ION MEDIA NETWORKS, INC.
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

Nature of the Business

ION Media Networks, Inc. (formerly Paxson Communications Corporation and, together with its subsidiaries, collectively, the Company), a Delaware corporation, was organized in 1993. The Company is a network television broadcasting company which owns and operates the largest broadcast television station group in the United States, as measured by the number of television households in the markets the Company s stations serve. The Company provides network programming seven days per week, 24 hours per day, through its broadcast television station group and pursuant to distribution agreements with cable and satellite distribution systems. On February 28, 2006, the Company began doing business under the name ION Media Networks and on June 26, 2006 changed its corporate name to ION Media Networks, Inc.

Basis of Presentation

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. The accompanying financial statements, footnotes and discussions should be read in conjunction with the financial statements and related footnotes and discussions contained in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006, which was filed with the United States Securities and Exchange Commission. Certain reclassifications have been made to the prior period financial statements to conform to the 2007 presentation.

The financial information contained in the financial statements and notes thereto as of September 30, 2007 and for the three and nine-month periods ended September 30, 2007 and 2006 is unaudited. In the opinion of management, all adjustments necessary for the fair presentation of such financial information have been included. With the exception of the adjustments resulting from the exchange transactions described in note 4, these adjustments are of a normal recurring nature. The consolidated financial statements include the accounts of the Company and Paxson Management Corporation (PMC), a special purpose entity that is being consolidated in accordance with Financial Accounting Standards Board Interpretation No. 46 (revised December 2003) Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51 (FIN46R). All intercompany balances and transactions have been eliminated in consolidation.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company believes the most significant estimates involved in preparing the Company s financial statements include estimates related to the accounting for leases, allowance for doubtful accounts, impairment of long-lived assets and Federal Communications Commission (FCC) licenses and estimates used in determining fair value in connection with the warrant and call option described in notes 3 and 4, respectively. The Company bases its estimates on historical experience and various other assumptions it believes are reasonable. Actual results could differ from those estimates. The Company s significant accounting policies are described in Note 1. Nature of the Business and Summary of Significant Accounting Policies in the notes to the Company s consolidated financial statements included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

2. RECAPITALIZATION TRANSACTIONS

On May 3, 2007, the Company entered into a Master Transaction Agreement (the Master Transaction Agreement) with CIG Media LLC (CIG) and NBC Universal, Inc. and certain of its affiliates (NBCU), which was subsequently amended on June 8, 2007 and on August 21, 2007, providing for a recapitalization of the Company. Pursuant to the Master Transaction Agreement, on May 4, 2007 NBCU assigned to CIG all of NBCU s rights and obligations under the Call Agreement, dated November 7, 2005 (the Call Agreement), among NBCU and Lowell W. Paxson, the Company s former chairman and chief executive officer, Second Crystal Diamond Limited Partnership and Paxson Enterprises, Inc. (together, the Paxson Stockholders), including the right (the Call Right) to acquire 15,455,062 outstanding shares of Class A Common Stock and 8,311,639 shares of Class B Common Stock of the Company (the

Call Shares) held by the Paxson Stockholders. The closing of the exercise of the Call Right (the Call Closing) would result in a change in control of the Company. The Call Closing is conditioned on the payment of the exercise price of $0.25 per share of Class A Common Stock and $0.29 per share of Class B Common Stock, and remains subject to approval by the Federal Communications Commission of CIG s acquisition of the Call Shares.

Table of Contents

Concurrently with the assignment of the Call Right to CIG, CIG exercised the Call Right and on May 4, 2007 commenced a cash tender offer (the Tender Offer) to purchase any and all shares of the Company s Class A Common Stock at a price of $1.46 per share. The Tender Offer closed on June 15, 2007, with 42,041,309 shares of Class A Common stock, representing approximately 87% of the Class A common stock outstanding (other than shares held by the Paxson Stockholders and CIG), having been validly tendered and accepted for payment.

In accordance with the terms of the Master Transaction Agreement, CIG has invested an additional $115 million in the Company through the purchase, for cash, of newly issued convertible subordinated debt (see note 3 for further information), and the Company has completed an exchange offer and consent solicitation (the Exchange Offer) to holders of its $13\frac{1}{4}$% Junior Exchangeable Preferred Stock, currently accruing dividends at the rate of $14\frac{1}{4}$% (the $14\frac{1}{4}$% Preferred Stock) and $9\frac{3}{4}$% Series A Convertible Preferred Stock (the $9\frac{3}{4}$% Preferred Stock) for newly issued convertible subordinated debt and preferred stock (see note 4 for further information).

The Company also entered into a new stockholders agreement with CIG and NBCU which provides that, effective as of the earlier to occur of (i) the Call Closing and (ii) the purchase of the Call Shares by the Company if the Call Closing fails to occur as provided in the Call Agreement (the Relevant Effective Date), so long as either NBCU (together with its affiliates) or CIG (together with its affiliates) holds at least 25% of the voting power of the Company, each such stockholder (an Approval Stockholder) is entitled to approve certain actions involving the Company, including, among other actions:

- the adoption of any shareholder rights plan;
- entering into a material agreement that would be adverse to either CIG or NBCU;
- entering into any agreement regarding the digital spectrum of any of the Company s television stations, except for certain short-term agreements;
- an action that would cause certain media assets to be attributable to CIG (or its affiliates) or NBCU (or its affiliates) under FCC regulations;
- the adoption of the annual operating budget for the Company;
- material amendments to the certificate of incorporation of the Company;
- a sale of the primary operating assets of, or an FCC license of, any Company television station serving a top 50 market;
- certain material sales of assets, acquisitions and mergers or business combination transactions;
- certain issuances, splits and reclassifications of stock of the Company;
- entering into material employment contracts;
- increasing the size of the board of directors of the Company; and
- a bankruptcy filing.

Also pursuant to the Master Transaction Agreement, on May 4, 2007 the Company granted to NBCU an irrevocable right to purchase 26,688,361 shares of the Company s Class B Common Stock (NBCU Option II). The exercise price of the option is $0.50 per share of Class B Common Stock, payable in cash. The option is exercisable at any time during the five-year period beginning on the Call Closing and will automatically renew for additional five-year periods. The holder of NBCU Option II may exercise the option at any time subject to FCC regulations and any other required governmental approvals. The NBCU Option II is freely transferable. Also see note 4 for further

information.

The Company incurred fees and expenses of approximately $23.7 million in connection with the transactions set forth in the Master Transaction Agreement, which have been allocated among the various transactions in a manner the Company believes is reasonable. Completion of the transactions contemplated by the Master Transaction Agreement may have triggered an ownership change under Section 382 of the Internal Revenue Code. The Company s ability to offset taxable income that it may generate subsequent to any such ownership change with net operating losses generated prior to any ownership change may be significantly limited.

3. TERM LOANS AND NOTES PAYABLE

On May 4, 2007, pursuant to the Master Transaction Agreement, the Company issued to CIG $100.0 million of the Company s 11% Series B Mandatorily Convertible Senior Subordinated Notes due 2013 (the Series B Notes) and received an equal amount of cash proceeds from CIG. On August 21, 2007, CIG purchased, for cash, an additional $15.0 million of the Company s Series B Notes. The Company has allocated approximately $2.9 million of its recapitalization transaction expenses to the issuance of the Series B Notes. In addition, on August 21, 2007 CIG exchanged approximately $8.1 million aggregate stated liquidation preference of preferred stock for an equal principal amount of Series B Notes (see note 4).

The Series B Notes bear simple interest at an 11% annual rate payable quarterly in arrears commencing on July 31, 2007. For each quarterly interest period the Company may, at its option, elect to pay interest on the Series B Notes either entirely in cash or by deferring the payment of all such interest to any subsequent interest payment date. Interest that is deferred will not be added to the principal of the Series B Notes or earn interest. The Company elected to defer the interest that was due on July 31, and October 31, 2007. The Series B Notes will mature on July 31, 2013, and are not callable prior to maturity. At the holder s option, the Series B Notes are convertible at any time into shares of Class A common stock at a conversion price of $0.75 per share, increasing at a rate per annum of 11% from the issuance of the Series B Notes through the date of conversion. At any time following the first anniversary of the issuance date, the Series B Notes will be mandatorily converted into shares of either Class A common stock or Class C common stock (at the same conversion price) upon the occurrence of certain events related to the value of the Company s common stock, as described in the indenture governing the Series B Notes. The Series B Notes rank junior to the Company s term loans and senior secured notes. The Series B Notes indenture contains customary covenants and includes a covenant restricting the Company s ability to incur additional debt, other than specified types of permitted debt.

Concurrently with the purchase of the Series B Notes by CIG, the Company issued to CIG a common stock purchase warrant (the Warrant) and entered into a registration rights agreement for the Series B Notes. Under the Warrant, CIG has the right to purchase up to 100,000,000 shares of the Company s Class A common stock at an exercise price of $0.75 per share. The term of the Warrant is seven years beginning on the date of issuance. In determining the fair value of the Warrant, the Company utilized a discounted cash flow analysis assuming $115.0 million of principal and all accrued interest would be paid on the maturity date of the Series B Notes. The Company also assumed a required rate of return of approximately 200 basis points above the interest rate on the Floating Rate Second Priority Senior Secured Notes as of the measurement date in the event that interest on those notes were to be paid in kind. The difference between the principal amount and the results of discounted cash flow analysis was deemed to be the implied value of the Warrant. As a result, the Warrant was valued at $32.8 million and was recorded as a discount to the Series B Notes. The discount will be amortized through the earlier of the maturity date of the Series B Notes or their conversion into common stock. For the nine months ended September 30, 2007, the Company recognized interest expense of approximately $1.7 million in connection with amortization of this discount. As of September 30, 2007, the carrying amount of Series B Notes held by CIG was approximately $92.0 million, net of discount, and accrued interest amounted to approximately $4.8 million.

On August 21, 2007, NBCU exchanged with the Company approximately $31.6 million aggregate stated liquidation preference of its 11% Series B Convertible Exchangeable Preferred Stock (the 11% Series B Preferred Stock) for an equal principal amount of the Company s Series B Notes. At September 30, 2007, accrued interest on the Series B Notes held by NBCU amounted to approximately $0.4 million.

The Series B Subordinated Debt Registration Rights Agreement provides for certain registration rights for the benefit of CIG and NBCU after an initial public offering of a class of equity securities of the Company. The Company is required, upon demand of CIG, NBCU or holders of a majority of the Series B Notes to file a shelf registration statement with the SEC, under the Securities Act of 1933, as amended (the Securities Act), to cover resales of the Series B Notes.

Other term loans and notes payable consist of the following (in thousands):

	As of September 30, 2007	As of December 31, 2006
Term Loans due 2012	$ 325,000	$ 325,000
Floating Rate First Priority Senior Secured Notes due 2012	400,000	400,000
Floating Rate Second Priority Senior Secured Notes due 2013	405,000	405,000
Series A Mandatorily Convertible Senior Subordinated Notes due 2013	461,858	
Other	243	302

		1,592,101		1,130,302
Less: discount on Floating Rate Second Priority Senior Secured Notes		(6,100)		(6,955)
Less: current portion		(79)		(75)
	$	1,585,922	$	1,123,272

Effective August 3, 2007, in connection with the closing of the Exchange Offer (see note 4), the Company issued 11% Series A Mandatorily Convertible Senior Subordinated Notes due 2013 (the Series A Notes) in the principal amount of approximately $461.9 million. The Series A Notes have terms that are substantially identical to those of the Series B Notes except that the conversion price is $0.90 per share. The Series A Notes rank junior to the Company s Senior Debt and *pari passu* with the Series B Notes. The Company allocated approximately $5.3 million of its recapitalization transaction expenses to the issuance of the Series A Notes.

On December 30, 2005, the Company borrowed $325.0 million of new term loans (the Term Loans) and issued $400.0 million of Floating Rate First Priority Senior Secured Notes due 2012 (the First Priority Notes) and $405.0 million of Floating Rate Second Priority Senior Secured Notes due 2013 (the Second Priority Notes and, together with the First Priority Notes and the Term Loans, the Senior Debt). The $325.0 million of term loans and the First Priority Notes bear interest at a rate of LIBOR plus 3.25%, and are

secured by first priority liens on substantially all of the Company s assets. The Second Priority Notes bear interest at a rate of LIBOR plus 6.25%, and most of the Company s obligations under the Second Priority Notes are secured by second priority liens on substantially all of the Company s assets. For any interest period ending prior to January 15, 2010, the Company has the option to pay interest on the Second Priority Notes either (i) entirely in cash or (ii) in kind through the issuance of additional Second Priority Notes or by increasing the principal amount of the outstanding Second Priority Notes. If the Company elects to pay interest in kind on the Second Priority Notes, the interest rate for the corresponding interest period will increase to LIBOR plus 7.25%. Since their date of issuance, the Company has paid cash interest on the Second Priority Notes and has elected to pay cash interest on these notes for the interest period ending January 14, 2008.

The term loan facility and the indentures governing the First Priority Notes and Second Priority Notes contain covenants which, among other things, limit the Company s ability to incur more debt, pay dividends on or redeem outstanding capital stock, make certain investments, enter into transactions with affiliates, incur liens, sell assets, merge with any other person, or transfer substantially all of its assets. Subject to limitations, the Company had been permitted to incur up to $650.0 million of additional subordinated indebtedness, which it could use to retire other subordinated obligations, including preferred stock, or for other corporate purposes not prohibited by the applicable covenants. Through the issuance of the Series A Notes and Series B Notes discussed above, as of September 30, 2007 the Company has issued an aggregate of $616.5 million of additional subordinated indebtedness. The Company will be required to make an offer to purchase the First Priority Notes and Second Priority Notes and repay the Term Loans with the proceeds of any sale of its stations serving the New York, Los Angeles and Chicago markets and with the proceeds of other asset sales that it does not reinvest in its business. The Company will be required to make an offer to purchase a portion of the First Priority Notes and Second Priority Notes and repay a portion of the Term Loans within 270 days after any quarterly determination date as of which the ratio of the appraised value of its television stations to the aggregate outstanding principal amount of the Senior Debt (excluding any Second Priority Notes it may issue in payment of interest on the Second Priority Notes) is less than 1.5 to 1.0.

The holders of the Senior Debt have the right to require the Company to repurchase these obligations following the occurrence of certain changes in control. The Master Transaction Agreement requires that if the Company has not entered into arrangements reasonably satisfactory to CIG providing for a third party to purchase any Senior Debt as to which the holders elect to exercise any right they may have to require the Company to repurchase such debt as a result of the transactions contemplated by the Master Transaction Agreement, the Company must use its reasonable best efforts to obtain a waiver of any such right from the holders of at least a majority in aggregate principal amount of each tranche of Senior Debt outstanding at the time of the waiver. With the concurrence of CIG and NBCU, to date the Company has not sought any such waiver. Because the waiver was not obtained prior to the closing of the Exchange Offer, the parties to the Master Transaction Agreement were required to restructure and amend the underlying transactions so that the right to require the Company to repurchase the Senior Debt was not triggered. As a result, on August 21, 2007, the Company, CIG and NBCU entered into the 2nd Amendment to the Master Transaction Agreement (the 2nd Amendment) providing for NBCU to retain a portion of its 11% Series B Preferred Stock (see note 4).

Events of default under the Senior Debt include the failure to pay interest within 30 days of the due date, the failure to pay principal when due, a default under any other debt in an amount greater than $10.0 million, the failure to pay a monetary judgment against the Company in an aggregate amount greater than $10.0 million, the failure to perform any covenant or agreement which continues for 60 days after the Company receives notice of default from the indenture trustee or holders of at least 25% of the outstanding indebtedness, and the occurrence of certain bankruptcy events. At September 30, 2007, the Company was in compliance with all of its debt covenants.

On February 22, 2006, the Company entered into two floating to fixed interest rate swap arrangements with an aggregate notional amount of $1.13 billion for a period through the maturity dates of the underlying floating rate debt. Under the terms of these arrangements, the Company is required to pay a fixed interest rate of 8.355% on a notional amount of $725 million while receiving a variable interest rate of three month LIBOR plus 3.25%, and is required to pay a fixed interest rate of 11.36% on a notional amount of $405 million while receiving a variable interest rate equal to three month LIBOR plus 6.25%. These interest rate swaps require quarterly settlements which coincide with the

interest payment dates of the underlying debt, and effectively fix the interest rates on the Company s $1.13 billion of variable rate debt through maturity. The Company monitors the credit ratings of its swap counterparties and believes that the credit risk related to its interest rate swap agreements is minimal.

The Company accounts for its interest rate swaps as cash flow hedges; thus, changes in the fair value of the interest rate swaps are reported in other comprehensive income or loss (see note 6). These amounts are subsequently reclassified into interest expense as a yield adjustment of the hedged loans. The aggregate fair value of the Company s interest rate swap arrangements was $16.8 million at September 30, 2007, which is reflected in Other liabilities in the accompanying consolidated balance sheets. During the three and nine months ended September 30, 2007 and 2006, the Company did not recognize in the statement of operations any gain or loss from hedge ineffectiveness and did not exclude any component of its derivative instruments gain or loss from its assessment of hedge effectiveness. In addition, the Company anticipates that the cash flow hedge will be highly effective over the next twelve months, and the Company does not anticipate reclassifying into its statement of operations any gains or losses currently within accumulated other comprehensive income.

Table of Contents

During the three and nine months ended September 30, 2007 and 2006, no gains or losses were recognized into earnings as a result of the discontinuance of the cash flow hedges.

4. MANDATORILY REDEEMABLE AND CONVERTIBLE PREFERRED STOCK

On June 8, 2007, pursuant to the terms of the Master Transaction Agreement, the Company launched the Exchange Offer for the outstanding shares of $14^{1}/_{4}\%$ Preferred Stock and $9^{3}/_{4}\%$ Preferred Stock (together, the Senior Preferred Stock). Under the terms of the Exchange Offer, as amended, because less than 50% of the outstanding shares of each series of Senior Preferred Stock were tendered into the Exchange Offer as of July 13, 2007:

For each tendered share of $14^{1}/_{4}\%$ Preferred Stock, the holder received $7,500 principal amount of Series A Notes and $500 initial liquidation preference of 12% Series B Mandatorily Convertible Preferred Stock (the 12% Series B Preferred Stock); and

For each tendered share of $9^{3}/_{4}\%$ Preferred Stock, the holder received $4,500 principal amount of Series A Notes and $500 initial liquidation preference of 12% Series B Preferred Stock.

As required by the Master Transaction Agreement, CIG, which owned approximately 16% and 2% of the outstanding $14^{1}/_{4}\%$ Preferred Stock and $9^{3}/_{4}\%$ Preferred Stock, respectively, tendered all of its Senior Preferred Stock in the Exchange Offer. The Exchange Offer expired on July 27, 2007, at which time approximately 51,603 shares, representing approximately 91% of the outstanding $14^{1}/4\%$ Preferred Stock, and approximately 15,957 shares, representing approximately 96% of the outstanding $9^{3}/4\%$ Preferred Stock, had been validly tendered in the Exchange Offer. The Company accepted for exchange all of the tendered shares, including approximately 9,386 shares of $14^{1}/4\%$ Preferred Stock and approximately 262 shares of $9^{3}/4\%$ Preferred Stock that were held by CIG. The Exchange Offer closed on August 3, 2007. On August 13, 2007, the Company exchanged one additional share of $14^{1}/4\%$ Preferred Stock and 672 additional shares of $9^{3}/4\%$ Preferred Stock for additional Series A Notes and 12% Series B Preferred Stock at the same exchange ratios as the Exchange Offer. These exchange transactions resulted in the Company issuing:

Series A Notes in the principal amount of approximately $387.0 million and 12% Series B Preferred Stock with a stated liquidation preference of approximately $25.8 million in exchange for $14^{1}/4\%$ Preferred Stock with a carrying value at the time of the exchange, including accrued and unpaid dividends, of approximately $604.9 million; and

Series A Notes in the principal amount of approximately $74.9 million and 12% Series B Preferred Stock with a stated liquidation preference of approximately $8.3 million in exchange for $9^{3}/4\%$ Preferred Stock with a carrying value at the time of the exchange, including accrued and unpaid dividends, of approximately $179.8 million.

The Company allocated approximately $6.8 million and $4.0 million in recapitalization transaction fees to the exchange of the $14^{1}/_{4}\%$ Preferred Stock and $9^{3}/_{4}\%$ Preferred Stock, respectively. The exchange of the $14^{1}/_{4}\%$ Preferred Stock resulted in a gain on the extinguishment of mandatorily redeemable preferred stock in the amount of $185.3 million. The exchange of the $9^{3}/4\%$ Preferred Stock resulted in an increase to income attributable to common stockholders for the three and nine months ended September 30, 2007 in the amount of $92.6 million.

On May 4, 2007, pursuant to the Master Transaction Agreement, NBCU surrendered and delivered to the Company $210.0 million aggregate liquidation preference of 11% Series B Preferred Stock in exchange for $210.0 million aggregate stated liquidation preference of newly-issued Series F Non-Convertible Preferred Stock (the Series F Non-Convertible Preferred Stock). NBCU, in turn, transferred the Series F Non-Convertible Preferred Stock to CIG on May 4, 2007. Accrued dividends pertaining to the 11% Series B Preferred Stock that was delivered to and subsequently canceled by the Company amounted to approximately $36.8 million. Additionally, under the terms of the Master Transaction Agreement and as discussed below, NBCU exchanged its remaining 11% Series B Preferred Stock with the Company for newly issued convertible subordinated debt and preferred stock. Cancellation of the accrued and unpaid dividends pertaining to all of the 11% Series B Preferred Stock that has been surrendered by NBCU as a result of the transactions set forth in the Master Transaction Agreement has been deemed to be in exchange for the Company s granting NBCU Option II to NBCU (see note 2). In determining the fair value of NBCU

Option II, the Company utilized a discounted cash flow analysis of the cumulative dividends expected to accrue on the 11% Series B Preferred Stock from November 7, 2005 through the mandatory redemption date of December 31, 2013, excluding the effect of the aforementioned May 4, 2007 exchange transaction. The analysis assumed a required rate of return that the Company believes is appropriate based on the terms and inherent risk of the 11% Series B Preferred Stock and its relative ranking within the Company s capital structure. As a result, the Company assigned a value to NBCU Option II of $23.9 million, which was recorded as paid in capital on the accompanying consolidated balance sheet as of May 4, 2007. Consequently, cancellation of the accrued and unpaid dividends due to the May 4, 2007 exchange transaction resulted in an increase to net income attributable to common stockholders of approximately $10.6 million, net of transaction expenses, for the nine months ended September 30, 2007.

Table of Contents

On August 21, 2007, in accordance with the terms of the Master Transaction Agreement, as amended, and based on the number of shares of Senior Preferred Stock that were tendered and accepted in the Exchange Offer, NBCU exchanged 11% Series B Preferred stock with a liquidation preference of $114.5 million, as well as the right to all accrued and unpaid dividends of approximately $79.8 million for:

Series E-1 Mandatorily Convertible Preferred Stock (the Series E-1 Convertible Preferred Stock) with an aggregate stated liquidation preference of approximately $31.1 million;

8% Series D Mandatorily Convertible Preferred Stock (the Series D Convertible Preferred Stock) with an aggregate stated liquidation preference of approximately $93.4 million; and

NBCU Option II, which was granted to NBCU on May 4, 2007.

These exchanges increased income attributable to common stockholders by approximately $67.4 million, net of transaction expenses.

Also on August 21, 2007, in accordance with the terms of the Master Transaction Agreement:

CIG exchanged with the Company approximately $95.6 million aggregate stated liquidation preference of Series F Non-Convertible Preferred Stock for an equal aggregate stated liquidation preference of newly issued 8% Series A-2 Non-Convertible Preferred Stock (Series A-2 Preferred Stock); and

CIG exchanged with the Company approximately $114.4 million aggregate stated liquidation preference of Series F Non-Convertible Preferred Stock for $200.0 million aggregate stated liquidation preference of newly issued Series E-2 Mandatorily Convertible Preferred Stock (the Series E-2 Convertible Preferred Stock), resulting in a decrease to income attributable to common stockholders of approximately $85.6 million.

The Master Transaction Agreement provides that the Series A-2 Preferred Stock will become exchangeable into a new series of convertible preferred stock of the Company promptly following the Call Closing or, if the Call Closing does not take place, upon the Call Closing deadline as defined in the Call Agreement.

In addition, because the Company accepted for exchange less than 90% of the outstanding shares of $14^{1}/_{4}$% Preferred Stock owned by holders other than CIG, the Contingent Exchange provisions of the Master Transaction Agreement took effect. As a result, on August 21, 2007 NBCU exchanged with the Company approximately $31.6 million aggregate stated liquidation preference of 11% Series B Preferred Stock for an equal principal amount of Series B Notes, and CIG exchanged approximately $8.1 million aggregate stated liquidation preference of Series A-2 Preferred Stock for an equal principal amount of Series B Notes. The Series B Notes rank senior in right of payment to all classes of the Company s preferred stock, including the Senior Preferred Stock.

As of September 30, 2007, in accordance with the terms of the 2nd Amendment, NBCU holds $250 million aggregate liquidation preference (25,000 shares) of 11% Series B Preferred Stock. Under the terms of a Put/Call Agreement entered into by the Company, NBCU and CIG on August 21, 2007, NBCU has the right to require the Company to purchase, and the Company has the right to require NBCU to sell the 25,000 shares of 11% Series B Preferred Stock at any time after the Senior Debt has been refinanced or the Company has entered into arrangements providing for a third party to purchase all Senior Debt as to which the holders thereof exercise any right they may have to require the Company to purchase such debt under the applicable change in control provisions of the Senior Debt, as more fully described in note 3. The exercise price of the 11% Series B Preferred Stock would be $250 million aggregate liquidation preference of Series D Convertible Preferred Stock or, if the exercise date occurs after August 21, 2009, $250 million aggregate liquidation preference of Series G Mandatorily Convertible Preferred Stock (the Series G Preferred Stock). The Series G Preferred Stock would have terms substantially identical to those of the Series D Convertible Preferred Stock except that dividends would accrue from and after August 21, 2009 at a rate of 11% per annum instead of 8%. The parties to the Put/Call Agreement also agreed that the 11% Series B Preferred Stock retained by NBCU will have the same relative ranking with respect to dividends and distributions upon liquidation, winding up or dissolution of the Company as the Series D Preferred Stock and that the shares of Series D Preferred Stock or Series G Preferred Stock, as applicable, issued in payment of the exercise price shall carry accrued dividends from August 21, 2007.

The Exchange Offer included the solicitation of consents from the holders of each series of Senior Preferred Stock to amend their respective certificates of designation (the Preferred Stock Amendment) to eliminate (i) all voting rights, other than voting rights required by law, (ii) the Company s obligation to repurchase the Senior Preferred Stock upon a change of control, (iii) all redemption rights, (iv) in the case of the 14 1/4% Preferred Stock, all exchange rights, and (v) substantially all of the restrictive covenants applicable to such series of Senior Preferred Stock, including the limitations on the incurrence of additional indebtedness, restricted payments and transactions with affiliates. More than 90% of the holders of each class of Senior Preferred Stock approved the Preferred Stock Amendment, and the holders of a majority of the total voting power of the Company s outstanding voting stock approved the amendment on July 27, 2007. The amendment became effective on August 21, 2007 and the Senior Preferred Stock that was not tendered and accepted in the Exchange Offer no longer has any redemption rights. As a result, the carrying value of the Senior

Table of Contents

Preferred Stock that remained outstanding after the closing of the Exchange Offer is reflected in Stockholders equity in the Company s consolidated balance sheet as of September 30, 2007. In addition, as their sole and exclusive remedy for the Company s failure to redeem the Senior Preferred Stock in 2006 as required, the holders of each series had the right, each voting separately and as one class, to elect two additional members to the Company s board of directors. Effective April 2, 2007, these holders elected four additional members to the Company s board of directors. The right to elect directors was eliminated by the Preferred Stock Amendment and the term of office of the directors elected on April 2, 2007 by the holders of the Senior Preferred Stock ended on the effective date of the Preferred Stock Amendment.

Two complaints seeking injunctive and other relief relating to the Exchange Offer were filed against the Company and seven of its directors in the Court of Chancery of the State of Delaware in and for New Castle County (the Court of Chancery). NBCU and CIG were also named as defendants in each of the complaints. One complaint was filed on June 13, 2007 by a group of plaintiffs purporting to hold shares of the Company s 14 1/4% Preferred Stock and the other complaint was filed on June 20, 2007 by a group of plaintiffs purporting to hold shares of the Company s 9 3/4% Preferred Stock. On July 10, 2007, the Court of Chancery denied the plaintiffs motion to enjoin the Exchange Offer and on July 20, 2007, the Delaware Supreme Court refused to hear the appeal of the Chancery Court s decision.

The following represents a summary of the changes in the Company s mandatorily redeemable and convertible preferred stock for the nine months ended September 30, 2007 (in thousands except share data):

	9 3/4% Convertible Preferred Stock	**11% Series B Convertible Exchangeable Preferred Stock**	**8% Series D Convertible Preferred Stock**	**8% Series A-2 Preferred Stock**	**Series E-1 Convertible Preferred Stock**	**Series E-2 Convertible Preferred Stock**	**12% Series B Convertible Preferred Stock**	**Total**
Mandatorily redeemable and convertible preferred stock:								
Balance at January 1, 2007	$ 171,029	$ 689,377	$	$	$	$	$	$ 860,406

Table of Contents

5. EARNINGS PER SHARE

The following table sets forth the computations of basic earnings per share and diluted earnings per share for the three and nine months ended September 30, 2007 (in thousands except share and per share data):

	Three months		Nine months	
Numerator:				
Net income attributable to common shareholders	$	223,985	$	108,995
Denominator:				
Weighted average common shares outstanding		74,749,229		73,793,009
Basic earnings per share	$	3.00	$	1.48
Numerator:				
Net income attributable to common shareholders	$	223,985	$	108,995
Effects of exchanges of $9^3/_4$% Preferred Stock and 11% Series B Preferred Stock, net of accrued dividends on convertible preferred stock		(153,185)		(123,275)
Interest on convertible debt		13,052		15,583
Net income (loss) attributable to common shareholders, as adjusted	$	83,852	$	1,303
Denominator:				
Weighted average common shares outstanding		74,749,229		73,793,009
Dilutive effects of stock options, warrants, restricted stock units, and unvested common stock		59,580,421		19,860,141
Assumed conversion of convertible preferred stock		345,695,941		359,714,623
Assumed conversion of convertible debt		422,816,456		170,814,825
Weighted average common shares outstanding, as adjusted		902,842,047		624,182,598
Diluted earnings per share	$	0.09	$	0.00

For the three and nine months ended September 30, 2006, basic and diluted loss per common share was computed by dividing net loss less dividends and accretion on redeemable preferred stock by the weighted average number of common shares outstanding during the period. The effect of all common stock equivalents is antidilutive. Accordingly, basic and diluted loss per share is the same for the three and nine-month periods ended September 30, 2006.

As of September 30, 2007 and 2006, the following securities, which could potentially dilute earnings per share in the future, were not included in the computation of earnings per share, because to do so would have been antidilutive (in thousands):

	September 30,	
	2007	2006
Stock options	59	17,682
Restricted Class A common stock outstanding and Restricted Stock Units		9,948
Class A common stock reserved for issuance under convertible securities		313,469
	59	341,099

6. COMPREHENSIVE LOSS

Comprehensive loss consists of the following:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2007	**2006**	**2007**	**2006**
Net income (loss)	$ 161,106	$ (51,964)	$ 73,357	$ (136,104)
Unrealized loss on cash flow hedge	(30,313)	(31,146)	(11,784)	(6,022)
Comprehensive income (loss)	$ 130,793	$ (83,110)	$ 61,573	$ (142,126)

Table of Contents

7. RESTRUCTURING

During 2005, the Company adopted a plan to substantially reduce or eliminate its sales of spot advertisements that were based on audience ratings and to focus its sales efforts on long form paid programming, non-rated spot advertisements and sales of blocks of air time to third party programmers. The following summarizes the activity in the Company s restructuring accrual for the nine months ended September 30, 2007 (in thousands):

	Balance December 31, 2006	Amounts Charged to costs and expenses	Accretion	Cash Payments	Balance September 30, 2007
Contractual obligations and other costs	$ 869	$	$ 26	$ (895)	$

8. SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow information and non-cash financing activities are as follows (in thousands):

	For the Nine Months Ended September 30, 2007	2006
Supplemental disclosures of cash flow information:		
Cash paid for interest	$ 80,918	$ 61,962
Cash paid for income taxes	$ 136	$ 2,736
Non-cash financing activities:		
Issuance of convertible debt in exchange for previously outstanding preferred stock	$ 493,479	$
Issuance of convertible preferred stock in exchange for previously outstanding preferred stock	$ 358,565	$
Issuance of preferred stock	$ 87,525	$
Issuance of convertible debt	$ 8,060	$
Call option issued in settlement of accrued dividends	$ 23,900	$
Accrual of dividends on preferred stock	$ 49,410	$ 61,638
Discount accretion on redeemable and convertible securities	$	$ 382

9. ACQUISITION AND DIVESTITURE OF BROADCAST ASSETS

In December 2006, the Company entered into an agreement to sell one of its low power television stations serving the New York market for a purchase price of $10 million. The transaction closed on July 27, 2007, and the Company recorded a gain on the sale of this station of approximately $7.8 million.

On May 30, 2007, the Company executed an agreement to sell a low power television station located in Columbus, Ohio for a purchase price of $0.5 million. Upon executing this agreement, the Company recorded an impairment charge of approximately $1.5 million for the difference in the carrying value of the station s FCC licenses and the agreed-upon purchase price. The impairment charge is reflected in Gain (loss) on sale or disposal of broadcast assets

in the accompanying consolidated statement of operations. The sale transaction closed on October 30, 2007.

The Company has options to purchase the assets of two television stations serving the Memphis and New Orleans markets for an aggregate purchase price of $36.0 million. The owner of these stations has the right to require the Company to purchase these stations at any time after January 1, 2007 through December 31, 2008, at the same price. On January 19, 2007, the owner of the station serving the New Orleans market exercised its right to require the Company to purchase this station for a purchase price of $18.0 million. The value of this station has been adversely affected by developments in the New Orleans television market related to the effects of Hurricane Katrina, and there can be no assurance that the value of this station upon acquisition will be equal to or exceed the price at which the Company is obligated to purchase this station. On June 4, 2007, the Company notified the owner of the station serving the Memphis market that the Company was exercising its right to purchase the Memphis station for a purchase price of $18 million. The Company has executed purchase agreements for both of these stations, and expects to close on both purchase agreements in December of 2007.

Table of Contents

10. STOCKHOLDERS EQUITY

On July 27, 2007, the holders of a majority of the total voting power of the Company s outstanding voting stock approved an amendment to the Company s certificate of incorporation to create a new class of non-voting common stock, Class D common stock, and to provide for 1,000,000,000 authorized shares of Class D common stock. The amendment also increases the number of authorized shares of the Company s common stock, Class A common stock and Class C common stock to 3,035,000,000, 1,000,000,000 and 1,000,000,000, respectively, and authorizes the issuance of the convertible securities, options and warrant described in the Master Transaction Agreement. This amendment became effective on August 21, 2007.

As more fully described in note 4, the Exchange Offer for the Senior Preferred Stock included a consent solicitation to amend the terms of the Senior Preferred Stock which, among other things, resulted in a loss of redemption rights for the shares that were not tendered in the Exchange Offer. The amendment became effective on August 21, 2007 and the carrying amount of non-tendered Senior Preferred Stock, including accrued and unpaid dividends, of approximately $63.2 million was reclassified into Stockholders equity on the Company s balance sheet. As of September 30, 2007, the aggregate liquidation preference, including accrued and unpaid dividends, of the $14^1/_4$% Preferred Stock and $9^3/_4$% Preferred Stock was $63.7 million and $0.7 million, respectively.

11. NEW ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return and is effective for fiscal years beginning after December 15, 2006. Adoption of this interpretation on January 1, 2007 did not have a material effect on the Company s financial position or results of operations.

In February 2007, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value, and is effective for fiscal years beginning after November 15, 2007. The Company has not determined the effect, if any, that SFAS 159 will have on its financial condition, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)* (SFAS 158). SFAS 158 requires a sponsor of defined benefit plans to, among other things, recognize the funded status of a benefit plan in its statement of operations and recognize in other comprehensive income certain gains and losses that arise during the period but are deferred under pension accounting rules. It also modifies the timing of reporting and adds certain disclosures. The recognition and disclosure elements of SFAS 158 are effective for fiscal years ending after December 15, 2006 and the measurement elements are effective for fiscal years ending after December 15, 2008. As the Company does not sponsor any defined benefit plans, SFAS 158 will not have an effect on the Company s financial position or results of operations.

Also in September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 provides a uniform definition of fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, but does not expand the areas in which fair value measurements are required. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The Company has not determined the impact, if any, that SFAS 157 will have on its financial position or results of operations.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Associated Risks and Uncertainties

This Report contains forward-looking statements that reflect our current views with respect to future events. All statements in this Report other than those that are simply statements of historical facts are generally forward-looking statements. These statements are based on our current assumptions and analysis, which we believe to be reasonable, but are subject to numerous risks and uncertainties that could cause actual results to differ materially from our expectations. All forward-looking statements in this Report are made only as of the date of this Report, and we do not undertake to update these forward-looking statements, even though circumstances may change in the future.

Among the significant risks and uncertainties which could cause actual results to differ from those anticipated in our forward-looking statements or could otherwise adversely affect our business or financial condition are those included in our annual report on Form 10-K for the fiscal year ended December 31, 2006 and the following:

- Our high level of debt and the restrictions imposed on us by the terms of our debt;
- Our history of significant losses and negative cash flow;
- The risks associated with our new sales strategy, which includes a return to the general network spot advertising market, or a decline in the rates at which we sell long form paid programming;
- The risk of loss of a portion of our distribution platform; and
- Changes in the legal and regulatory environment affecting broadcasters.

OVERVIEW

We are a network television broadcasting company which owns and operates the largest broadcast television station group in the United States, as measured by the number of television households in the markets our stations serve. We currently own and operate 60 broadcast television stations (including three stations we operate under time brokerage agreements, two of which we are in the process of acquiring), all of which carry our network programming, including stations reaching all of the top 20 U.S. markets and 39 of the top 50 U.S. markets. We provide network programming seven days per week, 24 hours per day, and reach approximately 95.5 million homes, or approximately 85% of prime time television households in the U.S., through our broadcast television station group and pursuant to distribution arrangements with cable and satellite distribution systems. Our current schedule of entertainment programming principally consists of television series that have appeared previously on other broadcast networks which we have purchased the right to air and programming produced by third parties who have purchased from us the right to air their programming during specific time periods. The balance of our programming consists of long form paid programming (principally infomercials), and local public interest programming. We have obtained audience ratings and share, market rank and television household data set forth in this Report from the most recent information available from Nielsen Media Research. We do not assume responsibility for the accuracy or completeness of this data.

As part of our strategic plan to rebrand and reposition our company, in February 2006 we commenced doing business under the name ION Media Networks and on June 26, 2006, following approval of our stockholders, we changed our corporate name from Paxson Communications Corporation to ION Media Networks, Inc.

We continue to implement significant changes to our business strategy, including changes in our programming and sales operations. Among the key elements of our new strategy are:

- changing our corporate name to ION Media Networks, Inc., with associated changes in our corporate logo and brand identity;
- rebranding our network from *i* to ION Television , which we began on January 29, 2007, to reflect our decision to expand from independent programming to content for broader audiences across various age groups and to be consistent with our corporate brand identity;

Table of Contents

significantly reducing our programming expenses by reducing our investments in new original entertainment programming and forming strategic alliances with both established and newly emerging content providers;

re-entering the general network spot advertising market;

utilizing our digital multicasting capability to launch new digital television services; and

exploring additional uses for our digital spectrum.

For the three and nine-month periods ended September 30, 2007, the airing of infomercials accounted for approximately 70% and 73%, respectively, of our net revenues. For both the three and nine-month periods ended September 30, 2006, infomercials accounted for approximately 81% of our net revenues.

While we expect that a substantial portion of our revenues will continue to be derived from long form paid programming, primarily infomercials, we are pursuing a more diversified revenue mix, which includes the addition of TV series through content agreements with Warner Bros., Sony, CBS and NBC Universal, which we have entered into since 2006. On June 29, 2007 we began airing programming under our content partnership arrangement with RHI Entertainment (RHI), a company involved in the production and distribution of miniseries and movies for television, that will provide our television network with access to RHI s library of over 4,000 hours of content as well as select original programming. Under this agreement, RHI now serves as our exclusive television programming supplier on Friday, Saturday and Sunday nights, planning and programming the 7 p.m. to 11 p.m. time periods, totaling 12 hours of programming per week. The agreement also provides for the U.S. broadcast premiere of at least six new RHI productions each year.

In September 2006, in partnership with NBC Universal, Scholastic Corp., Classic Media/Big Idea, and Corus Entertainment Inc., we launched *qubo*, a multi-platform children s entertainment network. The *qubo* analog service currently airs in weekly three hour programming blocks on ION Television and NBC and in Spanish over NBCU s Telemundo network. In January 2007, we launched a dedicated digital channel airing *qubo* 24 hours per day, seven days per week (24/7) across our entire television station group. In February 2007 we launched ION Life , a 24/7 digital broadcast network (a diginet) dedicated to health and wellness for consumers and families. We have secured distribution for ION Life and *qubo* on cable television services offered by Verizon, AT&T and Mediacom Communications, and continue to seek affiliation or retransmission agreements with additional cable and satellite providers for these diginets, as well as others we intend to develop in the future. We also expect to enter into additional content revenue sharing relationships in 2007 and beyond with various other content providers that we believe will broaden our television network s content appeal and demographic positioning.

RECAPITALIZATION TRANSACTIONS

On May 3, 2007, we entered into a Master Transaction Agreement (the Master Transaction Agreement) with NBC Universal, Inc. and certain of its affiliates (NBCU) and CIG Media LLC (CIG) providing for a recapitalization of our company. The primary components of the Master Transaction Agreement include:

NBCU s assignment of its rights under the Call Agreement, dated November 7, 2005 (the Call Agreement), including the right (the Call Right) to purchase the shares of our common stock held by Lowell W. Paxson, our former chairman and chief executive officer, and his affiliates (collectively, the Paxson Stockholders), with such shares representing a majority of the total voting power of our outstanding common stock;

CIG s exercise of the Call Right;

CIG s conducting of a cash tender offer (the Tender Offer) to purchase any and all shares of our Class A Common Stock, which closed on June 15, 2007;

CIG s investment of an additional $115 million in us through the purchase, for cash, of newly issued convertible subordinated debt;

Our conducting an exchange offer and consent solicitation to holders of the $14^{1}/_{4}$% Preferred Stock and the $9^{3}/_{4}$% Preferred Stock (the Exchange Offer) to exchange their preferred stock for newly issued convertible subordinated debt and preferred stock which, upon the occurrence of certain events, would automatically convert to common stock; and

Table of Contents

Our entering into a new stockholders agreement with CIG and NBCU which, upon becoming effective, provides that as long as either NBCU (together with its affiliates) or CIG (together with its affiliates) holds at least 25% of the voting power of our company, each such stockholder is entitled to approve certain actions involving us.

For further information regarding these transactions, you should refer to footnotes 2, 3, 4 and 10 of the accompanying consolidated financial statements.

Financial Performance:

Net revenues in the third quarter of 2007 increased 6% to $56.5 million from $53.3 million in the third quarter of 2006, mainly due to higher rates realized for direct response advertisements, partially offset by lower revenues generated from infomercials.

Net revenues in the first nine months of 2007 increased 2% to $171.5 million, from $168.0 million in the first nine months of 2006, as higher direct response rates were largely offset by lower infomercial revenues.

Operating income for the three months ended September 30, 2007 was $22.2 million, as compared to $2.0 million for the three months ended September 30, 2006. Operating income in 2007 reflects the $7.8 million gain from the sale of one of our low power television stations compared to a $1.6 million loss on disposal of broadcast assets for the same period in 2006. In addition to the revenue increase noted above, operating income in 2007 reflects a decrease in program rights amortization expense of $4.3 million and a $1.4 million reduction in stock-based compensation.

Operating income for the first nine months of 2007 was $46.8 million, as compared to $20.6 million in the first nine months of 2006. The increase is primarily due to a decrease in program rights amortization expense of $14.7 million, a $3.5 million reduction in stock-based compensation, and the increase in revenues.

Net income attributable to common stockholders in the third quarter of 2007 was $224.0 million, as compared to a $72.7 million net loss attributable to common stockholders in the third quarter of 2006. The change is due to the cancellation of preferred stock dividends and the gain on the extinguishment of mandatorily redeemable preferred stock as a result of our completion of the Exchange Offer and other transactions set forth in the Master Transaction Agreement, as more fully described in note 4 to the consolidated financial statements.

Net income attributable to common stockholders for the nine months ended September 30, 2007 was $109.0 million, as compared to $198.1 million loss for the same period of a year ago, the change being due to the completion of the aforementioned recapitalization transactions.

Cash used in operating activities was $7.5 million for the nine months ended September 30, 2007, as compared to $5.8 million for the nine months ended September 30, 2006, as higher cash interest payments in 2007 were largely offset by lower restructuring and other contractual payments.

Balance Sheet:

Our cash and cash equivalents increased during the nine months ended September 30, 2007 by $100.7 million to $159.3 million, as we issued new convertible subordinated debt to CIG and received $115.0 million in cash proceeds. As of September 30, 2007, our total debt, excluding discounts, amounted to $1.75 billion. Additionally, we have redeemable preferred stock currently outstanding with a total carrying value of $701.4 million as of September 30, 2007, none of which is required to be redeemed prior to 2013 (see **Liquidity and Capital Resources**).

Sources of Cash:

In addition to the $115.0 million of cash received from the issuance of new debt as discussed above, our principal sources of cash during the first nine months of 2007 were revenues from the sale of long form paid programming, direct response advertising and airtime to third party programmers, which we also expect to be our principal sources of cash for the remainder of 2007.

Key Company Performance Indicators:

We use a number of key performance indicators to evaluate and manage our business. One of the key indicators related to the performance of our long form paid programming is long form advertising rates. These rates, which decreased during the first nine months of 2007, can be affected by the number of television outlets through which long form advertisers can air their programs, weather patterns which can affect viewing levels and new product introductions. We monitor early indicators such as how new products are performing and our ability to increase or decrease rates for given time slots.

Table of Contents

In January 2007, we announced our reentry into the general network spot advertising market. As a result, program ratings will be one of the key indicators of the performance of our network spot business in 2007. As more viewers watch our programming, our ratings increase which can increase our revenues. As the year progresses, we will monitor pricing in the scatter market to determine where network advertising rates are trending.

RESULTS OF OPERATIONS

The following table sets forth net revenues, the components of operating expenses and other operating data for the three and nine months ended September 30, 2007 and 2006 (in thousands):

	Three Months ended September 30,				Nine Months ended September 30,			
	2007	%	2006	%	2007	%	2006	%
Net revenues (net of agency commissions)	$ 56,487	100.0	$ 53,338	100.0	$ 171,457	100.0	$ 167,999	100.0
Expenses:								
Programming and broadcast operations	13,140	23.3	14,209	26.6	41,009	23.9	42,416	25.2
Program rights amortization	5,027	8.9	9,373	17.6	13,707	8.0	28,398	16.9
Selling, general and administrative	14,702	26.0	15,945	29.9	47,823	27.9	51,688	30.8
Depreciation and amortization	8,071	14.3	9,071	17.0	24,952	14.6	26,810	16.0
Time brokerage fees	1,145	2.0	1,145	2.1	3,435	2.0	3,435	2.0
Restructuring charges (credits), net			25	0.0			(7,032)	(4.2)
Total operating expenses	42,085	74.5	49,768	93.3	130,926	76.4	145,715	86.7
Gain (loss) on sale or disposal of broadcast and other assets, net	7,799	13.8	(1,615)	(3.0)	6,232	3.6	(1,696)	(1.0)
Operating income	$ 22,201	39.3	$ 1,955	3.7	$ 46,763	27.3	$ 20,588	12.3
Other Data:								
Program rights payments and deposits	$ 5,440		$ 2,290		$ 12,450		$ 5,290	
Purchases of property and equipment	1,309		2,416		4,035		11,522	
Cash flows used in operating activities	(2,697)		(7,873)		(7,500)		(5,773)	
Cash flows provided by (used in) investing activities	6,658		(4,577)		3,982		(15,399)	
Cash flows provided by (used in) financing activities	10,783		(19)		104,179		(1,547)	

THREE MONTHS ENDED SEPTEMBER 30, 2007 AND 2006

Net revenues in the third quarter of 2007 increased 6% to $56.5 million from $53.3 million in the third quarter of 2006, mainly due to higher rates realized for direct response advertisements, partially offset by lower revenues generated from infomercials.

Programming and broadcast operations expenses decreased to $13.1 million during the three months ended September 30, 2007 from $14.2 million in the same period a year ago, mainly due to lower program residuals expense and the termination of an operating lease.

Program rights amortization expense decreased to $5.0 million during the three months ended September 30, 2007, compared with $9.4 million for the same period in 2006, mainly due to the replacement of our previously existing program library with less expensive, shorter term licensing arrangements. Program rights amortization expense for the third quarter of 2006 includes a charge of $1.6 million to write down to net realizable value and reduce the amortizable lives of certain programming assets.

Selling, general and administrative expenses (SG&A) was $14.7 million during the three months ended September 30, 2007, compared with $15.9 million for the comparable period in the prior year. The decrease was primarily due to lower stock-based compensation expenses.

Depreciation and amortization expense decreased to $8.1 million during the three months ended September 30, 2007, from $9.1 million during the three months ended September 30, 2006, mainly due to property and equipment becoming fully depreciated and disposed.

On July 27, 2007, we completed the sale of one of our low power television stations and recorded a gain of approximately $7.8 million. In the third quarter of 2006, we recorded a charge of approximately $1.3 million related to the obsolescence and disposal of some of our property and equipment.

Interest expense, including interest on debt held by CIG and NBCU, for the three months ended September 30, 2007 increased to $41.5 million from $28.5 million for the three months ended September 30, 2006. The increase is due to the additional subordinated debt issued in 2007 (see **Liquidity and Capital Resources**).

Dividends on mandatorily redeemable preferred stock were $4.1 million for the three months ended September 30, 2007, as compared to $20.2 million for the three months ended September 30, 2006. The decrease is mainly due to the completion of the Exchange Offer during the quarter, which resulted in the mandatorily redeemable preferred stock either being exchanged for other securities or ceasing to be mandatorily redeemable (see **Liquidity and Capital Resources** and note 4 to the consolidated financial statements). In addition, during the three months ended September 30, 2007 we recorded a gain on the extinguishment of mandatorily redeemable preferred stock in the approximate amount of $185.3 million as a result of our completion of the Exchange Offer.

We recorded a loss in the equity of unconsolidated investments of approximately $0.8 million in the three months ended September 30, 2007, compared with $0.7 million in the same period a year ago.

Exchange transactions pertaining to redeemable and convertible preferred stock during the three months ended September 30, 2007 (see note 4 to the consolidated financial statements and **Liquidity and Capital Resources**) increased income available to common stockholders by $74.5 million, as the fair value of new convertible debt and preferred stock that we issued in exchange for the $9^{3}/_{4}$% Convertible Preferred Stock and 11% Series B Preferred Stock was approximately $92.6 million and $67.4 million respectively, net of transaction expenses, less than their carrying values. These amounts were partially offset by our issuance to CIG of $200.0 million stated liquidation preference of preferred stock in exchange for a different series of preferred stock with a stated liquidation preference of approximately $114.4 million.

Dividends and accretion on redeemable and convertible preferred stock amounted to $10.3 million for the three months ended September 30, 2007, as compared to $20.8 million during the same period of a year ago. The decrease is due to the Exchange Offer and related transactions alluded to previously.

NINE MONTHS ENDED SEPTEMBER 30, 2007 AND 2006

Net revenues in the first nine months of 2007 increased 2% to $171.5 million, from 2006 revenues of $168.0 million, as higher direct response rates were largely offset by lower infomercial revenues.

Programming and broadcast operations expenses were $41.0 million during the nine months ended September 30, 2007, as compared to $42.4 million in the same period a year ago. The decrease is due to lower program residuals expense and music license fees, partially offset by higher employee related costs and, to a lesser extent, higher expenses related to public interest programming.

Program rights amortization expense decreased to $13.7 million during the nine months ended September 30, 2007, compared with $28.4 million for the nine months ended September 30, 2006. The decrease is due to the replacement of our previously existing programming assets with less expensive, shorter term program license agreements and an $8.2 million charge recorded in 2006 to write down to net realizable value and reduce the amortizable lives of certain programming assets.

SG&A was $47.8 million during the nine months ended September 30, 2007, compared with $51.7 million for the comparable period in the prior year. The decrease was primarily due to a $3.5 million decrease in stock-based compensation expense and lower employee related costs of approximately $1.8 million, partially offset by expenses associated with our reentry into the general network spot advertising market of approximately $1.9 million.

Depreciation and amortization expense decreased to $25.0 million during the nine months ended September 30, 2007 from $26.8 million in the same period a year ago, mainly due to property and equipment becoming fully depreciated and disposed.

As previously discussed, we recorded a gain on the sale of one of our low power television stations of approximately $7.8 million in the third quarter of 2007. In addition, on May 30, 2007, we executed an agreement to sell another of our low power television stations for a purchase price of $0.5 million. In connection with our entering into this agreement, we recorded an impairment charge of approximately $1.5 million for the difference in the carrying value of the station s FCC licenses and the agreed-upon purchase price. We consider many of our low power television stations to be non-core assets that are not critical to our business. We intend to explore additional sales of non-core assets in order to raise additional cash.

On August 10, 2006, the terms of a contract for which we had accrued all of our obligations as part of our 2005 restructuring were amended to reduce the estimated amount due under the contract as of June 30, 2006 by approximately $7.2 million. As a result, we recorded a corresponding credit to restructuring charges in our statement of operations for the nine months ended September 30, 2006.

Interest expense, including interest on debt held by CIG and NBCU, for the nine months ended September 30, 2007 increased to $100.1 million from $84.3 million in the first nine months of 2006, due to the additional convertible debt issued in 2007 (see **Liquidity and Capital Resources**).

Dividends on mandatorily redeemable preferred stock were $47.3 million for the nine months ended September 30, 2007, as compared to $58.8 million for the nine months ended September 30, 2006. The decrease is mainly due to the completion of the Exchange Offer in August 2007 as discussed above. In addition, during the nine months ended September 30, 2007 we recorded a gain on the extinguishment of mandatorily redeemable preferred stock in the approximate amount of $185.3 million as a result of our completion of the Exchange Offer.

We recorded a loss in the equity of unconsolidated investments in the first nine months of 2007 of approximately $2.8 million, compared with $0.7 million for the same period in the prior year.

Exchange transactions pertaining to redeemable and convertible preferred stock during the first nine months of 2007 increased income available to common stockholders by $85.0 million, as the fair value of new convertible debt and preferred stock that we issued in exchange for the $9^{3}/_{4}$% Convertible Preferred Stock and 11% Series B Preferred Stock were approximately $92.6 million and $78.0 million respectively, net of transaction expenses, less than their carrying values. These amounts were partially offset by our exchange of preferred stock with CIG discussed previously.

Dividends and accretion on redeemable and convertible preferred stock amounted to $48.1 million for the nine months ended September 30, 2007, as compared to $62.0 million during the same period a year ago. The decrease is due to the Exchange Offer and related transactions alluded to previously.

LIQUIDITY AND CAPITAL RESOURCES

Our primary capital requirements are to fund debt service payments, capital expenditures for our television properties and programming rights payments. Our primary source of liquidity is our cash on hand. As of September 30, 2007, we had $159.2 million in cash and cash equivalents and had working capital of approximately $95.8 million. We believe that our cash on hand, cash we expect to generate from future operations and our ability to defer interest on our convertible subordinated debt will provide the liquidity necessary to meet our obligations and financial commitments through the next four fiscal quarters. In addition, we have the ability to service a portion of our senior debt through in-kind payments of additional debt in lieu of cash.

On May 4, 2007, we received $100 million in cash proceeds through the issuance of $100.0 million of 11% Series B Mandatorily Convertible Senior Subordinated Notes due 2013 (the Series B Notes) to CIG. In August 2007, CIG purchased from us an additional $15.0 million of Series B Notes for an equal amount of cash in connection with professional fees and other expenses we incurred as a result of our entering into the Master Transaction Agreement. Our total transaction expenses have exceeded $15 million. The Series B Notes bear simple interest at an 11% annual rate payable quarterly in arrears commencing on July 31, 2007. For each quarterly interest period we may, at our option, elect to pay interest on the Series B Notes either entirely in cash or by deferring the payment of all such interest to any subsequent interest payment date. Interest that is deferred will not be added to the principal of the Series B Notes or earn interest. We have elected to defer the interest pertaining to the interest periods ending July 30, 2007 and October 30, 2007. The Series B Notes will mature on July 31, 2013, and are not callable prior to maturity. At the holder s option, the Series B Notes are convertible at any time into shares of Class A common stock at a conversion price of $0.75 per share, increasing at a rate per annum of 11% from the issuance of the Series B Notes through the date of conversion. At any time following the first anniversary of the issuance date, the Series B Notes will be mandatorily converted into shares of either Class A common stock or Class C common stock (at the same conversion price) upon the occurrence of certain events related to the value of the Company s common stock, as described in the indenture governing the Series B Notes.

On December 30, 2005, we refinanced all of our outstanding senior secured and senior subordinated debt by borrowing $325 million of new term loans and issuing $400 million of first lien senior secured floating rate notes and $405 million of second lien senior secured floating rate notes. The term loans and the first lien notes bear interest at a rate of three-month LIBOR plus 3.25%, are secured by first priority liens on substantially all of our and our subsidiaries assets and mature on January 15, 2012. The second lien notes bear interest at a rate of three-month LIBOR plus 6.25% and mature on January 15, 2013. Most of our obligations under the second lien notes are secured

by second priority liens on substantially all of our and our subsidiaries assets. All three tranches (collectively, our Senior Debt) require quarterly interest payments in January, April, July and October of each year. For any interest period ending prior to January 15, 2010, we have the option to pay interest on the second lien notes either (i) entirely in cash or (ii) in kind through the issuance of additional second lien notes or by increasing the principal amount of the outstanding second lien notes. If we elect to pay interest in kind on the second lien notes, the interest rate for the corresponding interest period will increase to LIBOR plus 7.25%. Since the date of their issuance, we have elected to pay all of the interest on the second lien notes in cash. We made interest payments on our Senior Debt on January 16, April 16, July 15, and October 15, 2007 in the amounts of $27.2 million, $26.6 million, $26.9 million, and $26.9 million respectively; an additional interest payment in the amount of $27.2 million is due on January 15, 2008.

Table of Contents

On February 22, 2006, we entered into two floating to fixed interest rate swap arrangements which fixed the interest rates through maturity at 8.355% for the term loans and first lien notes and 11.36% for the second lien notes (assuming interest thereon is paid in cash). As a result, if we continue to elect to pay cash interest on our second lien notes beyond January 15, 2008, our annual cash interest obligations with respect to our $1.13 billion of Senior Debt amount to approximately $108 million. Any interest payment for which we elect to pay interest in kind on the second lien notes would reduce our cash interest obligation for that interest period by approximately $11.6 million.

Our term loan facility and the indentures governing our first lien notes and second lien notes contain covenants which, among other things, limit our and our subsidiaries ability to incur more debt, pay dividends on or redeem our outstanding capital stock, make certain investments, enter into transactions with affiliates, create additional liens on our assets, sell assets and merge with any other person or transfer substantially all of our assets. Subject to limitations, we may incur up to $650 million of additional subordinated debt, which we may use to retire other subordinated obligations, including preferred stock, or for other corporate purposes not prohibited by the applicable covenants. We issued an aggregate of $616.5 million of additional subordinated debt through the issuance of the Series B Notes and the additional convertible subordinated debt issued in the Exchange Offer and related transactions discussed below. We will be required to make an offer to purchase the outstanding notes and repay the term loans with the proceeds of any sale of our stations serving the New York, Los Angeles and Chicago markets and with the proceeds of other asset sales that we do not reinvest in our business. We will also be required to make an offer to purchase a portion of the outstanding notes and repay a portion of the outstanding term loans within 270 days after any quarterly determination date as of which the ratio of the appraised value of our television stations to the aggregate outstanding principal amount of the term loans and the notes (excluding any second lien notes we may issue in payment of interest on the second lien notes) is less than 1.5 to 1.0.

The holders of the Senior Debt have the right to require us to repurchase these obligations following the occurrence of certain changes in the control of our company. The Master Transaction Agreement requires that if we fail to enter into arrangements reasonably satisfactory to CIG providing for a third party to purchase any Senior Debt for which the holders elect to exercise any right they may have to require us to repurchase such debt as a result of the transactions set forth in the Master Transaction Agreement, we must use our reasonable best efforts to obtain a waiver of any such right from the holders of at least a majority in aggregate principal amount of each tranche of Senior Debt outstanding at the time of the waiver. If the waiver is not obtained, the parties to the Master Transaction Agreement shall restructure the underlying transactions so that the right to require us to repurchase the Senior Debt is not triggered. With the concurrence of CIG and NBCU, to date we have not sought any such waiver. On August 21, 2007, we, CIG and NBCU entered into the 2nd Amendment to the Master Transaction Agreement (the 2nd Amendment) providing for NBCU to retain $250 million aggregate liquidation preference of its 11% Series B Preferred Stock.

Events of default under the Senior Debt include the failure to pay interest within 30 days of the due date, the failure to pay principal when due, a default under any other debt in an amount greater than $10.0 million, the failure to pay a monetary judgment against us in an aggregate amount greater than $10.0 million, the failure to perform any covenant or agreement which continues for 60 days after we receive notice of default from the indenture trustee or holders of at least 25% of the outstanding debt, and the occurrence of certain bankruptcy events. We are currently in compliance with all of our debt covenants.

In August 2007, pursuant to the Master Transaction Agreement, we completed the Exchange Offer for the outstanding shares of $14^{1}/_{4}$% Preferred Stock and $9^{3}/_{4}$% Preferred Stock (collectively, the Senior Preferred Stock), whereby holders of the Senior Preferred Stock had the opportunity to tender their shares of Senior Preferred Stock in exchange for newly issued convertible subordinated debt and preferred stock. Approximately 90.6% of the outstanding $14^{1}/4$% Preferred Stock and approximately 99.6% of the outstanding $9^{3}/4$% Preferred Stock was validly tendered and accepted in the Exchange Offer, including all of the shares held by CIG, which represented approximately 16% and 2% of the outstanding shares of $14^{1}/4$% Preferred Stock and $9^{3}/4$% Preferred Stock, respectively. We issued approximately $461.9 million aggregate principal amount of 11% Series A Mandatorily Convertible Senior Subordinated Notes due 2013 (Series A Notes) and approximately $34.1 million aggregate stated liquidation preference of 12% Series B Mandatorily Convertible Preferred Stock (12% Series B Preferred Stock) in exchange for $14^{1}/4$% Preferred Stock and $9^{3}/4$% Preferred Stock with aggregate liquidation preferences, including

accrued and unpaid dividends, as of July 31, 2007 of approximately $604.9 million and $179.8 million, respectively. In addition, in accordance with the terms of the Master Transaction Agreement, NBCU and CIG exchanged preferred stock with stated liquidation preferences of approximately $31.6 million and $8.1 million, respectively, for equal principal amounts of Series B Notes.

The terms of the indentures governing the Series A Notes are substantially identical to those governing the Series B Notes, except that the conversion price of the Series A Notes is $0.90 per share. We do not anticipate electing to pay cash interest on either the Series A Notes or the Series B Notes at any time in the foreseeable future.

Table of Contents

The Master Transaction Agreement included several exchange transactions that were consummated during the nine months ended September 30, 2007 whereby NBCU exchanged all but $250 million of its 11% Series B Preferred Stock for newly issued convertible preferred stock (as well as the aforementioned $31.6 million in Series B Notes). As a result of these transactions, all accrued and unpaid dividends on the 11% Series B Preferred Stock, which amounted to approximately $105.5 million as of April 30, 2007, were cancelled in exchange for our issuance to NBCU of a call option for shares of our Class B common stock which we valued at $23.9 million.

We had been required to redeem the $14^{1}/_{4}$% Preferred Stock and $9^{3}/_{4}$% Preferred Stock for cash by November 15, 2006 and December 31, 2006, respectively. The redemption prices of these securities at their mandatory redemption dates, which reflected the aggregate liquidation preference plus accumulated and unpaid dividends, were approximately $609.9 million and $171.0 million, respectively. We were unable to redeem these securities at the required redemption dates. Dividends continued to accrue on these securities based on their current aggregate liquidation preference, and the aggregate redemption value of these securities as of June 30, 2007 was $839.8 million. As a result of the Exchange Offer discussed above, most of the Senior Preferred Stock was exchanged for other securities which do not require redemption until 2013. In tendering their shares of Senior Preferred Stock in the Exchange Offer the holders of a majority of the outstanding shares of both series approved amendments to the respective certificates of designation eliminating the mandatory redemption rights of the Senior Preferred Stock. As a result, the Senior Preferred Stock which was not tendered in the Exchange Offer, the carrying amount of which is approximately $64.5 million as of September 30, 2007, is no longer required to be redeemed by us, nor are we required to repurchase it upon a change of control.

We have options to purchase the assets of two television stations serving the Memphis and New Orleans markets for an aggregate purchase price of $36.0 million. The owners of these stations have the right to require us to purchase these stations at any time after January 1, 2007 through December 31, 2008, at the same price. We are currently operating these stations under time brokerage agreements, under which we pay monthly fees to the station owners. On January 19, 2007, the owner of the station serving the New Orleans market exercised its right to require us to purchase this station at a purchase price of $18 million. The value of this station has been adversely affected by developments in the New Orleans television market related to the effects of Hurricane Katrina, and there can be no assurance that the value of this station upon acquisition will be equal to or exceed the price at which we are obligated to purchase this station. On June 4, 2007, we notified the owner of the station serving the Memphis market that we were exercising our right to purchase the Memphis station for a purchase price of $18 million. We have executed purchase agreements for both of these stations, and expect to close on both of these purchase transactions in December of 2007.

As of September 30, 2007, we were obligated under the terms of our outstanding debt, programming contracts, operating lease agreements and employment agreements to make future payments as follows (in thousands):

	2007	2008	2009	2010	2011	Thereafter	Total
Term loans and notes payable	$ 19	$ 83	$ 95	$ 46	$	$ 1,746,539	$ 1,746,782
Obligations for program rights and other program rights commitments	5,313	2,262	375				7,950
Operating leases and employment agreements	6,417	23,277	17,170	14,820	12,897	81,460	156,041
Total	$ 11,749	$ 25,622	$ 17,640	$ 14,866	$ 12,897	$ 1,827,999	$ 1,910,773

In addition to the amounts noted above, the employment agreement with our chief executive officer may, under certain circumstances, require us to make separation payments aggregating up to $5.0 million during the period ending November 7, 2009.

Cash used in operating activities was $7.5 million for the first nine months of 2007, as compared to $5.8 million for the nine months ended September 30, 2006, as higher cash interest payments in 2007 were largely offset by lower restructuring and other contractual payments. Cash used in operating activities in 2007 also includes $4.0 million of expenses related to the recapitalization transactions.

Cash provided by investing activities was $4.0 million in the first nine months of 2007, as compared to cash used in investing activities of $15.4 million in the first nine months of 2006. During 2007, we received cash proceeds of approximately $10.0 million from the sale of one of our low power television stations. Capital expenditures, which consist primarily of the costs of converting our stations to digital broadcasting as required by the FCC and purchases of broadcast equipment for our television stations, were $4.0 million and $11.5 million for the nine months ended September 30, 2007 and 2006, respectively. We currently own or operate 52 stations broadcasting in digital (in addition to broadcasting in analog). With respect to our remaining stations, we have received a construction permit from the FCC and expect to complete the build-out on one station during 2007, we are awaiting construction permits from the FCC with respect to six stations and one of our stations has not received a digital channel allocation and therefore will not be converted until the end of the digital transition. We expect our total capital expenditures for the remainder of 2007 will be approximately $2.0 million. In August 2006, we formed a joint venture with NBCU and three other parties for the launch of a

Table of Contents

children s programming service. We invested $2.4 million in this venture in 2006 and expect to invest an additional $2.4 million during the next twelve months. In the first nine months of 2007, we purchased equity securities in the amount of $2.0 million from an independent programmer who had entered into an agreement with us to purchase broadcast time on our television network. Upon this entity s achievement of certain milestones, we will be required to invest an additional $1.0 million. We expect to fund all of our capital expenditures and other investments for the remainder of 2007 with our cash on hand and cash from operations.

Cash provided by financing activities was approximately $104.2 million in the first nine months of 2007 due to the proceeds from the issuance of the Series B Notes to CIG, net of expenses related to the recapitalization transactions of approximately $10.1 million. Cash used in financing activities for the nine months ended September 30, 2006 was approximately $1.5 million, and is comprised primarily of loan origination costs in connection with the December 30, 2005 refinancing transaction.

New Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value, and is effective for fiscal years beginning after November 15, 2007. We have not determined the effect, if any, that SFAS 159 will have on our financial condition, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 158, *Employers Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)* (SFAS 158). SFAS 158 requires sponsors of defined benefit plans to, among other things, recognize the funded status of a benefit plan in its statement of operations and recognize in other comprehensive income certain gains and losses that arise during the period but are deferred under pension accounting rules. It also modifies the timing of reporting and adds certain disclosures. The recognition and disclosure elements of SFAS 158 are effective for fiscal years ending after December 15, 2006 and the measurement elements are effective for fiscal years ending after December 15, 2008. As we do not sponsor any defined benefit plans, SFAS 158 will not have an effect on our financial position or results of operations.

Also in September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 provides a uniform definition of fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, however it does not expand the areas in which fair value measurements are required. SFAS 157 is effective for fiscal years beginning after November 15, 2007. We have not determined the impact, if any, that SFAS 157 will have on our financial position or results of operations.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At September 30, 2007, there had not been a material change in the market risk information disclosed in Item 7A., *Quantitative and Qualitative Disclosures About Market Risk*, of our 2006 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

As required by Rule 13a-15 under the Securities Exchange Act of 1934, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Report. This evaluation was carried out under the supervision and with the participation of management, including our principal executive officer and our principal financial officer. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Based upon our evaluation, our principal executive officer and our principal financial officer concluded that, as of the end of the period covered by this Report, our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

There were no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is involved in litigation from time to time in the ordinary course of business. The Company believes the ultimate resolution of these matters will not have a material effect on its financial position, cash flows or results of operations.

In June 2007, two complaints were filed against the Company and seven of its directors in the Court of Chancery of the State of Delaware in and for New Castle County (the Court of Chancery). One complaint was filed by a group of plaintiffs purporting to hold shares of the Company s 14¼% Preferred Stock and the other complaint was filed by a group of plaintiffs purporting to hold shares of the Company s 9¾% Preferred Stock.

Each of the complaints seeks injunctive and other relief relating to the Exchange Offer (see note 4). On July 10, 2007, the Court of Chancery denied the plaintiffs motion to enjoin the Exchange Offer and on July 20, 2007, the Delaware Supreme Court refused to hear the appeal of the denial of plaintiffs motion to enjoin the Exchange Offer.

NBCU, Citadel Investment Group LLC and CIG are also named as defendants in each of the lawsuits.

The Company believes that each of the complaints is without merit as to it and all of the director defendants. The Company and the director defendants intend to vigorously defend against each of the complaints.

Item 1a. RISK FACTORS
