Board Meetings and Committees

The Board of Directors is composed of six outside directors and one employee director, Mr. Trotter. The Board has determined that each director other than Mr. Trotter is independent for purposes of Marketplace Rule 4200(a)(15) of the National Association of Securities Dealers, Inc. (NASD). The Board of Directors held a total of 10 meetings during the fiscal year ended December 31, 2003. No director attended fewer than 75% of the aggregate of all meetings of the Board of Directors and any committee on which such director served during the period of such service. Currently, the Board of Directors does not have a policy regarding director attendance at the Company's annual meeting of stockholders. All of the directors attended last year's annual meeting of stockholders in person or by telephone.

The Board presently has an Executive Committee, an Audit Committee, a Compensation Committee and a Nominating Committee. The Executive Committee, which acts on Board matters that arise between meetings of the full Board of Directors, consists of Dr. Feldman, Mr. Holliman and Mr. Howse and met four times during 2003.

Audit Committee

The Audit Committee consists of Mr. Howse, Mr. Altman and Mr. Holliman and met four times in 2003. The Audit Committee assists the Board of Directors in its oversight of financial reporting practices, including the independent auditors' qualifications and independence, and the performance of the Company's internal audit function. The Audit Committee appoints the Company's independent auditors, which appointment may be ratified by the shareholders. The Audit Committee meets independently with representatives of the Company's independent auditors and with representatives of senior management. The Committee reviews the general scope of the Company's annual audit, the fee charged by the independent auditors and other matters relating to internal control systems. In addition, the Audit Committee is responsible for approving, reviewing and monitoring the performance of non-audit services by the Company's auditors. The Audit Committee operates under a written charter that has been adopted by the Board of Directors.

The Board of Directors has determined that the composition of the Audit Committee, the attributes of its members and the responsibilities of the Audit Committee, as reflected in its charter, are in accordance with applicable NASD Marketplace Rules for audit committees. In particular, all audit committee members possess the required level of financial literacy, at least one member of the Audit Committee meets the current standard of requisite financial management expertise and the Board of Directors has determined that Elwood D. Howse, Jr., the Chairman of the Audit Committee, is an audit committee financial expert as defined in Item 401(h) of Regulation S-K of the Securities and Exchange Commission (the SEC). Additionally, Mr. Howse and each of the other members of the Audit Committee is an independent director as defined in NASD Marketplace Rule 4200(a)(15).

Compensation Committee

The Compensation Committee, which consists of Dr. Feldman and Mr. Howse, met one time during 2003. Each member of the Compensation Committee is an independent director as defined in NASD Marketplace Rule 4200(a)(15) and is an outside director as defined in Section 162(m) of the Internal Revenue Code. The

Compensation Committee reviews salaries and benefit programs designed for senior management, officers and directors and administers certain grants under the Company's stock option plans with a view to ensure that the Company is attracting and retaining highly qualified managers through competitive salary and benefit programs and encouraging extraordinary effort through incentive rewards.

Nominating Committee

The Nominating Committee examines and recommends nominations for the Board of Directors and officers of the Company. The Nominating Committee operates under a written charter, a copy of which is provided with this

Table of Contents

Proxy Statement as Annex A. The Company does not post the Nominating Committee Charter on its website. Although the Nominating Committee has not established minimum standards for Board nominees, the Nominating Committee generally seeks candidates with chief operating, executive or financial officer experience in complex organizations; a commitment to give the time and attention to the duties required of them; and evidence of an independent and inquiring mind willing to question management's assumptions. On an as needed basis, the Nominating Committee uses the services of outside consultants to assist the Nominating Committee to identify capable director candidates.

The Nominating Committee consists of Mr. Holliman and Dr. White, both of whom are independent directors under NASD Marketplace Rule 4200(a)(15). The Nominating Committee met one time during 2003. On January 24, 2004, the Board of Directors increased the number of directors constituting the entire Board from six to seven, and elected Michael D. Casey as a Class I director for a term expiring at the Annual Meeting. Mr. Casey was selected by the Company's Nominating Committee and the Board of Directors as a result of a candidate search conducted by the Nominating Committee. Mr. Casey was referred to the Nominating Committee by an outside consultant who specializes in the pharmaceutical industry. Other candidates were also referred by Board members and were considered. The Board concluded that Mr. Casey possessed extensive experience in the pharmaceutical and biotechnology fields that will be important to OrthoLogic as it further develops Chrysalin. The Nominating Committee nominated Mr. Trotter, Mr. Casey and Dr. Feldman for election as Class I directors for this year's annual meeting of stockholders.

Stockholder Nomination of Director Candidates

The Nominating Committee will consider for nomination as director of the Company any director candidate recommended or nominated by stockholders in accordance with the process outlined below.

Stockholders wishing to recommend candidates for consideration by the Nominating Committee may do so by providing the candidate's name, contact details, biographical data, and qualifications in writing to the Nominating Committee, c/o Secretary, 1275 West Washington Street, Tempe, Arizona 85281. The Board may change the process by means of which stockholders may recommend director candidates to the Nominating Committee. COMMITTEE REPORTS

The following Report of the Compensation Committee and Audit Committee of the Company's Board of Directors and the performance graph included elsewhere in this proxy statement shall not be deemed soliciting material or otherwise deemed filed and shall not be deemed to be incorporated by reference by any general statement incorporating by reference this proxy statement into any other filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report or the performance graph by reference therein.

Report of the Compensation Committee of the Board of Directors

The Committee recommends the compensation of the Chief Executive Officer to the Board and reviews and approves the design, administration and effectiveness of compensation programs for other key executive officers, including salary, cash bonus levels, other perquisites and certain option grants under the Company's stock option plans (the Plans).

Compensation Philosophy

The objectives of the Company's executive compensation policies are to attract, retain and reward executive officers who contribute to the Company's success, to align the financial interests of executive officers with the performance of the Company, to strengthen the relationship between executive pay and shareholder value, to motivate executive officers to achieve the Company's business objectives and to reward individual performance. During 2003,

the Company used base salary, executive officer cash bonuses and stock options to achieve these objectives. In carrying out these objectives, the Committee considers the following:

- (1) *The level of compensation paid to executive officers in positions of companies similarly situated in size and products.* To ensure that pay is competitive, the Committee, from time to time, compares the Company's executive compensation packages with those offered by other companies in the same or similar industries or with other similar attributes. The Company typically surveys publicly available information regarding companies listed on the Nasdaq National Market which are comparable in size, products or industry with the Company.

Table of Contents

- (2) *The individual performance of each executive officer.* Individual performance includes any specific accomplishments of such executive officer, demonstration of job knowledge and skills and teamwork.
- (3) *Corporate performance.* Corporate performance is evaluated both subjectively and objectively. Subjectively, the Compensation Committee discusses and makes its own determination of how the Company performed relative to the opportunities and difficulties encountered during the year and relative to the performance of competitors and business conditions. Objectively, corporate performance is measured by predetermined operating and financial goals.
- (4) *The responsibility and authority of each position relative to the other positions within the Company.*

The Committee does not quantitatively weigh these factors but considers all factors as a whole, using its discretion, best judgment and the experiences of its members, in establishing executive compensation. The application given each of these factors in establishing the components of executive compensation are as follows:

Base Salary. In establishing base salaries, the Committee believes that it tends to give greater weight to factors 1, 2 and 4 above. The Company seeks to pay salaries to executive officers that are commensurate with their qualifications, duties and responsibilities and that are competitive in the market. In conducting annual salary reviews, the Committee considers each individual executive officer's achievements during the prior fiscal year in meeting the Company's financial and business objectives, as well as the executive officer's performance of individual responsibilities and the Company's financial position and overall performance. The Committee considers the low, midpoint and upper ranges of base salaries publicly disclosed by companies that OrthoLogic believes are comparable to it and generally targets base salary to the mid-point of the ranges.

Performance Bonuses. In establishing performance bonuses, the Committee believes that it tends to give greater weight to factors 2 and 4 above and further believes that such performance bonuses are a key link between executive pay and stockholder value. The Company has adopted a Management Bonus Plan that is based upon the financial performance of the Company and other specific company-wide objectives established by the Committee and approved by the full Board of Directors. For 2003, executive bonuses were targeted at approximately 50% and 40% of the executive officers' base salaries if the goals were achieved, with the more senior executive officers having a higher percentage of total compensation from annual cash bonuses. The measures chosen by the Committee to evaluate the Company's performance may vary from year to year depending on the particular facts and circumstances at the time.

Option Grants. In establishing option grants or recommendations to the entire Board, the Committee believes it tends to give greater weight to factors 2 and 3 above. The Committee believes that equity ownership by executive officers provides incentives to build stockholder value and aligns the interests of officers with the stockholders. The Committee typically recommends or awards a grant under a Plan upon hiring executive officers, subject to a four-year vesting schedule. After the initial stock option grant, the Committee considers additional grants, usually on an annual basis, under the Plan. Options are granted at the current market price for the Company's Common Stock and, consequently, have value only if the price of the Common Stock increases over the exercise price for the period during which the option is exercisable. The size of the initial grant is usually determined with reference to the seniority of the officer, the contribution the officer is expected to make to the Company and comparable equity compensation offered by others in the industry. In determining the size of the periodic grants, the Committee considers prior option grants to the officer, independent of whether the options have been exercised, the executive's performance during the year and his or her expected contributions in the succeeding year. The Committee believes that periodic option grants provide incentives for executive officers to remain with the Company.

The Omnibus Budget Reconciliation Act of 1993 includes potential limitations on tax deductions for compensation in excess of \$1,000,000 paid to the Company's Chief Executive Office and four highest-paid executive officers. The Compensation Committee has analyzed the impact of this change in the tax law on the compensation policies of the

Company, has determined that historically the effect of this provision on the taxes paid by the Company has and would not have been significant and has decided for the present to not modify the compensation policies of the Company based on such changes in the tax law. In the event that the Committee determines that a material amount of compensation might potentially not be deductible, it will consider what actions,

Table of Contents

if any, should be taken to seek to make such compensation deductible without compromising its ability to motivate and reward excellent performance.

Chief Executive Officer Compensation

The Committee reviews the performance of the Chief Executive Officer at least annually. In February 2004, the Compensation Committee and Mr. Trotter reviewed the compensation terms of Mr. Trotter's employment agreement in light of the sale of the bone growth stimulation device business and the Company's new focus on research and development of biopharmaceuticals. The Compensation Committee reviewed data from a survey of salaries for companies comparable in size that are in the biopharmaceutical research and development industry and considered the Company's earnings and financial position. Based on these criteria, the Compensation Committee revised Mr. Trotter's employment agreement, including a new base salary at \$350,000 with an incentive bonus targeted at 50% of Mr. Trotter's base salary and special bonuses based on the occurrence of certain events.

In January 2004, the Compensation Committee met to determine bonuses based on performance during 2003 and awarded \$201,250 to its Chief Executive Officer and \$190,750 to its two other executive officers. The Chief Executive Officer also received a bonus of \$472,000 related to the sale of the Company's bone stimulation device business. For more information on the executive officers compensation, see the Summary Compensation Table on page 13. At the same January meeting, the Compensation Committee set performance goals for 2004 and structured the 2004 management bonus plan.

**PROPOSAL 2: APPROVAL OF AN AMENDMENT TO THE 1997
STOCK OPTION PLAN INCREASING SHARES AVAILABLE
FOR GRANT BY 1,000,000 SHARES**

The summary of the material features of the 1997 Plan in this Proxy Statement does not purport to be complete and is qualified in its entirety by reference to the 1997 Plan. A copy of the 1997 Plan is available upon request to the Secretary of the Company.

Stock options play a key role in the Company's ability to recruit, reward and retain executives and key employees. The Company believes that equity-based incentive programs help insure a tight link between the interests of its stockholders and employees and enhance the Company's ability to continue recruiting and retaining top talent. The Board believes that stockholders should adopt Proposal 2 to help the Company continue to meet these objectives.

Summary of 1997 Plan

The 1997 Plan was originally adopted by the Board of Directors on March 26, 1997. A total of 1,040,000 shares of Common Stock was reserved for issuance under the 1997 Plan at that time. Over 1998, 1999, 2000 and 2001, the Board and shareholders approved amendments to the 1997 Plan that increased the number of shares of Common Stock reserved for issuance by 375,000, 275,000, 1,000,000 and 500,000 shares respectively. The Board approved and is seeking shareholder approval for a proposal to increase the number of shares reserved by 1,000,000 additional shares.

Purposes. The purposes of the 1997 Plan are to attract and retain the best available employees and directors of the Company or any parent or subsidiary or affiliate of the Company which now exist or hereafter is organized or acquired by or acquires the Company, as well as appropriate third parties who can provide valuable services to the Company, to provide additional incentive to such persons and to promote the success of the business of the Company.

The 1997 Plan provides for the grant of options which qualify as incentive stock options (sometimes referred to herein as ISOs) under Section 422 of the Internal Revenue Code (the Code) and nonstatutory stock options which do not specifically qualify for favorable income tax treatment under the Code (sometimes referred to herein as NSOs). The 1997 Plan is administered by the Board of Directors or by a committee of directors appointed by the Board and constituted so as to permit the Plans to comply with the provisions of Rule 16b-3 (Rule 16b-3) under the 1934 Act.

The administering body is referred to herein as the Committee.

Share Reserve. The aggregate number of shares which may be issued pursuant to the exercise of options granted under the 1997 Plan (before amendment) is 3,190,000 shares of the Company's Common Stock, subject to

Table of Contents

adjustments in certain circumstances, including reorganizations, recapitalizations, stock splits, reverse stock splits, stock dividends and the like. As of April 15, 2004, a total of 1,651,650 shares were subject to outstanding options under the 1997 Plan, and 1,465,222 shares have been issued upon exercise of options under the 1997 Plan. If any outstanding option grant under the 1997 Plan for any reason expires or is terminated, the shares of Common Stock allocable to the unexercised portion of the option grant shall again be available for options under the 1997 Plan as if no options had been granted with respect to those shares.

Eligibility. Any employee of the Company or any of its subsidiaries is eligible to receive options under the 1997 Plan. Nonemployee directors are eligible to receive only NSOs under the 1997 Plan while employee directors are eligible for both ISOs and NSOs. As of April 15, 2004, approximately 32 employees and six non-employee directors were eligible to participate in the 1997 Plan.

In addition, any other individual whose participation the Committee determines is in the best interests of the Company is eligible to receive only NSOs under the 1997 Plan. The Committee has complete discretion to determine which eligible individuals are to receive option grants. In general, the only consideration received by the Company for the grant of an award will be past services or the expectation of future services, or both. The 1997 Plan does not confer on any optionee in the 1997 Plan any right with respect to continued employment or other services to the Company and will not interfere in any manner with the right of the Company to terminate an optionee's employment or other services.

Limitations on Awards. No grants are required to be made during any calendar year. In any calendar year, no individual may receive grants of options covering more than 200,000 shares. No ISO may be exercised more than ten years from the date of grant (five years in the case of a grant to an optionee owning more than 10% or more of the total combined voting power of all classes of stock to the Company or any ISO Group member), three months after the date the optionee ceases to perform services for the Company or any ISO Group member (for reasons other than death, disability or cause), one year after the date the optionee ceases to perform services for the Company or any other ISO Group member if cessation is due to death or disability, or the date the optionee ceases to perform services for the Company or any ISO Group member if cessation is for cause. No NSO may be exercised more than ten years from the date of grant, two years after the date the optionee ceases to perform services for the Company or any Affiliated Group member (for reasons other than death, disability, retirement or cause), three years after the date the optionee ceases to perform services for the Company or any Affiliated Group member if cessation is due to death, disability or retirement, or the date the optionee ceases to perform services for the Company or any Affiliated Group member if cessation is for cause.

Pricing and Payment of Options. The per share exercise price of each stock option granted under the 1997 Plan is established by the Committee at the time of grant. In the case of an ISO, the per share exercise price may be no less than 100% of the fair market value of a share of Common Stock on the date of grant (110% in the case of an optionee who owns, directly or indirectly, 10% or more of the outstanding voting power of all classes of stock of the Company). The per share exercise price of an NSO may be any amount determined in good faith by the Committee. With respect to ISOs, the aggregate fair market value of the Common Stock for which one or more options granted to an optionee may become exercisable during any one calendar year may not exceed \$100,000. The fair market value of the Common Stock equals the closing price on the date in question as reported on the Nasdaq National Market.

Under the 1997 Plan, the purchase price of an option is payable upon exercise: (i) in cash; (ii) by check; (iii) to the extent permitted by the particular option grant, by transferring to the Company shares of Common Stock of the Company at their fair market value as of the option exercise date (provided that the optionee held the shares of stock for at least six months); or (iv) if permitted by the Company, through a sale and remittance procedure by which an optionee delivers concurrent written instructions to a brokerage firm to sell immediately the purchased Common Stock and remit to the Company sufficient funds to pay for the options exercised and by which the certificates for the

purchased Common Stock are delivered directly to the brokerage firm. The Company may also extend and maintain, or arrange for the extension and maintenance of, credit to an optionee to finance the purchase of shares pursuant to the exercise of options, on such terms as may be approved by the Board of Directors or the Committee, subject to applicable regulations of the Federal Reserve board and any other applicable laws or regulations in effect at the time such credit is extended.

Table of Contents

The Committee may require, as a condition to exercise of an option, that the optionee pay to the Company the entire amount of taxes which the Company is required to withhold by reason of such exercise, in such amount as the Committee or the Board of Directors may determine.

Subject to certain limitations, the Committee may modify, extend or renew outstanding options. The Committee may not reduce the exercise price of outstanding options or accept the surrender of outstanding options and grant new options in substitution. Each option may have additional terms and conditions consistent with the Plan as determined by the Committee.

Exercise. The Committee has the authority to determine the vesting and exercise provisions of all grants under the 1997 Plan. In general under the 1997 Plan, no option shall be exercisable during the lifetime of an optionee by any person other than the optionee, or a guardian or legal representative.

Accelerating Events. Unless otherwise provided in the grant letter, 75% of each optionee's unvested options under the 1997 Plan will become immediately exercisable in full upon the acquisition by a third party of 100% of the Company's outstanding equity securities, a merger in which the Company is not the surviving corporation, a sale of all or substantially all of the Company's assets, or a similar reorganization of the Company. (If the optionee loses his position with the Company as a result of or subsequent to such an event, 100% of the optionee's unvested options will immediately become exercisable.) The unvested balance will vest in 12 equal monthly installments following the event or according to the optionee's individual vesting schedule, whichever is earlier.

Merger, Consolidation or Reorganization. In the event of a merger consolidation or reorganization with another corporation in which the Company is not the surviving corporation, the Board of Directors, the Committee (subject to approval of the Board) or the board of directors of any corporation assuming the obligations of the Company shall either (a) protect each outstanding and unexercised option by the substitution on an equitable basis of appropriate shares of the surviving corporation or (b) cancel each such option and make a cash payment to the optionee.

Termination or Amendment of the 1997 Plan. The Board of Directors may amend or modify the 1997 Plan at any time; provided, that shareholder approval shall be obtained for any action for which shareholders approval is required in order to comply with Rule 16b-3, the Code, or other applicable laws or regulatory requirements within such time periods prescribed. The 1997 Plan will terminate on March 25, 2007, unless sooner terminated by the Board of Directors.

Certain Federal Income Tax Consequences

The discussion that follows is a summary, based upon current law, of some of the significant federal income tax considerations relating to awards under the 1997 Plan. The following discussion does not address state, local or foreign tax consequences.

An optionee will not recognize taxable income upon the grant or exercise of an ISO. However, upon the exercise of an ISO, the excess of the fair market value of the share received on the date of exercise over the exercise price of the shares will be treated as a tax preference item for purposes of the alternative minimum tax. In order for the exercise of an ISO to qualify for the foregoing tax treatment, the optionee generally must be an employee of the Company from the date the ISO is granted through the date three months before the date of exercise, except in the case of death or disability, where special rules apply.

If shares acquired upon exercise of an ISO are not disposed of by the optionee within two years from the date of grant or within one year after the transfer of such shares to the optionee (the ISO Holding Period), then (i) no amount

will be reportable as ordinary income with respect to such shares by the optionee and (ii) the Company will not be allowed a deduction in connection with such ISO or the Common Stock acquired pursuant to the exercise of the ISO. If a sale of such Common Stock occurs after the ISO Holding Period has expired, then any amount recognized in excess of the exercise price will be reportable as a long-term capital gain, and any amount recognized below the exercise price will be reportable as a long-term capital loss. The exact amount of tax payable on a long-term capital gain will depend upon the tax rates in effect at the time of the sale. The ability of an optionee to utilize a long-term capital loss will depend upon the statutory limitations on capital loss deductions not discussed herein.

Table of Contents

A disqualifying disposition will generally result if Common Stock acquired upon the exercise of an ISO is sold before the ISO Holding Period has expired. In such case, at the time of a disqualifying disposition, the optionee will recognize ordinary income in the amount of the difference between the exercise price and the lesser of (i) the fair market value on the date of exercise or (ii) the amount realized on disposition. Any amount realized on the sale in excess of the fair market value of the date of exercise will be treated as a capital gain. If the amount realized on the sale is less than the exercise price, the optionee will recognize no ordinary income, and the loss will be reportable as a capital loss. The Company will be allowed a tax deduction in the year of any disqualifying disposition equal to the amount of ordinary income recognized by the optionee.

In general, an optionee to whom an NSO is granted will recognize no taxable income at the time of the grant. Upon exercise of an NSO, the optionee will recognize ordinary income in an amount equal to the amount by which the fair market value of the Common Stock on the date of exercise exceeds the exercise price of the NSO, and the Company will generally be entitled to a deduction equal to the ordinary income recognized by the optionee in the year the optionee recognizes ordinary income, subject to the limitations of Section 162(m) of the Code.

Valuation

As of April 15, 2004, the closing sale price for the Company's Common Stock, as reported on the Nasdaq National Market, was \$7.36 per share.

Consistent with the rules of the Securities and Exchange Commission regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation for, and overseeing the work of, the independent auditor. In recognition of this responsibility, the Audit Committee has included in its charter the responsibility to pre-approve all auditing services and permitted non-auditing services proposed to be performed by the independent auditor, subject to the de minimis exceptions for non-audit services that were not recognized as non-audit services at the time of engagement and which are subsequently approved by the committee prior to completion of the audit. No fees were paid to the independent auditor pursuant to the de minimis exception to the foregoing pre-approval policy in 2003.
