 4,808,153 shares were available for issuance under the 2004 Stock Incentive Plan. As of that date, no shares have been issued under that plan. However, the Committee expects to authorize the issuance of approximately 2,367,333 shares of restricted stock to selected employees during 2005 under the 2004 Stock Incentive Plan.

EBITDA Bonus Plan

In 2001, we implemented an executive bonus plan funded by 5% of our earnings before interest, taxes, depreciation and amortization (EBITDA), if any. Participation in the plan is limited to certain senior executives selected from time to time by us. We allocate the 5% EBITDA bonus among the plan participants in our discretion. The entire amount, however, must be allocated. No EBITDA bonus compensation was earned in 2004. We expect to address the utility of this bonus pool in 2005.

2004 Compensation for the Chief Executive Officer

The general policies described above for the compensation of the executive officers also apply to the compensation approved by Compensation Committee during 2004 for the company's chief executive officer. After the resignation of D. Gregory Smith in July 2004, Horace J. Davis III, the company's chief financial officer, assumed the additional role of chief executive officer. We subsequently increased Mr. Davis' base annual salary from \$200,000 to \$300,000. Based upon the executive compensation study provided to us by Hewitt Associates LLC, our compensation consulting firm, we believe Mr. Davis' annual salary is relatively lower than the salaries of other chief executive officers in comparable situations, particularly in light of his dual role as chief executive officer and chief financial officer. Mr. Davis has an employment agreement with the company, the initial term of which will expire in 2005. The agreement currently provides for (i) a base salary of \$300,000, (ii) automatic renewal for subsequent one year terms (subject to nonrenewal by either party 90 days prior to the end of the term), (iii) participation in a bonus pool equal to 5% of annual EBITDA to be allocated among participating senior executives, (iv) the payment of his base salary and benefits for the term of the agreement in the event of termination without cause, and (v) in the event of a change in control of the company, the payment of 2.9 times his base salary and any incentive or bonus paid in the prior year if certain specified events occur within three years of the occurrence of a change of control. Under the agreement, Mr. Davis also agreed to

certain non-competition and nonsolicitation covenants.

This report has been provided by the Compensation Committee.

DIRECTOR COMPENSATION

Each independent director, except Messrs. Tucker, Bowden and Cowen, received \$20,000 in cash compensation for their services during 2004. Pursuant to the terms of the 2000 Equity Participation Plan, upon initial election to the Board of Directors each independent director (that is, a director not employed by the company) automatically receives options to purchase 220 shares of our common stock. Thereafter, each independent director also receives automatically options to purchase an additional 220 shares of our common stock at the time of each annual meeting of stockholders at which such director is reelected. Options received by independent directors under the 2000 Equity Participation Plan have exercise prices not less than the fair market value of the company's common shares at the date of the grant, expire ten years after the date of the grant and vest over four years. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan also permit discretionary grants of stock options to independent directors. During 2004, we granted 2,000 stock options each to Messrs. Aurell, Krusen and LaRoche for their service on an independent committee to review and approve the terms of the reverse stock split we completed last year.

Pre-Approval Policies

Consistent with law and the rules of the Securities and Exchange Commission it is the Audit Committee's policy to pre-approve all audit services and permissible non-audit services provided by the company's independent public accountant. The procedure for such approval has been for PricewaterhouseCoopers to request and receive from the Audit Committee approval for all services, specifically describing any non-audit services. The Audit Committee may delegate this pre-approval authority to one or more of its members. In that event, the member or members to whom pre-approval authority has been delegated will report all decisions with respect to pre-approvals to the full Audit Committee at the next Audit Committee meeting.
