ITEM 9. REGULATION FD DISCLOSURE INFORMATION PROVIDED UNDER ITEM 12.

Information required by Item 12 is being provided under this Item 9 based on SEC interim filing guidance.

On April 14, 2003, Ferro Corporation issued a press release announcing its current forecast of financial results for the quarter ended March 31, 2003. A copy of this release is attached hereto as Exhibit 99.1. Ferro anticipates that income from continuing operations for the first quarter 2003 will be between \$0.21 and \$0.23 per share, including the pre-tax charges described in the release, compared with \$0.12 per share for the first quarter 2002, which included similar pre-tax charges described in the release.

Ferro believes that the disclosure in the press release of income from continuing operations, excluding severance & integration costs, provides useful information to investors regarding Ferro's financial results in light of costs associated with Ferro's cost reduction and integration programs.
