Section 2 Financial Information

Item 2.02 Results of Operations and Financial Condition.

On December 6, 2005, the Registrant issued a press release announcing its earnings for its fiscal quarter and year ended October 31, 2005. The press release is furnished herewith as Exhibit 99.1. Also on December 6, 2005, the Registrant held a conference call to discuss its earnings for its fiscal quarter and year ended October 31, 2005. A transcript of the conference call is furnished herewith as Exhibit 99.2. The information in the press release and transcript is not to be considered filed for purposes of the Securities Exchange Act of 1934.

During its conference call to discuss its earnings for its fiscal quarter and year ended October 31, 2005, the Registrant reported that it expects its feed grain costs during fiscal 2006 to be \$5 million to \$10 million more than the favorable cost experienced during 2005. The volume of the Registrant's needs for feed grains during fiscal 2006 will be higher than during 2005 in light of its increased capacity and increase in the number of chickens expected to be processed during fiscal 2006.

During the question and answer period of the conference call, management was asked if the \$5 million to \$10 million in increased costs includes the additional grain that will be needed to manufacture feed for the Registrant's expected volume increases, and management responded that the increased costs do include the feed necessary to feed additional live inventory in Georgia. The increase in feed grain costs expected during fiscal 2006 and discussed on the call was calculated by comparing the product of the quantity of feed grain expected to be used during fiscal 2006 times the actual or expected per unit costs of such grain to the product of the quantity of feed grain expected to be used during fiscal 2006 times the average per unit cost actually experienced during fiscal 2005. As management reported on the call, the actual costs for fiscal 2006 are not certain at this time, and the \$5 million to \$10 million expected higher costs is an estimate. The Registrant has not completely priced all of its grain needs for fiscal 2006 at this time.

Section 9 Financial Statements and Exhibits

Item 9.01 Financial Statements and Exhibits.

(c) The following exhibits are filed with this Current Report:

Exhibit No.	Description
99.1	Press release of Sanderson Farms, Inc. dated December 6, 2005
